Back at Donghua Sacred Sect, Nie Wuya and the other two Dan Realm Experts were watching the battle in the air with eyes narrowed.

"Hai Jiao's strength is Half-Step to Budding Realm. That Dragon King should be the same too. He's a twenty-year-old unparalleled expert!" an old man could not help but exclaim.

"You want to kill me within five strokes?"

Wang Xian glowered at Hai Jiao coldly. With a move, he drew a long tail of flames in the air while he raked the enormous dragon claws at Hai Jiao.

"I said five, and meant five!"

Hai Jiao was infuriated as he bellowed with blue radiance exuding from his double horns.

An ox horn image that complemented the double horns in his hand slowly surfaced from his body.

Boom!

The two enormous ox horns hit the dragon claws of Wang Xian. Hai Jiao's body could not help but tremble a little.

"It's a suit. A suit of Inborn Spiritual Weapons!"

Wang Xian was astounded to see Spiritual Weapons complementing each other..

It was a suit of Spiritual Weapons with several items complementing each other such that they could explode double the amount of energy that they'd be able to when they were on their own.

Inborn Spiritual Weapons suit was rare, but compelling.

"Fourth move, Sea Serpent Absorption!"

Hai Jiao revealed a malevolent look.

As the official second strongest expert in the Underworld, he had promised to kill him within five moves, and it would not go beyond that.

This is the pride of an expert.

He raised the double horns as the seawater surrounded him immediately.

The sea began to spiral violently like a hurricane.

Boom boom!

Beside the Dong Hua Ritual Ground was a vast lake.

The whole lake began to tumble. With the absorption of Hai Jiao, the water from the lake began to spiral up into the air.

Sea Serpent Absorption.

"Gosh, is this the terrifying strength of an unparalleled expert?"

"This is too domineering. Any Inborn Expert would be trembling in their boots under such insane force!"

Those Inborn Experts who have yet to reach the Dan Realm were watching the Sea Serpent absorbing water with horror.

It was like seeing a domineering hurricane, a terrifying power from nature.

The water spun at a terrifying speed. Eventually, all the water from the sea gathered to form daunting ox horns.

Sharp horns.

Imagine seeing thousands of sharp horns spinning violently in the air, striking one at high speed. That would be hair-raising.

"Using energy to condense items. Isn't that what Budding Realm Experts can do? Hai Jiao can actually do that too!"

"Dan Realm Experts can use energy to draw objects while Budding Realm Experts can condense items. The class of the battle has been raised by a level. He's no doubt the second strongest expert in the Underworld. When he reaches Nie Wushuang's age, he probably can advance to Budding Realm!"

"That Dragon King is god damned mighty. The thing that could transform into Inferno Divine Dragon should be a Spiritual Flame Ball. The level of a Spiritual Flame Ball is quite daunting!"

Everyone craned their heads while gazing at that daunting scene from below. All of them gasped.

Even Dan Realm Experts also narrowed their eyes.

"His means of attack and weapons are all at their peaks such that I could not surpass four levels to beat him!"

Wang Xian studied the daunting Sea Serpent Absorption and took a deep breath.

Roar!

With a bellow, the Dragon Ball that was hovering above him shrouded him.

On the outside, Wang Xian seemed to be swallowed by the Inferno Divine Dragon.

Yet, Wang Xian transformed into a Divine Dragon at this moment.

He stared at Hai Jiao, who was dashing at him with cold eyes. Traces of murderous intent surfaced on his face.

"I don't need five moves to defeat you!"

Wang Xian's body trembled, drawing a trail of flames in the air while charging at that daunting Sea Serpent Absorption.

"Seeking your own death!"

Everyone watched with disdainful looks from below.

The five-hundred-meter Sea Serpent was absorbing the water, condensing all the water energy into razor-sharp horns.

In the face of such a domineering attack, one could only dodge.

Charging toward it was as good as digging his own grave!

# Chapter 508: You Guys Are Keeping His Life?

"The outcome is about to be decided!"

"That Dragon King will be killed soon! Hehe! He brought about his own demise. If the Lord of Sea Serpent Island can maintain the huge hundred-meter Sea Serpent Absorption for half an hour, he could destroy an entire city!"

"The might of the Sea Serpent Absorption is even more terrifying than a level 10 typhoon. Any creature that is sucked in will be ground to shreds!"

"Haha, kill the Dragon King! Since he's not joining the alliance of the orthodox sects, he will become a potential issue for us in the future. It's best to kill him now!"

"He is crazy to want to fight the Lord of Sea Serpent Island!"

On the Dong Hua Ritual Ground, the crowd was waiting to see the clash of the huge eight-meter Inferno Divine Dragon and the several-hundred-meter Sea Serpent Absorption. Subconsciously, many of them were smirking.

With regard to the newly established Saint-class Dragon Sect and the domineering behavior of the Dragon King, all of the other Sacred Sects didn't have a good impression.

In fact, it was more of fear. They were fearful of the strength of the Dragon Sect and the Dragon King.

If the Dragon King was to be killed here, they would be glad to witness it.

Wang Xian heard the discussion below him and ruthlessness beamed in his eyes.

"Kill me?"

He squinted his eyes and flames erupted from his body like a volcano!

"Die! Sea Serpent Absorption - Sea Serpent Crush!"

Hai Jiao stood in the eye of the Sea Serpent Absorption and the horns in his hands were rotating rapidly. He waved his arms and the Sea Sea Serpent Absorption clashed towards Wang Xian.

Rumble!

Endless explosions erupted as Wang Xian charged into the humongous Sea Serpent Absorption.

Flames gathered and formed dragon scales which covered his body.

Water energy coalesced and formed sharp objects which resembled cow horns and shot towards Wang Xian's body.

Terrifying shockwaves shook the entire sky.

The clash of water and fire had resulted in a large patch of ominous clouds forming over the skies.

Countless water droplets were gathering on the ominous clouds.

"When I transform into a dragon, I can even defeat Budding Realm experts overseas that possess battle techniques. A person who hasn't reached the Budding Realm in the Underworld like you would be no match for me!"

Before the cow horns formed from water energy could crash into Wang Xian, they were instantly vaporized.

Wang Xian swung his dragon claws directly at the body of Hai Jiao.

"What?"

When Hai Jiao saw Wang Xian breaking through and his Sea Serpent Absorption not dealing any damage to him, he was astonished.

"Shit! Shit! Shit!"

Seeing Wang Xian charging towards him rapidly, Hai Jiao could feel his heart wrenching.

"Grrr! Sea Serpent Strike!"

Hai Jiao opened his mouth and spat a mouthful of blood on the horns in his hands. Instantly, they glowed an even brighter shade of blue.

Within the Sea Serpent Absorption, thousands and thousands of horns gathered together to form a terrifying huge horn.

"Extravagant and impractical. Your battle technique is a far cry from those experts overseas!"

Wang Dahai lowered his head slightly after seeing Hai Jiao's attack. His dragon horns glowed with a dull shade of red as he charged directly towards the giant cow horn formed from water energy.

Bam!

The dragon horns penetrated through and Wang Xian didn't stop for a moment. He immediately swung his dragon claws at Hai Jiao.

Argh!

Two wretched cries came from the sky.

Hai Jiao's body was falling towards the ritual ground of Dong Hua Sacred Sect at a terrifying speed.

Boom!

A loud explosion reverberated from the ritual ground.

In the middle of the ritual ground, a huge five-meter hole that was over a dozen meters deep could be seen.

Around it, a network of terrifying cracks had surfaced.

"You? Defeating me in five moves?"

At this moment, Wang Xian's voice resounded from the sky.

"How can this be possible...?"

"It can't be! The Lord of Sea Serpent Island is defeated! The second strongest expert of the Underworld is defeated!"

"Sss... This..."

In the Dong Hua Ritual Ground, everyone was in disbelief when they saw the figure in the deep hole and Wang Xian in the sky.

The attack that the Lord of Sea Serpent Island had released previously was capable of destroying heaven and earth.

Yet, he had been defeated. Defeated with relative ease.

If everyone had gotten it right, the two of them had just exchanged four moves.

No one would have expected the Lord of Sea Serpent Island to be defeated in four moves.

This made them look exceptionally bitter.

The Lord of Sea Serpent Island who they had high hopes for, the second strongest expert in the Underworld and the one who was even stronger than all of them, was defeated by the Dragon King.

A red flame was emitted from Wang Xian's body. He lowered his head and looked down on the Lord of Sea Serpent Island who was lying in the deep hole.

"Kill me? With what you are capable of?"

Wang Xian's emotionless voice rang throughout the entire Dong Hua Ritual Ground. His lips curved into a smirk as he descended towards the ground.

"No... This isn't possible. My father wouldn't lose. He couldn't have been defeated!" The young lord of Sea Serpent Island was in denial as he screamed in horror.

Cough cough!

At this moment, a violent cough came from the deep hole and a figure crawled out of it gradually.

At this moment, the Lord of Sea Serpent Island was in wretched shape. At his chest, two deep wounds had even reached his bones.

Around the wound, the tissue was burnt black. There were still traces of fire sparks burning.

His hair was scattered and the neatly trimmed beard was now torched. He looked extremely pathetic at this moment.

As compared to the domineering and majestic look previously, it was as though this was another person.

Hai Jiao's legs were shivering a little while he stared at Wang Xian. His expression had changed drastically.

"When your son tried to kill me some time ago, your outcome had been decided!"

Wang Xian landed on the ground and stared at the Lord of Sea Serpent Island with smiles.

"Besides that, I'm not the brazen one. It is you who are! Killing me within five moves? How ironic!"

As Wang Xian spoke, a fire sword appeared in his hand. The fire sword rotated gradually as it slashed towards the head of Hai Jiao in an instant.

Fear gleamed in the eyes of the Lord of Sea Serpent Island as his body shivered.

Bam!

"Dragon King, the outcome has been decided. Let's end it here!"

At this moment, a sword-shaped walking stick appeared before the fire sword and stopped it in the process.

The voice of Nie Wuya reached him.

Wang Xian squinted his eyes, turned over and looked fearlessly at Nie Wuya who was on the elevated stage.

"You are going to stop me from killing him?" Wang Xian asked Nie Wuya coldly.

"With Diabolism on the rise and chaos everywhere, the Lord of Sea Serpent Island is part of our alliance of the orthodox sects..."

"You are going to stop me from killing him?" Wang Xian interrupted him and questioned once again.

"Dragon King, this is the territory of our Dong Hua Sacred Sect and the Lord of Sea Serpent Island is a guest of ours. He is also the main force in the alliance of the orthodox sects. You can't kill him!" Nie Wushuang looked solemnly at Wang Xian and replied.

"In that case, do you know the price of protecting him?"

Wang Xian stared harshly at Nie Wushuang.

"Price? What? Could it be that your Dragon Sect would make us, Dong Hua Sacred Sect, your enemy and become the enemy of the alliance of the orthodox sects?"

Hearing Wang Xian's highly confrontational demands, Nie Wushuang pulled a long face and answered.

"It isn't I who wants you as my enemy. It is you, Dong Hua Sacred Sect, who want my Dragon Sect as your enemy!"

# Chapter 509: There's No Rest For An Enemy Except Death

"It isn't I who wants you as my enemy. It is you, Dong Hua Sacred Sect, who want Dragon Sect to become your enemy!"

Wang Xian's icy tone resonated in the ritual ground, causing everyone to gasp in terror.

All the Saint-class forces stared at Wang Xian with flickering eyes.

"Just as always!"

When Sui Huang and Xiao Quanshan heard that, they shook their heads at Wang Xian, who was glowering at Donghua Sacred Sect.

As always, he was fearless of any forces and existences.

Sacred Followers Guild Elders, kill. Disciples of Medical Saint Sect, kill. The entire Medical Saint Sect, annihilate.

Qiao Clan, annihilate!

Now he tried to kill Hai Jiao, the second strongest expert of the Underworld, and make himself an enemy with Donghua Sacred Sect.

All the surrounding Saint-class forces stared at Wang Xian with flickering eyes. None of them uttered a word.

They finally got some understanding of how this Dragon King worked.

Do not provoke me. Whoever provokes me, there is only one word - Battle!

Nie Wuya and the bunch of experts from Donghua Sacred Sect were infuriated as they exploded bouts of murderous aura.

"So what if Donghua Sacred Sect is making an enemy with Dragon Sect?" said

Nie Wuya as he stared daggers at Wang Xian with eyes full of coldness and killing intent.

"There's no rest for an enemy except death. If Donghua Sacred Sect is determined to protect Hai Jiao today, we'll see each other on the battlefield!" Wang Xian answered coldly as he glared at Nie Wuya without wanting to lose out.

"Fine. What a brazen fellow. Since you're insolent, you shall stay here today!" a Dan Realm old man beside Nie Wuya bellowed as he gave out a daunting radiance that pointed at Wang Xian.

"No rest for us? A Dragon Sect dared to have no rest with Donghua Sacred Sect?"

Another Dan Realm Expert stood up with double blades hung at his waist.

The moment he exuded his aura, the two blades gave out a buzzing sound.

Three Dan Realm Experts let out a daunting vibe, trying to oppress Wang Xian.

"Hehe, it looks like you guys already made a decision!"

Wang Xian exhibited a contemptuous smile. "I have no grudges with Donghua Sacred Sect. But since you guys want to make an enemy with Dragon Sect, we'll gladly accept! And..."

As he spoke, he stared at the three old men. "You guys aren't my match yet!"

Wang Xian swept his disdainful gaze across all the people from Donghua Sacred Sect. Eventually, he stopped at Hai Jiao and curled his lips.

"Since Donghua Sacred Sect is protecting you this time, I'll kill you another time. Hehe, rest assured that it will not be too long!"

As he spoke, Wang Xian spun around, looking slack. He commanded the rest of the Dragonians, "Let's go!"

All the people from Donghua Sacred Sect clenched their fists tightly with glistening eyes. They were hesitating as to whether they wanted to strike.

At this time, Wang Xian suddenly whirled around and looked across all the hundreds of Donghua Sacred Sect Experts. "If you guys cannot keep me here today, then Dragon Sect will be your nightmare from now on!"

"Haha!" Wang Xian chortled as he stalked out.

Upon hearing Wang Xian, people from Donghua Sacred Sect were looking dreadful. Radiance flickered in Nie Wuya's eyes as he held the sword-like truncheon tightly in his hand.

The atmosphere suddenly froze as all the surrounding Saint-class forces watched with solemn expressions.

Apparently, Donghua Sacred Sect was out to protect Hai Jiao, and they had completely angered the Dragon King.

Besides, Dragon King had made it clear that the Donghua Sacred Sect was going to make an enemy with them.

There is no rest for an enemy except death!

If it were other Sacred Sects who said the same thing, they probably would be contemptuous.

But this was said by the Dragon King, the one who would slaughter anyone who provoked him.

No one would doubt what the Dragon King said.

"Keep him here!" the old man beside Nie Wuya gritted his teeth and said with murderous eyes.

Nie Wuya darkened his expression as he looked at all the Dan Realm Experts of Sacred Sects.

All the Dan Realm Experts of the Sacred Sects watched indifferently as it was not their business.

"Since Sect Leader is not around, we might not be able to stop him given our combined strength!"

Nie Wuya clenched his fist tightly and spoke in a dull voice.

The strength that the Dragon King had demonstrated was compelling such that everyone was wary of him.

He used four strokes to beat the second strongest man in the Underworld.

The rest of the Sacred Sects dared not meddle in this due to Wang Xian's daunting combat power. Unlike Donghua Sacred Sect, they did not have the strongest expert of the Underworld in their sects.

Even though they hoped Dragon Sect could be annihilated, and the Dragon King could be slain, they were unwilling to take the risk. If they could not keep the Dragon King here today, an unparalleled expert would lead his Inborn Experts to assassinate the Sacred Sect disciples without stopping. None of the Sacred Sects or Sacred Clans could take such daunting power.

Without exaggeration, Dragon Sect was currently the strongest in the Underworld, apart from Donghua Sacred Sect.

And the Dragon King would be the second strongest.

The two old men beside Nie Wuya had sullen faces with eyes fixed on the departing figure.

They were not confident in holding the Dragon King here.

At his realm, it was hard to keep experts like him if he was determined to escape.

"Given Dragon Sect's strength, they make a good enemy of the four main devil sects!" said Nie Wuya in a dull voice. He gazed around at all the ancestral sects and clans below the platform and heaved a deep sigh. His mood was extremely bad!

Donghua Sacred Sect did not expect that they would make enemies with a formidable opponent.

He threw a glance at Hai Jiao, who was severely injured and took a deep breath.

The alliance of the orthodox sects had to carry on. As for Dragon Sect, Donghua

Sacred Sect was not that concerned even though they were mighty.

In fact, their Sect Leader was not here today.

When their Sect Leader killed Emperor Qi from Diabolism, it would be the time to annihilate Dragon Sect.

"Donghua Sacred Sect, heh!"

After Wang Xian walked out of Donghua Sacred Sect, he had a trace of coldness surfacing in his eyes.

The moment he had entered Donghua Sacred Sect yesterday, Wang Xian did not have a good impression of Donghua Sacred Sect.

They only allowed their own experts to hover in the air while the remaining clans and sects had to be on foot.

In today's meeting, all their Inborn Experts were seated while the rest of the Inborn Experts from other Sacred Sects had to stand.

The entire arrogant and prideful performance irked Wang Xian. Hence, he did not have any good impression of this ancestral sect.

On top of that, they involved themselves in Hai Jiao's matter too.

"Since they want to have a game, I'll play with them. The establishment of Dragon Sect was to awe the Underworld!"

Wang Xian narrowed his eyes and asked Mo Yuan in a dull voice, "Where are those Dragonians of the Abyss?"

"Dragon King, seven of them are still operating the Abyss. In the face of the battles between Diabolism and orthodox sects, there are many missions for killing Diabolism. Now they are busy earning the Spiritual Stones. They even asked me for more manpower a few days ago!" Mo Yuan replied with a broad smile.

"If that's the case, you'll take over the Abyss and lead all the disciples of Dragon Sect. We'll assassinate all the Inborn Experts of Donghua Sacred Sect!" said

Wang Xian coldly. "Since they're our enemy, there's no rest for them except death!"

Given Donghua Sacred Sect's strength and reputation, they would also wipe their enemies out completely.

The Underworld was such a place!

# Chapter 510: I'm Annihilating The Devils (1)

"Dragon King, we will be passing by the Abyss on our way back. Should we head over with the dragonians?"

On the way back, Wang Xian and the group called for a bus to send them back to Rivertown. When they were on the roads, Mo Yuan asked this.

"Oh? The base of the Abyss?" Wang Xian was baffled. "The base of the Abyss is in the city ahead?"

"Yeah. Ling City, a relatively famous city in the Underworld!" Mo Yuan nodded his head as he answered Wang Xian.

"A famous city?" Wang Xian was a little confused.

"Yeah. Ling City is just beside the Fateless Forest. There are lots of martial artists in the entire Ling City. Moreover, many wanted martial artists seek refuge in Ling City!"

"There's another more commonly known name of Ling City and that's Ghost City. In it, there's a huge area where everyone has left and no one is residing."

Mo Yuan explained to Wang Xian. "It's a chaotic place and the base of the Abyss is built right there. Moreover, they have established a rather good information department. These information agents are all outlaws recruited within Ling City!"

"Ling City? I have not heard of it. Since we are passing by, let's go and take a look!" Wang Xian nodded his head and instructed Mo Yuan.

"Yes!" Mo Yuan nodded his head and went to direct the driver towards Ling City.

After entering Ling City, Wang Xian realized that it was more of a larger county

than a city.

The roads of the entire city were a little cramped. There were also more houses and it was a little more chaotic as compared to Rivertown.

"Dragon King, we are here!"

When the car arrived at the city center of Ling City, Mo Yuan turned around and informed Wang Xian.

"Located in the city center?" Wang Xian alighted and observed the surroundings while he asked.

"This base wasn't built by Long Qi and the rest. They took over an assassination group and built it into the base of the Abyss!" Mo Yuan explained as he led Wang Xian towards a shop ahead.

"Ling Yue Bar!"

Wang Xian lifted his head and saw the name of the shop. He smiled and entered it.

It was roughly 5 pm and the bar hadn't opened for business.

Mo Yuan took out his phone and informed Long Qi and the rest.

"Dragon King!"

Soon, seven dragonians opened the door and greeted Wang Xian respectfully.

"Dragon King, please follow us!"

Once they were in the bar, Wang Xian noticed some of the employees were already working.

These employees were all ordinary people of both genders.

They looked curiously at Wang Xian and the group.

"Dragon King! We usually enter through Gate 2 and rarely enter through this gate!"

Long Qi said to Wang Xian in a solemn tone.

"Are there any other entrances?" Wang Xian replied with a laugh.

"Five of them!" Long Qi answered and led them to an office.

Soon after, Long Qi activated a switch and a tunnel leading underground appeared.

"This is just one of the entrances. There are four other entrances!" As Long Qi spoke, he led them down the tunnel.

After walking for approximately a thousand meters, a huge underground space appeared before Wang Xian's eyes.

"This was the base of a first-class assassin group in the Underworld in the past. It's extremely well hidden. Unless someone is part of the assassin group, it would be hard for them to enter!" Long Qi explained to Wang Xian.

"This is a pretty huge place. It's almost half the size of the Dark Conjurers' base!"

Wang Xian looked around him in shock. Not many people were in the underground space.

Other than the seven dragonians, the rest were all information agents.

Information gathering was an important aspect of an assassin group.

An assassin group without any information would basically be operating with both of their eyes closed. Even if they received a mission, it would take a huge amount of time to complete it.

The entire Abyss' base had twenty-odd information agents processing information gathered from various places.

"For the near future, gather all information on Dong Hua Sacred Sect!" Wang Xian looked around and instructed them.

"The information on Dong Hua Sacred Sect might be a little troublesome. They

are too strong and it would be hard for us to get!" Long Qi frowned slightly and continued, "However, we can buy information."

"Buy information?"

"Yeah. Omniscient Group is an organization that specializes in selling intelligence. As long as you can afford it, any information can be bought. However, they charge exorbitant fees!" Long Qi nodded his head as he explained.

"Omniscient Group!"

Wang Xian knew about the Omniscient group. In the past, they had published information on him.

The Omniscient group knew everything within heaven and earth.

This was the strongest information organization in the Underworld. When it came to the news on the Underworld, there was nothing the Omniscient Group didn't know.

One could tell how incredibly strong the Omniscient Group was.

"The Omniscient Group is also in this city!" Long Qi suddenly interrupted.

"Huh? Their base is here too?" Wang Xian was taken aback and shocked.

"We got to know this by accident. Shenling Information Technology Private Limited! That should be the nest of the Omniscient Group!" Long Qi added.

"Is it?"

"I'm seventy percent sure. There were a few times we overheard their informers exchanging information in our bar. They are really, really secretive!"

Long Qi continued, "Furthermore, other than the Omniscient Group, the base of Remains from Diabolism is also located within the Fateless Forest a short distance away. They have many disciples who are active in this place. Over the last few days, the number of martial artists in Ling City has been dropping rapidly!"

"Omniscient Group and the Remains are here! How interesting! Could it be that the Omniscient Group and Remains are not aware of our existence here?"

Wang Xian was a little curious. The Omniscient Group was the best in gathering information. They shouldn't be unaware of things that were happening so close to them.

"Dragon King, there's a good chance they don't know about it. Our Abyss has only been established for a short period. Moreover, the missions we have accepted are less than ten thus far. Naturally, as we accept more missions, the Omniscient Group will likely notice us with their incredible network!" explained Long Qi.

Wang Xian nodded his head. That was reasonable. Although the Omniscient Group was incredible, it was impossible for it to know everything in the Underworld.

Since the establishment of the Abyss, it was now ranked on the top of the assassin group chart in the Underworld. However, they had only been established for just a few months.

Moreover, the Abyss was only made up of seven people and had accepted a small number of missions.

"Interesting. If we could gain control of the Omniscient Group, everything would be easier!"

Wang Xian hesitated. After walking around the base of the Abyss, he started pondering.

When he walked out of the base of the Abyss, it was already past 6 pm. Wang Xian had no intention to return today and thus headed in the direction Long Qi had told him about.

Shenling Information Technology Private Limited was a high-tech company.

With regard to this company, Wang Xian had heard of it. It was one of the top five hundred companies in the world and was among the most elite tier in the aspect of computer information.

Besides that, Shenling Information Technology Private Limited also had its own satellite.

# Chapter 511: I'm Annihilating The Demons (2)

"A high-tech corporation, one which possesses advanced satellite technology!" Wang Xian exclaimed outside the entrance of Shenling Information Technology, while he sensed the staff within the entire company.

They were all ordinary folks, with not a single Martial Artist.

And while Wang Xian gazed intently at the building, a middle-aged man watched on from the surveillance footage. He was standing in an office on the highest floor, within the very same building.

Around the middle-aged man were numerous sets of exquisite human skins that were hung and draping from above. Other than this, there were multiple garnet bones, which shone in a crimson glow.

The entire office looked extremely harrowing.

From the surveillance footage, Wang Xian's silhouette appeared starkly clear.

"The Dragon King, eh? Has he already come to learn of our Omniscient's Base? If I guessed correctly, that bar earlier should be the Abyss!"

"Indeed. The Dragon Sect disciples are assassins within the Abyss!"

The middle-aged man broke into a tiny grin. With a face of immense confidence, his eyes glistened as he eyed the footage. "A mere Dragon King is nothing to worry about. It's the entire Alliance of the Orthodox Sects which we're up against!

"Did you guys really assume that we, Diabolism, have lived in seclusion for the past half a century without actually doing anything?

"Did you guys really assume that we'd be wiped out so easily by your so-called Orthodox Sects?

"Haha! This time, your so-called Orthodox Sects should prepare to look fear in the eye!"

The middle-aged man muttered under his breath, before continuing with a grimace. "Then again, everything will depend on the fight between Emperor Qi and Nie Wushuang. It's best if they can perish together!"

The middle-aged looked on indifferently. He caressed his face as if to tidy up his appearance.

After freshening himself up, he smiled once again. Striding like a successful man in society, he headed down with a briefcase in hand.

All this while, his face beamed on with a warm and gentle smile.

However, as the middle-aged man emerged from the room, Wang Xian looked away while he remained standing beneath the Shenling building.

"Indeed, this is the Omniscient Group. But, compared to what I imagined, this place differs by a huge margin!" Wang Xian exclaimed as he turned around, while a sinister smile spread across his face.

The middle-aged man assumed that he had scrutinized Wang Xian in detail, as he watched him through the surveillance footage.

Little did he know that Wang Xian was looking at everything within the building using his Piercing Eyes, including the middle-aged man along with the surveillance footage.

It did surprise Wang Xian that this Omniscient Group seemed to be from Diabolism, more specifically the Remains.

Five decades of seclusion and waiting for an ambush. Indeed, things are more complicated than they seem!

Wang Xian wandered into deep thought before dismissing it with a shake of his head. He went away, before stopping by a nearby restaurant for a simple meal.

When it hit eight at night, Wang Xian arrived at the Ling Yue Bar by the Abyss.

The bar was packed with people. Little would anyone expect that an assassination group was housed just beneath this bar.

Wang Xian swept a glance across the entire bar, only to spot more than a dozen Martial Artists before he found a spot and sat down.

He paid no attention to the blaring music and took out his mobile phone to send multiple messages to Guan Shuqing and Lan Qingyue.

But the duo did not reply to him, which rendered him very helpless.

"Huh?" Wang Xian uttered in confusion.

It was then when his nose twitched at the smell of a faint bloody stench.

Wang Xian narrowed his eyes before looking to the side.

At one of the corners were two extremely good-looking young men, accompanied by two beautiful ladies who sat by their side.

With all smiles, the two beauties sat, leaning on the young men.

Wang Xian looked at the eyes of the two beauties, as they appeared stoic and lifeless.

Their hands were resting atop the wine glasses, while a fresh stream of blood was filling up the interiors.

With satisfied looks on their faces, the two young men groped the beauties indiscriminately while they drank the fresh blood from the glasses.

"Ack ack. This is the life. It's been fifty years since I stepped into the deep ends of the forest to lead a primitive life when I was ten. Now, I finally get to enjoy life in this world of pleasures!"

"Hehe. Society these days is really one of the pleasure and enjoyment. When I'm able to refine the second set of Bone Puppets, I'm going to turn this little beauty into a Bone Puppet, and have my fun with it every day!"

"As for Faceless, those few old haggard bitches... They seem to be living quite

the life right now too!"

"They're here, tsk tsk. Look at that body, how mesmerizing!"

The conversation between the two young men could be heard loud and clear as it entered Wang Xian's ears.

Wang Xian looked on with an icy stare.

Through his Piercing Eyes, he could see two perverted Elders in their sixties as they embraced the two beauties in their arms.

"Hi there, handsome guy!"

Just then, an alluring voice called out to him.

Wang Xian raised his head and saw a voluptuous woman looking at him with all smiles as she bent her body slightly.

The woman even waved to the two young men seated in the corner!

Wang Xian took a look at the woman and thought of those exquisite human skins housed within the Shenling building.

So this is Diabolism? Although many from the Orthodox Sects are annoying, these from Diabolism are harrowing! Wang Xian thought to himself. This was not his first time seeing people from the Remains.

Previously, while on his way to the Capital, Wang Xian didn't have much of a feeling during his encounters with them. But now that he had seen things for himself, he was overcome with an urge to kill.

As Wang Xian raised his head to look at the shapely woman before him, what came into view instead was an old and haggard face that snarled in a grimace.

"What do you want, old haggard bitch?" Wang Xian asked coldly, with a tinge of mockery, as he eyed the old hag.

The enchanting woman was taken aback, as she reciprocated with an indifferent look.

"Who are you calling an old haggard bitch, handsome? Do I look old?" the woman asked as she extended her hand and caressed Wang Xian's shoulders.

"Is everyone from Diabolism this unscrupulous and indiscriminate?" Wang Xian asked as he looked at the old hag before him before he swept a glance over at the two young men who remained in the corner.

The woman froze upon hearing Wang Xian's words, as the smile on her face faded away before it was replaced by a surging force of ominous aura.

"You know too much!" the woman snapped with a growl, losing all sense of enchantment from earlier on.

"Die!" Wang Xian shot back in an unsympathetic tone. With a swing of his arm, a threatening force struck directly at the woman.

With such a force, even killing an Inborn expert would be a piece of cake.

"Ah!"

When Wang Xian's arm landed on the woman, her face contorted as she shot him a look of trepidation.

Boom!

A bout of fresh blood was spat out from her mouth while her old, haggard and hideous body flew backward before crashing onto the area behind.

"You're asking for doom!" A snappy voice lingered across the bar, as it concealed the music being played.

"Huh? The Golden Cicada sheds its shell? To think it's managed to hold off the fatal blow!" Wang Xian exclaimed in mild surprise. He arched his brows before standing up gradually.

"A Martial Artist? How dare you, asking for doom!"

At the corner, the two young men stood up immediately. Their facial expressions darkened at the sight of the Faceless old hag when they saw that she had resorted to the "Golden Cicada sheds its shell" stance in order to stay alive.

"Get out, get out, all of you!"

Just then, Mo Yuan and a few other Dragonians hollered at the rest of the ordinary folks who were present in the bar, at the sight of what happened. They had been keeping watch within the premises.

"Ah, ah, ah!" the crowd responded.

The holler, overwhelmed with a devilish aura, had raised fear in them. Even the tourists who had wanted to stay and watch the spectacle unfold began to race towards the exit in fright.

# Chapter 512: I'm Annihilating The Devils (3)

All of a sudden, all the tourists in the bar ran out in a hurry, including those few martial artists.

These martial artists were at most Level 5 or 6. Some were even weaker. Mo Yuan's scream made them sense horrifying risks.

Long Qi waved his arm and the employees instantly lost their consciousness and fell to the ground.

"I had not expected to meet such a powerful Inborn expert in this place."

The old hag who managed to stay alive by shedding her skin revealed her ugly true self. She wiped away the blood on her mouth and stared intensely at Wang Xian with killing intent.

The other two young men also walked over and stared coldly at Wang Xian. "Who are you? Why are you offending our Remains?"

"I finally understand why there are so many sects in the Underworld who wish to annihilate all of you. There are many scheming people within the orthodox sects but you guys truly deserve death!"

Wang Xian glanced harshly across the three of them.

Today, Wang Xian finally witnessed the true side of Diabolism.

They were truly unscrupulous in killing the innocent by brutal means.

The bloody cultivation arts had distorted their souls.

People like them shouldn't exist in this world.

"You will die quickly if you stick your nose into things you shouldn't!" The old hag let out a wretched cry and a bell appeared in her hands suddenly.

Ding ding

A sound came from the bell. As for the other two young men, they held identical bells in their hands too.

The magical sound made it out of the bar.

Swish swish swish!

At this moment, three figures appeared in the bar.

Two girls and a guy. The two girls were incomparably beautiful while the guy was exceptionally stunning.

Their eyes were empty and they had a faint stench of blood lingering around them.

There was a black patch in their palms that glowed in a creepy dull light. Their fingers were long and extremely sharp.

"Brat, I'm going to skin you and dismantle your bones!" The old hag's expression was contorted and she stared hideously at him.

"You truly deserve death for spoiling our mood!"

The other two young men shook their bells gently and the two beautiful girls moved before them in rigid movements.

"He's an Inborn expert. I can't give all of his bones to you!" the young man looked at the old hag and said plainly.

"He damaged one of my skins. I'm getting his skin and you can have his bones. Kill him!" the old hag shrieked and shook the bell in her hands.

Ding ding,

Ding ding,

The young man also shook his bell. Three stiff figures instantly attacked Wang Xian.

Their razor-sharp claws gave off terrifying auras.

"Ashes to ashes, dust to dust!"

Seeing their faces, they were all in their twenties. Yet, they had been killed by these devils!

Wang Xian waved his arm and intense flames shrouded on the bone puppets.

Argh!

Wretched screams came from them.

The bone puppets had a little spirituality after they were refined.

"What?"

The two young men and the old hag were shocked to see the bone puppets they had refined turning to ashes rapidly.

"Who are you? How can you be so powerful?"

Fear gleamed in the eyes of the three of them.

Three Inborn-level bone puppets were reduced to ashes directly. This... How can this be possible!

"Run!"

The three of them ran out without any hesitation.

Wang Xian was emotionless as he waved his arm. Three balls of flames flew towards the trio and surrounded them completely.

"What? How can this be possible?"

"Bring me to the base of the Remains!" Wang Xian stared at them and demanded coldly. He wasn't paying attention to their screams.

"YOU... Who are you?"

The three of them looked fearfully at the flames around them and couldn't help but shiver.

"Me? Don't you know me? It doesn't matter. Hehe! If you don't wish to die, bring me to the base of the Remains!" remarked Wang Xian plainly with a faint smile.

"You want to go into the base of our Remains?" a young man stared at Wang Xian and asked bitterly.

"That's right!" Wang Xian chuckled. "Bring me there and you guys might still have a chance to survive. Otherwise, I'll reduce all of you to ashes immediately."

"Alright. Since you are courting death, I'll bring you there!" the old hag growled at Wang Xian with a hideous expression.

"Take the lead!" Wang Xian instructed them emotionlessly. Behind him, Mo Yuan immediately called to all the dragonians.

"Sss. Those three are from the Remains?"

"They are from the Remains. Those that charged in previously are the bone puppets they made and those who can make such bone puppets are, without a doubt, Inborn experts!"

"They are now controlled by that overly young man..."

"He's the Dragon King. I've seen him once before. That young man is the Dragon King from the Dragon Sect!"

Wang Xian used flames to control them as they walked out of the bar.

When the martial artists that had chosen to stay witnessed this, their eyes widened and were filled with horror.

Over the last few days, the disciples of the Remains had been appearing in Ling City. Some martial artists had left in fear but some had stayed because they were wanted by other governments or forces.

Now that they saw the three Inborn experts from the Remains under the control of the Dragon King, they were astonished.

"What is the Dragon King going to do?" a martial artist asked curiously. The two martial artists around him were mumbling to themselves in shock.

"I don't know. Dragon Sect has not joined the alliance of the orthodox sects and isn't willing to annihilate Diabolism. Currently, they are labelled as an evil sect by Dong Hua Sacred Sect!"

"All the sects in the Underworld have expressed their willingness to join the alliance of the orthodox sects in preparation for the annihilation of Diabolism. Only the Dragon Sect hasn't joined. All the martial artists are looking down on the Dragon Sect with contempt!"

The three of them conversed. One of them took out the phone and entered the Underworld website.

[All the experts of the Underworld have joined the alliance of the orthodox sects to eradicate Diabolism.]

[The Dragon King of the Dragon Sect is exceptionally arrogant and isn't willing to join the alliance of the orthodox sects.]

[Shocking! The Dragon King of the Dragon Sect defeated the Lord of Sea Serpent Island and became the second strongest expert in today's Underworld!]

[The Dragon King from Dragon Sect is simply too arrogant. He severely injured the Lord of Sea Serpent Island and declared he won't rest until either the Dragon Sect or Dong Hua Sacred Sect has perished. He's not willing to join the alliance of the orthodox sects and acted just like a devil sect!]

[Not only is the Dragon Sect unwilling to join the alliance of the orthodox sects, but they also are making Dong Hua Sacred Sect their enemy. A trash sect like this is no different from Diabolism!]

[I'm suggesting eradicating the Dragon Sect after eliminating Diabolism. He's simply too arrogant!]

Annihilating Diabolism was the trend of the entire Underworld and what all martial artists hoped to see.

Now that Dragon Sect had become the only Sacred Sect who was unwilling to

join the alliance of the orthodox sects, all the martial artists in the Underworld weren't happy with them.

Besides that, he announced he wouldn't rest until either the Dragon Sect or Dong Hua Sacred Sect had perished at this critical juncture. Not only was he unwilling to help, but he also hindered the progress. This infuriated all the other martial artists.

Although the Sacred Sects were wary of the strength of the Dragon Sect and didn't make a statement, their disciples could post critiques of them on the Underworld website without reserve.

All of a sudden, the Dragon Sect was seen as the equivalent of Diabolism.

Tsk!

When Wang Xian walked out of the bar and heard the comments around him, his face turned as cold as ice.

I have no need to explain my actions to you guys!

If I'm not happy with Diabolism, I'll cut them down. If the orthodox sects offend me, I'll also kill!

Public opinions from the Underworld aren't going to change my mind!

# Chapter 513: Annihilating The Remains

"That place heads in the direction of the Fateless Forest. What's the Dragon King intending to do, heading over with a group of Dragon Sect disciples?"

"The base of the Remains is located within the Fateless Forest. Don't tell me he's intending to form an alliance with the Remains?"

"That's a tricky question. As of now, the Dragon Sect are enemies with the Donghua Sacred Sect. Who knows, the Dragon Sect might really just form an alliance with Diabolism!"

"What the...are you for real!"

As Ling City was really small, news of what happened in Ling Yue Bar soon spread across the entire city.

Many appeared shocked and suspicious at the sight of the Dragon King, as he followed three members from the Remains and headed for the Fateless Forest.

"Should the Dragon Sect really form an alliance with Diabolism, it'll spell a huge disaster!"

Several Martial Artists shrieked with burdened expressions. They frowned at the sight of the group, whose silhouettes had disappeared into the darkness of the night.

Currently, the prowess of the Dragon Sect had been acknowledged by the Underworld as second amongst all forces.

The prowess of the Dragon King was known to be second amongst all individuals within the Underworld.

Should such an expert, from such powerful Sacred Sect, form an alliance with Diabolism, they would no doubt stand as a formidable opponent to the alliance

of the orthodox sects!

I must disseminate this message! a Martial Artist thought to himself with his mobile phone in hand. As he looked at the photographs taken on his phone, he proceeded immediately to post it for the Underworld to see.

[The Dragon King of the Dragon Sect is in a suspected alliance with the Remains. Three experts from the Remains have led the Dragon King into the Fateless Forest. We, the alliance of the orthodox sects, will have to exercise caution!]

Upon the dissemination of the news, the entire Underworld was sent into a frenzy.

Today, the alliance of the orthodox sects had been officially formed, which the Dragon Sect had not joined. This had already caused the utter displeasure of many Martial Artists within the Underworld.

It only infuriated more, given that the Dragon King was also at extreme odds with the Donghua Sacred Sect.

The Dragon Sect was thus slapped with terms like "hindrance" and "evil sect."

Yet, the entire Underworld was sent into an uproar following the release of this news.

An alliance between the Dragon Sect and the Remains? So the Dragon Sect has come together with Diabolism?

[To think that the Dragon Sect's really combining forces with Diabolism!]

[What in the world...this damned Dragon Sect, and its darned Dragon King. To think they're really forming an alliance with Diabolism!]

[Dammit, the power of the Dragon Sect is amongst the top within the Underworld. Should they form an alliance with Diabolism, it'll spell a huge damn disaster!]

[It's probably due to the enmity forged between Dragon Sect and Donghua Sacred Sect today, hence the former's admission into Diabolism in order to stand

against the Donghua Sacred Sect!]

[The Dragon Sect annihilated the Medical Saint Sect and Qiao Clan. Such a Sacred Sect is no different from Diabolism, hence they should be wiped out the soonest possible!]

After the post was uploaded, it sent the entire Underworld chiding and cursing away at the Dragon Sect.

Many Martial Artists were infuriated, as they boasted blatantly of wiping out the Dragon Sect being the priority.

Meanwhile, more than a dozen had gathered in a grand hall within the sacred grounds of the Donghua Sacred Sect which was located amidst the central regions of the country. Those who had gathered looked on with deep frowns and awful expressions.

Seated in the middle of those gathered was an Elder, as he glistened with a metallic sheen. It was especially so with his arms, which shone like titanium.

His hair was somewhat long, as it hung loosely scattered behind his head, while he exuded a unique aura that boasted no less dominance.

"The Dragon Sect and Dragon King. With regards to this, you guys have not handled this properly!" the Elder snapped with a low growl which resembled the impact made as one struck with a heavy weapon.

"Yes, indeed Sect Leader, this Dragon King's too obnoxious. He wants to slay the Lord of Sea Serpent Island while remaining at loggerheads with Donghua Sacred Sect. We can't do anything about it," Nie Wuya replied in awe and fear while standing by the side.

"Since we're already nemeses with each other, then let's just battle it out until either side perishes!" the Elder conceded with a flat tone as he raised his head.

He too was aware that the other party would never let things slide since they had become enemies. Not unless they, Donghua Sacred Sect, decided to bow down and admit their faults.

But to make the Donghua Sect bow their heads down was clearly not an easy

feat. Hence, the only way out was to battle it out until one party perished.

"Now that the Dragon Sect is going to form an alliance with Diabolism, the entire alliance of the orthodox sects shall wait before removing those evils altogether when the day arrives!" Nie Wuya proclaimed indifferently at a side.

"Mm!" the Elder nodded in agreement before standing up and flying off towards the deeper ends of the mountains.

Nie Wuya watched as his Sect Leader took his leave before heaving a sigh of relief. His face was plastered with a grimace almost immediately thereafter.

"Darn this Dragon Sect and its Dragon King!" he cursed.

Five minutes later, across the online forum of the Underworld, the Donghua Sacred Sect made an announcement.

[The Dragon Sect and its Dragon King have pledged allegiance to Diabolism and become demons. The alliance of the orthodox sects shall annihilate them in the times to come!]

With the announcement of the Donghua Sacred Sect, it meant that the Dragon Sect had since been recognized as a part of Diabolism.

[Support Donghua Sacred Sect. Annihilate Diabolism and Dragon Sect!]

[Annihilate the Dragon Sect, for they're traitors of the Underworld. And hopefully, slay the Dragon King the soonest possible!]

Countless Martial Artists commented below the announcement thread.

Experts of various Sacred Sects looked on with burdened expressions at the sight of the situation.

With the addition of the Dragon Sect onto the current task of eliminating Diabolism, it seemed likely that many were going to die.

The chat forum for the Underworld continued to buzz as everyone was busy discussing away about the admission of the Dragon King and his Dragon Sect into Diabolism.

In the meantime, Wang Xian had already arrived at a ghastly burial ground along with three experts from the Remains.

Fifty kilometers in front of the Fateless Forest, all trees had turned black. With their withering trunks, there was not a single leaf growing on their dry and bare branches.

Caw, caw!

A crow called out while resting atop a branch. With its jet-black body, it looked on with eyes that glistened in red.

At the sight of the quartet, the crow turned its crimson eyes upon them.

On the ground just up ahead, numerous broken bones were strewn all over, which consisted of both human and animal carcasses.

The entire area up front appeared eerie and harrowing.

"So, up ahead lies the hideout of you Remains?" Wang Xian asked as he squinted briefly, surveying the area ahead.

"Yes, that's right, It's just up ahead!"

The trio from the Remains nodded instantaneously as they gazed at the Remains' base with a tinge of vigor in their eyes.

"If that's the case, then you all can perish now!" Wang Xian said indifferently as he looked at them.

"What?" the trio uttered in bewilderment. Soon after, they noticed that the flames which had been surrounding them had begun to ascend.

The horrendous blazing flames raged on, lighting up everything which stood in their way.

"Ah... no! Didn't you say..." the trio from the Remains uttered.

"In handling Diabolism, it's only natural that I adopt the diabolical way!" Wang Xian sniggered without the least concern. With a swing of his arm, the blazing

flames dived into the trio's mouths and muted all their screams.

Bam, bam, bam!

The trio struggled with all their might, while Wang Xian retrieved an item from his pocket.

It was a skull, a black skull.

Although it was only the size of a fist, the skull brimmed in vitality.

[Nether Skull: Level 12]

The Nether Skull was a Spiritual Weapon which Wang Xian had obtained from Deity Lady of the Nether Flame Denomination.

Back then, this Nether Skull had released such formidable powers that even the Fire Demon had feared the trio.

This made the Nether Skull worthy as a Demonic Weapon, as they increase their powers by absorbing will-o-wisp.

What were will-o-wisps then? These were flames emitted from human bones after one died.

Hence, one can imagine the number of lives it had cost to refine this Nether Skull.

Even more so, as it ascended in levels, it would exhaust even larger amounts of will-o-wisp.

And while will-o-wisps were not categorized under the Heavenly Flame, they appeared more terrifying otherwise.

To subdue the Demons using the Demons!

Wang Xian smiled before thrusting the Nether Skull into the air above the three Remains disciples!

# Chapter 514: Nether Skull

Ka ka ka!

Creepy noises came from the corpses of the three members of the Remains. The red flames on them had disappeared and were replaced by black will-o'-wisps.

The will-o'-wisps burned creepily on their bodies and in just a dozen or so seconds, their bodies had vanished completely.

Wang Xian revealed a faint smile and the Nether Skull returned to the size of a human head.

He moved his arm and the Nether Skull hovered above his shoulder.

From the location of the eyes, black will-o'-wisps glowed intensely. The next moment, it turned to face the crows on the branches.

Cadaveric Crow: Level 7

"Level 7 cadaveric crows! There are at least a few thousands cadaveric crows around them. The Remains are really strong. It's no surprise considering that they've been lying low for fifty years!"

Wang Xian looked across the thousands and thousands of cadaveric crows in shock before continuing to walk ahead.

Ga ga!

Just as he was about to take another step forward, those cadaveric crows stared at him with their blood-red eyes. Using their razor-sharp beaks as weapons, they charged towards Wang Xian.

Bzz bzz!

The Nether Skull on Wang Xian's shoulder appeared to be exceptionally excited. Will-o'-wisps came from the bones of corpses. Cadaveric crows had far more will-o'-wisps in them than ordinary people.

Ka ka!

With just a thought, the Nether Skull on his shoulder flew towards the flock of cadaveric crows. Its mouth enlarged and devoured five cadaveric crows in a go. Drips of impurities flowed down from the chin of the Nether Skull.

"No matter how many cadaveric crows there are, they are simply nutrients for the Nether Skull!"

Wang Xian smiled faintly. Behind him, Mo Yuan and twenty-seven dragonians had also walked over.

Ga ga ga!

The deeper they went, the more cadaveric crows flew towards them. Their calls were sharp and shrouded towards Wang Xian and the group in a huge flock.

Wang Xian waved his arm and a stream of fire dragon energy was injected into the Nether Skull.

Weng! Ka ka ka!

The head of the Nether Skull expanded explosively to over a meter in size.

Will-o'-wisps flickered in the giant eye sockets and the terrifying mouth crunched on the huge flock of cadaveric crows.

Each cadaveric crow that entered the mouth of the Nether Skull was transformed into dense will-o'-wisps. The cadaveric crows had become the nutrients for the Nether Skull instead.

The more will-o'-wisps are in the Nether Skull, the larger it can expand. That Deity Lady from Nether Flame killed several people before the battle to absorb their bones and create more will-o'-wisps!

Seeing the incomparably huge skull, Wang Xian showed a faint smile.

As it was a Level 12 Spiritual Weapon, he wouldn't have to control it while it was devouring the cadaveric crows. Instinctively, it could attack on its own.

Ga ga ga!

After walking approximately a thousand meters forward, a flock of at least a thousand cadaveric crows appeared before them.

In the middle, there was a cadaveric crow that spanned two meters long. It opened up its wings and its black bones were exposed at the back.

It was emitting a deathly aura and there was even a piece of flesh still dangling below its beak.

"It would seem like we are nearing the base of the Remains!"

Wang Xian looked ahead and saw a creepy and terrifying small village ahead of him.

There was a small stream before the village and several stone huts.

In the middle, there was a huge structure that resembled a platform for sacrificial rituals.

At night, every stone hut and structure had two basins of flames at the door.

Will-o'-wisps burned creepily within the fire basins.

In front of some stone huts, there were several human figures. They looked stiff and had no emotions on their faces.

"Intruders!"

"Who dares to step into the Remains' territory!"

"Hehe. It doesn't matter. If he can make it here, he must be pretty strong and he will make a powerful bone puppet!"

A sharp voice resounded and figure after figure rushed to the spot from all directions.

Rattle rattle rattle!

At this moment, the sound of wings flapping could be heard from the sky.

Wang Xian lifted his head and looked into the sky.

On a huge tree, a terrifying cadaveric crow with a human head was flying towards him.

The human head had the looks of an exceptionally good-looking young man. However, his eyes were blood-red and he had the body of a cadaveric crow.

On the cadaveric crow, there was a young girl that looked like she was just seventeen to eighteen years old.

She wore bright and revealing red clothes that exposed most parts of her body.

A blue and red light flashed in Wang Xian's eyes. He realized that the girl was, in fact, a hunchback old man. He was staring harshly at Wang Xian and looked extremely creepy.

Looking across the dozen-odd figures, Wang Xian found that they were all handsome or beautiful guys and girls.

There were at least one or even two bone puppets standing beside them.

A pungent stench of blood was emitted from their bodies. There were five humans and together with their bone puppets, there were thirteen.

Seeing Wang Xian and the group, they raised their eyebrows in confusion and stood in a line.

In the air, the hunchback old man stood on the cadaveric crow with a human head and was looking down at Wang Xian and the group.

"Who are you? How dare you kill the cadaveric crows of our Remains and barge into the lands of our Remains!"

When the hunchback old man on the cadaveric crow saw the huge skull above Wang Xian, he questioned him solemnly.

"Dragon King of the Dragon Sect!"

Wang Xian looked across them and killing intent flashed across his eyes.

"Dragon King from Dragon Sect?"

The crowd was taken aback and turned solemn.

As the guards of the base of the Remains, they had gathered news on the happenings in the Underworld while they were on duty.

The Dragon King of the Dragon Sect was now the second strongest unparalleled expert in the Underworld.

"What? Are you here to collaborate with us? Where are the three disciples of our Remains?"

The hunchback old man standing on the cadaveric crow had just glanced through the thread on the Underworld website. He squinted his eyes and focused on the Nether Skull above Wang Xian's head while asking him.

"Collaboration?"

Wang Xian was taken aback but soon revealed a smirk. "The disciples from the Remains? Let me send you guys to meet them!"

Wang Xian waved his arm and a stream of will-o'-wisps shot out from the Nether Skull instantly towards the hunchback old man on the cadaveric crow.

"They are enemies! We are under attack!" the hunchback old man shouted loudly upon seeing Wang Xian attacking suddenly.

"Kill! Today, I'm here to annihilate the Remains!" Wang Xian ordered.

Mo Yuan and the dragonians behind Wang Xian instantly sprang into action.

When the hunchback old man saw the will-o'-wisps crashing into him, he could feel the strength of it as his expression changed substantially.

He moved his arms and the cadaveric crow with a human head below him shielded him immediately.

Ga ga!

The cadaveric crow cried out loud and fell onto the ground directly.

"What?"

The hunchback old man was furious and drew an ivory dagger instantly.  
"Retreat! We are under attack from the Dragon Sect! We are under attack from the Dragon King! Inform Lord Ossein!"

The hunchback old man shouted in his sharp voice which instantly reached the entire base of the Remains!

"Run!"

When the other five experts from Remains saw the strength Mo Yuan and the group released instantly, they were horrified and retreated immediately.

"Will you be able to escape? Today, I, Wang Xian, shall enforce justice on behalf of Heaven!"

Wang Xian waved his arm and dense fire dragon energy was injected into the Nether Skull.

The Nether Skull exploded in size and reached over two meters. At the same time, it started devouring the members of the Remains at an astonishing speed.

# Chapter 515: Lord Ossein

Caw, caw, caw!

Up in the sky, thousands of Cadaveric Crows descended on the area below in one clean sweep when they saw Wang Xian and the Dragonians lunging at the Remains disciples.

Their screeching caws pierced through the skies while they emitted bloodthirst as they swarmed like thousands of fowls out to kill.

Wang Xian swung his arm, and a gigantic skull appeared as it stared down at the crows.

Ack, ack!

As if cackling in a grimace, the Nether Skull gave off a chuckle and shook lightly.

Boom!

Following the blast, a terrifying surge of Nether Flames soared past, concealing the area within more than a thousand meter radius.

Settling like dust, the surrounding trees fell to the ground.

The Cadaveric Crows in the air, which measured two meters in length, had been bursting out in laughter earlier on. Yet, they looked on and stared at the Nether Skull in trepidation.

"Kill!" the Nether Skull commanded as if speaking in a human tone, opening its mouth before gnawing straight at the giant Cadaveric Crows.

Caw, caw, caw!

The broken voice of the Nether Skull continued to ring through the air as the giant Cadaveric Crow stood defenseless with no chance to retaliate. With every Cadaveric Crow it devoured, the Nether Flame on the Nether Skull glowed a

little brighter.

"Running away, but can you?" Wang Xian asked as he extended his arm, at the sight of the hunchback Elder trying to escape.

An Inferno Wall appeared instantly in front of the Elder causing him to lose color in the face.

"Be gone, die!" Mo Yuan snarled from the back as his threatening Dragon Claws lashed at the head of the hunchbacked Elder.

"Trying to kill me huh. I'll slaughter you first!"

The hunchback Elder grimaced before turning his body around. With his Bone Dagger in hand, he aimed the scarlet weapon straight at Mo Yuan's chest while paying no heed to Mo Yuan's Dragon Claws.

"Hmph!"

Mo Yuan remained unfazed while numerous streaks of black Dragon Scales began to form on his chest area.

"Be gone, die!"

"Off you go to hell!"

The duo hollered at the same time. Thereafter, the maiden skin plastered on the hunchback Elder began to split, revealing the hideous figure beneath.

"How dare you ruin my skin. Off to hell you go!" the hunchback Elder snapped with a grimace.

With a grisly snarl, the hunchback Elder took aim with the Bone Dagger in his hand and stabbed forcefully into Mo Yuan's chest.

Tsk!

The Bone Dagger plunged into Mo Yuan's body, to which he reacted with a small facial twitch.

Yet, disbelief soon settled across the face of the hunchbacked Elder.

Creak, creak!

With a slight maneuver of his arm, Mo Yuan grabbed onto the arms of the Elder, before tearing away at the latter's head using his Dragon Claws.

"Ah! How's this possible? How can your body be tougher than Bone puppets!?" the hunchback Elder roared at Mo Yuan while looking on in disbelief. Following which, a gigantic Dragon Claw clasped tightly onto his head.

This blew the head of the Elder right off, like an exploded watermelon.

"There's been an intruder. There's been an intruder!"

Ring, ring, ring! Ring, ring, ring!

At that instant, shrieking cries could be heard from the Remains Village located just up ahead.

This was immediately followed by a series of piercing rings of bells.

Caw, caw, caw!

Every ring of the bells resonated like a Soul-stabilizing Voice. Even the surrounding trees began to follow its lead, creaking gently as they swayed along.

Up above in the skies, the cawing of the Cadaveric Crows could be heard. Under the pristine moonlight, countless Cadaveric Crows could be seen flying over.

The lights shone brightly from the small village up ahead. One by one, numerous members from the Remains began to make their way out. With bells in their hands, they looked coldly in the direction of Wang Xian.

"There are so many of them!" Wang Xian exclaimed as he looked ahead with narrowed eyes. The entire village contained close to ten thousand villagers.

This included the young and elderly, and each and every one looked on with a grim and ghastly expression.

Many of the little children were each hugging onto a skull.

Some were human skulls while others belonged to beasts.

"They're trespassers from the Dragon Sect. Kill them!" an Inborn expert of the Remains shouted after being struck heavily by the Dragonians. In reaction to the harsh attack, he resorted to the stance of "Golden Cicada sheds its shell" in order to make his escape, leaving behind a sheet of human skin.

At the sight of this gory Remains' base, Wang Xian's body began to light up in flames.

"Those from the Remains shouldn't be left to exist!"

With a change of stance, Wang Xian soared and ascended into the skies as he ejected a Dragon Ball from his mouth.

Roar!

With his Dragon Roar, the Inferno Divine Dragon was summoned from the Dragon Ball and was at Wang Xian's disposal before it dived into the skies and lashed the Cadaveric Crows.

The Level 11 Dragon Ball was already capable of unleashing powers equivalent to those of a Dan Realm expert. With one sweep of the Dragon Tail, the Inferno Divine Dragon wiped out hundreds of Cadaveric Crows using its flames and terrifying prowess.

Ring, ring, ring!

"Kill that fellow in the sky!"

A screeching voice could be heard. It came from a chubby old lady who shouted while holding a human bone staff in her hand.

At the same time, with a ring of bells on her other hand, she summoned four other members from the Remains who proceeded to charge at Wang Xian.

Amongst the quartet were two beasts, one of which was a giant bear and the other a goshawk, while the remaining two were Elders.

Together, these four Inborn experts from the Remains emerged with an overwhelming bloodthirst and savageness.

Wang Xian looked across and saw close to ten thousand disciples of the Remains standing in front of the village.

A little more than fifty from the Remains dashed ahead for Wang Xian and gang.

They included more than a dozen who were charging straight for Wang Xian. Their bodies were seven to eight times stronger than their counterparts of equivalent grades. Their highly resistant bodies alone were enough to instill fear in an Inborn Expert, even if they should possess no other unique combat techniques.

Similar to zombies, they feared neither pain nor death.

"No doubt the four main Devil Sects. Within the Remains alone are more than thirty Inborn experts. Along with the Bone Puppets that they produce, that'll peak at close to eighty!"

Wang Xian extended his arms at the sight of the Remains members who were charging in his direction.

Crack, crack, crack!

Suddenly, the fire surrounding Wang Xian began to burst into wider flames, as little specks of fire appeared in void air.

"Dan Realm experts!" hollered a chubby elderly lady who stood amidst the Remains disciples. "One Dan Realm expert, and twenty-seven Inborn experts!" She continued in grimace.

"The Dragon Sect, huh. Good. Today, you all shall remain here!" said the chubby granny.

Thereafter, she threw the human bone staff in her hand over to the middle of the village, aiming straight into the building which resembled a ritual hall.

"May I call upon Lord Ossein to slay these tough opponents!"

"The battle between Good and Evil has yet to begin. To think...someone has already barged into the grounds of ours? The grounds of the Remains?" a calm and leveled voice questioned.

"Lord Ossein," all disciples of the Remains greeted immediately, as they knelt in the direction of the ritual hall.

"Lord Ossein?" Wang Xian asked with a raised brow. Following the greeting, the surrounding mid-air flames grew stronger before the specks coagulated into a collective Flaming Rope. With much ease, the Flaming Rope tied the respective Inborn Experts from the Remains together.

Bam!

With a swing of his arm, Wang Xian dumped the Remains over to the center of the village.

"Dragon King of the Dragon Sect. I know you!"

A bone tentacle shot out from within the ritual hall before it swung at the various Remains.

"A freak who's neither human nor spirit!"

Wang Xian gasped with a squinted look as he stared ahead. With an indifferent expression, he could see a tentacle which stretched more than a dozen meters in length, and a skeleton which reached up to ten meters. It resembled a snake's body and had a head attached to its rear.

It was the head of an Elder.

Gradually, another snake-like tentacle extended itself slowly into the open.

As with the previous, this skeletal tentacle also had a head at its tail.

Yet, this was not the end, as more and more skeletal tentacles began to emerge.

Finally, a youth appeared. He had exceptional visuals, although he was without legs.

On his lower body, ten snake-like tentacles supported his weight, where each of the ten measured more than a dozen meters long!

# Chapter 516: Annihilating Lord Ossein

Ga ga ga!

Ling ling ling!

When the terrifying Lord Ossein appeared, the cadaveric crows in the sky avoided the attacks of the Inferno Divine Dragon and the Nether Skull as they gathered above Lord Ossein rapidly.

The bone puppets were summoned towards him and stood before the disciples of the Remains. They were all staring at Wang Xian with bloodlust.

"Dragon King of Dragon Sect, I don't remember our Remains having any feud with your Dragon Sect. You should be going after Dong Hua Sacred Sect instead of coming to the base of our Remains!"

The young man looked at Wang Xian with a warming smile. His ten other tentacles that were over ten meters long supported him.

"There are many people who have no feud with the Remains and yet you killed them all. I don't need to have a feud with you to kill you!"

The Inferno Divine Dragon came back to Wang Xian and circled around him.

The Nether Skull shrank back to the size of a human head and hovered on Wang Xian's shoulder.

"How dare you barge in the land of our Remains! You are indeed as described in the information we have gathered. Arrogant and conceited!" The smile on the young man disappeared.

He lifted his head slightly and continued, "In that case, you guys can forget about leaving. The body of a Dan Realm expert could very well be used to forge my eleventh tailbone!"

He laughed out loud and waved his ten other tailbones. On them, the human heads were wretched.

Ten pairs of eyes stared at Wang Xian. They were cold and gave Wang Xian goosebumps.

"I'll kill the Dragon King. As for the rest, I'm leaving them to you guys!" The young man turned to Wang Xian and revealed a faint smile.

Hehe!

While he was smiling, ten creepy voices came from the ten human heads on his ten tailbones.

"Your path to the Remains is a one-way trip. Once you are here, you won't be leaving!"

The young man opened up his arms and shut his eyes slightly. A blood-red bell appeared in his hands.

"Oh, remains that have been in a slumber! It's time for you to rise!"

Ling ling! Ling ling!

Two clear rings sounded from the blood-red bell.

Ka ka ka ka!

All of a sudden, a bone claw emerged from the ground. Following which, black skeletons crawled out from the ground.

There were countless skeletons.

It was as though the entire ground had awakened as thousands and thousands of skeletons crawled out.

Ga ga!

Cadaveric crows cried as they circled in the air.

Their bodies had shielded the moonlight from the bright moon, causing the

entire region to resemble a terrifying death region.

"This was once a major graveyard where over three hundred thousand elite soldiers died. Now that it's awakening, the future Underworld will also be the Remains' Underworld," the young man mumbled to himself. Suddenly, he shouted coldly, "Kill!"

"Kill!"

The expressions on the faces of the group of disciples from the Remains were contorted as the bell rang. They immediately charged towards Wang Xian and the group.

Inborn level disciples of the Remains had ivory daggers and bone swords in their hands as they charged and attacked the twenty-seven dragonians.

Eighty to ninety Inborn experts killing twenty-odd Inborn experts should be an effortless task.

Around them, dense skeletons also charged towards the dragonians.

These skeletons were as hard as rocks and had a strength that was not weaker than a Level 6 or 7 martial artist.

Controlling skeletons is a little like necromancers in the western world. The Devil Dragon Cultivation arts can also control skeletons and the Skeletal Dragon is even better at it. If Elder Fang and Xiao Yu were here, there wouldn't be sufficient skeletons for them to crush.

Thousands and thousands of skeletons rose from the ground below Wang Xian.

Just killing these skeletons had fully occupied the dragonians, let alone going against a huge group of Inborn experts.

The strength of the Remains had completely exceeded their expectations.

"Devour them!"

Wang Xian moved his arm and black will-o'-wisps were emitted from the Nether Skull. They grew to two meters and attacked the skeletons below him and the

cadaveric crows.

"Your opponent is me! It's been a long time since I became serious. Let's see how far you can push me!"

The young man looked at Wang Xian as he flew into the sky directly. The ten terrifying tailbones were swaying and the heads on them were staring creepily at him.

"The second strongest expert from the Underworld? Hehe! Take my first tailbone attack!" the young man laughed as a tailbone swept towards Wang Xian with tremendous force.

"What an arrogant person!"

Ruthlessness flashed in the eyes of Wang Xian. "Today, I'll show you my true strength too!"

Grrrr, grrr!

This time, Wang Xian didn't attempt to hide. Before the astonished eyes of Lord Ossein, Wang Xian turned into a five-colored divine dragon.

Wang Xian lifted his head and gave a loud roar that reverberated throughout the skies.

"This is...?"

When Lord Ossein saw Wang Xian's form, his eyes couldn't help but constrict.

Divine dragon! Divine dragon... This... Could it be there are really divine dragons...?"

Lord Ossein looked to Wang Xian who was in the sky. A flash of surprise gleamed in his eyes but such emotions were quickly taken over by frenzy.

"Regardless of whether you are a real divine dragon or other creatures, if your body can be used to forge the eleventh tailbone, it will definitely be beautiful.

"I'm taking your body! Hehehehe!" Lord Ossein smiled and swung a tailbone

towards Wang Xian.

The terrifying tailbones resembled bone chains made from metal. They were incomparably terrifying and had spikes all over them.

The wind was split as the tailbone swept towards Wang Xian's head.

"I'll show you my strength too!"

Ruthlessness gleamed in the eyes of Wang Xian as he swung his dragon tail across.

The dragon tail glowed in a golden light and the dragon scales stood up.

The face on the approaching tailbone looked wretched. He opened his mouth, revealed his razor-sharp teeth and droplets of water oozed out from his mouth.

Rumble!

The dragon tail and the tailbone clashed heavily together, creating a deafening boom.

Argh!

A pitiful cry came from the head on the tailbone. The moment the head clashed with the Dragon Tail, it exploded into pieces.

Cracks filled the entire tailbone and it was almost as good as useless moving ahead.

"What?"

When Lord Ossein saw the cracks on the tailbone, he was shocked and infuriated. "How dare you crush one of my tailbones! You deserve death!"

As he spoke, his entire body moved and the nine other tailbones started sweeping towards Wang Xian like the tentacles of an octopus.

Every tailbone carried with it immense energy. As they clashed, sounds of explosions erupted and white fog was formed over the sky.

Hehe!

Seeing Lord Ossein attacking towards him, Wang Xian revealed a cold smirk.

The strength of Lord Ossein was indeed terrifying. Every tailbone could have the strength of a Dan Realm expert.

Moreover, Lord Ossein relied solely on the strength of the physical body, or simply, brute strength.

Nonetheless, one shouldn't belittle brute strength. When strength reached a certain level, it would still be a terrifying thing.

"He actually forced our Lord Ossein to release all his strength. This brat can die now!"

Below them, the disciples of the Remains looked in admiration towards Lord Ossein after seeing their Lord Ossein waving his terrifying tailbones.

# Chapter 517: Remains Annihilated

"Every tail bone of Lord Ossein has destructive power that can bring down the world. Each of them was made from the secret art of the Remains, after consuming a large number of worldly treasures. According to the elders, Lord Ossein alone could fight against five Dan Realm Experts!"

"Lord Ossein is considered the invincible existence among Dan Realm Experts. That person used an unknown method to turn into a Divine Dragon, but he's a far cry from our Lord Ossein!"

"In the myths, Divine Dragons can rise to the sky, travel in the clouds, tumble the water. Every one of them is a few hundred meters in size. From what I see, this Divine Dragon is practicing Bloodline Cultivation, which is similar to those in Europe!"

The group of Remains disciples watched with smiles on their faces.

Twenty-seven Dragonians were already fully suppressed by eighty Inborn Experts from the Remains, and they could passively defend themselves.

If it were not for the Nether Skull, there might have been casualties.

It would not be long before they were killed!

"The Dragon Sect is simply providing materials. Twenty-seven Inborn Experts will make powerful bone puppets!"

"After Lord Ossein makes his tail bone from this Divine Dragon, his strength will be enhanced greatly again. Then, Emperor Qi might not be his match!"

"With so many materials before our war, our strength will be greatly enhanced!"

A group of Remains disciples revealed malevolent smiles as they watched the battle.

Both the elderly and young were exhibiting bloodthirsty looks on their faces.

"Heh!"

Seeing the tail bone sweeping at him, Wang Xian displayed a contemptuous look.

When the tail bone was a hundred meters away from him, Wang Xian shook his body.

"Hmph!"

He let out a soft snort. With a jerk, solid mustard shields appeared around Wang Xian.

His body was giving off a bright yellow glow. Every single dragon scale on him looked extremely solid.

Boom boom!

Nine tail bones slammed onto the mustard shields surrounding Wang Xian, causing all the shields to vibrate.

Yet, there was no trace of cracks on them at all.

"Is this all you've got? Didn't you want me to try to see how many tail bones I could block?"

Wang Xian craned up his dragon head with disdainful eyes, staring at Lord Ossein, who was in shock.

"No, this can't be it. Damm it, it should crack!"

Disbelief took over the expression on Lord Ossein's face with five tail bones straightened up.

Poof!

A bone piercing sound was heard when sharp bones went through the top part of the tail bone.

Five tail bones spun with violent movement as they drilled into the Earth Shields!

Bam, Bam, Bam!

A hair-raising sound came from the sky, where five tail bones could only drill half a meter into the shield with their full forces.

In the face of the few-meters-thick shields, it was to no avail.

In particular, Lord Ossein's heart was slamming against his rib cage when he saw the taunting look on Wang Xian.

"It's my turn!"

With a contemptuous look in Wang Xian's eyes, thick thistles and thorns suddenly grew out from the shields.

The strips of thistles and thorns went straight to the five tail bones and clung to them.

"What? What kind of attack is this?"

Upon seeing the thistles and thorns winding up at the tail bone, there was a drastic change in Lord Ossein's expression.

From the flame just now, to the Earth Shield and thistles and thorns, he did not understand how he managed to have so many attacking means.

"The so-called Lord Ossein is a piece of trash in my eyes. Let me try to see how many tail bones I can withstand? Hehe, what irony!"

Wang Xian slowly reached out his dragon claws. From the Earth Shields, a strip of thistles and thorns came under his claws.

Wang Xian grabbed it and said, "Let me see if you can survive for ten seconds under my attack!"

As he spoke, he made a move and struck at Lord Ossein.

With an appalling look, five of Lord Ossein's tail bones were trembling. To his horror, the power that he was proud of could not even shake off Wang Xian's shackles.

"A Dan Realm Expert couldn't be that strong!"

Lord Ossein appeared a little like a stone as he quickly exclaimed, "You're a Budding Realm Expert! A Budding Realm!"

Coldness spread on Wang Xian's face as he raked his dragon claws at him.

"No, I'm the leader of the Remains. I'm immortal!"

There was a huge change in the expression of Lord Ossein, and the easiness and calmness from earlier on went missing. He malevolently controlled the remaining five tail bones and hurled them at Wang Xian.

With a swing, the thistles and thorns in Wang Xian's hand were growing at a frenzied speed. Strips of thistles and thorns instantly grew to over ten meters long.

Dozens of thistles and thorns knocked themselves against five tail bones.

Bam, Bam, Bam!

Some of them broke away, but there were more that wrapped themselves onto the tail bones.

"Do you still have other means of attack?"

Wang Xian stared at Lord Ossein with sarcasm as he grabbed Lord Ossein's body with the dragon claws that were emitting golden radiance.

"No... no..."

Lord Ossein was appalled and despaired.

The dragon claw of Wang Xian reached Lord Ossein and gripped his body.

"An ant that I can crush anytime!"

Wang Xian clenched his dragon claw, and a bone-cracking sound could be heard. The Energy of the Gold Summit on the dragon claws were crushing everything in his body.

"No..."

A desperate voice resonated through the place of the Remains.

"No, how can our Lord Ossein be killed? This is impossible. I don't believe it. This is not true!"

At this moment, the group of disciples of the Remains who were waiting for their Lord Ossein to display his mightiness were staring with disbelieving eyes. What they had witnessed was the easy defeat of Lord Ossein.

It was all too easy. The other party did not even exert much strength, and he could slay their invincible Lord Ossein!

All their beliefs were toppled instantly.

This was totally different from what they had anticipated.

"Today, I'll annihilate the Remains!"

Wang Xian swept his cold gaze at all the Remains disciples below him. He opened his mouth and spewed out a ball of daunting flames.

Flames fell on them like magma washing down from the sky.

"Run for your life!"

Frightening screams came from below as the Remains disciples let out their desperate growls with terrified faces.

They fled in panic, but the flames in the sky pouring down seemed to be endless.

This was the true-blue destructive power that could wipe out Heaven and Earth.

Wang Xian stood in the sky, a hundred meters above the ground, while all the Remains disciples were shrouded by the flame wherever it passed.

Those who were not even Inborns yet perished in the fire.

Wang Xian was merciless, as he would not let them off because of how they worked and how cruel they were.

"Oh no, Lord Ossein is dead. He's been killed!"

"Flee for your life!"

The Inborn Experts from the Remains who were besieging the Dragonians sensed the formidable strength from behind. All of them were horrified.

With terror, they gave up on the siege of the Dragonians and fled desperately away.

"Do you think you can escape?"

However, it was impossible for Inborn Experts to get away from a Budding Realm Expert, not to mention Wang Xian, who was close to the Immortal Realm.

Roar!

After a bellow, a ball of flames landed on the last Inborn Expert of the Remains who was enveloped by the daunting flame even before he could display his 'Golden Cicada sheds its shell.'

After that, the Remains were annihilated!

No one had expected the Remains, one of the four main devil sects, to be annihilated within a night.

# Chapter 518: The Treasures of Remains

Crack crack crack!

The bright moon illuminated the earth and explosions erupted from various corners of the creepy region.

From time to time, one could even hear the sharp cries of the cadaveric crows.

A huge, two-meter skull was constantly devouring skeletons and cadaveric crows.

As a stream of will-o'-wisps swept across, huge flocks of cadaveric crows and skeletons fell to the ground.

The entire region was exceptionally terrifying.

Wang Xian waved his arm and a stream of fire dragon energy shrouded over. Several skeletons fell and the will-o'-wisps from them entered into the Nether Skull.

Wang Xian could feel the Nether Skull getting exhilarated as it absorbed the surrounding will-o'-wisps with greed.

"Dragon King, the Remains are really strong. The bone puppets they have created could also match us in defense and strength!" Mo Yuan led the dragonians to clean up

the battlefield before returning to Wang Xian's side and commenting solemnly.

The disciples of the Remains together with the bone puppets they had forged gave a total of roughly seventy to eighty Inborn experts.

On top of that, Lord Ossein could even match four to five Dan Realm experts. Overall, they were incredibly tough.

At the very least, if Dong Hua Sacred Sect didn't have Nie Wushuang, the Remains might have chosen to target Dong Hua Sacred Sect by now and could even have defeated them.

It would take roughly three ordinary Sacred Sects to stand up against it.

There were four main devil sects within Diabolism and Remains was just one of them. The strongest of them all was the Devil Corpse Palace."

Emperor Qi was the Palace Master of Devil Corpse Palace and the strongest existence within Diabolism.

Other than the four main devil sects, there were also other devil sects. Spirits Land, Cursed Venom and Crimson Bug were examples of other devil sects below the four main devil sects.

There were also Dan Realm experts within the four main devil sects. It was just that they weren't as insane and powerful as Lord Ossein of the Remains.

On the surface, Diabolism and the orthodox sects had equivalent strength.

As to whether the alliance of orthodox sects could eliminate Diabolism, the crux was still the battle between Nie Wushuang and Emperor Qi.

"These bone-made weapons have been refined and can't undergo further processing. What a shame!"

Wang Xian looked across the ivory daggers, bone swords and other weapons used by the Remains. They were all Level 9 weapons.

These bone-made weapons were clearly forged through unique refining methods by the Remains.

Their limits had been reached and could no longer be improved.

Wang Xian appeared beside the body of Lord Ossein, glanced at his tailbones and shook his head slightly.

"Go search for the treasures within the Remains and bring all of them here!" Wang Xian instructed Mo Yuan and the dragonians while he remained to control

the Nether Skull absorbing the will-o'-wisps.

The Nether Skull was a rather mystical spiritual weapon. Now that Wang Xian had mastered the arts of forging spiritual equipment, he still couldn't decipher how it was created.

Vaguely, he felt this involved spirit arrays.

From the staff of Adjaya, Wang Xian could also feel the presence of spirit arrays.

The Nether Skull constantly absorbed the will-o'-wisps from the bones around him.

The will-o'-wisps from the bodies of the experts from the Remains were being sucked dry.

In the end, the Nether Skull came before the corpse of Lord Ossein. Its teeth were chattering and it seemed to be exceptionally excited.

Dense and terrifying vibes came from the Nether Skull as it landed on the tailbones of Lord Ossein.

The tailbones were cracking and streams of dense will-o'-wisps entered into the Nether Skull.

Bzz bzz!

The Nether Skull started to expand to two meters once again. However, two meters wasn't its limit as it continued to grow at an astonishing pace.

In the hands of the Deity Lady from Nether Flame, the limit of the Nether Skull was three meters. At this point, the Nether Skull had also grown to three meters.

When it reached three meters, the Nether Skull had only absorbed the third tailbone. There were another seven to go.

Streams of dense will-o'-wisps gushed into the Nether Skull. As the last tailbone was turned to ashes, the entire Nether Skull had grown to over five meters.

The five-meter skull hovered in the air. At its eyes, eerie will-o'-wisps were

burning and one could feel a creepy and evil aura coming from it.

Wang Xian waved his arm and the Nether Skull returned to his hands, reverting to the size of a fist in the process.

The effects of the Nether Skull were a little like the Dragon Ball. They could both be released to attack. However, the Dragon Ball was much easier to control as compared to the Nether Skull.

If the Dragon Ball reached Level 12, he would have little use for the Nether Skull.

Even so, it was still a little weak.

"Dragon King, we have located where the Remains kept their treasures!" At this moment, Wang Xian heard Mo Yuan.

Wang Xian moved and instantly arrived in the middle of the platform used for sacrificial rituals.

Within the structure, will-o'-wisps were burning. There was also a huge five-meter skull without any flesh and blood that was being enshrined.

The treasure cove was located at the lowest level.

Wang Xian jumped in and saw Mo Yuan and the dragonians looking at the items before them.

"Dragon King, this should be the most important treasure cove of the Remains!"

The area was dark with small will-o'-wisps hovering, illuminating the area.

The underground area wasn't big and spanned only a thousand square meters or so.

There were several racks with skeletons hung on them. These skeletons were also glowing with a dull shade.

Wang Xian looked across and realized these were the bones of experts. They were useless to him.

"Huh? This is...?"

Wang Xian walked to the left and saw pieces of black metal being placed on the rack neatly.

[Devil Shadow Steel: Level 10]

Devil Metal Steel? Inborn-level materials!

Excitement beamed in Wang Xian's eyes. There were over a hundred pieces of Devil Steel and each was the size of a human head.

Devil attribute Inborn-level materials. I can use them to forge equipment!

Wang Xian continued moving deeper and saw masks made of human skin hung on the walls. These masks could totally change one's appearance.

In the middle, there was a blood-red mask emitting a devilish vibe.

[Devil Shadow Mask: Level 10]

Devil Shadow Mask?

Wang Xian raised an eyebrow. He removed it and put it over his face. Instantly, energy welled up and a shadow of him appeared beside him.

The shadow looked a little illusory. If he could catch his opponent by surprise, the effects would be tremendous.

What an interesting mask! Devil Shadow Mask? Is this made from the Devil Metal Steel?

Wang Xian pondered as he continued looking around.

[Tenacious Devil Stone: Level 10]

More Inborn-level materials!

Looking ahead, a pile of stones that were glowing dimly appeared before his sight.

There were over fifty pieces and Wang Xian was elated.

Walking to the middle, Wang Xian found several thick books. On them, the word "Remains" was written in an ancient-looking font.

This is the art of creating bone puppets!

Wang Xian stared fervently at a book before flipping it open.

"Bones have spirituality. Refining them with special materials can forge powerful and terrifying bone puppets..."

The method of forging bone puppets was recorded within. Besides that, the extraction technique of the human mask was also recorded.

Including the ability to shed one's skin to escape.

Wang Xian took a look and shook his head. The crafting of bone puppets was too brutal.

One had to use the bones of living creatures that had just passed away or the bones of a living human!

# Chapter 519: The World Is Shocked

## (1)

Wang Xian burned all their books away since the Remains' Art of Cultivation was nothing useful.

He looked around, noticing only bones occupying most of the areas. Other than that, it was the raw material for refining the bone puppets.

The only relatively high-value stuff was probably a Devil Spiritual Bead, a Level 11 Devil Spiritual Bead.

However, the Devil Spiritual Bead was useless to him, except for making weapons or giving it to Mo Qinglong.

"Take all the material with us and go!" Wang Xian ordered the Dragonians.

"Yes, Dragon King!"

Mo Yuan beckoned to some Dragonians, wrapping all the Inborn materials up.

"Dragon King, we found some vital information!"

Just as they came to the ground, Wang Xian saw Long Qi, and the rest walked out from a room by the side with thrilled faces.

"What is it?"

Seeing their excited expressions, Wang Xian asked this with his curiosity piqued.

"It's about Omniscient Group. Unexpectedly, Omniscient Group was actually established by the Remains. They infiltrated the Underworld with Painted Skins and human masks with fifty years of development. Shenling Information Technology was their basecamp. I even have a piece of information regarding the top management of Omniscient Group.

"The top management was all die-hard subordinates groomed by the Remains.

They are not cultivators but completely ordinary people. If we could control the top management, we could control the entire Omniscient Group!"

Long Qi was elated as he continued to Wang Xian, "All the people in the Underworld would not have expected that Omniscient Group is controlled by a group of ordinary people. Hence, things turned out to be this way!

"Besides, they have access to a team of powerful computer masters who can do surveillance on any places. In addition, there are satellites. As long as the signal is clear, we can see anywhere we want!"

"Is that so?"

A trace of surprise flashed in Wang Xian's eyes.

"So, if we control the top management, we can control Omniscient Group?"

"Yes, the internal department of Omniscient Group has very tight control. Not even the middle-level staff know the location of the base of Omniscient Group. They will deliver the message through internal channels, reporting up level by level. As such, once we have access to higher management, it will be as good as controlling the entire Omniscient Group!"

Long Qi nodded his head with force.

"Mo Yuan, you'll try to gain control of Omniscient Group with Long Qi and the rest. I hope you guys succeed!" Wang Xian gave commands to Mo Yuan immediately.

"Yes, Dragon King. As long as we can find the people, we'll be able to seize control!"

"Sure, I'll wait for your good news!"

Wang Xian smiled as he walked outside.

When he stepped out of the Remains' Land, he spun around and swept a look at the creepy and daunting forest.

Wang Xian made a swift move and hovered to the sky.

With a Dragon Ball in his mouth, Wang Xian opened his mouth and spat below.

Columns of flames fell, encompassing an area spanning a dozen meters in an instant.

Wang Xian, again, spewed flames in the other direction.

Within a minute, the entire Remains' Land was shrouded in intense heat as the flames rose and spread out to the surroundings.

With swift action, Wang Xian came to the border of the land and set up a barrier.

That meant that the flame would automatically extinguish itself once the entire Remains' Land was totally burned down to ashes.

The entire region spanned over a radius of about twenty kilometers.

The black woods in this forest carried traces of toxins, so he wanted to get rid of this entire place.

When the fire rose, Wang Xian headed towards Ling City with a beaming face.

The blazing fire behind him was burning even more fiercely than before as it lit up the entire sky.

Ling City was a city that never slept. The nightlife over there could be comparable to those first-tier cities.

As a city with a high crime rate, many people were wandering outside at night.

When Wang Xian arrived at Ling City half an hour later, those wandering night owls suddenly realized the sky was much brighter.

"What's going on? Why is the sky lit up?"

A few young people outside looked up curiously as they noticed the sky was brighter than before.

"That is...? The direction of the Fateless Forest!"

"It's the Fateless Forest. There is a fire over there now. Why is that forest on fire?"

The Fateless Forest is quite damp!"

"What a blazing flame. The brightness is taking over the sky. I guess the range of land on fire should spread over ten kilometers!"

Everyone was shocked, including one of the Martial Artists who was looking towards the direction of the Fateless Forest with questions on his face.

"What's going on? Why is there such a huge fire?"

"The base camp of the Remains is in the Fateless Forest, but why would there be fire?"

Some Martial Artists cast their gazes over with suspicious looks.

The Fateless Forest covered hundreds of kilometers. Still, the region that was on fire was at least ten to twenty kilometers.

Such a large surface area of fire had erupted, and people of the Remains would not have missed out.

If they found out, why would they let the fire burn by itself?

Could something have happened to the Remains over there?

Some of the Martial Artists pondered.

"Master, the Fateless Forest is on huge fire. It's odd!"

Back on a rooftop of one of the five-star hotels in Ling City, dozens of middle-aged and old men were standing around as they gazed in the direction of the Fateless Forest with quizzical expressions.

"It is indeed strange. Someone from the Underworld mentioned that the Dragon King, along with some of the disciples of Dragon Sect, entered the Fateless Forest. Now that the forest is on fire, could this have to do with the Dragon King and the rest?"

The old man in the center revealed a pondering look.

The Spiritual Wind Sect, a first-class force, was just passing by this area after the

alliance of the orthodox sects had ended during the day.

Since it was too late to leave, they decided to stay put at Ling City for a night.

"There is absolutely no reason for such a great fire to break out in the Fateless Forest!"

A middle-aged man frowned.

"Could it be the Dragon Sect and the Remains developed some conflicts? Or it's more than meets the eye?" an old man murmured.

"Why don't we go and check it out? Given our speed, not even the Inborn Experts of the Remains could catch up to us!" said an old man from Spiritual Wind Sect suddenly.

Spiritual Wind Sect's cultivation was wind-attributed. Hence, their forte was in their speed. Compared with the people in the Underworld, the speed of the experts in the ancestral sects of Spiritual Wind Sect could be ranked within the top three.

"Great, let's go and check it out!"

Several elders hesitated before they nodded.

"You guys wait over here. We will be right back!"

Four Inborn Experts of Spiritual Wind Sect swept up swift movements just like a blast of wind as they flitted towards the Fateless Forest.

Their speed surpassed all their peer Inborn Experts.

To an Inborn Expert, one could take less than twenty minutes to travel dozens of kilometers. But the four Inborn Experts of Spiritual Wind Sect were much faster.

In less than ten minutes, the quartet came to the edge of the fire. They flapped their phoenix wings at their backs as they flew ahead.

"The soil over here is different from other places."

"Even the trees too. This should be the territory of Remains!"

They noticed that the region where the fire was burning was different from its surroundings. After some exchanges of gazes, there were traces of horror hidden in their eyes.

With some hesitation, they continued to hover towards the center.

"That is...?"

"Gosh! This was supposed to be the site of the Remains. Why has it turned to some ruins now?"

"Could it be?"

An unbelievable idea began to form in their heads as they stared blankly below at the ground covered with daunting bones.

Stone houses were radiating the fiery-red glow of flames, and charred bodies were lying on the floor.

"Could it be that the Remains have been annihilated?"

# Chapter 520: The World Is Shocked

"Could it be that the Remains have been annihilated?"

An unbelievable thought surfaced in the minds of the four experts from the Spiritual Wind Sect. They stood at the base of the Remains that had been razed while staring blankly at the surroundings.

When they looked across, they couldn't help but gasp.

"Where're the Remains? That's one of the four strongest devil sects! It's even stronger than an ordinary Sacred Sect and yet it has now been razed to the ground. Who did this? Who is capable of doing this?"

An old man looked around in shock. Looking at the corpses on the ground, he hesitated for a moment before jumping into the middle of the flames.

Ka ka ka!

As he landed on the bones, sounds of bones cracking gave him chills. He walked towards the structure in the middle and saw the sacrificial ritual platform with the word "Remains" engraved prominently on it.

Around them, there were no longer any signs of life. All the people had died.

The old man flew into the sky and suddenly noticed a huge body below him.

That was the body of a young man with ten terrifying tailbones. At this moment, the tailbone scattered into ashes when a gentle breeze blew past.

"Those ten tailbones... That must be the corpse of the Lord of the Remains!" Astonishment was written all over the old man's face as he mumbled with a shaky voice.

"The Remains being annihilated is a piece of good news for all orthodox sects. The only question would be who would have done so!"

The other old man by the side sank into deep thought. He had a conjecture in

mind but he wasn't certain.

"In the Underworld, who would be capable of this?"

An old man looked ahead before exchanging glances with the others. "Only the Dragon King and his subordinates have entered this place today. Moreover, only the Dragon King is capable of annihilating the Remains in the Underworld at this moment!"

"The Dragon King of Dragon Sect? This... Why did he want to annihilate the Remains? Now that he has a deep feud with Dong Hua Sacred Sect, would he dare to offend the devil sects too?"

An old man shook his head in disbelief.

"Becoming the enemy of Dong Hua Sacred Sect and Diabolism... Could it be that the Dragon King is trying to make the whole world his enemy?"

"Making the whole world his enemy... He is really making everyone his enemy. The Dragon King's actions aren't something we can predict. He has offended the leader of the orthodox sects and annihilated the Remains from Diabolism in the same day! Arrogance! Really arrogant!"

"Let's go. If the people of the Underworld are to learn about this, they probably will be shocked and stirred!"

"Dong Hua Sacred Sect is going to be embarrassed in this matter."

The few of them conversed and took a further glance at the base of the Remains that was still shrouded in flames. With shocked and complicated feelings, they headed back towards Ling City.

Along the way, they saw two Inborn experts dashing past them. They didn't converse and simply went on their own way.

Night. The entire world had quietened down.

Activity on the forum of the Underworld website had also died down deep into the night.

The critiques of the Dragon King and the Dragon Sect had also paused for the moment.

However, a thread suddenly appeared deep into the night.

[The Remains have been annihilated]

This thread came with pictures of the huge fire in the base of the Remains and the corpses within the area.

When this piece of news was announced, it didn't cause a huge ruckus at night. Nonetheless, there were still a thousand comments.

On the second morning, Wang Xian headed to the floating island near Rivertown after waking up.

Looking at the Devil Metal Steel and Tenacious Devil Stone on the ground, he hesitated for a moment before starting to craft weapons.

"I hope I can succeed. After I craft this Inborn Spiritual Equipment, the dragonians will be invincible among Inborn experts with them!"

Wang Xian's lips curved into a smile as anticipation beamed in his eyes.

At this moment, what Wang Xian didn't know was that his actions yesterday had shocked the world.

Late at night, when the thread of the Remains being annihilated was posted, it only drew the attention of a thousand-plus people.

Some of them didn't believe it while others had doubts in mind.

Some sects and experts nearing the Ling City sent their men over out of curiosity.

When they entered the nest of the Remains and saw the situation, they couldn't help but be astonished.

Early in the morning, the news of the Remains being annihilated had truly kicked up a storm.

[The Remains, one of the four strongest devil sects, has been annihilated. Flames have razed through their base and all the experts of the Remains are dead. This has been verified!]

[Many people might not have believed the news last night about the Remains being annihilated. We are located near the base of the Remains. After heading there, we are sure to say that the Remains have indeed been annihilated!]

[Shocking! The base of the Remains was reduced to ruins in a single night. Who could have annihilated the Remains?]

The news of the Remains being annihilated soon spread like wildfire.

The Remains was one of the four strongest devil sects. It was terrifying and strong. Yet, they had been annihilated.

Many people in the Underworld couldn't help but cheer on the news of them being annihilated.

The evil and brutal acts of the Remains had long infuriated many sects and families in the Underworld.

While they were celebrating the annihilation of the Remains, the question of who had annihilated them was also thrown out.

[Who could have annihilated one of the four strongest devil sects?]

[Who?]

When questions of this nature were posted, many people recalled the thread about the Dragon King of Dragon Sect last night.

[The Dragon King of Dragon Sect led a group of disciples with the disciple of the Remains into the Fateless Forest.]

The thread starter saw the Dragon King headed towards the base of the Remains with the disciples of the Remains.

Soon, news of the Remains being annihilated came.

At the thought of this, their jaws dropped and disbelief filled their faces.

[Could... Could it be that the Dragon King was the one who annihilated the Remains?]

[What a terrifying thought. In the current Underworld, Dong Hua Sacred Sect could have annihilated the Remains. Dragon Sect is also capable of doing so. Considering that the alliance of the orthodox sects was formed yesterday, Dong Hua Sacred Sect wouldn't have been the one who was responsible. On the other hand, there was news of the Dragon King leading his disciples into the base of the Remains. The conclusion is clear!]

[F\*ck! It's almost a hundred percent certain that the Dragon King was the one who annihilated the Remains. This... This... Dragon King is simply too incredible!]

[Aren't there people accusing the Dragon Sect of joining Diabolism? Damn! What a preposterous claim! In my view, considering the Dragon King's personality, he would never join Diabolism!]

[I believe it was Dong Hua Sacred Sect who accused Dragon Sect of joining Diabolism and that they will be annihilating the Dragon Sect!]

['I, the Dragon King, don't have to explain my actions to you. I can choose to become an enemy to the leader of the alliance of the orthodox sects, Dong Hua Sacred Sect. At the same time, I can annihilate the Remains from Diabolism as I wish.' Damn! The Dragon King is too darned domineering!]

[A day ago, everyone was still criticizing the Dragon King of Dragon Sect. What about today? Alright, I admit I was one of them. Here, I would like to say something. Dragon Sect is mighty! The Dragon King is domineering!]

[Through this, the Dragon King has undoubtedly given a slap to all those who criticized him yesterday. At the same time, they gave a slap to Dong Hua Sacred Sect. This speed of slapping those who criticized them is too darned quick!]

# Chapter 521: The World is Shocked

## (3)

The world is shocked!

So is the Underworld!

When the news of the Remains getting annihilated was passed around in the Underworld, threads were being added into the forums at a frantic speed.

Many people found it unbelievable, yet were elated by the fact that the Remains were annihilated by the Dragon King of Dragon Sect.

On the verge of the war breaking out between the devil and orthodox sects, having annihilated one of the four devil sects was as good as weakening Diabolism by one-fifth of their strength.

Yesterday, the rumor that Dragon Sect was joining Diabolism had fallen on its own, putting Donghua Sacred Sect in an awkward position instantly.

[The Donghua Sacred Sect is really embarrassed now. From their statement released yesterday, they were too impatient to deal with Dragon Sect.]

[Donghua Sacred Sect and the rest of the Martial Artists simply accused Dragon Sect of joining Diabolism, so they just annihilated the Remains. Which Sacred Sects in the Underworld are capable of doing so? Even Donghua Sacred Sect would need to make tremendous efforts!]

[I don't understand the actions of the Dragon King from Dragon Sect. He just rejected to join the alliance of the orthodox sects yesterday afternoon and even made Donghua Sacred Sect their sworn enemy. Yet, Dragon Sect annihilated the Remains that night. We're just average men who can't see the link!]

[Let me clarify. The Dragon King has made Donghua Sacred Sect a sworn enemy because of Hai Jiao. Hai Jiao wanted to slay the Dragon King. Still, he was defeated by the Dragon King, and Donghua Sacred Sect wanted to protect

Hai Jiao. Hence, they became enemies!]

[But why isn't Dragon Sect joining the alliance of the orthodox sects? Why does no one ask this question? And why does Donghua Sacred Sect want to protect Hai Jiao when he was trying to kill the Dragon King and was eventually defeated? Obviously, Donghua Sacred Sect infuriated Dragon Sect, resulting in Dragon Sect turning their back on them!]

[In any case, it was good that Dragon Sect did not join Diabolism. Otherwise, given the power of Dragon Sect and the strength of the Dragon King, we don't know how much price the Underworld must pay just to annihilate Diabolism!]

In the internet world, netizens overturned their points of view at the speed of lightning. That is how the internet works.

Yesterday, many of the Martial Artists were still chiding the Dragon Sect. Still, more Martial Artists surfaced to support Dragon Sect and the Dragon King today.

However, Wang Xian would not have the slightest interest in this even if he knew about it.

At this time, a group of people arrived on the floating island.

"Wang Xian, we're here to confirm something with you!"

Sui Huang and Xiao Quanshan led some of their disciples to the floating island and spoke to Wang Xian as soon as they saw him.

"Oh? What's the matter? Have you brought all the Inborn-level materials? Let me see how many Inborn Spiritual Weapons I can exchange with you guys!" Wang Xian said to them with a broad smile.

"Did you really annihilate the Remains of Diabolism?"

Sui Huang and Xiao Quanshan stared at him, setting the Inborn Spiritual Weapons aside first.

"Yes, I met the people from the Remains yesterday, and I don't like their ways of doing things. Since I wasn't far from their base camp, I just annihilated them!"

said Wang Xian without any emotion.

Sui Huang and Xiao Quanshan exchanged glances with their lips twitching.

Annihilated the Remains as you wished... It is the Remains you are talking about!

Since the Remains could effortlessly annihilate Sui Clan and Xiao Clan, it seemed like their gaps with Dragon Sect was getting bigger.

"Fine, you're a demon!"

Sui Huang took a deep breath and continued, "All the Inborn-level materials that we could get are here. Take a look and see how many weapons can be exchanged."

"Sure!" Wang Xian nodded.

The people from Sui Clan and Xiao Clan carried all the materials forward.

Looking at the chests of Inborn-level materials, radiance was beaming from Wang Xian's eyes as he showed a hint of excitement.

"Take a look!" Xiao Quanshan told Wang Xian as he opened the chests.

[Wind Feather Stone: Level 10]

[Earthy Clay: Level 10]

[Thunder Rock: Level 10]

[Golden Metal Rock: Level 10]

[Ryukinium: Level 10]

[Vibranium: Level 11]

[Ghost Wood: Level 11]

All the Inborn-level materials brought by Sui Clan and Xiao Clan totaled seven types of different metals.

Out of which, two were Level 11 materials while the rest were Level 10. Metal-attributed materials made up most of them.

"This is Wind Feather Stone, which is extremely durable, and you almost cannot feel its weight."

"Earthy Clay has a strong stickiness, and it's hard to get rid of once something is stuck on it!"

"Thunder Rock was a rock found on Thunder Mountain. It was formed through millions of lightning strikes, and therefore it contains an immense amount of electricity. It could easily electrocute an elephant!"

...

Xiao Quanshan and Sui Huang began to introduce the metals to Wang Xian.

In which, the number of Wind Feather Stones was the highest, with sixty pieces of it, while Vibranium and the Ghost Wood had the least numbers.

Overall, they had quite an amount of Inborn-level materials. With those, he could craft at least twenty to thirty weapons under the assumption of a 100% success rate.

The success rate of smithing weapons and alchemy were on par.

But compared to alchemy, some of the materials could be recycled when a weapon failed in the crafting process.

"With these materials, you guys can forget about Dan Realm weapons. Since you have too little Vibranium and Ghost Wood, I'll give each of you ten Spiritual Weapons. What do you think?" asked Wang Xian with a beaming face.

"Sure!"

Radiance flashed in the duo's eyes as they nodded in agreement immediately.

Initially, the thought of exchanging these materials for five weapons Inborn Spiritual Weapons would have made a great deal to them. Since they could exchange ten now, it had greatly exceeded their expectations.

"Great, come over and pick your weapons!"

Wang Xian nodded and brought them to the Weapon Pavilion.

Back on the floating island, Wang Xian had ordered his men to construct a separate pavilion for weapons and elixir pills to distinguish the treasures.

All the other forces in the Underworld would usually have one treasure vault, but Wang Xian was different!

When they entered the Weapon Pavilion, one could sense a surge of sharpness and heat as a myriad of weapons were hanging on the surrounding walls.

The weapons were exuding a faint fire glow as they possessed a unique spirit!

"This, this...."

As soon as Sui Huang and Xiao Quanshan entered, their eyes flew open with unbelievable looks.

"You lad. How did you manage to get so many Inborn Spiritual Weapons? Gosh! Why are there so many over here?"

The two of them acted like they were some bumpkins, gazing around in shock.

"I can feel daunting power from that staff over there!"

"That knight sword is above the Inborn-level. It's definitely more than that!"

"Goodness gracious!"

The two of them looked around with surprise as they almost drooled.

Wang Xian looked at them and chuckled. "Okay, each of you is allowed to take ten weapons. Don't say I'm mean. It's quite a lot!"

One was the master of his girlfriend, while the other one was the Laozu of his disciple. On top of that, Wang Xian owed them favors. He would not feel bad for giving them ten weapons each.

"Eh, Wang Xian. You see... Since you have so many Spiritual Weapons over

here, can you lend me a handy weapon too?" asked Sui Huang to Wang Xian with thick skin.

Xiao Quanshan, at the side, twitched his lips upon seeing the way he acted. But he also looked at Wang Xian with a flattering look.

"I heard that Shuqing was in a bad mood these last few days. I was getting ready to teach her alchemy over the next two days. The timing is just right!"

Sui Huang took out his trump card.

# Chapter 522: Devil Shadow Masks And Devil Wings

Falling for Sui Huang and Xiao Quanshan's shameless pleas, Wang Xian threw two weapons casually towards them.

Both of them grinned widely as though they were perverts who had their eyes fixed on a stunning beauty. Holding the weapons in their hands, they constantly wiped the weapons. One would have thought they might start drooling.

"With these weapons, the losses of our Sui Clan will be greatly reduced in the upcoming battle against Diabolism!"

Sui Huang looked at the rest of the Inborn Spiritual Weapons, grinned and was beaming with excitement.

"Alright. Now that you got what you wanted, I'm going to send you guys off!"

Wang Xian took a glance at the Inborn-level materials beside him and was prepared to start refining equipment.

"Alright, alright!"

Sui Huang and Xiao Quanshan didn't take offence with Wang Xian's attitude as they were grinning widely for what they had gotten. They hesitated for a moment before asking, "Brother Wang Xian, are you leading the Dragon Sect to target Diabolism in the upcoming battle?"

"Target Diabolism? Nope. I'm preparing to deal with Dong Hua Sacred Sect."

Wang Xian chuckled and shook his head while a ghoulish light flashed across his eyes.

"Huh? Deal with Dong Hua Sacred Sect?"

The two of them were slightly shocked and frowned. "Are you really not resting till one of you has perished?"

"When they wanted to protect Hai Jiao, the outcome was decided!" Wang Xian continued with a smile, "Alright. Just be careful in the upcoming battle between the orthodox sects and the devil sects. I'm going to get busy!"

Sui Huang and Xiao Quanshan shook their heads, exchanged glances and headed out.

"Deal with Dong Hua Sacred Sect? Would the Dragon Sect take action soon?"

After walking off the floating island, Xiao Quanshan turned to Sui Huang and asked this with a solemn face.

"It's hard to say. No one really knows what that kid is thinking. However, he's a pretty good person and isn't bad at all at his core. Regardless, let's help each other to reduce our losses for the upcoming battle!" Sui Huang heaved a sigh and shook his head.

"Dong Hua Sacred Sect made a statement on the Underworld website just a while ago."

"Oh? What kind of statement?"

"They said that the Dragon Sect annihilating the Remains is the right decision. Since they have the capabilities, they should be doing more for the Underworld and eliminating more devil sects!"

"Huh? Dong Hua Sacred Sect probably did this on purpose! They want the devil sects to go after the Dragon Sect!"

"That's probably what they have in mind. As one of the four strongest devil sects, the Remains were well regarded in Diabolism. Dong Hua Sacred Sect is fanning the feud on purpose to induce the devil sects to deal with the Dragon Sect. It's going to be trouble now since the Dragon Sect has offended Dong Hua Sacred Sect and Diabolism!"

"Although offending Dong Hua Sacred Sect and Diabolism will be problematic to the Dragon Sect, the Dragon Sect only has fifty disciples. Moreover, all of them are Inborn experts. If they really wanted to hide, no one could find them."

"We can protect their kin for them. Brother Wang Xian has been really generous

this time!"

Sui Huang and Xiao Quanshan conversed. They weren't going to do anything about the Dragon Sect. Even if they wished, they couldn't. Protecting the kin of Wang Xian could very well be the only thing they could do to help.

This was also in gratitude to Wang Xian for gifting them the weapons.

Wang Xian didn't know about Sui Huang and Xiao Quanshan's thoughts. If he knew, he would probably laugh it off.

At this moment, Guan Shuqing, Lan Qingyue, Xiao Yu and the rest wouldn't require him to protect them at all.

Disregarding their personal strength, Adjaya was still around. Who could possibly harm them in the current Underworld?

Even if Nie Wushuang and Emperor Qi from Diabolism were to attack them together, they wouldn't be able to harm the girls in the slightest.

The only shameful thing was... His backyard was on fire.

Wang Xian brought all the Inborn-level materials to the Wan Forging Table and Wan Forging Hammer. He took a deep breath.

Refining equipment wasn't very different from ordinary smithing.

The most obvious difference would be that the level of the materials differed substantially.

Based on the introduction in the Fire God's Secret Book, one would just require the materials and forging technique to craft Level 10 and Level 11 equipment. They didn't involve the use of spirit arrays.

Another difference between equipment refining and smithing was that refining higher level equipment required an Art of Forging.

The forging of the edge of the blade, the forging of a truncheon and many others required the consideration of the conductivity of spiritual energy.

For example, when crafting fire attribute Inborn Spiritual Weapons, one had to consider the conductivity and enhancement of fire energy.

Ordinary Inborn Spiritual Weapons could enhance an ordinary martial artist's strength by fifty percent. Powerful Inborn Spiritual Weapons could increase such enhancement to eighty percent.

This greatly depended on one's skill in forging.

An exceptionally important issue would be the conductivity of attribute energy. One had to go through thousands of rounds of practice to get it right.

Otherwise, some weapons that were crafted would not be able to enhance one's strength. Instead, they would even hinder one's ordinary strength.

Other than the Art of Forging, there is also the selection of materials and the special features of the weapon!

Wang Xian pondered as he looked to the materials before him.

Combining materials together could bring out even greater energy. The combination of materials was even tougher and required constant experimentation.

Naturally, one could also just use a single type of material.

Since I can't forge weapons that suit my current strength, I might as well forge some equipment for the dragonians! Wang Xian thought to himself.

He picked up the two Inborn-level metals, Devil Metal Steel and Tenacious Devil Stone, which he had gotten from the Remains.

Dragonians wouldn't require weapons as their dragon claws are even stronger than Inborn Spiritual Weapons. I can discount the weapons then. As for defense, even Inborn-level armor would not be of much use after considering the toughness of their physical bodies.

In that case...!

Wang Xian moved his arm and a mask appeared in his hand.

This was the Devil Shadow Mask he had obtained from the treasure cove of the Remains. After wearing it, one could release a shadow.

Although the shadow was illusory, devil attribute cultivators could shroud themselves in devilish aura. This would make the illusory shadow a little more realistic.

This was a piece of secondary equipment and its effects would differ from person to person.

However, it would be a rather good choice for the dragonians.

Wang Xian moved his hands over the Devil Shadow Mask while memorizing every contour on it. He picked up a piece of Devil Metal Steel and placed it on the Wan Forging Table.

"First, I have to heat the Devil Metal Steel till it melts so I can change its appearance!"

As a Level 13 spiritual forging equipment, the Wan Forging Table had a powerful enhancement.

Mold creation.

One could create a mold of the equipment to be crafted. After which, one would have to use the Wan Forging Hammer to hammer it into shape before inducing attribute conductivity.

Within the Wan Forging Table, flames were imbued. Five Level 12 Spiritual Flame Balls were embedded on it.

If the Wan Forging Table wasn't for refining equipment, Wang Xian would have extracted the Spiritual Flame Balls from it.

Other than the flames of the Wan Forging Table, one could also use his own flames.

The creation of a mold was simple. Melting the metal and refining it was tough. However, the toughest was the management of the conductivity of the equipment.

Wang Xian created a mold on the Wan Forging Table. After which, he started smelting and refining the Devil Metal Steel.

Let's begin!

Wang Xian took a deep breath. With just a thought, a small Origin Source Flame appeared on his palm.

His lips curved into a smile as he directed the Origin Source Flame onto the Wan Forging Table.

[Ding! Refine Equipment With The Origin Source Flame!]

The notification of the system sounded and Wang Xian was beaming with excitement.

Following which, the process of refining would start.

As the Devil Metal Steel was placed on the Origin Source Flame, it softened rapidly.

Wang Xian lifted the Wan Forging Hammer and hammered down.

All the impurities within were instantly purged.

# Chapter 523: It's Time to Strike

Clang clang clang!

Bam, Bam, Bam!

The hammering sound kept coming as Wang Xian had not stopped hammering the sheet of Devil Metal Steel according to the forging method in the Art of Equipment Refining.

The most amazing effect of using the Origin Source Flame to refine equipment was the removal of impurities.

Removal of impurities was a crucial step, as the impurities could affect the properties of conduction and therefore affect the power of the weapons.

Secondly, the Origin Source Flame had another strong effect: to soften any types of metals speedily.

It could achieve the same temperature between the interior and exterior of the metal.

For refining equipment, these effects were like great plugins.

After Wang Xian placed the Devil Metal Steel in the mold, he quickly hammered it. Soon, the shape of a mask was formed.

After the semi-finished mask was done, he could proceed with conducting the attributes into the mask.

When Wang Xian examined the conductivity of the semi-finished mask, he instantly found out that the conductivity was smooth without any blockage.

"It must be the Origin Source Flame. The so-called conductivity has a simple way of testing. When the attribution passes through, it will straightaway appear at the end of the device. Just like electric conduction. Some have poor or good conductivity."

This had to do with the impurities in the materials. The rest did not have much of an impact.

"It's easy to solve the issue of conductivity when using a single material to craft a weapon. But when it comes to using two or more materials, the conductivity is a key point!"

Wang Xian was elated. Using the Origin Source Flame to refine equipment was such an easy task.

Some of the blacksmiths would spend a long time just to make an Inborn Spiritual Weapon.

Take Zhan Lu, for example. It was said that he used three months just to make the Ancient Sword of Zhan Lu.

Wang Xian took the Wan Forging Hammer, making some small adjustments to the mask.

"Phew, it's done!"

[Devil Shadow Mask: Level 10]

"A black-colored mask isn't that nice at all. I should draw an abyss on it. The Abyss Mask looks cool and impressive!"

Wang Xian was wearing smiles as he looked at the mask. He put it on, and a shadow emerged beside him.

The shadow was vague because he was not using any devil attributions.

Once the devil attribution was activated, the shadow would turn realistic, and it could distract the opponent during combat.

"I'll make fifty of them!"

Wang Xian looked at the material, raised his Wan Forging Hammer, and began to speed up his crafting process.

Level 13 supreme-class weapons with Origin Source Flame, a crazy flame.

Making Inborn Spiritual Weapons was a breeze to him.

After the hammering sound continued for more than two hours, Wang Xian had completed fifty Devil Shadow Masks.

But he did not stop and went on to make other stuff.

It was another piece of auxiliary equipment, a pair of Devil Wings.

The speed of dragonians was a flaw compared to their power and defense.

If they had a pair of wings, it could significantly enhance their speed.

On the other hand, wings and masks had a complimentary effect.

Since Wang Xian had the Origin Source Flame, he thought of an idea: to make the Devil Shadow Mask and Devil Wings into a suit.

This way, they could complement each other, making it a simple Spiritual Weapon Suit.

The suit had one feature, and that was a complement.

There were two types of complements. One was the Spiritual Complement, and one was the Power Complement.

The Spiritual Complement was somewhat more advanced, while the Power Complement was simpler.

But to Wang Xian, this was a piece of cake.

However, making a pair of wings was undoubtedly much more difficult.

The three materials required were Tenacious Devil Stone, Wind Feather Stone, and Golden Metal Rock.

With this three metal combination, it added a lot of difficulty to the crafting of the weapon.

The Tenacious Devil Stone was the primary material, while the other two materials were supplementary. Wang Xian had to bring out the characteristics of

these materials, at the same time, not to affect the attribution conductivity.

Bam, Bam, Bam!

For the whole day, Wang Xian had not stopped his hammering and research.

Making auxiliary weapons like the wings proved to be too difficult, as Wang Xian spent eight hours to make one.

The pair of Devil Wings spread out 1.5 meters on each side, three meters with both sides extended out.

The entire wings were pure black with five frames supporting them in the middle. After adding the Wind Feather Stone, the entire wings were as light as a feather.

When they conducted with their devilish aura, they could soar effortlessly into the sky.

That would increase their speed by another fifty percent.

But before using the Devil Wings, one had to embed a Spiritual Stone at the position of the Wind Feather Stone to activate its effect.

Fortunately, the consumption was not massive, and it could be brushed off.

Flap!

Wang Xian spread out the wings with a crisp-clear sound. After he tested them, the wings shrunk, and would not be affecting anything. Even spreading the wings during a battle would not have the slightest hindrance to movement.

Wang Xian had a satisfied look on his face. After putting on the mask, it would be simply impressive if he had another black trench coat.

"Should I make one too?"

Wang Xian raised his eyebrow as he was intrigued. But after looking at the material, it was a pity that the materials he had were insufficient. He shook his head without any choice.

After putting on the mask, two pieces of metal could buckle on the wings, linking the two items, creating the simple effect of a suit.

Wang Xian moved around, and an illusory shadow emerged beside him.

With his lips curled, he continued making his Devil Wings.

"Dragon King!"

When the moon was hanging in the night sky, Mo Yuan called out from outside.

"Come in!"

Wang Xian wiped the sweat on his forehead. Even he was a little tired after crafting weapons for the entire day.

"Dragon King, Omniscient Group is now under our control!" said Mo Yuan to Wang Xian excitedly.

"Under our control? That fast?"

A trace of thrill flashed across Wang Xian's eyes.

"Yes, there were not many people at the higher management level. On top of that, they were ordinary people. Hence, it was easy for us to take control, and now we have gained access to the information in Omniscient Group!"

Mo Yuan nodded his head with force.

"Great!"

Wang Xian squinted his eyes. "From now on, collect all the information on Donghua Sacred Sect. Since we won't rest unless one of us is dead, we should do something about it!"

As Wang Xian spoke, he drew his lips.

"Yes, Dragon King. We'll get Omniscient Group to send us all the information about Donghua Sacred Sect!"

"Okay!"

Wang Xian nodded. Seeing the well-made Inborn Spiritual Weapons, he smiled and took out his phone to rest on the chair.

When he read the messages on the Underworld forum, he put up a faint smile.

Everyone was discussing the Dragon King and Dragon Sect.

The news of the Remains being annihilated had shaken the entire Underworld. After Donghua Sacred Sect released another statement, all the Martial Artists of the Underworld were hoping the Dragon King and Dragon Sect could wipe out the rest of the devil sects.

All of them were discussing the Dragon King and Dragon Sect's strength.

Dragon Sect was known to be the next strongest Sacred Sect after Donghua Sacred Sect.

At the same time, all of Diabolism had noticed the fact that Wang Xian had annihilated the Remains. Some of them had posted threads on the Underworld forum, saying they would annihilate the Dragon King to avenge the Remains!

# Chapter 524: Killing Experts From Dong Hua Sacred Sect (1)

[I hope the Dragon Sect can annihilate more devil sects. In that case, annihilating the entire Diabolism will be an easy task together with the strength of the orthodox sects!]

[Even Dong Hua Sacred Sect wishes to see the Dragon Sect annihilate more devil sects. They probably have high regard for the strength of the Dragon Sect. Let's hope that the Dragon King can eradicate more devil sects!]

Wang Xian noticed there were more and more threads of this nature after Dong Hua Sacred Sect made its statement.

Besides that, there were threads that cheered on the Dragon Sect and the Dragon King. They proudly boasted about the invincibility of the Dragon King and the Dragon Sect, the Dragon King who saw all evil as his enemies, for whom eliminating Diabolism entirely would be a walk in the park.

There were all kinds of discussions. Subsequently, the devil sects made their statements to warn the Dragon Sect and Dragon King to stay low and that they would be taking revenge for the Remains.

The entire Underworld was exceptionally lively. Looking through these comments, ruthlessness flashed in the eyes of Wang Xian.

It seems like Dong Hua Sacred Sect is truly scheming. They hope to see me annihilate more devil sects? Hehe! I have no feud with the devil sects but I do have one against you!

Wang Xian's expression turned cold as ice. Looking at the messages popping up on his phone, he stood up and continued refining spiritual equipment.

The effects of this Inborn Spiritual Equipment would be first tested on Dong Hua Sacred Sect!

After working through an entire night, Wang Xian had crafted fifty sets of Devil Shadow Mask and Devil Wings. Seeing the Inborn Spiritual Equipment that was glowing with a dull light, he revealed a satisfied smile.

"Dragon King! These are the pieces of information that Omniscient Group has gathered on Dong Hua Sacred Sect!"

Soon after, Mo Yuan carried a set of information to Wang Xian.

"Can we find an entry point? A few days have passed and it's time to give Dong Hua Sacred Sect a surprise!"

Wang Xian looked through the information as he asked Mo Yuan.

"Entry point?" Mo Yuan sank into deep thought. Soon, he lifted his head and answered, "Dragon King, we do have an opportunity tomorrow!"

"What kind of opportunity?"

"Nie Wushuang of the Dong Hua Sacred Sect and Emperor Qi of Diabolism have arranged to meet at Huashan for the supreme battle. Eighty percent of the Inborn experts of Dong Hua Sacred Sect will likely attend this major battle. However, there will be some who remain to guard an area. Dong Hua Spiritual Ore Mine!" answered Mo Yuan.

"Dong Hua Spiritual Ore Mine?" Wang Xian raised an eyebrow as he flipped through the information in his hands.

Other than having Nie Wushuang, the reason why Dong Hua Sacred Sect could become the strongest sacred sect in the Underworld was because of the spiritual ore mine.

A spiritual ore mine that one could excavate spiritual stones.

Based on the information on record, Dong Hua Sacred Sect could excavate forty to fifty thousand spiritual stones from the spiritual ore mine annually.

Forty to fifty thousand spiritual stones was an insane amount.

Because of the existence of the spiritual ore mine, the number of Inborn experts

in Dong Hua Sacred Sect easily triumphed in the Underworld.

"Dong Hua Spiritual Ore Mine is just fifty kilometers away from the sacred grounds of Dong Hua Sacred Sect. If we ambush them tomorrow, we can easily kill all the experts that remain to guard to spiritual ore mine!" Mo Yuan answered confidently.

"Fifty kilometers...?"

Wang Xian raised an eyebrow.

"Yeah! Fifty kilometers. A Dan Realm expert will be leading the guards with at least a dozen-odd Inborn experts. It's an incredibly important location for Dong Hua Sacred Sect!"

Mo Yuan nodded his head.

"In that case, we don't have to wait to attack them until they are away. The people in the Underworld would believe that we are afraid of Dong Hua Sacred Sect. Since we are going to attack, we shall do it tonight!"

A beam of ruthlessness gleamed in Wang Xian eyes as he spoke.

"Tonight?"

Mo Yuan pondered for a moment before asking, "Dragon King, would you want to go with us?"

"Naturally. Nie Wushuang from Dong Hua Sacred Sect will likely have reached the Budding Realm. If he is there, you guys wouldn't be a match!"

Wang Xian nodded his head before continuing. "Inform all disciples of the Dragon Sect to head towards Dong Hua Spiritual Ore Mine. The battle has begun!"

The battle has begun!

Wang Xian didn't have the intention to target with Dong Hua Sacred Sect so quickly. However, he wanted to give Dong Hua Sacred Sect a lesson after seeing their statements on the Underworld.

Otherwise, Dong Hua Sacred Sect would assume that his Dragon Sect was just a joke.

Since they had decided to not rest till a side had perished, so be it!

Wang Xian smirked coldly. "Distribute these Devil Shadow Masks and Devil Wings to all the dragonians and test out the strength!"

"Yes, Dragon King!"

Mo Yuan nodded his head. Soon, the disciples of the Dragon Sect arrived one after another.

"Let's go!"

The group of dragonians kept the Devil Shadow Masks and Devil Wings as they followed behind Wang Xian towards Dong Hua Sacred Sect.

They didn't take any form of transportation vehicles.

Dragon Sect was currently in an opposing stand to Dong Hua Sacred Sect. There was no way Dong Hua Sacred Sect would not guard against the Dragon Sect.

Moreover, Dong Hua Sacred Sect definitely had its own intelligence channels.

If he had headed towards Dong Hua Sacred Sect with so many people, they would definitely be alerted.

As such, Wang Xian and the group of dragonians chose to fly there directly.

In a deserted area, a group of people were in black clothes and wore black hideous looking masks.

Behind them, they had pairs of wings that spanned over three meters.

The group of fifty-odd people flew rapidly across the sky.

They were just like a flash of shadows as they moved ahead at a tremendous speed.

"Inborn-level wings can fully enable an Inborn expert to fly rapidly across the

sky. In fact, they are even faster than airplanes!" Wang Xian mumbled as he looked ahead of him.

At this very moment, the higher management of Dong Hua Sacred Sect was gathered in a hall in Dong Hua Sacred Sect.

No one was in the Master's seat.

Nie Wuya and several other Dan Realm experts were seated closer to the front.

Other than the three Dan Realm experts that had shown themselves during the alliance of the orthodox sects, there were two other old men by their side with faint auras emitting from them.

"Tomorrow will be the major battle between our sect leader and Emperor Qi. At that time, Old Xiang will guard the sect while Old Zhou will guard the spiritual ore mine. As for the rest, we will follow the sect leader!"

Nie Wuya instructed the other old men around him.

"I really want to witness the battle of the ages of the Underworld and see how insanely strong our sect leader is currently!" an old man commented.

"Old Zhou, we can't leave the spiritual ore mine unguarded!" Nie Wuya said to the old man with a smile.

"It doesn't matter if it is guarded or not. Who dares to have ulterior motives on Dong Hua Sacred Sect?"

The old man snorted confidently while clearly looking displeased.

Hehe!

Nie Wuya chuckled. "That Dragon King from the Dragon Sect has the guts to stand against us! How brazen!"

"The Dragon King of the Dragon Sect is indeed arrogant and fearless. After offending us, they went to annihilate the Remains. Even the devil sects are looking to kill the Dragon King to take revenge for the Remains!"

"That Dragon King is indeed strong but we will definitely be able to kill him if we fight him together!"

"Of course, it wouldn't be a problem if the five of us work together. Although the Dragon King is arrogant, he isn't weak at all. Nonetheless, he will likely not live long after offending us and the devil sects. He will either be killed by us or by the devil sects!"

Nie Wuya chuckled. "We still can't drop our guard right now. If the Dragon King were to ambush us when we leave, it would be problematic!"

"Hehe! We have an ancient defensive spirit array over the spiritual ore mine that can even trap any Dan Realm experts. If he's here, we will just trap him here!"

The old man who was addressed as Old Zhou smirked and continued, "A Dragon King isn't a cause for concern yet. If he dares to come, I'll turn him into a trapped beast!"

"He's indeed not a cause of concern. However, the devil sects are running amok. If it were peacetime, the Dragon Sect would have been annihilated. There's no way he could be arrogant like now. Tsk!"

Nie Wuya snorted and killing intent flashed in his eyes.

"Haha. Leave the spiritual ore mine to me and don't worry about it. I'll just kill anyone who comes!" Old Zhou said while brimming with killing intent.

# Chapter 525: Killing Experts From Dong Hua Sacred Sect (2)

Dong Hua Spiritual Ore Mine was situated in the Qilu Mountain Range.

Spiritual Energy had diminished during the ending of the age of Dharma, leaving fewer and fewer Spiritual Ore Mine in the world. Within the territory of China, the only Spiritual Ore Mine was guarded by Donghua Sacred Sect.

And not many ancestral sects knew of the exact location of Dong Hua Spiritual Ore Mine as it was top-secret.

As Omniscient Group and the enemy of Donghua Sacred Sect, Diabolism knew the location of Dong Hua Spiritual Ore Mine very well.

The mechanical sound that had been blasted for the entire day on Dong Hua Spiritual Ore Mine had finally ended at night. Large pieces of heavy machinery were placed in the Spiritual Ore Mine.

Surrounding Dong Hua Spiritual Ore Mine were woods towering at a dozen meters high just to conceal its location.

This place was totally secluded even though houses were built by the side of the Spiritual Ore Mine.

The interior of the houses were simple but luxurious.

Inborn Experts walked out of the houses around the mine, and did their routine checks.

"All clear!" a middle-aged man said with a smile on his face.

"Staying put at this isolated Spiritual Ore Mine really bores me to death. We won't even get to view the battle between Sect Leader and Emperor Qi from Diabolism!"

Holding a Vajra in his hand, a bald, middle-aged man not far away shook his

head and remarked plainly.

"During normal times, it's fine to have lesser people over here. But it's the critical period now, and this place needs to be heavily guarded. Isn't Supreme Old Zhou staying here every day?"

An elder smiled to the bald man as he spoke.

"Hmph, it's all because of damn Diabolism and Dragon Sect. Otherwise, we woundn't have to keep watch over here every day."

The bald, middle-aged man swung the Vajra in his hand. "If I see them, I'll send them to hell. Especially, that Dragon King from Dragon Sect. Goddammit!"

"The Dragon King of Dragon Sect is not our concern. When we settle Diabolism, the Dragon Sect will be easily settled as well."

The old man replied without any emotion. "But we should not belittle them. After all, they annihilated the Remains. Hence, their strength must be strong."

"I wonder how a twenty-year-old lad possesses such daunting strength. Do you guys think he chanced upon something great?"

"That's for sure. The rise of the Dragon King was too fast and furious. He must have inherited some powerful ancient sects' legacy. After we settle Diabolism, the first thing that Donghua Sacred Sect will do is get rid of Dragon Sect. If we can take over his legacy, it will be another boost to Donghua Sacred Sect."

"Fancy defeating Hai Jiao at age twenty. What a scary legacy he has. We cannot let him develop further."

All the Inborn Experts of Donghua Sacred Sect were exchanging conversations.

The bald, middle-aged man with the Vajra suddenly looked around. "If I were the Dragon King, I would come here. Then we could... Heh, heh, trap the beast and slay the dragon!"

"If Dragon Sect found out about this place, they might really come over. But they should be sneaking in for an attack tomorrow. I dare him to come today since all the experts of Donghua Sacred Sect can rush over here in ten minutes.

Okay, let's get some rest now!"

The old man gestured a dismissive wave at the group of people and flitted to one of the rooms.

The bald, middle-aged man shook his head slightly as he placed the Vajra on his shoulder and headed to the room where he was staying.

"Hur?"

At this moment, his body was suddenly stifled as he narrowed his eyes and peered somewhere in front of him. A trace of horror and surprise flashed across his eyes.

"Someone is flying towards us!"

The bald, middle-aged man sounded out softly as he clenched his Vajra tightly while he alerted his companions around him.

"Hur?"

The Inborn Experts who had just reached the porches of their houses were stunned for a moment and looked ahead.

Dong Dong Dong!

The sound of a bell was clearly heard within a radius of a few kilometers around Dong Hua Spiritual Ore Mine.

"Someone is here?"

The disciples of Donghua Sacred Sect walked out from the houses, observing the surroundings with doubts.

"Why would anyone come at this time?"

Within a room in the most central house, Supreme Old Zhou of Donghua Sacred Sect opened his eyes. With a swift move, he appeared outside of the house instantly.

Fifteen Inborn Experts of Donghua Sacred Sect were standing in the air while

hundreds of Level 8 and Level 9 disciples were standing below with their eyes fixed ahead.

Old Zhou made a quick move and took the forefront position. He squinted his eyes slightly and peered ahead.

Over there were fifty black figures with scary masks and pairs of black Devil Wings behind them. They were hovering towards them, looking menacing.

"Fifty. They have fifty men!"

The bald, middle-aged man glared ahead with cold eyes and remarked in an icy tone.

"Fifty men?"

The rest of them gazed suspiciously ahead.

"Fifty men? The Dragon Sect!"

"They have devilish attributes. On top of that, they have fifty men. It's the Dragon Sect, no doubt. They are barging into Dong Hua Spiritual Ore Mine!"

"Prepare to fight!"

Cold bellows were heard from everyone, while Old Zhou fixed his gaze on the figure who was in the middle.

He was wearing the same mask and had a similar pair of wings, but Old Zhou could still tell that it was the figure of a young man.

At the same time, he could sense a horrifying aura coming from that young man.

"Dragon King of Dragon Sect, what a surprise. I didn't expect that you would choose this time to break into our Dong Hua Spiritual Ore Mine!"

There was a flash of cold radiance in Old Zhou's eyes.

"Contact the experts from the ancestral sect. Today, we'll hold everyone from Dragon Sect over here. This is also a good sign for the battle of the Sect Leader tomorrow."

Old Zhou revealed a faint smile as he instructed the disciple beside him.

"Yes!"

A disciple nodded his head immediately as he delivered the message instantaneously to Donghua Sacred Sect.

A large number of experts of Donghua Sacred Sect would arrive ten minutes later.

"They are here to receive us?"

Seeing a dozen people standing in front in the air, coldness swept across Wang Xian's eyes.

"Just with ten-odd Inborn Experts? How would they dare to receive us here? It looks like they have some hidden cards!"

Wang Xian squinted his eyes a little as he scanned around him with red-blue radiance in his eyes.

"Hur?"

A special layer of energy appeared within his vision. He had seen this when he was at Huashan.

Obviously, this bout of energy was weaker by a hundred times as compared to Huashan.

The hidden energy encompassed an area of five kilometers.

"Donghua Sacred Sect is just fifty kilometers away from here. Their reinforcements will be able to reach here in ten minutes. We must kill them all by then!" Wang Xian commanded the surrounding Dragonians in a dull voice.

"Yes, Dragon King!"

Wang Xian jerked his Devil Wings behind him, and so did the 49 Dragonians behind him, emanating bouts of formidable aura.

The intense killing aura surged from their bodies while devil clouds were

coalescing in the sky, as if devils were emerging from the abyss.

It was petrifying and domineering!

# Chapter 526: Trapped Beasts? Killing The Dragon?

"What terrifying auras. Is this the full strength of the Dragon Sect?"

"So powerful! Devil clouds are even coalescing over the sky. It's no surprise they could annihilate the Remains! The Dragon Sect is indeed not simple!"

When the terrifying clout of aura moved rapidly towards them with the devil clouds above them, the crowd of Dong Hua Sacred Sect was astonished.

"This strength could easily annihilate all of us!"

The bald middle-aged man felt a chill run down his spine when he saw the Dragon Sect within a thousand meters of them.

"They are indeed strong and aren't something we can withstand. It's no surprise that Nie Wuya and the other three weren't confident in keeping them behind on the day of the alliance of the orthodox sects!"

Old Zhou looked plainly at the approaching experts of the Dragon Sect. When he saw them stopping before him, he revealed a chilling smirk and shouted, "How arrogant of the Dragon Sect to barge into our Dong Hua Spiritual Ore Mine at this moment!"

Wang Xian and the dragonians stopped in the air a thousand meters away from them. They extended their wings and resembled terrifying devils from hell.

"It doesn't matter the time, nor do we need to resort to ambushing to kill the people from the Dong Hua Sacred Sect. We are killing you guys here to send out a warning. Moreover, this is just the beginning!"

Wang Xian looked at the disciples of the Dong Hua Sacred Sect before him and spoke plainly.

"Arrogant and presumptuous!" Old Zhou stared emotionlessly at Wang Xian as

he remarked, "You must be the Dragon King! Since you dare to be here today, you can rest here forever. This is an auspicious land after all!"

"Alright, we have no time to chat with you here. In nine minutes, the reinforcements of the Dong Hua Sacred Sect will be here!"

Wang Xian looked across the disciples of Dong Hua Sacred Sect as he shouted, "Killing you guys will be a reminder to the Dong Hua Sacred Sect that our Dragon Sect isn't just kidding when we say we won't rest till one party perishes!"

"Go!" Wang Xian instructed the dragonians behind him.

"Kill!" all the dragonians behind Wang Xian shouted. With immense killing intent overflowing, they charged towards Dong Hua Sacred Sect.

Tsk!

Seeing the disciples of the Dragon Sect charging towards him, Old Zhou turned cold as ice. The Inborn experts behind him also gave cold grins.

"Who would have expected the Dragon Sect to be made up of a bunch of fools?"

"Perhaps they are in over their heads after annihilating the Remains!"

When the Inborn experts of Dong Hua Sacred Sect witnessed what had transpired, they weren't worried at all. Instead, they were grinning with contempt.

"Annihilating a foolish sect with five thousand spiritual stones. What a bad deal!"

Old Zhou looked emotionlessly at the group of Dragon Sect's disciples charging ahead. He moved his arm and shouted, "Move back!"

"Move back!" the group of Inborn experts shouted as they retreated rapidly.

Screech, screech, screech!

The moment they retreated, the space within a span of five kilometers seemed to be distorting.

An invisible shield fell from the sky suddenly and shrouded the entire region.

The group of dragonians that had charged ahead was surprised.

"Attack!"

Mo Yuan's expression turned solemn as his palm underwent a terrifying transformation.

A terrifying dragon claw appeared.

Behind him, the dragonians' palms also underwent terrifying changes.

Bam! Bam! Bam!

Dragon claws attacked the invisible shield before them and terrifying destructive force fell upon it.

Unmoveable!

Unshakeable!

There were no ripples or any signs of movement when the attacks of the dragonians fell on it. This greatly shocked the dragonians.

"The disciples of the dragonians are really strong!"

When an expert from Dong Hua Sacred Sect saw the attacks from the dragonians, fear flashed in his eyes as he commented solemnly.

"So what? They are still trapped beasts now!" a middle-aged man standing by the side said with a faint smile.

"That's true!" The old man grinned and looked at the disciples of the Dragon Sect with contempt. He commented, "They are strong but aren't very intelligent!"

"Haha, that's right. They are nothing compared to the scheming followers of Diabolism. If Diabolism had the same intelligence level as them, it would be great for us!"

"Come, shall we celebrate? Haha!"

When the disciples of the Dong Hua Sacred Sect saw the Dragon Sect being trapped within the spirit array, they smiled confidently. They stood outside the shield and constantly ridiculed them.

"What's this? A spirit array of the legends?"

Looking at the transparent shield before him, Mo Yuan looked bitter. He looked across and shouted, "Attack!"

"Kill!"

The dragonians flapped their wings rapidly and charged towards the spirit array shield.

Rumble!

Terrifying forces that could even kill an ordinary Inborn expert fell on the spirit array shield, causing dull clashing sounds.

However, the shield wasn't moved. There wasn't even any sign of movement.

"Hehe! They must be dreaming to think they can destroy the spirit array!"

Strong contempt gleamed in the eyes of Old Zhou as he looked at the dragonians attacking the shield.

He felt ridiculed by the arrogance and conceit of the Dragon Sect.

Just today, he had heard about Nie Wuya and the rest being a little surprised by the Dragon King and being a little wary of the Dragon Sect. Now, it would seem like they were nothing.

"When the experts of our Dong Hua Sacred Sect are here, it will also be the time they will be killed!" An Inborn expert chuckled.

"Supreme Elder, the people of the Dragon Sect are so presumptuous to announce they won't rest till one side perishes. Can I broadcast what's happening here to the Underworld so the rest will know the consequences of going against us?"

"That's a good idea. Let the whole Underworld know how the foolish Dragon

Sect has been annihilated by us. Haha!" a disciple shouted excitedly.

Old Zhou, who was standing in the middle, smiled faintly and nodded his head.

Hehe!

When that middle-aged man saw the approval given by the Supreme Elder, he was beaming with excitement. He took out his phone, took a few pictures and entered the Underworld website.

[The insignificant Dragon Sect is just a pile of trash. They aren't qualified to stand toe-to-toe with us. Today, we will be killing them off. They are now trapped beasts waiting to be slaughtered. In the future, there will be no Dragon Sect or Dragon King!]

The middle-aged man grinned as he uploaded the pictures he had taken to the Underworld website and started the thread.

He could already foresee the forces and martial artists of the Underworld being shocked by the news.

Just a day ago, the Dragon Sect had annihilated the Remains. This had shocked the entire Underworld as everyone was astonished by the strength of the Dragon Sect.

And today, the Dragon Sect would be annihilated by their Dong Hua Sacred Sect.

From here onwards, the status of their Dong Hua Sacred Sect would be unshakeable and no one would dare to challenge them.

The outcome of the Dragon Sect would be a great example of those who dared to offend Dong Hua Sacred Sect!

"They are now just trapped beasts! In the future, there will be no arrogant Dragon Sect or Dragon King!" Old Zhou smiled with contempt at the dragonians who were still attacking the spirit array!

# Chapter 527: One Minute

[What... Trap the beast and slay the dragon? What just happened? Are the guys from the Dragon Sect trapped by those from the Dong Hua Sacred Sect?]

The post was up for barely a minute, and it was the spotlight of the Underworld immediately.

Upon clicking the post, the various Martial Artists of the Underworld were shocked to see a photo of a group of masked Dragonians.

[Are those people wearing masks with black wings disciples from the Dragon Sect? Is the Dragon King among them? Who posted this? Is this from the Dong Hua Sacred Sect?]

[This is not real, is it? From the photo, it looks like the guys from the Dragon Sect have been trapped? Does this mean that the Dong Hua Sacred Sect has raised an attack on the Dragon Sect?]

[No way! The Dragon Sect destroyed the Remains only yesterday, much to the delight of everyone. But today, they landed themselves in the hands of the Dong Hua Sacred Sect. This spells total annihilation for the Dragon Sect!]

[The fifty people in the photo do look like they are from the Dragon Sect. By putting this information out, the disciples from the Dong Hua Sacred Sect most certainly want the Dragon Sect dead!]

[From the background in the photo, it seems like it was taken in the mountains. Could it be that the Dragon Sect had secretly planned for a sneak attack on the Dong Hua Sacred Sect, but was completely wiped out by them instead?]

[It does seem possible for the Dragon Sect to launch a sneak attack on Dong Hua Sacred Sect. Going by the character of the Dragon King, he had already intended to fight the Dong Hua Sacred Sect till the end. Thus he'll not let them off easily. But by the looks of things, it looks like they were trapped by the Dong Hua Sacred Sect!]

[The Dragon King is too self-conceited. Maybe with the annihilation of the Remains yesterday, he felt confident enough to take on the Dong Hua Sacred Sect. But doing that is just an act of courting death!]

[Gone. The Dragon Sect is completely gone now. They chose to take on the Dong Hua Sacred Sect while they are still leagues below their level!]

Countless Martial Artists of the Underworld expressed their comments under the post.

Nobody expected that this would have happened.

Yesterday, the Dragon Sect destroyed the Remains. Today, they are on the way to being destroyed by the Dong Hua Sacred Sect.

The turn of events left the Martial Artists of the Underworld filled with emotions.

[The Dragon King is too self-conceited. That is the Dong Hua Sacred Sect we are talking about! Their presence is a sign of invincibility in the Underworld. Provoking them will lead to the downfall of the Dragon Sect for sure!]

[I knew that the Dragon Sect and Dragon King would not live long, not with their arrogance. It makes total sense that they get wiped out!]

One of the martial artists commented under the post.

[The Dragon Sect had lived their worth. By destroying the Remains, they got rid of one of the Underworld's greatest nemeses. But the Dragon Sect and the Dragon King were threats themselves. This is good riddance.]

[Support the Dong Hua Sacred Sect!]

The news put a smile on the faces of some Martial Artists, who were in support of the decimation of the Dragon Sect.

Although some other Sacred sects were filled with mixed emotions when they first saw the post, their faces lit up with smiles eventually.

To them, it was certainly a good thing that the Dragon Sect was gone. They did

not want such a strong yet unbridled force to remain in the Underworld.

While the Underworld was shocked by the content of the post, Wang Xian was found standing in the center of a Spirit Array. Faced with the smug looks of the gang of Dong Hua Sacred Sect disciples, he was seen beaming with a smile.

"Trap the beast and slay the dragon?"

"You will have to be able to trap the dragon first!" Wang Xian said with a slight sneer.

He looked up and slowly raised his right arm. In a split second, the entire arm underwent a horrific change.

The entire arm emitted a golden glow, turning gold in color, and then transforming into a golden dragon claw.

The partial dragonification replaced his arm with a solid dragon claw.

"Heh heh, trying to break our Spirit Array? Stop your wishful thinking. This is one of the only two legendary Spirit Arrays that our Dong Hua Sacred Sect practices. It's impossible for any Dan Realm experts to break this array!"

Old Zhou saw the transformation on Wang Xian's arm and had a look of contempt across his face.

"Really? Your lives are about to end in just one more minute!" Wang Xian said with a faint grin on his face as he fixed his eyes on the Supreme Elder of Dong Hua Sacred Sect.

"Haha, let me tell you this. You all have only five more minutes to live. After the five minutes are up, our experts from the Dong Hua Sacred Sect will annihilate your entire Dragon Sect!" Old Zhou laughed in the direction of Wang Xian.

The group of Inborn experts behind Old Zhou slowly raised their heads with their arms folded.

"Dragon King, give us your best shot. We will cheer for you from here! Haha!" They guffawed with sneers.

"Oh? Really?" Wang Xian chuckled at the sight of their laughter. He moved his body and launched an attack straight ahead.

With a leap, he lunged forward with an attack, clenching his dragon claw tightly.

Dead ahead, the gang of Dong Hua Sacred Sect disciples looked on, still with smiles on their faces.

The power of the spirit array was tested personally by their Sect leader. No Dan expert could ever think of breaking it.

They showed no signs of anxiousness, and their faces remained calm.

Bam!

When the dragon claw hit the spirit array, the array showed no signs of wavering.

"Haha, what a futile attempt at using your power!" The bald, middle-aged expert witnessed the scene and laughed out arrogantly.

"Heh heh..." Wang Xian looked up and grinned, his eyes sweeping across the entire gang. "Kill!"

Kill!

As soon as he finished muttering the word, the spirit array suddenly showed signs of cracking as if a piece of glass was swiftly breaking apart.

"What? This..."

The cracks of the spirit array shocked the entire Dong Hua Sacred Sect with smiles on their faces froze in an instant.

"What's this?" Old Zhou's eyes shrunk uncontrollably. He astonishingly realized that the strike from the Dragon King moments ago had penetrated the spirit array.

The strike penetrating the Spirit Array happened all too quickly, as if the force had caused time to freeze momentarily before the cracks became visible.

"Kill!"

The group of Dragonians alongside Mo Yuan showed an icy glance in their eyes. They wore the Abyss masks, and the wings on their backs began to flap as they attacked the Dong Hua Sacred Sect disciples at a frightful speed.

Their arms were now slightly quivering as they looked at their approaching enemies with horror.

"No, no, he... he is capable of bursting an attack from the Budding Realm. How can he be...be that strong!?"

Old Zhou's eyes twitched at the sight of the attacking group of experts from the Dragon Sect. Seeing the Dragon King had his eyes fixated on him, he was petrified.

"Run! Right now!"

In a flash, Old Zhou made the decision to retreat. They were no match for the Dragon Sect, not with their ability.

Without their Spirit Array, they had completely lost their right to battle.

"Run for your life!"

Trembling in fear, the surrounding group of Inborn experts from the Dong Hua Sacred Sect tried to escape when the Dragonians approached them with murderous looks on their faces.

"Five more minutes! Just hang on for another five minutes and the reinforcements from the ancestral sect will be here. We will be able to survive by then!" the bald, middle-aged expert said with his eyes twitching furiously. Gritting his teeth, he tried to run away.

"Do you really think you can escape?" Mo Yuan said with a cold smile on his face, glaring at the Dong Hua Sacred Sect experts.

The Devil Wings on the backs of the masked Dragonians fluttered violently.

"All of you from the Dong Hua Sacred Sect must die! There is no escape for any

of you!"

Bam!

The Devil Wings moved with excitement, exuding a black luster from the wings.

The Spiritual Stone mounted on their Devil Wings channeled the powers of the Wind Feather stone, making them feel as light as feathers. With a gentle charge, they were able to increase their speed instantaneously by more than fifty percent!

# Chapter 528: You Are A Demon!

When the dragonians triggered the effects of the Devil Wings, all the experts from Dong Hua Sacred Sect could feel a terrifying aura approaching them from behind.

"Shit! Their wings can greatly increase their speed!"

Sensing the fast approaching dragonian behind him, the bald middle-aged man was flabbergasted. He gritted his teeth, held the Vajra tightly in his hand and turned around forcefully.

"Among the Inborn experts, I have not encountered anyone who is a match for me in Dong Hua Sacred Sect. I can still pull one of you to the grave with me!"

The bald middle-aged man grimaced in fear. The Vajra glowed dazzlingly as he swung down heavily towards a dragonian.

Weng!

"What!"

Just as the Vajra was about to land on the dragonian, an identical dragonian appeared beside him.

This took the bald middle-aged man by surprise as his actions slowed.

Tsk!

A cold snort resounded as the dragon claw of the dragonian attacked towards the bald middle-aged man.

The bald middle-aged man was astonished as he shifted the Vajra across his body.

Bam!

A dragonian and an illusory shadow attacked the bald middle-aged man with

identical movements, taking the bald middle-aged man by complete surprise.

Bam!

As the dragon claw swept across the shoulder of the bald middle-aged man, a long wound was torn open instantly.

The bald middle-aged man was shocked. At this moment, the attack from the dragonian fell once again.

One strike came after another with immense force. What was most terrifying was still the speed. Within close proximity, the dragonian could shift his attack easily.

Terrifying attacks together with the distractions of the devil shadow left the bald middle-aged man with no strength to retaliate.

Argh!

In the end, the bald middle-aged man let out a desperate cry.

Argh!

At this moment, incessant cries filled the sky.

All the dragonians had the strength to challenge those who were stronger than them. Now that they had the Inborn-level Devil Shadow Masks and Devil Wings as enhancements, the experts from Dong Hua Sacred Sect wouldn't be able to stand against them.

As for those disciples who had not reached the Inborn Realm, they were easily slaughtered.

All they saw was a devil shadow dashing toward them. The next moment, they would feel vitality quickly leaving their bodies.

"YOU... How dare you slaughter the disciples from our Dong Hua Sacred Sect!"

At this moment, Old Zhou, who had been standing in the middle, locked down by Wang Xian, had noticed the disciples around him being easily killed. He

glowered at Wang Xian with blood-red eyes as he growled.

"So what if we did. Since your Dong Hua Sacred Sect dared to offend the Dragon Sect, you must have had the understanding that you guys would be killed by us!"

Wang Xian stared coldly at Old Zhou. When he finished his words, he also struck.

"In that case, I'll see how strong the Dragon King really is!"

Seeing Wang Xian charging towards him, Old Zhou lifted his right hand and a longsword appeared in it.

The dullish-yellow longsword was incomparably fearsome as Old Zhou swung it towards Wang Xian.

Rumble!

Terrifying cracks extended as the tough floor split rapidly. The edge of the sword went for Wang Xian directly.

Wang Xian waved his arm as the cracks extending towards him were dispersed. He smirked and made an instantaneous shift towards Old Zhou.

"Today, you have to die too!"

When Old Zhou heard Wang Xian, his heart skipped a beat. He clenched onto the longsword in his hand tightly, gritted his teeth and roared, "There are only four minutes left. You can kill me? Tsk!"

"As I said, it won't take more than a minute!"

Wang Xian squinted his eyes as he swung his dragon claws towards Old Zhou.

"Although I'm not a match for you, I'll still be able to escape if I want to.

Hearing Wang Xian, Old Zhou was exceptionally gloomy. He moved and fled immediately.

Rumble!

However, a huge two-meter wall rose from the ground behind him all of a sudden.

In just an instant, his escape route was sealed. This greatly surprised him.

"Escape? That's not an option!"

Wang Xian smiled faintly as his golden claws tore across.

"How can this be. Aren't you a fire attribute cultivator? Why are you using earth and metal attribute...?"

Seeing Wang Xian's attack, Old Zhou was overwhelmed with fear.

He instantly tried to dodge to the side.

However, the momentary blockage by the stone wall had exhausted all the advantage he had for escaping.

The dragon claw grabbed towards Old Zhou's head.

Old Zhou was prepared for it. He instantly swung the longsword in his hand ruthlessly towards the dragon claw.

Boom!

Shockwaves from the terrifying clash reverberated and Old Zhou pivoted off the terrifying strength to escape.

Swish swish swish!

However, the trees before him started growing and wrapping towards his body.

This frightened Old Zhou as he swung his longswords towards the surrounding trees.

Pfft!

While he was distracted from chopping the trees, a terrifying dragon claw penetrated his body.

"You... You are... You are a demon!"

Feeling his body being pierced through, Old Zhou's eyes were filled with desperation. He turned around and looked fearfully at Wang Xian.

The source of the fear came from the bottom of his heart. He had not experienced this, even from his sect leader.

Creepy attacks and the ability to use multiple attributes. He wasn't a human!

He was a demon!

"Nope! I'm a divine dragon!"

When Wang Xian's final five words reached him, his vision was starting to fade.

Bam!

A Dan Realm expert and the Supreme Elder of Dong Hua Sacred Sect had fallen to the ground.

At this moment, Mo Yuan reported, "Dragon King, all the disciples of Dong Hua Sacred Sect have been killed without exception!"

Mmm!

Wang Xian nodded his head. Fifty dragonians against fifteen Inborn experts. That should have been complete domination.

In a one on one situation, a dragonian would still be able to kill an Inborn expert within a minute. The several times difference in strength would only make it quicker.

"The reinforcements of the Dong Hua Sacred Sect will probably be here in four minutes!"

Wang Xian looked around him. He had no intentions of looking for spiritual stones. He turned to Mo Yuan and said plainly, "Didn't Dong Hua Sacred Sect upload this incident on the Underworld website. In that case, let's add in the outcome for them!"

"Yes, Dragon King!" Mo Yuan chuckled.

He took a phone from one of the disciples of Dong Hua Sacred Sect, looked across with contempt and took several photos.

After which, he entered the Underworld website and saw the hottest thread started by that disciple of Dong Hua Sacred Sect.

[Trapped beast? Slaughtering the Dragons? Our Dragon King has made it clear that it won't stop till one party perishes. Today's just the beginning!]

With roughly twenty words and no further elaborations, Mo Yuan appended a few additional pictures.

Those were pictures of the corpses of disciples, Inborn experts and the Supreme Elder of Dong Hua Sacred Sect.

After posting the comment, Mo Yuan nodded his head at Wang Xian.

"Let's go. I'll leave this surprise for Dong Hua Sacred Sect!" Wang Xian commented plainly. Taking flight, they headed back towards Rivertown.

"Haha! Who would have expected the foolish Dragon Sect would dare to barge into the spiritual ore mine today? Even the Heavens are helping us!"

Soon after Wang Xian left with the dragonians, a peal of unruly laughter reverberated from afar.

# Chapter 529: Rather Offend The King of Hades Than The Dragon King

With much excitement, Nie Wuya rushed over from the Donghua Sacred Sect along with its group of top experts.

Fifty experts from the Dragon Sect had been trapped by the Spirit Array while on their way to the Dong Hua Spiritual Ore Mine!

Nie Wuya and the gang got rather worked up when they received the news.

The Dragon Sect and Dragon King were asking for it. To be stuck within the Spirit Array of the Dong Hua Spiritual Ore spelled doom for the entire Dragon Sect, as it would then make them an easy kill.

Yet, in spite of their disregard on the surface, they were still met with a tinge of trepidation when it came to the Dragon Sect.

The Dragon King had defeated the Lord of Sea Serpent Island, and his Dragon Sect proceeded to wipe the Remains out. All of which had displayed the prowess of the Dragon Sect.

And while they were also the formidable Donghua Sacred Sect, they did not have the prowess to annihilate the Dragon Sect with the mere deployment of a few members.

This was especially so given the number of Inborn experts within the Dragon Sect, fifty to be exact. The figure was enough to cause massive trouble for the Donghua Sacred Sect.

But even this trouble would pass now that the Dragon Sect had been trapped in the Spirit Array.

"Today spells a good omen. Our Sect Leader will definitely be able to slay

Emperor Qi of Diabolism tomorrow!" an Elder said to Nie Wuya with a wide smile across his face.

"Given the prowess of the Sect Leader, killing Emperor Qi is going to be a piece of cake!" Nie Wuya responded while his lips arched upwards.

"We've arrived at the Mine Ore. Come on, let's wipe out the Dragon Sect!" Nie Wuya exclaimed as he looked ahead. Picking up speed, he walked on with overflowing joy.

Beside him were three Supreme Elders from the Donghua Sacred Sect, and more than a hundred of their Inborn experts followed behind.

For the sake of annihilating the Dragon Sect, all the top-notch experts within Donghua Sacred Sect had been deployed.

"Old Zhou, we're here!"

From a distance of more than a thousand meters away came Nie Wuya's bellowing laughter as he shouted ahead.

"Eh?"

The figures did not respond to Nie Wuya's call as the group approached at lighting speed.

This made Nie Wuya frown in bewilderment before his confusion was overtaken by an ominous premonition.

"There's bloodthirst!" Suddenly, one of the Elders yelped with locked brows.

"Oh no, there're dead bodies ahead!" he shouted after looking ahead.

"What? Don't tell me...", the crowd muttered upon sensing a bad omen. Everyone began to accelerate, and hastened over to the Mine Ore.

From a distance of about a thousand meters away, their faces darkened instantly upon the sight up front.

In fact, their faces were beyond gloomy.

They shuddered at the numerous dead bodies of their once-acquaintance.

"Old Zhou!" an Elder shrieked with bloodshot eyes as he eyed the area beneath a nearby tree. With one leap, he arrived right beside the dead body and cried out.

"What? To think even the Supreme Elder is...!" the Inborn experts gasped in shock. They met their counterparts with eyes full of trepidation.

A Supreme Elder had been killed along with fifteen Inborn experts.

The Donghua Sacred Sect had never incurred such losses in the past fifty years.

"The Spirit Array has been compromised! To think, the Spirit Array has been compromised!" an Elder screeched with a burdened expression as he glanced in the direction of the Spirit Array.

"To think the Spirit Array has been breached. And all it took was ten minutes, a mere ten minutes!" a voice gasped.

"It's a form of antagonizing. It's blatant what the Dragon Sect is doing now: antagonizing us. Of all days, they chose to do so today in order to spite us explicitly!" An Inborn expert let out a deep growl.

Even the hundred-odd experts from the Donghua Sacred Sect looked on with ghastly expressions.

This was beyond antagonizing; this was a tight slap to the face.

What shocked them the most was the fact that even their Supreme Elder, an unparalleled expert of the Dan Realm, had been killed as well.

Dan Realm experts were few and far between. Needless to say, killing them was even more unimaginable.

Nie Wuya took in one deep breath. With bloodshot eyes, he let out a growl to the skies. "We, Donghua Sacred Sect, are at extreme odds with you, Dragon King and Dragon Sect!"

...

As all experts from the Donghua Sacred Sect arrived at the Dong Hua Spiritual Ore Mine, the online thread which Mo Yuan had posted went viral all over the Underworld forum.

This came five minutes after the thread posted by disciples of the Donghua Sacred Sect had caused a wavelike sensation amongst all the Martial Artists.

While they were still busy discussing the annihilation of the Dragon Sect, the emergence of a new post brought a twist to the outcome.

At the sight of the numerous dead bodies of the Donghua Sacred Sect members, everyone who saw the post gasped in utter shock.

[This outfit...is the attire of the Dong Hua Attendants. The Attendants of the Donghua Sacred Sect are all Inborn experts. To think... To think they've been slain. So many to add. There's too many, more than a dozen!]

[Those are disciples of the Donghua Sacred Sect. More than a hundred of them have been killed. This ... this...]

[The photo of this Elder has been posted individually. Perhaps this Elder is more esteemed than the rest. Goodness, wasn't it just earlier when the Donghua Sacred Sect was about to annihilate the Dragon Sect?]

[Just what exactly happened. Goodness, just what exactly happened! Earlier on, the Donghua Sacred Sect was still talking about wiping out the Dragon Sect. How is it that more than a dozen Inborn experts from the Donghua Sacred Sect have since been killed within split seconds!]

The Martial Artists gagged in shock and fear as they scrolled through the various photos.

It seems, then, that there had been a major twist to the outcome.

The Donghua Sacred Sect had not annihilated the Dragon Sect. Instead, the Dragon Sect had killed a hundred-odd disciples of Donghua Sacred Sect, along with more than a dozen of its Inborn experts.

Shocking, simply shocking!

Yet, just as everyone was buzzing away in a heated discussion, one of them recognized the Elder who had been accorded with an individual photo.

This was the Supreme Elder of the Donghua Sacred Sect!

An awe-inspiring existence of the Dan Realm!

An unparalleled expert of his time!

Everyone gasped upon the confirmation of the news. To think that the Supreme Elder of the Donghua Sacred Sect had been killed.

While everyone eventually came to gradual terms with the news, a post made by an individual sent the entire Underworld into a whirl of deep thought and shock.

[Within the entire Underworld, the existence of an unparalleled expert is considered top-notch while their demise is even rarer. To the point where there hasn't even been one within the past decade and beyond. Yet, just recently, these unparalleled experts have fallen one by one. These include Ancestor Qiao of the Qiao Clan, two Supreme Elders from the Medical Saint Sect, the Supreme Elder of the Shengling Sect, Lord Ossein of the Remains, as well as the Supreme Elder of the Donghua Sacred Sect. Of these six unparalleled experts, five have died at the hands of the Dragon King of the Dragon Sect!]

As everyone went through the statistics, they came to a sudden realization which sent chills down their spines.

Indeed, indeed.

Other than the death of a Supreme Elder from the Shengling Sect, which Diabolism was responsible for, the demise of the other unparalleled experts of the Dan Realm were all attributed to the Dragon King.

In less than half a year, five unparalleled experts had died at the hands of the Dragon King!

[Terminator of the unparalleled experts. This Dragon King is simply invincible. Regardless of who they are or their prowess, all those who antagonized him have been killed!]

[To fight till one perishes. It seems that the Dragon Sect has really gone all out with the Donghua Sacred Sect till one perishes. Killing an unparalleled expert along with a dozen or so Inborn experts from the Donghua Sacred Sect... It's definitely bloodshed this time!]

[It seems like either one or the other between the Donghua Sacred Sect and the Dragon Sect will have to perish. But even if they can annihilate the Dragon Sect, the Donghua Sacred Sect is bound to suffer massive losses!]

[No one saw this coming. To think that the Dragon King and his Dragon Sect have wiped out a huge number of experts from the Donghua Sacred Sect after annihilating the Remains. Sigh, the acts of this Dragon King are...]

[The Dragon King's style: I don't care if you're from the Orthodox Sects or Diabolism. Just don't antagonize me. For those who do, death shall await you!]

[Rather offend the King of Hades than the Dragon King!]

# Chapter 530: The Arrival Of The Golden Swordfish Race

The entire Underworld was in a frenzy after the Dragon Sect annihilated a group of experts from the Dong Hua Sacred Sect.

Everyone could only heave a sigh helplessly.

The major battle between the orthodox sects and Diabolism was just about to erupt. The Dragon King annihilating the Remains was undoubtedly an exceptional piece of good news. However, he had also killed a group of experts from Dong Hua Sacred Sect, denting the overall strength of the alliance of the orthodox sects.

"We could only pin our hopes on the battle tomorrow between the sect leader of Dong Hua Sacred Sect, Nie Wushuang, and Emperor Qi from Diabolism. This battle will dictate the fate of the entire Underworld!"

"I really hope that Sect Leader Nie Wushuang will win. In this case, Diabolism would have no choice but to go into seclusion once again!"

At night, the attention of the martial artists in the Underworld had shifted from the Dragon King of the Dragon Sect to the major battle the next day. Everyone was gloomy and feeling a little worried.

Since Emperor Qi of Diabolism had dared to challenge Sect Leader Nie Wushuang, it would only mean that Emperor Qi had a strength that was close to Nie Wushuang.

In the major battle the next day, no one could guarantee that Nie Wushuang would emerge victorious. After all, the name of Diabolism still instilled fear in the minds of many people.

[The strongest expert from the Underworld, Sect Leader Nie Wushuang from Dong Hua Sacred Sect vs the strongest expert from Diabolism, Sect Leader Nie Wushuang from Devil Corpse Palace!]

When Wang Xian arrived at Rivertown and saw the messages on the Underworld forum, he couldn't help but show a little hesitation.

All the martial artists in the entire Underworld would likely be going to watch the life and death battle between the strongest existences.

Let's go take a look tomorrow. A battle of this level isn't common and I can also catch a glimpse of the strength of Diabolism! Wang Xian thought to himself. He naturally wouldn't skip such a grand occasion.

Bzz bzz!

At this moment, Wang Xian's phone rang. When he picked it up, he was surprised to learn that it was from Mo Qinglong.

"What happened?" Wang Xian accepted the call without hesitation.

"Dragon King, Prime Minister Turtle and the other experts have been revived!" Mo Qinglong's voice sounded from the other end of the phone. This was a pleasant surprise for Wang Xian.

"They are revived? What is their strength level now?" Wang Xian asked in anticipation.

Considering that they were gathering energy for revival in the Dragon Transformation Pool, their strength would likely experience a substantial boost.

"Prime Minister Turtle and the other leaders have reached the Budding Realm. As for the rest, they are largely in the Dan Realm and Inborn Realm!" Mo Qinglong answered.

"Budding Realm!"

Wang Xian's eyes beamed with excitement.

Now that Prime Minister Turtle, Roving Heavens, Roving Yaksha and the rest had reached the Budding Realm, it would mean that there were roughly a dozen-odd Budding Realm existences among the Dragon Palace members.

A dozen-odd Level 12 existences and a group of Dan Realm experts was

sufficiently strong.

Wang Xian's eyes gleamed with agitation. With this level of strength, not many forces could stand up against them, even on the international stage.

At the very least, all the forces he encountered in Dubai previously wouldn't be a match for him.

"How did the guidance of the golden swordfish race go?" asked Wang Xian.

"Dragon King, they have no issues with interacting with humans. Moreover, they have high intelligence. It shouldn't be a problem if you want to send them onto land!" Mo Qinglong answered.

Wang Xian nodded his head, hesitating for a moment before continuing. "You can come back now. Bring the golden swordfish race with you!"

"Yes, Dragon King. We should be able to reach Rivertown by 2 am!"

Mo Qinglong nodded his head.

Wang Xian hung up the phone and knocked on the table with his hand.

The golden swordfish race could take on human form. Wang Xian was prepared to let them handle some forces on the seas, starting from the disordered region.

Besides that, he was prepared to gather resources for the upgrade of the Dragon Palace.

Among the golden swordfish race, there was a Level 12 Budding Realm existence, five at the Dan Realm, and the rest were at the Inborn Realm. In total, there were over 150 of them.

This force was sufficiently strong.

Looking at the time, Wang Xian noticed that it was already past 10 pm. He hesitated for a moment before walking towards the villa.

When Wang Xian entered the villa, he instantly picked up Guan Shuqing and Lan Qingyue's presence.

"What should we do, Sister Qingyue? Now that the foreign girl is acting like this every day, what should we do?"

"She's trying to get on our good books every day! Tsk! She's even a princess from Dubai!"

"However, it still feels pretty good to have a princess trying to curry favor from us!"

"What's the matter, Shuqing? Are you going to give in?"

"How can that be possible. I would never give in. Tsk! It's all Xiao Xian's fault. Oh, right! This scumbag has been running out every day recently. Do you think he will bring another girl back in a few days?"

The two of them were conversing in a room. When Guan Shuqing made that statement, Wang Xian could feel both of them sitting up on the bed instantly.

"That's a real possibility. All dragons are lustful and this is fully on display with him!"

Lan Qingyue gritted her teeth. The sounds of her teeth grinding gave Wang Xian a chill down his spine.

"If he dares to bring another girl back, we shall not talk to him. Not for eternity!" Guan Shuqing grumbled furiously.

Wang Xian, who was standing outside, couldn't help but rub his nose. He hesitated for a moment before tip-toeing towards their room.

While the two of them were having an emotional conversation, Wang Xian appeared before the door and removed all his clothes.

"Hello, I'm back!" Wang Xian pushed opened the door, shouting while naked and pouncing onto the bed directly.

"YOU..."

Guan Shuqing and Lan Qingyue, who had been chatting, were stunned.

"Get out of here!"

"I'm not going to!"

"Scumbag! You are a pervert!"

"Yes, yes. I'm a pervert!"

"YOU...!"

Wu wu!

Wang Xian enjoyed the great feelings of being conquered.

"Scram!"

While he was reliving the excitement three hours later, he was kicked off the bed.

Looking at the two furious girls, Wang Xian walked out with a sheepish smile.

"Soon! Soon! Everything will be resolved soon! If it isn't this time, it will be the next!" Wang Xian mumbled to himself. Returning to the floating island, he waited for Mo Qinglong's arrival.

Currently, Wang Xian wouldn't even feel the slightest bit of fatigue even if he did not sleep for ten full days.

2 am. A boat approached the floating island slowly.

On the island, figure after figure jumped off the boat. Over a hundred burly figures that were over two meters tall had landed on the island.

They looked around the island curiously.

"Dragon King!"

When Wang Xian walked over, everyone went on their knees and greeted him respectfully.

"You may rise!"

Wang Xian looked towards Mo Qinglong before turning to the golden swordfish race.

"Your name will be Roving Sword from here onwards. You will be responsible to lead the entire golden swordfish race."

Wang Xian gave the leader of the golden swordfish race a name.

They were covered in a layer of golden scales and held incomparably sharp longswords in their hands.

The shape was slightly different from typical longswords. The golden glow of their bodies also felt extremely sharp.

Their longswords were connected to their arms. These were the sharp weapons they'd had on their heads previously.

The might of these longswords would differ based on their strength level. They could match weapons of a similar level and were insanely powerful.

# Chapter 531: The Fearless

One Budding Realm expert, five Dan Realm experts, and a hundred and fifty Inborn experts.

The scales on their bodies were the best protection and swords in their hands the ultimate weapons.

With these, the Golden Swordfish appeared to be Pinnacle Inborn experts armed with Inborn Spiritual Weapons and a similar level of armor.

"Bring the Golden Swordfish with us tomorrow!" proclaimed Wang Xian as he let out a glimpse of a smile. With the Golden Swordfish adding to the strength of Dragon Sect, that would make up a good two hundred Inborn experts which far exceeded the strength of Donghua Sacred Sect. Although this formation may be slightly inferior to the alliance of orthodox sects, it was definitely strong enough to strike awe across the underworld.

"Fearless I shall be...tomorrow!" Wang Xian smirked.

All the while, Nie Wushuang was the main thing stopping him from confronting Donghua Sacred Sect.

Based on his estimation, Nie Wushuang should be at the level of the Budding Realm by now. Still, his actual power at that level remained unknown.

If his power were to be on par with Wang Xian, then Dragon Sect would not have any edge over Donghua Sacred Sect.

However, with the Golden Swordfish on my side, be it Donghua Sacred Sect, or any other sect of Diabolism, I'll whack the hell out of you people!

A tinge of gladness was seen in his eyes.

Showdown Day! Peak of Huashan!

As the sun rose, today marked an important day for the entire Underworld, as it concerned the future of the Underworld.

Families and ancestral sects from all over the country flocked to Huashan.

Unlike the Outstanding Young Heroes Competition, today's battle concerned everyone's lives.

With all the martial artists making their way to Huashan, one could expect no less than hundreds of thousands of martial artists from the Underworld to gather here. This is not a word of exaggeration.

"I wonder if the Dragon King will turn up for the duel today."

"I'd think so. But I'd rather he didn't. It seems that something terrible is going to happen with him around!"

"I don't think he will go since he has offended both the orthodox sects and Diabolism after annihilating the Remains and several experts from the Donghua Sacred Sect a couple of days ago. He would be in trouble if Nie Wushuang and Emperor Qi decided to get even with him..."

"With the Dragon King's unpredictable behavior, one can't be too sure."

All Martial Artist families had gathered in the Jiang City, heading towards Huashan as their destination. Old Xue, and the Ren and Duan families were exchanging conversations.

The Dragon King came from Rivertown, and they were also the ones who had witnessed his rise.

Nonetheless, never in their wildest dreams did they expect that the young lad back then would make his mark on the Underworld today.

Old Xue, in particular, had emotions that were even more stirred up for the fact that the Dragon King had unblocked his meridians for him. Due to this, he could advance to Half-step to Inborn Realm which was considered to be rather remarkable in the Underworld.

"Do you have any idea whether the Dragon King will be going, Old Xue?" asked Ren Family Head after moments of hesitation.

All eyes were on Old Xue, as they knew very well that he and the Dragon King

were on good terms.

Moreover, the Dragon King must have played a part in Old Xue's advancement. Otherwise, they did not believe an elder Martial Artist could have skipped a few levels within a year.

"Yes, he'll be there," muttered Old Xue, with much bitterness.

Upon hearing the much-expected answer, the Martial Artists shook their heads slowly, "One can only hope that nothing too disastrous will happen."

"The fate of the Underworld lies in the hands of this battle!"

...

"Just as Dragon Sect announced its establishment at Huashan, the taking of the Underworld by Dragon Sect shall happen right here as well!"

Looking at the mountains in the distance, a trace of arrogance flashed across Wang Xian's face.

With fifty disciples of the Dragon Sect and 156 members from the Golden Swordfish behind Wang Xian, the group hurried to Huashan at lightning speed.

From afar, Wang Xian saw many Martial Artists gathered at Huashan, and the number was a good dozen times more compared to the Outstanding Young Heroes Competition.

Each and every martial artist was armed with weapons, fully prepared for a great battle.

Huashan was not only expecting martial artists from the Underworld today, but those from Diabolism as well.

Although it had been set that the orthodox sects and Diabolism would not fight against each other on this very day, no one could be sure of that.

"Let's head over!" Wang Xian commanded.

With his two hundred men, Wang Xian dismounted in a quiet corner and walked

gradually towards the entrance of Huashan.

"Who do you guys think is likely to emerge as the winner for today's duel?"

"Undoubtedly, our Sect Leader Nie Wuya. He topped the Underworld as the strongest expert half a century ago, and he took the lives of numerous experts then. Our victory in that battle fifty years ago was owed largely to him. Thus, history shall repeat itself today!"

"Emperor Qi of the Devil Corpse Palace is equally competent. He must have been very confident with himself to have challenged Sect Leader Nie Wuya."

"We shall give our support to Sect Leader Nie Wuya! Emperor Qi from Diabolism shall be killed!"

"That's right! We shall support Sect Leader Nie Wuya!"

Many discussions were going on in the surroundings as all of Huashan was swamped with Martial Artists. Wang Xian was able to see groups of sect disciples dressed in uniform attire, not too long into his walk.

With a faint smile on his face, Wang Xian glanced briefly at them while continuing on his way ahead.

"Hey, that is...? That's Dragon Sect and the Dragon King!" someone exclaimed, drawing the attention of all martial artists to look at Wang Xian in astonishment.

"To think the King of Dragon Sect had the nerve to come. That's truly dauntless of him!"

"Precisely, he still has the guts to be here after beheading so many experts of Donghua Sacred Sect just yesterday. Isn't he afraid that Sect Leader Nie Wushuang will take revenge?"

"And Diabolism is not going to let him off lightly for killing the Remains either. It's daring of him to be here!"

"Look, the Dragon King has many more followers than before. Are they the new disciples of the Sect? Why is it that I cannot sense their inner power? Besides, they are not wearing any masks or wings? They must be the latest disciples

groomed by Dragon Sect!"

Wang Xian and his followers had instantly become the center of attention after making their appearance as everyone was making comments discreetly about them.

With the Dragon King gaining "the greatest slayer of unparalleled experts" as his latest title, one would refrain from making comments about him openly. Otherwise, one could end up being finished off by him at any time.

The Dragon Sect was said to be an unkind sect, as it had been perceived as a Sacred Sect of both righteousness and evil.

Very soon, the news of the Dragon King being here with his group of disciples at Huashan went around.

Many sects and families were slightly surprised by their showing up.

"Let's hope the Dragon Sect and Dragon King will not bring any misfortune to us at Huashan today!"

"Misfortune bestowed in the presence of the Dragon King. This is, however, unlikely to happen today. With powers of the entire Underworld and Diabolism coming together, the Dragon King is expected to take a low profile!"

# Chapter 532: Annihilating The Arrogant

"Move aside! Move aside!"

At the entrance to Huashan, the Inborn experts of the Sacred Clan, Dongmen Clan, shouted as they saw Wang Xian leading his disciples over.

The surrounding crowd was alarmed by the shouts of the Dongmen Clan, and they turned around to take a look.

"Dragon King of the Dragon Sect!"

"Move aside! Move aside!"

"Even the Sacred Clan, Dongmen, moved aside immediately. What are first-class forces like you guys still standing there for?"

As the shouts reverberated, a path towards the entrance of Huashan opened up as the crowd watched the Dragon Sect enter Huashan.

All the martial artists had their eyes on the people from the Dragon Sect. They were baffled.

Seeing what was happening around, Wang Xian revealed a faint smile.

This path was built from the bloodshed he had caused. His name and its authority were established through countless massacres.

Even Sacred Clan had to move aside when they encountered Dragon Sect.

Wang Xian walked ahead emotionlessly. Behind him, different clans and sects discussed softly as they could only look at their backs.

The battle on Huashan would be at the highest peak of Huashan, which was located in the middle region of Huashan.

In that place, the highest peak was over two thousand meters tall.

The battle would be held there.

There were a dozen-odd entrances to the highest peak of Huashan.

Wang Xian walked at the front of the pack. The martial artists in front of and behind him were at least a hundred meters away.

"Diabolism! Those are people from Diabolism!"

Just as Wang Xian led the disciples of Dragon Sect to a forked road, he heard shouting from his side.

"Hehe! Their blood is so fresh. I really hope the major battle will be over soon. After that, we can drink and suck their fresh blood to our hearts' content!"

"It will be soon! After Emperor Qi defeats Nie Wushuang, the major battle will begin. We have been lying low for fifty years. Now is the time to show our fangs!"

Hehe!

A few arrogant voices resounded.

"Ah! Bugs! Bug! Mum, these blood-red bugs!

"Crimson Bug, what do you guys want?"

At this moment, a sharp shriek pierced the atmosphere.

"Don't be so anxious, girl. The major battle hasn't started. Diabolism follows the rules closely. Hehe! Don't be such a coward!"

Wang Xian walked forward and saw martial artists from Diabolism, who were wearing red outfits, teasing the group at the other end.

Under their loose red outfits, one could still see something wiggling and moving.

A short distance away, a girl stood behind another lady. Her face was as white as snow.

Before the girl, there were a dozen-odd savage-looking bugs. These bugs had razor-sharp mouthparts. Some of them had countless legs while others were wiggling around.

All the bugs shared a common trait, and that was that they were entirely red with a stench of blood around them.

"Crimson Bug! An elite sect below the four strongest devil sects. They have a strength that can equal a Sacred Sect in the Underworld!"

"All the cultivators in Crimson Bug are exceptionally gruesome. They breed bugs with their bodies. The stronger these bugs are, the stronger they are. Since the Remains have been annihilated, they are widely regarded as having the capabilities to take their place!"

A few middle-aged men standing by the side commented. When their eyes fell on the bloody bugs on the floor, their faces paled.

The cultivation arts of those in Diabolism were all weird.

Seeing that the group ahead had stopped moving, Wang Xian raised an eyebrow and shouted, "If you guys aren't moving, move aside!"

"There are bugs ahead!" Upon hearing the voice behind her, the girl that was frightened answered with a weak voice.

Huh?

When the rest of the crowd ahead heard Wang Xian, they were alarmed and turned their heads around curiously.

They looked baffled while staring at Wang Xian and the group.

Don't recognize me?

Wang Xian raised an eyebrow and his attention fell on their outfit. A group of martial artists from second-class forces. They seemed to be from the same family or clan.

In the Underworld, all first-class and Saint-class forces would have recognized

him. Only second-class forces and weaker forces might not recognize him.

Also, Roving Sword of the golden swordfish race and five other golden swordfish members stood in a row with Mo Qinglong and Wang Xian.

Their two-meter tall statures completely blocked their sight of the disciples of Dragon Sect, who were wearing masks and Devil Wings.

Therefore, these people didn't recognize Wang Xian.

"Bugs?" Wang Xian chuckled and walked straight ahead.

When the members of those second-class forces saw Wang Xian walking towards them, they hesitated for a moment before moving aside rapidly.

"If there're bugs, just kill them!"

Seeing a dozen-odd blood-red bugs the size of one's middle finger on the path ahead, Wang Xian waved his arm casually.

A ball of flames shrouded forward.

Huh?

A sharp noise sounded and the dozen-odd bloody bugs jumped towards a middle-aged man with incredible speed.

Wang Xian smirked with contempt.

Screech! Screech! Screech!

In the next instant, the flames fell on the bloody bugs and horrifying cries could be heard.

After a brief moment, they were reduced to ashes.

"How dare you kill my bloody bugs! You must be tired of living!"

Seeing his bloody bugs being annihilated instantly, the middle-aged man growled savagely. He turned around and stared at Wang Xian.

At this moment, the bloody bugs within his body seemed to be able to sense his fury. Two bloody bugs the size of a fist wiggled out of his sleeves.

These two bugs only had one blood-red eye and were staring coldly at Wang Xian.

"So what?"

Wang Xian looked at the middle-aged man as his lips curved into a smile. Contempt was written all over his face.

"Alright, Baozhi. We have a promise with the orthodox sects that we will not start a conflict here. Just remember him. When the major battle begins, let your bloody bugs make a sumptuous meal of him!"

The old man by the side looked at Wang Xian plainly before reminding the middle-aged man.

"Hehe! Brat! I'll remember your face. Don't be anxious! I'll be going after you in a few days. I'll breed more bugs in your body to replace the thirteen you have killed! Hehe! I'm not in a rush and you shouldn't be either!"

The middle-aged man stared coldly at Wang Xian. His clothes were tumbling and he looked horrifying.

Several disciples of the second-class families around paled at the sight of that.

"How unruly and arrogant!"

Wang Xian looked at the middle-aged man and showed a faint smile.

"Hehe! Now that you have become my prey, eat more over the next few days. When the major battle between the orthodox sects and devil sects begins, I will use your corpse to feed my babies!"

The middle-aged man smiled creepily, revealing his blood-red teeth. A pungent stench of blood was surrounding him.

Several members of those second-class forces took several steps back in fear.

"A bunch of cowards! Your easy and comfortable lives will be coming to an end soon. Enjoy the last few days of your lives!"

Seeing them retreating, a young man remarked with ridicule.

"You guys are really noisy. It would seem that I have annihilated too few people from Diabolism. There are actually people who can't recognize me!"

Wang Xian looked across the crowd of more than a hundred members from the Crimson Bug. He continued with an emotionless tone, "Kill all of them!"

# Chapter 533: Time to Whack Everyone

"Kill all of them!"

His emotionless voice was heard everywhere, hitting the surrounding Second-class forces, who displayed startled looks.

To their surprise, the forces that had been following behind Wang Xian halted when the Dragon Sect came to a stop.

They were listening attentively to the conversation ahead when they noticed a plain voice.

All of them were shocked.

The group of experts from Dongmen Clan, who was the closest group, could not help but twitch their lips.

"I wonder which fellow doesn't want his life!"

"I think we should stay a distance away from it. It seems unsafe to stay too close to Dragon Sect!"

Some of the Inborn Experts from Dongmen Clan were discussing softly.

They were terrified, as this fierce man just kill anyone as he liked!

Today was the battling day between Sect Leader Nie Wushuang and Emperor Qi of Diabolism. Both of them had made a pact that no conflict was allowed.

Donghua Sacred Sect had also issued orders that no Martial Artists were allowed to strike today.

Since Donghua Sacred Sect and the alliance of the orthodox sects had taken their stance, who dared to make their moves? This was simply a suicide move.

But clearly, Dragon Sect was not bound by this rule.

"Kill us all?"

The bunch of people from Crimson Bug was stunned by Wang Xian's words. They stared hard at Wang Xian, revealing a creepy look.

"Kill us all? Hiak hiak, what the..."

Before they could finish their sentence, twenty devil figures flashed out from behind Wang Xian, launching their attack at a domineering speed.

"How dare you break the rules... Go to hell!"

The three old men who stood at the forefront of Crimson Bug let out a creepy shriek when they saw the black shadows' attacks.

Boom boom!

At this time, the score of Dragonians released their daunting oppression with terrifying dragon claws, raking at the experts of Crimson Bug.

"Damn it!"

The group of a hundred-odd Crimson Bug people did not come with the ancestral sects. They were the first batch to reach this place. Hence, there were only three Inborn-level Crimson Bug experts.

"Burst!"

Crimson Bug was appalled by the domineering aura from the Dragonians. Their oversized clothes ballooned and flapped as thickly-dotted crimson bugs began crawling towards the Dragonians.

Boom boom!

The massive crimson bugs exploded out, charging at the Dragonians, filled with a scary corrosive toxin.

"Hmph!"

The Dragonians displayed only disdainful looks as they shook their bodies, releasing intense devil aura while blocking out the explosive blood. They racked their dragon claws across.

Hiss!

Argh!

Screams of panic and desperation were heard as the disciples of Crimson Bug got torn apart.

All the crimson bugs that were nurturing within the bodies let out a fearful cry.

"How dare an orthodox sect break the rules. Damn you!" an Inborn Expert from Crimson Bug screamed with a scary and malevolent face after witnessing hundreds of disciples almost getting wiped out.

A crimson insect flew into the sky and exploded in the air, a thousand meters high.

Boom!

The crimson glow lit up the sky, as that bug was a type of signal bug.

"I'm not from the alliance of the orthodox sects. Why do I care?!"

Upon hearing that Inborn Expert of Crimson Bug, Wang Xian sneered.

Argh!

Before the three Inborn Experts could say anything, they were slaughtered by three Dragonians.

Eek, eek!

The hideous crimson bugs were still found all over the ground, letting out cries of horror.

Beside them lay the corpses of their owners. Twenty seconds was all it took to exterminate the hundreds of disciples of Crimson Bug, who had been clamoring in arrogance not long ago.

They couldn't resist or struggle.

Several Second-class forces beside Wang Xian were stupefied by what they saw.

"Dragon Sect, it's the Dragon Sect. He's the Dragon King!"

A girl, by the side, was crying out in surprise and excitement.

"Come here, Xun'er."

A lady who was standing beside her quickly pulled her to one side as she looked at Wang Xian with consternation.

"Dragon Sect, Dragon King!"

Other disciples of Second-class forces also staggered back in trepidation.

Reputation was all that mattered!

Now that they had witnessed the Dragon King of Dragon Sect killing a bunch of people from Crimson Bug, all of them were shaking in their boots.

"Dragon King!"

An old man took a deep breath and lowered his chin with his fist cupped and a pale-looking face.

"Dragon King!"

The rest of the people quickly bowed with their hands cupped.

That girl, who had been looking at Wang Xian with curiosity, was pressed down by the lady beside her.

"Mm, let's go!"

Wang Xian nodded his head plainly. With a swing, a flame began to burn away all the crimson bugs on the ground to the right.

"Who dares to attack the disciples of Crimson Bug?"

A tyrannical roar came before Wang Xian could even take two steps. He saw red figures flitting towards their direction from the right rear side.

Wang Xian whirled around and stopped moving as he looked over with a beaming face.

There were thousands of people with an old man who had an odd-looking bug that looked like a facehugger on his head.

The bug looked extremely scary and hideous and was slapping on the top of the head. The more frightening thing was his face, as it was covered in tiny and thickly-dotted little bugs twisting around. It looked extremely horrifying.

The old man wore an extremely oversized crimson robe with great terror hidden inside.

Standing behind the old man were Inborn Experts of Crimson Bug, who looked ugly and hideous.

When the group arrived, all the people from the Second-class forces gasped.

They started to shiver. If the war between the good and the bad break out, they really had no idea how to fight this bunch of scary people.

The incoming rush of pungent blood already made them sick, and all they could do was watch these people blankly.

Wang Xian raised his eyebrows as he looked at this bunch of people. With a cold gaze swept at that old man, he said indifferently, "Not attack...wipe out. Look at the floor. Those are their ashes!"

"Hur?"

That old man was slightly taken aback as he traced the floor with eyes, which were slowly turning red.

There seemed to be scary bugs swimming in his eyeballs.

"Great, how dare you kill my disciples. Since you broke the rules first, I'll give you a bloodbath!"

The old man opened his mouth wide enough for one to see worms wriggling inside it. He was a worm man!

"What's going on? Why did the group stop again? "

"It's Crimson Bug. Just now, the Dragon King seemed to have annihilated them, and now, the experts of Crimson Bug have arrived."

"The Crimson Bug of Diabolism is really courting their own doom. I'm happy to see this though. The people from Diabolism are really ignorant. How did they not recognize the Dragon King from Dragon Sect?"

"Hmm, this is getting exciting. The Crimson Bug of Diabolism is going to get exterminated!"

"I'm sure. How can the person who offended Dragon Sect stay alive? It's just a mere Crimson Bug."

The Sacred Clans and ancestral sects commented with thrill and anticipation. They had been following behind Dragon Sect at a hundred meters away, wiping the sweat away from their foreheads.

# Chapter 534: Crimson Bug Annihilated

Wherever the Dragon Sect went, there would be bloodshed.

The crowd from Diabolism was arrogant and domineering. After being through the incident with the Remains, Wang Xian didn't have a good impression of Diabolism.

Now that the disciples of Crimson Bug were acting pompously and arrogantly before him, he would naturally not let them off. When it was time to kill, he would do as such.

Wang Xian didn't feel the slightest bit of guilt for killing the people from Diabolism.

Similarly, he wouldn't feel any guilt for killing his enemies.

As for those good-natured people, or innocent people or forces, Wang Xian would not kill rampantly.

All along, Wang Xian had adopted an attitude of not offending others if they didn't offend him in the Underworld.

If others offended him, he would just have to kill them.

Naturally, the members of the Crimson Bug before him looked savage and even a little perverse. In Wang Xian's view, they couldn't even be considered humans.

Seeing how Wang Xian casually pointed to the ashes of the disciples from Crimson Bug while replying, the second-class forces around him couldn't help but feel their mouths twitch. They looked to the thousand-plus experts from Crimson Bug and staggered back in fear.

They were afraid and terrorized.

After moving back a hundred meters, they finally stopped ahead of the Dongmen

Clan. At this moment, they heaved a long sigh.

"What's happening? The experts of the Crimson Bug are all here?"

As part of the mountain was blocking their sight, they couldn't see what was happening to their right. When an Inborn expert from Dongmen Clan saw the second-class forces retreating towards them in horror, he immediately asked this.

"The experts from the Crimson Bug are all here. There are over a thousand of them and they are truly terrifying!" an old man answered, speaking to the Inborn expert from Dongmen Clan respectfully.

"They are really here? Haha! Great! Another devil sect will be annihilated!"

When that Inborn expert heard the old man, he couldn't help but grin.

The crowd behind him also revealed smiles. Offending the Dragon Sect? These people must be tired of living!

Hadn't they heard of the saying "You'd rather offend Hades than offending the Dragon King"?

As the people ahead had stopped, those at the back could only do the same. Some were rushing the people ahead of them impatiently.

As a result, the news of the clash between the Dragon King of Dragon Sect and the Crimson Bug quickly spread.

"Crimson Bug must be tired of living!"

"Music to my ears! The Dragon King is going to annihilate another devil sect!"

"The Dragon Sect is really high profile. If they really annihilate the Crimson Bug, all of Diabolism will probably be after Dragon Sect!"

"It isn't just Diabolism; Dong Hua Sacred Sect will probably go after them too. He's too fearless!"

The crowd behind discussed while, ahead of them, Wang Xian looked to the thousand-odd people from Crimson Bug with a radiant smile.

"Kill all of us? Give it a try! I do hope that the Crimson Bug has the capability to do so!"

As he spoke, he turned his body slightly to face the entire crowd from Crimson Bug. "Just to let you have a good death, I'll tell you that the one who will be killing all of you is the Dragon Sect!"

"Kill!" Wang Xian ordered coldly. This time, it wasn't just the fifty dragonians who struck. The 150 golden swordfish also struck.

Roving Sword didn't make a move. This was because they weren't qualified for him to take action. If he really participated, he would finish off all the enemies in a single strike.

Wang Xian would still like to see the true strength of the golden swordfish race.

"Kill!"

When Wang Xian made his order, all the dragonians and the golden swordfish race moved.

In an instant, terrifying killing aura filled the entire sky.

Energy of the Gold Summit, devilish aura, and unparalleled killing intent surprised even the people a hundred meters behind.

"What terrifying auras! Retreat! We've got to move back further!"

Those from Dongmen Clan who hadn't reached the Inborn level paled. The experts from Dongmen Clan shouted immediately as they moved back rapidly.

The auras from more than a hundred fifty Inborn experts together and five Dan Realm experts could even suffocate an Inborn expert.

They didn't dare to witness the fight at all as they rushed back in horror.

Obviously, when Wang Xian made his last statement regarding who would be killing them, the eyes of the old man at the forefront of the Crimson Bug group widened. Fear instantly gripped him.

When he saw those horrifying figures charging towards him, he instantly felt as though he was in an ice cellar. His body was shivering and cold.

"Oh gosh! This... All those behind him are Inborn experts! How can this be...? And those five at the front, those are Dan Realm experts. They are experts at the same level as me... How can this be... How can there be so many unparalleled experts?"

As one of the vice-leaders of Crimson Bug and a Dan Realm unparalleled expert, this was the first time he felt fear.

When Wang Xian said they were from Dragon Sect, his heart was wrenched.

Dragon Sect was the force that had annihilated the powerful Remains and this group of people before him was from the Dragon Sect!

That young man was the Dragon King!

Seeing experts charging towards him from all directions, he shouted in horror, "Dragon King, our Crimson Bug has no feud with you. Why do you have to annihilate us?"

"Because I want to represent justice. Therefore, I'm annihilating all of you!" Wang Xian answered in a nonchalant tone.

Pfft!

The vice sect leader of Crimson Bug also threw up blood. Looking at the golden swordfish experts that were attacking him, he immediately fled without a moment of hesitation. "Run! Run immediately!"

Run! The vice sect leader of Crimson Bug didn't hesitate at all as he shouted in horror.

These terrifying existences had greatly exceeded his expectations.

Didn't Dragon Sect only have fifty Inborn experts?

Isn't the Dragon King the only Dan Realm expert in the Dragon Sect?

How are there more than a hundred fifty Inborn experts and five Dan Realm experts here?

What did Crimson Bug have to go against it?

The roar from the vice sect leader of Crimson Bug reverberated across Huashan. Even if one was standing several tens of kilometers away, he would be able to hear it clearly.

"Ancient Spiritual Sword Slash!"

At this moment, a ray of golden light glowed dazzlingly and illuminated the sky.

Rumble!

A ten-meter-long golden ray slashed towards the vice sect leader of the Crimson Bug.

"What?"

Seeing the golden sword ray approaching him, the vice sect leader of Crimson Bug was flabbergasted.

"Return of the Spiritual Sword!"

At this moment, an emotionless voice resounded and another long golden ray of a sword edge flew over.

However, this ray of golden light came from directly before him.

One from the front and one from the back. Ancient Spiritual Sword Slash.

The golden swordfish race resembled sword celestials. As they swung their blades, thousands of creatures were killed instantly.

Argh!

At this moment, a wretched cry reverberated throughout the sky of Huashan.

The path of sword techniques was widely regarded as the strongest path of killing. An attacking sword celestial was the strongest in the world.

Due to their gifts, the golden swordfish race had sharp swords from birth. After practicing the Ancient Spiritual Sword Technique and training in the Dragon Field, their sword techniques could triumph over the world.

The terrifying sword of killing was even sharper than the attacks from the dragonians.

Crimson Bug only had twenty-odd Inborn experts. There was no way they could withstand a wave of attacks from more than 150 Inborn experts. As for those who weren't even at the Inborn Realm, their state was even more brutal.

After the sword of killing and terrifying devilish aura swept across, less than five people were alive.

When the vice sect leader of the Crimson Bug saw this, his vision darkened.

Two sword edges slashed across his body!

# Chapter 535: The World Is The Enemy

Argh!

Shrieks of panic and desperation were heard as it was total overkill.

In less than a minute, the Crimson Bug had been totally wiped out.

None of the forces would ever believe such a speed when the word got out.

Crimson Bug was comparable to the existence of a Sacred Sect. Yet, it had been wiped out in a brief moment.

Even a Dan Realm Expert had been killed easily.

Wang Xian was satisfied with what he saw. The power of the golden swordfish clan had gone beyond his expectation.

Given their combat power, it was not something dragonians could match up with.

After all, one was a man-made dragonian, while the other one had gone through the baptism of the Dragon Pool who had a chance to evolve into a real Dragon in the future.

Eek, eek!

Countless crimson bugs were crawling around on the floor while Wang Xian swung his arm and hurled out the Nether Skull. Black Nether Flame immediately shrouded across the bugs and corpses.

Sizzle!

A somewhat petrifying sound was heard as the Nether Skull opened its mouth to gobble up the Nether Flame.

The Deity Lady of Nether Flame Denomination would have never expected the Nether Skull could have devoured so much energy in Wang Xian's hand.

"Amitabha, which benefactor is taking lives out here? Does he want to break the rules?"

At this time, a voice came from the sky as twenty bald monks emerged from the mountain to the South.

They were wearing crimson Kasayas with blood-red beads in their hands. They looked down with brows furrowed.

"Crimson Bug? Their disciples are all wiped out?"

Another voice came from the southwest. One by one, experts who had sickles and were dressed in oversized black hoodies sprouted out from the mountains. Their eyes were glimmering with black radiance.

"Hur? Dragon King of Dragon Sect? How dare you guys show up at this place!"

A group of experts were suspended in the air, looking over in Wang Xian's direction. Nie Wuya, at the center, glowered at Wang Xian with a hateful expression.

"The Dragon King of Dragon Sect actually wiped out the Crimson Bugs of Diabolism. Gasp!"

Several experts from Sacred Sects leaped to the summit of a mountain at the southeast. When they looked over here, they sucked in a cold breath.

Wang Xian swept his gaze across Donghua Sacred Sect and several sects from Diabolism. With his lips slightly drawn, he said, "Crimson Bug offended me, so they deserve to die!"

"Dragon King, I think you're simply digging your own grave by coming here today. After our Sect Leader eliminates Emperor Qi, it will be your doom!"

Nie Wuya stared at Wang Xian with bloodshot eyes as he bellowed in a low voice.

"What happened last night was just the beginning. There's no hurry, because I'll annihilate Donghua Sacred Sect!"

Wang Xian looked in the direction of Nie Wuya and spoke with a flat tone.

"Fine, let's see who will be annihilated!"

Nie Wuya clenched his fists tight as he snorted and leaped down.

"So it's the Dragon King from Dragon Sect who annihilated the Remains and now, Crimson Bug. Are you declaring war with us?" asked the experts from Reeds Spirits coldly, with their black clothing and sickles in their hands.

"I'll kill whoever messes with me!" Wang Xian looked over and continued with an overbearing vibe, "You guys are no exception!"

"Amitabha, if you commit a killing sin, you'll go to Hell!"

The experts from Devil Spirits Temple slowly spoke. They took one look at Wang Xian before they turned and stalked away.

Wang Xian curled his lips slightly. With an arm swing, the Nether Skull flew back into his hand, leaving a floor of ashes.

"Let's go!"

Wang Xian headed to the tallest peak of Huashan with a smile on his face.

He did not have the slightest care about annihilating Crimson Bug effortlessly.

The arrival of the golden swordfish clan enhanced the foundation of Wang Xian by two to three folds. Roving Sword could fight against a Budding Realm Expert. Wang Xian could, too, handle or kill one Budding Realm Expert.

Judging from the situation in the Underworld now, the strongest would be Nie Wushuang and Emperor Qi. Both of them were at most Budding Realm Experts.

He could fight them off. Hence, he was fearless!

"The annihilation of Crimson Bug only took a few minutes!"

"After the despairing screams, the unparalleled expert of Crimson Bug finally knew they were from Dragon Sect. Hence, there was no hesitation in getting all the disciples to flee."

"I seem to have heard voices from Donghua Sacred Sect Experts too. All the Underworld Experts have heard the growl and cries!"

Upon seeing the departure of Dragon Sect, the forces from the Underworld then slowly followed behind.

When they spotted the ashes tracing a human shape on the right-hand side, they took in some cold air.

Within a short period of time, a terrifying force that was comparable to a Sacred Sect was annihilated. The power of Dragon Sect was domineering.

"We cannot afford to offend Dragon Sect!"

The Huashan summit had become a scenic area that was somewhat important. However, no ordinary men except Martial Artists were here today.

When Wang Xian was nearing the Huashan summit, all the Martial Artists were already packing the place.

When these Martial Artists saw Wang Xian and the gang, they were slightly stunned, with a look of awe in their eyes.

"Hur? This feeling is...?"

Suddenly, Wang Xian's brow furrowed as he looked towards a mountain on his left.

This was Wang Xian's second trip to Huashan, and it was also his second time having such a peculiar feeling.

The first time was at the legendary Zhong Fang Immortal Bridge, another quizzical aspect of Huashan.

When Wang Xian had attempted to look in that direction with his Piercing Eyes, he seemed to be blocked by unique energy.

Today, the feeling got intense when he was nearing the Huashan summit.

He squinted his eyes slightly with blue and red radiance flashing in them.

I'm still blocked out by a kind of energy. It's just that the energy is weaker at this spot!

Why does Huashan always give me a kind of feeling that there is another world hidden away within it?

That energy feels like some kind of array in the Dragon Palace. Is there a great array in this place?

Wang Xian had all the questions in his mind as he pondered while frowning.

Strange! Strange! Strange!

Arrays were something that existed in legends. The only array in the Underworld that he came across was in Donghua Sacred Sect, and the power of that array was so-so.

The array over here had reached an astounding level, such that he could only sense a slight degree of creepiness with his current strength.

Just as Wang Xian was standing there deep in thought, the various sects and clans from the Underworld were heading to the foot of the tallest peak of Huashan.

When those Martial Artists passed by and saw Wang Xian deep in thought, they were whispering among themselves.

As soon as they arrived at the foot of the tallest peak, the alliance of the orthodox sects and Diabolism had already divided into two distinctive camps.

In terms of numbers, Diabolism had fewer people than the alliance of the orthodox sects by a few folds. However, every Diabolism Martial Artist was exuding a powerful aura.

Before Sect Leader Nie Wushuang and Emperor Qi of Diabolism arrived, all the Martial Artists were exchanging conversations in low voices.

At this time, Donghua Sacred Sect released an order stating that the alliance of the orthodox sects would be eliminating Dragon Sect after Sect Leader Nie Wushuang claimed victory.

Apart from Sui Clan and Xiao Clan, who disagreed with it, all the Sacred Sects and Sacred Clans in the alliance of the orthodox sects were assumed closed.

As for Diabolism, all the denominations in Diabolism had already decided that they would exterminate Dragon Sect after the battle.

Dragon Sect was going to have the world as their enemy!

# Chapter 536: A Real Man Faces A Strong Opponent Directly (1)

"Why aren't Sect Leader Nie Wushuang and Emperor Qi here yet? The arranged timing for their battle is about to start!"

"The experts will always be the last to appear. Don't be anxious. When the time is here, these two unprecedented experts will appear out of nowhere!"

"Those from Diabolism are really disgusting. Look at them. He has snakes as his hair! How disgusting is that?!"

"Those are people from Cursed Venom. Among the devil sects, Cursed Venom can kill without leaving any traces. You should be careful. Otherwise, you might be assassinated before you know about it!"

"Where is the Dragon King from the Dragon Sect? I heard that people from both the alliance of the orthodox sects and Diabolism want to kill the Dragon King. As such, there will be two battles of the ages today!"

"The Dragon King is too unruly and fearless. The moment they arrived, they annihilated the Crimson Bug. They have truly made enemies with the entire Underworld!"

Wang Xian had just arrived at the bottom of the tallest peak in Huashan. The moment he stepped in, he heard all kinds of discussions. His lips curved into a smile as he looked across.

At the bottom of the tallest peak of Huashan, there were clearly two separate camps.

The orthodox sects and Diabolism.

Wang Xian smiled and walked towards the middle of the two camps.

There weren't any people there and it could be considered as the separating line

of the two camps. Now that Wang Xian had walked in this direction, the underlying meaning was clear to all.

"Dragon King of the Dragon Sect!"

"The Dragon King!"

When Wang Xian led over two hundred people over, the bottom of the tallest peak of Huashan instantly went silent.

Around him, there were at least a hundred thousand people distributed densely across the bottom of the peak. Those weaker or smaller sects and families could only stand and watch from a far distance.

The arrival of Wang Xian and the Dragon Sect instantly attracted the attention of the entire crowd.

The separation line wasn't broad at all initially. However, the forces from Diabolism instantly retreated as Wang Xian and the Dragon Sect stepped ahead.

A first-class force from the alliance of orthodox sects also instinctively retreated a little.

No matter if they were from the alliance of orthodox sects or Diabolism, they were all fearful and wary of the Dragon King from the Dragon Sect.

"Is the Dragon Sect considered to be the third camp now?"

"Damn! The instant the Dragon Sect arrived, those at the edge from both Diabolism and the alliance of orthodox sects instinctively moved away to make space for them!"

"I finally get to see the Dragon King. He's really young! Too young!"

The entire crowd had looked towards where Wang Xian was standing. There were roughly two hundred people behind him. At the same time, soft discussions were happening everywhere.

"Dragon King, you will die a horrible death soon!" Suddenly, an angry roar reverberated and shocked the crowd.

The crowd looked over. In the direction of the Devil Corpse Palace, two old men in blood-red outfits were glowering at Wang Xian.

One of the old men had a non-human eye. A terrifying feeler extended out and stared creepily ahead.

The other old man had a blood-red spider on him.

Both of them were glowering at Wang Xian with deep hatred.

"That's the sect leader and vice sect leader of Crimson Bug!"

"The sect leader and vice sect leader of the Crimson Bug came with the Devil Corpse Palace. In the end..."

A few discussions broke out from the side from several disciples of devil sects.

Wang Xian looked to the two old men, revealed a smile and commented, "In that case, come and take my life!"

"Dragon King, don't be so arrogant. I, Yan Chong, will definitely let my bloody bugs devour all the flesh on your body!"

The sect leader of Crimson Bug clenched his fist tightly as his eyes turned bloodshot.

Hehe!

Wang Xian smiled with ridicule. He crossed his arms and didn't pay attention to the remaining members of the Crimson Bug.

"Abyss... Dragon Sect!"

At the location of Heavenly Sound Sect, several experts looked a little bitter.

The disciples of the Abyss being the disciples of the Dragon Sect had been deduced by others when they went to kill the experts from Dong Hua Sacred Sect.

Heavenly Sound Sect had obviously obtained this information. Recalling the time when the Abyss invaded Heavenly Sound Sect to kill their Saint and

granddaughter of the vice sect leader, they gritted their teeth and their eyes were as cold as ice.

"Dragon King of the Dragon Sect! Just wait for me!"

Where Dong Hua Sacred Sect was standing, the Lord of Sea Serpent Island stood there with a gloomy expression. Beside him, there were fifteen other Inborn experts other than his son.

This was the full strength of Sea Serpent Island.

The experts from Dong Hua Sacred Sect standing nearby also stared coldly at Wang Xian.

Wang Xian could sense dense killing intent coming towards him. Ruthlessness gleamed in his eyes.

He wasn't in a hurry. After the battle between Nie Wushuang and Emperor Qi, it would be time for him to address these grievances.

The intense battle would definitely result in severe injuries or even death. Both parties might suffer severe injuries at the same time too.

When the time came, he would be able to deal with the entire Underworld and Diabolism with Roving Sword, the five Dan Realm experts, and over two hundred Inborn experts that had come with him.

He could just kill those who weren't convinced of his strength at that point.

Wang Xian looked across the entire crowd of the Sacred Clan and Sects behind Dong Hua Sacred Sect, Devil Corpse Palace, Devil Spirits Temple, Reeds Spirits, Crimson Bug and many other forces.

"Nie Wushuang, I'm here!"

Suddenly, a thunderous roar erupted in the sky. An unruly voice came from a far distance away. The voice reverberated with tumbling tumultuous clouds and a man in a black outfit flew over from the North.

The man resembled a middle-aged man. His skin tone was a little black and his

hair had reached his waist.

Behind him, he carried a black coffin. The person in the black coffin resembled a corpse that had been dead for ten thousand years and had no expression.

Streams of black aura circled around him gradually.

The man took step after step in the air as though he was taking a casual stroll. However, he covered several hundreds of meters with each step.

He was insanely fast.

The man stopped above the Devil Corpse Palace and waited silently.

"Emperor Qi!"

Everyone in Diabolism bowed down and greeted the man respectfully.

Some experts of Diabolism were beaming with fear and respect. He was the equivalent of a god in their eyes.

"I'm here too!"

When the middle-aged man stood before the devil sects, sounds of metal clashing resounded from afar.

Just like a comet leaving a trail as it cut across the sky, a man crossed the sky over Huashan.

It was an old man shrouded in faint golden light. His hair was a little unkempt and he had violent and unruly vibes around him.

His arms were of a dull-gold shade and were glowing faintly.

Behind him, he carried a long sword. The longsword spanned 1.6 meters and was exceptionally tough.

On it, there were two other palm-sized rings.

"Sect Leader Nie!"

Nie Wushuang arrived, stood above the Dong Hua Sacred Sect and stared at Emperor Qi.

Below him, all the martial artists in the Underworld, including Dan Realm experts from all other Sacred Clans and Sects, lowered their bodies and greeted Nie Wushuang with great respect.

Emperor Qi of Diabolism was the strongest expert in Diabolism. All of Diabolism was willing to pay respects to him.

Similarly, Nie Wushuang was the same for the orthodox sects.

This was respect for the two supreme experts in current times.

Over a hundred thousand people paid respect to these two experts.

The only exception was Wang Xian who crossed his arms and stood in the middle. With a face of smiles, he stood upright and looked towards Nie Wushuang and Emperor Qi.

I've got to say that the appearances of the two of them would be even cooler with BGM!

# Chapter 537: A Real Man Faces A Strong Opponent Directly (2)

Wang Xian hugged his arms as he looked at the two supreme experts. With a smile contained in his mouth, he was waiting for the grand war to arrive.

"Emperor Qi, you must avenge Crimson Bug. The Dragon King of Dragon Sect just killed all our clan members of Crimson Bug!"

Out of the blue, the leader of Crimson Bug reported to Emperor Qi of Diabolism with grief and indignation on his face.

"Mm!"

Emperor Qi, who was standing in the air, lowered his chin slowly as he looked at the grievous leader of Crimson Bug. He turned his head slowly towards Wang Xian.

"Sect Leader, the Dragon King and Dragon Sect barged into Dong Hua yesterday and slew Supreme Elder Zhou, along with fifteen Inborn disciples and hundreds of our elites!"

Upon seeing the leader of the Crimson Bug making complaints to Emperor Qi, Nie Wuya hesitated before he reported to Nie Wushuang too.

Sect Leader Nie Wushuang was still unaware of the fact that the experts of Donghua Sacred Sect had been killed yesterday.

"How dare you kill the disciples of Donghua Sacred Sect!"

Nie Wushuang narrowed his eyes as he peered over his shoulder and looked at Wang Xian.

At the foot of the tallest peak of Huashan, the Dragon King of Dragon Sect stood out the most.

With more than two hundred people standing in a separate line, they were

divided out from the orthodox and devil sides.

At the same time, all of the people were bowing down with respect just now. Only a group of them stood there with smiles on their faces.

Emperor Qi looked at the Dragon Sect!

Nie Wushuang did the same thing too!

Upon seeing this, all the Underworld people held their breath with blank looks.

In particular, the people from Donghua Sacred Sect and Diabolism who had a feud with the Dragon Sect.

"Both Nie Wushuang and Emperor Qi are looking in the Dragon King's direction. I bet they are finished this time!"

"They received two supreme experts' attention, making enemies with two expert forces. This time, Dragon Sect is completely doomed!"

"This time, Dragon Sect really played with fire. No one can save them now!"

"Do you guys think Nie Wushuang or Emperor Qi would readily exterminate Dragon Sect before their fight?"

"Possible. Given their invincible combat power, they might be able to annihilate Dragon Sect within a minute."

"Dragon Sect seems to have recruited another hundred-odd disciples. What a pity that the Dragon King has offended Emperor Qi and Nie Wushuang. They will definitely strike!"

Those forces who stood far in the back were having discussions in soft voices as they witnessed the event unfolding.

Provoking the two supreme experts from orthodox sects and Diabolism would only bring the Dragon King down.

"I think the Dragon King is a cool and dashing person. Why does Sect Leader Nie Wushuang want to kill him? Gosh, he's a good man!"

"Shut up, Xun'er. Stop spouting nonsense. Under such circumstances, annihilating Dragon Sect is inevitable, and it was caused by his overly unscrupulous actions!"

"Mum, but he destroyed two powerful dominations of Diabolism. Why..."

"Lass, stop your comments if you don't know anything. No one is to blame except him. All the Sacred Sects and Sacred Clans dislike his way of doing things. Such an existence is just like hugging a suicide bomb. None of us want to get ourselves blown up!"

Back in one of the spots at the foot of Huashan summit, the girl who had cried at the sight of Crimson Bug commented with discontent. Her mother was staring at her, giving her a lecture.

The girl pouted in dissatisfaction. "I'm supporting Dragon King, no matter what!"

This statement drew the harsh gaze of her mother.

"Heh heh!"

Seeing that both Nie Wushuang and Emperor Qi were looking at him, Wang Xian revealed a faint smile with his lips drawn.

"An ant. Let me kill Nie Wushuang first before I slaughter them without any effort!"

Emperor Qi was expressionless when he looked at Wang Xian. Then he turned to glower at Nie Wushuang.

"He's not worth me striking. After I defeat Emperor Qi, you guys can just exterminate them!" said Nie Wushuang in an icy tone as he swept his gaze at Wang Xian and the Dragon Sect members.

Contempt!

Outright contempt!

Regardless of whether it was Emperor Qi or Nie Wushuang, neither of them

regarded Dragon King highly.

To them, they only had one enemy; and that was the one standing before each other.

They would not delay their battle just for an insignificant ant or a weakling.

"Gosh, the overbearing supreme experts. The Dragon King of Dragon Sect is already powerful, but neither Emperor Qi nor Nie Wushuang regards him highly."

"The Dragon King is indeed strong, but he's just the strongest at our level. In their eyes, he is a nobody who could be killed anytime!"

"This is the spirit of a supreme expert. We're impressed by them. Dragon King, who could stir up a ruckus, was not even regarded as being in their league."

What Nie Wushuang and Emperor Qi had said astounded the members from the Underworld and Diabolism.

This was the demeanor displayed by supreme experts.

They simply disregarded everyone, for they had only one opponent; the rest were not fit for them to waste their energies on.

Upon hearing what his Sect Leader said, a hint of admiration emerged in Nie Wuya's eyes.

All the disciples of Donghua Sacred Sect were wearing faces that were complacent and prideful.

Look, here's our Sect Leader, the strongest expert in the Underworld.

Don't act brazen, Dragon Sect. It will be your death after our Sect Leader kills his enemy.

The two leaders from Crimson Bug revealed a smile, looking elated.

"After Emperor Qi slays his strong opponent and annihilates Dragon Sect, I will pledge my loyalty to Emperor Qi!"

The two leaders of Crimson Bug clenched their fists in allegiance.

Emperor Qi nodded his head impassively as he turned to Nie Wushuang again.

"Hmph, Dragon King. Your death will come when my Sect Leader defeats his opponent!"

Nie Wuya stared at Wang Xian, growling at him with a face of coldness.

"After their battle, it will mark the end of Dragon Sect!"

Be it Diabolism or Donghua Sacred Sect, they had made their stands clear that they would be exterminating Dragon Sect after the battle.

None of the ancestral sects and clans commented, as they just followed the flow.

The entire atmosphere of the battle had changed drastically.

"The orthodox sect and Diabolism were supposed to be at loggerheads, and they vowed to kill each other. Yet, the situation had developed to both wanting Dragon Sect to be annihilated."

"I must say that a force that has arrived at this stage is considered impressive."

Some of them expressed their approval secretly as they looked at Dragon Sect. Some of them had pity in their eyes as they heard the gloating over Dragon Sect's misfortunes.

"Ant?"

"Not fit to fight with him?"

Upon hearing Nie Wushuang and Emperor Qi, coldness flashed in Wang Xian's eyes as he looked at their scornful eyes.

"Looking down on me, hur!"

Wang Xian curled his lips slightly as he stared at the supreme experts who were confronting each other with flickering eyes. He sensed the mocking gazes from the surroundings, and a faint battling intent surged in his heart.

"I wanted to wait for both of you to have an outcome, or perhaps, reap the benefit after both of you were wounded. But I guess this wasn't cool at all!"

Wang Xian slowly lowered his chin with a fighting spirit filling his eyes.

"If that's the case, I'll show the two supreme experts that you guys don't rule the Underworld!"

"A real man should face a strong opponent!"

"And a supreme one!"

# Chapter 538: A Real Man Faces A Strong Opponent Directly (3)

"It has been fifty years! Our Diabolism has lived in seclusion for fifty years! Now that we have returned, we will definitely rule the Underworld!"

Amidst the towering mountain range and below the majestic tallest peak of Huashan, Emperor Qi stood in the air and spoke plainly.

Emperor Qi's voice instantly turned the attention of the crowd from the Dragon Sect as the crowd turned to look at the leader of Diabolism with great excitement.

"Fifty years ago, I, Nie Wushuang, could suppress your Diabolism. Today, I will still be able to do so. The Underworld is still going to be our Underworld!"

Nie Wushuang lifted his head slightly and an intense battle will emitted from his body.

"Great! Show it to me then! Will you be the king of the Underworld or will I declare myself the Emperor of the Underworld?"

Emperor Qi levitated upwards. A terrifying devilish aura was released from his body and the coffin behind him.

Dang dang dang!

Sounds of metal clashing rang out around Nie Wushuang. Violent metal attribute energy and intense golden rays were emitted from his body gradually.

Nie Wushuang also started to levitate into the sky.

They would be fighting at the highest peak of Huashan.

"Sss. Terrifying! Their auras are too terrifying. Is this the strength of a supreme expert? In the face of them, why do I feel that we are just ants!"

"Budding Realm! Is this the aura of a Budding Realm expert? It's no surprise that they are looking down on the Dragon King. It's all because they are so overwhelmingly powerful!"

"This is where a battle between supreme experts should be! At the tallest peak of Huashan!"

Everyone's eyes were burning with frenzied passion as they stared fervently at the two figures.

If only I could reach this stage in the future. That would be the greatest thing ever!

Some experts couldn't help but think that way.

"Will it be Nie Wushuang who continues to be the king or will Emperor Qi declare himself as the emperor? Everything will be based on today's battle. The fate of the Underworld lies in the hands of these two supreme experts."

Disciples from some Sacred Clans and Sects could feel themselves getting breathless as they stared fervently at the two supreme experts in the air.

"Nie Wushuang!"

"Emperor Qi!"

"My initial plan was to wait for both of you to suffer severe injuries before I crush both of you. Now, I'm just not fond of the two of you!"

"Moreover, a real man should face a strong opponent directly and annihilate his strongest enemies!"

"Haha, let me join you guys for some fun. Show me exactly who will be the one ruling the Underworld!"

"If you wish to claim supremacy in the Underworld, you've got to ask if I, the Dragon King, will allow it!"

Suddenly, an exceptionally brazen and unruly voice reverberated through Huashan. A peal of frenzied laughter followed and pierced through the clouds.

Boom!

Boom!

A stream of flames shot into the clouds, filling the sky with fire.

A stream of golden rays fell from the sky as though a thousand-meter razor-sharp longsword had pierced through the atmosphere and into the land.

Two terrifying auras erupted suddenly and reverberated through Huashan.

One rose from the ground while the other descended from heaven!

Argh!

Screams of horrors broke out suddenly. Those first-class forces and devil sects that were close to the Dragon Sect were screaming in horror.

They were petrified, their faces were as white as snow, and they were panting profusely.

"Powerful! How powerful! Supreme experts!"

"How can this be possible? How can this be possible? How can the Dragon King and his subordinates be so powerful?"

"Even the weather is changing! They must be supreme experts! The Dragon King and the middle-aged man beside him are both Budding Realm experts! This cannot be... This cannot be possible...!"

Insane! Insane!

Those who had witnessed the development would definitely feel that their world had been thrown into disarray.

They looked fearfully towards the column of flames and a golden longsword that reached the clouds and saw the Dragon King and the middle-aged man sustaining the release of energy.

"How can this be possible? Budding Realm experts and there are two of them! The Dragon King and the middle-aged man beside him are both Budding Realm

experts!"

Cold sweat covered Nie Wuya's forehead instantly as his lips turned a little pale.

Their enemies... Their opponents... The Dragon Sect which their sect leader had no regard for had two supreme experts.

Everyone in the Dong Hua Sacred Sect shivered in horror and felt as if their vision had dulled a little.

All the Sacred Clans and Sects of the Underworld swallowed their saliva and their eyes were filled with astonishment.

"Two supreme experts... With Dragon Sect's strength, they probably could annihilate the alliance of orthodox sects or Diabolism easily!"

The surrounding crowd felt extremely bitter.

They finally understood why the Dragon King could be so fearless and annihilate whoever he wished.

That was because they had the strength to support it.

So what if you were Dong Hua Sacred Sect?

If both parties fought with all their strength, they would probably be annihilated even if Nie Wushuang was around.

As for the Remains and the Crimson Bug, what the hell were they?

The only option was a mockery to their initial intention. That would be for the alliance of the orthodox sects to form a separate alliance with Diabolism to stand a chance against the Dragon Sect.

However, Diabolism and the alliance of the orthodox sects didn't choose to do so after the Dragon King called out the two supreme experts directly.

Just as he had said, "A real man should face a strong expert directly and annihilate his strongest enemy!"

"Wow! He's too cool! The Dragon King is too cool!"

Faraway, Xun'er was exhilarated after witnessing this. She started clapping and cheering loudly.

The lady beside her was dumbfounded. This time, she didn't speak a word.

That was because there was nothing for her to say.

Everyone in Diabolism was stunned and couldn't help but swallow their saliva.

"Luckily, the Dragon King isn't part of the alliance of orthodox sects. Otherwise, I believe we would have to lie low for another fifty years!"

"What the hell! How can there be such a terrifying force in the Underworld!?"

Experts from Diabolism were scared out of their wits as they wiped away the sweat on their foreheads.

In the air, the eyes of Nie Wushuang and Emperor Qi, who were brimming with battle intent, subconsciously constricted. Their expressions had also sunk.

This was completely beyond their expectations.

A force which they had previously regarded as insignificant had two experts at the same level as them suddenly.

Feeling the battle intent from them, Nie Wushuang and Emperor Qi took a deep breath and looked extremely bitter.

A slap! An open slap in their faces.

"Fight!"

"Fight!"

Wang Xian shouted as his body was overwhelmed with battle intent. As he waved his arm, the fist-size Nether Skull grew larger as it flew into the sky.

Roving Sword also shouted coldly. He extended his right arm and pointed his longsword towards Nie Wushuang. The thousand-meter longsword was absorbed into it instantly.

Terrifying aura stifled the atmosphere instantly.

Nie Wushuang and Emperor Qi were extremely solemn. Seeing Wang Xian and Roving Sword attacking them separately, they took a deep breath.

"Who would have expected this? Dragon Sect? Great! Let's fight!"

"Fight!"

Nie Wushuang pulled out the longsword from behind his back. In the process, sounds of the rings on it clashing with the metal body of the sword resounded.

Emperor Qi patted his back. The next moment, the black coffin appeared before him.

"Haha. Great! Come! Show me if the supreme experts from Dong Hua Sacred Sect and Diabolism can kill us as though we are ants!"

Wang Xian laughed hysterically. A dense stream of fire dragon energy was injected into the Nether Skull.

The close to six-meter Nether Skull raged violently in black will-o'-wisps instantly. Within the black flames, there were still red flames burning.

# Chapter 539: A Real Man Faces A Strong Opponent Directly (4)

Another true-blue Battle of the Ages.

The entire Underworld, be it orthodox sects or Diabolism, placed their attention in the sky as they craned their necks up with astonishment, respect, and fear filling their eyes.

It was the trepidation of Dragon Sect.

Om!

At this time, the Nether Skull in the sky had ballooned to a size of five meters, nearing six meters.

The Nether Skull was burning with Nether Flame and the flame from the Inferno Divine Dragon. The creepy fiery-red and ink-black struck a stark contrast against the sky.

The power of flames shrouded a range of several kilometers.

Upon seeing this, Emperor Qi narrowed his pupils and slammed his palm softly on the black coffin. The lid of the coffin opened with an arm suddenly sticking out.

The outstretched arm was covered in jagged scales, which looked hideous and terrifying. The pure black fingers measured more than thirty centimeters, radiating black luster.

Roar!

A bellow came from the coffin, which a scary 1.8-meter figure wriggled out of.

Ghoul King!

"Dragon King? It was a surprise to have such a formidable force like Dragon

Sect emerging in the Underworld. But I'll defeat you today!"

Emperor Qi closed his eyes slowly.

"Kill!"

A frightful layer of scale armor overlaid itself on Emperor Qi's skin the moment he opened his eyes once again. His eyes were filled with redness, he revealed a pair of fangs, and his fingers began to grow!

Om!

As though some BGM was playing, a bout of petrifying demonic aura lingered in the surroundings. Only two bloodshot eyes could be seen from the outside.

Boom!

Wang Xian made a swift move as he jumped onto the top of the Nether Skull and stamped his feet gently.

For the past few days, he had been nurturing the Nether Skull just like he'd done with the Dragon Ball. Hence, he could control it more easily.

Also, the power of the Nether Skull was much more compelling than the time when Deity Lady used it.

After all, it was a Level 12 Spiritual Weapon.

Mixed with a black flame, the fiery-red flame was spewed out from the Nether Skull. The flame which covered a surface area of a dozen meters struck at Emperor Qi.

"Ahem, my Ghoul King and I have gone through refining a million times. How can we get burned by this type of flame?"

Two pairs of bloodshot eyes glowered at Wang Xian. The Ghoul King beside Emperor Qi jerked before all the demonic aura entered their bodies immediately.

Hideous-looking armor appeared on them. Both of them ducked and dodged the fire attack, charging at Wang Xian.

The two figures drew an arc in the sky as they raked their unsightly, sharp claws at Wang Xian.

"I have maxed out all the power in the Nether Skull. Let me see if you can force me to transform myself!"

Seeing the incoming assault from Emperor Qi, Wang Xian revealed a faint smile on his face.

Wang Xian had been standing on top of the Nether Skull initially, but he slowly submerged himself into the skull.

Boom!

Emperor Qi and the Ghoul King reached him at almost the same time he entered.

Daunting flames burst out from the ears, nose, eyes, mouth, and chin of the Nether Skull.

Sizzle!

The flame was destructive, giving off high temperatures that encompassed a range of a thousand meters.

Ka Ka Ka!

Back at the tallest peak of Huashan.

All the rocks in the summit were burned into ashes after the entire area was shrouded by Nether Flame.

When the breeze came, it sent the ashes flying!

Huashan, which was two-thousand meters tall, was brought down by three hundred meters. How horrifying it was!

"It's the will-o-wisp!"

Emperor Qi had a drastic change in his expression when the flame shrouded them. A will-o-wisp was a flame that was released from human bones.

Such a flame contained daunting destructiveness, in particular to Emperor Qi, who was a zombie.

Argh!

The Ghoul King let out a shriek as Emperor Qi made a move and disappeared out of the flaming range. His face was incredibly dull.

After Emperor Qi and the Ghoul King left the attacking range of Nether Skull, Wang Xian slowly emerged from the Nether Skull as he fixed his cold eyes on Emperor Qi.

"Did you call me an ant?"

Wang Xian stared at Emperor Qi with a disdainful look.

Clang clang clang!

At this time, the sound of metal clashing was heard from the side.

A thousand meters of sword radiance filled the sky with a deafening sound.

Bam, Bam, Bam!

The walls of Huashan mountain let out an explosive sound when they came in contact with the sword and blade radiance.

"Spiritual Sword World!"

Roving Sword was holding his longsword as he wielded the air with it.

Sword radiance halted in the air with each strike. Within moments, hundreds of longswords coagulated in the air.

The longswords were pointing at Nie Wushuang in all directions.

"Blade rules the world!"

A ferocious look surfaced on Nie Wushuang's face as he held his long blade in both hands. His body swirled fast and furiously, while terrifying metal radiance hurled at that space in the air!

Boom boom!

The long blade of Nie Wushuang slashed at the incoming longswords that were chasing after him.

The entire sky was filled with radiance from the swords and blade within a radius of a thousand meters.

Bang, bang, bang!

As the swords and the blade clashed, the metallic sword and blade radiances did not disappear. Instead, they rebounded off in all directions.

Boom!

The explosive sound was heard again as the tallest summit of Huashan had been shaved by another few hundred meters.

Within a short period of time, the two battles had shaved the entire summit by close to thousands of meters.

All the Martial Artists from the orthodox sects and Diabolism were dumbfounded by what they had seen. They could not help but draw a cold breath.

"Is this the daunting power of a supreme expert? The repercussion of the battle actually cut the summit of Huashan in half. The force could almost tumble the water and overturn the sea. It was destructive!"

"If they attacked a mountain, they probably could bring down a mountain that was two to three thousand meters tall in one second. This is a battle between Gods!"

"The Dragon King and the middle-aged man with the sword were super powerful. In the exchange of blows just now, Emperor Qi was suppressed by the flames while Sect Leader Nie Wushuang was only passively defending!"

Ten thousand people retreated to somewhere behind as some of them watched the battle in the sky with trepidation.

They were really afraid that the tallest peak of Huashan would be knocked down, slamming right onto them. All the Martial Artists below Inborn would be crushed by the frightening mountain!

They were also apprehensive of the sharp radiance and the flame in the sky. What if they fell on them. Who could defend themselves from it?

Even Inborn Experts would be killed by that scary repercussion of the battle.

"The strength of the Dragon Sect far surpasses any Sacred Sects or Sacred Clans!"

Some of the Laozu and Supreme Elders quivered slightly while watching the battle.

In the face of such a strong opponent, they could not even survive a single stroke.

"He must win. The Sect Leader must win, and so must Emperor Qi!"

At this time, the group of experts from Donghua Sacred Sect was looking malevolent.

The domineering Dragon Sect and Dragon King! Only when their Sect Leader and Emperor Qi claimed victory would their anxiety subside.

At the same time, the group of people from Diabolism also glued their eyes on the sky.

In their hearts, they were silently cheering for their God. And even for Nie Wushuang.

This time, Diabolism and orthodox sects were short on banners. Otherwise, they would have raised them and shouted, "Go, Nie Wushuang! Go, Emperor Qi!"

Both of you must do your best!

Go, go, go!

# Chapter 540: A Real Man Faces A Strong Opponent Directly (5)

Irony! The alliance of the orthodox sects and so-called Diabolism was undoubtedly the greatest source of irony currently.

The supreme expert from the alliance of orthodox sects and Diabolism had arranged a duel, In the end, a third party interfered and forced both parties to stand on the same line, cheering for each other.

This was undoubtedly the greatest irony.

Nonetheless, both parties hoped the other side would emerge victoriously.

This was because if Dragon Sect won, they would rule supreme in the Underworld in the future. There would be no darned difference between the orthodox sects and devil sects.

When that time came, all of them would have to lower their heads.

It was especially so for Dong Hua Sacred Sect. They could already envision that if their sect leader was defeated, their Dong Hua Sacred Sect would also be annihilated.

"Dragon King! There's no room for your arrogance!"

Emperor Qi's expressions turned contorted from fury. He took a deep breath and opened up his arms.

Sss sss!

The Ghoul King looked across Wang Xian with chilling eyes. Similarly, he opened up his arms, moved and appeared behind Emperor Qi.

With their backs facing each other, dense devilish aura shrouded them.

The scale armor on them covered and extended till both of them had merged into

one.

The Ghoul King and Emperor Qi shut their eyes at the same time.

When they reopened their eyes, their eyes had turned blood-red.

Two pairs of identical eyes with identical expressions.

Emperor Qi revealed his fangs gradually. Behind him, the Ghoul King imitated his actions.

"Binary Corpses Co-genesis, Catastrophic Annihilation!"

"Binary Corpses Co-genesis, Catastrophic Annihilation! The strongest cultivation arts of the Devil Corpse Palace!"

"Two hundred years ago, two zombies rose from a graveyard. One was a man and the other was a woman. They had a terrifying move known as Binary Corpses Co-genesis. At that time, the two zombies killed several hundreds of thousands of people. Countless experts were killed. In the end, Devil Corpse Palace relied on the Mara's Coffin to suppress and eliminate them. Who could have expected Emperor Qi to have successfully mastered the Binary Corpses Co-genesis!?" [\[1\]](#)

When the crowd from Diabolism saw Emperor Qi and the Ghoul King executing the co-genesis, they were astonished.

Devil Corpse Palace specialized in turning their own bodies into zombies and also turning opponents into zombies which they could control.

The most powerful move of all was the Binary Corpses Co-genesis. This was the strongest art of Devil Corpse Palace.

"Binary Corpses Co-genesis, Catastrophic Annihilation?"

Wang Xian stood on the Nether Skull while staring at Emperor Qi combining with the Ghoul King.

"Come, release all your energy!"

Wang Xian sank into the Nether Skull gradually.

Boom!

With will-o-wisps and the flames of the Inferno divine dragon raging, Wang Xian controlled the Nether Skull to attack Emperor Qi.

Emperor Qi's eyes were fixed on the Nether Skull. He grinned and his fangs grew to twice their original size instantly. At the same time, his nails also extended to twice their original length.

Through Binary Corpses Co-genesis, he could release twice the amount of strength.

Boom!

Emperor Qi gathered energy and streams of black devilish aura circled around him. He pivoted off and struck towards the Nether Skull directly.

All the crowd could see was a black shadow flashing across.

Boom!

Terrifying shockwaves from clashes reverberated out and the immense recoil forced Emperor Qi and Nether Skull back by more than a thousand meters each.

Roar roar roar!

Emperor Qi growled and extinguished the will-o-wisps around him.

Ka ka!

As for the Nether Skull, its upper and lower jaws clattered rapidly and the flames from its eyes raged even stronger.

Standing within the Nether Skull, Wang Xian released dense flames into the Nether Skull.

"Who are you? Why haven't I heard of you before? I wouldn't kill one without a name! Tell me your name!!"

At the other end, Nie Wushuang's unkempt hair dispersed, looking like a mad scientist. Each strand of hair was like a golden needle.

He looked even more wild and unruly than the "Golden Lion" on TV. [\[2\]](#)

His body was emitting golden rays, both of his hands were on the longsword and he was shivering a little.

In each minute movement, the rings on the longsword would clash with the sword in a unique rhythm.

Nie Wushuang's golden eyes were locked on Roving Sword vigilantly.

The current Nie Wushuang could be considered an unparalleled swordsman.

Before Nie Wushuang, Roving Sword stood upright. The longsword in his hand seemed to have merged with his hand.

However, the glow of the sword was being emitted from all parts of his body. It was as though his entire body was a razor-sharp longsword.

The golden swordfish race's initial weapon was the sharp bill on its head. Now that the bill had transformed into a longsword, there were more variations in attacks and the attacks would also be sharper.

"The Dragon King has bestowed upon me the name of Roving Sword! I'll be the sword of the Dragon King!"

Roving Sword had its eyes fixed on Nie Wushuang without any expression. In his eyes, there was only his enemy, Nie Wushuang!

Nie Wushuang couldn't help but shiver a little just by locking eyes with Roving Sword.

The Dragon King has bestowed upon me the name of Roving Sword! I'll be the sword of the Dragon King!

Nie Wushuang tightened his grip on the longsword and was clearly becoming wary.

A supreme expert like him could grow into a terrifying existence.

In the path of swordsmanship, the strongest technique was Merciless Swordsmanship.

The main purpose of a sword was for killing. Merciless Swordsmanship was developed to slay everything in its path.

"A person like him could very well be enlightened on swordsmanship and enter the Realm of Immortal!"

Nie Wushuang was exceptionally solemn. Immortal was above the Budding Realm. To break through to the Immortal Realm, one had to have the energy. Besides that, one had to gain the so-called "Dao" or conception.

Fire conception, Earth conception, Metal conception and others.

Other than the elemental conception, there was also the conception of swords.

As compared to elemental conceptions, the conception of swords was harder to achieve.

No sorrows, no happiness, no fear and no regard formed the basis of the Merciless Swordsmanship.

"Dragon King bestowed upon him the name of Roving Sword! Oh gosh! That supreme swordsman is, in fact..."

The statement of Roving Sword had started a lively discussion among the crowd.

What did he mean by that? Did he mean that he was the sword of the Dragon King and the subordinate of the Dragon King?

"The supreme swordsman is the subordinate of the Dragon King! Hehehehe!"

"This is the invincible Dragon King. Whenever I feel that the Dragon King is incredible, he ends up achieving more insane things!"

"A supreme swordsman as a subordinate and his name was bestowed upon him by the Dragon King... This has completely overturned my common sense. Who

in the world could possibly stop the Dragon King!?"

The crowd felt a little dejected by now. They had all thought that he might be the Dragon King's brother or maybe just a friend.

None of them would have ever expected him to be a subordinate of the Dragon King.

A supreme expert as a subordinate?

"Namo Amitābha. Various buddhas, please allow Emperor Qi and Nie Wushuang to emerge victoriously. I sincerely pray for it!"

Within the Devil Spirits Temple, the disciples shut their eyes and prayed sincerely with their bloody buddha beads.

The development had made the alliance of orthodox sects feel a little speechless.

A group of bloodthirsty devil monks believe in buddhas?

What the hell!

Nonetheless, they could understand the prayers of the Devil Spirits Temple. If Dragon King won, there would only be a single voice left in the Underworld.

Regardless, there were still some people who looked down on what the Devil Spirits Temple was doing.

"Kill! Kill the Dragon King and that Roving Sword! Sect Leader Nie Wushuang and Emperor Qi, kill them!"

At this moment, beside Dong Hua Sacred Sect, the young lord of Sea Serpent Island clenched his fist tightly and shouted.

At that instant, several dozens of thousands of people looked over. Seeing the contorted expression on the young lord of Sea Serpent Island and his father, they felt bewildered.

If the Dragon Sect wasn't annihilated, Hai Jiao would definitely die.

The young lord of Sea Serpent Island naturally knew about the outcome.

Therefore, he disregarded how people would view him and cheered for both Nie Wushuang and Emperor Qi from Diabolism.

Even so, all he was able to provide was emotional support.

"Senior brothers, those are the enemies of the Dragon King. Let's kill them all!"

When Mo Qinglong saw the young lord of Sea Serpent Island, he looked at him with contempt. He turned around and spoke to the five Dan Realm golden swordfish race experts.

The golden swordfish race belonged to the Dragon Palace and could be considered to be the same as the dragonians. Since they were stronger than him, Mo Qinglong didn't find it weird to call them his senior brothers!

"Alright, as you have said!"

Five Level 11 golden swordfish race experts nodded their heads emotionlessly and turned towards where the lord of Sea Serpent Island was standing.

A cold and ruthless light flashed across the eyes of Mo Qinglong while dense killing intent welled up within him.

"Hai Jiao! We will finish you off for the Dragon King right now!"

"Hai Jiao! We will finish you off for the Dragon King during this time!"

The great war between supreme experts on the Huashan summit had struck fear and awe into many people below. Those ancestral sect experts who had feuds with Dragon Sect were praying in consternation.

Yet, an icy bellow was heard at this time.

"What?"

Hai Jiao was slightly stunned, with a surprised and awful look.

All the surrounding experts in the Underworld were taken aback, too, as they spun around in astonishment. Upon seeing the disciples of Dragon Sect stepping forward, they all had a drastic change in expression.

"What is the Dragon Sect doing? Are they clearing away all their enemies?"

"The Dragon King and that middle-aged swordsman are battling with Sect Leader Nie Wushuang and Emperor Qi of Diabolism in the sky. Don't tell me the Dragon Sect is clearing their enemies below?"

"Hai Jiao is on their target board, and he's considered finished. He can only blame his son for it. If the Young Lord of Sea Serpent Island hadn't tried to kill the Dragon King, things would not have turned out this way. Death will be their ending!"

The surrounding crowd was discussing with horror when they saw Dragon Sect glowering at Hai Jiao.

Hai Jiao's expression took a drastic change, replaced with a malevolent look. He stared daggers at all the people from Dragon Sect with frenetic killing intent darting out from his eyes.

"Kill me? You guys want to kill me? I shall slaughter all of you here today, leaving nothing to remain for the Dragon Sect!"

Hai Jiao released murderous aura as the double horns behind him emerged in his hands.

Behind him, his subordinates were also staring coldly at Mo Qinglong and the rest.

"Now the Dragon King and the other supreme expert are engaged in fights. Yet, you guys are still thinking of killing us!"

The Young Lord of Sea Serpent Island also turned ferocious as if he was a completely different person.

Under the pressure of the two supreme experts, their mindset was somewhat twisted.

"Father, let's kill them all. All of them from the Dragon Sect! After that, we'll flee to the sea. I don't believe the Dragon King can find us!"

The Young Lord of Sea Serpent Island growled with insanity in his eyes.

"That's right. We'll run and hide in the ocean. Not even a supreme expert could find us. Since the Dragon Sect is trying to exterminate me, I'll retrieve some interest today!"

Hai Jiao strode forward with double horns clenched tightly in his hands. Behind him was the sound of tumbling waves.

All the surrounding people stared at the shocking move and gasped as they quickly give way to Hai Jiao and his gang.

"Hai Jiao and his son are crazy. They have gone mad!"

"Mad? How could he not go mad? Hai Jiao is a must-kill on the Dragon King's list. When either the Dragon King or the middle-aged swordsman emerge as the winner, the Underworld will belong to the Dragon Sect. Hai Jiao will not have any place in Underworld. When that time comes, he'll be doomed for sure!"

"He's not going to die in silence. Hai Jiao is going to put up his last resistance and fight back."

Seeing Hai Jiao and the Young Lord of Sea Serpent Island, all the people sighed.

He was the former second strongest in the Underworld who had enjoyed glorious moments, an unparalleled expert that no Sacred Sects would dare to mess with.

Now, he was forced to a point that almost drove him crazy.

"Hiak hiak, I'll wipe the Dragon Sect out. I'll see how the Dragon King is going to seek me out in the vast ocean."

There was manic killing intent on his face. Before Mo Qinglong and his gang could look for him, he stalked toward them instead.

"Apart from the Dragon King, Dragon Sect seems to have no other Dan Realm experts!"

"These disciples of Dragon Sect are simply insolent. They don't have any Dan Realm experts among them while Hai Jiao was considered to be the second strongest in the Underworld after all!"

"Seriously. Are the disciples of Dragon Sect going to get killed by Hai Jiao?"

The surrounding crowd was surprised as they watched how the event unfolded.

"Wuya, shall we strike too? Since Dragon Sect has no Dan Realm expert now, we can just eliminate them easily!"

Back at Donghua Sacred Sect, an old man clenched his fists tight with murderous intent in his eyes.

There was a constant mixed expression on Nie Wuya's face. He craned his head up and watched the war in the sky before turning to Mo Qinglong and the gang again.

Suddenly, his eyes were fixed on the members of the golden swordfish clan who were holding razor-edged swords in their hands.

Seeing their indifferent, unwavering expressions, his eyes narrowed.

"No, no. Those people look similar to the swordsman named Roving Sword!"

Nie Wuya took a deep breath with eyes fixated on them.

"Hur?"

That old man was slightly taken aback as he looked over his shoulder and sized up the Dragon Sect's members in bewilderment.

"Dragon Sect, I'll wipe you guys out completely in the meantime!"

Hai Jiao repeated what Mo Qinglong had said to him in the exact words as the water current began to circulate frantically around his body.

A daunting aura erupted, causing all the Martial Artists to stagger back in horror.

Seeing Hai Jiao walking over with guts, trying to kill them off, Mo Qinglong was slightly surprised, but there was a hint of sarcasm in his eyes.

"Senior brothers, that Hai Jiao is a Dan Realm expert. Please help us out!"

Mo Qinglong quirked his lips slightly as he spoke to the few golden swordfish beside him.

"Leave it to us!"

A golden swordfish nodded coldly. When they witnessed Hai Jiao and his men striding over with malevolent expressions, no emotions were found in their eyes.

"Go to hell, everyone from Dragon Sect! Fu\*k you all!" Hai Jiao growled ferociously as he strode.

The water energy was circulating madly around him. All the people within a few kilometers could hear the tumbling waves in the body of Hai Jiao.

Under such daunting pressure, Hai Jiao had exploded even stronger combat power than ever before.

"Hai Jiao's strength is scary!"

"He's too strong, way beyond any average Dan Realm expert. He's indeed the former second strongest in the Underworld!"

"Oh no, the disciples of Dragon Sect were acting way too brazen just like their Dragon King. They thought Hai Jiao would be wary of the Dragon King, and dare not strike. But even a rabbit will bite if it panics!"

Sensing the domineering strength from Hai Jiao, the surrounding crowd was looking shocked in their eyes.

However, more people were staring at the golden swordfish gang with their longswords in their hands.

Simply because they looked like Roving Sword. Could it be...

"Slaying Spiritual Sword!"

"Return of the Spiritual Sword!"

Just when all the people had their own thoughts, two icy cold voices were heard.

Just like the cold voice of the compelling swordsman in the sky.

A spiritual sword that was a hundred meters long lurched forward with unparalleled sharp radiance.

Another spiritual sword of the same size with the same sharpness darted out from behind and returned.

Two frightful golden radiances rushed out from the front and the back! The Return of the Spiritual Sword!

## (1)

Pa pa pa!

"What? This..."

"What a horrifying sword! I could barely control the longsword in my hand!"

In an instant, all the surrounding swordsmen felt their treasured swords shaking violently. They held onto their longswords in horror while looking ahead of them.

Two sword strikes. Charge and return!

They were from two different people.

Argh!

When the sword was released, the group of subordinates behind the Lord of Sea Serpent Island were instantly killed by the Returning Sword.

They couldn't put up any resistance at all. That terrifying edge easily penetrated their bodies.

"What?"

The Lord of Sea Serpent Island was flabbergasted. The moment the two swords appeared, a deathly threat had him surrounded and sent chills down his spine.

"No... Father, save me!"

At this moment, the Young Lord of Sea Serpent Island cried for help in horror.

"No! Dragon Sect, I won't let you off even if I die!"

The Lord of Sea Serpent Island held onto the two horns and roared loudly with a

contorted expression resembling a wretched demon.

Terrifying water energy was contained within the two horns. He spread both of his arms towards the approaching swords from the front and back.

The Charging Sword and the Returning Sword were simply too fast.

There was no time for the Lord of Sea Serpent Island to escape.

Moreover, he had his son with him. He couldn't just leave him behind.

Hai Long stood before the Lord of Sea Serpent Island, shivering in fear.

Rumble!

Two extreme swords emitted dazzling golden light that shrouded the Lord of Sea Serpent Island and his son.

"Argh! I'm not convinced!"

A blinding light exploded from where Hai Jiao was. The surrounding crowd couldn't help but shut their eyes and turn their heads around.

"Nothing! Nothing is left!"

At this moment, a surprised scream broke the silence. Everyone turned towards the location where the Lord of Sea Serpent Island was previously.

All of them were dumbfounded.

Nothing. There was indeed nothing left.

There were no signs of humans at all.

"The Lord of Sea Serpent Island was completely crushed by the sword swords! Not even his ashes remain."

A Dan Realm expert from a Sacred Clan was filled with horror as he looked blankly at where Hai Jiao was standing previously.

"What a terrifying sword glow. They... They are all terrifying Dan Realm

experts. Why would there be so many terrifying experts appearing from the Dragon Sect?"

A sect leader of a Sacred Sect looked in the direction of the Dragon Sect while shivering in fear.

The two middle-aged men that had struck previously put away their swords.

With a sword from each of them, they had killed the previous number two expert of the Underworld.

Gulp!

Everyone couldn't help but swallow back a mouthful of saliva.

"Is this the full strength of the Dragon Sect. How many Dan Realm experts do they have?"

Cold sweat broke out on the foreheads of some people.

Nie Wuya and the experts from Dong Hua Sacred Sect could feel their hearts palpitating violently as their vision dulled.

They were afraid that the Dragon Sect would target them now and annihilate the entire Dong Hua Sacred Sect.

They were even more afraid after seeing how terrifying the Dan Realm swordsmen from the Dragon Sect were. That would only mean that the supreme swordsman fighting with their sect leader was even more insane.

Would their sect leader win against that swordsman in battle?

"Amitabha. It's better for the Underworld to have fewer killings! Amitabha!"

At the location of Diabolism, all the devil sects could feel their hearts skip a beat when they witnessed the two experts from the Dragon Sect killing a powerful Dan Realm expert with a sword each.

Even the powerful Dan Realm experts from the Devil Corpse Palace were deeply fearful.

As for the devil monks from the Devil Spirits Temple, they could only recite "Amitabha" and pray.

At this moment, everyone in the crowd was looking towards Dragon Sect in fear.

"Too strong. Too strong. Even without the Dragon King, the disciples of the Dragon Sect could still crush the entire Underworld. No one would be a match for them!"

In a deserted area at the bottom of the tallest peak of Huashan, Xun'er had become the most frenzied fan of the Dragon Sect.

She exclaimed loudly with excitement.

The lady beside her pursed her lips and was filled with astonishment.

Despite the Dragon King being engaged in battle, the remaining Dragon Sect could still suppress the entire Underworld.

This was the most fearsome thing about the Dragon Sect.

"Oh gosh! Look! What's that? What's that? The void space is shattering! Their battles are shattering the void space?"

At this moment, an exclamation broke the silence and caught everyone's attention.

The crowd immediately looked over.

At this moment, Nie Wushuang and Roving Sword had entered into close-range battle mode in the air.

Within a radius of a thousand meters of their battle, dense sword glows filled the air.

Both their bodies were emitting golden rays like a blinding sun.

Each clash would crush the surrounding sword glows. The terrifying battle closely resembled the coming of Ragnarök.

Bam!

Once again, Nie Wushuang clashed together with Roving Sword.

Terrifying metal attribute energy tore an opening in the void space.

This tear was roughly a meter long.

When the tear appeared, even Nie Wushuang was filled with horror.

He looked in horror at the world within the tear in the void space.

Subconsciously, he recalled a record he had read in a secret book previously.

"Could it be?"

Nie Wushuang's eyes constricted as he shouted, "Argh!"

Bam!

It was another violent clash followed by Nie Wushuang and Roving Sword separating rapidly.

Huh?

Roving Sword had also noticed that terrifying tear in the void space. Doubt filled his eyes.

"Oh gosh! That's really a tear in the void space. It is said that when one reaches the Immortal Realm, he can rip a tear in the void space. Could their battle be the reason why the void space was ripped apart?"

Below the battle, the crowd couldn't help but exclaim after witnessing the tear.

This was a tear in the void space!

"A tear in the void space? No. Budding Realm experts would never be able to rip a tear in void space. Even Immortal Realm experts would find it to be extremely difficult to do so!"

The Dan Realm experts stared vigilantly at the one-meter-long tear. All of them were shocked.

Undoubtedly, there was indeed a tear in the void space.

Boom!

At this moment, Wang Xian controlled the Nether Skull.

From the eyes of the Nether Skull, extreme flames from the Inferno Divine Dragon and the will-o-wisps had coalesced. The combined flames were extremely viscous and thick as they swept towards Emperor Qi, who had used the Binary Corpses Co-genesis.

Rumble!

Emperor Qi's terrifying claws fell on the surface of the Nether Skull. The terrifying impact sent earth-shattering shockwaves across.

After each collision, a crack would appear before them.

A tinge of surprise and shock flashed in Emperor Qi's blood-red eyes. He pivoted and appeared a thousand meters away within seconds while staring at that tear.

Wang Xian also frowned as he observed the tear in the void space.

Their battle had torn the fabric of space?

Wang Xian was doubtful. The tear appeared for one second and disappeared in the next.

"Could their terrifying battle reach the level where they could rip apart the fabric of space?"

Seeing the cracks of space between the battle of Emperor Qi and the Dragon King, the crowd from the Underworld was dumbfounded.

# Chapter 543: Void Space Shattered?

## (2)

The battle stopped briefly because of the crack in the void space.

Nie Wushuang and Emperor Qi squinted their eyes as they peered at the location where the crack appeared.

As old freaks who had lived for over two centuries, they were much more knowledgeable than Wang Xian.

They had heard of some legends and secrets in the Underworld.

Given their current strength, it was impossible for them to make a crack in the void space.

There was only one possibility left if it wasn't the void space crack.

It was the crack of an array.

Nie Wushuang squinted his eyes and surveyed the surroundings with a grave expression.

Emperor Qi did the same thing, too, as he revealed a pondering look.

Wang Xian witnessed the diminishing crack in the void space, and his curiosity was piqued. Blue and red radiance began to flicker in his eyes.

Overwhelming energy filled the landscape.

Is it an array? Did our battle trigger some array over here? But this array should be a type of defense or concealing array!

Wang Xian used his Piercing Eyes to survey the surroundings and pondered to himself.

He stood on top of Nether Skull, looking towards Emperor Qi and Nie

Wushuang after coming out of the Nether Skull. "What is it? Do you guys know something about this?"

Emperor Qi looked at Wang Xian coldly without a word.

Nie Wushuang, too, replied with nothing as he swept cold gazes at Wang Xian and Roving Sword.

"Since there are no answers from both of you, let's continue!"

A tinge of a sneer flashed across Wang Xian's eyes. Nie Wushuang and Emperor Qi obviously knew something, but neither of them was willing to divulge anything.

Since neither of them spoke, then the fight shall continue.

He would be able to get some information after killing them.

Wang Xian submerged himself into the Nether Skull, and flames burst out from the skull once again.

The daunting flame from the Inferno Dragon and Nether Flame shrouded the area within a thousand meters.

Upon seeing the domineering flame exploded from Nether Skull, Emperor Qi had the same grave expression on his face again.

Clang!

Along with thousands of beams of sword radiance behind him, Roving Sword swung his longsword in the sky, pointing at Nie Wushuang.

"Phew, I must kill you!"

Nie Wushuang exhibited a resolute look.

There were two supreme experts in Dragon Sect. So long as the two remained alive, there would be a high possibility that Donghua Sacred Sect would get annihilated.

Hence, he had to kill one of them.

Nie Wushuang spun the long blade in his hand with the rings on it clashing against each other again.

"Kill!"

Killing intent surged in Wang Xian. When fighting with supreme experts, he needed to give his best, especially when he did not transform into a Divine Dragon.

Also, the strength of Emperor Qi was not as strong as he had imagined.

Compared to the Budding Realm Expert he had met in Dubai, Emperor Qi was weaker by little.

On top of that, the Nether Flame had a natural suppression for Emperor Qi. Wang Xian was confident that he could defeat Emperor Qi without turning into a Divine Dragon.

Even though most of the time he was just relying on the daunting power of the Nether Skull.

The skull that was almost six meters in size was burning with a frightful flame in the sky. Its mouth was wide open as it lurched forward toward Emperor Qi.

With Binary Corpses Co-genesis, Emperor Qi revealed a solemn look. He raised his scary-looking nails at Wang Xian and darted out.

At this time, he was facing the same plight as Nie Wushuang. There was no retreating.

Once he backed off, it would mark the failure of all of Diabolism.

The Underworld would belong to Dragon Sect, and Diabolism would have to hold the Dragon King as their supreme leader. Otherwise, they would be annihilated by Dragon Sect.

Therefore, he had to kill Wang Xian off so that Diabolism would not be under his suppression.

With one of the supreme experts from Dragon Sect dead, they could create a

situation of tripartite confrontation. At the very least, they would not need to succumb to anyone!

Boom boom!

Every strike of Emperor Qi's that landed on the Nether Skull sounded horrible as they left white traces on the surface of the Nether Skull.

Yet, the demonic aura was rapidly diminishing under the burning fire of the Nether Flame. Even the skin on his arm had turned gray.

"Today, I shall slay you, Dragon King!"

Emperor Qi revealed bloody-red, terrifying glow in his eyes with each blow that impacted the Nether Skull.

His body was spinning at a high speed around the skull. As a zombie, his physical strength was incredibly scary.

The Nether Flame followed like a shadow as it pounced onto Emperor Qi without stopping. The destructive power of the flame had caused the arm of Emperor Qi to be left with just bones. On the outside, it looked incredibly creepy.

Wang Xian stood within the Nether Skull, looking out at Emperor Qi with cold eyes.

Even if he dragged it on, he could undoubtedly bring Emperor Qi down.

"Binary Corpses Co-genesis, Heaven and Earth Crumple!"

After dodging the Nether Flame, Emperor Qi rose higher to the sky. In a split second, he had risen to an altitude of ten thousand meters.

From the audience's view below, Emperor Qi had already disappeared from sight.

"Binary Corpses Co-genesis, Heaven and Earth Crumple! It's that move. It's that move!"

At this time, a group of Devil Corpse Palace experts watched the disappearing of Emperor Qi in the sky with excitement in their eyes.

They fixed their eyes on the sky.

"Is this his best move?"

Wang Xian witnessed Emperor Qi lifting himself up while his body spun rapidly. He intended to swoop down with such a stance.

There were two arms and two heads glaring at him coldly. The demonic aura around him pumped up, just like a growing tornado. He was going to charge down at such frightful speed.

"What horror. He's going to swoop down from that height. In that case, both Emperor Qi and the Ghoul King could attack at the same time. With that horrifying spinning demonic aura that reached a few thousand meters high, it is as good as a tornado made by demonic aura."

Back on the land, everyone was focusing on the central position where the daunting demonic aura spun like a tornado, concealing the entire sky. It was about to strike from a high point in the air.

This was the true-blue devil that descended on the world!

"This could be the strongest move that Emperor Qi has. Does he want to determine the winner now?"

All the people from the crowd were staring hard at the sky with uneasiness.

"Since that's the case, let's give our last blow of attack!"

Wang Xian revealed a smile. Making a swift movement, he appeared below the Nether Skull.

With both Wang Xian's arms swinging, all the Nether Flame exploded out from the Nether Skull.

A bone-crushing sound was heard from the skull as though it was going to collapse at any moment.

Boom!

The Nether Skull charged out at Emperor Qi like a meteor.

Wang Xian was not concerned as to whether the Nether Skull would be damaged under such a formidable impact.

This thing was just a secondary weapon, and the Nether Flame in the skull would continue to dissipate in combat. Hence, it needed constant replenishment.

The only way to replenish it was at the cost of lives.

This was somewhat troublesome for Wang Xian.

"Destroy!"

Insane fighting spirit overflowed from the eyes of Emperor Qi. With domineering strength and demonic aura, he charged at the Nether Skull.

"You're no match for me!"

Meanwhile, Roving Sword's longsword was slashed down on the long blade of Nie Wushuang. The two of them staggered back for a thousand meters.

Roving Sword took a deep breath. With slow motions, he grabbed the longsword with both hands and pointed it at Nie Wushuang.

"I'll not be defeated!"

Nie Wushuang raged as golden beams of light fired out from his body!

# Chapter 544: Void Space Shattered

## (3)

"The outcome will be decided soon!"

"Oh gosh! The critical juncture is finally here. I wonder who will win!"

"From what the middle-aged swordsman said, Nie Wushuang isn't a match for him. Could it be that Sect Leader Nie Wushuang is about to lose?"

"The moment that will decide the fate of the entire Underworld has arrived!"

The sky was shaking and the crowd at the bottom of the tallest peak of Huashan looked at the catastrophic final battles above them in shock.

The battles had reached the most critical moment and the outcome would be known soon.

"There's no way our sect leader will lose. Never!"

Everyone in Dong Hua Sacred Sect mumbled to themselves as they looked up bitterly.

However, they had a bad premonition weighing over them. In the previous exchanges, that terrifying and merciless swordsman had the upper hand against their sect leader all along.

Moreover, they would probably have a good glimpse of the opponent's strength after such a long battle.

If the invincible swordsman claimed that Nie Wushuang wasn't a match for him, he should be at least seventy percent sure that victory was his.

This worried everyone in Dong Hua Sacred Sect.

Similarly, all the people of Diabolism looked fearfully towards the sky. Their backs were drenched in perspiration from anxiety.

"My sword will split the earth. My sword will shake the heavens. My sword will shock the world!"

"Rampaging Heaven and Earth Strike!"

All the golden hair on Nie Wushuang stood up like golden needles. The sword in his hands shook violently.

As the rings hit the blade, sounds of metal clashing reverberated.

Terrifying sword glows formed a violent storm of Heaven and Earth strikes.

The sword glow grew larger and larger to several thousand meters long.

This blade seemed capable of splitting the sky and earth.

The golden glow from the sword resonated with the metal on the ground.

"The pinnacle strike of the golden swordfish race!"

Seeing Nie Wushuang launching his strongest attack, Roving Sword was unmoved. He held on to his longsword with both hands.

Before the golden swordfish race had transformed into human form, they only knew a certain type of attack.

That was none other than lunging ahead with the terrifying bill to pierce through their opponents and enemies.

And now, Roving Sword wasn't using the Ancient Spiritual Sword Technique.

But the attack that the golden swordfish race had used millions and millions of times.

The pinnacle strike!

Holding the longsword with both hands above his head, he turned into a longsword and charged towards Nie Wushuang with tremendous speed.

The moment he charged forward, an illusory image of a golden swordfish could be seen around Roving Sword.

Just like an ancient god fish, he released an insane sword glow.

"Rampaging Heaven and Earth Strike, Slash!"

Nie Wushuang growled loudly and his voice reverberated throughout Huashan.

"They are going to clash! The outcome will be revealed soon!"

"That's too scary! Too scary!"

"Move back! Move back! My senses are telling me that the terrifying energy will even reach us!"

In the air, the terrifying energy of the Binary Corpses Co-genesis, Catastrophic Annihilation clashed intensely with the black flames of the Nether Skull.

The Rampaging Heaven and Earth Strike that shrouded the sky was about to crash into the blinding pinnacle strike.

Everyone's heart was in their throat.

Boom!

An explosion erupted and reverberated across the sky. Below them, the tallest peak of Huashan seemed to be cracking from the insane energy and pressure.

"The Nether Skull is cracking! However, Emperor Qi definitely can't withstand this strike!"

As Wang Xian saw, the Nether Skull was cracking slowly. For a Level 12 weapon to crack under pressure, one could imagine how insane the power behind that strike was.

"What?"

However, sounds of glass breaking could be heard at this moment.

To Wang Xian's astonishment, the sky above where Emperor Qi and the Nether Skull clashed was shattering like a piece of glass.

The crack this time was much larger than the one before.

It was as though their clash had broken the limits.

Argh!

Bam! Bam!

After a terrifying cry, Wang Xian could see Emperor Qi overwhelmed by horrifying attacks. As for the Nether Skull, it had completely cracked open under a unique form of energy.

"Shit! The spirit array of the Cauldron World has been broken by us!"

At this moment, Nie Wushuang's horrified voice resounded.

Wang Xian was alarmed and looked over immediately. At the place where Nie Wushuang clashed with Roving Sword, the void space had been split open completely.

Both of them were sucked into the crack.

Weng!

At this moment, Wang Xian felt an immense attractive force pulling him away.

It was as though he had encountered a black hole pulling his body.

Wang Xian was astonished but couldn't put up any resistance at all. His body was sucked into the cracks of the void space directly.

This greatly surprised him.

Screech, screech, screech!

The entire sky seemed to be tumbling.

The martial artists below were all shocked and dumbfounded.

"The space was shattered! The void space was completely shattered and the four supreme experts have been sucked into a different dimension!"

"This... What is this all about? What's the Cauldron World that Sect Leader Nie

Wushuang talked about at the very end? What is that?"

"Oh gosh! The shattered space is fixing itself gradually. Could it be that Sect Leader Nie Wushuang, Emperor Qi, Dragon King and that swordsman have entered a different world?"

All the martial artists of the Underworld were shocked.

Bewilderment!

Bewilderment!

The sky was shattered like a piece of glass in the battles between the four supreme experts. Four supreme experts were sucked into it directly.

This...

This...

Before the astounded eyes of the people, the glass-like space was recovering and gradually returned to how it had been before.

The sky was clear once again.

Weng!

At this very moment, the entire world seemed to be shaking. In the vast sky, a cauldron hovered in the air.

However, it disappeared the next instant.

Everyone looked blankly at this mystical scene with their jaws dropped.

"The nine cauldrons! That's one of the nine cauldrons that stabilized the nation in the past and have since disappeared!"

Nie Wuya looked blankly at the space that was self-repairing, the appearance and disappearance of the cauldron. His eyes widened as he mumbled to himself.

"Nine cauldrons? Sect Leader has gone missing? What kind of space is that? Where would it lead to? What could that place be?"

An old man beside Nie Wuya couldn't contain his doubts and roared loudly.

"In the Xia Dynasty, the nine cauldrons were forged. In the past, the nine cauldrons stabilized and ensured the stability of the country. In the legends, each cauldron was a terrifying immortal item!

"However, the nine cauldrons disappeared a thousand-plus years ago. The Sect Leader once told me that it wasn't just the nine cauldrons that disappeared. The Immortal Sects also disappeared!"

Nie Wuya mumbled and didn't hide anything he knew. His voice resounded throughout the crowd.

"What's an Immortal Sect? Could there really be real immortals as recorded in the legends? Could it be there's a different world that coexists along with us?" a middle-aged man exclaimed loudly.

"An Immortal Sect wasn't rare in ancient times. The reason why they were called Immortal Sects was because they had an Immortal. Those above the Budding Realm are known as Immortals. Based on what our Sect Leader has told me, the Immortal Sect brought along the nine cauldrons to gather spiritual energy and left behind the world to avoid the Age of Dharma Decline!"

# Chapter 545: The World of Nine Cauldrons

The highest peak of Huashan was now in a mess.

The peak that was in the clouds had been shortened by more than a thousand meters while the entire mountain had a horrible-looking crack.

Back at the foot of the mountain, everyone looked in the direction of Donghua Sacred Sect in silence. As the breeze ran across their skin, it brought hair-raising chillness.

"Space was cast aside without any worldly care to gather the Spiritual Energy. It was a way to avoid the Age of Dharma Decline!"

Nie Wuya gravely continued his speech. "According to the legend, the experts from the Immortal Sects sensed the diminishing Spiritual Energy of Heaven and Earth. For the development of Immortal Sects, they used the Immortal Treasure, Nine Cauldrons, to set aside a space. This space that was guarded by Nine Cauldrons, gathering all the Spiritual Energy, has turned into the legendary Immortal Realm. I guess Sect Leader and the rest have entered the Nine Cauldrons' Worlds!"

"The so-called Nine Cauldrons' Worlds are separate lands of peace that are isolated by the arrays?" asked the old man beside Nie Wuya in a murmur.

"Each of the Nine Cauldrons sets aside a world, and Nine Cauldrons set aside nine worlds in total. That is to say, there are nine independent Immortal Realms within and around our country!"

Nie Wuya nodded his head slowly.

"Can't the people from the Nine Cauldrons' Worlds come out? Or can't we enter into the Nine Cauldrons' Worlds?" a Dan Realm expert from a Sacred Clan could not help but ask.

"I don't know. I really have no idea." Nie Wuya shook his head in bitterness.

"The Nine Cauldrons guard nine separate worlds that are namely Xuanyuan, Ji, Huang, Yao, Shun, Yu, Tang, Xia, and Yong Chang. As the Nine Cauldrons gather Spiritual Energy, the cultivation speed within the world is faster by four to five times as compared to the outside world. Within Nine Cauldrons' Worlds, there are many experts, including those in the Immortal Realm. Access to these worlds has been closed since three hundred years ago. It was impossible to enter the Nine Cauldrons' Worlds. That also marked extreme difficulties for people to come out as well. Unless you have the Immortal Treasure, along with Immortal prowess, you will not be able to walk out of Nine Cauldrons' Worlds!" [\[1\]](#)

"However, the Nine Cauldrons have been suppressing the Spiritual Qi for over a thousand years. When there is insufficient energy for the Nine Cauldrons to gather, there will be a day when the Nine Cauldrons' Worlds will emerge once again!"

Suddenly, a graceful yet haughty voice was heard, stunning everyone. All of them looked to the source of it.

A girl beside the Guild Leader of Sacred Followers Guild lifted her chin as she spoke with pride. She seemed to be flaunting her knowledge.

"Hehe, my disciple knows everything from astronomy to geography!" the Guild Leader of Sacred Followers Guild explained to everyone with a smile.

"What does a kid know?"

An Inborn Expert of Donghua Sacred Sect pouted in disbelief.

"Who is the kid here? Who said I don't know anything? This world over here at Huashan is called Yong Chang. There are three Immortal Sects in it which are called Yong Chang Immortal Sect, Immortal Slaying Sect, and Da Hong Immortal Sect. Hmph, shut your mouth if you don't know anything!"

Upon hearing someone challenging her, the lass was so furious that she growled at that Inborn Expert.

"You lass..."

"Dong Wen, shut up!"

Before that Inborn Expert could finish his sentence, he was cut off by Nie Wuya's cold bellow. This caught him by surprise as he quickly kept his mouth shut and looked over.

He saw that Nie Wuya had disbelief in his eyes, staring at that little girl with glistening eyes. "Yong Chang, Immortal Slaying, and Da Hong were not fictitious sects made up by the ancient people?"

"Of course not! Not even Penglai Immortal Island. That's the place guarded by Yu Cauldron. You bunch of ignorant fellows, what do you know?" [\[2\]](#)

The little girl did not give any face to Nie Wuya as she spoke with contempt in his face.

However, Nie Wuya's emotions were stirred up, and he did not mind her rudeness. He murmured, "Little did I expect what Sect Leader told me to all be true! It's real!"

"Immortal Sect, there are Immortal Sects in this world. What do the Nine Cauldrons' Worlds look like?"

Some of them mumbled as they craned their necks to look up at the sky above Huashan. There lay a hidden world known as Yong Chang!

"Could the immortals who can ride on swords and kill someone from a thousand miles away, driving on a cloud and somersaulting a thousand miles...could they really exist?"

Some of the people were looking forward to it.

"Little girl, do you think our Sect Leader has a chance of coming out from the Yong Chang World?" asked Nie Wuya with a solemn expression after taking a deep breath.

"If he was not killed by that swordsman, I guess he should have a chance of coming out!"

The little girl was not very sure, so she casually mentioned it. "After all, he has

already advanced to the Budding Realm and is considered to be an expert in Nine Cauldrons' Worlds. But it is uncertain when he will come out. Maybe a few years or even more than that. It should be soon!"

"Is that so?"

Nie Wuya and all the people from Donghua Sacred Sect felt relieved. The group from Diabolism also wiped the sweat away from their foreheads.

"Looks like the Nine Cauldrons' Worlds are not as scary as one imagined. There are supreme experts everywhere!"

"Sect Leader Nie Wushuang, Emperor Qi, Dragon King, and the middle-aged swordsman already possess daunting powers. If they are not considered experts in that world, that would be too scary."

"Someone above the Budding Realm is known to be an Immortal. That means to say, there are Immortals and Immortal Sects in these worlds. Perhaps the Inborn Experts are everywhere, and Dan Realm Experts make up the highest number of people there."

"That would be too crazy. Nine Cauldrons refer to nine worlds. I wonder what kind of worlds they are, and what kind of encounter Sect Leader Nie Wushuang will be met with."

Everyone was discussing fervently as the Nine Cauldrons' Worlds opened a new horizon for them.

"Nine Cauldrons' Worlds are too far from us!"

Nie Wuya and the rest of the experts looked blankly at the sky above Huashan.

"Let's postpone the battle between the orthodox sects and Diabolism. From now on, we will not cross each other's paths. If you dare to provoke us, it will be the time when a bloodbath arises in Underworld!"

Nie Wuya paused for a few minutes as he called out while looking in the direction of Devil Corpse Palace.

"Fine. Diabolism will not attack anyone from the alliance of the orthodox sects

within the next five years unless you guys attack us first. That goes without saying..."

An expert from Devil Corpse Palace pondered as he nodded while looking at all the experts of Diabolism.

Now they had a pact for five years.

"Great!"

At the same time, all the experts from the alliance of the orthodox sects and Diabolism looked toward Dragon Sect.

The reason for the peace between orthodox sects and Diabolism was because of the uncertain factor, Dragon Sect.

Now, the three forces were restraining one another.

"The day our Dragon King returns will be the day Dragon Sect fights the Underworld!"

Mo Qinglong lifted his head and spoke to them in a flat voice.

Phew!

Upon hearing Mo Qinglong, Donghua Sacred Sect and Diabolism heaved a sigh of relief.

It's a good thing for you guys, Dragon Sect, to stop finding our troubles.

Regardless of the alliance of the orthodox sects or Diabolism, they were all wonderstruck by Dragon Sect.

The two swordsmen with Charging Sword and Return Sword had killed the former second expert in the Underworld within split seconds.

None from the Underworld could take on such formidable swordsmanship.

From then on, since Nie Wushuang, Emperor Qi, Dragon King, and the middle-aged swordsman entered the Yong Chang World through the crack in the air, the Underworld split into three forces pinned against each other.

# Chapter 546: Arrival Of The Dragon!

"The Underworld will likely have a peaceful period for some time!"

"That's right. Everyone will probably be wary of the Dragon Sect. Damn! The strength displayed by the Dragon Sect today is truly insane!"

"Towards the end of the battle, it was clear that Sect Leader Nie Wushuang had lost. Also, it was impossible for Emperor Qi to win. This was because the Dragon King was still standing a thousand meters away while watching the battle develop."

"If it wasn't for the void space shattering today, the Dragon Sect would have ruled supreme. How did the Dragon King get so terrifying? He's just going to be twenty-one years old this year!"

"When the Dragon King returns, the Underworld will likely be under the Dragon Sect!"

"I wonder...when will the Dragon King and the rest return?"

"Hehe! It's actually pretty good to have the Dragon Sect and Dragon King. Those they have killed were those that offended him or were from Diabolism. The Dragon King has not killed an innocent without reason. For small characters like us, there's nothing bad about this!"

After the battles of the supreme experts at the tallest peak of Huashan, all the martial artists in the Underworld didn't stay for long as they headed for the exit.

The crowd discussed what had happened today excitedly.

The major battles today had greatly enhanced their views of the world.

Mo Qinglong and the rest from the Dragon Sect took a further glance at the space that the Dragon King had been sucked into. The next moment, they took flight and headed towards Rivertown.

Protect the Dragon Sect till the Dragon King returns!

As dragonians and members of the Dragon Palace, they could still sense the existence of their Dragon King. This would mean that the Dragon King had not died.

As long as the Dragon King was alive, they believed that he would return soon.

They weren't worried about it in the slightest.

Soon, all the martial artists of the Underworld had departed from the tallest peak of Huashan. What was left was the ruined tallest peak of Huashan, which had cracked, and destruction that spanned over a thousand meters.

Amidst the mountain range, the land looked uniquely wretched.

"Who would have expected that guy to be so strong! Budding Realm! Even my other brothers are a far cry in terms of talent compared to him.

At the foot of the mountain of Huashan, two people remained. One was a young girl while the other was the guild leader of the Sacred Followers Guild.

"Hehe! I had not expected the Dragon King to have such exceptional talents either. It's truly frightening. Hehe. Xiaoxiao, do you think the Dragon King could become an Immortal?" the guild leader of the Sacred Followers Guild asked that little girl.

"There's a high possibility..."

That little girl was recalcitrant but it was hard for her to not be convinced by Wang Xian. She pouted and added, "I do feel that the middle-aged swordsman has a higher chance of reaching the Immortal Realm. His swordsmanship is really powerful!"

The guild leader of the Sacred Followers Guild nodded his head silently before asking, "Shall we go in?"

"Yes, master. Just follow me back. After all, it won't be long till we can enter and leave as we wish. Cultivation there will be four to five times quicker than here. At locations where the Immortal Sects are, it will be seven to eight times quicker. Since we have gathered the required information, let's get back!"

The little girl nodded her head, held onto the hands of the guild leader of the Sacred Followers Guild and answered.

"Alright, I'd like to take a look at the legendary land of the Immortals, the world of Yong Chang.

The eyes of the guild leader of the Sacred Followers Guild were filled with anticipation.

"Hehe! Let's go then!" the little girl replied with a smile. In her hands, she held several iPads. In them, there was a range of information on the current society.

This was something that her father had asked her to gather when she was sent to modern society. This was done in preparation for when Yong Chang descended on the current world.

They were various bits of information on the current lifestyles and their technology.

The little brat led the guild leader of the Sacred Followers Guild to the peak of a mountain and rubbed a blue spiritual item on her neck.

Weng!

Suddenly, two pairs of terrifying arms appeared. Four palms with fiery-red gloves ripped apart the space of an area.

"Xiaoxiao, hurry!"

A voice came from the other end. The little girl jumped in immediately without hesitation.

The guild leader of the Sacred Followers Guild was shocked to witness this. Four huge hands had ripped apart the space directly. He had no doubts that the energy in those hands could easily crush him to death.

Pa Pa!

When he entered it, he fell towards the land immediately.

The guild leader of the Sacred Followers Guild was surprised to see the two pairs of fiery-red gloves being destroyed by the spirit array instantly.

While he was still in shock, a huge flaming palm appeared below them and led them towards a direction.

All these actions were like those one would envision of an Immortal.

What the little girl didn't know was the exorbitant price of entering the Yong Chang world.

Although four to five Budding Realm experts could rip apart space, they would suffer terrifying attacks when they entered.

The intensity of these attacks would be dependent on the strength of the martial artist.

Even the powerful Immortal Realm experts wouldn't dare to. This was because the fatality rate was ninety percent and no one would like to take this risk.

As for the two pairs of flaming gloves that had exploded previously, those were Level 12 Spiritual equipment.

This was the price for allowing the two of them to enter.

Just a while ago, Wang Xian had suffered attacks from the spirit array as he entered. The terrifying force sent chills down his spine.

The destructive attacks made Wang Xian feel like he was going to be torn apart.

However, Wang Xian was a divine dragon after all and had the body of a divine dragon.

Before he felt he would collapse, he realized he had made it through.

Nonetheless, his body was severely injured by the attacks. Before he could exhaust dragon energy to heal himself, he lost consciousness and fell to the ground.

Yong Chang world was the world suppressed by the Yong Chang Cauldron. The

entire world wasn't huge and was roughly the size of a large province in China.

Or roughly the size of South Korea.

There were three Immortal Sects in Yong Chang world and they were Yong Chang Immortal Sect, Immortal Slaying Sect and the Da Hong Immortal Sect.

Yong Chang Immortal Sect specialized in fire attribute, Da Hong Immortal Sect specialized in water attribute, and Immortal Slaying Sect was known for their Metal attribute sword cultivators.

Together with the three Immortal Sects were seven to eight smaller sects.

Da Hong Immortal Sect was located in the middle of a mountain range. The tallest mountain could reach a height of roughly five thousand meters, which was twice the height of Huashan.

Rumbling sounds were incessant throughout the mountain range where Da Hong Immortal Sect was located.

Waterfall! There are waterfalls everywhere that start from the highest peak.

Chirp chirp chirp!

Spiritual birds flew in the sky. The water of the waterfall was exceptionally clear with fishes occasionally emerging.

Birds swooped down from the sky and scooped the fish away as prey.

Bam!

A bird that was entirely white and almost a meter in size stood at the highest peak while staring vigilantly at the fishes before the waterfall.

Just as it was about to swoop down, a figure dropped from the sky. The white bird was shocked and stared blankly at that figure which floated down the waterfall.

"Splitting the water while maintaining the water in its position for five seconds is the benchmark of gaining great mastery of Da Hong Sword Technique. The

results of all your assessments previously are generally below average. Practice diligently over this period!"

Below a waterfall, a lady stood in the middle and the water separated onto two sides automatically.

Around her, several twenty-odd-year-old young men and girls held longswords in their hands while slashing at the waterfall.

Argh!

At this moment, a horrifying scream resounded. A girl was horrified to see a figure falling from the waterfall before her.

The arrival of the dragon!

# Chapter 547: Genius? Demon? (1)

"Mum, why did you bring him home? It's such an inconvenience to have a guy living in our house!"

"We don't even know who he is. Don't you think it's inappropriate to have him in our house? He almost startled me to death today!"

"Let's find out where he comes from and send him back immediately!"

While Wang Xian was in a trance, he heard a female voice. He frowned as he made a slight movement. His entire body was in pain as though it was going to break at once.

Self-healing with Dragon Energy!

Wang Xian made a thought.

[Self-healing will consume 1.97 million points of Dragon Energy. Continue?]

"Damn, why is it so expensive again?"

Wang Xian twisted his expression a little. With a thought, he checked his own injuries and decided to use 500,000 points of Dragon Energy for a simple treatment.

"Ling'er, since he fell in Mt. Fengyu, we cannot leave him there. I'll get an ancestral sect to check his identity and send him back!"

"In order to treat him, we have already consumed a lot of resources from Mt. Fengyu!"

"Well, well. Stop speaking, lass. If your strength can achieve advancement, our Mt. Fengyu will definitely receive more resources!"

"Mum, I'll work hard..."

The voices outside continued to confuse Wang Xian.

Where is this place? Void space shattered? Did I come to the world within the array, or...?

All sorts of thoughts flashed in Wang Xia's mind. He remembered the last battle scene clearly, when he was sucked into the array when it gave way.

Argh!

"Mum, he's up. He's awake!"

Just then, a voice came screaming again, which Wang Xian found somewhat familiar.

Subsequently, Wang Xian saw a lady and a girl walking toward him.

The lady was charming, and he could only tell that she was mature and well-developed through her figure. There were no signs of aging on her face.

The girl was around 22 to 23 years old, and she resembled the lady a lot. Yet, she was glaring at Wang Xian now with a face full of displeasure.

Both of them wore some ancient clothing, which was unlike the modern style.

"Are you awake?"

The lady looked to Wang Xian as she flicked her finger, sending a stream of water current into Wang Xian's body.

"Are your injuries serious? Which sect are you from? I'll get someone to send you back," said the lady, looking at Wang Xian.

Wang Xian froze for a moment as he did not answer the question of the lady, "Where is this place?"

He spun his head around, studying the surroundings as he asked with confusion.

"This is the Da Hong Immortal Sect. Which sect are you from? Immortal Slaying or Yong Chang? Or some other smaller sect?" asked the lady to Wang Xian plainly as she walked to the bed.

"Da Hong Immortal Sect? Immortal Slaying? Yong Chang?" Wang Xian

continued with his quizzical look.

He felt like he had really entered into a strange world within that array.

"Don't tell me you have amnesia? And you forgot which sect you are from?"

Seeing his reaction, the girl at the side stalked over and scrutinized him.

Looks like I have really entered into the world within the array!

Wang Xian stared blankly at the ancient character embroidered on the girl's clothes as he was in a trance.

"Hey, I'm asking you a question? Did you lose your memory? Or are you a mute?"

The girl was displeased and yelled at Wang Xian since she could not get any answer from him.

Wang Xian looked up to that girl. "I think I lost my memory!"

The girl almost choked upon hearing his answer. This was the first time she saw someone admit that they had lost their memory in such a relaxed manner.

Is this how someone with amnesia should act?

"Mum, look at him. He doesn't seem to be a good guy, and he does not have amnesia. He clearly wants to..."

The girl stared at Wang Xian furiously as she spoke to the lady beside her.

The lady furrowed her brows slightly as she looked at Wang Xian. "Don't you know Da Hong Immortal Sect, Immortal Slaying Sect, or Yong Chang Immortal Sect?"

"I have no idea." Wang Xian shook his head and continued voicing his doubt. "What is this place?"

"We're at Yong Chang. What do you remember?"

The lady fixed her flickering eyes on Wang Xian.

"Yong Chang? My name is Wang Xian, and others call me the Dragon King!"

Yong Chang? Wang Xian continued to look perplexed. Where is Yong Chang exactly? A world within the array?

"Dragon King? Can you tumble the river or overturn the sea?"

The girl was slightly stunned by Wang Xian's words, but subsequently, she rebutted him with contempt.

"That's enough, Ling'er. Wang Xian, right? Take a rest now and see if you can recall anything. You may stay here for the time being!" said the lady to Wang Xian as she tugged the arm of the girl and dragged her out.

"Mum, he's obviously lying. Amnesia? He doesn't look like he has lost his memory to me!"

"He's not lying. He really has no idea of where this place is."

"Don't tell me he fell from the sky?"

"He can't be from the outside world. No outsider can come in. He probably lost his memory!"

"Hmph, I think he's a bad guy, probably got chased by some people, and ran into our place for hiding!"

Wang Xian chuckled bitterly as he overheard the scarcely audible conversation from the outside.

"It seems like this is the world within the array, Yong Chang? They knew about the outside world, so we're still on Earth. That's close.

"If I'm not wrong, that lady should be a Budding Realm Expert, while the girl is an Inborn Expert.

"Da Hong Immortal Sect!"

Wang Xian murmured with radiance flickering in his eyes.

....

Bam!

"Take your medicine!"

Two days later, a teacup was slammed onto the table in front of Wang Xian while the girl instructed him with impatience.

"Thank you!"

Wang Xian smiled at the girl as he put down his book and spoke impassively.

"Hmph, since you're not disabled, do you expect me to send you medicine all the time? Can't you take it yourself?"

The girl snorted at Wang Xian with displeasure on her face. Subsequently, she turned around impatiently and left.

Looking at the teacup on the table, Wang Xian picked it up with a beaming face and drank it in one shot. Then he picked up his book once again.

In the book was written four ancient words: Great Way Yong Chang!

Wang Xian took two days before he finally got some understanding of this place.

Yong Chang World was suppressed by Yong Chang Cauldron, and it was the legendary Immortal Realm.

The world possessed Immortal Sects over here with legendary Immortals, and dharma.

Wang Xian stood up and gazed far ahead.

The place he was staying at was half-way up the mountain, surrounded by the sound of waterfalls.

One could see experts flying in the air on their swords some distance away.

That's right, they were flying on their swords.

Over here, the Inborn Experts could fly on their swords; Dan Realm Experts could ride the clouds; Budding Realm Experts could dive into outer space.

"There's a complete cultivation system over here, and the Art of Cultivation is way beyond what the Underworld has. On top of that, there are experts in the Immortal Realm that have surpassed the Budding Realm over here."

With glistening eyes, Wang Xian studied his surroundings.

All along, Wang Xian had wanted to learn the attacking means, and master the real cultivation art. Now, the chance was here.

"Coming here was a good opportunity for me!"

Wang Xian curved his lips slightly.

# Chapter 548: Genius? Demon? (2)

"Dripping Water Space!"

"Dripping Water Earth!"

"Dripping Water Stone!"

"Raining Swords!"

"Stone Splitting Rain!"

Evening. The sun lay diagonally across the horizon. A beautiful rainbow hung over the surrounding waterfall.

Halfway up Mt. Fengyu, a girl stood on a piece of empty land while waving the longsword in her hand constantly.

Another lady stood by the side and watched the girl practicing her swordsmanship silently.

"Liquid state and gaseous state. Incredible! This level of control and sword technique...!"

A short distance away, Wang Xian sat behind a table. With a book in his hand, he was shocked to see the girl waving her sword.

The swordsmanship of the girl had truly opened a new door for Wang Xian.

In the Underworld, he had not encountered such incredible swordsmanship.

Water can exist in liquid, gaseous and solid states. Solid states include ice, snow, frost and hail. Liquid states would include clouds, rain, mist and dew while the gaseous state would include water vapour. In different forms and states, they will have different effects, attacks and damage. Yu Ling'er's incorporated sword into rain and sword into the mist. Each transformation has different effects. For example, the penetrative force of rain and the illusory effects of mist!

Looking at Yu Ling'er, Wang Xian had lots of thoughts. In his hand, a ball of liquid appeared. Under his control, the liquid separated into droplets of water.

Following which, it vaporised, condensed into water, turned into snow, turned into frost, turned into ice and eventually hail. All these were transformations of ice.

"In the past, I have rarely used water attribute because the offensive potency is a little weak. It might be better as a supporting attribute. However, it would seem that this was only because I do not know how to use them!"

Wang Xian sank into deep thought. After the ball of liquid transformed, how could he maximize the offensive potency?

"Spiritual Water Lance!"

At this moment, Wang Xian saw Yu Ling'er lunging ahead with the longsword in her hand. A stream of water flowed rapidly in her hands.

Before the longsword contacted her target, the water flow on it attacked the target over a dozen times.

When the longsword arrived, it easily penetrated the mountain rocks.

I can't understand by watching alone. It would be best if I could join the Da Hong Immortal Sect. In this way, I could obtain more battle techniques and more application techniques!

"Incredible swordsmanship. You are really great!"

After seeing Yu Ling'er practicing for a while, Wang Xian walked over while piling compliments on her.

"Tsk! What do you know about this?"

Seeing Wang Xian walking over with pleasantries, Yu Ling'er lifted her head proudly and remarked.

"Although I can't really understand, I can tell that Miss Yu'er is really great with swords!"

Wang Xian smiled and didn't take offence. He turned to the lady and asked, "Aunt Yu, can you teach me this swordsmanship too? Can I join the Da Hong Immortal Sect?"

Huh?

The lady frowned upon hearing Wang Xian. Over the last two days, she was also pondering over how was she going to handle this unfamiliar young man.

After two days of observation, she noticed that this young man didn't know about a lot of things. He had likely lost part of his memory.

"It isn't that easy to join Da Hong Immortal Sect. You need to have the talents and strength. Before your strength reached the Inborn Realm, you would have to start with being an ordinary disciple. Why don't you go for the assessment of ordinary disciples? They are located at the entrance of Da Hong Immortal Sect. After you pass the assessment to become an ordinary disciple, the sect will allocate you accommodation!" Yu Ling'er interrupted upon hearing Wang Xian.

Clearly, she wanted Wang Xian to leave this place as soon as possible.

"Just as Yu'er has said, you need to start with being an ordinary disciple to join Da Hong Immortal Sect. After you reach the Inborn Realm, you will then be considered as truly part of the sect. You can choose a mountain sect of your choice. Each mountain sect will have a mentor. If you wish to join Da Hong Immortal Sect, you can consider taking part in the assessment." The lady looked at Wang Xian as she explained.

"Inborn Realm?"

Wang Xian nodded his head slightly.

"Yeah, Inborn Realm! I started cultivating when I was eight and used ten years to reach the Inborn Realm. If you work hard now, you should be able to reach the Inborn Realm by the time you are forty years old."

Yu Ling'er smirked and commented with a little contempt.

The lady by her side patted her head.

"It's fate that brought us together. After you recover from your injuries, I can look for a job in Da Hong Immortal Sect for you. If you reach the Inborn Realm one day, you can join Mt. Fengyu."

The lady smiled and spoke to Wang Xian.

"We'll probably have to wait ten years then!" the girl by the side mumbled softly.

Wang Xian smiled in response. He moved his arm and a water sword appeared in his hand instantly. He threw it out and the water sword landed accurately on the wall Yu Ling'er was practicing with previously.

"You don't have to wait ten years. I've realized I still have some strength!"

Yu Ling'er was stunned and so was the lady.

They would have never have expected Wang Xian to be an Inborn expert.

When he was injured, the lady had examined Wang Xian's body. However, she didn't sense any water energy.

"You are a cultivator? And a water attribute cultivator?"

Yu Ling'er couldn't help but exclaim. Her eyes widened and were filled with disbelief.

"Yep!"

Wang Xian opened up his palm and water energy coalesced into a water sword. As he waved the sword, dense water energy scattered to the surroundings.

"Inborn Realm! Considering you can coalesce water energy into a water sword so easily, you are at least at the Inborn level!"

The lady was pleasantly surprised.

Yu Ling'er was surprised too but snorted coldly. "Tsk! So what if he's at the Inborn level! I am too!"

"Aunt Yu, can I join the Da Hong Immortal Sect?"

Wang Xian took a glance at the girl and revealed a faint smile.

"Yeah, of course you can!"

The lady nodded her head. Still feeling a little surprised, she said, "I'll bring you to the sect to register tomorrow. Yu'er, bring a copy of Da Hong Immortal Sect's swordsmanship to your future junior brother!"

"Alright."

Yu Ling'er pouted as she answered.

The lady was smiling radiantly as she added, "I had not expected you to be a water attribute Inborn expert. You can just address me as Mentor Yu in the future!"

"Yes, Mentor Yu!"

Wang Xian nodded his head and turned his gaze to Yu Ling'er.

"Call me senior sister in the future. Here's the swordsmanship chapter!"

Seeing Wang Xian looking at her, Yu Ling'er pouted and handed a secret manual to him.

"Thank you!"

Wang Xian smiled and took the secret manual. After which, he walked to the table by the side and started reading.

The lady smiled while watching. She was rather appreciative of Wang Xian's indifferent personality.

Water could encompass all things. The cultivation path of water and the cultivation path of water swordsmanship required a calm and composed personality. Otherwise, one would find it hard to achieve great mastery.

She knew her daughter had a bad temper.

Who would have expected it would be so easy to join Da Hong Immortal Sect and obtain their cultivation arts? My incredible life in Yong Chang world is

about to begin.

Looking through the secret manual in his hands, Wang Xian revealed a faint smile.

With his current Budding Realm strength and his control over the water attribute as a five elements divine dragon, practicing any battle techniques would be a walk in the park!

# Chapter 549: Genius? Demon? (3)

"Water morphology analysis!"

"Water transformation!"

"Swordsmanship, the Technique of the World!"

Da Hong Immortal Sect's swordsmanship secret manual summarized the forms, transformations of the water, and the swordsmanship!

Just like Wang Xian had guessed, there were three states, which included solid, liquid, and gaseous states. But in addition to these three states, there was another state: boiling state.

Water could turn into ice, but it could also raise its temperature.

There was another method for refining equipment and elixirs known as the Water Refining Technique.

Apart from the flame, water was the only attribute that could refine elixirs and equipment.

Things would develop in the opposite direction when they become extreme.

The swordsmanship in the Underworld is known as Art or Stroke. But the swordsmanship of Da Hong Immortal Sect is known as Technique, or Method, Battle Techniques!

Techniques and Strokes are different. In the novels, the art of drawing the swords is simply impressive. With a sword radiance, the enemy dies instantly. However, it is clearly a childish move before Techniques.

Just like drawing the sword, you need to stay close to your enemies and strike them by surprise. But the Sword Techniques could directly kill you, even at a distance of a thousand meters or farther away from you.

Think about it. No matter how impressive you draw your swords, it's not as great

as killing enemies at a few hundred meters away!

This was already beyond the average Underworld's combat but was elevated to the battling of techniques.

Da Hong Immortal Sect's Sword Technique is divided into four realms which are namely Small Mastery, Great Mastery, Pinnacle, and Attainment. The Inborn disciples who can achieve Great Mastery are top-notch talents; Dan Realm experts who achieve Pinnacle are considered to be impressive; Budding Realm experts can advance to Attainment. These Budding Realm experts could be ranked at the top.

Sword Techniques have myriad variations, and attack means which one cannot imagine. Small Mastery Sword Techniques will need to master the gaseous state; Great Mastery will master the liquid state, and Pinnacle will be solid-state. Attainment will master the boiling state. When the four states of water combine into one, there's a chance of reaching Sword Intent and advancing to become an Immortal.

Wang Xian read the introduction in the secret manual with eyes full of excitement.

Night came without a sound. The moon and the stars over here were no different from the outside.

The room that Wang Xian was staying in was not an isolated room; the hall was just beside it, while Yu Ling'er stayed upstairs.

Wang Xian walked out of his room. His body had not fully recovered from previous injuries. As such, he could at most explode Dan Realm strength in any battles.

He took the secret manual to the yard and spotted a longsword on the table.

He swung his arm.

Clang!

"The sword is not bad, but it's not an Inborn Spiritual Weapon!"

Wang Xian drew the sword, and phantom images appeared in front of him when he swung his arm.

The use of the water states was mainly to confuse the opponent such that countless moves could be played in one strike.

Illusory sword represented a Small Mastery of Sword Techniques.

Illusory sword could cause damage, but it was much weaker as compared to a real longsword.

In addition, the use of water vapor could control the longsword. That is, to the point of flying on it.

However, this would require a strong control of it.

Wang Xian waved his arm and suspended the sword in the air. With a swing, the sword lunged forward.

Flying on the sword involved a lot of aspects of controlling the water vapor, such as speed, strength, angle... All of these required long-term practice.

Wang Xian moved and stepped on the sword. Using mind control, the sword traveled ahead.

The speed was not fast. The best method to increase the speed would be at its liquid form, using water clouds to hover with the sword in the air.

"Illusory sword!"

Wang Xian leaped off the sword and made a thrust with the sword in his hands. Instantly, countless Illusory sword images appeared around him.

"Sword Rain!"

Wang Xian coalesced the dense Illusory swords into razor-edge water blades that were suspended in the surroundings as though it was Million Swords Into One.

[\[1\]](#)

"Hundred Tiers Blade!"

Wang Xian held and thrust the sword forward once again. The surrounding water swords streamed into the longsword and charged ahead.

Before the longsword in Wang Xian's hand reached the target, the water swords had attacked it hundreds of times.

This was known as Tiers Blade, which was divided into Ten Tiers, Hundred Tiers, Thousand Tiers, and Ten Thousand Tiers.

Inborn Experts who could reach Ten Thousand Tiers were considered to be domineering.

"With water mist, I can even alter the course of the water swords and control their direction!"

This was the true-blue skill and warfare.

Wang Xian regarded the Da Hong Immortal Sect Sword Techniques manual as a precious treasure since it contained a variety of powerful moves and a myriad of battle techniques.

Towards the end of his cultivation, Wang Xian even needed to analyze and practice continuously in order to master it.

Tweet tweet tweet!

When the sound of birds chirping was heard, Wang Xian looked up and realized the sun had risen.

The woods, waterfall, beautiful mountains and rivers and the birds that were flying high in the sky made the entire world seem like a fairyland.

"Hur? You're up early!"

Yu Ling'er was surprised to see Wang Xian holding a sword, standing in the yard.

"An hour in the morning is worth two in the evening!"

Wang Xian answered her impassively. He had no good feelings about the lass

who had been going against him.

But he was grateful to her mother.

Yu Ling'er raised her eyebrows. "Let's go. I'll take you to the place where we practice in the morning!"

"Great!"

Wang Xian nodded and returned the sword to its original place at the side.

"Take the sword with you. You'll need to practice later with it!"

Yu Ling'er gave orders to Wang Xian like a bossy sister.

Wang Xian smiled as he took the sword in his hands.

"Can you fly on the sword? Jump down if you can't!"

Yu Ling'er lifted her chin slightly as she took a sword. She threw it into the air as though she was flaunting her skills. With a leap, she hopped onto it and hovered down.

But her speed was too slow.

"Lass!"

With a single hand, Wang Xian made the sword suspend beside his leg. Wang Xian instantly came up behind her with the propelling of the water energy.

His speed was much faster than before.

"You... have you learned how to fly a sword before?"

Yu Ling'er was so surprised that she parted her lips as she looked at Wang Xian.

"Is it difficult? I mastered it as soon as I learned it!" said Wang Xian to Yu Ling'er plainly.

"You... Of course not. I learned it in a day."

Yu Ling'er was blushing slightly as she gritted her teeth.

"Oh, ten minutes was all that it took me!"

Wang Xian nodded.

"What a braggart. How dare a lad boast in front of me!"

Yu Ling'er stared at Wang Xian before she headed down to a waterfall below.

At that waterfall, over twenty disciples were standing below, practicing with their swords without stopping.

Upon seeing Yu Ling'er, some of the young men stopped.

"Ling'er!"

"Hey, who is this?"

Those people gazed at Wang Xian with doubts.

"This is that guy who fell from the waterfall the other day. He'll be practicing with us from now on!"

Yu Ling'er pursed her lips as she spoke to the crowd.

"Oh, really?"

Upon noticing Yu Ling'er's expression, that group of young men quirked their lips as they scrutinized Wang Xian from head to toe.

# Chapter 550: Too Weak

"Hey, Junior brother! Since you have joined our Mt. Fengyu, tell us your name!" The young man with a sky blue longsword looked at Wang Xian, lifted his head slightly and spoke.

"Wang Xian!"

Wang Xian looked across the twenty-odd young men and girls. He was a little impressed.

All of them were Inborn experts!

A twenty-year-old Inborn expert would have caused a huge ruckus in the Underworld. Yet, all of them here were Inborn experts.

If elite disciples are Inborn experts, wouldn't the core disciples be Dan Realm experts? Wouldn't Elders and Attendants be Budding Realm and the Sect Leader be Immortal Realm? This force is too insane! [\[1\]](#)

Wang Xian had decided that he definitely had to enhance the strength of Dragon Sect and Dragon Palace once he got out of this place.

Otherwise, the Dragon Sect would be nothing when the Immortal Sects of Yong Chang world were to descend upon the real world.

"Wang Xian?"

When the group of youths heard Wang Xian's simple introduction, they raised an eyebrow.

"How rude!"

Yu Ling'er pouted, picked up her sword and was on her way to practice her swordsmanship.

"Since Junior brother has joined our Mt. Fengyu, I will have to guide you well in the future as your senior. Come, let your Senior brothers and sisters see what you

are capable of!"

A young man with hair that reached his waist raised an eyebrow. He lifted the longsword in his hand and gestured to Wang Xian with a smile.

Wang Xian looked at the young man in a traditional outfit, shook his head and said, "It's alright!"

An Inborn-level existence couldn't pique his interest at all.

"Oh? Senior brother Huayu wants to get a sense of your strength. Don't you know what to do?"

"You are new here and yet you dare to be so proud?"

Beside them, two young men chided Wang Xian coldly upon hearing Wang Xian rejecting the guidance of Senior brother Hua Yu.

"Junior brother, you are being a little rude here! Draw your sword!"

Hua Yu was a little surprised to be rejected by Wang Xian. The next moment, he waved the longsword in his hand as the glow of the sword swished passed Wang Xian.

The surrounding disciples simply watched with smiles. They held their swords in their embrace, smirked and watched with enthusiasm.

Senior brother Hua Yu was the strongest among them. Whenever there was a new disciple, he would want to get a sense of his strength.

The so-called sense was, in fact, showing the new disciple who was in charge here.

In the entire Mt Fengyu, everyone was convinced of Senior brother Hua Yu other than Yu Ling'er.

Moreover, Senior brother Hua Yu had been wooing Yu Ling'er. Seeing how Yu Ling'er was displeased with Wang Xian a while ago, he naturally wouldn't let this opportunity slip by.

When the crowd saw how nonchalant Wang Xian was acting, they were a little unhappy too.

"Alright!"

Wang Xian nodded his head. He would have crippled a person like him, who courted his death, in the Underworld.

"Take this sword technique!" Wang Xian smiled faintly and swung his longsword across.

Instantly, dense illusory swords formed all around him.

"Huh? You aren't too bad!"

Hua Yu focused his attention a little, moved his arms and gathered ten water swords, which began circling around him.

"Slash!" Wang Xian shouted plainly. Mist started forming around him as the illusory longswords shot towards the young man.

"Illusory swords? Hehe!"

The young man's eyes were filled with contempt. He squinted and shouted, "Ten Tiers Blade!"

"Illusory Swords against Ten Tiers Blade. This kid is a far cry from Senior brother Hua Yu!"

"I wonder how many strikes from Senior brother Hua Yu he could withstand!"

When the surrounding disciples saw Wang Xian attack, they chuckled with contempt.

Illusory Swords was a sword technique that disciples below the Inborn Realm could practice. At their level, they had started learning Tiers Sword and Water Sword.

Bam!

Huh?

Sounds of metal clashing reverberated. Everyone could see Wang Xian's longsword being deflected away.

However, the longswords that were deflected continued their attack by making a beautiful arc the next instant.

The thousands of Illusory Swords around him were all heading towards Senior brother Hua Yu.

"What? He... He's there!"

At this moment, a young man pointed to the back with a horrified expression.

Everyone was taken aback and turned around. To their astonishment, they found Wang Xian standing more than ten meters away.

As for the Illusory Swords, they were being controlled to attack from a distance.

"Who would have expected our Junior brother to be this good with the battle techniques of Illusory Swords!"

Hua Yu completed his Ten Tiers Blade after knocking the longswords away time after time. In the end, the other swords came to attack him instantly. At this moment, his expression turned solemn.

Before him, there were over a thousand longswords hidden within the thin mist.

He realized that the attack of every Illusory Sword was extremely forceful. Moreover, as they were Illusory Swords, they couldn't be crushed other than by deploying water energy to erase them.

"Great! Great! You are actually able to push me to this point."

Hua Yu was looking a little embarrassed. He flexed his muscles and shouted, "Descent of the Sword of Boundless!"

Swish swish swish!

The next instant, ten razor-sharp water swords were formed from water energy.

"Go!" he shouted loudly and the longswords flew towards the core of Wang

Xian's attack.

"If you don't wish to get injured, you better admit your defeat now!" he reminded in a cold and arrogant tone.

Yet, the crowd was completely stunned at this moment.

They stared blankly at Senior brother Hua Yu before turning to Wang Xian, who was more than ten meters away. They couldn't help but gasp.

Even Yu Ling'er was dumbfounded and in disbelief.

Senior brother Hua Yu had been fighting with his illusion that used a metal longsword all along!

As for Wang Xian, he was controlling the water energy from ten meters away.

This... This was totally toying with him!

Complete domination!

Senior brother Hua Yu still wasn't aware that his real opponent was watching him from ten meters away when he was making those bold statements.

"Since you aren't admitting defeat, don't curse me for not showing mercy!" Hua Yu shouted. He waved the longsword in his hand as he crushed illusory sword after illusory sword.

Towards the middle of the sea of illusory swords, the razor-sharp water sword instantly erased the Illusory Swords.

"Too weak!"

After his attack, a voice filled with contempt resounded.

"What?"

When Hua Yu sensed that there wasn't anyone in the center of the sea of Illusory Swords, he had a bad premonition.

When the dense mist dissipated, six razor-sharp water swords hovered around

him and had him completely stunned.

Wang Xian shook his head nonchalantly, waved his arms and the longswords before Hua Yu returned to him.

"This... This..."

None of the disciples of Mt. Fengyu knew how to describe this battle.

The strongest among them all, Senior brother Hua Yu, had been shouting and screaming before. Yet, he was made a clown by Wang Xian.

Countless Illusory Swords and a metal sword were enough to toy with Senior brother Hua Yu.

This Junior brother of theirs was really strong. It was especially so in the control of Illusory Swords.

Da Hong Sword Technique focuses on the technique and not the sword! Illusory Swords focus on the illusions and not the sword!

Wang Xian gained a little understanding as he revealed a smile.

The reason why Da Hong Immortal Sect wasn't a sect of sword cultivators was because their cultivation wasn't in the sword, but the techniques and tactics behind the sword!

# Chapter 551: The Outside World Is Weak

Back at the training field of Da Hong Immortal Sect in Mt. Fengyu of Yong Chang, more than a score of young men and ladies were gazing at Wang Xian in astonishment.

Hua Yu was stupefied as he stared at Wang Xian with disbelief.

He did not expect that a newbie who had just joined could trounce him. As someone who was prideful, he found this hard to swallow.

Since there is an Illusory sword, could I make my own phantom images too?

Wang Xian was not even paying attention to the surrounding group of youngsters. He was holding the sword and pondering to himself.

Gazing at the stream of water and the reflection in it, he revealed a faint smile on his face.

Pop!

At this time, a water clone that looked exactly like Wang Xian appeared beside him. However, the clone was transparent.

Wang Xian grasped his sword, yet again.

Om!

Water vapor began to condense around him, encompassing the clone and him altogether. In the blurry mist, it was hard to differentiate between the two of them.

However, there was a flaw in this method. Any experts would be able to sense and differentiate easily since the principal would be stronger than the water clone.

Connect us together?

Wang Xian thought about how the five elements interact with each other. With his mind control, he tried to connect the energy from the water clone with him through the thick water vapor.

Subsequently, the clone was able to explode daunting power that could camouflage him.

"Not bad!"

Wang Xian grinned as he tried to control his water clone to launch an attack. This was not that difficult either.

Next, he tried to create a mechanical water clone which duplicated all his actions.

"Senior Ling'er, he's compelling and aloof!"

A female disciple came to Yu Ling'er, fixing her disbelieving gaze on Wang Xian.

"This... He..."

Yu Ling'er did not expect Wang Xian to be such a compelling figure who could triumph over Hua Yu with ease. His strength was already much stronger than hers.

Yu Ling'er, who had been unhappy with Wang Xian, parted her lips with a complicated look in her eyes.

Seeing Wang Xian practicing by himself, ignoring all of them, she pouted again and answered in frustration, "Aloof, my foot!"

"Let's do our training!"

After Senior brother Hua Yu walked away, and Wang Xian did not seem to be concerned about them, the disciples hesitated before continuing with their training.

However, they would peer at Wang Xian occasionally during their practices.

"Have your breakfast. After your breakfast, my mum will bring you to the registration at the ancestral sect!" said Yu Ling'er coldly to Wang Xian after an hour.

"Great!"

Wang Xian nodded his head gently while his mind was all focused on the use of water energy.

After he went back to his residence, a disciple who had yet to reach Inborn sent breakfast to him.

"The ingredient used is rather fresh, with some energies contained in it. This place is indeed different from the outside!"

The Spiritual Energy was four, or even eight times more than what the outside world had. All the food over here contained Spiritual Energy too. To advance to Inborn Realm in one's twenties was totally possible.

"Mentor Yu!"

After breakfast, Wang Xian came to Mentor Yu's room and called out for her.

"Let's go. I'll take you to the registration!"

Mentor Yu walked out in the air as she nodded to Wang Xian. She brought him to the entrance of Da Hong Immortal Sect.

Along the way, there were pavilions, bridges, and waterfalls, adding on to the beauty of the fairyland.

"Wang Xian, Inborn disciples are considered to be adequate in Da Hong Immortal Sect. But there are thousands of them in Da Hong Immortal Sect. When you advance to Dan Realm, only then will you get to enjoy some prestige. Work hard in your cultivation, and strive to advance to Dan Realm!"

The lady spoke to Wang Xian as she strolled.

Wang Xian nodded. "I'll work hard, Mentor Yu." After some hesitation, Wang Xian continued. "Mentor Yu, what kind of qualifications do I need to have in order to get the best Cultivation Technique of Da Hong Immortal Sect?"

"The best Cultivation Technique?" Mentor Yu was slightly stunned. Soon after, she chuckled and said, "It seems like there are things you do not understand.

"There are only three sects in Yong Chang world. There's no stringent requirements to obtain the Cultivation Technique of the various sects. As long as you have the resources, you can even obtain the Cultivation Technique of Yong Chang Immortal Sect.

"Resources are all you need to exchange for the most formidable tactics and battle techniques of Da Hong Immortal Sect."

"Hur?"

Wang Xian froze for a moment. I can exchange the techniques directly with resources? That's way too easy.

But soon, Wang Xian understood the reason behind it.

Yong Chang world was too small to have three major Immortal Sects. Having three sects in such a small world would, in fact, be overcrowded. Thus, each sect had relatively fewer people.

Since the three Immortal Sects could stay together in a world, that must have been due to them being on good terms with one another.

With a smaller population and smaller land, they did not value a Cultivation Technique of their own.

It was to the extent that the offspring of Da Hong Immortal Sect's disciples could switch to Yong Chang Immortal Sect.

This world was a rather peaceful place.

Following Mentor Yu, he soon arrived at the foot of a vast mountain.

"Peak Wushi is the registration location for all disciples. There are other

mountains like Scriptures Depository, Sword Cleansing Peak, and Assessment Peak. You'll find out when the time comes!

"There's a big city just outside of that mountain entrance. All the daily supplies can be bought with Spiritual Stones over there. You can earn Spiritual Stones through work or exchange for them with resources!" Mentor Yu explained to him.

Wang Xian nodded slightly, as this was similar to how the real world worked.

"Oh? Mentor Yu, you're here. The timing is just right. I don't have to notify you on a separate note!"

A middle-aged man spotted the lady and spoke to her with smiles upon entering Peak Wushi.

"I brought a disciple here to join Mt. Fengyu. What's up, Attendant Liu?" asked Mentor Yu to a middle-aged man with a flat voice.

"Big news! Here!"

Attendant Liu swept a glance at Wang Xian before he tossed a jade stone to the lady.

"Hur? Memento Stone?"

The lady froze for a moment before instilling her energy in it, and a screen suddenly popped up before Wang Xian.

He was super shocked to see the screen in front of him.

On the screen was an iPad. Yes, it's a tablet.

Some real-life scenes were playing on the tablet.

"This is the situation of the outside world for the disciples to prepare themselves for the future," Attendant Liu said slowly, "We have not come into contact with the outside world for three hundred years. Never did I expect it to undergo such a drastic change."

"This is amazing!" Mentor Yu exclaimed in surprise as she checked out the pictures on the screen.

"Hehe, they called this 'technology.' But the Underworld outside is said to be very weak. I heard that Dan Realm experts can proclaim dominance in the Underworld. The entire Underworld only has a few hundred Inborn Experts. Haha, the outside world is just too weak!" said the middle-aged man, chuckling.

"Is that so? The Spiritual Energy is too sparse outside as compared to our place." Mentor Yu shook her head slowly. "Their resources are simply too little!

"We have been consuming our resources over here for more than a thousand years. They're almost depleted too. I wonder when the Spiritual Energy in Yong Chang Cauldron will be exhausted, and when our Spirit Array will disappear!"

# Chapter 552: My Name Will Start To Spread (1)

Wang Xian stood by the side, listened to their conversation, and was completely shocked.

He stared blankly at the image on the Memento Stone.

I had not expected someone to have entered reality and gotten their hands on this information. It would seem like this world will surface in reality soon!

Wang Xian's eyes flickered and he felt a sense of urgency suddenly.

If a world like this were to surface, Inborn experts would be everywhere. People in the Dan Realm wouldn't be considered experts and one would have to be a Budding Realm expert to rule over a small area.

In fact, even Immortal Realm experts might be present.

At that time, what would Dragon Sect be before them? They probably would be crushed and overwhelmed completely.

For him, even if he had turned into a divine dragon, he wouldn't win against these Immortals who knew powerful skills and battle techniques!

I've got to increase my level soon. Otherwise...

For the first time, Wang Xian felt a sense of urgency.

He had to reach Level 9 so he could remain fearless when facing Immortal Realm experts.

"Qianmei, you are here too! What a coincidence!"

At this moment, the voice of a middle-aged woman came from the side.

Tsk!

Mentor Yu snorted at the middle-aged lady and wasn't hiding her annoyance with her.

"Hehe! Huh? You have a new disciple? There's a new disciple who is willing to join Mt. Fengyu?"

The beautiful middle-aged lady looked at Wang Xian with a smile. "Hey kid, Mt. Fengyu is among the bottom three of the twenty mountain sects. They don't even have a Dan Realm disciple. Did you get scammed here?"

"Lengyan, shut your mouth!"

Upon hearing her words, Mentor Yu stared harshly at her.

"Did I say something wrong? I'm just letting an ignorant kid understand the picture and not be scammed by others. Hehehe!"

The beautiful middle-aged lady who was being addressed as Lengyan chuckled and stared back at Mentor Yu with ridicule.

"The matters of my Mt. Fengyu have nothing to do with you!"

Mentor Yu clenched her fist tightly but released it shortly after while glowering at the middle-aged lady.

Tsk!

Lengyan lifted her head slightly and stared back at Mentor Yu in a confrontational pose.

Attendant Liu shook his head bitterly and walked to the side. Clearly, he had no intention to interrupt.

"Master, if he's joining Mt. Fengyu, he can't be talented. One could easily tell that he's a rookie!" said the girl beside Lengyan with ridicule.

The girl had thin lips and almond-shaped eyes with the ends inclining up. Overall, her appearance wasn't pleasing.

"That's a given. If he were a talent, he wouldn't be joining Mt Fengyu!" Lengyan

chuckled.

"Hey, little brother, do you want me to guide you a little?" the girl turned around and asked Wang Xian with a face of contempt.

"Attendant Liu! Please register my disciple!"

Seeing and hearing the two of them criticizing and ridiculing Wang Xian, the sword in Mentor Yu's hand was shaking a little while she spoke to Attendant Liu.

"Alright. What's your name?" Attendant Liu responded immediately and asked loudly.

"Wang Xian!" Wang Xian replied in an emotionless tone. He turned around and looked at the girl with almond-shaped eyes.

"Please guide me along!"

In the next instant, Wang Xian drew his sword and pointed it at the girl.

"What?"

Attendant Liu was about to register Wang Xian's name when he suddenly heard Wang Xian. He was taken aback and was shocked to witness what Wang Xian was doing.

Mentor Yu, Lengyan, and that girl were also taken by surprise.

Mt. Fengyu had been one of the strongest three mountain sects in the past. Since Mentor Yu's husband, Huo Fengyu, died and their elite disciples were killed, their overall strength had declined and was ranked among the bottom three at this moment.

Currently, all the disciples of Mt. Fengyu were the "leftovers" from the other major mountain sects.

Over the last two years, no new disciples had joined Mt. Fengyu and the resources allocated to it had been declining over the years.

Those who had joined Mt. Fengyu definitely wouldn't be disciples with

ambitions or talent.

Yet, this dim-looking guy that Mentor Yu had brought over wanted to challenge Lengyan's disciple.

Lengyan's disciple would at least be of Pinnacle Inborn level.

"You must be courting death!"

Seeing that Wang Xian had the guts to challenge her, that girl wasn't furious at all. Instead, she looked at Wang Xian with contempt and ridicule.

She swung her arm, drew her longsword and pointed directly at Wang Xian.

"Wang Xian, stop!"

Surprised by Wang Xian drawing his sword, Mentor Yu was astonished and wanted to stop him immediately.

"Since he had drawn his sword, there's no reason to retract it back. Qianmei, could it be that you are trying to interfere with the sparring of disciples?" Lengyan stared at Mentor Yu and spoke with a radiant smile.

"Let's get started!"

Wang Xian had no intention of stopping at all. The longsword in his hands instantly released greyish water energy. Illusory Swords appeared and completely covered his presence.

"Illusory Swords? Hehe! Let me teach you that you should keep a low profile!"

The girl with the almond-shaped eyes smirked and her sword glowed in dazzlingly blue light.

"I'll counter your Illusory Swords in a single strike!" the girl shouted nonchalantly as she lunged ahead with her longsword.

Wang Xian flexed his muscles and over a hundred Illusory Swords shot towards that girl.

At the same time, a water clone held his longsword and charged ahead.

"Break!"

The longsword in the girl's hand descended from above and clashed heavily with the Illusory Swords.

Countless Illusory Swords were erased instantly as the longsword shot towards that human figure.

Seeing that the human figure wasn't attempting to dodge, ruthlessness gleamed in the eyes of that girl. She didn't hold back her strength at all.

Bam!

Sounds of swords clashing resonated as the human figure was slashed apart by the descending sword.

"Shit!"

The next instant, the girl's expression sank. Three razor-sharp water swords were shot towards her vital spots and it was too late for her to dodge.

"Presumptuous!"

When Lengyan witnessed the development of the battle, her expression changed drastically. She waved her arm and a water shield appeared before the girl instantly.

Bam! Bam! Bam!

The water swords fell on the shield.

The girl's face was covered in cold sweat. Her eyes widened and were filled with disbelief as she stared at Wang Xian, who was standing five meters away.

Wang Xian pulled back his arms and the sword returned to his hand. He turned to Mentor Yu and said, "Mentor Yu, which mountain sect is she from?"

"Mt. Leng!"

Mentor Yu was taken aback but she soon gave Wang Xian a smile as she replied.

"Trash!" Wang Xian remarked plainly. This shocked Mentor Yu once again as her smile deepened.

"Attendant Liu, we will be leaving now. Don't forget to register him!"

Mentor Yu's lips curved up slightly as she spoke to Attendant Liu before walking out.

Dang!

Wang Xian put his longsword back in its scabbard and followed behind Mentor Yu, leaving the embarrassed Lengyan and her disciple.

And the dumbfounded Attendant Liu.

"Going forward, keep a low profile in the mountain sect. When you reach the Dan Realm, you can then start showing your edge. You are still a little too weak currently. Practice diligently and I'll guide you if there's anything you don't understand!"

Walking out of Peak Wushi, Mentor Yu paused for a moment and reminded Wang Xian of this.

Wang Xian nodded his head silently but didn't take the reminder to heart.

Now that information on the real world had surfaced, he was getting a little anxious.

Initially, he was preparing to grow silently, away from attention while mastering some battle techniques and tactics.

At this point, time wasn't on his side. He had to quickly master the battle techniques and tactics while gathering more resources.

To get more resources, there was only a single way. That was to become the most glaring genius.

My name will start to spread!

# Chapter 553: My Name Will Start To Spread (2)

"Go ahead with your practice. I'll give you another sword!"

After they went back to Mt. Fengyu, Mentor Yu spoke to Wang Xian with a radiant look after taking a look at the longsword in his hand.

"Yes, Mentor Yu!"

Wang Xian nodded and suspended his sword in the air. He took the sword at his feet and rode to the waterfall.

"Let's hope he will bring some hope to Mt. Fengyu by advancing to Dan Realm!"

Seeing Wang Xian's figure, Mentor Yu sighed with flickering radiance in her eyes.

Shoo!

The speed of Wang Xian riding on the sword was so fast that he was quickly at the waterfall.

More than a score of Mt. Fengyu's disciples were training over there while Wang Xian flew into the air above them.

Upon seeing Wang Xian riding his sword and overlooking them in the air, the group of disciples was slightly pissed off.

His act was an obvious show of contempt for all of them.

"Hey, why are you doing up there? Get over here for your training!"

Yu Ling'er called out to Wang Xian, irked when she saw him.

Wang Xian looked at Yu Ling'er and swept his gaze across all the people. With a

faint smile, he said, "You guys are just too weak, show me what you've got!"

You guys are just too weak, show me what you've got?

What he said just struck more than twenty disciples with extreme self-contempt, and everyone froze.

Even Yu Ling'er and Hua Yu, who'd been defeated in the morning, was caught by an unexpected surprise.

"Brat, what did you just say?"

Yu Ling'er pointed the sword in her hand at him as she spoke with anger.

"Nothing, I just want you guys to show me what you've got!"

Bam, Bam, Bam, Bam!

As Wang Xian remarked, figures that looked exactly like Wang Xian suddenly popped out from behind the waterfall.

In a brief moment, more than twenty water clones emerged.

"Show me what you've got!"

Without giving them any time to hesitate, he struck at the group of people below.

"Fu\*k, who the hell do you think you are!?"

"Damn you, how dare you talk big and challenge all of us!"

"What an arrogant guy!"

The disciples were infuriated upon seeing the disdainful look on Wang Xian, who was charging toward them.

Yu Ling'er was livid as she said, "You're looking for a beating!"

"Just show me your Inborn-level capability and try all your Sword Techniques on me!"

Wang Xian drew his lips slightly. Since he needed to become a genius over here, he had to convince all the disciples of Mt, Fengyu!

Burst!

Bam!

In an instant, two water clones exploded into water vapor, enveloping the surroundings within a range of a thousand meters.

Everyone was shrouded in the water mist.

However, it did not affect them at all.

"Hmph, how dare you challenge all of us alone. You're really a brazen fellow. Today, let me teach you a lesson!"

Hua Yu scowled at Wang Xian furiously.

His entire body was emitting azure blue radiance while a fogless space showed up around him. Hua Yu had not taken his eyes off from Wang Xian.

"Illusory sword!"

Wang Xian looked at all of them while the water mist convened into thousands of Illusory swords.

In creating this many Illusory swords with Inborn-level strength, the damage of these swords was too sparsely spread.

"These Illusory swords have no power. Ignore them!" a disciple called out loudly.

"Take care of this brazen fellow!" over a score of disciples exclaimed together.

"He's up there!"

Needless to say, everyone locked onto Wang Xian and lurched at him.

With a smile, a water clone suddenly broke out an immense amount of energy ten meters away.

"Over there!"

Since Wang Xian was surrounded by water vapor, they could only rely on energy to lock onto his location.

More than a score of people thrust at that water clone instantly.

"Go!"

Wang Xian waved his sword in the air, and the Illusory swords behind the group started to solidify and turn into razor-edge water swords!

"Oh no, how can his water control ability be so strong!"

Whoosh!

Argh!

"Damm, that's a fake one. The real one is here!"

"Oh no, this one is also fake!"

Argh!

"How can it be!?"

"Damm, he's toying us!"

"This is impossible. How could he be so terrifying with his water control ability. Even Half-Step to Dan Realm experts are not that sick!"

Panic and incredulous voices were heard everywhere.

"You guys are just too weak!" Wang Xian said in a dull tone.

With a glimpse, he converted the Illusory swords into water swords, which landed behind Yu Ling'er and Hua Yu.

"Oh no, behind you!"

Bam, Bam, Bam!

A splashing sound was heard when some of the last disciples fell in the water.

Wang Xian swung his arm while the sword went back to his hand. All the Illusory swords around him disappeared as he looked at the twenty-odd disciples who were in the water.

"How is this possible? How can your Sword Technique be so powerful!"

Yu Ling'er stood in the water as she questioned Wang Xian loudly in disbelief.

"You're not an Inborn. An Inborn would not have such strong power over water. Controlling water clones is not something easy, and an Inborn can't create these numbers of Illusory swords!"

Hua Yu glowered at Wang Xian with red eyes as he questioned Wang Xian.

"What I just displayed was really Inborn-level strength!"

Wang Xian overlooked them. What he had shown just now was really Inborn-level strength. However, his energy was immense, and his water control ability was superb since he was a Divine Dragon.

"You guys are just weak!"

Still the same words. The group of people had heard him repeat the same line a few times.

A mixed expression was plastered on Yu Ling'er as she had not expected this at all. The young man who scared her to death was such a formidable character.

The rest of the twenty-odd disciples trembled slightly as they realized they'd lost to a new junior who'd just joined them.

Besides, the fact that he defeated twenty-odd people alone amazed them, and at the same time, struck panic into them.

"You, come over!"

Wang Xian pointed to Hua Yu.

"What? Me...me..."

Seeing Wang Xian pointing at him, Hua Yu was stunned, with trepidation in his eyes.

He was brought over in the morning, and now, Wang Xian had beaten them all single-handedly. Hua Yu was already unnerved at this moment. Seeing Wang Xian calling out for him, his consternation grew.

"Come over!" said Wang Xian flatly as he looked at Hua Yu.

"What do you want? Mentor Yu is coming. When she comes, she won't spare you!"

Hua Yu looked at Wang Xian with the deepest fear as he staggered back involuntarily.

"I didn't hurt you just now, and I won't do it now either. Come over!"

Seeing Hua Yu's behavior, Wang Xian shook his head with disdain.

"You... Fine, I'll go!"

Hua Yu felt instant humiliation when he spotted the belittling look in his eyes. Gritting his teeth, he came forward to Wang Xian.

"How do you gain access to more resources?" asked Wang Xian straightaway.

"What? More resources?"

Hua Yu froze for a moment as this was an unexpected question from Wang Xian.

"Yes!" Wang Xian nodded.

"There are two ways to gain more cultivation resources. We can either improve our ranking among the sects or get into the top twenty in the individual ranking!" Hua Yu answered blankly.

"Hur? Is that so?"

"Yes, there's no other way except these two!" Hua Yu nodded quickly, as he did not dare to hide any truth. Now, he was terrified of this aloof junior brother.

"How do I improve the ranking of the sect?"

Wang Xian raised his eyebrow.

"You can issue a challenge anytime, and each sect will send five disciples for the challenge. Once we win against them, we can upgrade the level of our mountain sect!"

Wang Xian nodded his head in silence. Then he murmured, "I wonder how much of a reward I'll get for thrashing the entire Immortal Sect..."

# Chapter 554: My Name Will Start To Spread (3)

"What?"

When Hua Yu heard Wang Xian mumbling, he looked at him in shock.

Thrashing through the entire Immortal Sect?

"Nothing?"

Wang Xian shook his head and added plainly, "Practice diligently!"

Hua Yu's face was flushed as he stepped aside, feeling embarrassed.

The twenty disciples stared at Wang Xian with complicated feelings.

Swish!

"What's the matter?"

At this point, a voice sounded suddenly. Mentor Yu appeared in the sky and was looking down at the disciples who had all fallen into the water. She was baffled.

"Nothing, nothing!"

Yu Ling'er shook her head immediately. There was no way she could tell her mother that Wang Xian had defeated all of them.

That would be too embarrassing!

Hmm.

Mentor Yu didn't pursue the question further. She looked to Wang Xian and said, "Wang Xian, here's a sword for you!"

A blue treasured sword was thrown towards Wang Xian.

Wang Xian reached out his hand, caught the sword and was taken aback.

[Phantom Sword: Level 11]

Level 11! It's a Level 11 Spiritual Weapon!

Wang Xian was astonished. Pulling the sword out of its scabbard, he realized that the blade was blue and almost transparent.

Moreover, the edge was incomparably sharp. As he swung it, Illusory Swords were left behind.

"Great sword!"

Holding the Phantom Sword in his hands, Wang Xian's eyes beamed with excitement.

"If there's anything you need, you can let me know!" Mentor Yu added.

"Mentor Yu, do you have battle techniques or tactics?" Wang Xian asked directly.

"I'm not imparting battle techniques or tactics. The disciples of our mountain sect are allowed into the scripture depository for an hour each month. In five days, you will be able to enter the scripture depository to choose. I have an elixir pill here too!"

As she spoke, she threw a blue elixir pill to Wang Xian.

[Ripple Pill: Level 5]

[Extractable Dragon Energy: 110,983]

Wang Xian didn't hesitate at all as he caught it. He bowed at Mentor Yu and said instantly, "Thank you, Mentor Yu!"

"Alright. Practice diligently. I hope you can lead Mt. Fengyu to a new level!"

Mentor Yu smiled and shook her head. She looked across the surrounding disciples before taking off on her sword to return to the mountain peak.

I'll definitely return this favor!

Looking at the disappearing figure of Mentor Yu, Wang Xian thought to himself.

He lifted the elixir pill and swallowed it instantly.

"Mentor Yu probably knew about Wang Xian's strength. Otherwise, she wouldn't give him a spiritual sword and an elixir pill!"

When the surrounding crowd saw the spiritual sword in Wang Xian's hands and the elixir pill he had just consumed, envy filled their eyes.

Even Yu Ling'er was envious of him.

"What's the ranking of our mountain sect currently?"

Wang Xian diverted all the dragon energy he obtained to heal his injuries as he asked Hua Yu.

"Nineteenth. There are a total of twenty mountain sects and we are currently ranked nineteenth!"

Hua Yu felt a little embarrassed as he answered.

"Where's the eighteenth-ranked mountain sect?" Wang Xian asked Hua Yu.

Huh? Hua Yu was stunned for a moment but quickly replied, "They aren't very far from us. You... You are going to challenge them?"

As he spoke, his eyes lit up. The surrounding crowd also looked at Wang Xian with surprise and shock.

"Lead me there!" Wang Xian replied directly.

"Alright, alright..."

Hua Yu's eyes beamed up. Considering Wang Xian's strength, he definitely could defeat the eighteenth-ranked mountain sect.

"Let's go! Follow me!"

Hua Yu turned to Wang Xian and stepped on his sword.

"Let's go!"

Wang Xian nodded his head and took off on his sword!

"Go. Let's go too!"

"Follow them!"

The disciples of Mt. Fengyu were exhilarated. Wang Xian would be challenging the eighteenth-ranked mountain sect. Even if Mt. Fengyu was to just advance by a single position, the resources they would be getting would still be substantial.

Yu Ling'er hesitated for a moment but still took off on her sword and followed behind.

"Wang Xian, the eighteenth-ranked mountain sect is Mt. Tianshui. They have twenty-five disciples and the strongest disciple is Wang Beichuan. He's a little stronger than me. However, you are rather strong. Together with Junior sister Ling'er, Zhao Qian, Liu Dong and me, we definitely will win against them!" Hua Yu explained to Wang Xian with ecstasy.

To challenge a mountain sect, each mountain sect would have to send five representatives. They could choose team battles or individual battles. The challenger would be the one to choose.

These were the rules of Da Hong Immortal Sect.

However, Wang Xian didn't pay any attention to the rules. He really had no regard for the strength of Hua Yu, Yu Ling'er and the rest at this moment.

Mt. Fengyu was roughly three kilometers away from Mt Tianshui. However, the distance of three kilometers was only a matter of several minutes.

"Wang Xian, let's fly in directly on our swords. Flying directly into a mountain sect on the sword symbolizes taunting and challenging!"

Hua Yu continued to explain the rules to Wang Xian.

Wang Xian nodded his head and followed behind Hua Yu towards the training ground of Mt. Tianshui.

At this very moment, twenty-odd disciples of Mt. Tianshui were practicing. Some were resting by the side.

There were also disciples who were flirting with each other.

A petite girl sat on the huge rock by the side and was chatting joyously with a few other young men and girls.

"Huh? Someone's coming? A challenge?"

At this moment, the disciples who were practicing saw a group of people approaching while riding on their swords. They were astonished.

"Challenge? Who dares to challenge us?"

The disciples of Mt. Tianshui squinted their eyes as they tried to catch a glimpse of Wang Xian and the group.

"Mt. Fengyu is here for the challenge!" Hua Yu shouted loudly and his voice reverberated across several kilometers.

"Mt. Fengyu! They are from Mt. Fengyu! They actually dare to challenge us! We just gave them a tough beating last month and yet they dare to come to us today?"

"They must be asking for a beating!"

"Tsk! Could it be Hua Yu has made great improvements in swordsmanship?"

The disciples of Mt. Tianshui stared harshly at the disciples of Mt. Fengyu who were approaching.

"Yo~ Who would have expected people to challenge your Mt. Tianshui!"

At the huge rock, a young man turned to the petite girl and commented with a smile.

"They are disciples from Mt. Fengyu. They are most likely no match for us!" the

petite girl answered.

Her eyes squeezed into a line when she smiled, making her look adorable.

"Hehe! This is interesting. Sparring between rookies? Let me go take a look!"

"What do you mean, Senior brother Liang. What do you mean by sparring between rookies!" the petite girl grumbled unhappily at that young man.

"Isn't the battle between the eighteenth and nineteenth ranked mountain sects a great example of rookies sparing? Haha!" the young man laughed loudly.

"Tsk. I'm not going to talk to you. You are the rookie! So what if your mountain sect is ranked twelve?" The petite girl stared at the young man unhappily.

"Alright, it's my fault. Let's go take a look!" The young man carried the girl up as he walked ahead, seemingly going for a show.

Several young men around him also followed him ahead.

"Hua Yu, didn't I teach you a lesson last month? Why are you here again?"

On the training field of Mt. Tianshui, a young man lifted his head up slightly. He stared harshly at Hua Yu as he remarked.

"Hehe! You guys are definitely going down today. A five on five group battle! Do you have the guts to accept?" Hua Yu snorted coldly. Wang Xian's presence had emboldened him.

"Haha. Great. My hands are still feeling a little itchy and would love to have you as a punching bag!"

# Chapter 555: My Name Will Start To Spread (4)

"Not too bad to have you guys as punching bags!"

"I can defeat all of you in twenty moves!"

Disciples from Mt. Tianshui walked out with overbearing confidence.

"Let's do it. I'll make sure all of you admit your defeat today!"

The youth in the center raised his hand as he drew his longsword.

"Haha, great!"

Hua Yu cast a look at Yu Ling'er and the rest behind him. They had the absolute confidence in winning this five on five group battle.

There was no hesitation for them. With Wang Xian around, they had a hundred percent chance of winning!

"Your guidance is much appreciated!" said Wang Xian with his sword in his hand as Yu Ling'er and the rest walked over and put up a ready stance.

His sword was still in the scabbard when he spoke. However, his sword was drawn as soon as he finished.

"Hur? I've never seen this lad in Mt. Fengyu before."

Upon seeing Wang Xian ready to strike at them, the five young men from Mt. Tianshui furrowed their brows.

The petite girl brought several youngsters over with a broad smile.

The young man who had her in his arms even whispered to her that two chickens were pecking each other. [\[1\]](#) Then, they looked up at them.

"You're so eager for a beating! Beichuan Senior Brother, thrash Mt. Fengyu!"

"Seeking your own doom. Beichuan Senior Brother, teach them a lesson!"

The group of surrounding disciples from Mt. Tianshui cheered loudly.

"Hmph, digging your own graves!"

Coldness flashed across Wang Beichuan and his gang as they drew their swords.

Four water clones with swords in their hands popped out around Wang Xian as he jerked his body. Wang Xian was also wrapped in the water current.

"Illusory sword!"

The surroundings were instantly filled with mist after the sword left the scabbard.

"Insignificant trick!"

The disciples from Mt. Tianshui watched the strike from Wang Xian with contempt.

"Let's do it too!"

Immediately, Hua Yu called out to his members after he was stunned by Wang Xian, who took the lead.

"Where's the next location!?"

Bam, Bam, Bam!

However, all the water clones and Illusory swords before them dissipated at this time!

Along with which came five crashing sounds.

"No... how is this impossible?"

"Wow, damn. He's powerful!"

Only shocking and painful moans were left in the air.

Wang Xian was already standing at the spot where the five young men stood while they were lying on the floor.

"Next, next...," Hua Yu stammered with a stupefied look.

"Next is Mt. Xuanshui, ranked seventeenth!"

Hua Yu only managed to complete his sentence after a long time.

"Let's go!"

Wang Xian turned around as he spoke to Hua Yu.

"Wait, Big brother. Hang on!"

Hua Yu looked like he was in a trance before he sprinted to a mountain in front of the training field of Mt. Tianshui.

On that mountain was a Spiritual Stone, which he gently pulled.

"Okay, our ranking is up. We're going to Mt. Xuanshui!"

"Let's go!"

Sensing the impatience of Wang Xian, he hurriedly assured him, "Let's go, Big brother!"

The disciples from Mt. Fengyu behind him were dumbfounded. They expected a win, but not an instant kill!

They stared blankly at Wang Xian with a hint of horror in their eyes.

The new disciple from Mt. Fengyu was not a simple character.

Yu Ling'er felt even more complicated as she fixed her eyes on Wang Xian in a daze.

Mt. Fengyu's disciples rode on their swords and left, and the entire process only took two minutes.

All the disciples from Mt. Tianshui were stunned, looking at the five senior brothers lying on the ground.

"Instant kill. He could knock out Beichuan Senior Brother and the rest single-handedly. The strength of that young man was so damn strong!"

"How did this happen? When did Mt. Fengyu recruit such a powerful disciple? This..."

All the disciples of Mt. Tianshui revealed an incredulous look.

They knew Mt. Fengyu like the back of their hands. But now... it turned out...

"How did this happen? The strength of that young man!"

Several youngsters beside that petite girl had shock plastered on their faces.

"This is interesting. Mt. Fengyu actually recruits a disciple who possesses remarkable strength."

The young man who was holding the petite girl in his eyes had a brief stunned moment before he commented with flickering radiance in his eyes.

"He's quite strong. I'd guess he's at least a Half-Step to Dan Realm, and somewhat skilled in his Illusory swords and water clones."

Another young man nodded in agreement.

"Given his strength, he should be able to lead Mt. Fengyu into the top fifteen!"

"Almost there. The rest of the Mt. Fengyu disciples are just too lousy!"

Those disciples who came from the mountain sect that was ranked twelfth began to comment.

"Interesting. Let's follow them and see how far that lad can lead Mt. Fengyu in terms of ranking!"

The young man smiled with his lips quirked. He stood on the sword and rode away.

"Let's follow them. It was a surprise for Mt. Fengyu to have an expert. I want to check out their results too!"

Wang Beichuan swept the water droplets off his body with embarrassment as he spoke with a sullen face.

"Let's go!"

The group of Mt. Tianshui disciples hesitated before they hopped on their swords and headed to Mt. Xuanshui.

"Next..."

Just when the Mt. Tianshui disciples arrived at Mt. Xuanshui, a clear and icy tone cut the air.

Everyone froze.

The young man who had the petite girl in his arm raised his eyebrow.

"Consuming his physical strength at such a rate is not wise!"

"If he continues his incessant challenges, he can only stop at fifteenth. There are Half-Step to Dan Realm experts within the top fifteen sects!"

Some of them commented when they saw Mt. Fengyu disciples rushing over to another mountain sect.

"Let's keep up with them this time!"

The group of youngsters darted out while the Mt. Tianshui disciples followed suit. Those Mt. Xuanshui disciples who had just been just defeated also went over with curiosity.

A total of ninety disciples from two mountain sects followed behind.

When they arrived at the mountain sect ranked sixteenth, the disciples in that mountain sect were freaking out.

"It's just a challenge. Why did so many people come and make me jump?"

A wild and young man walked out, beckoning some of the surrounding disciples.

Ten seconds later!

"Damn, he's awesome. Another kill in seconds!"

"They're going to Mt. Wuyin. But Qin Shan from Mt. Wuyin is a Half-Step to Dan Realm Expert. It's impossible to achieve another kill within seconds!"

"This disciple from Mt. Fengyu is really fierce. I bet he could beat Qin Shan!"

The disciples of Mt. Fengyu rode on their swords with over a hundred followers behind them.

All the followers were those who had been defeated by them.

Damn, killing in seconds. It took him just one move to finish five strongest experts within the mountain sect. Now that they are challenging another mountain sect, they cannot miss it.

All the people behind the disciples of Mt. Fengyu were discussing how far this new disciple could go.

Seeing all the disciples from 16, 17, 18 placings following behind them, the disciples of Mt. Fengyu exhibited thrills on their faces.

In the beginning, they had scorned this new disciple who just joined. But it soon developed from shock to respect, and eventually worship.

Instant kill!

The ranking of Mt. Fengyu leveled up a lot, and the resources in the ancestral sect almost doubled!

# Chapter 556: My Name Will Start To Spread (5)

"Great, great. Now that Qin Hai has reached the Half-Step to Dan Realm, our Mt. Wuyin can now compete with Mt. Jiuhua!"

At this moment, a middle-aged man within Mt. Wuyin faced the crowd of youths before him as he exclaimed.

"Master, rest assured. Give me ten days. In ten days, Brother Qin Shan and I will definitely challenge Mt. Jiuhua and raise our ranking to fourteenth."

On the training field of Mt. Wuyin, a young man stood before thirty other disciples with his head lifted up proudly as he remarked confidently.

"Alright, Mt. Jiuhua has two Half-Step to Dan Realm disciples currently. Therefore, all our remaining disciples have to practice diligently and aim to achieve the breakthrough by the end of the year!" the middle-aged mentor said to his disciples with a smile.

"Yes, master!"

All thirty disciples were brimming with ambition. "We definitely should try to get into the top ten!"

"Disciples of Mt. Fengyu are here to challenge!"

At this moment, a shout could be heard.

Everyone in Mt. Wuyin was taken aback, including the middle-aged mentor.

He turned his head around, looked to his left and was shocked by what he saw.

Over a hundred. Over a hundred people were flying towards the training field of Mt. Wuyin on their swords.

"Mt. Fengyu? The eighteenth ranked Mt. Fengyu?" the middle-aged mentor

frowned slightly and was clearly feeling something was dubious.

"Where are you guys from?" the middle-aged mentor looked across the crowd while shouting solemnly.

"Get down. Mentor Du of Mt. Wuyin is around!"

The disciples who were flying in the air landed on the ground immediately.

"Mentor Du, we are disciples from Mt. Fengyu!"

When Hua Yu landed on the ground, he lifted his head slightly and was brimming with confidence.

Under normal circumstances, a Mt. Fengyu disciple wouldn't be as flamboyant as Hua Yu was when he was facing the disciples from Mt. Wuyin.

"We are here to challenge Mt. Wuyin!"

Huh?

Mentor Du raised an eyebrow.

"The eighteenth ranked Mt. Fengyu is challenging us, Mt. Wuyin? Are you guys crazy?"

Before Mentor Du could say a word, a disciple shouted at Hua Yu directly.

Mentor Du didn't say a word as he looked suspiciously at the hundred-odd disciples.

Mt. Fengyu only had twenty-odd disciples.

"Senior brothers, we have just challenged Mt. Xuanshui, therefore..."

"Please guide us along!" said Hua Yu. Wang Xian stood by the side with his sword while staring at the disciples of Mt. Wuyin.

"This disciple of Mt. Fengyu is too strong. Relying on his personal strength alone, he has brought Mt. Fengyu from the eighteenth rank to challenging the fifteenth rank mountain sect!"

"He's definitely at the Half-Step to Dan Realm. Moreover, he could be considered to be among the elites of the Half-Step to Dan Realm. His use of Illusory Swords and water clones is indeed terrifying!"

"I wonder if Qin Shan would be a match for him. If Qin Shan loses, Mt. Fengyu's ranking will rise to fifteen!"

Behind them, the disciples of Mt. Tianshui, Mt. Xuanshui and Mt. Sanshang were discussing softly.

"Half-Step to Dan Realm?"

The disciples of Mt. Wuyin were slightly surprised. They finally understood a little and their attention landed on Wang Xian.

"No wonder Mt. Fengyu is acting so arrogant. So they have a Half-Step to Dan Realm disciple!"

Qin Hai squinted his eyes slightly, stared at Wang Xian and gave an eerie smirk.

"Half-Step to Dan Realm?"

Mentor Du looked at Wang Xian and his lips curved up slightly. He didn't say a word. He crossed his arms and simply stood by the side while watching the developments with a smile.

A Half-Step to Dan Realm disciple was dreaming of defeating his Mt. Wuyin! What a far-fetched dream!

"Are you the only one representing Mt. Fengyu?"

Qin Hai lifted his head slightly, stared at Wang Xian and asked this plainly.

"Send out five disciples from Mt. Wuyin and stop wasting my time!"

Wang Xian looked across the disciples of Mt. Wuyin and commented without emotions.

"Stop wasting your time? How arrogant. Today, no one else from Mt. Wuyin has to make a move. I can finish you off by myself!"

A flash of ruthlessness gleamed in Qin Hai's eyes. He waved his longsword and ripples formed in the air.

"That's Qin Hai from Mt. Wuyin, and in Mt. Wuyin, he's only weaker than Qin Shan!"

"What does he mean? He knows clearly that this disciple from Mt. Fengyu is at the Half-Step to Dan Realm and yet he's going to challenge him alone!"

"Could it be... Could it be... Qin Hai has completed the breakthrough?"

Seeing Qin Hai charging ahead alone, the surrounding disciples were astonished.

"Haha, how dare you challenge us, Mt. Wuyin, with just a single Half-Step to Dan Realm disciple. You guys are really courting your own demise. Initially, I was still thinking of only revealing my strength when we challenge Mt. Jiuhua. For today, you can be my testing stone!"

Qin Hai laughed confidently, shocking the surrounding disciples of Mt. Tianshui and Mt. Xuanshui.

"Qin Hai has made the breakthrough to Half-Step to Dan Realm!"

"Mt. Wuyin has two Half-Step to Dan Realm disciples now!"

"It's over. The disciples of Mt. Fengyu will be beaten to their knees on Mt. Wuyin!"

When the surrounding disciples heard Qin Hai, they were astonished.

As for the crowd from Mt. Wuyin, they looked at the surrounding crowd with contempt and ridicule.

Before this group of disciples, there was still a young man standing by the side with his hands crossed while watching with a confident smile.

"Who would have thought that Mt. Wuyin would have two Half-Step to Dan Realm disciples now! It would seem that Mt. Fengyu's progress will end here. That's about the same as I expected."

The young man carrying the petite girl chuckled and commented.

"That's not a given yet. The disciple from Mt. Fengyu knocked out the disciples of Mt. Sanfeng instantly. Perhaps he could still win this!" the petite girl retorted the young man.

"Pfft! Xiao Yueyue, you don't understand. A Half-Step to Dan Realm expert could easily win against seven to eight Inborn experts. Therefore, the instant knockout was still as expected. However, for those at the same level..." the young man spoke in an educating tone. Suddenly, his eyes widened...

"One down, four to go!"

Wang Xian's emotionless voice stunned the surrounding crowd. Their jaws dropped and their eyes were filled with disbelief.

Wang Xian didn't stop moving as he charged towards the group of disciples from Mt. Wuyin.

His eyes were fixed on Qin Shan who still had his arms crossed.

"His strength... Fight!"

Qin Shan's eyelids twitched violently as he shouted bitterly and drew his longsword.

The other three disciples behind him drew their swords too immediately and charged towards Wang Xian.

Bam!

However, the group saw Qin Hai knocked to the ground heavily at this moment.

Qin Hai, instantly knocked out!

A Half-step to Dan Realm disciple couldn't put up the slightest of resistance at the moment against Wang Xian.

The disciples of Mt. Tianshui, Mt. Xuanshui and others stared in disbelief.

"Could it be he has reached the Dan Realm?"

"It cannot be... Shit! A Dan Realm expert?"

Instantly knocking out a Half-step to Dan Realm expert... This insane level of strength...

"His attack hasn't reached the level of a Dan Realm expert. He dominated completely with just swordsmanship. His control of water energy and general control are off the charts!"

On one end, Mentor Du's eyes widened in disbelief. He let down his crossed arms gradually, eyes still remaining on Wang Xian.

"How can he be so insanely strong before reaching the Dan Realm?"

When the surrounding disciples heard Mentor Du, they couldn't help but be impressed and shocked.

# Chapter 557: My Name Will Start To Spread (6)

"Next!"

Ten seconds later, four disciples of Mt. Wuyin fell on the ground while Wang Xian's voice was heard once again.

"Big brother, Mt. Jiuhua is the next one in the ranking. Follow me, big brother!"

The two lips of Hua Yu knocked together as he was elated when he spoke. Hua Yu was already used to pulling the Spiritual Stone, and now it was the one on the training cliff of Mt. Wuyin.

"Let's go!"

"Let's go!"

Hua Yu hopped on his sword while Wang Xian followed behind. Both of them hovered in the direction of Mt. Jiuhua.

"Damn, he's fu\*king impressive to defeat four mountain sects alone!"

"And he's not stopping. Does he want to do it in one shot? Given his strength, they could at least improve another two to three rankings!"

"Too strong, he's simply too strong!"

Woosh!

Without the slightest hesitation, the disciples from those defeated mountain sects were already on their heels.

"I did not expect Mt. Fengyu to have such an outstanding disciple!"

Mentor Du gazed at Wang Xian in awe. He hesitated slightly before he stood on his sword and flew in the direction of Mt. Jiuhua.

Like all others, he wanted to see how far this disciple could go.

"Next!"

Mt. Jiuhua, fourteen in the rankings, defeated!

"Next!"

Mt. Qing, thirteen in the rankings, defeated!

"Next!"

"Senior Brother, we have come to your Mt. Wuyu," said the petite girl to the young man beside her. She looked at the young man, who was hovering to Mt. Wuyu in stupefaction.

"Heh heh!"

The young man chuckled, but his eyes were half-dazed.

Mt. Qing, who had four Half-Step to Dan Realm Experts, was easily defeated. Even though it did not take a second to fall, it did not take more than ten seconds, either.

Mt. Wuyu had five Half-Step to Dan Realm Experts, including him.

After seeing the sickening combat power of that young man, the corner of his lips twitched involuntarily.

Damn. Given his understanding of Mt. Wuyu disciples, there was no way that they could be a match for this Mt. Fengyu disciple.

"Where did this devil thing come from?"

The young man gritted his teeth as he asked this with an awful look.

"How dare an insignificant Mt. Fengyu challenge us, Mt. Wuyu! You guys are really seeking your own death. Let me deal with all of you alone!"

Just then, the young man heard a familiar and insolent voice.

The eyelid of the young man twitched violently as he propelled his sword hurriedly. He bellowed, "Damn you, Lu Hezheng. Stop your brazen attitude! Who do you think you are? We're admitting our defeat!"

The young man who was pointing his sword at Wang Xian revealed a lost expression when he heard his Senior Big Brother bawling at him. He was stunned as he looked over his shoulder.

"Brother Ming, they're from Mt. Fengyu. It's the trashy Mt. Fengyu! I can single the entire mountain sect out!"

The young man answered his Senior Big Brother in stupefaction.

"The four outstanding fellows from Mt. Qing were walked over easily. You?"

The Senior Big Brother of Mt. Wuyu glowered at him.

"What? How is this possible?"

"I have been watching them all along. We're no match for him. Just throw in the towel!" the Senior Big Brother said with a gloomy look.

He thought of the time when he had said Mt. Fengyu and Mt. Tianshui were two chickens pecking at each other in the beginning.

Now? An outright smack in the face.

If Mt. Fengyu was some chicken, then they were just worms.

"Admitting defeat is the right choice. Mt. Wuyu is clearly no match for this Senior Brother from Mt. Fengyu!"

"That's right. Even though Mt. Wuyu has one Half-Step to Dan Realm expert more than Mt. Qing, it is futile. He's too much for you to handle!"

"Let's go. Next!"

The number of disciples commenting around had hit more than two hundred people.

Everyone was clamoring while various comments went into the ears of Mt.

Wuyu disciples.

That young man of Mt. Wuyu twitched the corner of his lips while the rest of the disciples lowered their heads in silence.

"Next, Mt. Luan, ranked eleventh!"

"Mt. Luan has ten Half-Step to Dan Realm experts. If they send their best five, I wonder if they could go against this Senior Brother!"

"He looks so young, and I have never heard of him before. How can he be so powerful?"

"He's simply too strong, and look at his aloof and dashing profile. I want to marry Senior Brother!"

As they continued their journey, the number of people on their heels had reached nearly three hundred. The more sects they surpassed, the more disciples tagged along.

It was already in the afternoon when Wang Xian was busy with his challenges.

Many of the disciples were following behind with excitement as they skipped their lunch.

After all, they were powerful Martial Artists who could go on empty stomachs for a few days without any issues.

At this time, Mt. Fengyu's ranking had been rising at a frenzied rate. Word of a disciple slamming a bunch of mountain sects' disciples traveled fast.

Scriptures Depository, Sword Cleansing Peak, Assessment Peak, Equipment Peak, Exlir Mountain were five mountains located just next to the main peak.

Before the main peak was one huge cliff that measured a thousand meters tall and ten meters wide.

There was a line on either side of the cliff.

One was the mountain sects' leaderboard while the other one was the young

disciples' one.

Twenty mountain sects were ranked according to their strength.

That went the same for the individual disciples. The leaderboard would show the top twenty young disciples of the Da Hong Immortal Sect.

In Da Hong Immortal Sect, where most of the Martial Artists had a longer lifespan, young men referred to those aged 45 and below.

In other words, it was a leaderboard for disciples aged 45 and below.

The ranking could change at any time.

So long as the one who issued challenges defeated the opponents and pulled down the spiritual stone at their training field, the ranking would dip by one position.

At the same time, the mountain sect who won would increase by one position.

Yet, the leaderboard had undergone rapid and bizarre changes today.

In the beginning, not many disciples paid attention to Mt. Fengyu when they advanced from nineteenth to eighteenth.

Those mountain sects at the bottom of the rankings were usually considered as non-existences. Nobody really cared about what was happening.

However, Mt. Fengyu gradually rose in their rankings.

When they hit the fifteenth, they attracted the attention of many people.

The fifteenth was a mark that represented a Half-Step to Dan Realm expert's presence in the mountain sect.

Yet, everyone was surprised to see Mt. Fengyu hitting the twelfth position in less than an hour.

The sect that was ranked at the twelfth position had five Half-Step to Dan Realm experts. Overtaking them would mean that Mt. Fengyu possessed the strength of defeating five Half-Step to Dan Realm experts.

Just when the crowd was discussing the speedy rise of Mt. Fengyu to the twelfth position, their position was promoted again.

It was already 4 PM.

Wang Xian stood at the training field of Mt. Luan as he spun around slowly.

"Just as we expected. He won; an easy feat once again."

"Fast and furious! Within a short span of a few hours, he raised the ranking of Mt. Fengyu to eleventh place!"

"Is he going to continue? Is he? The tenth in ranking possesses a Dan Realm disciple! "

"Have you noticed? Did you all notice? He hasn't been drawing his sword! Gosh!"

Everyone gasped and looked at Wang Xian in awe. He had battled through eight mountain sects by himself within a few hours.

He had promoted Mt. Fengyu's ranking from nineteenth to eleventh place by force!

Just him alone!

"Next!"

Wang Xian turned a deaf ear to all the discussions around him. He would have wanted to challenge the top three ancestral sects if the rules allowed him to skip levels.

"Next!"

Hua Yu's eyes were already full of admiration. He was thrilled when he said, "Next... No, Big Brother, it's getting late now. When we reach the next mountain sect, the disciples will have stopped their training!"

"Is that so?"

Wang Xian looked at the sky and nodded. "Fine, let's go back now!"

"Yes, we'll head back!" Hua Yu hurriedly said.

Wang Xian made a move and rode off on his sword.

# Chapter 558: The Name Of The Dragon King

Casual and carefree while taking off on his sword.

All the disciples around stared blankly at the leaving figure. Not a single one wasn't impressed and surprised.

"Why haven't I seen this Senior brother before? How did he just shoot up so suddenly?"

"He is definitely peerless below the Dan Realm. In fact, he might even be able to go toe-to-toe with a Dan Realm expert!"

"I'm certain that he has definitely reached the Dan Realm. Otherwise, he wouldn't be that incredible.

Disciples from various mountain sects discussed fervently as they saw Wang Xian leaving.

"Mentor Du said that his attacks haven't reached the Dan Realm. It is just that his swordsmanship and ability to control water are too insane!"

"Mt. Fengyu has really shot to fandom. He has carried the mountain sect on his shoulders alone and has contributed to the rise!"

The comments of the surrounding crowd slowly made their way to the ears of the twenty-odd disciples from Mt. Fengyu.

Their feelings were complicated. Some were agitated but most were exhilarated.

Now that Mt. Fengyu had risen from nineteenth to the eleventh, the resources allocated to them would increase three to four-fold.

Considering that Mt. Fengyu had few disciples, everyone would be able to get substantially more resources and they would also improve drastically.

Yu Ling'er stared at that figure blankly, feeling exceptionally conflicted.

Once, their Mt. Fengyu was also an incredibly strong mountain sect in Da Hong Immortal Sect. Her father was even the strongest existence on the ranking board of youths of various mountain sects.

He was the number one disciple of Da Hong Immortal Sect.

The glory days had since departed from Mt. Fengyu for over ten years. During these years, Mt. Fengyu had fallen to the bottom of the mountain sects.

Her mother was supporting Mt. Fengyu desperately.

She would have never expected the young man that fell from the waterfall, the one who gave her a scare and the one her mother took out precious elixir pills to save would be so incredibly strong.

I have been against him. He probably doesn't have a good impression of me now. No! He hasn't been looking into my eyes from the very beginning.

At the thought of this, Yu Ling'er felt bitter.

"Hey, brothers from Mt. Fengyu. What's the name of this Senior brother? When did he join your Mt. Fengyu?"

At this moment, curious questions came from the surrounding disciples of various mountain sects.

Several hundred disciples, with the majority of them being even stronger than them, were staring at them.

"Wang Xian. Our Senior brother's name is Wang Xian!"

"Wang Xian? Senior brother Wang Xian?"

The surrounding disciples mumbled to themselves as they etched this name into their minds. After this day, the name of Wang Xian would definitely be known throughout Da Hong Immortal Sect.

"He told us his name is Wang Xian and that others call him the Dragon King!"

Yu Ling'er mumbled to herself.

"What? Junior sister Ling'er, what did you just say? His name is Dragon King?"

A disciple from Mt. Fengyu standing by the side was shocked as he looked at Yu Ling'er with doubts.

"Yeah!"

Yu Ling'er nodded her head.

"Dragon King... Haha! This name is truly domineering. The dragon king that creates clouds, casts rain and stirs waves on the surface of the seas. A really apt name!" a disciple from Mt. Fengyu exclaimed loudly.

"Dragon King? What a domineering name!"

The surrounding crowd and disciples were taken aback but exclaimed with a smile soon after.

"That's a really domineering name! Dragon King! Dragon King!"

Wang Xian wasn't aware that what he said casually when he first regained consciousness was now starting to spread throughout Da Hong Immortal Sect.

In Da Hong Immortal Sect, disciples would end their day of training after 5 pm.

All the disciples from various mountain sects could choose to head to the Martial Peak to spar with others. Alternatively, they could continue their practice.

They could also head to the Sword Cleansing Peak to sharpen their weapons, to the Pill Hill to purchase elixir pills, or even to the Scripture Depository to read books.

Whenever the evening arrived, the areas around the main peak would be exceptionally lively.

"Look! Mt. Fengyu's ranking has increased by eight in a single day!"

"How can this...? How can Mt. Fengyu be ranked so highly? Last I recalled, weren't they the second from the bottom? Their entire mountain sect only has

twenty disciples!"

"It's because of a disciple from Mt. Fengyu. He is extremely strong and defeated eight mountain sects alone. Today, disciples from six to seven sects witnessed with their own eyes how he challenged one mountain sect after another. He's really strong!"

"A disciple defeated eight mountain sects in a single day? Could he have Dan Realm-level strength?"

"I'm not certain. Others are calling him the Dragon King. What a domineering name!"

"Dragon King? Who gave him the guts to call himself that? He's arrogant!"

"He had the capital to do so! He defeated eight mountain sects on his own, including crushing five Half-step to Dan Realm disciples easily. These Half-step to Dan Realm disciples are all really strong and tough!"

The surrounding disciples around the main peak stared at the leaderboard vigilantly while discussing in awe.

The news of a single disciple from Mt. Fengyu defeating eight mountain sects alone quickly spread among various disciples.

Some were shocked while others were surprised. However, there were more who weren't convinced.

"I heard that the Dragon King of Mt. Fengyu wanted to challenge the tenth-ranked Mt. Jiulian. However, it was getting late and thus he gave up on the idea. If he had not, I believe Mt. Fengyu would still be able to increase its ranking by several spots!"

"Yeah! The Dragon King is really strong. He definitely has the strength to go against Dan Realm disciples!"

Several disciples that had gone along to spectate in the afternoon looked at the leaderboard on the cliff as they exclaimed emotionally.

"He needs to at least be in the Dan Realm for him to challenge the tenth-ranked

mountain sect. An insignificant disciple calling himself the Dragon King? What a joke!"

"How arrogant! There's not a single supreme talent in the bottom ten mountain sects. There's nothing to be proud of after defeating a pile of scraps!"

At this moment, several disciples walked over, glanced at the leaderboard and spoke with indignance.

Huh?

Several youths looked at the other disciples, frowned and remarked, "That's because you guys haven't witnessed the strength of the Dragon King. If you guys had, you wouldn't be saying the same!"

"Dragon King? Who the hell is he? If he dares to challenge us, our Senior brother Su Fa will teach home a lesson so well that he will be humble. Calling himself the Dragon King? What a joke!" several disciples remarked in contempt.

They shook their heads and continued, "A disciple that rules over the bottom ten mountain sects will at most be capable of being a leader of a flock of chickens!"

Several disciples were full of indignance as they walked past them.

Some youths opened their mouths and wanted to say something but eventually chose not to.

Indeed, Senior brother Dragon King from Mt. Fengyu had not defeated a Dan Realm disciple.

And that Senior brother Su Fa...

They lifted their heads and looked at the leaderboard of youths in Da Hong Immortal Sect.

First: Hong Tianda! Budding Realm!

Second: Piao Lingxue! Budding Realm!

Third: Ao Shuwen! Budding Realm!

...

"The name of the Dragon King isn't something he is qualified to be addressed as!"

"Tianyi Swordsman, Hong Tianda. Wandering Snow Sword, Piao Lingxue. Fengyun Sword, Ao Shuwen. All of them are in the Budding Realm. Moreover, all of them are ranked in the top twenty among the younger generation of disciples in Da Hong Immortal Sect!"

"He will only be considered as one of the most outstanding talents in Da Hong Immortal Sect after he gets into the top twenty. Before that, who the hell is the Dragon King!?"

While the crowd was in awe with the frantic advancement of Mt. Fengyu up the ranking charts, most of the disciples in the top ten mountain sect were nonchalant.

In their eyes, an eleventh ranked mountain wasn't something that would impress them.

So what if he defeated eight mountain sects alone? Does he have the guts to challenge our mountain sect?

We will teach that Dragon King how to be humble!

Calling himself the Dragon King? Is he qualified to accept this title?

# Chapter 559: Art of Water Refining

Yong Chang City was the most prosperous central area and the only city in the Yong Chang world.

A total population of ten million lived in the city, along with the surrounding villages.

But many of them here were ordinary people.

Yong Chang City serviced three Immortal Sects.

After a long-time development, the city had become an ancient bustling city.

There were taverns, restaurants, weapon stores, forging workshops, and elixir stores for both ordinary and Martial Artists. You name it, they had it.

Inborn Spiritual Weapons were for sale, along with high-level elixir pills, which could be purchased with Spiritual Stones.

"Senior Brother Ao, I wonder...how long does it take for the Spiritual Energy in Yong Chang Cauldron to be depleted. Today, I saw the outside world. Looks interesting!"

"This isn't a good thing for us. It's the Age of Dharma Decline outside. The Spiritual Energy in Yong Chang will be reduced by two to three times then!"

"Our world is too small, and it's so boring. The world outside is big. How interesting it would be if we could roam around in the Underworld!"

"Brother Nan, the Dan Realm experts in the Underworld can conquer a territory. Then, wouldn't we be dominating the Underworld if we go out?"

"The Martial Artists in the outside world are trash. Oh, I heard some junior brothers mention that there's an outstanding disciple who emerged from Mt. Fengyu. His name is the Dragon King, who knocked out eight mountain sects alone and promoted Mt. Fengyu's ranking from nineteenth to eleventh."

"Dragon King? Haha, the disciples are talking big nowadays. He's at most a Dan Realm expert. Such a person is not in our league!"

Back at the top floor of a restaurant, there were five young men exchanging conversations with broad smiles.

A young man in the middle revealed a faint smile as he looked out the window as though there was nothing worth his attention.

In Da Hong Immortal Sect, all the experts had their own circles. Even with the appearance of the Dragon King today, they just chuckled and forgot about it.

As soon as Wang Xian returned to his residence at Mt. Fengyu, he picked up the manual of Da Hong Immortal Sect's swordsmanship.

Illusory sword, water sword.

Following these up would be the Sword of Extreme Frost and Sword of Extreme Heat.

"Illusory sword, water sword, Sword of Extreme Frost, and Sword of Extreme Heat are just types of application using water energy. Water Tiers Blade is considered a Sword Technique. But other than that, there aren't any other Sword or Battle techniques!"

Wang Xian read the content in the manual with brows furrowed.

I better head to the Scriptures Depository for the real battle techniques, and I must be quick. It would be better still if I could get some resources like Spiritual Grass or weapons!

"Wang Xian!" Just when he was in his thoughts, Mentor Yu called out to him.

Wang Xian looked up and saw Mentor Yu walking to him.

"Your strength surprised me!"

Radiance flickered in Mentor Yu's eyes, who appeared slightly emotional.

Wang Xian smiled and said nothing. Since he arrived at this place, his words had

reduced significantly. After all, he belonged to the outside world.

"You promoted Mt. Fengyu to eleventh place. This time, the resources for Mt. Fengyu will be greatly increased. Do you have anything you want? Anything that can help you in your cultivation?" asked Mentor Yu to Wang Xian, looking at him.

"I want to enter the Scriptures Depository!"

Wang Xian answered frankly. After a slight hesitation, he asked again, "Mentor Yu, does Yong Chang have any huge lakes around?"

"I have a token that allows access to the Scriptures Depository with me. Since I'm not using it, you can take it. We don't have any huge lakes around here, just some small streams."

Mentor Yu handed him a token.

"Hur?"

Wang Xian froze for a moment as he was startled, seeing the token.

"The ranking of a mountain sect determines how much resources the mentor can receive. Take this token, and you can enter the Scriptures Depository. The time remaining for your stay is around one day!"

Mentor Yu continued to explain, "Next month, all of you will receive five hours of reading time in the Scriptures Depository. At the same time, you can enter the first story of the Scriptures Depository!"

Wang Xian nodded. "Thank you, Mentor Yu!"

"You're welcome. This is what you deserve. You don't have to hurry with the challenges of other mountain sects. Pace it according to your strength, and no casualties allowed!" Mentor Yu reminded Wang Xian.

Wang Xian nodded. "Mentor Yu, I would like to go to the Scriptures Depository and pick some battle techniques!"

"Okay, go on!"

Mentor Yu nodded with a smile as she watched him riding on his sword to the main peak.

The main peak was the most eye-catching one amongst peaks of Da Hong Immortal Sect.

Before the main peak was a thousand-meter-wide waterfall with several towering peaks surrounding it.

The Scriptures Depository was right beside the main peak. It was situated at the top of a big and tall building.

The building was about fifty meters tall, and looked extremely lofty.

Wang Xian rode his sword and came to the Scriptures Depository. He gazed around as soon as he arrived.

He saw disciples walking in with identity tokens in their hands. When Wang Xian came to the door, he handed the token to a middle-aged man beside him.

"Mentor's token. You have 25 hours remaining in it. You can enter the second story, and the first story will not consume time in the token!"

Wang Xian nodded and entered.

The large number and myriad of books in the Scriptures Depository of Da Hong Immortal Sect really widened Wang Xian's horizons.

In particular, the first story. However, there were not many books on cultivation, but rather, a variety of general knowledge books.

Thousands of people stayed put on the first story, but it was nothing to such a massive library.

"Oh, this is the map of Yong Chang world!"

Wang Xian walked over immediately when he saw a map in an eye-catching spot.

"Yong Chang City is huge!"

Wang Xian scanned the map and memorized the entire map.

After he surveyed the books around him, he went up to the second floor.

"An array! There's a Protection Array on the second floor! Without the token, no one can enter here. If the token does not come with enough corresponding energy, access is prohibited too!" Wang Xian exclaimed in surprise. An Immortal Sect is, indeed, an Immortal Sect.

After he entered it, he noticed that the second floor was much smaller than the first story. However, a variety of secret cultivation manuals and guide books written by experts based on their experiences could be found over here.

"Battle techniques!" Wang Xian murmured as he swept his gaze around. There were a few hundred disciples on the second floor, looking down, reading their books with seriousness.

This place was different from the first story, as the time limit was exercised here. Nobody dared to waste any time at all.

"Path of Swords!"

"Path of Water Applications!"

"Art of Water Refining!"

Wang Xian hurriedly headed to the three distinct zones. But he went to the Art of Water Refining zone, instead of the Path of Swords zone.

"What's the difference between Water Refining and Inferno Refining?"

With doubt in his eyes, Wang Xian immediately walked to it.

As soon as he saw the book on the Art of Water Refining, he quickly flipped it open and began reading.

"No alchemy furnace, forging table, hammer required. Only for refining elixir pills and Spiritual Weapons that are levels below myself. This Art of Water Refining is so convenient!"

Wang Xian's eyes were gleaming, as he had thought of a quick way to gain resources!

# Chapter 560: Another Insane Aspect Of The System

[Ding! Mastered Art of Water Refining. Refine All Equipment With The Origin Source Water!]

Refine All Equipment With The Origin Source Water!

Wang Xian's lips curved into a smile. What's the most lucrative business? Refining equipment and elixir pills!

With the almost cheating-level Origin Source Flame to refine, Wang Xian had never failed and the effects of his refining were a hundred percent retained.

He could fully rely on this method to earn a huge amount of resources.

If he could obtain sufficient elixir pills and spiritual equipment, he could consume these elixir pills to boost his strength or keep them to be distributed to the dragonians or members of the Dragon Palace subsequently.

Otherwise, how could they ever match up to the people from Yong Chang world?

Wang Xian also knew that other than Yong Chang world, there were nine other cauldron worlds.

In perhaps a few years, they would all surface in the real world.

Wang Xian's eyes beamed as he looked towards the direction of the Path of Swords. He walked straight towards it.

Eh? What is this?

When he entered the region of the Path of Sword, Wang Xian saw various jadestones on top of books and scriptures.

There weren't many jadestones, with each one being separated by a certain

distance. In the entire region, there were only seven jadestones.

"Battle Techniques Imaging. Inject spiritual and mental energy into the jadestones to see the images of battle techniques!"

Imaging. Could it be similar to the jadestone I saw earlier today that are capable of recording? Spirit arrays are indeed exceptionally mystical!

Wang Xian was in awe. He picked up the jadestone and found a line of instructions below it.

[Water Clone!]

Water Clone? What's the difference between this and the water clone I'm capable of creating?

Wang Xian was slightly shocked. He held the jadestone with both hands, focused his mind and injected spiritual energy into it.

Weng!

The next instant, a mystical image appeared in the mind of Wang Xian.

A human figure started demonstrating before his eyes. The circulation of water energy, control...

The demonstration lasted for a full thirty seconds.

As compared to what Wang Xian had come up with previously, this Water Clone was more perfected and agile.

[Ding! Master Preliminary Battle Technique: Water Clone!]

At this moment, the voice of the system sounded, shocking Wang Xian completely.

A notification from the system! It's a notification from the system!

All along, there had been extremely few notifications from the system. Other than the exceptions of the construction of the Dragon Palace and mastering refining arts, there weren't any other notifications.

He had not expected the system to prompt that he had mastered Water Clone after watching the battle techniques imaging.

Could it be that I have to fulfil a certain requirement before the system will release a notification? This system is really lonesome. If it could issue missions, rewards or an item exchange framework, it would then be perfect. My own development still has to rely on myself. How depressing!

Wang Xian heaved a huge sigh.

However, what Wang Xian didn't know was that a divine dragon didn't need to master any battle techniques. Once he achieved the first Divine Dragon Transformation, he would automatically receive the legacy of superpower.

Superpower was a tier above battle techniques.

However, it was also because Wang Xian wasn't certain of the path ahead that he could open a path to invincibility that belonged only to him.

In Wang Xian's mind, the foundation had to be solid. It would always be great to acquire more knowledge.

The reason why powerful humans could slay a dragon was exactly that they had mastered a range of subjects.

Wang Xian placed the Battle Techniques Imaging jadestone back in its original position. He looked around and realized something really interesting.

There were at least several hundred secret manuals in the entire region. All of them were explanations on Water Clone and one's understanding.

[The crux of mastering Water Clone!]

[The control and use of Water Clone!]

[The control of multiple Water Clones!]

[The correct application of Water Clone!]

There were several hundred such books with the names of certain experts left on

them.

Wang Xian even saw an explanatory book on Water Clone by Sword Immortal Hong Yun that was placed in the middle of this region.

Sword Immortal. An existence that was likely in the Immortal Realm.

It would seem that mastering Water Clone wouldn't be easy for other disciples. They might even need several or even dozens of years to understand. As for myself, I'm feeling like I have mastered all the important aspects of Water Clone in an instant!

Wang Xian's eyes beamed with excitement.

He walked to the other Battle Techniques Imaging jadestone.

[Sword. Preliminary Sword Edge Storm Technique!]

Wang Xian lifted the Battle Techniques Imaging jadestone and started deciphering.

[Ding! Mastered Preliminary Battle Technique: Sword Edge!]

Sword Edge. Creating the blade of the sword with extremely chilling water. A disciple that I fought in the day seemed to be using this move. However, he was easily defeated as there is a huge difference in strength between him and me.

Wang Xian's eyes beamed with excitement. Sword Edge could be used for ranged attacks and close combat.

"Continue!"

[Ding! Mastered Preliminary Battle Technique: Instant Shift!]

[Ding! Mastered Preliminary Battle Technique: Sword Imprisonment!]

[Ding! Mastered Preliminary Battle Technique: Sword Explosion!]

[Ding! Mastered Preliminary Battle Technique: Sword Cloud!]

[Ding! Mastered Preliminary Battle Technique: Shield Sword!]

Wang Xian quickly mastered various battle techniques as he assimilated the information from the Battle Technique Imaging jadestones. In fact, he was able to incorporate these techniques into his battles right away.

What's the use of battle techniques? There were too many to list! Considering identical body conditions, those with ample battle experiences and techniques could easily defeat five to six of their peers. In fact, they could even defeat more than a dozen people with similar body qualities.

The strength of battle techniques was as such.

They could enhance the release of one strength to the maximum.

Wang Xian went to the region of Path of Water Applications once again.

As compared to the Path of Swords, the Path of Water Applications only had three Battle Technique Imaging jadestones in the entire region.

The first was Water Contact, the second was Water Chill, and the third was Hidden Mist.

The Hidden Mist had similar effects as when Wang Xian relied on water vapor to hide his real whereabouts. However, the area covered by the Hidden Mist was much broader and had better effects on masking one's location.

Within a short period, Wang Xian had fully mastered ten battle techniques on the entire second floor.

There are at least several thousand books and yet there are only ten battle techniques... This...

Wang Xian was feeling a little disappointed. What he didn't realize was that each battle technique was, in fact, a series of attack techniques and methods. One would be considered incredible if they could fully master one or two.

Those who could master three to four battle techniques would be classified as exceptional talents.

Taking Water Clone as an example, the control of the clone, the techniques to employ when engaging enemies, and the possible applications during battles

were extremely broad. If one could fully master one battle technique, his fighting capacity would be greatly enhanced.

I can't get to the third floor?

Wang Xian frowned slightly and was clearly disappointed.

As compared to feeling shocked when he first came in, he was now completely disappointed. He looked around once again before heading for the exit.

After he passed through the spirit array, his allocated time was deducted right away. Wang Xian looked at the hourglass by the side and realized only an hour had passed.

After getting these battle techniques, now I have to think of getting resources. I need to obtain sufficient elixir pills to first raise my strength to Level 9.

Wang Xian pondered as he walked. Now that he had mastered the Art of Water Refining, he could start considering where he should start.

"Dragon King! That's the Dragon King!"

"Huh? He looked pretty good. That emotionless face of his made him seem a little more arrogant."

As time passed, the actions of Wang Xian, the Dragon King and Mt. Fengyu were becoming known to more and more people.

When he stepped out, he was instantly recognized by a few disciples who looked towards him.

"A person that dares to declare himself King after getting to the top of the bottom ten mountain sects? How arrogant!" A young man looked at Wang Xian harshly as he walked towards him.

Behind him, there were six other youths following!

# Chapter 561: Defeat Enemy In One Strike; Top Twenty of Da Hong

Martial Artists, regardless of which era they were in, were known to be inattentive to details, and commonly preferred to keep a long unkempt hairstyle. But this young man was clean-cut and had short hair.

His eyes were extremely sharp and he looked obstinate and unruly.

"Hmm?"

Wang Xian was deep in thought when he noticed the young man in front of him. Instinctively, he moved aside.

"Oh? Is the Dragon King always such a wuss?" the young man exclaimed after seeing Wang Xian side-stepping to his right. His derisive look intensified while his arms folded behind him and he smiled coldly at Wang Xian.

Wang Xian stopped and slowly raised his head, peering at the young man.

"That's The Phantom, Kong Guanglin!"

"Kong Guanglin is pitting himself against the Dragon King!"

"How dare a disciple under a mountain sect that is ranked eleven call himself 'Dragon King'? Pfft! He is just an arrogant and impertinent kid!"

"Dragon King? That title irks me to no end. Is he able to live up to such a title?"

"Haha, this is getting interesting. The Phantom Kong Guanglin is ranked among the top twenty of the Da Hong Immortal Sect's list of Outstanding Youths. He is also the head honcho of Mt. Jiulian. Coming from a mountain sect that was ranked tenth, you can imagine how strong he is to be able to rank among the top twenty outstanding youths!"

"I guess it was the Dragon King trying to challenge Mt. Jiulian yesterday that led to the ire of Kong Guanglin, which is why he is finding fault with him today!"

"You can't blame anyone for your actions. It is important not to show your arrogance in front of Da Hong Immortal Sect. Otherwise, you will be dealt with severely by experts!"

The surrounding disciples taunted from the sides when they saw Kong Guanglin staring at Wang Xian.

Most of these disciples came from the top ten mountain sects. They had scoffed at the Dragon King ever since they heard about him, and now they were elated at the sight of Kong Guanglin confronting him.

"I heard that there are rewards for being ranked among the Outstanding Youths?"

Wang Xian looked at Kong Guanglin and asked this casually, at the same time shifting his glance to the enormous cliff beside him.

"Eh?"

Kong Guanglin was momentarily startled before replying with a cold stare.  
"What a maniac you are. If you are ranked among the top twenty outstanding youths, you will be rewarded handsomely every month. Unfortunately, you are not qualified to enjoy such a privilege!"

"Simple. I will just have to defeat you to qualify!"

Wang Xian had his eyes on Kong Guanglin and spoke calmly in his direction.

"Haha, fools rush in where angels fear to tread. I love your guts. As a consequence of your preposterous challenge, I will cripple your arm!"

Kong Guanglin laughed at Wang Xian's words, staring at him coldly at the same time.

"Such arrogance. Senior brother Kong, destroy this kid and let him know how strong Mt. Jiulian is!"

"How dare you challenge Senior brother Kong! You will soon pay the price for your insolence!"

The disciples who were following behind Kong Guanglin glared at Wang Xian

with contempt.

"For someone with such mediocre strength, he sure talks big!"

"He does talk big. Challenging Kong Guanglin? I don't know where he finds the confidence to even propose that!"

"Haha, interesting. The Dragon King versus The Phantom Kong Guanglin!"

The surrounding audience was slightly taken aback by Wang Xian's intention to fight Kong Guanglin, but at the same time, they were thrilled by the proposition.

"It has been a while since someone showed such arrogance in front of me. That broadsword you wield is a fine piece of weaponry. If you lose, I will get to keep it!"

Kong Guanglin pointed at Wang Xian with roaring laughter. "Today, I, Kong Guanglin, have a new challenger, the Dragon King. Fellow brothers, come witness our fight at the Martial Peak!"

Kong Guanglin's voice echoed through the surroundings, and everyone within a radius of a thousand meters was able to hear him loud and clear.

"Haha!"

As soon as he finished speaking, he made a loud chuckle and flew towards the Martial Peak with his sword in hand.

"Is it true that the winner gets to keep the loser's possessions?"

As Wang Xian watched Kong Guanglin move towards the peak, his face was beaming.

He followed closely behind and flew towards the Martial Peak as well.

"What? The Dragon King is challenging Kong Guanglin? Is he trying to court his death?"

"Such arrogance and conceit are as good as courting death."

"Let us head over and see how Senior brother Kong oppresses that show-off!"

"Senior brother Kong will not show any mercy to his opponents. Every one of his moves will be extremely deadly!"

The disciples of the scriptures depository, as well as those from the neighboring peaks, were delighted to hear the voice of Kong Guanglin. One by one they headed towards the Martial Peak.

Even the weakest among the top twenty disciples of the Da Hong Immortal Sect ranked in the Dan Realm.

This match between the two experts would undoubtedly be exciting to watch.

Wang Xian took a look at the surrounding disciples with a faint smile.

It was obvious that Kong Guanglin was here to find trouble with him. But this was exactly what he wanted as well.

Boom!

Wang Xian landed himself in one of the arenas as he realized that there were at least fifty arenas on Martial Peak.

The arena that they were about to compete in was situated near the top of the peak. Kong Guanglin had already entered the arena while he stared at Wang Xian with contempt.

The group of Da Hong Immortal Sect disciples levitated themselves and surrounded the arena. Their faces were filled with excitement.

"Come, I will teach you a lesson today not to be impudent in front of Da Hong Immortal Sect. Always stay low profile and humble here!"

Kong Guanglin raised his broad sword in the direction of the descending Wang Xian. "I will let you attack first!" he said mockingly.

"Hear ye! This is exactly how we will educate our new batch of newcomers every time!"

"Things are getting interesting. If the Dragon King is taught a lesson by Kong Guanglin today, then his title will be nothing but a joke in the future!"

The surrounding crowd mocked Wang Xian, unbridled.

"Have a taste of my battle technique!" Wang Xian said lightly with a faint smile.

Channeling water energy into his body, Wang Xian thrust forward with his unsheathed broad sword.

"Sword Edge!"

"Water Clone!"

In an instant, Wang Xian moved his broad sword, bursting water energy and casting two battle techniques at the same time. The Water Clone, armed with a Sword Edge, made a slash for Kong Guanglin.

The real Water Clone battle technique did not create a clone that appeared as a blob of bluish water but as an exact clone of Wang Xian.

"Huh? Water Clone? You dare to use the Water Clone battle technique in front of me, The Phantom?"

Kong Guanglin saw Wang Xian's battle technique and spoke with disdain in his eyes.

With a turn of his body, he generated five exact clones of himself.

"Kill!"

With a wave of his arm, his water clones started to attack in the direction of Wang Xian's water clone.

The two were about a hundred meters apart, with eyes on each other.

Kong Guanglin slowly formed a smile as his water clones assailed.

Poof! Poof! Poof!

But his face soon turned stiff as he realized that his water clones had been easily destroyed without showing any sign of resistance.

"Sword Edge? Excellent. I wasn't expecting your water clone to be controlling a

Sword Edge. An ingenious move!"

Kong Guanglin showed slight respect for his opponent with his broadsword now unsheathed.

Clang!

The Ten Tiers Blade with ripples appearing on its back struck towards Sword Edge.

# Chapter 562: Doubting One's Existence

"The Dragon King is pretty strong. Using his water clone to control the Sword Edge, he easily broke through Senior Brother Kong's water clone."

"He's pretty strong but it is going to end soon. Senior brother Kong has gotten serious. He has even started using his Ten Tiers Blade!"

Over five hundred disciples hovered in the air on their swords around the battle. When the battle started, they had stopped discussing as they watched attentively.

Seeing Wang Xian's attack, the surrounding disciples were shocked.

However, that remained as such.

Senior brother Kong had gotten serious. If the Dragon King was simply what the rumors had mentioned, there would be no uncertainty in this battle.

Every single disciple that was in the top twenty was insanely powerful.

"Break!"

Kong Guanglin shouted as he swung his longsword onto the Sword Edge.

"Instant Shift!"

Seeing Kong Guanglin's attack, Wang Xian shimmered in blue light.

Weng!

Instant Shift! Where there was water, one could erupt with twice the speed that he typically could achieve.

When Kong Guanglin slashed at the Sword Edge, Wang Xian's body merged with his water clone.

Bam!

The Sword Edge was crushed by Kong Guanglin. However, before he could even get excited, a sword scabbard landed on his chest.

Bam!

"What?"

Kong Guanglin's eyes widened in disbelief as he started spewing blood uncontrollably.

Wang Xian walked silently to Kong Guanglin and looked down on him. Creating a rope out of water, he took the longsword in Kong Guanglin's hands away.

He also took the bag of approximately two hundred spiritual stones away.

"YOU... You..."

When Kong Guanglin saw Wang Xian taking away his spiritual stones and spiritual longsword, he felt greatly humiliated.

"Thank you!"

Wang Xian looked at him and spoke plainly. Subsequently, the longsword he retrieved went below his legs as he took off into the sky.

Swish!

Wang Xian left the place with the crowd completely dumbfounded.

Sss!

The surrounding disciples gasped in astonishment as they stared blankly at Kong Guanglin, who was still on the floor.

"He just lost?"

"Kong Guanglin has just lost? Isn't that a little too darned simple?"

"Is this considered a move or two? Freak... The Dragon King..."

"It isn't just us who are feeling overwhelmed. Even Kong Guanglin must be feeling a little overwhelmed currently. Look. His eyes are dead!"

"As the twentieth-ranked disciple, he didn't even manage to last two moves. The Dragon King is indeed strong. The question is how strong he really is."

"Damn! He's too strong. When he challenged the other disciples during the day, not a single mountain sect lasted more than ten seconds. Even Kong Guanglin met the same outcome. I believe his strength would easily place him within the top ten supreme talents!"

"Where did this monster come from? What he just used was probably Sword Edge and perhaps Instant Shift. His speed exploded by several times. It was so fast that I didn't even catch a glimpse of him moving!"

When Wang Xian's figure disappeared completely from sight, exclamations broke out from the surroundings.

In the arena, Kong Guanglin stood up gradually. He still looked a little out of sorts.

Did I just lose?

"I wasn't careless just now and yet I lost. His strength..."

Kong Guanglin lifted his head and looked in the direction where the figure had disappeared. Suddenly, a helpless feeling welled up within him.

When he first heard of the name of the Dragon King today, he had snorted with contempt.

When he saw the so-called Dragon King entering the Scripture Depository, he wanted to teach him a lesson right away.

However, he would have never expected this outcome.

Ten seconds?

Perhaps not even that.

Around him, when the disciples saw the desolation in Kong Guanglin's eyes, they were even more astonished.

The twentieth-ranked supreme talent in Da Hong Immortal Sect was beaten so completely that he started doubting his life.

He didn't speak of having a second match ambitiously and he didn't lower his head with shame.

Instead, he started doubting his life?

"The Dragon King will truly be on the rise after this. If he could defeat Kong Guanglin so easily, he would definitely be considered among the ranks of the supreme talents of Da Hong Immortal Sect. Similarly, he will definitely make it to the top ten!" a middle-aged man remarked emotionally while envy beamed in his eyes.

After this incident, there would probably not be a single person who would say the Dragon King was a pushover.

Once again, a shining disciple had appeared within the Immortal Sect.

"Great, great. With this level of talents, he isn't any inferior to the top three disciples!"

"Hehe! Our Da Hong Immortal Sect is really lucky to have a disciple like him appearing at this juncture. Although the Underworld outside is really trashy, we will still have to compete with the other nine cauldron worlds."

"Having a supreme talent disciple will definitely be a positive thing. With his strength, it is almost certain that he will rank in the top ten!"

"Yeah, that's about right. Sword Edge, Water Clone and Instant Shift... Is he a disciple that Mt. Fengyu has been secretly grooming?"

At the peak of Martial Peak, two old men were playing chess. They looked down and commented with a smile.

...

Two hundred spiritual stones. I wonder what I could buy with spiritual stones in this world. Also, this Level 10 Inborn spiritual sword can be sold too. I wonder how much it is worth in spiritual stones! Wang Xian thought to himself.

He looked in the direction of Mt. Fengyu and flew directly towards it.

"The reward today was really pathetic. I only got a single spiritual stone!"

"I didn't even get one!"

"The spiritual stones in the spiritual ore mine are getting fewer and fewer. We've got to think of other ways to earn spiritual stones soon!"

"Where are you thinking of going? Could it be you are thinking of heading to Yong Chang City to work? Would you even be able to get ten spiritual stones in a month? To buy Level 5 spiritual medicine, you would need two to three hundred spiritual stones!"

"Have you guys forgotten that Senior brother Wang Xian has raised the ranking of our Mt. Fengyu to eleven? Each of us will at least be getting twenty spiritual stones for the coming month!"

"Oh ya! I had almost forgotten about this. Haha! It's great to have Senior brother Wang Xian around!"

Just as Wang Xian arrived at Mt. Fengyu, he heard the conversation between the six disciples from Mt. Fengyu.

Spiritual ore mine? Earning spiritual stones?

Wang Xian sank into deep thought. Spiritual stones could be used to enhance cultivation. The speed of cultivation using spiritual stones would be four to five times that of ordinary cultivation.

However, cultivation using spiritual stones was highly exhaustive. A spiritual stone would not even last for an entire day of cultivation. Therefore, few disciples were willing to use them for training.

"Hey guys!" Wang Xian looked at the six disciples and shouted.

"Huh? Hey, Senior brother Wang Xian! What can we do for you?"

When the six disciples saw Wang Xian, they replied with respect and anxiety.

"Where can I find the spiritual ore mine? Where else could I earn spiritual stones?" Wang Xian asked.

"Oh? Spiritual ore mine? The spiritual stone mine can be found behind our Da Hong Immortal Sect. However, it has been excavated for more than a thousand years. There is almost nothing left in it."

A male disciple answered in a hurry. Soon, he continued, "To earn spiritual stones and resources, you can also head to Yong Chang City to look for a job other than excavating the spiritual ore mine. With Senior brother Wang Xian's strength, you will be able to get twenty to thirty spiritual stones per month as a mentor!"

"Yong Chang City? Are there any equipment refining or elixir pill refining shops in the city?"

"Yeah! If Senior brother knows how to refine equipment or elixir pills, it will be even easier to earn spiritual stones. Senior brother, why don't we bring you to Yong Chang City for a tour?"

"No thanks! It's alright!"

# Chapter 563: Saint Forge Workshop

Yong Chang City was a huge and developed city.

Most of the old buildings were built from huge black stones and wouldn't be shorter than twenty to thirty meters.

Orderly streets crossed and the most central region of Yong Chang City was where four main paths merged.

At this moment, the entire Yong Chang City was still well lit despite it being past 8 PM.

"It's so crowded. There are probably seven to eight million people in the entire Yong Chang City!"

Wang Xian was astonished by the seemingly boundaryless huge city. While standing in the air, he recalled what the other disciples from Mt Fengyu had told him.

The central region of Yong Chang City was the most prosperous area. At the same time, it was where many martial artists gathered.

Those who lived in the vicinity were either rich and wealthy families or experts from the three Immortal Sects.

Yong Chang Immortal Sect, Immortal Slaying Sect and Da Hong Immortal Sect. They had been in Yong Chang world for over a thousand years and their relationship had become complicated.

There were countless occasions of marriage between disciples of these three Immortal Sects, forming countless families that were affiliated with these three Immortal Sects.

As a result, there were various families in Yong Chang City on top of the three Immortal Sects. These families had the backing of the Immortal Sects and were established by disciples of these Immortal Sects.

There were also ordinary people in Yong Chang City. However, martial artists made up the majority. There were also powerful Budding Realm experts living within the city.

Naturally, there were also Immortal Realm experts in it.

The common currency was largely spiritual stones.

In the past, the three Immortal Sects had chosen this piece of bountiful land for Yong Chang Cauldron to suppress. It was only natural to expect that the resources available to this place were exceptionally immense.

Various spiritual medicine and spiritual equipment was exchanged within Yong Chang City.

In Yong Chang City, one could even get their hands on Level 5 and 6 elixir pills.

Level 10 spiritual equipment was common while Level 11 spiritual equipment would appear from time to time. As for Level 12 spiritual equipment, it could occasionally be found in auctions.

This was the powerful and prosperous Yong Chang City.

Wang Xian arrived at the most central region where the four main paths of Yong Chang City merged. He started observing his surroundings.

"Equipment refining workshops, elixir pills shops, weapons shops and spiritual equipment shops... This place is really prosperous!"

Wang Xian looked around and headed towards a shop.

An Inborn Spiritual Weapon is worth roughly seven hundred spiritual stones!

A Level 5 elixir pill is worth roughly eight hundred spiritual stones!

Spiritual Flame Ball! There are spiritual flame balls for sale here!

As Wang Xian walked across the street of shops, he was astonished.

In his view, the Inborn Spiritual Weapons and Level 5 elixir pills were all relatively cheaper than in the Underworld.

Perhaps that was because this place had immense resources.

Saint Forge Workshop! The disciples from Mt Fengyu told me that this is the strongest and most reputable place in Yong Chang City for refining elixir pills and equipment. This place was established by experts from both Yong Chang Immortal Sect and Da Hong Immortal Sect. This shall be the place!

Wang Xian revealed a faint smile.

Just as the other disciples of Mt Fengyu had said, those who could refine elixir pills or refine equipment were those who could earn spiritual stones and resources the quickest.

Wang Xian wasn't thinking of working for the Saint Forge Workshop. Instead, he was thinking of becoming a freelance alchemist or blacksmith of this place.

Freelance alchemists and blacksmiths could sign a contract with the Saint Forge Workshop. They would provide you with a certain set of materials in exchange for a fixed amount of spiritual equipment or elixir pills. As for the remaining materials, they were considered as the freelancer's remuneration.

For Wang Xian, this was the perfect arrangement. He strongly believed that with his insane Origin Source Arts, he would obtain an unimaginable amount of resources regardless of whether he had chosen equipment refining or elixir pills refining.

Not a second to waste! Wang Xian thought to himself as he stepped into the Saint Forge Workshop.

"Hi, Sir, welcome! Are you interested in getting spiritual equipment or elixir pills?"

When an employee saw Wang Xian stepping in, he immediately welcomed Wang Xian with a faint smile.

"Hello! Are you guys recruiting alchemists?" Wang Xian asked the employee.

"Alchemist? Are you applying to be an alchemist or an alchemist apprentice?" the employee asked Wang Xian.

"Alchemist! I know about elixir pill refining," Wang Xian replied directly.

"Please come with me."

The employee stole another glance at Wang Xian and felt that Wang Xian was even younger than him. He reminded, "It isn't easy to become an alchemist of our Saint Forge Workshop. The minimum grade elixir pills you have to refine is Level 3. Moreover, you need to reach a minimum of a thirty percent success rate!"

"I understand!"

Wang Xian nodded his head as he followed behind the employee.

"I've succeeded! Haha! I've succeeded!"

When he arrived at the back of the shop, Wang Xian could hear exhilarated laughter.

"Master Xuanhuo has really succeeded!"

"I've succeeded! Finally! Although I'm a little ashamed of wasting ten sets of materials, I've finally succeeded!"

"That's great! Brother Ao, this is a Level 12 spiritual weapon. You can now challenge for the number one disciple of Da Hong Immortal Sect with this Water Shark!"

"Oh gosh, it's a Level 12 spiritual weapon. Many Budding Realm experts in the sect couldn't afford this either!"

Behind the store of Saint Forge Workshop, there were two extremely broad areas. One was for refining elixir pills while the other was for equipment refining. The area for refining elixir pills was a little further from the Saint Forge Workshop.

Five young men stood before an old man while discussing fervently. In the middle of the group was a beautiful spiritual sword.

"Master Xuanhuo is the strongest master blacksmith in our Saint Forge

Workshop. He can even forge Level 12 spiritual equipment now. Remember to be courteous when you meet him in the future!"

When the employee heard their conversation, his eyes beamed with excitement.

Creating a single Level 12 spiritual weapon after using eleven sets of materials, what a waste of precious materials!

Wang Xian looked across and shook his head plainly.

"Haha! Congratulations, Old Huo! This is the second piece of Level 12 spiritual equipment you have forged. With your level of forging skills, you could easily rank in the top five in the entire Yong Chang world.

At this moment, a blacksmith heard the commotion and walked out of his room to give his congratulations.

There were even some alchemists who went over to congratulate him.

"Haha! I was lucky! I was lucky!"

Master Xuanhuo smiled contentedly. This was Level 12 spiritual equipment! Other than those Immortals in Yong Chang world, who could possibly forge one?

There were definitely less than two people and he was one of them.

"Congratulations! Master Xuanhuo could very well be a grandmaster-class blacksmith!"

Five to six alchemists walked over and congratulated Master Xuanhuo.

The employee beside Wang Xian saw the alchemists. After their conversation had ended, he walked towards an old man.

"Master Qingming, there's someone here to apply to be an alchemist!"

"Huh? Who? We are always in need of more alchemists!" Master Qingming raised an eyebrow and asked loudly.

"Master, he's right there!"

The employee pointed at Wang Xian and spoke with a smile.

"Huh? Are you sure you are applying to be an alchemist?"

When Master Qingming saw Wang Xian, he was a little shocked and started scrutinizing him.

"Yeah. I'm here to apply to become an alchemist. A freelance alchemist!" Wang Xian answered Master Qingming directly.

There were two types of alchemists in Saint Forge Workshop. One was internal alchemist while the other was a freelance alchemist.

For an internal alchemist, they would receive a fixed amount of spiritual stones each month after passing the assessment.

As for freelance alchemist, he would have to collect materials from Saint Forge Workshop and submit a fixed amount of elixir pills.

If there were materials remaining, Saint Forge Workshop would have no claim to them!

# Chapter 564: Opened Shop

The reason why Wang Xian had chosen to apply to be an alchemist was mainly because he wanted to increase his level.

With the immense energy within elixir pills, he could increase his level to Level 9.

"Freelance alchemist? Hey kid, you sure are confident of yourself!"

Master Qingming looked at Wang Xian in shock and said, "It's really rare to see an alchemist as young as you are!"

Wang Xian smiled in response but didn't say a word.

When Master Qingming witnessed Wang Xian's composure, he got ready to give him an assessment.

"He is..."

"Eh? Isn't this the Dragon King from Mt Fengyu?"

At this moment, an exclamation sounded from the side. Wang Xian was surprised too and turned his head to look to the side.

A young man was observing him inquisitively.

"He really is!"

Seeing Wang Xian looking over, the young man's lips curved into a smile. He scrutinized Wang Xian from top to bottom, rubbed his chin and remarked, "I don't see any deer horns or dragon whiskers. It would seem that he's not living up to his name."

"Haha! Xingjian, you are really hilarious. Deer horns and dragon whiskers? Should he also have a tail?" another young man joked and laughed out loud.

"Retards!"

Upon hearing their conversation, a cold light flashed in Wang Xian's eyes as he remarked coldly.

Huh?

Huh?

The group of young men were stunned, including the one who was holding his longsword in his hand.

Retard?

He just called Xingjian and the rest retards?

At that instant, the smile on the two young men stiffened as their eyes went cold.

Wang Xian looked away and didn't pay attention to them. People like them would have been crippled by him if they were in the Underworld.

"Hey kid! Do you have the guts to repeat yourself!?"

Xingjian pulled a long face and glowered at Wang Xian.

Wang Xian didn't bother at all. He turned to Master Qingming and asked, "Master, can we start the assessment now?"

"Assessment? Sure!"

Master Qingming glanced at Wang Xian and nodded his head.

"Really arrogant!"

Ruthlessness gleamed in the eyes of Xingjian and the other young man. They exchanged glances and their lips curved into a smirk.

"Brother Ao, you will have to stand up for us!"

The two of them turned around and spoke with a smile to the young man holding the sword.

"You guys are my brothers!"

The young man with the Level 12 spiritual equipment spoke plainly before turning to Master Xuanhuo.

"Master Xuanhuo, these two are my brothers. Can you do me a small favor?" the young man asked Master Xuanhuo with a faint smile.

"Haha! Since Young Master Ao has spoken, this is just a small matter!"

Master Xuanhuo naturally knew what the young man was hinting at. He waved his hand nonchalantly, looked to Master Qingming and said, "Old Ming, we are not accepting this alchemist!"

"Alright! Since Young Master Ao has spoken, it's only natural that we show him face!"

Master Qingming had no hesitation at all. He smiled, looked at Wang Xian and said plainly, "Kid, as you have seen, you have offended those who you shouldn't have!"

Huh?

Wang Xian's eyes squinted together and killing intent gleamed in his eyes.

"Your name is Dragon King? They have asked you to scram! Why are you still here?"

Xingjian looked at Wang Xian with ridicule. He walked towards Wang Xian before continuing, "Let me tell you this! You can forget about joining the Saint Forge Workshop in this lifetime. Moreover, I can guarantee that no alchemist workshop will accept you. If you don't believe it, you can give it a try!"

"You are the first person who has dared to scold us. Therefore, you will have to pay a price you never would have expected!"

The other young man crossed his arms before his chest while staring at Wang Xian.

"Alright. I'll remember this."

Wang Xian looked at them emotionlessly. He looked plainly across the five of

them, Master Qingming and the rest before heading out.

"Tsk! How ignorant!"

"When we get back, it's time to investigate the background of this Dragon King. Interesting! He actually dares to scold us!"

"This kid probably didn't know who we are. However, ignorance doesn't equate to bliss in our place. If he wishes to find a job as an alchemist, I'll make sure he won't find one in the entire Yong Chang City!"

"Haha! Just leave this to me! I have connections with basically all the alchemists in Yong Chang City!"

The group of young men wasn't trying to hide their conversation at all.

Fighting is restricted in Yong Chang City. If I want to kill them, I can only do so in the arena!

When Wang Xian heard their conversation while heading out, he recalled some of the rules of Yong Chang City.

"It seems like I have to raise my level to Level 9 soon!"

Dense killing intent shimmered in Wang Xian's eyes. "Even if I can't reach Level 9, before I leave this world, I have to..."

He had etched this incident into his mind.

Walking out from the Saint Forge Workshop, Wang Xian frowned. He looked to the surrounding weapons shops and elixir pills shops!

There were also many shops recruiting alchemists and blacksmiths.

However, Wang Xian frowned upon recalling what that alchemist master and blacksmith master had said.

Wang Xian had never expected to encounter hurdles in looking for a job as an alchemist and blacksmith.

At this moment, he felt a little annoyed.

Creak!

"Move aside. Move aside!"

Just as Wang Xian was walking forward aimlessly, he heard a shop closing up.

Wang Xian lifted his head and looked over. A middle-aged man was putting up a notice on the doors of the shop.

Shop for rent! A hundred spiritual stones for a month!

Wang Xian was taken aback and an idea struck him. He sank into deep thought and soon mumbled, "This might work too!"

"Let's give it a try!"

Wang Xian made up his mind, looked at the middle-aged man and asked, "Hello, is your shop for rent?"

"Huh? Yeah! Didn't you see it?"

The middle-aged man was surprised by Wang Xian and pointed to the notice on the door.

"Can I have a look at the shop?" Wang Xian replied directly.

"You are interested?" The middle-aged man scrutinized Wang Xian with doubts.

Wang Xian nodded his head and answered, "If it's suitable, I'll be renting it!"

"Alright, come in and take a look then!"

The middle-aged man seemed to find Wang Xian a little too young. He hesitated for a moment before nodding his head and opening up the door.

"Have a look around. This shop has three levels and each level is around twenty-five square meters. The area isn't big but this shop is within the most central region of Yong Chang City. A hundred spiritual stones for a month is completely reasonable!"

The middle-aged man opened the door and continued his explanation. "There are

some tables inside. The highest floor is a bedroom and the bed and cabinets are new!"

Wang Xian looked around and nodded his head with satisfaction.

"I'm taking this shop!"

"You really are taking it?"

"I can pay now!"

"Great. Give me a moment. Let's go through the procedures right away!"

The middle-aged man had not expected the shop to be rented out so easily. Brimming with excitement, he said, "You have to pay three months of rent first!"

"Alright!"

Wang Xian nodded his head. After selling the Inborn Spiritual Weapon he got from Kong Guanglin, he paid the rent.

# Chapter 565: The First Customer (1)

"I have a shop now. Next, it's the customers!"

After Wang Xian and the middle-aged landlord settled the store together, the moon was already up in the sky.

Wang Xian took a look at the tiny shop with a satisfied look on his face.

He did not want to open a shop in the first place for fear of too much trouble.

The alchemy and equipment refining system in the Yong Chang world was already matured. Hence, there was no direct sale of Spiritual Grass and materials.

Instead, all the alchemy and equipment refining stores would collect and procure Spiritual Grass and materials for refining equipment.

This prohibited Wang Xian from earning the difference of self-purchasing Spiritual Grass to refine his own elixir pills.

Many things had been monopolized in the small and prosperous Yong Chang.

No one would need to worry about the materials when going into the store as they could straightaway forge their items.

But opening a shop by himself meant that customers would have to prepare all the materials by themselves.

But he would not sell elixir pills or weapons, but rather, he would provide a processing service.

When customers approached him with materials, he would refine them into elixir pills and Spiritual Equipment.

This would be the first store that provided such a service in the all of Yong Chang.

He created this type of store not for its uniqueness, but rather, it was a helpless act.

"If not, I'd have to stay in the shop and wait for business every day!"

Wang Xian raised his eyebrows, but soon, he straightened out his thoughts.

At present, there was nothing to learn in Mt Fengyu either.

He had already mastered the first level of battle techniques. To learn the second level, he needed to come up with resources for exchange.

Two thousand Spiritual Stones in a day.

This was a massive number to any disciple of Da Hong Immortal Sect.

Unless the disciples came from a wealthy background whereby their parents could afford such an amount, ordinary disciples would not be able to cough out two thousand Spiritual Stones.

"There's nothing to do even if I stay in Mt Fengyu. Why don't I just inform Mentor Yu?"

Wang Xian hesitated before he locked up the store and rode off to Da Hong Immortal Sect on his sword.

"Hur? Mentor Yu, you're still up!"

Wang Xian came to the living room and was surprised to see Mentor Yu having tea. He hurriedly greeted her in shock.

"Waiting for you to get back. I did not expect your strength to be so great!" Mentor Yu exclaimed as she looked at Wang Xian with glistening eyes.

She did not expect that the injured young man she picked up from the waterfall could promote Mt Fengyu by nine positions in one day!

"It was beyond my expectation too."

Wang Xian smiled and did not comment further.

"Since you beat Kong Guanglin today, cease your individual challenges and mountain sect challenges for the time being," said Mentor Yu.

"Hur? Why?"

Wang Xian was startled as he looked at Mentor Yu.

"Tenth place is good for us. The disciples of Mt Fengyu are not eligible to access the resources for tenth position and below. Besides, making a showy display on your ability might not be a good idea!" said Mentor Yu to Wang Xian.

Wang Xian revealed a contemplative look as he understood what Mentor Yu was trying to say.

Mt Fengyu's disciples were weak. If they received resources that were completely unmatched with their own strength, it would trigger grievances and jealousy. Though no one would say anything on the surface, some finger-pointing from the others was inevitable.

If a Dan Realm disciple decided to seek trouble from an Inborn disciple, that would be an easy job even with Da Hong Immortal Sect's rules and regulations in place.

"How about the individual leaderboard?" asked Wang Xian.

"If you possess the strength of the top three, you may go ahead and challenge as you wish. Now, you should just slow down and maintain a low profile!" Mentor Yu suggested to Wang Xian.

"I got it, Mentor Yu. I would like to have my cultivation outside for a short period!" said Wang Xian as he nodded.

"Outside? Sure. But you need to return once a week. I'm your mentor, and I'm responsible for you!" said Mentor Yu to Wang Xian.

"Great!"

Wang Xian nodded.

"Take a good rest. I'll be claiming our resources for the mountain sect and your

resources for the twentieth position of individual outstanding supreme talents."

Mentor Yu exhibited a smile.

"Yes, Mentor Yu!"

Wang Xian nodded with gratefulness.

"Have a good rest!"

Mentor Yu walked up the stairs as soon as she finished talking to Wang Xian.

Wang Xian looked at the disappearing figure and smiled.

Mentor Yu was considered to be the closest person to him in this Yong Chang world.

I must repay her gratitude in the future!

Wang Xian pondered to himself. He did not return to his room, but rather headed to Yong Chang City on his sword.

When he arrived at the marketplace of Yong Chang City, Wang Xian did not rest. He went shopping and bought three signboards.

A horizontal one and two vertical ones.

On the horizontal one, he engraved "Alchemy and Blacksmith Master." The other two signboards were used for the introduction.

"Bring your own materials. Refining pills by an alchemy master."

"Bring your own materials. Forging by a blacksmith master."

Wang Xian revealed a satisfying look as he hung the signboards outside his shop.

He then went to purchase some tables, chairs, and tools at night.

After three hours of work, he finally got the entire shop ready.

"Now, I'll just wait for business to come!"

Wang Xian revealed a faint smile and came to the third story to rest.

The next morning, he opened the shop early and waited for customers to come in.

The daily traffic volume was crazy in the central area of Yong Chang City.

From early in the morning, there was non-stop human flow in front of the stores on the street.

However, no one entered the store.

Compared to the shops around him, his shop was tiny.

Besides, his decoration was far off from those shops around him. It was a stark contrast, as his shop looked rundown.

The elixir stores had posh decorations and a refreshing and spirit-lifting herb smell at the entrance, while one could sense sharpness from the other weapon stores even from afar.

His shop did not have any features.

"Alchemy and Blacksmith Master? What a brag. How can such a small store have masters around?"

"Why would such a master reside in such a small place?"

"Now that our Spiritual Stones are becoming fewer, unscrupulous businessmen are increasing. Haha, it's just a tiny, twenty square-meter place, and the signboard puts 'Alchemy and Blacksmith Master.' Pui!"

"A new shop? This is obviously a scam! If such masters were around, they would hold an opening ceremony. That would naturally draw the attention of the crowd. Scammers!"

Some passers-by took a peek inside the shop with curiosity when they saw the signboards outside. But after they took a look at the shop, they commented

disdainfully.

Many people passed by the shop from morning to afternoon. Some people noticed the signboards, but all of them were disdainful and ridiculed them.

"How is it possible to have a master in a tiny shop like this? Besides, why would masters be staying here?"

"This is typical lousy marketing."

Wang Xian was sitting in the shop as he overheard the sarcastic remarks mentioned by the passers-by as they stopped by for a brief moment. However, he was not disheartened and waited patiently.

This was his first day of business, and he remained patient.

Cream would always rise up to the top. He would make his name known in Yong Chang soon!

## Chapter 566: The First Customer (2)

"Saint Forge Workshop couldn't even fix your weapon. They aren't living up to their name! This is just a Level 11 weapon!"

At the entrance of the Saint Forge Workshop, two girls walked out from the workshop with disappointed looks. A young girl with two ponytails pouted and grumbled unhappily.

"Bo Yu is too unique and they aren't confident. The main reason is still because we have too few materials!"

The other girl beside the girl with the ponytails frowned and was clearly a little unhappy.

"Sister Xue, why don't I get you a piece of Level 1 spiritual equipment as a gift?"

Seeing Sister Xue frowning, the girl with the ponytails held her arm and spoke with a smile.

"Bo Yu is the most suitable weapon for me. Moreover, this was given to me from my grandma and I have been carrying it for over twenty years."

The other girl shook her head.

"It's all because of that brat from Yong Chang Immortal Sect. Tsk! Sister, you should have trimmed away all his hair!"

The girl with the ponytails waved her fists angrily.

The other girl remained silent and didn't say a word. Her eyes looked in the direction of another forge workshop.

"What a joke! A small shop like this and yet they dare to claim they have an alchemist master and a blacksmith master. They are really taking customers as fools!"

"Exactly. Look at this shop! There's nothing in there. No weapons or elixir pills! It must be a scam!"

At this moment, the girls heard the voices of two middle-aged men.

That girl's eyes followed the source of the voice and looked across.

Huh?

"Eh, it's just as they have said. What an interesting shop! alchemist master and alchemist master refining personally for you? Customers to prepare all materials? They sure are arrogant. However, this shop is pathetically small. Isn't this too obvious of a scam?"

The young girl with the ponytails was also attracted by the conversation of the two middle-aged men. She looked towards the shop and blinked her eyes speechlessly.

"Why would an alchemist master or a blacksmith master remain in a small shop like this! Tsk! The owner is really brainless!" the young girl with the ponytails continued and found this to be hilarious.

The other girl looked inside the shop and was clearly hesitating.

"Sister Xue, let's go to Bai Ling Forge Workshop. They also have a famous blacksmith master."

The young girl looked away from that shop, pointed to another weapon shop a short distance away and spoke.

Huh?

However, when she saw the other girl, she realized that the other girl was staring at the shop beside her and was in deep thought.

"Sister Xue, you can't be thinking that this small little shop really has a blacksmith master!" the young girl with ponytails exclaimed.

"I know the blacksmith master from Bai Ling Forge Workshop. He's a lot weaker than Master Xuanhuo!"

The other girl frowned and walked directly into the shop.

"Aiya! Sister Xue, you... How can you even believe the notice outside this shop!" the young girl with ponytails shouted but still followed behind.

"I'm just thinking of giving it a try. It wouldn't take up much time either!"

The other girl insisted and walked ahead. She was just hoping for a miracle.

"This... Alright. If there isn't any blacksmith master in this shop, I'll report this shop and seal it up!" the young girl with the ponytails exclaimed as she pouted and walked into the shop.

"Huh? Customer?"

Wang Xian was seated in the shop while manipulating small water clones in his hands when he saw the two girls walking in. He lifted his head and stood up.

"Does this shop have a blacksmith master?"

When the girls stepped into the shop, they looked around before their attention fell on Wang Xian.

"Yeah!"

Wang Xian looked at the girls and eventually at the short sword in the girl's hand. He was able to tell that the short sword wasn't ordinary from a single glance at the scabbard.

"Where's the blacksmith master?" the young girl by the side asked Wang Xian immediately.

"What kind of weapons are you two interested in forging? Do you two have the materials? As long as you have sufficient materials, I'm a hundred percent certain of successfully forging Level 12 spiritual equipment and below!"

Wang Xian looked at the young girl with ponytails as he replied.

"Tsk! What a reassuring tone!" the young girl pouted. "Where's the blacksmith master? No matter how I look at it, your shop just seems like a scam to me!"

Swish!

The other girl pulled out the short sword from the scabbard.

The short sword was as light as a feather and as white as snow.

The entire blade was as thick as a piece of paper and seemingly transparent.

However, the tip of the blade was chipped off.

"Level 11 spiritual weapon. The name of the sword is Bo Yu. Can you restore it?" the other girl asked directly.

"Restore?" Wang Xian raised an eyebrow and took Bo Yu from the other girl.

"Where are the materials?" Wang Xian asked directly.

"Bing Yi Metal!" The other girl took out a piece of metal that was a little transparent.

Bing Yi Metal: Level 12

"What a waste of precious materials!" Wang Xian mumbled softly when he saw the piece of metal in the girl's hand.

"Huh? What do you mean by wasting precious materials?"

When the young girl with ponytails heard Wang Xian, she questioned him right away.

She had seen Wang Xian as a scammer all along.

"Using Level 12 materials to forge a Level 11 Weapon. That's obviously a waste of precious materials!"

Wang Xian spoke to the young girl with ponytails.

"Can you restore it?" the other girl frowned and asked. The truth was she wasn't harboring high hopes on it.

"So what if we are using Level 12 materials to forge a Level 11 spiritual

weapon?" the young girl with ponytails retorted and was seemingly looking down on Wang Xian for not understanding.

"Yes. As for remuneration..." Wang Xian nodded his head and observed the materials in the girl's hand. He was estimating the amount that would be left before assessing if he would require further remuneration!"

"Two thousand spiritual stones. As long as you can restore it, I can give you two thousand spiritual stones!"

Before Wang Xian answered, the girl interrupted.

Huh? Wang Xian raised an eyebrow and said, "Alright. The remaining materials will belong to me!"

"Alright!"

The girl didn't hesitate for a moment as she stared fervently at Wang Xian. "That's only if you can restore my Bo Yu!"

"Get your spiritual stones ready and give me ten minutes!"

Wang Xian took the Bing Yi Metal from the girl and went to the second floor right away.

"This... This..."

The young girl with ponytails looked at the back view of Wang Xian with doubts and mumbled, "Is the alchemist master on the higher floors?"

"Let's wait for ten minutes!" the other girl said to the young girl.

"I keep having the feeling that this shop is a little strange and weird!"

The young girl mumbled on. After which, she looked around and continued, "There aren't even chairs for customers to rest in! What kind of wretched shop is this!?"

The other girl also frowned. However, she wasn't worried that this shop was up to something.

No one dared to scam her, Piao Lingxue!

"Who would have thought that my first business would be so lucrative? Two thousand spiritual stones and the remaining materials!"

Wang Xian went to the second floor and his eyes were beaming with excitement. It would seem that opening this shop was the right decision after all.

Looking at the Bo Yu sword in his hands, Wang Xian's lips curved into a smile.

"Art of Water Refining!"

Wang Xian waved his arm and sat on the floor. A pool of water energy surfaced before him as he threw Bo Yu sword on it.

[Ding! Would you like to use the Origin Source Water to refine spiritual equipment?]

At this moment, the notification of the system popped up, making Wang Xian smirk.

"Refine!"

At that moment, scorching heat was emitted from his body. The Origin Source Water was boiling at an incredible temperature.

This was an application of water energy and was known as Boiling Water!

Using the Art of Water Refining to refine equipment was the equivalent of refining with boiling water!

# Chapter 567: The Two Shocked Girls

## (1)

Water has a temperature limit, but the temperature will rise when oil is added.

Everything melts in the form of water.

"The Art of Water Refining has great demand for strength and energy!"

Wang Xian looked at the melting Bo Yu sword as he revealed a smile.

The usual blacksmith master with Art of Water Refining would require an immense amount of energy to melt Bo Yu sword slowly. This could probably take up to an hour or two.

Even so, many water-refining blacksmith masters required spiritual objects like a Spiritual Liquid Ball to support the work.

But not Wang Xian. His Origin Source of water and the system worked like plugins.

Bo Yu sword is as light as a feather that slices with sharpness. However, there's a drawback to its hardness. If the hardness of the sword can be enhanced, this sword will become a Level 12 Spiritual Sword!

Wang Xian pondered to himself with a relaxed expression.

Given his current strength, it was an easy job for him to refine a Level 11 weapon using Art of Water Refining.

"Dismantle!"

"Melt!"

"Combine!"

...

Wang Xian went according to the tip of the Art of Water Refining and began the repair.

Art of Water Refining had a significant disadvantage as it could only solidify melted metal once. That is to say, the performance of the metal might be reduced if it is repeatedly dissolved and refined.

Based on this characteristic, the success rate of Art of Water Refining was far lower than the Art of Inferno Refining.

However, this did not pose a problem to Wang Xian either.

This was because the Origin Source Water was able to keep the metal properties despite repeatedly dissolving it.

Just like how he'd done while refining the elixir pills, the Origin Source Flame could ensure that the effectiveness of the pills remained.

Wang Xian did not know if this was because of the system or the Origin Source Water. In any case, it was sick.

"Done!"

Within five minutes, the Bo Yu sword was completely fixed.

Wang Xian exhibited a smile and looked at the remaining materials.

The remaining material was of a palm-size and weighed about a kilogram or so.

Obviously, it was not enough to refine another short sword.

"Since that girl is rich, why don't I...!"

Radiance flickered in Wang Xian's eyes as he smiled while looking at the remaining material.

"I can make some thin weapons like hidden weapons. That would make this a real Bo Yu sword."

Wang Xian looked at the hilt.

The hilt was not made of Bing Yi Metal, but larderite stones that were Level 11 material, and it was smaller than the average hilts.

Wang Xian looked at the hilt and drew his lips slightly. Immediately, he dug out six layers on the hilt with Art of Water Refining.

Every layer was so thin that it could only fit a piece of paper.

Wang Xian took out the remaining Bing Yi Metal and began to forge Bo Yu swords. However, the six Bo Yu swords did not have any hilts and were over ten times smaller than the girl's Bo Yu sword.

Each one of them was only the size of two fingers, yet the sharpness and grade were not any lower than the original Bo Yu.

Soon, the six mini, hilt-less Bo Yu swords appeared in the hands of Wang Xian.

"Next, I'll make it a set, and the mini Bo Yu swords can return to the sword when triggered."

In the records of Art of Water Refining, not only did a suit have a low-grade connection of energy like the Devil Wings and Devil Shadow Masks made by Wang Xian, but also a spiritual connection.

Spirituality could be understood as the magnetic field in modern terms.

This is the principle of magnetic attraction.

Art of Water Refining called it the Spiritual Complement, which was more troublesome.

"It looks like it will take another ten minutes!"

Wang Xian pondered, but he was not bothered by it as he continued with his craft.

...

"Ten minutes is up, why isn't that guy coming down?"

At this time, the young girl looked at the timer on her wrist and remarked

impatiently downstairs.

The girl furrowed her brows slightly. "It's been ten minutes already. Obviously, he can't fix Bo Yu!"

"If he can't fix it, why did he say ten minutes? Is he playing games with us? The more I see this shop, the more I feel it's unreliable!"

The young girl scanned around and noticed that there were no valuable items around. Suspiciously, she speculated, "Sister Xue, do you think this shop is a scam? Even though your Bo Yu is damaged, its value is still quite high!"

The girl's eyebrows locked even more tightly upon hearing the young girl's comments. With a flash of blue radiance, she immediately went upstairs to check it out.

"He's still here!" said the girl with relief.

"This is odd. Why would a master stay in such a rundown shop?"

The young girl pouted as she complained.

"Hur?"

However, what the young girl had just said stunned her. Slowly, her expression darkened. She immediately went upstairs again with flickering blue radiance on her body.

There was only one person around. She was certain about it.

Be it the second or the third story, there was only one young man around.

The expression on the girl's face gradually turned awful.

"What's wrong, Sister Xue?"

Sensing something wrong with her, the young girl quickly asked her this.

"There's only a young man in the entire shop and no one else!" the girl replied with a sullen face.

"HUR? What do you mean?" The girl was confused, but subsequently, she jumped. "Sister Xue, are you saying that there's only a lad over here, and no other masters around?"

"Yes, I don't sense the presence of other people. Unless..." The girl darkened her expression with flickering radiance in her eyes. "Unless he's the blacksmith master!"

"He's a blacksmith master? How is this possible? How old is he? All the masters have to be deeply involved in the field of blacksmith and alchemy for decades and centuries. Even the most talented alchemy master, Ou Ziming, could only forge Level 10 Spiritual Weapons at the age of forty!"

The young girl spoke at the top of her lungs.

Alchemy and blacksmith were not easy subjects to master. It was way more complicated than cultivation.

As the most skilled sect among the three Immortal Sects, the most outstanding blacksmith of Yong Chang Immortal Sect could only forge Level 10 Spiritual Weapons at age forty.

Even so, he was known to be the future blacksmith master, the blacksmith genius of Yong Chang Immortal Sect of the last thousand years. It was possible for him to reach the realm of a Grand Master too.

But how old was that lad? He might just be over his twenties.

"This is an unscrupulous shop. It must be!"

The young girl was furious. On her little face, her long lashes were fluttering in anger.

Clang!

She drew out an exquisite belt sword immediately. "Sister Xue, let's go. We'll go up and teach this unscrupulous owner a lesson. How dare he cheat us? Doesn't he know our names in Yong Chang City?"

The girl showed some hesitation before she nodded her head slowly.

Bo Yu sword was a sword she had been carrying around since she started her cultivation. It was extremely important to her.

She did not think that the lad in the shop, who was in his twenties, could be a blacksmith master.

# Chapter 568: The Two Shocked Girls

## (2)

"Scammer up there, you better get down here right away!"

The young girl with ponytails held her belt sword and resembled a furious kitten. While walking up furiously, she shouted.

Huh?

Wang Xian retrieved the last Bo Yu sword from it and revealed a satisfied expression.

In the end, he heard the shouts of the young girl with ponytails right away.

Wang Xian raised an eyebrow.

"There's nothing up here in this wretched place. Where's the blacksmith master?"

At this moment, the young girl with ponytails appeared on the second floor. She walked into the room where Wang Xian was while observing the surroundings.

Other than two tables and two benches, there was nothing else on the second floor.

"Hey, scammer! What tricks are you up to?"

The young girl with ponytails held her sword at Wang Xian as she demanded, "Where's Sister Xue's Bo Yu sword?"

Behind the young girl with ponytails, the other girl was clearly unhappy when she saw the short sword in Wang Xian's hands was still kept within the scabbard.

"You are here at the right time! It's done!"

Wang Xian wasn't bothered by the young girl's fury as he threw the Bo Yu sword to the other girl.

"It's done?"

The other girl was doubtful as she caught her short sword.

Swish!

A crisp sound reverberated as the short sword was drawn from the scabbard!

Huh?

Huh?

Two exclamations broke out as the girls looked at the Bo Yu sword.

Swish!

As she swung her arms around lightly, snowflake-like miniature Bo Yu swords appeared on the main Bo Yu sword.

"It's restored. Oh my god! It's really restored!"

The other girl beamed with excitement as she moved her hands over the previously broken spot with disbelief.

"Sister Xue, this... Is it really fixed?"

The young girl with ponytails by the side was astonished as she stared blankly at the Bo Yu sword in the other girl's hands.

"It's indeed Bo Yu sword. Moreover, there's no difference from the one I'd been using previously.

The other girl was agitated. She moved her palm slightly and controlled Bo Yu sword to rotate it above her palm.

Snowflake-like miniature Bo Yu swords appeared, making it extremely captivating.

"Eh! Something isn't right with the sword hilt?"

At this moment, the other girl felt something amiss with her Bo Yu sword. She

grabbed onto the hilt of the sword right away as she examined the hilt immediately.

Doubt flashed in her eyes.

"Did he do something to it!? As I said, he's definitely up to something. This is a scam! A scam!" The young girl with ponytails rumbled on instantly and stared harshly at Wang Xian.

"Bo Yu sword has indeed been restored!"

Wang Xian faced the young girl with ponytails and continued, "As for the sword hilt, there are six layers in it which I can restore anytime you wish. I was wondering if this lady here is interested in purchasing some weapons!"

As he spoke, his gaze shifted to the other girl.

"Bo Yu sword has indeed been restored. As for the sword hilt, it's not a huge matter. It's just..."

The other girl lifted her head and looked at Wang Xian with shock and doubt. "What are you trying to sell me?"

"Give me the sword!"

Wang Xian extended his hands towards the girl as he spoke.

The girl didn't hesitate at all and handed Bo Yu sword to Wang Xian.

Wang Xian shifted his palm and the six miniature Bo Yu swords, roughly the size of two fingers, shot into the sword's hilt.

He held Bo Yu sword in his hand before swinging it.

Weng!

The Bo Yu sword was triggered and six miniature Bo Yu swords shot ahead.

The next moment, they rotated and returned to the Bo Yu sword.

The entire process lasted for only seconds.

Wang Xian held the Bo Yu sword upright and manipulated the six miniature Bo Yu swords to circle around the main sword.

"I have used the remaining materials to forge six Level 11 miniature Bo Yu swords!

"These miniature Bo Yu swords can form a set with the main sword. In battle, you could have more variations in attacks!" Wang Xian explained. The next moment, he flicked the six miniature Bo Yu swords away.

Weng!

Just as the miniature Bo Yu swords fell on the ground, the main Bo Yu sword dazzled in blue light. The next moment, the six miniature swords returned to the main sword.

"I wonder if this lady is interested in purchasing these six miniature swords?"

Wang Xian looked at the girl and spoke with a smile.

"This... This..."

At this moment, the girl was dumbfounded. Her eyes were fixed on the miniature swords circling around the main Bo Yu sword. Astonishment was written all over her face.

"This... You..."

She was incoherent. She knew clearly after using the Bo Yu sword for over twenty years.

Now that there were six additional miniature Bo Yu swords, just the attacking aspect would be several times stronger.

Moreover, these six miniature swords were all Level 11 spiritual equipment!

Level 11 spiritual equipment!

Although weapons used for sneak attacks were relatively cheaper, that was only a relative concept. Level 11 spiritual equipment was still Level 11 spiritual

equipment!

The most crucial point was Wang Xian had made the six miniature Bo Yu swords to be a set with the main Bo Yu sword!

Naturally, she knew how incredibly strong set weapons were!

An entire set of weapons could greatly enhance one's strength.

Although the six miniature swords were different from the typical armor-type equipment, they could still greatly enhance her attacking potency.

"These were all created by you...?"

When the girl spoke, she immediately realized how dumb her question was.

There was no one else other than him in the entire shop. Just a while ago, they were still doubting if this was all just a scam.

"This young man is a blacksmith master! Moreover, he's a great blacksmith master!"

Astonishment flashed across the eyes of the girl.

She had seen many geniuses and supreme talents in Yong Chang world. In fact, she was widely regarded as one of them.

Yet, she was still deeply shocked to see such a young blacksmith master.

How long had it been? Just over ten minutes?

In this period, he had restored her spiritual sword. This was something that the famous Master Xuanhuo couldn't even restore!

What was the most insane was that he had even forged six other miniature swords to make them into a set.

This incredible refining technique was comparable to the work of God.

"What do you think?"

Upon hearing that girl, Wang Xian smiled and responded.

"What? You... You... You really are a blacksmith master?"

The young girl with ponytails widened her eyes as she stared with disbelief at Wang Xian.

A young man like him is a blacksmith master?

This isn't a scam?

Instead, this was a shop opened by an insanely incredible blacksmith master?

"Would this lady like to purchase these six miniature swords?"

Sensing the fervent looks on the girl, Wang Xian asked once again with a smile.

"Yes. Quote me a price!"

Just as he finished his question, the girl answered resolutely.

"The value of a set of weapons isn't comparable to ordinary spiritual equipment after all. However, you are my first customer. I'll charge you the market rate for each miniature sword!" Wang Xian replied to the girl directly.

"Market price? Alright!"

The girl nodded her head without a moment of hesitation. Purchasing these swords at the market price was definitely a great deal!

"Level 11 equipment used for ambushing is roughly five thousand spiritual stones each. Since there are six, it will be thirty thousand spiritual stones!"

As Wang Xian spoke, excitement beamed in his eyes!

# Chapter 569: Demon-like Master (1)

Thirty-thousand Spiritual Stones for just any business that dropped by. If the shop had such good businesses in the future, he could earn even more Spiritual Stones.

Perhaps a hundred thousand a day?

In that way, upgrading the Dragon Palace would be a piece of cake, not to mention enhancing his own strength.

A tinge of excitement flashed in Wang Xian's eyes as he stared at the girl in front of him with a beaming face.

"Thirty thousand Spiritual Stones?"

The girl paused as thirty thousand was a hefty amount. However, she was determined to get the six miniature Bo Yu swords.

"What is it? Can't you afford it?" Wang Xian frowned slightly and asked her.

"This is way too expensive. Thirty thousand Spiritual Stones! Who could take them out in one shot. Besides, the material you used for making these miniatures swords were from Sister Xue. You're way too cunning. At most, we'll offer ten thousand Spiritual Stones!"

Upon hearing the price that Wang Xian quoted, the young girl immediately resented him.

Taking out thirty thousand Spiritual Stones in one shot was really difficult for them.

After all, they were consumables, which most people used to buy weapons and elixir pills for enhancing their strength.

"There's another way. You can use materials that are equivalent in value to exchange for it. Regardless of whether they're refining materials or Spiritual Grass, they are fine!"

Wang Xian proposed this to them.

Exchanging it with materials would be better. Compared to giving him the Spiritual Stones, Wang Xian was more inclined to receive materials.

"Give me some preparation time!" said the girl as she nodded slightly toward Wang Xian.

"Sure!"

Wang Xian nodded. With a swing, he took the six miniatures Bo Yu swords back and stretched out his arm. "Pay me the Spiritual Stones for the restoration of the Bo Yu sword first!"

The girl was slightly taken aback while the other young girl was staring at Wang Xian with a startled look.

Phew!

The girl took a deep breath as she handed Wang Xian the Spiritual Stones which she had been prepared for. She looked at him and said, "I'm Piao Lingxue. You can be assured that I won't owe you any money."

"I'm running a small business, no credit allowed!" said Wang Xian with a smile.

As Wang Xian received the Spiritual Stones, he was surprised to hear her name.

Piao Lingxue, the number two on the young supreme talents ranking of Da Hong Immortal Sect. Her strength had reached the Budding Realm.

Yet, this lady looked to be at most thirty years old. She looked like one favored by the gods.

"Hey, you, Sister Xue already said she won't owe you any Spiritual Stones. She means it. What's wrong with you?" The young girl pointed at Wang Xian with discontent and said, "Isn't the name of my sister worth thirty thousand Spiritual Stones?"

Wang Xian chuckled. "My business is not good. So I don't take credit!"

"How can the business of a blacksmith master be bad?" Piao Lingxue commented with indignation. She, Piao Lingxue, was one of the top-notch talented girls in Yong Chang world.

In other places, the name 'Piao Lingxue' could be worth over ten thousand Spiritual Stones or even more than that if she ever wanted to take on credit.

Yet, this young man totally disregarded it.

"It's bad. You guys can see it with your own eyes. As such, come and collect your six miniature swords whenever you have the Spiritual Stones!"

Wang Xian shook his head at her.

"Then," the young girl rolled her eyes and said, "if we refer some business to you, can we get a discount on the Spiritual Stones?"

"Oh? Refer some business?"

Wang Xian was taken by surprise. He immediately replied, "Sure, if the business value is relatively high, I can give you a discount of thousands or up to ten thousand Spiritual Stones!"

"Great, I have your word on it!"

The young girl squinted her eyes, revealing a lovely dimple. She tugged Piao Lingxue by the arm.

"Don't you eavesdrop. We'll go down now!"

The young girl pointed at Wang Xian and grabbed Piao Lingxue's arm. She whispered, "Sister Xue, we can refer disciples in our mountain sect to him since this cheapskate fellow is a blacksmith master. It's not easy to find one. Besides, this silly fellow doesn't have any business. If we bring out his reputation, the girls in the sects will readily agree to it. They are probably wishing for this!"

Upon hearing how the young girl addressed Wang Xian, Piao Lingxue smiled with flickering radiance in her eyes. "Indeed. Average disciples are not qualified to get a blacksmith master to forge their Spiritual Weapons!"

There was a cunning look in Piao Lingxue's eyes. She did not know why this blacksmith master was in such a miserable state, but this was beneficial to her.

"Master!" Piao Lingxue called out to the second floor as she craned her head.

"What is it?"

Wang Xian walked down from the second floor and looked at them.

"I'll go back to gather the Spiritual Stones, and refer you some customers. What is your closing time?" asked Piao Lingxue to Wang Xian.

"I'll always be here," said Wang Xian to the two girls.

"Great, we'll be right back!"

Piao Lingxue nodded as she headed outside with the young girl.

"Refer me more customers for refining elixir pills too. I'll give you more of a discount!"

Wang Xian's voice came from behind.

Piao Lingxue paused for a while with a cold face.

To think that she was the most talented girl of Mt Xue Immortal Sect. Now she became someone who needed to rely on such a method for some Spiritual Stones discount?

Her face was blushing slightly as she felt embarrassed.

"You said it. Wait for us!"

The young girl, on the other hand, was very excited. "Sister Xue, let's gather all the disciples who need to forge their weapons and refine elixir pills. And then... hiak hiak, let's just take the six miniature swords for free!"

The young girl clenched her fists with an excited look. She spoke with a resolution. "I want this cheapskate fellow to vomit blood!"

"Customers for elixir pills? Don't tell me this guy knows alchemy too? Could he

be an alchemist master? No, that couldn't be possible!"

After Piao Lingxue calmed down, she recalled what Wang Xian had said. Unlike the young girl, she was not silly or naive.

However, it was hard for her to believe that he was a master of alchemy too.

To become a blacksmith master for a guy in his twenties was already sick enough. How could he be an alchemy master too?

"Forget it, we'll find out in due time!"

Piao Lingxue's eyes gleamed as she looked at her Bo Yu in her hand. She was in a chirpy mood as she headed to Mt Xue with the young girl on their swords.

Mt Xue, the mountain sect in second placing among Da Hong Immortal Sect, was a unique sect as all their disciples were female.

Mt Xue never took in male disciples.

As the number-two mountain sect among Da Hong Immortal Sects, the disciples were incomparable with those from Mt Fengyu.

There were over two hundred female disciples.

No one dared to provoke any girls from Mt Xue in the entire Da Hong Immortal Sects or even in the Yong Chang world.

Not only because the leader, Piao Lingxue was strong, but also because they had many admirers.

Mt Xue was four or five times larger than Mt Fengyu. In the evening, the entire Mt Xue was unusually lively.

Disciples of other mountain sects such as Immortal Slaying Sect and Yong Chang Immortal Sect were all present.

# Chapter 570: Demon-like master (2)

The entire Mt Xue was the liveliest place in Da Hong Immortal Sect.

Countless female disciples were cultivating and practicing on the training field. There were also disciples from other mountain sects. Some of them were even graciously guiding the female disciples.

Mt Xue was able to rank second among mountain sects because they had the true strength to support their ranking instead of relying on the privileges of female disciples.

One could easily tell from the strength of Piao Lingxue.

"Wanbai, inform Beiling, Beibei and the rest. Ask them to gather those disciples who are interested. I'll be bringing all my spiritual stones here first!"

When the two girls arrived at Mt Xue, Piao Lingxue spoke to the young girl, Wanbai.

"Alright, Sister Xue. I'll look for Sister Beiling and Sister Beibei while you go get your spiritual stones!"

Wanbai smiled and nodded her head. The next instant, she took off on her sword towards the peak of Mt Xue before shouting down, "Hey sisters, did anyone see Sister Beiling and Sister Beibei?"

"Junior sister Wanbai!"

"Junior Sister Wanbai!"

When the crowd heard Wanbai's voice, they lifted their heads with smiles. Several young men from other sects also greeted her with smiles.

Mu Wanbai was from the Mu Family. Other than the Immortals in Yong Chang world, her family was ranked in the top five.

Moreover, the dorky Mu Wanbai was really adorable.

"Senior sister Beiling and Senior sister Beibei are at that mountain peak. Some really handsome guys from Yong Chang Immortal Sect are here looking for them!" a female disciple shouted in response to Mu Wanbai.

"There are dogs trying to woo them?" Mu Wanbai mumbled to herself before she left on her sword.

"Dogs?"

Upon hearing Mu Wanbai, the disciples from various mountain sects could feel the edges of their mouths twitching uncontrollably!

"Sister Beiling, Sister Beibei!"

Mu Wanbai flew to the other mountain peak. She saw seven to eight sisters from the mountain sect and three young men wearing outfits from Yong Chang Immortal Sect.

"Wanbai!"

When the group saw Mu Wanbai, they smiled and asked, "Where's Great Senior sister?"

"She went to get some stuff from her room and she will be here right away!"

Mu Wanbai descended on the peak and stole a few glances at the disciples from Yong Chang Immortal Sect while speaking. "Sister Beiling, Sister Beibei! Come! Follow Sister Xue and I to Yong Chang City in a while!"

"That... Sister Bei, aren't you thinking of refining spiritual equipment? Get the materials required ready!"

"What's the matter, Wanbai?"

The girl who was addressed as Beibei looked at Mu Wanbai curiously.

"It's a grave matter! Where should I start...?"

Mu Wanbai tilted her head and said, "Sister Xue and I will be bringing you to a cheapskate master. Let's see if any other senior or junior sisters require refining

of elixir pills or equipment!"

"Master? What master?"

Several female disciples around Beibei were taken aback. Even those young disciples from Yong Chang Immortal Sect were curious.

"A blacksmith master. If we introduce business to him, he will reduce the fees for Sister Xue to purchase her spiritual swords!" Mu Wanbai said.

"Blacksmith master? Introduce business?"

The crowd was taken aback. Blacksmith Master? Introduce business? That felt a little strange.

Would a blacksmith master require others to introduce business to him?

"Yep!"

Mu Wanbai nodded her head and continued, "He's a cheapskate blacksmith master. Sister Xue will be here soon. Get all the other senior sisters and junior sisters. Gather all those who want to refine equipment and elixir pills over!"

"Junior sister Mu Wanbai, are you sure he's a blacksmith master? The reason why we are here today is because we have convinced Senior brother Ou Ziming. He has agreed to help refine spiritual equipment for disciples of Mt Xue. As for refining elixir pills, you can leave it to Senior brother Ye Feng!"

At this moment, several young men from Yong Chang Immortal Sect frowned and explained to Mu Wanbai.

"Wan Bai, Senior brother Ye Feng has agreed to refine elixir pills for the disciples of our Mt Xue. This is a valuable opportunity!"

Beiling pulled Mu Wanbai aside, looked at one of the young men and spoke to her.

"Huh? Senior brother Ye Feng? Senior brother Ou Ziming?"

Mu Wanbai was taken aback as she looked at the prideful group of young men.

The young man lifted his head slightly. He was wearing exquisite red armor which emitted dense fire energy.

Despite facing everyone, he still looked as proud as a peacock!

"Senior brother Ye Feng!" Mu Wanbai exclaimed.

Ye Feng was a descendant of an Immortal in Yong Chang Immortal Sect. Although he was the tenth generation, he was still a descendant of an Immortal.

At the same time, Ye Feng was known for his incredible alchemy skills. He could refine Level 5 elixir pills.

His reputation could even match Ou Ziming.

And he was only in his thirties!

"Yeah!"

Ye Feng nodded his head plainly at Mu Wanbai, still looking as prideful as ever.

"Sister Beiling. Senior brother Ye Feng has just been able to refine Level 5 elixir pills. Level 5 elixir pills are only effective for Inborn-level disciples. For Dan Realm disciples, only Level 6 elixir pills would be useful!" Mu Wanbai said to the two tall girls by her side.

"Senior brother Ye Feng will be able to borrow the Wan Pill Cauldron from his family for the next month. His success rate for Level 5 elixir pills will be forty percent. Moreover, he has a certain chance of successfully refining Level 6 elixir pills with the effects of the Wan Pill Cauldron!" a young man from Yong Chang Immortal Sect added with a smile.

"Wan Pill Cauldron!"

Mu Wanbai gasped. That was a Level 13 alchemy furnace used by Immortals. When used for refining elixir pills, the success rate would be greatly enhanced.

"However...!"

Mu Wanbai turned around and said, "Sister Beibei, Sister Beiling! That guy in

Yong Chang City is really incredible. Sister Xue's Bo Yu was restored by him. Moreover, he used the remaining materials to forge six Level 11 hidden weapon type spiritual weapons. Sister Xue couldn't afford them. However, that guy said he could reduce the price a little if Sister Xue introduces customers to him!"

"That guy restored Great Senior sister's Bo Yu sword?"

Upon hearing her, Beibei and Beiling were astonished.

They also knew Great Senior sister's Bo Yu sword was chipped. It was exceptionally difficult to restore.

They were shocked that the guy was able to restore it and curious about the identity of that guy.

"Yeah! He's an extreme cheapskate!"

Mu Wanbai nodded her head and continued, "However, that guy is really incredible. He is a blacksmith master despite being just in his twenties!"

"A blacksmith master in his twenties? That's not possible!"

Before Mu Wanbai could finish her words, Senior brother Ye Feng interrupted with a definitive tone.

"Yeah! It's impossible to become a blacksmith master in one's twenties. How can there be such a young blacksmith master?"

"Our Senior brother Ou Ziming is already regarded as a one in a thousand years blacksmith genius for being able to refine Inborn Spiritual equipment. How can there be a blacksmith master in his twenties!"

It wasn't just the few disciples from Yong Chang Immortal Sect who snorted. Even Beibei, Beiling and other female disciples of Mt Xue couldn't believe it as they shook their heads!

"Although I don't believe he's a blacksmith master either, the truth is the truth. Sister Xue's Bo Yu sword was indeed restored by him!"

Seeing that the group didn't believe her, Mu Wanbai pouted and added this

remark.

"Are you sure? A blacksmith master in his twenties? Putting aside Yong Chang world, there's not a single person who became a blacksmith master at this age!"

Senior brother Ye Feng snorted with indignance.

## Chapter 571: Demon-like Master (3)

One could only be called a master if they topped the world in any domain. The female disciples of Mt. Xue would not believe that someone in his twenties had become a blacksmith master, let alone those few Yong Chang youths.

"I'm saying the truth. Sister Xue's Bo Yu was fixed there. If you don't believe me, you can ask her when she gets here!" Mu Wanbai argued in fury as some did not believe her.

"It's not that we don't believe you, but who would ever believe a blacksmith master of such a young age?" Bei Ling and Bei Bei said as they quickly tugged Mu Wanbai's arm.

"Hmph! You will know it when you're there. I didn't believe that lad is a blacksmith master either but it is true." Feeling bitter, Mu Wanbai did not bother to explain any more.

"All right." Bei Bei soon gave a smile. She nodded and said, "We'll get our sisters to prepare the materials for equipment refining. But why do we have to bring along the spiritual grass for refining elixir pills?"

"The shop is called Master of Alchemy and Blacksmith. He said that the more customers he has to refine elixir pills, the more the spiritual stones will be discounted," Mu Wanbai replied.

"Master of Alchemy and Blacksmith? That shop has a master who can refine elixir pills too?" Ye Feng said with a look of irony in his eyes.

"Great Senior Sister is here!"

At this time, a female disciple called out. Instantly, everyone looked ahead after being stunned briefly.

"You can ask Sister Xue anything you want to know!" said Mu Wanbai as she pouted her lips with her gaze brushing over Ye Feng.

"Piao Lingxue!"

Ye Feng and several Yong Cang youths looked in the direction where the lady was coming from with solemn expressions. She was wearing clothes that were as white as snow. Her long hair spread behind her and she had a cold expression on her face. She truly looked like a fairy.

In fact, to be called a fairy was still an understatement.

Being an expert of the Budding Realm in her thirties, almost no other femme was comparable to her in the entire Yong Chang world.

Even Ye Feng had to put his arrogance away upon seeing Piao Lingxue.

She was a true-blue expert after all, an expert who had the potential to become an immortal.

"Great Senior Sister!"

"Senior Piao Lingxue!"

All Mt. Xue disciples immediately greeted Piao Lingxue with cupped fists.

The youths of the Yong Chang Immortal Sect cupped their fists as well.

"Mm." Piao Lingxue responded with a nod. "Wanbai, I suppose you have told everyone about it?"

"Great Senior Sister, is that blacksmith master really in his twenties?" Bei Ling could not hold herself back from asking Piao Lingxue.

"Indeed, it is quite unimaginable!"

Piao Lingxue nodded with her arms slightly shaken. Her Bo Yu sword unsheathed itself and was suspended before her eyes. "He fixed my spiritual sword and used the Bing Yi metal to construct six subsidiary swords. I must get my hands on those swords!"

"So it's true!"

Astonishment could be seen on the faces of every disciple, including Bei Ling and Bei Bei. If this came from the Great Senior Sister herself, it should be true

then!

"Sister Bei Ling, Sister Bei Bei, why would I lie to you?" Mu Wanbei said in a snorting manner.

"There's really a master in his twenties?" Ye Feng frowned and asked with doubts.

"You'll see for yourself when you get there!"

Piao Lingxue did not explain further and said, "It is a fortune for all disciples of Mt. Xue to have a blacksmith master to refine our weapons. Please check and see if any other disciple would like to go."

"One more thing!" Piao Lingxue said with a frown. "Please ask around if there is any disciple who needs to refine their elixir pills, and get them to prepare all necessary materials!"

"Yes, Great Senior Sister, we shall go and ask around now!"

Bei Ling, Bei Bei, and the other female disciples nodded and headed off.

At Mt. Xue, the position of a Great Senior Sister was comparable to a mentor. The abilities of the two were almost on par with each other. While some female disciples went around alerting the others, the Yong Chang youths were slightly embarrassed.. In particular, Ye Feng, who held a gloomy look on his face.

Their aim was to befriend Mt. Xue. It took them great effort to persuade Senior Ou Ziming and on top of that, Ye Feng had a crush on Bei Ling. However, little did they expect that a so-called master would be revealed!

"Senior Ye Feng, what should we do?"

"We shall tag along and meet this master!"

Ye Feng answered with no hesitation after one of the youths of the Yong Chang Immortal Sect posed a question.

"Even if such a blacksmith master does exist, I am not convinced that he's an alchemist!"

He raised his head slightly, showing intense self-confidence on his face. "I, Ye Feng, fear no one. Not a single alchemy master in the entire Yong Chang is unknown to me."

"That's right. There's no one in the entire Yong Chang world able to compare themselves to our senior when it comes to alchemy," said several Youth Chang youths with smiles on their faces.

"Great Senior Sister, all sisters are ready. They became excited upon hearing about the existence of a master of alchemy and blacksmithing!"

Bei Ling and Bei Bei spoke with smiles on their faces. Within twenty minutes, they had reported back to Piao Lingxue.

Initially, the disciples of Mt. Xue were already delighted to spend time with those youths from Yong Chang. But it did not cross their minds that the Great Senior Sister would be taking them on a trip to meet a master.

An ordinary disciple would have to pay a huge price to refine Spiritual Equipment from a master. These female disciples were not qualified to do such a thing.

"All right, let's go!"

Upon seeing a group of fifty to sixty female disciples with materials in their hands, Piao Lingxue smiled and rode on her sword. She flew towards the direction of the Yong Chang City. The other disciples followed behind her.

However, it was not just those sixty people who followed behind, but rather around eighty people. Amongst them were other Mt. Xue disciples who were just curious and youths of other sects who just wished to tag along.

It was already nightfall when Piao Lingxue left Wang Xian's shop. Adding up all the traveling time and delays, it was already approximately 7 PM. With the sky turned dark, it did not attract much attention as the disciples flew towards Yong Chang City. It took them just twenty minutes to reach the vicinity of the city.

"Senior Piao Lingxue, where's that master's shop? I really want to see what a master in his twenties looks like!" Ye Feng asked Piao Lingxue, his eyes shining as everyone landed in the city.

"That's right, where is the master? We heard that he's a super young master!" The group of disciples chatted with fervor which added glow to the streets.

"Let's move!"

Piao Lingxue led them to Wang Xian's shop. When they reached the shop, they saw Wang Xian sitting inside. Piao Lingxue responded impassively, "This is the one!"

"What? Great Senior Sister, you mean...this small shop is the one?"

Everyone was dumbfounded by what they saw!

# Chapter 572: Unparalleled In Refining Elixir Pills And Equipment (1)

All the female disciples from Mt. Xue were stunned. Those few other young disciples from Yong Chang Immortal Sect were equally shocked as they stared at the shop before them in astonishment.

A small shop. Moreover, it was among the smallest shops in the vicinity.

Within the shop, the walls were empty without any dazzling spiritual equipment. There wasn't any aroma of elixir pills either.

The entire shop was at most twenty to thirty square meters.

This is the shop of a master?

A master would stay in a shop like this?

The group was completely dumbfounded.

"Pfft! Senior sister Piao Lingxue, are you sure this is the shop of that master? Would a master stay in a shop like this?"

A young disciple from Yong Chang Immortal Sect found this hilarious and commented.

Behind them, the group of disciples from Mt. Xue looked at the small shop, baffled.

"There seems to be a young man in it. Could it be that the young man is the blacksmith master?"

"This... Why do I find this to be unbelievable?"

"Take a look at the signboard on the doors of the shop. Alchemist master and

blacksmith master! How reassuring!"

The group broke into discussions after seeing the small shop.

"This is obviously a front for scams. Girls, don't be scammed by them!"

A middle-aged man passing by reminded them out of good will after seeing the group of beautiful girls and hearing their conversation.

When the group heard the middle-aged man, they nodded their heads instinctively.

The shop is obviously a front for scams...

"Let's go in!"

Piao Lingxue took a deep breath. Seeing the small shop once again, she found herself to be a little ridiculous too.

Why did I even decide to go in previously? However, she was lucky to have gone in. Otherwise, she would have missed out on a great blacksmith master!

"Let's go!"

Seeing their Grand Senior sister walking in without further explanation, the group of disciples from Mt. Xue entered out of curiosity despite feeling a little weird.

"I would like to see what kind of master would be in a shop like this!"

When Ye Feng saw the entire small shop, the edge of his mouth inclined upwards as he walked in.

It's a shame that the shop was a little too small. After a dozen-odd people had gone in, it became a little crowded.

This caused the group of disciples from Mt. Xue to feel a little speechless.

Every single shop nearing the center of Yong Chang City was huge. For large elixir pill shops and weapon shops, customers wouldn't feel squeezed even if there were a hundred customers in them.

This...

Huh?

At this moment, Wang Xian saw the group stepping into his shop. Seeing Piao Lingxue and that little brat at the front of the pack, his eyes beamed with excitement.

"You girls are back!"

Wang Xian stood up with a smile. He looked around and commented, "It seems like Ms. Piao has brought me quite a number of customers!"

Wang Xian smiled radiantly. From this group of people, he could pick up the smell of metal and spiritual medicine.

"You are the blacksmith master?" Ye Feng squinted his eyes, scrutinized Wang Xian from head to bottom and asked plainly.

"You are interested in refining equipment?" Wang Xian looked at Ye Feng and asked directly.

"Refine equipment?" Ye Feng shook his head and answered plainly, "I saw your signboard saying that there is a blacksmith master and alchemist master. I would like to meet both masters!"

"Oh! The shop is small. If you wish to see them, perhaps you can come again when you are here to refine equipment or elixir pills. If you aren't, please get out and let the real customers in!"

Seeing Ye Feng putting up a haughty front, Wang Xian remarked emotionlessly.

"YOU..."

Ye Feng was stunned and his face became flushed from embarrassment instantly.

"These are the customers we have brought you. What do you think? Can you lower the price you charge for refining equipment a little?"

Upon seeing Wang Xian embarrassing Ye Feng, Piao Lingxue interrupted and

stopped their conversation.

She knew that Wang Xian would only give her back her swords after she paid up despite her telling him her name.

The temper of the master was undoubtedly bad!

"What's the price Saint Forge Workshop is charging for Level 10 spiritual equipment and a Level 5 elixir pill?" Wang Xian asked the group directly.

"Two sets of materials for the equipment with a hundred spiritual stones for workmanship!

"As for pills, it would be three sets of materials for three elixir pills!

"These are the prices of Saint Forge Workshop. All the other forge workshops and elixir pill shops in the entire Yong Chang City also charge around these prices!

"Although you are a master, I hope you won't charge prices that deviate greatly from these prices!" Piao Lingxue said to Wang Xian.

"For the refining of spiritual equipment, I'm not charging for workmanship. As for elixir pills, I'll give you guys four pills!" Wang Xian replied directly.

"What? You are not charging for workmanship?"

Piao Lingxue was taken aback and astonished.

"Yeah! Pass me the materials and tell me what kind of weapon you would like!" Wang Xian said to the group behind Piao Lingxue.

"Not charging for workmanship? Are there really such great deals in this world? Really?"

Behind Piao Lingxue, the group of female disciples from Mt. Xue was shocked to hear Wang Xian. Their eyes widened in shock and were fixed on Wang Xian.

They were hesitant. The lower price had instead given them the feeling that this shop wouldn't be reliable.

"Bei Ling, pass him your materials!"

Seeing the disciples behind her hesitating, Piao Lingxue spoke to Bei Ling, who was standing beside her.

"Alright, Great Senior sister!"

When Bei Ling heard Piao Lingxue, she handed the materials for forging the spiritual equipment to Wang Xian.

"Level 11 Crystal Metal. I would like to forge a Level 11 spiritual sword!"

Bei Ling handed the metal to Wang Xian but was still a little doubtful of him.

"What's the length, thickness, weight and special requirements, if any?!"

Wang Xian took the materials. The two sets of materials were each the size of a human head.

It was definitely more than two sets of materials!

"I can even have it custom made?"

Bei Ling was taken aback and looked at Wang Xian in shock.

Custom-made weapons. If a blacksmith master was to custom-make a weapon for a customer, the price would be hefty.

This could be considered as specially crafted and would be a lot more troublesome for the blacksmith master.

The fees for custom-made weapons by a blacksmith master would definitely not be lower than a thousand spiritual stones!

"It isn't much more troublesome. Tell me all your requirements!" Wang Xian said plainly to Bei Ling.

"Alright. Thank you!"

Bei Ling nodded her head. Following which, she told Wang Xian the most appropriate length, breadth and weight for her sword!

"Wait here for ten minutes!"

Wang Xian nodded his head as he headed for the second story with the materials.

"Grand Senior sister, he... Is he really a blacksmith master? Ten minutes? Ten minutes to forge Level 11 spiritual equipment?"

When Bei Ling heard Wang Xian, she was once again shocked as she asked Piao Lingxue blankly.

"Yeah. Grand Senior sister, how could he possibly finish a piece of spiritual equipment in ten minutes? Moreover, we are talking about Level 11 spiritual equipment. Which blacksmith master wouldn't take one to two days?"

The surrounding disciples turned to their Great Senior sisters and clearly couldn't believe Wang Xian.

"You will know in ten minutes!"

If she had not witnessed him using just ten minutes to restore her Bo Yu sword and forge six other miniature Bo Yu swords, she wouldn't have believed either.

"Ten minutes! It's impossible to forge Level 11 spiritual equipment in ten minutes. Putting aside blacksmith master, even a blacksmith grand master wouldn't be capable of that!"

"If he really forges Level 11 spiritual equipment in ten minutes, I will eat the spiritual equipment!"

Ye Feng heard Wang Xian. With his understanding of refining equipment, he snorted and remarked right away.

"That's right. Even Senior brother Ou Ziming requires a day to forge an Inborn Spiritual Weapon. Even if he relied on a Level 12 forging table, he would still require several hours. How could he possibly forge Level 11 spiritual equipment in ten minutes? Senior sister Piao Lingxue, is this a scam?"

Another disciple beside Ye Feng also commented with indignance.

# Chapter 573: Unparalleled In Refining Elixir Pills And Equipment (2)

The crowd of female disciples from Mt. Xue were utterly bewildered upon hearing the words from the two disciples of Yong Chang Immortal Sect.

In fact, they would have just lashed out saying that this was an errant shop had it not been for their Great Senior Sister.

But even then, the disciples began to talk amongst themselves with some even wanting out!

"Just give it another ten minutes, and you'll see!"

Piao Lingxue chided, which shushed the crowd of Mt. Xue disciples immediately.

After all, Piao Lingxue remained a highly prestigious figure back at Mt. Xue!

"I wonder if he'll actually chomp the sword down, should we really refine a piece of Spiritual Equipment by waiting for just another ten minutes!" Mu Wanbai uttered in a hushed tone. She had lost all good impressions of this Senior Brother Ye Feng during their interaction within an hour.

"Hehe, Junior Sister Wanbai. Let's put it this way. Even if he's a deity, it's impossible for him to refine and come up with Spiritual Equipment of Level 11 in ten minutes!"

With a cold laugh, Ye Feng sneered at Mu Wanbai with certainty after hearing her comments.

"Then we shall wait and see!" Mu Wanbai rebuked as she eyed Ye Feng.

"I'm more interested in this so-called blacksmith master, and what tricks he has

up his sleeve!" Ye Feng replied.

He was somewhat convinced by Piao Lingxue by the latter's mention of the presence of a blacksmith master where they were right now.

But, he was now in complete disbelief after seeing the humble shop for himself, along with the young man inside. All the more so as the young man boasted of being able to refine Level 11 Spiritual Equipment in ten minutes.

With arms akimbo, Ye Feng stood watching nonchalantly.

The atmosphere was somewhat tense right then as silence filled the crowd.

Ten minutes was an extremely short period to speak of!

Meanwhile, Wang Xian was located on the second floor as he looked at the remaining metal with pleasant surprise.

"These metals are enough to construct a long sword along with another dagger! Such a bonus!" Wang Xian chirped excitedly.

A piece of Level 11 Spiritual Equipment could fetch up to fifteen thousand Spiritual Stones, given the market rates.

Meaning to say, upon completion of this sword, he would then have gained twenty thousand Spiritual Stones which would allow him to purchase a Level 6 Elixir Pill.

A Level 6 Elixir Pill could help Wang Xian gain more than a hundred thousand Dragon Energy.

These were but the benefits from a mere business deal.

"Upon ascension to Level 9, my future is bright!" Wang Xian exclaimed with glistening eyes.

"Form!" he commanded while eyeing the Spiritual Equipment in front of him.

Swoosh!

The long sword let out a crisp clang while Wang Xian beamed with satisfaction.

"Exactly ten minutes!" he chimed.

Zing!

With a swing of his arm, the long sword before him went flying downstairs.

Zoom!

A swishing sound descended from the second floor.

"What's that?" the crowd asked in confusion as they remained standing within the shop. With the utmost vigilance, some of the disciples even braced themselves by clutching onto their long swords as they saw the flying sword approaching.

As it neared, the long sword spun in a circle before it halted right in front of Bei Ling.

Everyone was stunned. They stared at the long sword which hung in suspension before Bei Ling in utter astonishment.

"The Level 11 Spiritual Equipment for this lady is ready!"

Just then, a faint call could be heard coming from the level above.

"It's...It's ready?" Bei Ling stuttered with a look of disbelief as she gazed intently at the long sword before her.

Everyone all around focused their gaze on this long sword.

The long sword shimmered. Its entire body boasted a dazzling shine and appeared incredibly sharp.

Bei Ling looked on with euphoria. With a swing of her arm, she grabbed onto the sword handle.

Zing!

Blinding blue rays gushed up the sword as she held onto it.

With a slight shift of her energy focus, it led to a series of ripples from the blue

energy of the sword.

"Level 11 Spiritual Equipment! A piece of Level 11 Spiritual Equipment indeed!"

Bei Ling cried out at the top of her lungs while her eyes became fired up with rhapsody. "What's more, this long sword fits my exact description, in length, width and weight. Good sword, a good sword indeed!"

"What?"

Everyone questioned with looks of disbelief upon hearing Bei Ling's words.

"How's this possible? How long has it been? To think... a piece of Level 11 Spiritual Equipment has since been refined and ready?"

"Goodness, such blinding Aqua Rays. No doubt a Level 11 Spiritual Equipment!"

"A blacksmith master indeed!"

The crowd of disciples gushed in cries of awe and astonishment.

"It's only natural. Should I be deceiving you otherwise?" Wang Xian smiled to the crowd as he descended from the level above.

Meanwhile, Ye Feng and several youths from the Yong Chang Immortal Sect were absolutely stunned.

"This, this..., " they uttered while gazing at the Spiritual Sword in disbelief.

"Ten minutes, it can't be. This is absolutely impossible!"

Ye Feng let out a low growl in utter skepticism. To refine and create Spiritual Equipment in ten minutes was something he found to be impossible regardless of who it was.

"Hehe, it's impossible for you guys. But that doesn't mean it's impossible for me!" Wang Xian said to Ye Feng rather indifferently.

Ye Feng stood dazed for a moment while staring at Wang Xian intently. He had a

burning desire to rebuke the latter.

Yet, he had no idea how to go about with his rebuttal given that the length, width, and weight of the long sword fit the exact descriptions set forth by Bei Ling.

"Could it be that he's really able to refine Level 11 Spiritual Equipment in ten minutes?" Ye Feng muttered with a gloomy expression. He gazed at the long sword and let out a deep sigh.

At the sight, Mu Wanbai was slightly tickled.

"See what I mean. This shop may be very miserly, but it really does house a blacksmith master!" She chuckled as if to say that she had really been honest with them.

A faint grin stretched across Piao Lingxue's face.

Upon the sight, Wang Xian broke into a brief smile.

"Should any of you still wish to refine more Spiritual Equipment, just pass me the materials and state your requirements!" he said to the rest of the crowd.

"Me, I want to refine Spiritual Equipment!"

"Me too, me too!"

"I'd like to have a sword refined as well, handsome Master!"

In an instant, the crowd of Mt. Xue disciples was driven into a craze upon the sight of the Level 11 Spiritual Equipment which Bei Ling was holding.

To have a customized weapon made by a Master Blacksmith free of charge.

Such a great deal was one in a million within the entire Yong Chang fraternity.

"Huh? That's quite a few!"

Wang Xian gasped with a glow in his eyes when he saw the group of girls closing in with various materials in hand.

But, rather than the materials, Wang Xian was more interested in Spiritual Grasses.

"There are too many of you. Can you all find paper and pen and write your requirements down before passing the materials to me? In addition, is there anyone who wants to refine Elixir Pills? If so, that'll take three portions of materials, and I'll give you four Elixir Pills!" Wang Xian called out to the crowd.

"Are you also an alchemist master, handsome Master?"

Upon hearing Wang Xian's words, one of the girls could not help but blurt her question out.

In an instant, the girl's question also caught the attention of the rest as Piao Lingxue and Mu Wanbai gazed intently at Wang Xian.

"Yes!" Wang Xian answered without the slightest hesitation.

"I'm able to refine all Elixir Pills below Level 12, and the price I offer is much more affordable than the other Elixir stores!" he added.

Tsk!

The crowd gasped and took one deep breath right after Wang Xian had finished his line.

"How ... How's this possible! Are you really a wicked genius? How can one be both a Master Alchemist and a Master Blacksmith all at once!?" the same girl from earlier exclaimed with a shaking voice while the rest of the girls stared at Wang Xian in both shock and awe.

In response, Wang Xian only smiled briefly. "Perhaps, an unprecedented genius who's unparalleled in refining elixir pills and equipment really does exist in this world!"

# Chapter 574: Unparalleled In Refining Elixir Pills And Equipment (3)

"This cannot be possible... This definitely cannot be possible..."

If one said that Wang Xian was a blacksmith master and he could forge a Level 11 spiritual equipment in ten minutes, it would already be enough to make one feel a sense of disbelief.

If one was to tell him that Wang Xian was also an alchemist master, this... He definitely wouldn't believe it.

An unparalleled genius in both fields? There was probably not a single person throughout history and into the future who would be so demon-like. At this moment, Ye Feng's understanding of the world was thrown into disarray.

He definitely wouldn't believe there would be a single person who was an alchemist master and blacksmith master at the same time.

It was especially so considering that this person looked just like a young, twenty-year-old man.

"This cannot be possible! Some blacksmiths spend their entire lives engrossed in refining equipment and yet they find it hard to reach the realm of a blacksmith master. Some alchemists spent their entire lives refining elixir pills and yet they can't refine Level 6 spiritual pills. I don't believe it. I don't believe you are an alchemist master!"

Ye Feng could no longer hold back as he screamed at Wang Xian.

He was an alchemist himself and was widely regarded as the most outstanding alchemist in the younger generation of the entire Yong Chang world.

Even so, he could barely refine Level 5 elixir pills currently. Moreover, his

success rate was a meager twenty percent.

In other words, he would only succeed once with five sets of materials.

A success rate like this wasn't high for an alchemist. However, considering his age, it was a commendable achievement.

In fact, if he could use a Level 13 alchemy furnace, he could still give Level 6 elixir pills a shot. Level 6 elixir pills were also considered to be the benchmark of a grandmaster.

Yet, this man who was even younger than him claimed to be an alchemist master. He couldn't believe him.

As an alchemist, he knew the difficulties of refining elixir pills.

Huh?

Wang Xian raised an eyebrow, looked to Ye Feng and said, "What do you even know?"

"What do I know?"

Hearing Wang Xian questioning him, Ye Feng's expression turned as cold as ice. He stared intensely at Wang Xian and replied in a solemn voice, "What do I know? I've been refining elixir pills since I was ten years old. I was once guided by an Immortal Realm expert and can even refine Level 5 elixir pills currently. You are asking me what I know?"

"In the entire Yong Chang world, if my Ye Family claimed to be second in refining elixir pills, no one would dare to claim to be first! You are asking me what I know?"

"Are you questioning my ability?" Ye Feng's lips curved into a smirk.

"I can't deny you are a blacksmith master. However, if you are saying you are both a blacksmith master and alchemist master, it's impossible! I have the capital to deny your claims!"

Ye Feng stared harshly at Wang Xian as he shouted coldly.

Hehe!

Wang Xian looked at him with contempt.

The surrounding disciples from Mt. Xue frowned upon hearing Ye Feng's questions. They were a little doubtful. However, Wang Xian completing Level 11 spiritual equipment in an insanely short period had convinced many of these disciples. They were merely suspecting and doubting but not refuting the possibility completely.

"You are questioning his identity as an alchemist master now? Didn't you say if he could forge the spiritual equipment in ten minutes, you would eat it?"

When Mu Wanbai heard Ye Feng, she remarked in this way. Her irk for him had grown as she grumbled softly.

"Shut up! Don't speak if you don't understand anything!"

Ye Feng heard Mu Wanbai, turned to her instantly and shouted.

When Mu Wanbai heard him shouting at her, she was shocked initially. However, this quickly turned to anger.

The disciples from Mt. Xue were also shocked when Ye Feng shouted at Mu Wanbai.

"Young Master Ye Feng, please watch your actions and words!"

Piao Lingxue looked coldly at Ye Feng and reminded.

"Hehe! A family of alchemists? A supreme talent?"

Wang Xian looked to a disciple from Mt. Xue and said, "Pass me the spiritual medicine you have prepared!"

"Huh? Handsome master, you are..."

The girl was surprised but still took out the spiritual medicine from her bag. There was a total of seventy-five spiritual medicines with three sets of each variety.

These were the materials for refining Level 5 elixir pills.

"To slap the face of a pile of trash!" Wang Xian replied directly.

"YOU..."

Ye Feng's expression was contorted from anger after hearing Wang Xian. His eyes were cold and he didn't take the warning from Piao Lingxue to heart!

"Here, handsome master!"

The girl handed the spiritual medicine she'd brought to Wang Xian.

"Hmm? Channels Cleansing Pill?" Wang Xian looked at the materials and asked the girl.

"Yeah! Level 5 elixir pill, Channels Cleansing Pill!"

The girl nodded her head as she replied right away. Her bright eyes remained fixed on Wang Xian.

Wang Xian moved his arms and the area before him was shrouded in water energy right away.

Wang Xian squinted his eyes while placing the tufts of spiritual medicine on it. Gradually, they melted.

"Refining elixir pills on the spot! Handsome master is going to refine elixir pills before us. Could it be that he's really an alchemist master?"

"Handsome master is so confident of it. He definitely is an alchemist master! He's too cool!"

"Oh, he's so stunning. A blacksmith master that also knows about refining elixir pills. If only I could find a husband like him!"

When the group of female disciples saw Wang Xian starting to refine elixir pills before them, they were certain that Wang Xian was an incredible alchemist master.

They looked at Wang Xian and could feel their hearts palpitating rapidly.

A blacksmith master who was quite possibly also an alchemist master. Who could possibly be a match to an unparalleled demon-like talent like him?

No one!

"Art of Water Refining, Art of Water Refining!"

When Ye Feng saw that Wang Xian had started refining elixir pills before him, he had a bad premonition.

Nonetheless, he still refused to believe a person could be so demon-like.

"What incredible and precise control! His Art of Water Refining is really strong!"

Piao Lingxue saw Wang Xian starting to refine elixir pills with the Art of Water Refining. Seeing his control over water energy, she was astonished.

She was completely in awe over the extent of the control, as she was certain that she didn't possess such ability.

Seeing Wang Xian refining elixir pills with the Art of Water Refining, Ye Feng's expression was constantly changing.

He specialized in the Art of Refining Elixir Pills with fire. As for the Art of Water Refining, he wasn't adept at it.

Even so, he could still see the smooth actions of Wang Xian.

The spiritual medicine dissolved rapidly and was soon separated and combined.

He was really, really fast.

"He's insanely fast. I once saw an alchemist refine elixir pills with the Art of Water Refining. However, he was a lot slower than the handsome master!" a girl saw Wang Xian's actions and exclaimed.

"Form, form, form, form!"

At this moment, Wang Xian shouted softly. At the surface of the water screen, droplets of elixir pills coalesced rapidly.

Following this, they cooled rapidly with the help of water energy.

"Done!" Wang Xian shouted. Moving his hand across, four elixir pills hovered in the air before him.

He lifted his head nonchalantly, looked across the crowd and eventually at Ye Feng.

"Trash! Look! Level 5 elixir pills, Channels Cleansing Pills!"

# Chapter 575: Space Ring

"Hey, trash, take a look at this. Level 5 elixir pill, the Channels Cleansing Pill!"

Wang Xian's cold and disdainful voice rang in Ye Feng's ears.

"Oh my God! It is the Level 5 Channels Cleansing Pill. All four of them were refined in such a short time. This is simply amazing!"

"Incredible! This handsome master is simply incredible! In just a matter of a few minutes, he was able to refine four Level 5 elixir pills without any failures. He is so cool!"

"Alchemy master! He is the real deal. Oh gosh, I think I have fallen in love with him. He is truly a genius blacksmith and alchemist like no other!"

"The handsome master must be the brightest genius in the entire Yong Chang world. I have just made up my mind to court him forever!"

At the same time, the voices of a group of infatuated and passionate Mt. Xue female disciples could be heard in the distance.

They gawked at Wang Xian with excitement as if they were obsessed fans of a popular idol.

Ye Feng stared at the four elixir pills in front of him and listened to the astonished voices of the Mt. Xue disciples. His face turned painfully gloomy.

He suddenly felt as if his world had been turned upside down.

A blacksmith and alchemy master at the young tender age of his twenties.

Two master-level skills in one person!

Is he even human?

How is that even possible?

How could he believe that this was humanly possible?

He was known as the genius that was favored by the gods. But in the face of this man, he was nothing.

This was a huge upset for the arrogant and haughty Ye Feng.

In front of such a genius, they simply weren't in the same league!

"If you are not making any other requests for refining weapons or elixir pills, please leave now. My shop is too small to accommodate you!"

Wang Xian spoke coldly to the absent-minded Ye Feng.

"You..."

Ye Feng stared at Wang Xian with his face twisted with anger.

Yet he also felt a sense of despair as he wrote the mixed emotions on his face.

"Let's go, Senior Ye Feng! We still have unsettled business to take care of tonight," the disciples of Yong Chang Immortal Sect who had been standing aside quickly said to the embarrassed Ye Feng.

With a sullen face, Ye Feng turned and left silently.

"Hmph!"

Mu Wanbai sneered at Ye Feng's departing figure.

"I guess the handsome master has dealt Ye Feng such a huge blow that he lost all his senses!"

"I think he is a narrow-minded guy putting on a high and mighty front. How dare he even scream at our Sister Wanbai!? Hmph!"

"Ye Feng is just feeling jealous. Compared to this handsome master here, he is simply garbage. No, I mean the handsome master is just too powerful for everyone. His ability is truly unparalleled!"

"Both blacksmith and alchemy master in one! Do you have a girlfriend yet,

handsome master?"

"Can I be your girlfriend? I don't mind if you already have one!"

"Xiao Qing, are you sexually aroused already? Ignore her, handsome master. Choose me as your girlfriend instead. I have bigger boobs than the rest of them!"

After the disciples of Yong Chang Immortal Sect had left, the female disciples of Mt. Xue started to misbehave and flirt with Wang Xian.

But Wang Xian was just so outstanding that it was hard to fault these ladies for throwing themselves at him. If anyone could land themselves such a husband, it would be the pinnacle of their lives!

Even Piao Lingxue, who had been standing quietly aside, was slightly moved by Wang Xian.

With such good looks and incredible refining skills, there was no other man like him in the entire Yong Chang.

"Sorry to disappoint everyone, but I do not have the intention of getting a girlfriend yet. Now, may I request that everybody please leaves their spiritual grass and refinery materials behind and make a note of your request? Do drop by tomorrow again to collect your elixir pills and spiritual equipment!"

Wang Xian quickly spoke to the crowd of passionate female disciples with a faint smile.

"I am serious, handsome master!" one of the female disciples from Mt. Xue shouted at Wang Xian with an earnest look on her face.

"I am closing my shop soon. Please leave your things behind!" Wang Xian laughed and shook his head.

"Stop your nonsense, girls. Just leave your materials and go!" Piao Lingxue yelled at the group of Mt. Xue disciples who had lost their usual reserved demure.

"Okay, Great Senior sister!"

Seeing that their Great Senior sister had raised her voice, the female disciples of Mt. Xue ended their teasing of Wang Xian. One by one, they left their refinery materials and spiritual grass in front of Wang Xian.

"Fifteen requests to refine spiritual pills, among which, one request for a Level 6 spiritual pill!"

As Wang Xian watched the female disciples leaving their heaps of spiritual grass, his eyes lit up.

These spiritual grasses constituted a great source of dragon energy for him.

After they were done placing their spiritual grasses, the Mt. Xue female disciples happily bid Wang Xian goodbye.

Their sweet and lovable looks were so seductive.

The onlooking youths who had crowded over to watch the scene were full of envy of Wang Xian.

But when they thought about how powerful Wang Xian was with his refining skills, they shook their heads helplessly.

How were they even qualified to pit themselves against a competitor like this?

"How many spiritual stones do we owe you?" Piao Lingxue asked Wang Xian gently after the disciples were done with putting down their materials.

"Just give me whatever spiritual stones you have with you!"

Wang Xian was obviously in good spirits at the sight of the spiritual grasses. He moved his arm, took out six small Bo Yu swords and tossed them towards Piao Lingxue.

Piao Lingxue was pleasantly surprised. With a swift gesture, she took out her larger Bo Yu sword and put the small swords into the hilt of the larger one.

"These are all the spiritual stones that I have!"

As Piao Lingxue spoke, she lifted her arm, and pieces of spiritual stones started

to appear out of nowhere, dropping onto the table!

"Hmm?"

Wang Xian witnessed how the spiritual stones appeared out of thin air. A sign of disbelief flashed briefly across his face, and a thought formed in his mind that made him burn with passion.

Space item!

"Is that a space ring that you are holding?" Wang Xian asked with his eyes fixed on the ring in her hand.

"Yes, this is a space ring indeed!" Piao Lingxue nodded.

"Where can I buy a space ring? Or rather, where can I get a space ring?"

Wang Xian stared at Piao Lingxue and asked this hastily.

A space ring was a Spiritual Equipment that consists of storage space.

It was what Wang Xian had always wanted.

With it, he could enjoy the utmost convenience.

He would be able to store all the Spiritual Equipment and elixir pills in it.

Moreover, he would need to transport all the resources that he had gotten from Yong Chang world to the real world. With a space item to store the resources, it would save him a lot of trouble.

What a surprise to see the existence of a space ring in the Yong Chang world. I must have such a treasure! Wang Xian thought while staring hard at the ring in Piao Lingxue's hand.

"Oh, this space ring? This is what I got as a reward for coming in second at the Da Hong Immortal Sect's Outstanding young disciples ranking. They will also appear occasionally at auctions for bidding at a cost of roughly thirty to fifty thousand spiritual stones. If you ever come across a Nether Space Stone, you can refine one yourself as well!" Piao Lingxue replied earnestly, seeing how Wang

Xian treated the ring with such importance.

"I see. Well then, Miss Piao, if you ever come across any news on space rings or Nether Space stones, please kindly let me know!"

Wang Xian nodded to Piao Lingxue.

"Don't worry. I will let you know if I come across any news about them. Thanks for the Bo Yu sword," said Piao Lingxue to Wang Xian gratefully.

# Chapter 576: Big Business

The group left the shop and Wang Xian shuttered the doors soon after. Suddenly, the shop regained peace and silence.

Looking at the materials in the room, Wang Xian's eyes beamed with excitement.

Fifteen people have requested to refine Level 5 elixir pills. That's the equivalent of 45 sets of spiritual medicine. Based on the rate of four elixir pills per set of spiritual medicine, I will get 180 elixir pills. Deducting the 60 elixir pills to fifteen people, I will still get 120 elixir pills!

One person has requested Level 6 elixir pills. I'll get eight elixir pills!

Level 5 elixir pills could increase my dragon energy by roughly ten thousand points. If I have 120, it would be the equivalent of over a million points of dragon energy!

Level 6 elixir pill give more than a hundred thousand points of dragon energy. Eight pills would be close to a million points of dragon energy!

Together, two million points of dragon energy won't be a problem. I can even heal my injuries completely!

Wang Xian's eyes beamed with excitement. He was getting two million points of dragon energy in a single day. If he was lucky, he could raise his level to Level 9 soon!

Wang Xian's lips curved into a smile as he looked towards the materials for weapons.

A total of thirty-three sets. Among them, there were four sets of Level 11 materials.

In other words, he would be getting 4 Level 11 spiritual weapons and 29 Inborn-level weapons!

"Time to start refining!"

Wang Xian took a deep breath. He was exhilarated as he started refining rapidly.

Wang Xian was incredibly fast and the materials were turning into elixir pills and weapons at a frenzied pace.

As for the additional elixir pills, he consumed them directly to heal his injuries!

After he'd finished refining all the materials into elixir pills or weapons, it was already 4 AM.

With a single thought, his attributes surfaced in his mind.

[Name: Wang Xian]

[Race: Five Elements Divine Dragon (Able to transform into a human)]

[Level: 8]

[Dragon Energy: 21,563,421/100,000,000]

[Superpower: Dominate marine animals (Ability to rule any marine animals that are lower than your own level)]

[Devour any form of marine animals (For extraction of dragon energy)]

[Five Elements Control]

[Art of Cultivation: Divine Dragon Transformation]

[Art of Fire Refining: Refine All Equipment With The Origin Source Flame]

[Art of Water Refining: Refine All Equipment With The Origin Source Water]

[Battle Techniques: Water Clone (Preliminary), Sword Edge (Preliminary), Instant Shift (Preliminary)...]

I'm still missing over seventy million points of dragon energy to level up. Moreover, a new category of battle techniques has appeared!

Looking at his own attributes, Wang Xian pondered them.

He would need to consume more than seven hundred Level 6 elixir pills or over seven thousand Level 5 elixir pills to gather seventy million points of dragon energy. The amount was a little too huge.

However, it would take just a month for him to reach if he was getting more than two million points of dragon energy each day.

Wang Xian revealed a smile as he went to the third floor to rest.

What Wang Xian wasn't aware of was that less than an hour after the seventy to eighty female disciples of Mt. Xue had returned to Mt. Xue, all the female disciples of Mt. Xue knew about a demon-like master who was unparalleled in refining elixir pills and equipment.

Those female disciples from Mt. Xue were introducing Wang Xian to the rest of the disciples as though they were hardcore fans of Wang Xian.

"A twenty-year-old handsome alchemist master and a blacksmith master at the same time. He's the most outstanding young man in Yong Chang world!"

"A demon-like master that is unparalleled in refining elixir pills and equipment and the prince charming of all girls!"

"The most dazzling genius in Yong Chang City and definitely the youngest unparalleled master!"

They weren't stingy on the compliments of Wang Xian, making those female disciples who had not gone with them feel curious and regretful.

It was especially so as this master who was unparalleled in refining elixir pills and equipment charged a lot less, regardless of whether it was equipment refining or elixir pill refining.

Moreover, this master would make each piece of spiritual equipment based on your requirements.

This was a deadly attraction for every single cultivator.

Custom made weapons from a blacksmith master? What price would you have to pay if you looked for another blacksmith master?

However, this blacksmith master wasn't charging for workmanship. He would simply be requesting two sets of materials.

Elixir pills? Other places offered three pills while this master offered four pills.

Never underestimate the value of a single pill. If it was a Level 5 elixir pill, the value would be close to a thousand spiritual stones!

The value of a Level 6 elixir pill would be even more insane.

Some disciples from Mt. Xue started gathering what they had saved up over time to bring to Wang Xian for refining.

On the next day morning, beautiful female disciples walked into the shop shortly after Wang Xian opened it.

"Handsome master, is my spiritual sword done?"

A female disciple walked to Wang Xian passionately, staring at him with her bright and seductive eyes.

"Your name please?"

"Handsome master, I've brought two customers for you today!"

The girl smiled radiantly at Wang Xian.

"Thank you!"

Wang Xian looked to the other girls and found them to be stealing glances at him from time to time while conversing softly.

"Qin Zi. You can call me Qin Zi. Handsome master, you have to remember my name!"

"Handsome master, I'm here to collect my item!"

For the entire morning, the stream of people into and out of the small shop didn't break. Moreover, the girls from Mt. Xue weren't simply here to collect their elixir pills and spiritual equipment. They also brought him lots of customers.

This made Wang Xian smile for the entire morning.

"Master, master!"

In the evening, when the last female disciple from Mt. Xue had left, several figures entered.

Wang Xian looked up and saw Piao Lingxue and Mu Wanbai.

Other than the two of them, there was an old man and a middle-aged man beside them.

"Ms. Piao! Ms. Mu!"

Wang Xian smiled radiantly when he saw them stepping in.

Without the two of them, his business wouldn't have been as great.

"I've brought you huge business today!"

Mu Wanbai smiled at Wang Xian such that her eyes formed a line. "Shouldn't you get me something in return?"

Huh?

Wang Xian was taken aback. He turned to the old man and middle-aged men, showed a smile and said, "Sure!"

"What a young master in alchemy and blacksmithing! You are really unparalleled in this world. If I hadn't heard from Piao Lingxue personally, I wouldn't have believed it!"

The old man scrutinized Wang Xian from top to bottom as he spoke.

"Tsk! You are my grandpa! And yet you don't believe what I've said!"

When Mu Wanbai heard the old man, she pouted and stared at him.

Haha!

The old man chuckled. The next moment, he took out an item, handed it to Wang

Xian and said, "This is our first meeting. Please accept this token as a gift from our Mu Family!"

Huh?

Wang Xian was taken aback. He looked at the box in the old man's hand but didn't accept it right away.

"I heard from Ms. Piao Lingxue that you wanted a space ring. Our Mu Family happens to have a few. This is the one with the largest space that we have. It has the capacity of a thousand cubic meters!" the old man said with a smile.

A space ring with a thousand cubic meters!

Wang Xian's eyes lit up. He looked at the old man and asked, "May I ask what your conditions are?"

"It's obviously about refining elixir pills and equipment. I hope that for our collaboration, you can give some interest to us!"

The old man was direct as he chuckled.

# Chapter 577: Collaboration

"Let me be clear, you cheapskate Master. This is a collaboration between you and my family. On account of us boosting your sales so much by referring customers to you yesterday, you mustn't act like such a cheapskate towards us anymore!" Mu Wanbai told Wang Xian as she came to his side while pointing at him.

"If my business scale becomes really prominent, I'll make sure to benefit your family greatly!" Wang Xian answered with glee as he looked at Mu Wanbai.

Speaking of which, Mu Wanbai and Piao Lingxue were his lucky stars. Had it not been for the two of them, he would not be enjoying such brisk business right now.

"Alright, since you've said so. Haha!"

Mu Wanbai nodded with much satisfaction upon hearing Wang Xian's promise.

"It's a small shop I have with no space to sit around. Nonetheless, please go on Senior!" Wang Xian said to the old man without any hesitation as he smiled at the latter and took over the box from his hands.

Seeing that Wang Xian had accepted the present from him, the old man broke into an even wider smile. "The Mu Family would like to have a batch of Spiritual Equipment and Elixir Pills refined!" the old man exclaimed.

"A batch?" Wang Xian asked.

"How much are we looking at?" he continued while his heart fluttered.

"Two hundred portions of materials for Level 10 Spiritual Equipment, twenty for Level 11, two hundred for Level 5 Elixir Pills and forty for Level 6 Elixir Pills!" the old man replied.

"In the near future, the Spiritual Equipment from the Yong Chang Cauldron will no longer be of prominent use when its cauldron world descends into the real world. What's more, the other cauldron worlds will soon follow and descend.

Hence some of the resources will have to convert into physical ones!" the old man continued.

"Is that so?" Wang Xian questioned following the old man's words. His heart skipped a beat.

"How much longer will it be before the Yong Chang cauldron world descends into the real world?" he asked in succession.

"Two years at most, if not one. Could be even shorter otherwise!" the old man said to Wang Xian while the latter listened with a darkened expression.

"As of now, I still don't know your name, Master. May I know which Immortal Sect you are a disciple of?" the old man asked Wang Xian out of curiosity upon seeing the change in his expression.

"I'm Wang Xian, from the Da Hong Immortal Sect!"

Wang Xian responded upfront for he had no means to hide the facts anyway.

"What? Wang Xian of the Da Hong Immortal Sect?"

Just then, a gasp came from Mu Wanbai as she asked in utter surprise. Even Piao Lingxue looked towards Wang Xian in complete bewilderment.

"So you're Wang Xian, Dragon King Wang Xian from Mt. Fengyu!" Mu Wanbai exclaimed loudly as she stared intently at Wang Xian with her jaw lowered.

To which, Wang Xian looked back at Mu Wanbai before nodding his head.

"Oh? Is he a renowned Master?" the old man quizzed as he looked at his granddaughter, stunned.

"Dragon King Wang Xian from Mt. Fengyu, who rose to sudden fame. The one who broke through eight mountain sects single-handedly within a day, and helped to bring Mt. Fengyu up to eleventh placing from nineteenth. Also, the one to defeat Kong Guanglin with a single strike on the very same day. Despite your current placing as the twentieth amongst all disciples within the Da Hong Immortal Sect, many are of the opinion that you actually possess the capabilities to come within the top ten. To think that you turned out to be the Dragon King!

Rumor has it that the Dragon King's known for being obnoxious, but it appears that you're something of a cheapskate from what I see!"

Mu Wanbai shrieked as she fixed her gaze on Wang Xian.

"Is that so? Well, that's something I wasn't aware of!" Wang Xian responded with a faint smile.

"A disciple of Mt. Fengyu. To think that this Master here is also a member of our Da Hong Immortal Sect!"

The old man chimed in while assessing Wang Xian with bouts of curiosity, scrutinizing him from top to bottom.

Everyone from the Mu Family was also a disciple of the Da Hong Immortal Sect, many of whom were amongst the higher management.

"Given your prowess, Master, you're more than qualified to become an Elder of the Da Hong Immortal Sect!" The old man opined as he slipped into deep thought.

"An Elder?" Wang Xian uttered in mild surprise. Becoming an Elder of the Da Hong Immortal Sect was something which had not crossed his mind before.

"There's only five within the entire Da Hong Immortal Sect who are blacksmith masters or alchemy masters. Yet, you're both, Master Wang Xian. Becoming an Elder would be such a breeze for you!" the old man explained to Wang Xian.

Wang Xian gave it a brief thought before dismissing the idea altogether almost immediately.

Becoming an Elder of the Da Hong Immortal Sect would mean having to come across Immortal-class figures.

To have such an existence paying attention to oneself, and checking up on one's background, would only result in complications very easily.

Hence, it was best to avoid gaining the attention of such figures for the time being.

"Let's not focus on the other worlds for now. Given that the Mu Family would like to have so much Spiritual Equipment and Elixir Pills refined, the amount of materials that we're looking at ..." Wang Xian trailed off while looking at the old man.

The old man commented no further when he heard Wang Xian changing the topic.

Presently, the Da Hong Immortal Sect, Yong Chang Immortal Sect, and Immortal Slaying Sect were very much at ease.

Given the millennium of peace enjoyed, many of the higher management figures within the Immortal Sects had come to establish their own clans, while even more had come to place their own clans as the top priority while relegating the Immortal Sect to second.

Their various Immortal-class figures paid no heed to such a situation despite their awareness.

Even though the senior management each had their own clans outside of the Immortal Sects, the clans would have to be dismissed and be fully integrated into the Immortal Sects upon the order from an Expert amongst the Immortal-class figures.

For the Immortal-class figures, such was the prowess and terror they possessed along with their authority.

"Based on the account from the young lass of my family, I've come to hear of your prowess in the refinement of Equipment and Elixir Pills, Master. Hence, should it be alright with you, we'll have two portions of the materials for the refining of Equipment prepared. We'll also have twice the amount of Spiritual Grasses needed ready. What do you say?"

The old man proposed his idea to Wang Xian.

While the Mu Family did not have their own blacksmith, they did have their own alchemist, who also happened to be a master of the trade.

Their alchemist master could only guarantee a success rate of thirty-percent for the refinement of Level 5 Elixir Pills, and forty-percent for those at Level 6!

Should Wang Xian be the one to do the refining, the results would no doubt turn out much better.

"Sure!" Wang Xian nodded after a brief hesitation.

"Alright then. Tomorrow, we'll have the materials brought over." The old man brightened up with glistening eyes.

After a slight moment of hesitation, he continued, "Master, should we be able to increase our future orders of Spiritual Equipment and Elixir Pills, can we still stick to the current rates?"

"Sure!" Wang Xian consented.

"Haha, how easy-going and decisive you are, Master. Here's to our amiable collaboration! Amiable Collaboration it is!" the old man sang excitedly before extending a handshake to Wang Xian.

"Cheers to an amiable collaboration!" Wang Xian nodded with a wide grin.

"Then we'll disturb you no further. We'll have the materials sent over tomorrow. Thank you for taking the trouble then, Master!"

The old man smiled radiantly.

"Sure!" Wang Xian nodded in response.

"We'll take our leave!" The old man signaled while waving his hand. He then made his way out with Mu Wanbai and company following behind him.

"Little did I expect this cheapskate to be so easy-going today!" Mu Wanbai chimed cheerfully as she emerged from the shop.

"We've made a huge profit through this collaboration!" another old man in the company finally blurted out with eagerness. He had remained silent throughout earlier.

"I've helped our family to save a lot of materials. So what do you say, second Grandpa, shouldn't you reward me for that!?"

Mu Wanbai spoke with glee, as her eyes squinted into two crescents.

"Haha! Yes indeed. I'll be sure to reward you handsomely, little lass. To think it only costs us two portions of Spiritual Grasses, two portions of Spiritual Grasses! When we're back, be sure to contact the other clans. Inform them that we can offer four Elixir Pills with three portions of material as the price. By then, I'm sure many of the clans will come over while we refer the refining work over to this Master thereafter and earn the additional portion of materials. Haha, who knows, we might just strike it rich through this opportunity!" The old man laughed in joy while the other also gleamed with uncontrollable exhilaration.

To the Mu Family, it was a huge profit gained for them this time!

Upon hearing the words from the second grandpa, Mu Wanbai stood dazed for a moment before returning to her senses. This... what a sly wily fox he is!

"What a huge gain!"

Meanwhile, Wang Xian was also cheering in the shop with equal elation.

# Chapter 578: Shot To Fame (1)

This collaboration was a windfall for the Mu Family.

Similarly, it was also a windfall for Wang Xian. Moreover, his was an even larger windfall.

If Wang Xian was to learn what the two old men from the Mu Family were thinking, he would be exhilarated instead of being infuriated.

"Two hundred sets of materials for Level 10 spiritual equipment and twenty sets of materials for Level 11 spiritual equipment. This would mean that I'll be able to get a hundred pieces of Level 10 spiritual equipment and ten pieces of Level 11 spiritual equipment!"

"Two hundred sets of materials for Level 5 elixir pills and forty sets of Level 6 elixir pills. I'll be able to get four hundred Level 5 elixir pills and eighty Level 6 elixir pills!"

"Summing them up, that's close to roughly thirteen to fourteen million points of dragon energy!"

"I might not need a month to reach Level 9 after all. When the time comes, this world won't be able to restrain me!"

Wang Xian lifted his head slightly and revealed a faint smile.

"Let's finish up the materials for today!"

Twenty disciples from Mt. Xue requested to refine spiritual equipment or elixir pills. Although it wasn't as much as the previous day, Wang Xian still reaped substantial benefits.

The next day, the disciples from Mt. Xue collected their spiritual equipment and elixir pills. The potential customers from Mt. Xue had been completely exhausted.

The business of the shop died down once again.

Wang Xian sat down on a chair and took a glance into the space ring. Seeing the spiritual equipment in it, he couldn't help but smile.

The upgrade of the Dragon Field requires a thousand pieces of spiritual equipment and Inborn-level materials. Soon, I'll be able to collect sufficient materials!

When I get back, the Dragon Palace will be able to get a substantial upgrade. I wonder how Shuqing, Qingyue and the rest are doing... Xiao Yu and Adjaya too!

Wang Xian sank into deep thought.

At the entrance of the shop, Wang Xian was about to receive the second batch of customers.

"F\*ck them! Those scumbags from Mt. Zhenliu made us wait in the queue by virtue of their good relationship with Saint Forge Workshop. By the time it reaches our turn, it will probably be a few months from now!"

"The most damning thing would be those scumbags from Mt. Zhenliu creating more troubles for us in the dark. If they instruct Saint Forge Workshop to constantly move us to the back of the queue, we really wouldn't know when our turn will come. Now that Yong Chang world is about to descend into the real world, we might be facing off against the other eight cauldron worlds. All the forces are turning their resources into strength in preparation for the upcoming uncertainty!"

"All the equipment and elixir pill refining shops are experiencing explosive growth in business. Several elixir pill shops are even facing issues of sticking out. If we want to get elixir pills or spiritual equipment, we could only find alchemists or blacksmiths to refine for us!"

"The alchemist and blacksmith in our Tianwen Sect are truly a waste of our precious resources. Their success rate is too low. We've got to find a master!"

"If only we learned about the outside world a little earlier. Now that we are a step slower, we have to wait a long time even when we want to get prepared!"

"Eh, there's a small shop right here!"

The row of five people conversed as they walked. They were clearly in a foul mood. When they walked past Wang Xian's shop, a middle-aged man looked inquisitively at the signboard.

"Blacksmith master, alchemist master? Could there be masters in a small shop like this?"

The middle-aged man stared at the shop with doubts as he mumbled to himself.

"A master?"

The other four men were also doubtful. "A small wretched shop like this would have masters?"

"It must be a scam. It's obvious that this is a front for scams. There's no way a master would remain in a wretched shop like this!" an old man snorted coldly.

"Yeah. This shop looks a little too dilapidated. How can there be a master? F\*ck! They sure aren't ashamed of lying!"

A middle-aged man seconded and nodded his head as he continued walking towards it.

"Let me go take a look!" a middle-aged man with long hair said coldly to the other four men with him.

"Old Ge, what's the point? Isn't it obvious that this is just a front for scams? How could there be...?"

"I'm just taking a look. We can't find any other blacksmith master, right?"

The middle-aged man with long hair interrupted his sentence emotionlessly before he continued walking towards the shop.

"Old Ge, you are grasping at straws!"

The other middle-aged man frowned. Seeing that the middle-aged man with long hair didn't pay heed to his advice, he followed grumpily.

"Let's go in too. If this shop is scamming, we will teach them a good lesson and

let them know the consequences of scamming others!" the middle-aged man said to the other three men.

"Go!"

The four men followed the middle-aged man with long hair into the shop. They looked around and instantly frowned deeply.

"Hey, kid! Where's the master in your shop?"

When the group saw that the shop didn't even have places for customers to sit, they were clearly displeased. When they saw Wang Xian sitting in the shop, they shouted.

Huh?

Wang Xian frowned when he saw the five of them stepping in and shouting at him. He replied plainly, "Are you guys looking to refine elixir pills or equipment?"

"Hey, brother, there's an alchemist master and blacksmith master in this shop?" the middle-aged man with long hair suppressed his emotions and asked Wang Xian.

"Yeah!"

Wang Xian nodded his head.

"Are you sure?" The other four men were suspicious. "Please invite that master out. We would like to do business with him!"

"You can speak to me. Are you guys looking to refine elixir pills or spiritual equipment?" Wang Xian looked across the five people, maintained a smile and asked.

"You?" The four men stared at Wang Xian. Even that middle-aged man with long hair frowned slightly.

"This business concerns over a hundred pieces of spiritual equipment and a large number of elixir pills. Can I trouble you to invite that master out?" The middle-

aged man held his emotions in check as he spoke to Wang Xian once again.

"I'm the master. If you guys are looking to refine spiritual equipment or elixir pills, you can speak directly to me!" Wang Xian answered them.

"Are you freaking kidding me? A kid like you is a master?"

Just as Wang Xian completed his words, the other four men at the back stared harshly at him.

"Kid, if you are a master, I'll be a grandmaster. Freak! You must be courting a beating!"

"Just as I thought, there's no master in this wretched shop. This must be a scam and this kid must be really eager for a beating!"

The four of them exchanged words while staring angrily at Wang Xian.

Even that middle-aged man with long hair was pulling a long face.

"Kid, your joke isn't funny at all. If there isn't any master here, why did you claim to have an alchemist master and blacksmith master on your signboard? It isn't going to end well if you dare to lie to us!"

The middle-aged man with long hair spoke to Wang Xian in a solemn tone.

"You don't believe me?" Wang Xian raised an eyebrow. "Hand me the materials and you will naturally know!"

"Are you still going to lie at this point? You must be thinking of scamming us out of our materials! Is that it?"

An old man stared harshly at Wang Xian while gradually emitting terrifying aura.

"If you don't believe me, you can leave!"

Wang frowned and stared right at the five people. His tone had also gradually turned colder!

"Leave? We will definitely leave. However, I'm going to teach you a good lesson

for fooling us before we leave!"

A bad-tempered middle-aged man clenched his fists tightly as he walked towards Wang Xian.

The middle-aged man with long hair didn't attempt to stop him while he stared harshly at Wang Xian.

Their Tianwen Sect was also one of the six sects below the Immortal Sects with over ten thousand disciples.

As part of the higher management of the sect, they were already in a foul mood before they came in. Yet, a kid from a shop was fooling them.

This kid was a master?

Tsk!

Even if they weren't killing him, they would want to teach him a good lesson!

## Chapter 579: Shot To Fame (2)

Looking at the middle-aged man who was staring at him with coldness on his face in the shop, he frowned slightly, revealing a sharp icy gaze.

These five people not only refused to believe what he said but also spoke with a fiery temper. Wang Xian was slightly furious about that.

Slowly, balls of water energy condensed in his hands.

"Lad, I'll let you know the consequences of cheating us!"

Raging aura surged around the middle-aged man just like violent tornadoes as he glowered at Wang Xian coldly.

"Five blind things!"

A murderous intent flashed across Wang Xian's eyes as the energy around him thickened.

"Darn you, how dare you scold us!"

When the five of them heard what Wang Xian said, they exhibited icy killing intent, especially when one of the middle-aged men drew his long blade.

Om!

"Master!"

However, just before the five men from Tianwen Sect and Wang Xian struck, a voice suddenly cut the air.

Wang Xian froze as he gazed at the door, dispersing all the aura gathered around him.

With their eyebrows raised, the five middle-aged and old men quickly looked to the doorway.

Soon, the quintet revealed shocked looks.

There were about ten men who were at the door, including the old man from yesterday.

"Master, we're slightly late!"

The old man swept a look at the five Tianwen Sect people as he beckoned to the group of people behind him with a smile.

"Master, these are the materials from the Mu Family. Compared to what we mentioned yesterday, the materials have doubled now!"

As the old man spoke, four middle-aged men carried the chests and opened them on the floor.

Inside the chests were metals that were Level 10 and 11.

Apart from that, there were chests of intact Spiritual Grass too.

In a moment, the smell of the metal and the aroma of the Spiritual Medicine filled the entire store.

"Doubled?"

Wang Xian revealed a tinge of surprise in his eyes. He ignored the five middle-aged and old men as he walked to the chests.

"Yes, doubled. All the materials are here. We have 400 portions of materials for Level 10 Spiritual Equipment, 400 portions of materials for Level 5 elixir pills, 80 portions of materials for Level 6 elixir pills. We only have more materials and not less. If you are not convinced, you can make a count!" said the old man to Wang Xian with a smile.

"There's no need to. Given the reputation of Mu Family, I trust you guys!"

Wang Xian swept his gaze across the ten big chests with fervent eyes.

Since the Mu Family got him to refine Spiritual Equipment and elixir pills, they would not dare to shortchange him.

"Thank you for your trust. All the information for the required Spiritual Equipment and elixir pills is here. Just following accordingly will do!" said the old man as he handed a manual to Wang Xian.

"Sure, rest assured that I'll get it done. You may send someone here to collect it five days from now!"

Wang Xian took over the manual with a smile.

"Great, come directly to us if you have any other requirements!"

The old man nodded as he swept his gaze at the five people beside him. He chuckled and continued, "Master, since you have other business in the shop, we'll take our leave now!"

"Okay!"

Wang Xian nodded.

As the group of people from Mu Family left, the remaining five Tianwen Sect people were totally dumbfounded.

What had they just seen? They knew the group of people and that old man who came in just now.

Mu Family, Mu Family!

The noble family from Da Hong Immortal Sect, as well as the top family in the entire Yong Chang world.

Without any exaggeration, the Mu Family was more compelling than the Tianwen Sect!

That old man was a Budding Realm expert, the Great Elder of Mu Family, who took care of all matters in the family.

At the same time, he was an elder of Da Hong Immortal Sect.

Coming from such a family, an old man with his status actually addressed this young man as Master!

Master?

When they spotted the chests that contained Level 10 and 11 metal and Spiritual Grasses, their hearts beat violently.

Mu Family has their own alchemy master, so why would they let others refine pills for them?

That's because...

The five of them exchanged looks with shock and astonishment in their eyes.

This young man is a master!

A master that even Mu Family has to treat with respect!

Recalling their behaviors just now, the five of them panicked.

"Master... we...!"

That middle-aged man who had been ready for a fight revealed a flustered look. He looked at Wang Xian as he stuttered with a trembling voice.

They were desperately looking for an alchemy and blacksmith master. Now that they finally met one, they almost got into a fight with him.

Oh my, this is absolutely...

How can there be such a young master around?

The five of them felt as if they'd been unjust. Since they were the ones with requests, they had to lower their heads with respect at this time.

"Master, it was our fault just now. We were blinded. We apologize to you!" the long-haired middle-aged man quickly said to Wang Xian after taking a deep breath.

"Yes. It's our fault. We apologize to you!"

The other four hurriedly echoed.

A master that even Mu Family treated respectfully was not someone who Tianwen Sect could afford to offend.

Even if they could afford to offend him, they would not want to do it since they needed a favor from him.

Looking at them, Wang Xian revealed a hint of a sneer on his face. "Get lost now!"

"Eh, Master, it's our fault!"

The long-haired middle-aged man gritted his teeth when he saw the cold face of Wang Xian. He fished out two items from his pockets. "Master, it was our fault just now. These are our gifts as a token of apology!"

One of the two items was exuding a blazing flame while the other was emitting a cool and icy blue glow!

"Hur? Spiritual Flame Ball and Spiritual Liquid Ball? Both of them are Level 11!"

Sharp radiance flashed across Wang Xian's eyes as he gazed at those two Spiritual Beads.

"How many pieces of Spiritual Equipment and elixir pills do you guys want to make?"

Without any hesitation, Wang Xian took the two Spiritual Beads.

On account of the fact that these five people were respectful and even took out Level 11 Spiritual Beads, Wang Xian decided to drop the matter.

After all, he would be the one who benefited the most when they were here to refine equipment and elixir pills.

"Master, thank you for your forgiveness! You're such a magnanimous man!"

Seeing that Wang Xian accepted the two Spiritual Beads, and hearing his question, the five of them were excited as they licked his boots.

The arrogance and fiery temper that they had when they first came in were long gone.

"We want to refine a hundred pieces of equipment and two hundred-odd elixir pills! " an old man answered quickly.

"Each piece of Spiritual Equipment will take two sets of material. For every three sets of elixir pills material, you'll get four elixir pills. This is the price at my place!"

Upon hearing them, Wang Xian's eyes gleamed.

"What?"

The five of them froze for a moment when they heard the quote and they looked startled.

He did not quote a high price, nor was it the market price.

His price was simply too low!

"Master, what are the extra charges?" the long-haired middle-aged man asked, trying to contain his excitement.

"No extra charges except what I mentioned just now."

Wang Xian shook his head and replied immediately.

Lowering his earnings was a way to obtain more profit.

## Chapter 580: Shot To Fame (3)

The prices Wang Xian was charging were definitely the lowest in the entire Yong Chang City.

The main reason was largely because his success rate was insanely high.

Even grandmaster-class existences wouldn't have a success rate of a hundred percent in refining elixir pills or spiritual equipment.

It was especially so for refining elixir pills. An alchemist grand master would at most have a success rate of forty to fifty percent while refining Level 5 elixir pills.

As for refining Level 6 elixir pills, the success rate would roughly be at thirty percent.

However, Wang Xian could achieve a hundred percent. In other words, even if Wang Xian had accepted two sets of materials for refining elixir pills, his rewards would still be great.

This was also the reason why Wang Xian agreed to the collaboration with the Mu Family. When the volume was great, he would totally accept a lower price.

Therefore, Wang Xian also offered a seemingly exceptional low price to Tianwen Sect.

"Not charging?"

When the five men heard Wang Xian, they were stunned once again. He's not charging? He's really not charging? Are there such good deals in the world?

They felt this was a little unbelievable.

However, they knew that he wasn't lying to them when they saw boxes of precious materials placed on the floor.

He had no reason to scam them either.

"Master, your charges are even a lot cheaper than the Saint Forge Workshop! This..."

The middle-aged man with long hair looked at Wang Xian and spoke with disbelief.

"You don't have to worry about the quality of the elixir pills or spiritual equipment."

Wang Xian smiled and replied to him.

"Thank you, master. Thank you, master! We will arrange to send the materials here right away. Thank you, master, for being magnanimous. After we offended you, you are still willing to do so. Let me apologize to you once again!" the five of them said gratefully.

This was the level of magnanimity that a master should have. Despite them offending Wang Xian just moments ago, Wang Xian was still willing to charge them a really low price.

Wang Xian smiled faintly and said, "You guys can go prepare the materials. Just send them over when you are ready. If you can, help me publicize my shop!"

"Yes, yes!"

The five of them nodded and added, "We will go get the materials ready and will be back soon!"

"Alright!"

Wang Xian nodded his head. He looked to the boxes of materials beside him, waved his arm and sent them to the second floor.

The five people from Tianwen Sect didn't hesitate at all as they headed for the exit right away.

"This feels unreal!"

When the five men from Tianwen Sect left the small shop, they looked at the signboard once again. They felt a little confused and lost.

"Yeah! That young man is really a master. Moreover, even the Mu Family looked for him to refine their elixir pills and spiritual equipment!"

"I wonder if he's the alchemist master or blacksmith master. Is there another master?"

"It has to be. We are lucky that the people from the Mu Family were here. If we clashed with the master, the outcome would have been really unimaginable!"

"That master is magnanimous and we are really lucky!"

"Yeah, we are really lucky!"

As the five of them conversed, they couldn't help but be excited.

They would have never expected a small shop like this to really have a master.

Moreover, the master was magnanimous. He didn't take offence and agreed to refine elixir pills and spiritual equipment for them. This made the five of them greatly impressed by Wang Xian.

"That's a real master! Let's go and get our materials!"

"Let's go. The master even charges a lot lower than the Saint Forge Workshop. It's a blessing in disguise that the bunch of scumbags from Saint Forge Workshop rejected us previously. Otherwise, we wouldn't have gotten such a great deal!"

The five of them headed back towards their sect excitedly. In less than an hour, they came back with several boxes of materials.

"Master, master!"

The five of them carried boxes of materials into the shop with some other disciples of Tianwen Sect.

"You can just leave them there!"

Wang Xian was pleasantly surprised to see them back so quickly as he instructed them.

"Yes, yes!"

The five of them nodded their heads and instructed their disciples.

"Master, when will our spiritual equipment and elixir pills be done?"

The five of them rubbed their hands as they asked Wang Xian.

"Your orders are fewer. I'll refine your materials first. You guys can return to collect in the afternoon tomorrow!"

Wang Xian looked across the boxes and spoke directly.

"Afternoon, tomorrow? So fast?"

The five of them were shocked once again.

"Just come back tomorrow and they will be ready!"

"Alright, alright!"

The five of them nodded their heads and didn't question further. After exchanging a few more words with Wang Xian, they left the shop.

"Puff! It's another rewarding day!"

Wang Xian moved all the materials to the second floor. He couldn't help but feel exhilarated.

The materials and elixir pills from the Mu Family would allow him to gain over thirty million points of dragon energy.

As for the elixir pills of Tianwen Sect, he would also be able to gain over six million points of dragon energy.

Together, his dragon energy would reach approximately forty million. On top of that, he would still get a huge batch of spiritual equipment.

"This is even more insane than robbing a bank!"

Wang Xian's eyes stared fervently at the various materials on the second floor.

He closed the shop for the day.

"The spiritual flame ball can be devoured by the Inferno Dragon Ball while the spiritual liquid ball can be used to nourish the Water Dragon Ball!"

Wang Xian had three dragon balls currently.

A Level 11 Inferno Dragon Ball, a Level 10 Wood Dragon Ball and a Level 10 Water Dragon Ball.

The level of the Inferno Dragon Ball was the highest. After devouring the Level 11 spiritual flame ball, the Inferno Dragon Ball would get a substantial lift.

The Wood Dragon Ball was the Level 9 spiritual wood ball he obtained on the floating island previously. He had now nurtured it to Level 10.

The three dragon balls were of little use to him currently.

However, when the dragon balls reached the same level as him, the might of the dragon balls would be incredible.

Wang Xian spent a full fifteen hours before completely refining the materials brought by Tianwen Sect into spiritual equipment and elixir pills.

The boxes of spiritual equipment and elixir pills would definitely draw a frenzied cloud if placed in the Underworld.

In Yong Chang world, there were also precious items.

"Master!"

At noon, the voices of the five old men from Tianwen Sect could be heard.

"They are done! Feel free to take them away!"

Wang Xian waved his arm and the boxes of spiritual equipment and elixir pills flew from the second floor. Subsequently, he walked down while wearing a faint smile.

"Done!"

The five of them were exhilarated. These elixir pills and spiritual equipment were all exceptionally precious to Tianwen Sect.

"They are done! They are all done! Oh gosh! The spiritual equipment and elixir pills are done! Thank you, master! Thank you!"

When they opened the boxes and saw the spiritual equipment and elixir pills, they were elated and thanked Wang Xian loudly.

"You are welcome. If you can help to introduce customers and send them over, please do so!"

Wang Xian waved his arms at them and continued, "I'm going back to work."

"Yes, yes! Master!"

The five of them nodded their heads respectfully before turning their fervent gaze back to the spiritual equipment and elixir pills.

"Haha! Let's go. I was still worried that we couldn't find a master to refine for us. Even if we found one, it might take three to four months or even six to seven months. Now, we got it done in a single day. Our luck is really off the charts!"

The five of them carried the boxes out joyously and loaded them onto a horse carriage.

"Let's go!" the five of them shouted happily.

"Old Ge, take a look at the entrance of Saint Forge Workshop! The scumbags from Mt. Zhenliu are there too!"

When the horse carriage went past the entrance of the Saint Forge Workshop, a middle-aged man squinted his eyes and saw a group of people before the entrance of Saint Forge Workshop.

The middle-aged man with long hair looked over and a thought struck him.

"That master forgave us and still refined spiritual equipment and elixir pills for us. Our Tianwen Sect should also try to repay this graciousness and express our gratitude!"

"Since that master asked us to introduce customers to him, it's only natural that we do our best!"

# Chapter 581: Saint Forge Workshop Is Indeed Trash (1)

Yong Chang would soon descend to the real world, and information about the real world had been divulged in Yong Chang Immortal Sect.

But the people and forces in Yong Chang world were not worried about the real world at all.

It was just the Age of Dharma Decline. When they arrived in the real world, they would dominate and roam around without any difficulties.

The Underworld in the real world might seem like trash, but they were more concerned about the other Immortal Sects in the rest of the Nine Cauldrons' Worlds.

Since they were only part of the nine worlds, there would be powerful cultivators in the other eight worlds as well.

The people in Yong Chang world would need to be well-prepared to face these cultivators.

Hence, all the forces and families were making their preparation as soon as the news of Yong Chang world descending to the real world was out.

All the families and forces had converted their resources into strength to deal with the real world.

Metallic materials were converted to Spiritual Equipment, Spiritual Grass to elixir pills.

That was the reason why alchemist masters and blacksmith masters became popular figures while the elixir pills and weapons had become the top-selling items in the shops.

As the biggest workshop for refining equipment and elixir pills, various

alchemist masters and blacksmith masters worked in Saint Forge Workshop, and their business was unusually hot.

Even those pre-ordered Spiritual Equipment and elixir pills could only be available months later.

For the last two days, many customers had gathered at the door of Saint Forge Workshop. At one glance, one would know that all of them came from families that possessed relatively great strength in the Yong Chang world.

"Saint Forge Workshop is pricey, and even those unknown alchemists are arrogant. Since they cannot take in that much business, we should not let some of our friends suffer while waiting in line for such an unscrupulous shop!"

The long-haired middle-aged man of Tianwen Sect drew a cold smile and murmured to himself.

"That's right, many people do not know about that master's shop. We should help him to promote his shop!"

The remaining four middle-aged men and elders revealed creepy smiles.

The five of them exchanged gazes as they grinned at each other. They slowed down their carriage and walked slowly toward the Saint Forge Workshop.

"I know everyone can't wait, but you guys need to wait. It will take another one and a half months before it's your turn!"

"Saint Forge Workshop is the biggest alchemy and blacksmith workshop in Yong Chang City. No other places are comparable to us. But you guys need to wait!"

When the five people arrived at the door, they heard the staff speaking to a few in-charges from various forces and families with arrogance.

The people from the various forces and families had twisted expressions, but they did not dare to flare up.

After all, they needed Saint Forge Workshop.

"Everyone, just queue up and that will do. All it takes is another one or two

months. Don't be anxious."

At this time, several middle-aged men told the surrounding crowd this with a calm look.

"The weapons and elixir pills of Mt. Zhenliu are in the process of being refined now. You guys are not in a hurry, but we are!" said an old man to that middle-aged man coldly with an awful expression.

"Haha, better than not waiting in the line!"

The middle-aged man from Mt. Zhenliu chuckled softly as he spoke. Several people turned to the five men on the carriage. With lips drawn, he continued, "Unlike some forces who can't even get in the line."

"Hur?"

Upon hearing what the people from Mt. Zhenliu said, some of the elders at the side furrowed their brows and peered to the side when they spotted the five men from Tianwen Sect.

Mt. Zhenliu and Tianwen Sect were enemies, and everyone on the spot knew about that.

"Haha, the Tianwen Sect complained that the waiting time was too long, and said they were not going to refine anything in Saint Forge Workshop. I would like to see which other workshops can accept such a large volume of orders apart from Saint Forge Workshop!"

The staff at the side peered at the five men from Tianwen Sect and issued subtle warnings to the rest of the forces.

The in-charges of the forces had a change in their expression and took in a deep breath.

"Well, we can wait. Sorry for all the trouble. These are some gifts of appreciation."

Several of them fished out some gifts and handed them over to the staff with twisted expressions.

"Mm!"

The staff of Saint Forge Workshop nodded gently with broad smiles.

"Hur?"

At this time, the five men from Tianwen Sect, who had just arrived, overheard their conversations. All of them revealed a tinge of coldness and disdain in their eyes.

Before they could even seek trouble, the other party was already picking on them.

"Hey, Tianwen Sect, where are you heading to? Have you found a master of alchemy and blacksmithing?"

Before the five men from Tianwen Sect speak, those middle-aged men from Mt. Zhenliu ridiculed them for their misfortunes.

Mt. Zhenliu and Tianwen Sect had been going against each other for centuries. They would not miss any chance of bringing down their opponents.

"Alchemy master, blacksmith master?"

Upon hearing their sneers, a strange look surfaced on the faces of the five men from Tianwen Sect.

"Of course we did. We even got our Spiritual Equipment and elixir pills done!"

"Haha, interesting!"

Several middle-aged men from Mt. Zhenliu chuckled as they looked on, scornful of what they heard. "You guys just want to act tough!"

"Who else in the entire Yong Chang City, other than Saint Forge Workshop, has a blacksmith master and alchemy master?"

"Haha, interesting!"

The staff of Saint Forge Workshop sneered upon hearing it.

"Haha!"

The five men from Tianwen Sect also burst out laughing when they heard their sarcasm. With unbridled looks on their faces, they stared right into their eyes. "Don't assume the Saint Forge Workshop dominates the entire Yong Chang City. You bunch of arrogant brats. Even an insignificant staff member dares to act insolently!"

"Well, when it comes to blacksmithing and alchemy, the Saint Forge Workshop is the best in Yong Chang City!"

That staff member narrowed his eyes with his usual pridefulness on his face.

"Some people are fuming with anger since they can't find alchemy and blacksmith masters!"

The few middle-aged men from Mt. Zhenliu slightly lifted their chins, beaming, as they enjoyed the flustered looks of Tianwen Sect.

A few in-charges from other forces shook their heads slowly as they looked at Tianwen Sect.

To them, the five of them did look as though they had lost their minds out of panic.

"Is that so? You guys are really confident. Do you think Saint Forge Workshop rules the entire market of Yong Chang?"

A fiery-tempered middle-aged man stood up on the carriage immediately, revealing an insolent look.

"Brazen brats. Does Tianwen Sect need Saint Forge Workshop to forge weapons and refine pills for us? Do you think I care? The Saint Forge Workshop is just an unscrupulous shop for us!"

"Haha, I'll show you the things we had refined by a master. If not, you guys would think that Saint Forge Workshop is the only shop in the entire Yong Chang City!"

# Chapter 582: Saint Forge Workshop Is Indeed Trash (2)

Swish!

Ka ka ka!

As the bad-tempered middle-aged man spoke, he stood on the horse carriage and waved his arm at it.

A gust of strong wind opened the boxes on the horse carriage. With an extremely brazen and unruly expression, he shouted loudly, "Do I need Saint Forge Workshop, the place for scams, to refine my spiritual equipment and elixir pills? In my eyes, you guys are trash!"

You guys are trash!

The middle-aged man from Tianwen Sect was brazen and arrogant.

Standing on the horse carriage while he was on the most prosperous street in Yong Chang City, he shouted loudly to everyone that Saint Forge Workshop was trash!

Few people in the entire Yong Chang City would have the guts to say such words.

This was because with the strength and capabilities of Saint Forge Workshop, people might die laughing because of what you said.

Yet, this middle-aged man stood on his horse carriage and opened up the six to seven boxes directly.

In these boxes were various pieces of spiritual equipment and elixir pills packed tightly together.

This scene truly shocked everyone around.

It was especially so for the group at the entrance of Saint Forge Workshop.

The employees of Saint Forge Workshop.

The few middle-aged men from Mt. Zhenliu.

And the people in charge of several other forces.

They were astonished to see the various pieces of spiritual equipment and elixir pills on the horse carriage of Tianwen Sect. Their eyes widened and they clearly couldn't believe what they were seeing.

"This...!" That employee from Saint Forge Workshop was dumbfounded. His expression changed rapidly and he shouted coldly, "Tsk! You guys are deceiving yourselves, or trying to deceive us, after finding a batch of spiritual equipment and elixir pills and passing them off as those refined by an alchemist master and a blacksmith master! How interesting!"

"Tianwen Sect is really laughable. Did you guys find a batch of elixir pills and spiritual equipment to prove to us how dumb you guys are?"

The middle-aged men from Mt. Zhenliu remarked sarcastically.

"Hehe! You guys can choose not to believe us. That's is expected as you guys are too arrogant!"

The middle-aged man with long hair looked across the crowd coldly. In the end, his eyes fell on the few forces standing by the side. "Our Tianwen Sect isn't free and silly to that extent. These were refined by an alchemist master and blacksmith master we found yesterday. They can be found in a shop a short distance away. The prices they are charging are also a lot lower than the Saint Forge Workshop!"

Huh?

The leaders of several forces frowned instantly and were clearly hesitating.

"Do you really mean it?" an old man asked the middle-aged man with long hair.

"If we are lying to you guys, may our Tianwen Sect be annihilated!" the middle-

aged man with long hair replied.

Huh?

Huh?

Huh?

The reply from the middle-aged man with long hair shocked the entire crowd.

A deadly vow like this wasn't to be joked about.

"Is there really a shop with an alchemist master and blacksmith master?"  
Surprise beamed in the eyes of that old man as he pursued it further.

"Are you guys still thinking that I'm joking? Let me bring you guys there. Once you are there, you guys will know Saint Forge Workshop is a pile of trash!" the middle-aged man commented solemnly.

"That... In that case, I'll be troubling you!"

The in-charges of several forces were excited and greeted the middle-aged man with long hair!

"Haha! Let's go!"

The five men from Tianwen Sect laughed proudly, turned their horse carriage around and headed towards Wang Xian's shop.

The leaders of several forces followed behind without any hesitation.

"Other than our Saint Forge Workshop, which others shop in Yong Chang City would have an alchemist master and blacksmith master? This couldn't be possible. Those people from Tianwen Sect must be up to something!"

The employees of Saint Forge Workshop were extremely gloomy. After seeing the crowd that left, they reported to the shop immediately.

"Let's go take a look!"

The group of middle-aged men from Mt. Zhenliu exchanged glances and were

clearly suspicious of the whole incident. "Let's follow them and see what tricks they are up to!"

"Let's go!"

A group followed behind the five men from Tianwen Sect.

"Hehe! We have brought huge businesses for that master this time!"

"If news of master's shop was to get out, would there still be a Saint Forge Workshop? As compared to the master's shop, it's clear that they are overcharging the customers!"

"That's right, that's right!"

The five men from Tianwen Sect grinned.

Wang Xian's shop was less than a thousand meters away from Saint Forge Workshop. In less than three minutes, the crowd had arrived at the entrance of the shop.

"Come, follow us!"

The five men from Tianwen Sect jumped off the horse carriage and spoke to the people in charge of several forces behind them.

Huh?

The group of seven to eight people looked across and was stunned. They looked blankly at the shop the five men had entered.

"This.."

"Would this be the shop of a master?" That old man opened his mouth in shock.

"Let's go in now!"

A middle-aged man hesitated for a moment before following the five men from Tianwen Sect.

"Master, master!"

When the five men from Tianwen Sect entered the shop, they didn't see Wang Xian. They immediately shouted for him.

"What's the matter?"

At this moment, Wang Xian was refining elixir pills.

"Master, we have brought you some customers. Would you like to meet them?"

The five men from Tianwen Sect greeted him respectfully.

"Oh? Bring them to the second floor!"

He wasn't done with the elixir pills before him and thus couldn't leave the second floor.

"Yes, yes!"

The five men from Tianwen Sect nodded their heads. They turned to the in-charge of the several forces, smiled and said, "Follow us to the second floor!"

Huh?

The people in charge of the several forces looked around the shop and frowned deeply. They looked at the people from Tianwen Sect and were a little curious.

Among the people from Tianwen Sect, there was a Budding Realm expert. Yet, he was still being so respectful a while ago.

In the entire Yong Chang world, other than the Immortals, only a master was deserving of such respect.

The seven to eight of them had no hesitation as they followed the five men from Tianwen Sect to the second floor.

"Isn't this a little too run-down. Why would a master be...?"

With questions in their mind, the group headed to the second floor.

However, they were instantly shocked by what they saw on the second floor.

It was still roughly the same thirty square meters of space. What could they have seen?

There were various boxes filled with various materials.

A box full of Level 11 metals, boxes of Level 6 spiritual medicines...

This deeply shocked them.

Each of them was the in-charge of one of several forces in Yong Chang world. Although they might not be among the elite forces, they were definitely not weak.

However, if one was to ask them to take out such an amount of materials, they wouldn't be able to do so.

Yet, they were placed casually in boxes on the second floor.

"These materials were from the Mu Family. Don't speak and wait for the master to complete his refining!"

The five men from Tianwen Sect were pleasantly pleased when they saw the group behind them dumbfounded by what they were seeing.

The crowd looked towards the master in the middle with shock and awe.

However, their eyes widened once again as disbelief overwhelmed them!

# Chapter 583: Saint Forge Workshop Is Indeed Trash (3)

A young man, who could easily pass as a juvenile, was spotted in the center of the room.

At this moment, he was refining elixir pills at a rapid speed.

With compelling Art of Water Refining, his arms were swinging fast in front of him.

Before him and the rest were elixir pills forming at an amazing speed. Each pill contained an immense amount of energy.

They were familiar with this type of energy as it came from Level 6 elixir pills.

Level 6 elixir pills could significantly enhance the strength of Dan Realm experts.

However, only master-level alchemists could refine Level 6 elixir pills.

"Form, form!"

Wang Xian pretended to be someone great as he let out a bellow while elixir pills quickly formed before him.

"Done!" he yelled again when four elixir pills were formed amid a faint glow. Instantly, the room was filled with the aroma of medicine.

Everyone gasped involuntarily.

"Level 6 elixir pills! Level 6 elixir pills. Master, he's a real master!"

The various in-charges could not help but narrow their eyes as they revealed a surprised look.

This young man looked too young to be an alchemy master.

He was the master that even Mu Family had handed over their materials to for refining elixir pills.

A respectful look surfaced on everyone's faces.

"Who wants to refine Spiritual Equipment or elixir pills?"

With an arm swing, Wang Xian placed the four elixir pills in a jade container within a chest. They noticed that the jade container was already filled with all kinds of elixir pills!

"Master, master, we... we would like you to refine elixir pills!"

One by one, the in-charges from the various forces turned fervent and spoke immediately.

"Do you know the price?" Wang Xian stood up and said.

"Price?"

All of them froze for a moment before they turned to the five Tianwen Sect people.

"Two sets of material for one piece of Spiritual Equipment. Four elixir pills for three sets of elixir pills material. No other additional fees!" said the five men from Tianwen Sect to the in-charges as they slightly lifted their heads.

"What?"

"Gosh! That's... that's so cheap?"

"How... How is this possible? It's much cheaper than Saint Forge Workshop!"

All the in-charges were stupefied as they widened their eyes with looks of disbelief on their faces.

"Yes, this is the price. Bring your materials over if you want the service. I'll get all your Spiritual Equipment and elixir pills ready within half a month!" said Wang Xian indifferently.

"This... Master. Great. We'll bring over the materials now!"

"Master, you offer such an affordable service. You're a great master that Saint Forge Workshop can't even be compared to."

The in-charges of various forces were going crazy.

Damn, compared to Saint Forge Workshop, this master was not only someone great, but a saint.

They could save at least sixty thousand, or up to hundreds of thousands of Spiritual Stones as compared to Saint Forge Workshop if they handed the materials to this master.

Comparing the two of them, Saint Forge Workshop was just none other than an unscrupulous shop!

"Hehe, how can we compare you to Saint Forge Workshop? Saint Forge Workshop is absolute trash in front of you, the master!"

The five men from Tianwen Sect immediately licked his boots.

"Saint Forge Workshop?"

Wang Xian turned to the crowd as he recalled his last visit to Saint Forge Workshop. When he thought of the two masters, Xuanhuo and Qingming, coldness flashed in his eyes. He remarked plainly, "Saint Forge Workshop is indeed trash!"

At this time, people from Mt. Zhenliu, an alchemist and that staff member from Saint Forge Workshop who was following behind, stepped into the shop together.

They were looking around with disdainful looks.

"Such a small shop like this could actually house a master? What a joke!" the alchemist from Saint Forge Workshop ridiculed.

"What a trashy shop. What master!?" the several middle-aged men from Mt. Zhenliu mocked.

"The Saint Forge Workshop is indeed trash!"

At this time, an impassive voice came from the second floor, which darkened the expressions of the staff and the alchemist from Saint Forge Workshop.

"Who dares to badmouth our Saint Forge Workshop. Do you wish to die?"

Without any expression, the alchemist of Saint Forge Workshop shouted to the stairs.

"Heh heh!"

Upon hearing the voice from downstairs, Wang Xian chuckled coldly. "Chase them away. Those who want to refine equipment and elixir pills, bringing over the materials will do!"

"Yes, master!"

The in-charges immediately spoke with respect.

Wang Xian nodded and continued with his work.

The various in-charges and the five men from Tianwen Sect exchanged gazes as they walked down the stairs.

"Which ignorant dog is yelling in the master's shop?"

One of the in-charges bellowed coldly.

"Who are you guys? How dare you say the Saint Forge Workshop is trash? Are you seeking death?"

The alchemist of Saint Forge Workshop did not recognize the group of people as he stared daggers at them with cold eyes.

However, the staff member of Saint Forge Workshop and the few middle-aged men from Saint Forge Workshop were taken aback.

"So what if I said Saint Forge Workshop is trash? Trying to stop people from commenting when you're indeed trash?"

Immense aura began to surge around the in-charges of several forces. At this moment, they totally disregarded the Saint Forge Workshop.

Just now, they had really needed help from Saint Forge Workshop.

But even a staff member from Saint Forge Workshop dared to show them attitude and act brazenly.

They had already stomached their anger for very long.

If not for the fact that they required help from Saint Forge Workshop, why would they even swallow this?

Now that they had found a master who offered a more affordable price than Saint Forge Workshop, and a shorter waiting time, why would they give face to an insignificant alchemist?

Or even to an employee?

They were in-charges of the various forces.

As everyone spoke, they walked down the stairs with icy-cold eyes, glowering at the two people from Saint Forge Workshop with rage.

"We said Saint Forge Workshop is trash, and you asked us if we're looking for our deaths?

An old man swept his expressionless eyes at the two of them, exploding an immense amount of aura and oppression that aimed straight at them.

"What? You... you people..."

The alchemist of Saint Forge Workshop had a huge change in his expression as he looked at them in fear.

"Hand over the things that we gave you, brat!"

The old man fixed his eyes on the staff member disdainfully.

"You people... don't you want your equipment and pills from Saint Forge Workshop? You guys..."

The eyes of the staff widened with astonishment as he growled with an awkward look.

"The trashy Saint Forge Workshop? Damn you, the elixir pills and Spiritual Equipment over here are much cheaper than you guys. Why should we go over to your place?"

A middle-aged man could not be bothered as he screamed at them, "Get out of here now, and don't taint this place, trash from Saint Forge Workshop!"

"You people...you people..."

The alchemist and the staff member of Saint Forge Workshop paled as they looked at them with surprise.

How could they say such things to Saint Forge Workshop?

Why did their attitude change so quickly?

# Chapter 584: Famous Throughout Yong Chang (1)

When the alchemist and employees of Saint Forge Workshop walked out bitterly from the shop, they were a little out of sorts.

As an alchemist of the Saint Forge Workshop, his standing in Yong Chang City wasn't any inferior to a Half-Step to Budding Realm expert.

Yet, they were chided moments ago.

And they were calling Saint Forge Workshop trash?

Facing the confrontational group who wasn't willing to show him any respect, the alchemist of Saint Forge Workshop walked back to Saint Forge Workshop with a long face.

"Tsk! Arrogant scumbags. Do they really think we could get our spiritual equipment and elixir pills refined without your Saint Forge Workshop?"

An old man snorted coldly. He looked at the middle-aged man beside him and said, "Let's go back now and get our family to prepare the materials for the master to refine!"

"We've got to get back too and ask our families to prepare the materials!"

"Go!"

The in-charges of several forces returned to their families and sects rapidly.

They were burning with excitement and wanted to bring the materials over as soon as they could.

Considering the favorable prices the master was charging, the entire Yong Chang City might flood here if other forces learned about it.

They had to get their materials to the master before the rest so they could get

their products as soon as possible.

Hehe!

When the group from Tianwen Sect saw them leaving in a hurry, their lips curved into a smile. They smirked at the group from Mt. Zhenliu and commented, "A bunch of dimwits!"

As they finished their words, they boarded their horse carriage and headed back towards their sects with greatly improved moods.

The few middle-aged men from Mt. Zhenliu were completely stunned. They looked at the group of forces that had left with astonishment as their expressions changed rapidly.

"What just happened? What's happening?"

"A small shop like this... Could it be... Could it be..."

The group of middle-aged men from Mt. Zhenliu stared at the shop before their eyes and were hesitating.

"Why don't we go in and ask?"

A middle-aged man hesitated for a moment before saying this to the other few men.

"Go. Let's get in!"

The few middle-aged men walked into the small shop with lots of questions.

"F\*ck! F\*ck that dirty Saint Forge Workshop. As compared to this master, they are overcharging too much! They are trash!"

However, the few middle-aged men walked out of the shop furiously in less than ten minutes.

They were still feeling a little shock but anger was overwhelming them.

"I finally understand why those forces are saying Saint Forge Workshop is trash! As compared to this master, they are seriously overcharging us!"

"Oh gosh! We have lost... We have lost so much..."

The group of middle-aged men were shivering with anger. They were indeed closer to Saint Forge Workshop.

However, they didn't get any preferential price for refining spiritual equipment or elixir pills this time despite having better relationships.

Instead, they even forked over forty thousand spiritual stones to bribe the two masters of Saint Forge Workshop.

This allowed their orders to be fulfilled first and pushed Tianwen Sect all the way to the back.

Yet, they would have never expected the prices of this small shop to be so cheap.

"If... If we had asked this master to refine our spiritual equipment and elixir pills, we would have saved at least several hundreds of thousands of spiritual stones. F\*ck! we are talking about several hundreds of thousands here!"

The face of a middle-aged man was contorted from anger.

"Why don't we bring our materials over and cancel our order from Saint Forge Workshop?"

"Cancel our order from Saint Forge Workshop? But we have given the two masters forty thousand spiritual stones! Moreover, if we do this, would it be..."

"There's nothing to feel bad about. Those two blood-suckers! We have a good relationship with them because we have been offering gifts to them from time to time. As long as we have spiritual stones, we don't have to worry about not finding an alchemist master or blacksmith master!"

"Yeah, you are right. Let's go and bring our materials over. Even if we can't get our forty thousand spiritual stones back, we could still save a hundred thousand spiritual stones!"

The group from Mt. Zhenliu exchanged glances and made their way towards Saint Forge Workshop immediately.

Several middle-aged men arrived at the backyard of Saint Forge Workshop. They looked around and saw several forces and customers collecting their spiritual equipment and elixir pills or delivering materials.

At this moment, that alchemist was conversing softly with that employee and Master Xuanhuo.

Master Xuanhuo frowned.

"We don't have to pay attention to him. In the entire Yong Chang City, none of the forge workshops or elixir refining shops are a match for our Saint Forge Workshop. Tsk! If those forces aren't going to refine their items here, ask them to get lost. Our Saint Forge Workshop isn't lacking their business!" Master Xuanhuo said to them domineeringly. He looked across the few forces in the courtyard with a sense of superiority.

"Yes, master. Those few forces are really courting their own demise. In the future, we will reject all their requests to refine elixir pills and spiritual equipment!"

Recalling the attitude from the in-charges of those forces, the alchemist remarked coldly.

Master Xuanhuo waved his hand, lifted his head proudly and didn't say another word.

"Master Xuanhuo!"

At this moment, the group of middle-aged men from Mt. Zhenliu shouted.

Huh?

Master Xuanhuo turned around, saw the group and showed a faint smile.

Mt. Zhenliu was a respectable sect and this group of middle-aged men knew how to maintain relationships by sending gifts.

"Hi, guys, we have received the materials from Mt. Zhenliu. Rest assured. In half a month, we will be done with your request!" Master Xuanhuo said to the few middle-aged men with a smile.

"Master Xuanhuo, we would like to apologize to you," a middle-aged man from Mt. Zhenliu said coldly upon seeing the smile on Master Xuanhuo's face.

This was the first time he was so cold to a master.

"Master Xuanhuo, we have changed our minds suddenly and would like to take back our materials. Master Xuanhuo, can you guys refund us our fees for workmanship?"

Huh?

Master Xuanhuo was shocked to hear him. He frowned and asked, "What does Mt. Zhenliu mean by this?"

"Our Mt. Zhenliu encountered some issues and will have to take back the materials. Please refund the workmanship fees of seventy thousand spiritual stones. As for the rest, we aren't going to pursue it!"

The middle-aged man from Mt. Zhenliu spoke again.

Master Xuanhuo was clearly displeased by what he heard from the middle-aged man. He said, "To rush your spiritual equipment and elixir pills, we have lost substantial business. Now that you guys are saying you want a refund, this isn't too appropriate, right?"

Master Xuanhuo had thought that the previous few forces had left out of anger as they had to wait too long.

"Master Xuanhuo, we understand our request is a little unreasonable but I hope you will agree!"

The group of middle-aged men wouldn't want to offend the Saint Forge Workshop and thus spoke in a conciliatory tone.

"Our losses have to be compensated after all. We can return the materials to you but you won't be getting back the fees for workmanship!"

Master Xuanhuo shook his head as he answered.

Upon hearing Master Xuanhuo's reply, the group of middle-aged men from Mt.

Zhenliu instantly turned solemn. "Master, we are already foregoing the forty thousand spiritual stones we have given you guys!"

# Chapter 585: Famous Throughout Yong Chang (2)

The middle-aged men from Mt. Zhenliu were a little pissed off.

Without that young master's shop, they would not think that they had lost out a great deal by having Saint Forge Workshop refine Spiritual Equipment and elixir pills for them.

However, it was a stark contrast between the two workshops with that young master around.

Saint Forge Workshop charged way too much.

The two of them could not be compared at all.

None of them were willing to pass their jobs to Saint Forge Workshop anymore.

Yet, the workshop disagreed about refunding the fees for the workmanship when they asked for their materials and fees back.

This infuriated the few middle-aged men from Mt. Zhenliu.

"Guys, I don't know what you're thinking, but this isn't right. The Spiritual Stones that you have given to us were on the condition that we would speed up your job. This works the same as the workmanship fees. Now that you've changed your mind, it is natural that we recoup some losses. If you think this isn't appropriate, you can continue with the job. We'll deliver the items to you on time. Otherwise..."

Master Xuanhuo spoke with great awe as he swept his cold gaze across the few of them.

As a master, the number one blacksmith master in the largest workshop of Yong Chang City, and one of the bosses of Saint Forge Workshop, he had the right to be prideful.

He had the right to disregard Mt. Zhenliu.

Looking at the domineering and prideful Master Xuanhuo, the middle-aged men from Mt. Zhenliu grimaced as they darkened their faces, exchanging looks with one another.

"Continue our job in Saint Forge Workshop? Master Xuanhuo, we're not that silly!" a middle-aged man remarked coldly.

"Hur? What do you mean by that? Watch your mouth, people!"

Upon hearing the furious tone from that middle-aged man, Master Xuanhuo's blood boiled at the same time.

No one could ever challenge a master's temper.

"What do we mean? Master Xuanhuo, if a workshop requires two sets of materials for a piece of Spiritual Equipment, three sets of materials for four elixir pills, no other Spiritual Stones charges, what would be our choice? Why, Master Xuanhuo? Saint Forge Workshop is overcharging us, and you don't even allow us to switch to another shop?" said a middle-aged man from Mt. Zhenliu with cold eyes as he looked at the furious Master Xuanhuo.

"Hur? Excuse me? What did you say?"

Master Xuanhuo was slightly stunned by his words as he narrowed his eyes.

"What are they talking about? How can there be such a cheap workshop around?"

"Could... could such an affordable place be around? And it's refined by a master?"

A few forces and customers around the area were keeping constant attention over here when they overheard the argument.

Upon hearing the middle-aged man, everyone was caught by surprise.

"We already made it clear. The Saint Forge Workshop charges too much as compared to another master's workshop. It's only common sense for us to choose

the cheaper one. Thus, we'd like Master Xuanhuo to return our materials and refund our workmanship fees!" the middle-aged man said impassively once again.

"Refining a piece of equipment only needs two sets of materials and four elixir pills for three sets of materials. No other Spiritual Stones charges. Where can you find such a good deal?"

Master Xuanhuo's expression slowly twisted.

"Haha, that's the truth." A middle-aged man revealed a cold smile. He raised his voice. "Master Xuanhuo, we would like to take back our materials and workmanship fees. Please return them to us. Otherwise, this will ruin our friendship!"

"You guys..."

Upon seeing the middle-aged men from Mt. Zhenliu standing firm against him, Xuanhuo darkened his expression as he stared at them with flickering radiance in his eyes.

The middle-aged men from Mt. Zhenliu had decided to confront Master Xuanhuo. This time, they did not give in at all.

"Fine. If you are taking back all your things this time, I, Xuanhuo, will not refine anything for you even if you kneel before Saint Forge Workshop next time!"

Master Xuanhuo grimaced and spoke in a low voice.

"Haha, Master Xuanhuo, rest assured that Mt. Zhenliu will never be back to Saint Forge Workshop for any items. We'll not cross our paths in the future. Haha, goodbye!"

The middle-aged men from Mt. Zhenliu burst out a clap of laughter as they headed outside.

Their actions embarrassed Master Xuanhuo even more.

All the forces and customers fixed their quizzical eyes on the people from Mt. Zhenliu.

Why did they dare to fall out with Saint Forge Workshop?

"Refining a piece of equipment only needs two sets of materials and four elixir pills for three sets of materials. No other Spiritual Stones charges. Is this true?"

Radiance glistened in an elder's eyes as he stared at the figures from Mt. Zhenliu. With a slight hesitation, he immediately chased after them.

The rest of the forces and customers hurriedly caught up with them.

If what those people from Mt. Zhenliu said was true, they could save hundreds of thousands of Spiritual Stones when they refined equipment and elixir pills!

"This is impossible. How can there be such a low price. There's not much profit at all!"

Master Xuanhuo clenched his fist with disbelief.

At such a rate, a workshop would not possibly earn many Spiritual Stones except for some materials.

This was hard for him to believe and he looked dreadful with a constant mix of expressions.

The surrounding workers, blacksmiths, and alchemists were full of surprise as a bad feeling suddenly shrouded over them.

In less than five minutes, those customers and forces who had just left returned to the workshop with a surprised look.

"Master Xuanhuo, we're taking back our material. Sorry!" a force that had yet to make his payment announced frankly.

"Master Xuanhuo, I'm sorry. We're going to another place. Look, we did not bring any damage to your business. Can you return our materials and Spiritual Stones?" another force who had paid asked Master Xuanhuo.

"Master Xuanhuo..."

One by one, the customers and forces requested that their Spiritual Stones and

materials be returned, as they would not require the services of Saint Forge Workshop.

Seeing this, Master Xuanhuo was stupefied and his heart raced violently.

All the staff in Saint Forge Workshop were plunged into darkness.

The sky seemed to have fallen on them, but why did this happen? What was the reason?

In a shop not far away from Saint Forge Workshop, Wang Xian looked at the forces who were bringing him chests of materials. His eyes glistened.

Hearing that they had come over from Saint Forge Workshop, Wang Xian's lips quirked slightly.

"Saint Forge Workshop, today's just the beginning. It won't take long before you guys fall. You'll pay an unbelievable price for what you guys did the other time!

"And those young men... be patient. Wait for me!"

Wang Xian swept his gaze across the chests of material while he was filled with fighting spirit.

It won't be long!

It won't be long!

Soon, soon!

This world would not be able to contain him.

At that time, he would be fearless against immortals and gods!

Roaring through Yong Chang!

# Chapter 586: Famous Throughout Yong Chang (3)

On fire. On fire.

A small shop in Yong Chang City was the focus of all attention.

There was an alchemist master and a blacksmith master in the smallest shop within the city center.

The master only required two sets of materials for refining spiritual equipment. For refining elixir pills, he would give you four pills for three sets of materials. Moreover, he wouldn't charge any spiritual stones. News of his exceptionally low pricing for refining had spread throughout Yong Chang City within three days.

All the forces and customers were in a frenzy.

During this period, when various forces were converting their resources into strength, they swarmed the shop.

"Master, these are our materials. We would like to ask the master to refine them as soon as possible. We would be truly grateful!"

At this moment, forces after forces carried boxes of materials into the shop. They were making requests to Wang Xian while still being a little bewildered by the pricing.

"Just leave it there. Come back in half a month to collect!" Wang Xian said plainly to them.

After which, he went to the second floor to continue his refining of elixir pills.

Although the master was acting a little nonchalantly, they didn't say another word. Instead, they were respectful and headed for the exit.

"This master is truly terrifyingly young!" an old man exclaimed in shock.

"Yeah! Rumor has it that this master is only twenty-something years old. Moreover, there isn't a second person in the small shop. Some bold guesses are saying that this master is unparalleled in refining elixir pills and equipment!"

"Unparalleled in refining elixir pills and equipment? Would there really be such an incredibly talented person in this world?" Several people sighed emotionally as they returned to their families.

It wasn't just this small shop that became the craze. At the same time, the news of a young alchemist master and blacksmith master that was unparalleled in refining elixir pills and equipment had attracted equal attention.

Although many people weren't certain, the news had started circulating within Yong Chang City. A twenty-plus-year-old young man was both an alchemist master and a blacksmith master.

This inevitably made many feel that the world was a little crazy.

"Together with this batch of materials, I will be able to increase my dragon energy by sixty million points. I'm lacking approximately ten million more before my level will increase to Level 9!"

Wang Xian's eyes beamed as he looked at the boxes of materials. He smiled faintly and started refining rapidly.

While increasing a terrifying amount of dragon energy, he was also forging various kinds of spiritual equipment.

Based on his rough estimate, the materials in the shop would allow him to forge more than one thousand four hundred pieces of spiritual equipment.

Among which, there would be a hundred and fifty pieces of Level 11 spiritual equipment.

This was an insane number.

At this very moment, within Saint Forge Workshop a short distance away, Master Xuanhuo, Master Qingming and a group of alchemists and blacksmiths were gathered in a resting room.

The atmosphere of the room was extremely heavy. Two masters sat there solemnly without moving an inch.

"Master!"

At this moment, the door to the room was pushed open. An employee wiped away the perspiration on his forehead anxiously.

"Master, the people from the Zhou Family have just brought their materials to that small shop!" the employee said with great care.

Puff puff!

Master Xuanhuo breathed deeply and his face was incomparably gloomy.

Master Qingming, who was beside him, was equally bitter. He looked at Master Xuanhuo and asked, "Our Saint Forge Workshop has zero business left. Could it be... Could it be we are just going to sit here?"

Not a single business partner was left! Not a single one!

For the Saint Forge Workshop, this felt a little unbelievable.

As the largest equipment refining workshop and elixir refining shop in Yong Chang City, they had never expected this to happen.

Yet, they truly had no business left.

it was all because of that small shop and it had started three days ago.

Since three days ago, their business had experienced a meteoric dive.

And now, the Saint Forge Workshop had zero business left.

"Who's the one behind that small shop? How could he possibly set such a low price for refining elixir pills and spiritual equipment? Who the hell is he?"

Xuanhuo growled and his voice reverberated across the room.

"We have not seen him previously either. All we know is that he's an extremely young master. Some say that he is only in his twenties and is unparalleled in

refining elixir pills and equipment!" that employee stammered while answering.

"We can't let this continue. Let's go! Let's go take a look at what this shop is trying to do!"

Master Qingming stood up and spoke with a gloomy expression.

During the period where various large forces wanted to refine elixir pills and spiritual equipment, a shop popped up from nowhere. Not only did it now maintain the market price, but it also charged extremely low prices for refining elixir pills and spiritual equipment.

This was a huge blow to the entire market and the Saint Forge Workshop!

Initially, the Saint Forge Workshop was still considering whether they should increase their pricing.

Now, it would be great if they even had business.

"No, we shouldn't go there on our own temporarily!"

"Now isn't the right time!"

A ruthless look flashed in the eyes of Master Xuanhuo. He said, "That small shop is going against all the forge workshop in Yong Chang world. Let's contact all the other shops and the forces behind them. I don't believe that the small shop would dare to go against the entire Yong Chang. At that time, with our strength..."

"We will slaughter that brat!"

Master Qingming squinted his eyes upon hearing Master Xuanhuo. He replied, "Alright. We will spare his life for a few more days. He has now encroached upon the interests of all the elixir pill shops and weapon shops in Yong Chang City. Unless he is an Immortal. Otherwise, he will definitely be dead!"

The words of the two masters sent a chill down the spines of all alchemists and blacksmiths in the room. Yong Chang City strongly restricted killing. However, the restriction was on the open front.

If you could assassinate someone in the dark without alarming the Enforcers, it wouldn't be a problem!

However, their faces turned hideous soon after.

The appearance of that small shop had broken their rice bowls! As the saying goes, to cut off one's wealth is to kill one's father. He had to die!

At this very moment, it wasn't just the Saint Forge Workshop. Other elixir pill shops and equipment forge workshops were also thinking hard about a countermeasure.

In the end, they came up with a uniform solution. To erase that small shop's existence!

Wang Xian wasn't aware that his low pricing for refining elixir pills and spiritual equipment had completely encroached upon the interests of some people in the entire Yong Chang City.

Even if he knew, he would be fearless.

Soon, he was going to level up.

Puff!

Another day had passed. Wang Xian took a deep breath and rubbed his eyes softly.

He had been refining elixir pills for four days and nights straight and had converted all the spiritual medicine brought by various forces into elixir pills.

[Name: Wang Xian]

Instant Shift (Preliminary)...]

"Just ten-plus million more. Just ten-plus million more!"

After consuming all the elixir pills, Wang Xian took a glance at his attributes and was clearly excited.

"Oh right! Mentor Yu asked me to return once a week. I should be heading back today to take a look!"

# Chapter 587: Great Waterfall Water Shockwave

Let's see if I can enter into Level 3 and 4 of the Scriptures Depository this time round.

I am a lot stronger now than I was a few days ago!

Wang Xian moved swiftly on his sword towards Mt. Fengyu.

Compared to a few days ago, the dragon energy in Wang Xian had increased to over eighty million points.

This was three to four-fold more energy than he had days before.

Wang Xian was unsure of how strong his actual strength was right now. But he was confident that he would have easily killed Emperor Qi if he were to fight him again right now.

Upon reaching Mt. Fengyu, Wang Xian saw a group of Mt. Fengyu disciples working on their cultivation.

As opposed to five days ago, he noticed that several new disciples were among the group.

Mentor Yu was in the midst of guiding the disciples when Wang Xian arrived. Everyone's attention quickly turned to him!

There was a look of bewilderment on the faces of the new disciples as they were wondering who this man was.

"Wang Xian, you are here!"

Mentor Yu was delighted to see him and approached him after speaking to the disciples.

"Mentor Yu!"

Wang Xian smiled and acknowledged her.

"Come, take your cultivating resources!"

Mentor Yu led him towards one of the mountains.

"Here are a hundred spiritual stones from Mt. Fengyu. For being in the top twenty disciples in the ranking, you get five hundred spiritual stones every month. In addition, there are some elixir pills for you as well!"

Mentor Yu retrieved a blue bag from one of the rooms and tossed it at Wang Xian.

"Mentor Yu, I would like to go to Level 3 and 4 of the Scriptures Depository!" said Wang Xian to her.

"Level 3 and 4? Level 3 would be good enough for those from the Dan Realm or Budding Realm. But the arts and battle techniques in Level 4 are not something you can manage. Are the spiritual stones sufficient for you?" Mentor Yu said to Wang Xian.

"Yes!" Wang Xian said and nodded.

"Okay, here you go. Train hard!"

Mentor Yu tossed another token at Wang Xian. "There will be a spiritual tea session tomorrow afternoon. Mt. Fengyu is given ten invitations. Do make yourself available!"

"Spiritual tea session? What is that?" Wang Xian asked with slight amazement.

"At Mt. Lingcha we have over ten Level 7 spiritual tea trees. Anyone who drinks the tea made by its leaves will greatly benefit his cultivating skills. Don't miss this golden opportunity!" Mentor Yu explained to Wang Xian.

"Over ten Level 7 spiritual tea trees?"

Wang Xian clicked his tongue slightly and hesitated for a while. "Alright, Mentor Yu. I will be there promptly tomorrow." He nodded.

"Okay!" Mentor Yu smiled and left.

Wang Xian flew to the Scriptures Depository without any hesitation.

Soon he reached the mountain peak of the depository and darted through the familiar paths inside.

Om!

After entering Level 2, Wang Xian followed the path to Level 3.

To enter Level 3, it would require a large number of spiritual stones – two thousand to be exact for a stay of twelve hours.

Wang Xian looked at the slot at the side. He reached out for the space ring, retrieved the spiritual stones from it one by one and placed them into the slot.

Om!

As he entered into Level 3, Wang Xian swept his gaze across the area and noted that the size was much smaller than Level 2.

Battle Techniques Imaging Jade Stones were placed neatly on the shelves.

Compared to Level 2, there were only five such stones in Level 3.

Wang Xian headed straight ahead.

Sword Edge Storm, a middle-class battle technique upgraded from Sword Edge. To master this battle technique, one must first master the Sword Edge battle technique.

Sword Jail, a middle-class battle technique upgraded from Sword Imprisonment. To cultivate this battle technique, one must first master the Sword Edge battle technique.

Sword Cloud Sea, a middle-class battle technique upgraded from Sword Cloud. To cultivate this battle technique, one must first master the Sword Cloud battle technique.

Sword Alps, a middle-class battle technique upgraded from Sword Shield. To

cultivate this battle technique, one must first master the Sword Shield battle technique.

Hidden Water, a middle-class battle technique upgraded from Water Clone and Hidden Mist. To cultivate this battle technique, one must first master the Water Clone and Hidden Mist battle techniques.

Wang Xian studied the Battle Techniques Imaging Jade Stones enthusiastically and tried to master them one by one.

Compared to the primary level battle technique, the middle-class battle technique was obviously far superior in power and tactics.

If any expert from the Dan Realm can master any middle-class battle technique, they are practically invincible within their ranks. This upgrade in power is even more superior to that which one can get from any spiritual equipment.

If any Budding Realm expert is capable of mastering two of these battle techniques, he will be regarded as a fearsome expert.

In less than half an hour, Wang Xian had cultivated five battle techniques as his own. He was now able to unleash these battle techniques at will.

Wang Xian's face beamed with excitement as he looked at the entrance to Level 4.

Level 4 battle techniques are the high-class battle techniques that can only be used by the Immortals. Mastering these techniques will enable the Immortals to come up with their own unique superpowers!

Wang Xian recalled reading a record about such techniques from a book. He stared at the entrance to Level 4 and thought about whether he should proceed further.

Ten thousand spiritual stones for twelve hours. Okay, let's go and take a look at what's in there!

Wang Xian made up his mind and headed towards the entrance to Level 4. He could easily afford the ten thousand spiritual stones right now.

During the past few days, some of the forces brought him tens of thousands of spiritual stones along with the refining materials just to get into his good books.

Wang Xian had kept all of these stones.

Upon entering Level 4 and slotting the ten thousand spiritual stones, Wang Xian followed the path upwards.

This... This Level 4 merely has three rooms!

Wang Xian peered into the area of Level 4 with astonishment.

Unlike the other levels, there were no shelves in Level 4, only three individual rooms with words engraved on the doors to the rooms!

Great Waterfall Water Shockwave!

Dangerous Steam Explosive Power!

Sword Field!

Wang Xian marveled at the three rooms before deciding to enter the room of Great Waterfall Water Shockwave.

Inside the room, there was only one Battle Technique Imaging Jade Stone in the center of the room with no reference books.

The Jade Stone was about the size of a human head, which was about seven or eight times larger than the size of the Jade Stones in Level 2 and 3.

Wang Xian noticed there was a cushion facing the front of the room. He immediately walked towards it and sat down.

Om!

Just as he was sitting down, a shocking scene unfolded before his eyes.

The entire area before him, spanning a radius of ten kilometers and five kilometers in height, was quickly filled up by an oval-shaped seawater field.

In the middle of the seawater field was a blurry image of a man standing in it.

He moved his arm, and the seawater started to gush out from the inside as though a waterfall of tens of thousands of meters high. The force of the water swiftly swept forward.

In an instant, the seawater field looked like what one would witness on doomsday.

However, the scene dissipated slowly, replaced by the blurry image of the man who had started to create the horrid seawater field.

[Ding! Master the high-class battle technique! Great Waterfall Water Shockwave!]

Wang Xian felt like he'd been submerged under the water for a very long time before passing out. He regained consciousness after hearing a sound echoing from the system.

I did it! I have learned a high-level battle technique that can only be mastered by immortals!

Wang Xian's eyes burned with passion, and he recalled how the Great Waterfall Water Shockwave was unleashed before him.

Even with my strong ability, I can only withstand the strength of the Great Waterfall Water Shockwave for three minutes. The consumption of my energy is too high!

Wang Xian clicked his tongue slightly.

Om!

In this instance, he felt a repulsive force being emitted inside the room.

What!? Twelve hours flew past just like that!

# Chapter 588: Serpent Sword

Standing at the entrance to the fourth floor, Wang Xian hesitated a little.

Let's practice the other two battle techniques when I have the time!

It was already the next morning and he still had to attend a spiritual tea session in the afternoon.

Wang Xian wouldn't want to miss the spiritual tea session.

Wang Xian didn't have many other hobbies. He wasn't a fan of smoking or drinking alcohol. All he liked was to taste and enjoy great tea.

He wouldn't want to miss tea that was made from Level 7 spiritual tea leaves.

He didn't return to Mt. Fengyu. Instead, he flew towards Yong Chang City directly.

At this moment, there was still a huge pile of materials waiting for him to refine.

Refining spiritual equipment was relatively more time consuming as compared to refining elixir pills to Wang Xian. Therefore, he had to refine the materials piling up in his shop as soon as possible.

When he reached Yong Chang City, dawn had just broken.

Huh?

When Wang Xian arrived at his shop, he was surprised to see a burly young man standing at the entrance.

The young man was roughly two meters tall and had an exceptionally burly build. He wore a long black robe and looked imposing.

Behind him, he carried a huge sword that was roughly two meters long.

"Are you here to refine elixir pills or spiritual equipment?"

Wang Xian looked at the young man, took out his key and opened the doors to the shop.

"You are the master of this shop?"

Seeing Wang Xian opening the door, he asked this in a solemn and low voice.

His voice was ordinary but had a unique dominance.

"Yeah. Get your materials ready!" Wang Xian said plainly to the young man.

"I'm here because I wanted to modify this weapon of mine!" The young man stepped into the shop and remarked with a straight face.

"Modify your weapon? Get your materials ready, leave the weapon you want to modify behind and write down your requirements for the modification!" Wang Xian replied directly.

"I'd like to stay behind to watch. Moreover, I only have a set of materials. I can pay the rest with spiritual stones!"

The young man frowned and answered Wang Xian.

"Come again in half a month. I don't have time now!"

Wang Xian's eyebrows knitted together upon hearing him before answering plainly.

"You are going to help me modify today!" The young man paid no attention to what Wang Xian had said.

Huh?

Wang Xian raised an eyebrow and looked at that young man.

He had bushy eyebrows, thick lips, a burly stature and a naturally imposing demeanor.

"Get in the queue!" Wang Xian said as he turned and headed to the second floor.

Weng!

Just as Wang Xian took the first step, a razor-sharp Sword Edge flashed across and blocked off his route.

The blade was close to half a meter long and was emitting a chilling aura.

Wang Xian squinted his eyes, turned around and stared at the young man.  
"What? You want a fight now?"

"Get it modified today. I won't pay you a single spiritual stone fewer!" The young man stared at Wang Xian with his deep and black eyes as he remarked coldly.

"What if I say no?"

Seeing the attitude displayed by the young man, Wang Xian's expression turned solemn. He flicked his finger towards the Sword Edge.

Ka ka!

Sounds of mirrors cracking reverberated and the blade before Wang Xian collapsed instantly.

"Huh? You are pretty strong!"

The young man was surprised Wang Xian could crush his Sword Edge with a flick of his finger. He squinted his eyes to observe Wang Xian and said, "I'll compensate you with sufficient spiritual stones. You have to help me modify my sword right now!"

"Is this the attitude to have when you are asking me for a favor?"

Wang Xian looked at the young man with contempt and shouted, "Get out!"

The young man was haughty and exceptionally conceited. He was requesting that Wang Xian modify his spiritual sword and yet showed Wang Xian a horrible attitude.

Wang Xian wasn't lacking in spiritual stones at this moment. If the young man wasn't polite to him, he could afford to simply ignore him.

"Think before you talk. You are going to modify as I requested. I wouldn't be cheating you on the spiritual stones!"

When the young man heard Wang Xian, he was still emotionless. It was as though he was incapable of showing emotions. Gradually, he lifted his arm and drew the huge sword.

The huge sword didn't have a sharp edge and looked extremely heavy. It was entirely black and seemed capable of absorbing sunlight.

On it, streams of black water were flowing.

"This is...?"

Wang Xian stared at the sword and was surprised. Level 12 spiritual equipment! Moreover, the water that was flowing on the surface wasn't ordinary water!

"Scram!"

Wang Xian shifted his gaze away, turned around and headed for the stairs once again.

Weng weng!

At this moment, the young man's arm trembled and a black-colored Sword Edge shot out from the huge sword towards the stairs where Wang Xian was heading!

"You must be eager to die! I'm asking you to get out and you shall get out now!"

Ruthlessness beamed in the eyes of Wang Xian. Moving the longsword in his hand, a huge mountain-shaped sword appeared below the black energy blade.

Bam!

A terrifying explosion reverberated and the immense energy was absorbed by the mountain-shaped sword.

"Sword Alps! And you are so skillful in it!"

The young man's eyes lit up. Waving the huge sword in his arm, shots of Sword Edge slashed towards Wang Xian like a strong storm.

"Sword Edge Storm?"

Seeing the young man attacking, Wang Xian moved. Mountain-shaped swords hovered around him as he started swinging the Phantom Sword.

"Sword Edge Storm!"

The same Sword Edge Storm!

However, Wang Xian's Sword Edge Storm perfectly deflected the young man's Sword Edge Storm as they continued their attacking paths towards the young man.

"Great! What a great use of Sword Edge Storm!"

The young man was burning with passion. He placed the huge edgeless black sword across his body and one could see the black water energy flowing rapidly on it.

"Sword Alps!"

The same Sword Alps!

Tsk!

Wang Xian snorted. He swung his sword in a cross action as sword-shaped energy struck towards the young man.

"Thinking of breaking my defense? A wishful thought!"

The young man shouted and the huge sword in his hand started rotating.

Bam! Bam!

Bam! Bam!

The young man's Sword Edge Storm and Wang Xian's Sword Edge Storm hit their opponent at the same time but were stopped by their Sword Alps.

"Sword Jail!"

However, the sword energy launched by Wang Xian trapped the young man directly.

The burly young man lifted his head and was clearly shocked. "Three middle-class battle techniques! I had not expected you to have mastered three middle-class battle techniques!

"However..." Confidence quickly returned to the young man, shown in his expression. "However, your Sword Jail won't be able to trap me!"

As he spoke, the huge sword before him glowed brightly. The black rays gradually pushed against the Sword Jail.

"Just get out!"

Wang Xian waved his arm and revealed a cold smirk. As he spoke, the Sword Jail enlarged and transformed into a three-meters by three-meters water region.

The water region shrouded the young man.

Wang Xian waved his arm.

Boom!

The entire water region appeared to have suffered catastrophic attacks. Intense and fierce water columns coalesced and smashed towards the young man.

"What?"

At this moment, the emotionless face of the young man finally revealed a different expression. His body flew out of the exit under the strong impact of water energy.

Bam!

The young man plunged his huge sword heavily into the ground and was completely shocked.

Pfft!

"So strong... This... How can this be possible?"

The young man looked out of sorts while staring blankly at the shop.

## Chapter 589: Serpent Sword (2)

"How can this be possible?" the young man murmured in a low voice as his body trembled. His eyes surged with a frantic fighting spirit.

But subsequently, the fighting spirit in his eyes slowly disappeared. He looked at the huge sword in his hand and headed to the shop once again.

"How dare you come in again!"

Wang Xian had just arrived upstairs when he sensed the young man walking in again. He raised his eyebrows.

"If you ever dare to step in again, you can forget about walking out alive!"

A cold voice came from upstairs while the young man had a slight change in his expression.

"Master, refine my weapon!"

The young man took a deep breath as the space ring in his hand exuded beams of radiance.

Bang, bang, bang!

One by one, the Spiritual Stones flew into the room upstairs.

The number of Spiritual Stones was massive. Within a few seconds, hundreds of thousands of Spiritual Stones went into the room.

Wang Xian froze for a moment as he looked at the Spiritual Stones in his room in shock.

Hundreds of thousands of Spiritual Stones was a significant figure.

"You want to modify your Spiritual Equipment?"

Wang Xian swept his gaze across the Spiritual Stones as he showed up at the

stairs, overlooking the young man.

"Yes!"

The young man craned his neck, looking up and staring at Wang Xian.

"Apologize now, and I'll do it for you."

Wang Xian quirked his lips as he spoke to the young man, monotone.

Radiance flickered in the eyes of the young man as he furrowed his brows. "I was reckless just now. I would like master to modify my Spiritual Equipment, please!"

"This should be the attitude. What were you doing just now? On account of the Spiritual Stones, come up!"

Wang Xian scorned the young man.

The corner of the young man's lips twitched as he grasped his huge sword more tightly than ever. With some hesitation, he went up.

"A young Budding Realm expert. You're on par with Piao Lingxue. I guess you must be one of the supreme talents from Da Hong Immortal Sect. However, one should still learn to be polite at my place!"

Wang Xian cast an emotionless gaze at the young man as he stored a hundred thousand Spiritual Stones in his space ring.

The young man came up while Wang Xian remained silent.

Seeing him keeping quiet, the young man's hands that grabbed the huge sword tightened.

This was the first time he had encountered such a situation, and the arrogant young man felt uneasy about it.

But he could not win against Wang Xian, and he needed his help.

"Master, I would like to modify this sword!"

The young man took the initiative and spoke to Wang Xian.

"I can't modify Level 12 Spiritual Equipment!"

Wang Xian cast a glance at that huge black-colored sword and spoke frankly.

"You don't have to modify too much of it. I just need something to be embedded on it!"

As the young man spoke, he put down one of his bags and opened it up before him.

"I just need to embed this on the sword. As a compelling master, this should be easy!"

The young man took out pieces of scale-like items.

"This is...?"

Wang Xian narrowed his eyes as he gazed at the metal that looked like pieces of scales.

A palm-sized material with a sharp tip.

[Serpent Scale Stones: Level 12]

There were hundreds of such Level 12 metals.

"Serpent Scale Stones. Can you embed this on the huge sword?"

The young man looked at Wang Xian and asked him with a dead fish look.

Wang Xian walked over and took out one of the Serpent Scale Stones. Subsequently, he stretched his hands out and took over the huge sword in the young man's hand.

Embedding the Serpent Scale Stones on this huge edgeless sword would instantly enhance the power of this sword by a lot.

On top of that, circulating the stones with energy could form a serpent. This was the feature of the Serpent Scale Stones.

One slash would bring out hundreds of serpents, tearing the enemy apart. Just the thought of it would make one tremble in his boots.

Wang Xian took the Serpent Scale Stones and the huge sword as he locked his brows. Given his level in Art of Water Refining, he was unable to reforge it again.

To embed them on the sword, there was only one method.

Wang Xian looked towards the chest at the side and took out a type of metal from it.

[Xiyun Metal: Level 12]

Xiyun Metal was a unique metal that had a suction ability.

This was one of the materials sent by a force for refining some equipment that was similar to chains.

Wang Xian took a look at Xiyun Metal, then the huge sword and Serpent Scale Stones.

"Your Spiritual Stones are not enough!"

Wang Xian looked at the young man and spoke straightforwardly.

Xiyun Metal could be used to forge Level 12 weapons after Wang Xian upgraded to Level 9.

Level 12 Spiritual Equipment cost at least 150 thousand Spiritual Stones per piece. The hundred thousand Spiritual Stones that the young man paid was indeed insufficient!

"Not enough?"

Wang Xian's words stunned the young man as he revealed a surprised look.

Wang Xian looked at him and said, "I need to consume Level 12 Xiyun Metal!"

"Help me modify it first, and I'll not shortchange you any Spiritual Stones!"

The young man locked his brows as he spoke to Wang Xian.

"Great!"

Wang Xian nodded as he swung his arm and began his work.

Level 12 Xiyun Metal, for some reason, could melt at a rapid rate.

With a swing, drops of Xiyun Metal landed on the huge sword.

Subsequently, he embedded the Serpent Scale Stones on top of it.

Taking into account the energy conductivity, the stones were not embedded in any random order. Wang Xian had to consider all aspects to make it work.

Over hundreds of Serpent Scale Stones were somewhat troublesome, and this slowed down the embedding speed by a lot.

Phew!

After four hours, Wang Xian had finally embedded all the Serpent Scale Stones on the huge sword.

At this time, the sword had already undergone a tremendous change.

The entire huge and broad sword was already covered by the Serpent Scale Stones with them protruding from the blade.

The huge black sword had turned into some horrifying monster sword.

Wang Xian held the hilt and circulated his water energy.

Roar!

A faint roaring sound was heard from it as Sea Serpents formed by the water-energy began to sprout from the Serpent Scale Stones.

The entire sword had turned into a terrifying monster in an instant.

"Great sword!"

Wang Xian's eyes gleamed while the young man's eyes were burning with passion as his body was shaking.

"Give it to me!"

The young man reached out to grab the huge sword.

"Spiritual Stones!" said Wang Xian without any emotion as he did not hand it to him directly.

"I'll send them over tomorrow!"

The young man was expressionless as he fixed his eyes on that huge sword.

"Oh? Is that so?"

Wang Xian raised an eyebrow and stored the huge sword in his space ring. "Send over the remaining 150 thousand Spiritual Stones tomorrow, and I'll return the sword to you. I'll accept an equivalent amount of Xiyun Metal which I consumed just now too!"

"Hur, 150 thousand Spiritual Stones?"

The young man darkened his expression immediately as soon as he heard Wang Xian. He stared hard at Wang Xian.

"Yes, 100 thousand for workmanship fees, 150 thousand for Xiyun Metal. Give me Xiyun Metal, and I can offset the 150 thousand Spiritual Stones!"

Wang Xian looked at him and spoke with a smile.

The young man was startled as his face turned black. However, he did not say anything.

A hundred thousand Spiritual Stones was expensive for the workmanship, but it was, after all, Level 12 Spiritual Equipment. This was the primary market price.

In addition, there was nothing wrong with providing the Level 12 materials that were consumed in the process.

"Give me the sword first, and I'll definitely give you the Spiritual Stones or

whatever materials!" the young man said with a sullen face.

"Don't even think about it. I'll give you back your sword whenever you have Spiritual Stones or materials. Otherwise, I'll keep your sword here!" Wang Xian said to him plainly.

# Chapter 590: Gathering Of The Supreme Talents

The young man was shocked. He frowned as his eyes were fixed on Wang Xian while he was feeling a little defeated.

"Piao Lingxue recommend you to me. I wouldn't under-compensate you regardless of whether it was spiritual stones or materials."

After a few seconds of silence, the young man looked at Wang Xian and spoke.

Piao Lingxue?

Wang Xian's lips curved into a smile and he said, "In that case, do you know that I also didn't hand Piao Lingxue her weapons when she did not have sufficient spiritual stones with her!?"

The young man's jaw dropped and his emotionless face looked a little distracted. Overall, he looked a little weird.

"This afternoon! I'll bring spiritual stones over this afternoon!" the young man said with a heavy expression.

"I'm not free in the afternoon. I'll be going out in a while. Come back tomorrow!"

Wang Xian replied plainly to the young man. He looked at the time and realized it was almost noon.

"I'm closing for the day. I'll be heading out!"

Wang Xian walked towards the stairs as he spoke.

The young man pulled a long face while following Wang Xian, seeing him locking up the shop.

His eyes burned with passion and fighting will as he saw the figure disappearing

before him. However, a frown appeared on his face gradually.

...

"Wang Xian, we are going off now!"

Soon after arriving at Mt. Fengyu and getting a short break in his simple room, Wang Xian heard a voice calling him from outside the room.

"Alright, I'm coming!"

Wang Xian opened his eyes, got up from his bed with a smile and headed out.

Outside the room, Yu Ling'er, Huayu and several other disciples were waiting for him.

"Senior brother Wang Xian!"

Several disciples greeted him warmly with a smile.

Wang Xian nodded his head plainly and said, "Let's go!"

"Mm! Mentor Yu is going with us too!"

"We have to thank Senior brother Wang Xian for making it possible for us to participate in today's spiritual tea session. Only the top ten mountain seats are qualified to join!"

Several disciples looked at Wang Xian and spoke.

"Let's go!"

Mentor Yu arrived and led the group to fly towards where the spiritual tea session was being held on their swords.

Mt. Lingcha was located at the back of Da Hong Immortal Sect. There were a dozen-odd jade green spiritual tea trees growing above the waterfall.

Within the stream connected to the waterfall, there were various tea serving pots made out of wood.

Each tea serving pot was exquisitely crafted. There were five seats placed around each tea serving pot.

There were roughly fifty to sixty tea serving pots across the entire stream. At this moment, many disciples had arrived.

Those who could participate in the spiritual tea session were all elite disciples of various mountain sects. Other than young disciples, various mentors and the higher management personnel of Da Hong Immortal Sect were also present.

"The spiritual tea is made from leaves from Level 7 spiritual trees. The effects are immense even if you are only drinking the tea. Remember to cultivate diligently and absorb the essence!" Mentor Yu reminded the disciples around her.

After finding a good spot, they sat down.

"Yes, Mentor Yu!"

The group of disciples nodded their heads. Subsequently, the group of ten people from Mt. Fengyu sat around two tea serving pots.

The water below them was roughly two meters deep. One could even see fishes swimming in the clear water.

Having tea in this place was undoubtedly very enjoyable!

Around the tea serving pots were other pieces of tea wares and tea leaves that had been prepared in advance.

Wang Xian took a deep sniff and the aroma of the tea assailed his nostrils. He poured some hot water over the tea leaves and started enjoying his tea slowly.

As for the other disciples of Mt. Fengyu, they threw all the leaves into the pot and gobbled down their tea in a mouthful.

Their objectives were different from Wang Xian as they were after the energy encompassed within.

As for Wang Xian, he was simply trying to enjoy the tea.

This was indeed made from leaves from a Level 7 spiritual tree. This isn't something that can be matched by tea leaves around. Drinking it could even increase my dragon energy!

Wang Xian sipped on a bit and revealed a faint smile.

Mentor Yu was also silently enjoying her tea.

However, Mentor Yu stood up soon after and walked towards the front.

Chirp chirp!

The cries of swans could be heard from the sky. The surrounding people were conversing softly, making the place feel a little out of this world

As more and more people arrived, the surroundings got a little noisier.

Pa Pa!

"Spiritual tea is for enjoying and not for gobbling down!"

"Hehe! Other than that Dragon King, the rest in Mt. Fengyu are all piles of trash!"

At this moment, ridicules resounded from the side.

When the disciples from Mt. Fengyu heard them, they jerked open their eyes and glowered at the group of people before them.

The group had roughly twenty people. They were staring at the people from Mt. Fengyu with contempt. Conceit was written over their faces as they stared down at the disciples of Mt. Fengyu with a sense of superiority.

When the disciples from Mt. Fengyu saw the words embroidered on their outfits, they were furious but held back their displeasure.

Hehe!

The group snorted and headed to the side before sitting down.

"Those people from Mt. Leng are truly scornful!"

"They are too overbearing!"

Several disciples from Mt. Fengyu grumbled furiously.

"Mt. Leng?"

Wang Xian turned his head around nonchalantly as he looked across. He realized the group were staring at him harshly.

She's that girl with the almond-shaped eyes.

Following which, the disciples from Mt. Leng, who were next to the girl, started conversing softly.

Wang Xian looked beyond them and indeed saw their mentor, Lengyan, walking towards the front.

"Senior brother Hong Tianda is here? Who would have thought that Senior brother Hong Tianda would come to this spiritual tea session?"

At this moment, exclamations broke out from various places. Countless disciples at the spiritual tea session looked ahead curiously.

The young man was roughly forty years old. He had an exceptionally burly stature and wore a straight face. It was as though everyone here owed him money.

It was also his strong build and emotionless face that instilled fear in others.

"Tianyi Swordsman, Hong Tianda. He's the pride of all disciples in Da Hong Immortal Sect. With his huge sword, he could defeat a whole crowd alone!"

Wang Xian heard a disciple standing by the side exclaiming.

"He's my idol! That's what the strongest disciple of Da Hong Immortal Sect should be. A while back, Great Senior brother Zheng Tianda fought with the strongest disciple from Yong Chang Immortal Sect. In the end, he lost by a move because of his weapon. If he had an equivalent weapon to the strongest disciple from Yong Chang Immortal Sect, the outcome wouldn't have been certain!"

"Only Senior sister Piao Lingxue and Senior brother Ao Shuwen could possibly be compared with Great Senior brother. Even Senior brother Su Fa is a little inferior to him!"

Wang Xian heard several other disciples commenting.

It's him!

Wang Xian looked at the burly young man. Isn't he that brat I met earlier today?

Looking at his face, Wang Xian chuckled. He was pulling a long and dark face although he still owed Wang Xian one hundred and fifty thousand spiritual stones! Wang Xian found this to be a little hilarious!

So that's why he knew Piao Lingxue. So he is Hong Tianda who I have heard so much about! And he's the strongest disciple of Da Hong Immortal Sect!

Wang Xian's eyes were fixed on him. When fighting with him a while back, he found this young man to be rather strong. He was even much stronger than Emperor Qi from Diabolism and Nie Wushuang from the Dong Hua Sacred Sect.

However, when compared to the current Wang Xian, the strongest disciple of Da Hong Immortal Sect wouldn't even pique Wang Xian's interest in battle.

"Piao Lingxue and the beautiful disciples from Mt. Xue are here too!"

"Senior sister Piao Lingxue is truly a breathtaking beauty!"

"The strongest and the second strongest disciples of Da Hong Immortal Sect are here! Even the fourth-ranked Senior brother Su Fa is here. We are just missing Senior brother Ao Shuwen now."

# Chapter 591: Vendetta

With skin that was as fair as snow, and a sword that was as cold as frost, Piao Lingxue was the goddess in the current era of the entire Da Hong Immortal Sect within Yong Chang world.

The only one that could be compared with her was a female disciple from Yong Chang Immortal Sect.

It was not an overstatement to say that Piao Lingxue was the dream girl of all the disciples of Da Hong Immortal Sect.

Her prestige was on par with the top-ranking disciple, Hong Tianda.

Around Piao Lingxue stood the group of Mt. Xue's female disciples, which consisted of the top twenty disciples like Yao Beibei, Feng Beiling...

All of them enjoyed a great reputation in the entire Da Hong Immortal Sect.

The appearance of Piao Lingxue and the female disciples of Mt. Xue drew the attention of all men as they observed them with glistening eyes.

Wang Xian looked over, revealing a smile on his face, as he saw all familiar faces.

"Senior brother Ao Shuwen is here too!"

"Senior brothers Ao Shuwen, Feng Haosi, Tong Xiuping, Ming Ziyu, Lin Xingjian are here!"

"They are ranked third, sixth, ninth, eleventh and fourteenth respectively. These five senior brothers were on very good terms with Senior brother Ao Shuwen as the lead. They are the ones who had the greatest strength in the entire Da Hong Immortal Sect!"

"All geniuses are always together. When will we have the chance to enter their circle?"

"Unless you can make it to the top twenty of the Da Hong Immortal Sect disciples, you can forget about entering their circle!"

At this time, exclamations of surprise kept coming with the arrival of those five disciples. The level of attention they got was not any less than Piao Lingxue or Hong Tianda.

That was because five of them were the young supreme talents of the Da Hong Immortal Sect.

"Hur? Another familiar face?"

Wang Xian squinted his eyes as a tinge of coolness flashed in his eyes while he peered at the quintet.

The five people before him were those five young men whom he had met at Saint Forge Workshop before.

Enemies are bound to meet.

Wang Xian took the teacup in front of him and took a sip without any expression.

Hong Tianda, Piao Lingxue, and the quintet took seats around them.

They possessed self-contempt as they looked nowhere, and sat down with cold arrogance.

"I did not expect her to be a proud goddess!"

Looking at Piao Lingxue, who appeared almost as a proud swan in the sky, Wang Xian could only give a faint smile.

Compared to the Piao Lingxue who he had known previously, the current one was more superior and aloof.

The spiritual tea session once again quieted down after the disciples walked in.

One by one, they sipped the tea, digested it, and converted it into energy.

Pak!

"Lengyan, watch your mouth!"

After about ten minutes, the sharp sound of the breaking of a tea set was heard along with the voice of Mentor Yu.

Everyone was startled as they looked ahead.

"Why, Qianmei? I can't even talk about it? Hmph!"

Bam!

When everyone craned and looked up, they were shocked to see Mentor Yu and Lengyan engaging in a fight above their heads.

"Sigh, not again!"

Some of them sighed as several elders stood in the air, watching the two of them with helpless faces.

"The grudge between Mentor Yu and Mentor Leng will never be resolved for the rest of their entire lives!"

"How could it be resolved? Back then, Leng Aofeng killed Emperor Yu and the top-notch disciples of Mt. Fengyu with the use of unorthodox combat methods, including Level 13 Spiritual Equipment and an array. Even though Leng Aofeng had his limbs hacked off, he was only imprisoned for ten years because of God Leng. This grudge is not easy to resolve unless one of them is totally defeated!"

At this time, some of the disciples were whispering.

Wang Xian looked over and saw Yu Ling'er standing up in rage. Some of the disciples of Mt. Fengyu were also glowering at Lengyan in the sky with furious looks.

This was obviously not the first time that the surrounding disciples witnessed the fight between Mentor Yu and Mentor Leng.

"There were right and wrong back then. Leng Aofeng might be a descendant of God Leng, but Emperor Yu was, after all, the unofficial disciple of God Yin. He also felt guilty towards Emperor Yu. Hence, he would never let Mentor Yu and

his daughter come into harm's way!"

"Yes, such a grudge cannot be resolved. Luckily, they stop after each fight."

Some of the surrounding disciples continued to exchange conversations in whispers.

Wang Xian was listening to the story that some of the disciples were talking about as he looked up to the sky. Both Mentor Yu and Lengyan were withholding a daunting sense of murderous intent.

However, the members of higher management of Da Hong Immortal Sect was watching, and thus, no one would get killed.

"Yu Qianmei, don't assume that you have an extraordinary disciple in your mountain sect. Hmph. To me, he's just a little worthless brat. Those outstanding disciples that Mt. Fengyu once had are gone by now!"

Lengyan's sarcastic, cold voice came from the sky as she wanted to irritate Mentor Yu.

"If not for that despicable Leng Aofeng, how would Mt. Fengyu have come to such a state? Mt. Leng has only insidious villains!"

Mentor Yu's voice in the sky was filled with killing intent as she confronted her.

"Hmph, it was obvious that Mt. Fengyu lost to us. Now you smeared our name by saying we're despicable. How shameless!"

Suddenly, a scornful voice was heard not far away from Mt. Fengyu's side.

"You..."

Upon hearing their words, Mt. Fengyu's disciples immediately spun around with anger.

"What is it?"

Seeing the Mt. Fengyu disciples turning around to look at them, the disciples of Mt. Leng revealed sarcastic faces. "A bunch of trash from Mt. Fengyu. If you're

not convinced, we can go to the arena and cripple you guys!"

They glared at them disdainfully.

Mt. Leng was currently the third mountain sect in the ranking of Da Hong Immortal Sects. They had over two hundred disciples, which was ten times more than Mt. Fengyu.

"A few pieces of trash are not qualified to take part in a spiritual tea session!"

"Any disciples we pull from our mountain sect could easily annihilate the insignificant Mt. Fengyu!"

Several Mt. Leng disciples exuded a surge of domineering aura.

The group of Mt. Fengyu disciples paled instantly, revealing dreadful expressions.

Comparing the Inborn disciples of Mt. Fengyu and the lowest level, Half-Step to Dan Realm, of Mt. Leng...the difference was too huge.

It was not a fight within the same league.

"Senior brother Su Fa, that's the so-called Dragon King!"

At this time, the almond-shaped-eyed girl beside a young man pointed at Wang Xian.

"Really? Dragon King? Hehe, I've long wanted to meet him in person!"

The young man by the name of Su Fa looked at Wang Xian before he swept his gaze across the Mt. Fengyu disciples.

"Mt. Fengyu? Dragon King? They are just some trash that are not even worthy of carrying the shoes of Mt. Leng's disciples."

Su Fa sneered with a cold smile.

Since the mentors from Mt. Fengyu and Mt. Leng shared a vendetta, naturally, the disciples from the two mountain sects would not be on good terms.

But Mt. Fengyu was too weak to be compared with Mt. Leng. If not for that Dragon King, Mt. Fengyu would not have been ranked in the tenth position.

Disciples of Mt. Leng could not be bothered as they totally disregarded the opponent that looked like trash to them!

# Chapter 592: The Damsels Rescuing The Hero!

Su Fa spoke coldly to the group of people from Mt. Fengyu.

The other disciples from Mt. Leng also stared at Wang Xian and the group with contempt. They had no regard for them at all.

Even if Mt. Fengyu was ranked as the tenth strongest mountain sect currently.

As they spoke, terrifying auras shrouded towards the crowd from Mt. Fengyu!

The auras from Dan Realm experts weren't something that Inborn disciples could withstand.

The disciples from Mt. Fengyu turned pale and gritted their teeth instantly as though they were small and helpless boats on the rough seas.

"Trying to exert your dominance over us with your aura?"

Wang Xian lifted the cup before him as he stared coldly towards Su Fa, who was in the middle of the group of disciples from Mt. Leng.

"We can also settle it in the arena!"

Su Fa looked at Wang Xian with ridicule. "Dragon King? So what if you defeated Kong Guanglin easily? Although others have said you have the strength to rank among the top ten disciples, I wonder...how many moves will you last against me?"

"No matter whether it is imposing our dominance or settling things in the arena, you guys from Mt. Fengyu are trash to us regardless of whether it's the present or the future. So what if you are the Dragon King?"

Su Fa lifted his head proudly and had no respect for Wang Xian at all. His voice reverberated throughout the entire spiritual tea session.

"This is... Mentor Yu and Mentor Leng are fighting it out above and the disciples of the two mountain sects are going against one another here?"

"That's a given. Considering that their mentors are fighting it out, how could the disciples be sitting there! It's only natural that they should try to crush the other sect!"

"Mt. Fengyu isn't in the same tier as Mt. Leng. Even when the Dragon King has shot up on the charts recently, they still couldn't be compared with Mt. Leng. Mt. Leng has Ao Shuwen and Su Fa!"

"No matter whether it is imposing dominance over the other or settling things in the arena, the disciples from Mt. Fengyu are completely outclassed. They would just be tortured!"

"Is that young man the Dragon King? He sure knows how to act cool. Everyone is standing there and yet he sits by the side and enjoys his tea. Hehehe! He's just going to be beaten up for trying to act cool!"

When the surrounding crowd heard Su Fa, they smirked and were just waiting to see a show.

They enjoyed their tea and had some food while watching the conflict between disciples from Mt. Leng and Mt. Fengyu. In a way, this was rather entertaining.

The only shame was that Mt. Fengyu was too weak. It would be an overwhelming defeat and thus the crowd was a little disinterested.

More people were focusing on Wang Xian. They were interested to see what the Dragon King really looked like.

"That kid is still as scornful as before!"

Standing beside Ao Shuwen, Tong Xiuping stared harshly at Wang Xian as he remarked.

"Brother Ao, the disciples from your Mt. Leng have a conflict with the other group. Why don't we head over and teach that guy a lesson!"

The other young man, Feng Haosi, smirked as he spoke.

"There's no need to. Just leave this to Su Fa. A meager Dragon King isn't qualified to warrant us taking actions ourselves.

Ao Shuwen looked across nonchalantly, sipped on his spiritual tea and spoke with a smile.

"Haha! You're right! Su Fa from your mountain sect would be enough to teach that brat a good lesson!"

Tong Xiuping and a few other young men commented with smiles.

"Huh? That is...?"

At this moment, where the disciples of Mt. Xue were standing. Yao Beibei and Feng Beiling were looking in the direction of Mt. Fengyu and Mt. Leng out of curiosity. Suddenly, someone caught their eye.

Piao Lingxue was also looking at Wang Xian who was sitting there.

So he's here too! Piao Lingxue thought to herself.

"Master! It's that handsome master!"

Yao Beibei and Feng Beiling weren't aware that Wang Xian was the Dragon King. They also didn't know that Wang Xian was a disciple from Mt. Fengyu.

Seeing Wang Xian, they were astonished. However, excitement beamed in their eyes.

Other disciples from Mt. Xue were also astonished to see Wang Xian.

"Great Senior sister, that... That..."

Feng Beiling pointed at Wang Xian. Her eyes widened and her jaw dropped as she exclaimed, "He's that handsome master from Yong Chang City!"

"Yeah!"

Piao Lingxue nodded her head.

"Great Senior sister, did you know that handsome master is a disciple of the Da

Hong Immortal Sect?"

Upon seeing Piao Lingxue's response, the surrounding disciples from Mt. Xue asked this in astonishment.

"Yeah, I knew that Wang Xian is the Dragon King. It's just that I did not expect him to be here today!" Piao Lingxue answered.

The master that was unparalleled in refining elixir pills and equipment!

He was the most famous master in the entire Yong Chang City currently. His name had almost reached the entire Yong Chang world by now.

"How dare the people from Mt. Leng try to bully handsome master? Let's go. Let's go support the handsome master!"

"Let's go! Who is more talented than that master in the entire Yong Chang City?"

"I had not expected that master to be the Dragon King. He's too cool. Let's head over! Let's head over!"

The disciples of Mt. Xue stared at Wang Xian with excitement.

Even Yao Beibei and Feng Beiling were staring at Wang Xian with fervent eyes.

The group of girls had all hoped for a romantic occasion with an insanely talented alchemist master and blacksmith master.

All the disciples from Mt. Xue stood up and headed towards Wang Xian.

Damsel saving the hero! They were thinking of saving Wang Xian!

Piao Lingxue chuckled. She stood up and followed behind.

"Eh, where are the beautiful girls from Mt. Xue heading to?"

The surrounding disciples from various mountain sects were surprised to see the female disciples from Mt. Xue standing up.

...

At the other end, Wang Xian put down the teacup in his hand while looking at the crowd of arrogant disciples from Mt. Leng. He stood up, stared at Su Fa and remarked emotionlessly, "Let's meet in the arena. No one is to blame for any death!"

"Haha! Great! You are indeed the Dragon King. Your courage is really commendable!"

Su Fa was taken aback by what Wang Xian said. However, he broke into laughter soon after and replied, "Arena? No one is to blame for any deaths? Let it be then! Haha!"

As he spoke, the smile on his face deepened. His eyes were locked on Wang Xian as he continued ridiculing him. "It seems like I'm going to be the warrior that slays a dragon!"

"This... The Dragon King is challenging Su Fa in the arena? No one is to be blamed for any death?"

"Damn! How stupid is he? Su Fa is currently ranked fifth and has reached the Half-step to Budding Realm. Isn't he courting his own death?"

"Interesting. This is going to be interesting. I was thinking Mt. Fengyu would be completely crushed. Who would have thought that the Dragon King wouldn't back down? Great! Great!"

When the surrounding disciples of Da Hong Immortal Sect heard their conversation, their eyes lit up with excitement.

Those female disciples from Mt. Xue that were walking towards Wang Xian frowned, quickened their pace and said, "You are really arrogant to speak of slaying the dragon!"

"If you are challenging master Dragon King, you have to get past me first!"

"Is Mt. Feng trying to impose his dominance over Mt. Fengyu? Retract your aura and don't push things too hard!"

Just as the disciples from Mt. Leng were smiling proudly and releasing their aura towards Wang Xian and the other disciples of Mt. Fengyu, sharp voices

resounded suddenly.

These voices and what happened were heard and seen clearly by the surrounding disciples.

"What's the situation? What are the disciples from Mt. Xue doing? Why are they helping the disciples from Mt. Fengyu?"

The surrounding disciples were taken aback. Even the disciples from Mt. Leng was stunned.

However, what was truly shocking to them was seeing the female disciples crowding towards Wang Xian as though they were diehard fans of his.

"Handsome master, I had not expected you to be the Dragon King. You are really too stunning! Wah! I want to be your girlfriend!"

"Dragon King, Dragon King... This name is truly domineering. Can you give me your autograph?"

# Chapter 593: Contest? (1)

"What's going on? What is this?"

All the mountain sect disciples were stunned as they watched Wang Xian being surrounded by a group of female disciples from Mt. Xue.

The female disciples in their eyes looked like some girls who were obsessed with guys, including Yao Beibei and Feng Beiling.

They were the next strongest disciples after Piao Lingxue, and ranked seventh and eighth respectively. They were absolutely talented young ladies of Da Hong Immortal Sect and goddesses in the eyes of Da Hong Immortal Sect's disciples.

They were only second to Piao Lingxue.

Yet, these two goddesses were standing by the sides, addressing Dragon King as the handsome master?

They even declared that anyone who wished to challenge the Dragon King would need to get past her first. What...

What was going on?

"Gosh, my goddess..."

One of the mountain sect disciples could not help but widen his eyes with disbelief as he watched the event unfolding.

The overall strength of Mt. Xue was ranked second, which was higher than Mt. Leng.

Moreover, the disciples of Mt. Xue, who were presented here today, were all renowned figures. Everyone had their own reputation, but yet, they were encircling Dragon King.

At the sight of this, all of them revealed shocked expressions.

Even those people from Mt. Leng, including Su Fa, wore slightly awkward expressions.

Seeing the Mt. Xue disciples glaring at them furiously, Su Fa's expression darkened.

"Juniors of Mt. Xue, this is between Mt. Leng and Mt. Fengyu. Do you want to intervene in the business between two mountain sects?"

"That's right. Ladies, this is a grudge between us and Mt. Fengyu. Mt. Xue had better not get involved in this and hurt our friendship!"

Su Fa and another disciple from Mt. Leng spoke in a dull voice as they looked at Yao Beibei and Feng Beiling.

"Why has it got nothing to do with us? Dragon King's business is our business!"

However, a female disciple of Mt. Xue looked up and answered as soon as Su Fa and the rest finished their statements.

"That's right, I might be marrying into Mt. Fengyu in the future. Hehe, this has certainly got something to do with me!"

Another female disciple threw Wang Xian a broad smile.

For a moment, the group of people from Mt. Leng put on dark faces after hearing what the female disciples said.

The surrounding disciples from other mountain sects twitched their lips involuntarily.

Fu\*k, when did Dragon King establish such a good relationship with the female disciples from Mt. Xue?

And why did the female disciples fancy him so much?

This almost caused them to cough out blood.

This...

"So Mt. Xue is bent on going against Mt. Leng?" asked a female disciple of Mt.

Leng coldly as she stared at the group of disciples from Mt. Xue.

The aura around her intensified.

"Yeah, so what if we do?"

Boom!

Seeing that demeanor exhibited from the female disciple of Mt. Leng, the rest of the Mt. Xue disciples did not give in as they exuded the aura from their bodies.

The lowest level of cultivation among the girls was Half-Step to Dan Realm. There was no concealment to their imposing aura when they confronted the people from Mt. Leng.

"You guys..."

Sensing the incoming aura, the female disciple of Mt. Leng paled.

Seeing how things developed, Su Fa took a step forward with a solemn expression. His aura went against them as he stared at Mt. Xue disciples with beaming eyes.

At this moment, it was the dignity of Mt. Leng at stake. Even though the other party was Mt. Xue, they could not retreat directly.

"In my opinion, Mt. Leng's people should get going!"

Just then, an impassive voice was heard with Piao Lingxue walking from behind.

"What?"

Seeing Piao Lingxue dropping warnings as she stalked over, the group of Mt. Leng disciples had a huge change in their expressions.

Even Su Fa, who was standing in front, had a tinge of fear flashing in his eyes.

Dreadful looks surfaced on all the faces of people from Mt. Leng.

Piao Lingxue actually spoke for Mt. Fengyu and Dragon King.

She was the second disciple of the entire Yong Chang Immortal Sect, the supreme talent of Yong Chang world!

"Sss, Piao Lingxue spoke up to protect the Dragon King. What...what the hell is going on here?"

"Seriously? Piao Lingxue actually went over and spoke up for him!"

The rest of the mountain sect disciples found it astonishing. A disciple like Piao Lingxue was above almost all the other disciples.

The future member of higher management of Immortal Sect was now speaking for Dragon King.

This could offend all of Mt. Leng!

Even though members of higher management were no longer limited to any mountain sects, they must still pay attention to their behavior.

"Dragon King!"

Piao Lingxue came over and greeted him without any emotion.

"Miss Piao!"

Wang Xian gave a smile and a nod to Piao Lingxue before he turned to the rest of the female disciples of Mt. Xue. "Thank you, pretty ladies!"

"Hehe, you're welcome!"

The group of disciples shook their heads with beaming faces.

"Hur?"

From the side, Ao Shuwen furrowed his brows tightly when he noticed the situation.

"Brother Ao, shall we go over?"

Tong Xiuping gazed quizzically as he asked Ao Shuwen.

"Let's go!"

Ao Shuwen took a brief glance at Mentor Yu and Mentor Leng, who were still engaged in a fight. With flickering eyes, he walked towards the place where Mt. Leng was gathered.

As the leader of Mt. Leng, he could not ignore this anymore!

"Brother Ao, let me get some more people!"

"I'll also get some guys from our mountain sect!"

"Now that Brother Ao has Water Shark, Piao Lingxue might not necessarily be your match in combat!"

Lin Xingjian, Tong Xiuping, Feng Haosi, and Ming Ziyu spoke to Ao Shuwen.

"Mm!"

Ao Shuwen looked at the longsword in his hand with his lips quirked.

With Level 12 Spiritual Equipment, he did not think that his current strength would lose out to Piao Lingxue.

On top of that, he felt that he could challenge Hong Tianda too.

"This is an issue between Mt. Leng and Mt. Fengyu. Mt. Xue should not meddle in it!"

Ao Shuwen walked to Mt. Leng without any expression.

Following behind him, Lin Xingjian and Tong Xiuping beckoned towards a group of people from two sides.

The sixth-ranked mountain sect, Mt. Xingyun!

The seventh-ranked mountain sect, Mt. Wu!

Lin Xingjian and Tong Xiuping were two leaders of these two mountain sects, and they enjoyed a high degree of prestige within the mountain sects.

When the duo beckoned, the disciples from two mountain sects walked over immediately as they knew what their leaders were up to.

"This...Senior brother Ao Shuwen went over!"

"The few people around him also followed him. On top of that, Lin Xingjian and Tong Xiuping even called out people from their mountain sects!"

"What are they doing?"

"This has got to do with the face of the mountain sect, and not personal emotions anymore. Mt. Xue's disciples already embarrassed Mt. Leng. Senior brother Ao Shuwen could no longer stand around and watch!"

"Do you think they will be sparring?"

"Hard to say. The people from the sixth and seventh-ranked mountain sects already went over. By strength, Senior brother Ao Shuwen has the strongest alliance in the entire Da Hong Immortal Sect. The four people around him are the super geniuses of the top twenty!"

## Chapter 594: Contest? (2)

In the entire Da Hong Immortal Sect, everyone knew Hong Tianda was a cold lone warrior.

Hong Tianda had devoted all his attention to cultivation and had few friends. Moreover, he also had a cold personality.

His pride was unmatched and he rarely spoke.

Although Piao Lingxue wasn't as cold as Hong Tianda, she didn't appear before the public eyes frequently either. Only the disciples of Mt. Xue had seen her as their leader.

Ao Shuwen was different. His family was close to the Lin Family, Tong Family, Feng family and Ming family. Therefore, he often hung around with Lin Xingjian, Tong Xiuping and the rest.

Lin Xingjian and the other three had also regarded Ao Shuwen as their leader.

The influence of the five of them could be considered the strongest among all the disciples in Da Hong Immortal Sect.

"Things have gotten a little out of hand. I wonder how this is going to end."

The disciples from other mountain sects gasped as they watched the developments intensely.

Some higher management members of Da Hong Immortal Sect also looked across curiously. However, they averted their gazes soon after.

The reason why Da Hong Immortal Sect was divided into various mountain sects was to prevent the long period of peace eroding the drive and motivation of their disciples away.

Therefore, Da Hong Immortal Sect had divided their disciples into mountain sects.

The stronger the mountain sect, the more resources it would be allocated. The stronger their disciples were, the more benefits they would receive.

Through this, they hoped to increase the overall strength of the Immortal Sect.

This method had proven highly effective, as the overall strength of the Immortal Sect had been constantly increasing.

Some battles between mountain sects were allowed. Even if the disciples from different mountain sects were engaging in group life and death battles, the Immortal Sect wouldn't interfere.

"Everyone from Mt. Xue and Senior sister Piao Lingxue, are you sure you guys would want to be involved in the matters between our Mt. Leng and Mt. Fengyu?"

Ao Shuwen walked across, stared at Piao Lingxue and remarked plainly.

"You guys have to think this through!"

Ao Shuwen led a group of people over and spoke to Piao Lingxue directly.

Piao Lingxue raised an eyebrow, turned to Ao Shuwen and looked across the group of people that had come with him.

"What are you gonna do if we want to interfere?" remarked Piao Lingxue plainly.

"If you guys are interfering, your Mt. Xue better be careful during the grand contest of mountain sects!" Ao Shuwen reminded Piao Lingxue in an emotionless tone.

"Oh, is this a threat?"

A flash of coldness appeared on Piao Lingxue's face as she looked across the disciples of Mt. Xingyun and Mt. Wu.

The grand contest of mountain sects was different from ordinary challenges.

This contest was also to showcase the overall strength of a mountain sect.

Confined within an area, whichever mountain sect could last the longest would get a better ranking.

During the contest, mountain sects were free to form their own alliances.

As the rewards for the grand contest of mountain sects were overwhelmingly great, it was a grand affair each year.

Ao Shuwen was clearly warning Piao Lingxue.

"Nope. I'm just hoping that everyone from Mt. Xue won't participate in the feud between Mt. Fengyu and us!" Ao Shuwen remarked plainly. The sword in his hand started glowing with blue light.

One could see a miniature shark swimming on it.

The aura around Ao Shuwen's sword instantly attracted the attention of all the disciples.

"Level 12 spiritual weapon! The spiritual sword that Senior brother Ao Shuwen is holding is definitely a Level 12 spiritual weapon. He changed his weapon!"

"Level 12 spiritual weapon! Oh gosh! Senior brother Ao Shuwen can almost definitely challenge Piao Lingxue. This is insane!"

The surrounding disciples exclaimed as they stared at the spiritual sword in Ao Shuwen's hand.

The conversation between Ao Shuwen and Piao Lingxue...

The standoff between Mt. Xue and Mt. Leng...

Everyone in the area was now looking across. Even the disciples at the very front looked over out of curiosity.

"So he's a disciple of Da Hong Immortal Sect. What a surprise! Moreover, he's the Dragon King from Mt. Fengyu!"

At this moment, the burly Hong Tianda who was standing near the front stared at Wang Xian while mumbling to himself.

The most famous and outstanding master with demon-like talents in blacksmithing and alchemy.

More impressively, he was a terrifyingly strong expert.

Recalling his exchanges with Wang Xian earlier in the day, Hong Tianda couldn't help but feel a little helpless.

Earlier in the day, although the moves were simple and the duration was short, he could still catch a glimpse of how terrifying that young man was.

He had been confident that he was peerless among the disciples in Da Hong Immortal Sect. Yet, he was completely overwhelmed in a brief exchange of blows. He even threw up blood.

"No disciples in Da Hong Immortal Sect would be a match for him!"

Hong Tianda stared at that figure before looking at the additional space ring around his finger. The next moment, he stood up.

Huh?

Mt. Gumen was the strongest mountain sect in Da Hong Immortal Sect.

The disciples from Mt. Gumen were shocked to see Hong Tianda standing up and heading to one side.

Without any hesitation, they stood up and followed behind Hong Tianda.

This was the strongest disciple of Mt. Gumen. Similarly, he was the strongest disciple in the entire Da Hong Immortal Sect.

"Fifty thousand spiritual stones and a small space ring. As for the shortfall, I will give them to you the next day!"

Hong Tianda walked to Wang Xian and spoke in his solemn tone.

Huh?

Huh?

Huh?

Just as Ao Shuwen and Piao Lingxue, Mt. Leng and Mt. Xue were facing off, a voice had broken the silence.

Everyone was stunned. They turned around and were surprised to see Hong Tianda.

When they saw Hong Tianda throw a space ring towards Wang Xian, their jaws dropped.

"What's the situation now?"

"Damn! Hong Tianda is also close to the Dragon King?"

"What is Hong Tianda trying to show by walking towards Wang Xian now?"

"This... Could it be that the Dragon King, Hong Tianda and Piao Lingxue are really close to one another? Are they going to side with the Dragon King?"

The sudden arrival of Hong Tianda and him throwing a space ring to Wang Xian had shocked the surrounding disciples.

What was the significance of Hong Tianda walking over under these circumstances?

All the disciples from Mt. Leng were stunned too as they stared blankly at Hong Tianda.

Just a while ago, they were surprised to see the female disciples from Mt. Xue walking over to support the Dragon King.

And now... Even... Even Hong Tianda had walked over.

What was the significance of him acting like this? Clearly, he was making his stand known to all!

"Hong Tianda!"

Ao Shuwen's pupils turned towards Hong Tianda and constricted. His expression had also turned a little more bitter.

Hong Tianda was the strongest disciple of Da Hong Immortal Sect and Mt. Gumen.

"Huh? The space ring is too small. I'll count it as fifty thousand. You still owe me fifty thousand spiritual stones!"

Wang Xian was a little surprised to see Hong Tianda walking towards him. However, he still caught the ring with a smile and replied to him plainly.

"What? Senior brother Hong Tianda owes the Dragon King spiritual stones?"

"This... This... How did the Dragon King get to know Piao Lingxue and Senior brother Hong Tianda? The strongest disciple of our Immortal Sect owes him spiritual stones...?"

When the disciples from various mountain sects heard their conversation, they blanked out and felt that this was unbelievable!

# Chapter 595: Here For Your Death

## (1)

The strongest disciple of Da Hong Immortal Sect, Hong Tianda!

The second strongest disciple of Da Hong Immortal Sect, Piao Lingxue!

The two of them and the mountain sects behind them.

After Hong Tianda tossed the space ring to Wang Xian, he did not leave. Standing quietly, he cast a brief glance at Ao Shuwen.

No words from him, just a burly figure standing over there.

Yet, his attitude was apparent.

Noticing such a situation, the disciples of Mt. Leng gasped hard with trepidation in their eyes.

Both Tong Xiuping and Lin Xingjian were stupefied as they looked dumbfoundedly at the Mt. Gumen disciples and the soundless Hong Tianda.

The burly figure had brought about immense oppression to them.

The disciples from Mt. Xingyun and Mt. Wu behind swallowed their saliva without knowing.

How could they go against the top two mountain sects of Da Hong Immortal Sect?

This is a joke!

Ao Shuwen clenched his fists as he gradually turned to Wang Xian.

It was unexpected to him that this Dragon King was actually acquainted with Piao Lingxue and Hong Tianda. They had even stepped forward to help him.

This was something that caught him off guard.

Phew!

"Since Senior brother Hong Tianda and Senior Sister Piao Lingxue are standing in defense of Mt. Fengyu and the Dragon King, Mt. Leng will stop making things difficult for them. We need to give face to our Senior brother and sister!"

Ao Shuwen took a deep breath and spoke in a low voice.

In the face of Piao Lingxue, he dared to be tough, and even so with Hong Tianda.

But facing both of them together at the same time was something Ao Shuwen would not dare to try.

All the more, the Mt. Leng disciples following behind dared not utter a word. At this moment, even the genius disciples who were as strong as Su Fa dared not say anything in front of them.

Even Su Fa would not dare to provoke them!

"Haha, Ao Shuwen, Mt. Leng, and the few of you will not make things difficult for us?"

Just as Ao Shuwen's voice trailed off, Wang Xian quirked his lips and revealed a smirk. "What do you mean by making things difficult? Let's have a fight then!"

As he said, he swept his gaze across those people coldly.

"Hur?"

Ao Shuwen and the rest of the people beside him threw Wang Xian razor-sharp and icy cold gazes.

"Hehe, Dragon King? If not for Senior brother Hong Tianda and Senior Sister Piao Lingxue, you'd be lying here dead today!" said Su Fa to Wang Xian impassively.

"Brat, have you found your alchemy shop?"

Lin Xingjian and Tong Xiuping sneered while fixing their eyes on Wang Xian.

Ao Shuwen craned his head slightly as he gazed coldly at Wang Xian with aloofness in his eyes.

Wang Xian took a brief look at them before he walked towards the back with a smile. He came to a spot two hundred meters away.

Everyone stared at him with quizzical looks.

"What is the Dragon King trying to do?"

"Handsome Dragon King, what are you doing?"

Some of the disciples from other mountain sects and Mt. Xue asked in surprise.

"I'm drawing this ground as the arena. Ao Shuwen, the four fellows behind you, and you, come over!"

Wang Xian stretched out his hand and pointed to six people, including Ao Shuwen.

Wang Xian's act swept everyone with surprise.

"Drawing the ground as the arena? Challenging Senior brother Ao Shuwen, Tong Xiuping, Lin Xingjian, Su Fa, Feng Haosi, Ming Ziyu? What is he doing? Is he out of his mind?"

"Digging his own grave? Getting in the arena means that killings are allowed. He actually dared to draw an arena for Senior brother Ao Shuwen and the rest. He must be either out of his mind or he's lost his senses!"

"Damn, this fu\*king Dragon King is the most arrogant fellow I have ever seen. His strength is at most ranked top ten. Now he's actually issued a challenge to Senior brother Ao Shuwen and the rest. Any one of the Senior brothers could easily deal with him, let alone Senior brother Ao Shuwen!"

The surrounding mountain sects' disciples were startled when they witnessed Wang Xian's actions. Immediately, they began discussing among themselves.

The Dragon King was challenging six people, including Senior brother Ao Shuwen.

He was a Budding Realm expert, in the top three disciples of Da Hong Immortal Sect.

Not only did the surrounding disciples freeze, but even Ao Shuwen and Su Fa, whose names were called out, were stunned.

"Challenging us?"

A taunting look surfaced on Su Fa's face as he fixed his eyes on Wang Xian. "Senior brother Ao Shuwen doesn't even have to strike. I could easily cripple you alone. Since you're asking for your death, I'll give it to you!"

As he spoke, he turned to Piao Lingxue and Hong Tianda at the side. "Senior brother Hong Tianda, Senior Sister Piao Lingxue, he taunted us first, not that we're making things difficult for him."

The deadpan Piao Lingxue slowly nodded.

"Fate determines who shall be killed in arena matches!"

Hong Tianda spat out the words without emotion.

Fate determines who shall be killed in arena matches.

The rules stated so, but very few people would kill each other in the arena.

"That's right. Fate determines who shall be killed in arena matches!"

Ao Shuwen drew his lips slowly as he looked at Wang Xian. With a tinge of ridicule in his eyes, he said, "You're still not worthy of being my opponent."

"That's right. You are not worthy to fight with Brother Ao. Just leaving it to me will do!"

Lin Xingjian lifted his head and yelled at Wang Xian.

"Haha, me too. Let me test the strength of the Dragon King and see how much he has got for him to be so arrogant!"

Tong Xiuping burst out a clap of laughter as he took two steps forward.

"Six of you just came forward together. Nice! I can kill a nest of you in one shot!"

Wang Xian stared at the six of them coldly.

"Wang Xian, stop!"

At this time, an anxious voice cut through the air from the sky.

Mentor Yu's figure flew over. She was in a somewhat pitiful state when she stared at Wang Xian and yelled, "Withdraw your arena and fight with them!"

"The arena has already been set up. How can you withdraw it? Haha, Shuwen, Su Fa, go on. Kill that brazen brat of Mt. Fengyu for me!"

Another shrill sound came from the sky. With a similar pitiful look, Mentor Leng swept her cold gaze at Mentor Yu and Wang Xian. Her lips were drawn with murderous intent.

"Aunt, don't worry. Let us handle this!"

Ao Shuwen looked at Mentor Leng and replied with a smile.

"No, Wang Xian. Your strength..."

Mentor Yu, who came to Wang Xian, was looking worried as she tried to persuade Wang Xian once again.

"Mentor Yu, don't worry!"

Wang Xian shook his head at Mentor Yu.

"This is bad. Great Senior Sister, the handsome master is issuing a challenge to Ao Shuwen and the rest. If they really fight..."

The rest of the female disciples of Mt. Xue revealed a concerned look as they shouted to Piao Lingxue with tender voices.

"Rest assured, he's the master of the Art of Water Refining!"

Without the slightest worry, Piao Lingxue cast her gaze to the Mt. Xue disciples and assured them in a soft voice.

"Art of Water Refining, oh yes. Handsome master possesses the Art of Water Refining. Hey, wait. So his strength..."

These female disciples were slightly stunned as shocked looks slowly surfaced on their faces.

The proficiency in Art of Water Refining had something to do with the cultivators' strength. To become a master, his strength should be at least at Budding Realm!

At the thought of this, the female disciples of Mt. Xue revealed more shocked looks.

# Chapter 596: Here For Your Death

## (2)

"Wang Xian, you aren't a match for Ao Shuwen and his group. Come, let's go back!"

Mentor Yu frowned while looking at Wang Xian. Clearly, she didn't believe he would be a match for Ao Shuwen and the other five youths.

On the other end, a flash of ruthlessness beamed in the eyes of Mentor Leng upon seeing how flustered Mentor Yu was. She looked to Ao Shuwen and made a hidden gesture.

So Shuwen nodded his head, looked towards Su Fa, Tong Xiuwen and the rest and said, "Go! Let him remain here forever!"

A cold and ruthless voice came from Ao Shuwen.

He didn't make a move himself and simply stared harshly from the side.

A Dragon King still wasn't deserving of him taking action personally.

"Alright, Senior brother Ao. I'll be able to kill that brat myself!"

Su Fa nodded his head and bloodlust gleamed in his eyes.

"Finish him together so nothing could go wrong. We cannot let anyone hear him admitting his defeat!" Mentor Leng remarked from the sideline.

"Yes, Mentor Leng!"

After receiving the orders from Mentor Leng and Ao Shuwen, killing intent flashed in the eyes of Su Fa, Tong Xiuwen and the rest. They moved and appeared before Wang Xian instantly.

The five of them stood there and glared harshly at Wang Xian.

"Come. I'm going to slay the Dragon today! Hehe!"

Ruthlessness gleaned in the eyes of Su Fa as he looked down on Wang Xian.

"Mentor Yu, move away right now! Are you choosing to break the rules?"  
Mentor Leng shrieked with a smile.

"Mentor Yu, don't worry!"

Wang Xian looked at Mentor Yu who was right beside him. He moved the space ring on his finger and a huge sword appeared in the next instant.

The huge sword was two meters long, half a meter wide, had a bulging blade and was wrapped in a white cloth.

"Let me test out your sword!"

Wang Xian rested the huge sword on his shoulders, looked at Hong Tianda and spoke with a smile.

Huh?

Mentor Yu was taken aback as she looked at the space ring on Wang Xian's finger and eventually at the huge sword.

"This...?"

She was pleasantly surprised and hesitated for a moment before retreating a hundred meters away.

Hong Tianda wasn't pleased to see Wang Xian taking out his sword.

This was something he had looked forward to and yet could only have it the next day.

"Senior brother Hong, that is...?"

When Piao Lingxue saw the huge sword in Wang Xian's hand, doubt surfaced in her mind as she asked Hong Toanda softly.

"Yeah!"

After a single word, he stopped.

"Hehe! It would appear that he didn't show Senior brother Hong any face either!"

At the thought of Hong Tianda tossing a space ring to Wang Xian previously, Piao Lingxue grinned.

Hong Tianda didn't respond to her.

"Dragon King, you don't have to worry. I'll be enough to handle you and I'll be the only one attacking!"

When Su Fa saw Wang Xian retrieving the huge sword, he grinned and continued. "Do you think you will be as incredible as Senior brother Hong Tianda just because you are using his sword?"

"In that case, Senior brother Su Fa, you can go first. We will stay around him and prevent him from admitting his defeat!"

Tong Xiuwen and the rest spoke with a smile and had no regard for Wang Xian at all.

"Go! Yu Qianmei, I'll show you how the most outstanding disciple of Mt. Fengyu shall fall!"

Mentor Leng stared at Mentor Yu with ecstasy.

Mentor Yu didn't respond to her taunts and simply stood by the side and watched.

"Aren't you coming too? Oh well, let me collect some interest from the other five first!"

Wang Xian lowered the huge sword to the ground and looked across the five of them before him.

"Just another brat that is going to die soon!"

Su Fa stared at Wang Xian with smiles and drew his longsword slowly.

The other four also drew their swords. The next moment, they swung their swords and formed an isolation ring.

Weng!

A Sword Cloud was formed in the sky and streams of water shrouded an area that spanned over a thousand meters.

"Someone is going to lose his life here!"

"Sealing the entire space? In other words, even if one were to admit his defeat, no one outside the space could hear!"

"Sss. It has been several months since a disciple of Da Hong Immortal Sect lost his life in an arena match. It seems like someone is going down today!"

"The Dragon King is almost certain to die! What gives him the guts to challenge Su Fa, Tong Xiuwen, and the other four disciples. His brain must be wrecked! That's simply courting his own death!"

"Boorish fellow! He's too rash!"

When the surrounding disciples witnessed what happened, they exclaimed and discussed softly among themselves.

Several higher management members of Da Hong Immortal Sect frowned slightly. They looked at the region shrouded in a Water Veil but didn't say a word.

Once one got into an arena, he had to bear the consequences.

"Haha! Yu Qianmei! Take a look with your own eyes! Witness how the most outstanding disciple of Mt. Fengyu is killed right before you!"

Mentor Leng was exhilarated and appeared hideous while laughing hysterically.

Piao Lingxue looked plainly across Mentor Leng and her lips curved into a smirk.

Hong Tianda looked across the group and his eyes beamed with contempt.

"I'm going to slaughter you today!"

At this moment, a blinding light shot out from Su Fa's eyes. He shouted, waved his arm and a ten-meter-long by three-meter-wide water sword was formed instantly.

The water sword lunged towards Wang Xian at incredible speed.

When the crowd saw it, they were astonished.

"This is... Sword Explosion! It's so quick and fast. He formed a ten-meter-long sword in the blink of an eye!"

"Sss. It's not a fluke that he is ranked fifth among disciples in Da Hong Immortal Sect. He's too strong!"

"He won't need the help from the other four at all. Senior brother Su Fa could easily kill the Dragon King by himself!"

The sudden explosion of the attack shocked the surrounding disciples.

They were all elite disciples of Da Hong Immortal Sect. With a single look, they were able to tell the horrifying strength Su Fa had displayed.

"Great! Not too bad!"

Mentor Leng was satisfied with what she saw as she smirked.

On the other hand, Mentor Yu was anxious and stared fervently at the battle.

"Sword Explosion?"

Seeing the huge water sword charging towards him, Wang Xian revealed a cold smirk.

He moved his arm and the white cloth that covered the Serpent Sword exploded away, revealing the real appearance of the sword.

The sword had an entirely black body and had terrifying Scale Stones embedded in it.

The entire Serpent Sword resembled a monster.

"Sword Explosion!"

Wang Xian used the same attack and a water sword was formed instantly.

The Water Sword was exceptionally gruesome and had identical looks to the Serpent in his hand.

In an instant, the Water Sword grew to over thirty meters.

"Explode!"

The moment the Water Sword was formed, Su Fa shouted.

That huge ten meter Water Sword exploded into countless small swords as they flew towards Wang Xian.

"Explode!" Wang Xian shouted coldly.

Grrr!

Just as his voice sounded, that huge Water Serpent Sword also exploded.

In addition to the explosion, a terrifying growl reverberated across.

Soon after, ravaging Serpent swords shot towards Su Fa and the other four youths who had their arms crossed and were watching from the side.

"What?"

"How can this be possible...?"

"Shit! The Dragon King is terrifyingly strong!"

When the thirty-meter Serpent Sword was formed with water energy and exploded, the surrounding crowd could feel a chill running down their spines. At that instant, they were horrified!

# Chapter 597: Five Kills

Great terror and calamity had descended.

The place within a radius of thousand meters was completely shrouded by water and Sword Cloud battle techniques displayed by Tong Xiuping, Lin Xingjian, Feng Haosi, Ming Ziyu.

None of the sounds could travel outside.

Yet, the moment when the horrifying thirty-meter Sword Explosion erupted, a terrifying growl was heard.

All the people outside were aghast.

That growl and that scary explosion were heard clearly by all of them even with the Water Veil blocking in between them.

As soon as the explosion happened, the scary sword shaped itself into a ferocious beast, easily devouring the Sword Explosion released by Su Fa.

Terrifying, monstrous longswords charged at Su Fa and the remaining four people.

The quartet who were watching Su Fa and Wang Xian fighting with ease felt their hair stand immediately.

"Oh no!"

They let out a scream of horror while they gathered an immense amount of water energy straightaway.

"Water Shield!"

"Water Shield!"

Several of them hurriedly shouted as they looked at the Sword Explosion attacks shrouding over their heads in consternation.

"How is this possible?"

Su Fa paled instantly as films of cold sweat broke out on his forehead while the longsword stood in front of him.

Thick streams of water current wrapped around them.

There was no way to hide, no means to hide.

The Sword Explosion encompassed an area that was too large for them to dodge, given their speed. Since they could not dodge in time, they could only put up their defense.

"What a terrifying Sword Explosion! How can this be so domineering!?"

The hearts of the other mountain sects' disciples outside skipped a beat as they staggered back involuntarily.

"The strength of the Dragon King!"

Every one of them put on a mixed expression. When they saw the Sword Explosion encompassing a thousand meters, their bodies shivered.

"Oh no!"

"Oh no, no!"

At this time, Ao Shuwen and Mentor Leng, who were waiting for Su Fa and the rest to teach Dragon King a lesson, were aghast.

Sensing the energy inside, their eyes surged with horror.

"Budding Realm strength, Level 12 Spiritual Equipment!"

A shrill voice was heard from Mentor Leng and it struck everyone with a stun.

"Budding Realm strength."

"Level 12 Spiritual Equipment!"

All the disciples murmured, exhibiting a startled look.

There were only three Budding Realm disciples in the entire Da Hong Immortal Sect. Now, another one had appeared unexpectedly. On top of that, he was very young.

Boom!

At this moment, the Sword Explosion hit upon the defense of Su Fa and the remaining four.

The Sword Explosion enveloped them while a booming sound caused by the domineering power was heard.

The earth shook!

The members of higher management, Mentor Yu, Piao Lingxue, and the rest, revealed a shocked look.

"Stop!"

"Stop!"

At this time, screams were heard from afar.

Five figures rode over on their swords.

"Shit!"

"I hope they are alright!"

Five of them came to the area above the explosion, wearing a different look while fixing their eyes below.

The Sword Explosion disappeared, and the Water Veil dissipated.

A figure was still standing there, holding one scary colossal sword in the center.

All of them quickly took a look at the five pits.

"Gone? Nothing is left?"

"That's odd. Every pit has a sword lying in it. But where's Su Fa and Tong

Xiuping? Only the swords are left?"

"They have been eradicated by the attacks such that not even a body is left."

"Eradicated!"

Everyone was genuinely shocked as they revealed a stunned look in their eyes.

"You actually killed them all!"

Mentor Leng blurted out a sharp shrill cry as she stared at Wang Xian with murderous eyes.

"Xiuping!"

"Xingjian!"

The mentors of Mt. Xingyun and Mt. Wu had a drastic change in their expressions.

Mentors of Feng Haosi and Ming Ziyu's faces were darkened instantly too.

"Ss, they are all dead. Dragon King actually slayed five disciples who were in the top twenty. He's really a supreme talent!"

"Gosh, five supreme talents were instantly killed without any ashes left. This... This is too cruel!"

"Five top-twenty supreme talents of Da Hong Immortal Sect were killed by a single move!"

"The strength of the Dragon King is simply too terrifying. All it took was one move. Just one move!"

All the surrounding disciples let out horrified exclamations.

The female disciples from Mt. Xue were more stunned than ever. They watched the young man in the arena, holding a huge sword as their hearts raced frantically.

How handsome he is! Super dashing!

"Dragon King, you're a Budding Realm Expert, and yet, you challenged the five of them. What motives do you have?"

"You're one class above them, and you killed the outstanding disciples of Da Hong Immortal Sect on purpose!"

Bellows of anger rang in everyone's ears as Mentor Leng, and the mentors of Lin Xingjian and Tong Xiuping, stared at Wang Xian furiously.

"Great Elder, Second-great Elder, the Dragon King of Mt. Fengyu deliberately concealed his cultivation level and killed our outstanding disciples of Da Hong Immortal Sect. His sin..."

Mentor Leng screamed with a malevolent expression when she saw the elders who flew in and stood in the air.

Mt. Fengyu actually recruited an outstanding disciple, an elite disciple of the Budding Realm.

He had even slain one of the outstanding disciples of Mt. Leng, which agitated her even more.

That young man of Mt. Fengyu was supposed to be dead instead.

"Haha, glad that you're fine!"

However, before Mentor Leng could even complete her statement, that few elders in the elder chuckled. There were no signs of rage on their faces even though the supreme talents of Da Hong Immortal Sect had been killed.

Instead, they looked elated.

Mentor Leng's complaint was stuck in the air as she looked on with shock.

"The Dragon King is actually the master who is unparalleled in refining elixir pills and equipment, a disciple of Da Hong Immortal Sect. If not for Elder Mu, we wouldn't have known about it!"

An old man stared at Wang Xian with admiration. "Not bad, not bad. You're the most dazzling master at such a young age. A Budding Realm expert. Your future

will be bright!"

As the old man spoke, he walked to Wang Xian.

Another four elders also walked over with beaming faces. "In times like this, we're lucky to have such outstanding disciples in Da Hong Immortal Sect. If not for the two Sect Leaders still being in the Yong Chang cauldron, they would like to meet you in person!"

The five voices of the elders resounded through the entire spiritual tea session. What they said stunned all the people completely, in particular, Mentor Leng and the rest of the mentors. They widened their eyes with shocked looks on their faces.

"Master who is unparalleled in refining elixir pills and equipment?"

"The Sect Leaders want to meet him in person?"

"The most dazzling master of Yong Chang?"

The disciples of mountain sects were going dizzy as the five elders were the real five top-notch men in the entire Yong Chang Immortal Sect.

From the Great Elder to Second-great Elder, all the way to five Great Elders.

When the Sect Leader was not around, the five of them would decide all the matters that happened in the entire Da Hong Immortal Sect.

Yet, at this moment, five elders actually came together, staring at the Dragon King with fervent eyes.

That look was almost akin to those female disciples of Mt. Xue.

# Chapter 598: Becoming An Elder

"The most dazzling master in Yong Chang City and the only existence that is unparalleled in refining elixir pills and equipment... There's only one such person in the rumors circulating lately. He's that master in Yong Chang City!"

"Moreover, some female disciples from Mt. Xue addressed him as the handsome master at the very beginning of his rise to fame!"

"Sss. Rumor has it that the most demon-like talent in Yong Chang City is both an alchemist master and a blacksmith master. Who would have thought that the Dragon King is that master who is unparalleled in refining elixir pills and equipment!" a disciple exclaimed loudly. His eyes widened and stared at Wang Xian with disbelief.

"What? The Dragon King is the hottest and most famous master in Yong Chang City recently?"

"This..."

When the surrounding disciples from various mountain sects heard that disciple, they were astonished and stared blankly into the field.

Although the Immortal Sect didn't set clear rules that higher realm disciples were restricted from challenging lower realm disciples and murdering them on purpose, all the disciples still knew clearly.

When fighting in the arena, if there's a huge difference in strength, one party couldn't simply kill the other party. Otherwise, he would have broken the unwritten rule.

Yet, the Dragon King had killed five supreme talents of Da Hong Immortal Sect with a single move.

Clearly, the Dragon King had broken the unwritten rule.

If the higher management of the Immortal Sect was to pursue the matter, the Dragon King would have to bear the consequences.

However, the current situation was clear that this matter would be shelved aside after the five Elders had all arrived.

As compared to a disciple whose reputation as an alchemist master and blacksmith master was known throughout Yong Chang world, Su Fa, Tong Xiuping and the other youths were no longer important.

Even if they were ranked among the top twenty supreme talents.

"Elder Mu! Elders!"

Wang Xian identified one of the Elders to be that old man from the Mu Family.

"Haha! Master Dragon King, the other Elders have heard about what you are capable of and would like to see you in person. If you have the time, come to the Elders' Pavilion for a chat!"

Elder Mu smiled and spoke to Wang Xian.

"Sure, no problem!"

Wang Xian nodded his head. He looked in the direction where Hong Tianda was, tossed the huge sword across and said, "Remember to send me the fifty thousand spiritual stones tomorrow!"

"Alright! I'll send them over tomorrow!"

Hong Tianda stared at the huge sword in his hands fervently and was clearly loving this sword.

"Elders, let's go!" Wang Xian turned his gaze back to the five Elders and spoke with a smile.

"Sure. We have something to discuss with the Dragon King too!"

The old man in the middle smiled satisfactorily at Wang Xian. The next moment, they took flight and hovered in the air.

A piece of cloud appeared below Wang Xian's legs. Following closely behind the Elders, Wang Xian flew towards the main peak of Da Hong Immortal Sect.

"Sss. Even the Great Elder is addressing him as the Dragon King and a master! This is truly shocking!"

"The Elders' attitude towards him... That's simply a little overboard!"

"The five Elders have seen and treated him as though they are at the same level. One could even argue that they are acting deferentially. A master that is unparalleled in refining elixir pills and equipment is indeed deserving of such treatment!"

"The matter of Su Fa, Tong Xiuping and the rest being killed would likely be shelved away too!"

The surrounding disciples were astonished as they stared blankly at the disappearing figure. They took a deep breath.

Who would have expected the Dragon King to possess such an insane level of strength?

Who would have expected the Dragon King to be the hottest and most famous master that is unparalleled in refining elixir pills and equipment in Yong Chang City recently?

No one would have linked them together.

They looked towards Senior brother Hong Tianda and felt a little lost.

Clearly, Senior brother Hong Tianda had requested that the Dragon King modify this seemingly familiar huge sword. As compared to the strength of the sword held by the Tianyi Swordsman previously, the current sword was a lot more terrifying.

"The master in Yong Chang City is him! It's actually him!"

At this moment, Ao Shuwen looked exceptionally bitter and embarrassed.

The four disciples that followed him were killed.

However, the other party was the hottest and most famous alchemist master and blacksmith master currently.

"Puff! However..."

At the thought of Master Xuanhuo and Master Qingming visiting his family last night, he took a deep breath and ruthlessness beamed in his eyes.

"Your strength is something I had not expected. However, you shouldn't have been acting so cockily and haughtily. You have offended too many people!"

A creepy smirk appeared on Ao Shuwen. He held the longsword in his hand tightly and left.

The surrounding crowd of disciples from Mt. Fengyu were completely dumbfounded. Even Mentor Yu stood there in shock, not moving an inch.

She had not expected the young man who she had saved previously to be so terrifyingly talented.

Even her husband who once stood at the top of Da Hong Immortal Sect wasn't a match for him in terms of talents.

"He..."

Yu Ling'er looked mindlessly at the sky and recalled the moment she first met this young man. A myriad of emotions welled up within her.

Looking at the group of female disciples from Mt. Xue discussing fervently, she lowered her head gradually.

...

"Master Wang Xian, with your current strength, you would be more than capable of becoming an Elder in Da Hong Immortal Sect. I wonder if you have this intention?" the old man in the middle of the group asked Wang Xian the moment they landed at the Elders' Pavilion located in the middle of the majestic main peak.

"Elder? I wouldn't mind. My current focus is still on refining spiritual equipment and elixirs!"

Feeling the gazes from the five Elders, Wang Xian chuckled.

"In that case, let us arrange for it. With your strength, it wouldn't be appropriate for you to remain as a disciple. The five of us can grant you the status of an Elder so you can enjoy the benefits and authority of an Elder!" the old man in the middle said to Wang Xian directly.

"Alright. In that case, I have to thank various Elders for the opportunity!"

Wang Xian chuckled. The truth was he wasn't really interested in the status of an Elder.

The five Elders could also tell that Wang Xian wasn't particularly interested in the status of an Elder. However, they didn't say a word.

With his unparalleled skills in refining elixir pills and spiritual equipment, the status of Elder in Da Hong Immortal Sect was indeed insignificant.

In Yong Chang world, strength dictated everything.

"Master Wang, other than inviting you to become an Elder of the Immortal Sect, we have another objective for inviting you over."

The old man in the middle gestured to Wang Xian before heading into the Elders' Pavilion.

It's coming!

Upon hearing the old man, Wang Xian knew that the real objective was coming.

The Yong Chang world was different from the outside world. In this place, three Immortal Sects controlled the entire Yong Chang world.

Moreover, the three Immortal Sects weren't competitors. As a result, no matter how talented one was, the Immortal Sect might not have paid a lot more attention to him.

No matter how talented one was, he was still part of Yong Chang world and would be ruled by the Immortal Sects.

However, Wang Xian was a little different. He could bring the Da Hong Immortal Sect huge benefits.

"Elders, feel free to speak. If it's something I can do, I'll definitely agree!"

Wang Xian spoke directly.

"I believe it's clear that it's about refining elixir pills and spiritual equipment. Master has an extremely high success rate. Now that the Immortal Sect is preparing to refine a batch of elixir pills and spiritual equipment, we would like to invite Master Wang to be in charge. I wonder what your stance on this is?" the old man in the middle said directly.

Huh? In charge of refining elixir pills and spiritual equipment?

Wang Xian's eyes beamed with excitement.

"We can prepare some assistance tools for Master Wang to increase the success rate of your Art of Water Refining. Moreover, there would also be a sum of remuneration!"

## Chapter 599: Still Alive

"What about the remuneration? How do we go about calculating it?" Wang Xian asked the five Elders upfront.

It was a golden opportunity to Wang Xian, refining Spiritual Equipment and Elixir Pills for an Immortal Sect.

If the remuneration was fairly decent, not only would he be able to promote his status to that of an Immortal, he would also be able to provide the Dragon Sect members with large amounts of Elixir Pills.

"Master Wang, I'm sure your success rate for refining Level 5 Elixir Pills has reached between seventy to eight percent. As for Level 6 pills, I'm sure it's at least sixty-percent!"

The Elder standing in the middle rambled on as he spoke to Wang Xian.

"Yep, more or less!"

Wang Xian nodded emotionlessly.

"What a marvel, even a Grand Master would pale in comparison!"

Even though the quintet had been mentally prepared for the answer, they could not help but marvel upon hearing the confirmation.

"Three portions of Elixir Pills, of which the Immortal Sect will get eight pills. As for the Spiritual Equipment, it'll be one-and-a-half portions. With that, help the Immortal Sect refine Elixir Pills and Spiritual Equipment on a large scale. What do you say?" the Elder standing in the middle asked Wang Xian after some hesitation.

"Eight pills for three portions?"

Wang Xian frowned. To him, this remuneration was no less lucrative. But the quantity as required by the Da Hong Immortal Sect was relatively larger, which thus would definitely render this deal worthwhile.

Nonetheless, he could not agree to it easily.

To a Master, offering eight pills using three portions was no doubt miserly, so much so that it was almost impossible.

"Master Wang, we can have a set of aid equipment meant for the Art of Water Refining prepared for you. This is a set of Spiritual Equipment assembled using five Level 12 Spiritual Liquid Balls. It'll help to increase the success rate greatly. So much so that, with this set of aid equipment, you can try your hand at refining Level 7 Elixir Pills and Level 12 Spiritual Equipment!"

The centermost Elder persuaded Wang Xian upon sensing his hesitation.

"Furthermore, to top it off, the Yong Chang Cauldron will begin to manifest in another month's time. Master Wang can then help himself directly to one of our internal headcounts within the Da Hong Immortal Sect!"

The Elder promised yet another benefit.

"Spiritual Equipment using five Level 12 Spiritual Liquid Balls? The beginning of the Yong Chang Cauldron?" Wang Xian asked with a puzzled look, albeit with a glint flashing across his eyes.

He continued to ask in bewilderment, "What's... the beginning of the Yong Chang Cauldron's manifestation?"

"Haha, perhaps Master Wang is not aware given your young age. There's actually room within the Yong Chang Cauldron which is sacred grounds for cultivation. The Spiritual Energy within it is tens of times more than what's found outside. A day of cultivation would equate to one or two months of the same while one is outside. The Yong Chang Cauldron will only open up for manifestation once every fifty years. This time though, due to unique circumstances, it's opening up in advance.

"Of our three Immortal Sects, there's only one spot each which is reserved internally. As for the remaining ten spots, they'll be up for grabs through one's capabilities!" the Elder elaborated.

"Spiritual Energy, with a concentration of tens of times!"

Wang Xian shrieked in surprise. Thereafter, he nodded with some pretense of hesitation. "Alright, I'll agree to it!"

"Great! In that case, let's see when you are available, Master Wang. I'll have my disciples do the customization for you before proceeding to build you a summit for cultivation!"

The quintet wasted no time in asking as their eyes shimmered with excitement.

"Five days from now. I want to complete the refinement of all the Spiritual Equipment in my shop!" Wang Xian replied.

"Sure, Master Wang. Five days from now, come over to the main summit. Today, we'll make an announcement and declare that Dragon King Wang Xian has ascended to become an Elder of Da Hong Immortal Sect!"

The quintet responded with a laugh.

"In that case, I'll take my leave now, Elders!"

Wang Xian nodded with a smile before waving at the Elders.

"Sure!"

The quintet nodded back as they watched Wang Xian take his leave.

"I really wonder where such a wicked genius comes from," one of the Elders commented.

"Where else? Don't tell me he has dropped from the sky? It's likely that this Dragon King's been handed some legacy, and born with defying talents. After sustaining injuries in an accident, he ended up at Mt. Fengyu by fate!"

"This can be the only possibility, which is good news for us in Da Hong Immortal Sect. By having him refine Elixir Pills and Spiritual Equipment for us, we'll get to save big on our materials!"

As they watched Wang Xian's silhouette from the back, the quintet chatted in laughter.

While the Da Hong Immortal Sect had not done a check on the background of this junior Dragon King, his sudden appearance and fast ascension was something they paid no attention to either.

Since he had made his appearance in the world of Yong Chang, then he must belong here.

For outsiders can never make their way in, even in the case of Immortals. Under the defense of the Spirit Array, those who try to barge their way into Yong Chang are almost guaranteed to fail.

However, what they did not know was that the current Spirit Array could no longer compare with that of the past.

The Yong Chang Immortal Sect was located at the centermost location, at the very core of the Yong Chang world.

While the Da Hong Immortal Sect resided on its left, and the Immortal Slaying Sect on the right.

The Yong Chang Immortal Sect was the most capable Immortal Sect amongst the top trio. Of which, it housed more Immortal experts and disciples than Da Hong and Immortal Slaying Sect.

When one looked across, one would see the entire Immortal Sect grounds lit up in bright red.

Located atop a volcano, the area above was filled with lush Inferno Trees, while Flaming Birds overtook the skies accompanied by the Flaming Elves who danced their way all around. All in all, the entire place appeared like a fiery Sacred Ground.

On the highest summit of the Yong Chang Immortal Sect which measured up to almost ten thousand meters, the volcano was spurting flames which shot up to a hundred meters.

This was the main summit of the Yong Chang Immortal Sect.

On it were numerous buildings with majestic architecture that resembled ancient Divine Flaming Temples. This made them appear solemn yet magnificent.

"The Spirit Array's defense from the Yong Chang world is weakening by the day. Looks like we're running out of time!"

In one of the Divine Temples within the main summit, a dignified-looking middle-aged stood before a bed. His appearance was phantasmagorical, accentuated by the flickering red lights.

Upon a closer look, one would realize that he did not come with a physical state, but rather as an illusion.

But his aura was no less terrifying, even despite being a mere illusion.

"Daddy, didn't you say it'd take another one or two years?"

Within the room stood a teenage girl beside the illusion as she scrutinized the two who were lying on the bed with utmost curiosity. To which, she continued mumbling, "To think that these two are still alive!"

Along with the teenage girl was another Elder, who stood respectfully by the side.

In mild astonishment, the Elder took a glance at the bedridden duo without saying a word.

"It won't take that long now, Xiaoxiao. So you know them?" the illusion of the middle-aged asked the teenage girl with a smile.

"I do, how could it be otherwise? One is the Sect Leader of Devil Corpse Palace, amongst Diabolism from the Underworld outside. While the other's the Sect Leader of the Donghua Sacred Sect, amongst the Alliance of the Orthodox Sects!"

The teenage girl nodded.

"Within the Underworld, they're the respective premiers of the Orthodox Sects and Diabolism!"

"Of course, had it not been for that Dragon Sect and its Dragon King, they would've been the most powerful duo within the Underworld!"

The teenage girl commented yet again.

"Premiers of the Underworld? If that's the case, then we must make sure to revive them!"

The illusionary figure groaned as the lights on him flickered.

"Daddy, given their capabilities, they're no more than mere experts within our Yong Chang standing. Large amounts of Level 7 Elixir Pills will be required should we wish to revive them. Moreover, this Emperor Qi of Diabolism is a crook. Should we still save him then?" the teenage girl asked the illusionary figure in confusion.

"The Nine Cauldrons are descending into the real world. While the mortals of the real world are weak, they're nonetheless locals. Even if we won't have any use for their powers, we can make use of them to help us ease into the real world quickly. By treating them, it'll help Yong Chang build up a channel to source information. Upon complete descent into the real world, that'll save us a lot of trouble!"

The illusionary figure laughed as he watched the bedridden duo with glistening eyes.

The duo were on the brink of death. Namely Nie Wushuang the Sect Leader of Donghua Sacred Sect from the Alliance of the Orthodox Sects, as well as Emperor Qi from Diabolism.

The Elder who had been standing by the side laughed along with the teenage girl and the Guild Leader of the Sacred Followers Guild.

# Chapter 600: Assassination In The Late Night (1)

"Dragon King from Mt. Fengyu is a Budding Realm expert and the most famous alchemist master and blacksmith master in Yong Chang City currently. He killed Su Fa, Tong Xiuping, Lin Xingjian and the other two disciples who were all ranked in the top twenty with a single strike! How insane is that?"

"You guys might not know about this. The spiritual tea session in the afternoon was insane. Not only did the Dragon King kill five top twenty disciples in a single strike, but there was also nothing left remaining of the five of them!"

"My guess is that even if Ao Shuwen had been in the arena, he would likely not have been a match for the insanely strong Dragon King!"

"He's too demon-like. Who would have expected the Dragon King to be so incredibly talented? Even the five Elders are treating him as their equal!"

Today's Da Hong Immortal Sect was livelier than before. The death of five top twenty disciples shocked everyone. They were talking about five of them!

Every top twenty supreme talent was an elite genius of Da Hong Immortal Sect and the subject of additional grooming. Yet, they were killed by the Dragon King today. Moreover, not even their corpses were left behind.

While the people were shocked, they also felt terrified.

The Dragon King was too bloodthirsty!

The powerful Dragon King made disciples from the entire Immortal Sect feel respect and fear.

Dong! Dong! Dong!

"Disciple of Mt. Fengyu, Wang Xian, has been promoted to the eighteenth Elder of Da Hong Immortal Sect."

Dong! Dong! Dong!

"Disciple of Mt. Fengyu, Wang Xian, has been promoted to the eighteenth Elder of Da Hong Immortal Sect."

...

At this moment, the bell rang from the main peak.

The bell rang nine times and the message was repeated three times.

The sound of the bell and the announcement reverberated throughout Da Hong Immortal Sect. Everyone was shocked by it.

"Elder? The Dragon King has been conferred as an Elder?"

"Oh gosh! This is unbelievable. Our Da Hong Immortal Sect only has seventeen Elders and each of them possess immense authority. The Dragon King has now become an Elder!"

"Sss... The rise of the Dragon King can't be stopped. Even when he killed five supreme talents, he still wasn't affected!"

"The youngest Elder of Da Hong Immortal Sect in history!"

The disciples were astonished while the ringing of the bell and the announcement resounded in their ears.

Even the Attendants of Da Hong Immortal Sect were astonished.

I had not expected this to be announced in such a grand manner!

Just as Wang Xian arrived at Mt. Fengyu, he heard the bell ring. A nonchalant smile appeared on his face.

He didn't really care how precious the title of Elder was in Da Hong Immortal Sect.

At Mt. Fengyu, Wang Xian greeted Mentor Yu before returning to Yong Chang City.

"So what if you're an Elder now? You have offended too many people and all the elixir pill shops and spiritual equipment shops in Da Hong Immortal Sect. Those who encroach on their interests will suffer a terrible death. Even an Elder wouldn't be an exception!"

At this very moment, Ao Shuwen took off from Mt. Leng and flew towards Yong Chang City.

Yong Chang City was huge and was where all the families of the three Immortal Sects gathered.

Those who could establish powerful families were undoubtedly experts from the three Immortal Sects.

The entire Yong Chang City had been largely occupied by families affiliated with Immortal Sects.

In Yong Chang City, two kinds of business were the most lucrative. Refining elixir pills and spiritual equipment!

Elixir pill shops and weapon shops of various sizes reached a total of four to five thousand and they were all controlled by various huge families.

Elixir pills and spiritual equipment could be considered as the core of the interests for the entire Yong Chang City.

Yet, the market for elixir pills and spiritual equipment in Yong Chang City had undergone huge changes over the last few days.

The appearance of that master in the small shop within Yong Chang City had a huge impact on the elixir pills and spiritual equipment market in Yong Chang City.

This had undoubtedly affected the interests of various powerful families.

Ao Shuwen flew to Yong Chang City and descended into a huge mansion. He looked to the grand hall and a smirk appeared on his face.

At this very moment, over thirty people had gathered in the grand hall.

Every single one of them was famous throughout Yong Chang City. Within the three Immortal Sects, all of them were part of the middle and higher management.

"Young Master Ao, please take a seat!"

Upon seeing the arrival of Ao Shuwen, an old man spoke to him plainly.

Ao Shuwen nodded his head and sat towards the back.

"Now that everyone is here. Regarding that small shop, has everyone made the necessary preparations?"

After approximately twenty minutes, Master Xuanhuo, who was sitting at the very front, pulled a long face and spoke to the group of people within the room.

"Our Yuwen Family has prepared the spirit arrays!"

"Our Yu family is also ready. There will definitely be a heavy downpour tonight!"

Two old men answered.

"This is some information relating to the master of that small shop!"

Ao Shuwen looked across the crowd without any emotions as he threw the information onto the table beside each old man.

Huh?

"An Elder from Da Hong Immortal Sect?"

"Old Liang, he's the same as you. An Elder of Da Hong Immortal Sect!"

"So what if he is an Elder? Tsk! As long as we kill him without leaving a trace, it won't matter. There won't be an issue as long as we do not anger our Immortal Sect Leader!"

"As long as he's not an Immortal, it won't matter if we allied together and kill him!"

"We will take action tonight! Budding Realm expert? Unparalleled in refining elixir pills and equipment? He's just a brat who doesn't know the rules!"

An old man saw the information on the table but didn't show any changes in emotions.

The interests within Yong Chang City were controlled by various huge families and these huge families formed the higher management of the three Immortal Sects.

Their relationships were complicated.

If there were only three to four families, they might not dare to assassinate the Elders of Da Hong Immortal Sect.

However, it wouldn't be the same if there were so many families participating this time.

With so many families, they might not be able to mask the truth from the entire world. However, hiding the truth from Yong Chang City was still very much achievable.

"Just sit back and wait for your death, Dragon King!"

Seeing the expressions of the group before him, Ao Shuwen's eyes beamed with ruthlessness.

Whoosh!

The sky was darkening gradually. At night, a heavy downpour fell in the city.

The heavy downpour shrouded half of Yong Chang City, prompting various shops to close for business at an earlier time.

Wang Xian remained in the shop and was refining spiritual equipment rapidly.

While immersed in the state of refining, he was incredibly fast. In less than ten minutes, he would complete his refining of a piece of spiritual equipment.

The dark had fallen silently but Wang Xian wasn't getting ready to rest.

"Hehe! Now that the spirit arrays have sealed this place, let's take action!"

At this moment outside the ship, a group of people hovered in the sky. Raindrops avoided their bodies instinctively.

An old man looked down at a structure and revealed a faint smile.

"A Budding Realm expert? With our strength, he will be easily killed. It's a shame that a master that is unparalleled in refining elixir pills and equipment will fall here today!"

An old man revealed a mocking smile as he extended out his hands.

"He deserves death for undercutting our Saint Forge Workshop and disrupting the interests of everyone!"

Master Xuanhuo looked below him and a tinge of hatred flashed in his eyes.

"Tsk! After your death, I'm going to teach those families that withdrew from us a good lesson!"

Huge pieces of ominous clouds gathered in the sky. They spread over a hundred meters with sword glows zapping across!

# Chapter 601: Assassination In The Late Night (2)

Sword Cloud!

Extremely daunting Sword Cloud!

In the void, the old men stared at the place below them with icy-cold eyes while daunting water energy surged around them.

Those middle-aged men and old men who cultivated Inferno and Metal Energy did not strike. All they did was watch by the side, doing nothing.

As a total of eight Sword Clouds were formed, each one of them was hundreds of meters in size.

Eight Budding Realm experts played the Sword Clouds at the same time.

Including those Budding Realm experts who did not strike, they had about fifteen people in total.

With so many supreme-class experts killing a master who was unparalleled in refining elixir pills and equipment, it was a piece of cake despite the other party also being a Budding Realm expert.

"Kill!"

Eight elders let out a cold bellow in the sky. Within the Sword Clouds, longswords sprouted out all of a sudden.

The longswords gave out a chilly aura in the rain. Instantly, thousands of razor-sharp swords darted out towards the shop below for a kill.

"Hur? Oh no!"

At this time, Wang Xian, who was refining equipment in the room, had a drastic change in his expression. With an arm swing, he put all the surrounding

materials into his space ring.

"What a daunting killing aura!"

His expression was altered slightly. With a thought, a shield appeared in his hand.

On the shield was water current flowing at a rapid speed. At the same time, another longsword showed up in Wang Xian's hand.

"Sword Alps!"

He waved his arm and set up walls of Sword Alps around him.

At the same time, Wang Xian raised the shield in his hand.

Om!

The shield in his hand ballooned, wrapping him completely with water energy.

Boom!

At this time, Wang Xian sensed a round of terrifying attacks charging in his direction. It came from all sides and he had nowhere to hide.

"Who dares to strike in Yong Chang City?"

Wang Xian was slightly aghast as he fixed his eyes on the sky with a stern look.

Whoosh!

At this time, the entire rooftop was torn apart as frightful water swords were darting at him.

The dense water swords came one after another, as though they were endless.

Wang Xian saw the Sword Clouds that contained domineering energy in the sky were releasing the water swords.

"There's more than one!"

Cold radiance was found in Wang Xian's eyes as the water energy around him intensified.

Below that stream of water energy, a layer of mustard energy was also encircling it.

Boom boom!

Destructive attacks kept raining down on Wang Xian.

The incessant water swords lasted for ten seconds.

The entire shop was completely gone under such a daunting rain of swords while a pit that was a dozen meters deep appeared in the ground.

"Alright, we'll need to restore this place before dawn!"

An elder withdrew his Sword Cloud and spoke impassively while taking a brief glance below.

"This stupid fellow is a total waste of our time!" another elder commented coldly at the side.

Master Xuanhuo and Master Qingming revealed a smile. "Going against all the elixir pills shops and blacksmith shops in Yong Chang City will never come to a good ending!"

The crowd looked down and they were almost certain that this wicked master who was unparalleled in refining elixir pills and equipment had totally vanished from Yong Chang!

They exchanged glances with one another, ready to settle the remaining matters.

"Let's go!" an elder said without any emotions as though killing a person here was nothing but a trivial matter to him.

"I'll get my men to withdraw the array!"

Another old man's voice was heard.

Bo!

However, at this time, the rain in the sky was getting heavier.

But the strange thing was, not only did the rain not fall on the ground, but it was gathering in the sky.

It was as though the rain was controlled by some dominating force in the surroundings.

"Hur? "What's going on?"

The fifteen Budding Realm experts sensed the eerie change of the surroundings and revealed a look of surprise.

"He's not dead!"

An old man sensed something moving below as a golden radiance shot out from his eyes.

Phew!

Wang Xian let out a deep breath while the Level 11 shield in his hands was full of cracks.

The attacks from eight Budding Realm experts had almost injured him.

"Who are you people? Why did you try to kill me?"

Wang Xian swept his gaze across everyone and eventually stopped on Xuanhuo and Qingming. Seeing them made him realize what was going on.

"Hur? He looks familiar?!"

When Master Xuanhuo and Master Qingming saw Wang Xian, they found him to be very familiar.

"Isn't he...he..."

Master Qingming suddenly had a flash of memory. He recalled the young man who once showed up in his Saint Forge Workshop, applying to be an alchemist in their shop.

"How is this possible?"

The two of them exchanged eye contact as they found disbelief in each other's eyes.

The lad, which they had rejected back then, was actually an alchemy master unparalleled in refining elixir pills and equipment!

This is a fu\*king joke!

"Oh? You're not dead? It looks like we have to go for one more round!"

The surrounding experts ignored Wang Xian's questions as they raised their eyebrows and spoke without any emotions.

Fifteen Budding Realm experts against one was simply overkill!

"Since you guys refused to tell me, then go to hell!"

Wang Xian revealed frantic murderous intent in his eyes. This was the first time in Yong Chang world that he felt such rage.

"Haha!"

Upon hearing his words, the group of fifteen people grinned disdainfully.

Bobo!

Yet, they were surprised to find out that the rainwater gathered in the center had ballooned to ten meters in size at this instant.

Subsequently, the ten-meter water space spread out, enveloping a radius of five kilometers at a rapid speed.

The fifteen of them were horrified as they quickly propped up space within the water region.

"What kind of battle technique is this?" asked an expert from Yong Chang Immortal Sect coldly as he studied the surrounding water region with vigilance.

"Not sure, it doesn't seem to have any offensive power!"

Bewilderment flashed in the eyes of an expert of Da Hong Immortal Sect.

"Forget about it! Let's kill that brat first!"

An old man released golden radiance as he moved. The long sword in his hand immediately wielded a golden beam that struck at Wang Xian with domineering speed.

"Great Waterfall Water Shockwave!"

Wang Xian stood in the water region, depleting his water energy within his body at a frantic rate to connect with the entire water region.

Boom!

He sensed that the entire water region was almost like his own world.

He could easily control this world.

"Is this the power of an Immortal's battle techniques?"

Radiance flashed in Wang Xian's eyes. Seeing the longsword that was darting towards him, he swung his arm.

For a moment, destruction happened within the entire water region as though it was the end of the world.

The rainwater swept toward the longsword and that old man.

It was as if the entire water region was erupting with the wrath of God.

The charging speed of the Water Shockwave was unusually fast, such that the longsword was scattered around like a lifeless log.

The daunting Water Shockwave continued charging at that old man.

"What?"

For a moment, the old man was horrified as he could sense the entire world collapsing. All the energy of the world was rushing towards him!

# Chapter 602: Shocking Yong Chang City (1)

Boom!

The energy of the water shockwave reached the old man in an instant and the terrified expert from Immortal Slaying Sect emitted a golden glow.

However, the glow was just like candlelight. In the face of the deluge, it was extinguished directly.

The corpse of the old man sank gradually towards the ground.

When the water shockwave fell on the old man, he instantly lost all signs of life.

"This... Be careful. Leave this region of water now! Quick!"

When an expert from Da Hong Immortal Sect saw the expert from Immortal Slaying Sect being killed instantly, he was terrified.

He shouted and retreated back immediately.

"Retreat!"

Without needing his reminder, the rest retreated back solemnly upon witnessing how terrifying the water region was.

"Can you escape?"

A cold and ruthless light flashed across Wang Xian's eyes as he waved his palm.

Boom!

The deluge behind him flooded towards the group with devastating might.

The fourteen people were terrified to realize they couldn't escape from the water region.

"Unity of Sword and Human!"

A golden ray of light shot out from the eyes of an expert from Immortal Slaying Sect. The next instant, it was as though he had turned into a sword as he charged forward.

Boom!

Wang Xian stood within the water region and waved his arm sharply.

Boom!

Once again, the unstoppable water shockwave crashed towards the expert from the Immortal Slaying Sect.

"No!"

That expert growled loudly and the longsword in his hand glowed with blinding golden rays.

However, the golden rays shattered like glass as they were crushed instantly.

Ka ka!

Terrifying water shockwaves fell on him and sounds of bones cracking reverberated instantly. Soon after, his body fell towards the ground.

"Grand Waterfall Water Shockwave! This is Great Waterfall Water Shockwave!"

An expert from Da Hong Immortal Sect screamed in horror.

"What's the Great Waterfall Water Shockwave?"

Beside him, an old man raging in scorching flames could feel cold perspiration breaking out on his forehead. Within the water region, his strength was restricted by at least twenty to thirty percent.

"Immortal-class battle technique, Great Waterfall Water Shockwave!" the old man replied with disbelief.

"What? This cannot be possible!"

"No... NO! He can't be an Immortal Realm existence. I don't believe this!"

The words of the old man incited frenzy among the group. They stared in disbelief at Wang Xian who stood in the water region.

How can a young man like him be an Immortal?

We are assassinating an Immortal? F\*ck...

"Since you guys dare to try to assassinate me, all of you can die now!"

"Great Waterfall Water Shockwave!"

Wang Xian shouted and the water dragon energy within him was depleted at a frightening pace.

The surrounding water region was completely within his control. He maneuvered both of his arms.

Terrifying water shockwaves charged towards the group as though it was a devastating water dragon.

At almost the speed of Instant Shift, the devastating water shockwave penetrated through the bodies of various Budding Realm experts.

"NO! Get away from me!"

"Flames of Yong Chang!" an old man shouted, and horrifying energy burst out from his body towards the Great Waterfall Water Shockwave.

However, the attempt was futile.

The entire water region seemed to be a world of its own. If the world was attacking you and wanted you dead, there would only be a single outcome.

They had no ability to withstand at all.

As the water shockwave swept across, corpse after corpse fell to the ground.

Wang Xian heaved a sigh and the surrounding water dissipated.

He wiped away the perspiration on his forehead and felt entirely depleted.

"In just a little more than two minutes, I have almost exhausted all the energy in my body! However, this water shockwave is truly frightening. Fifteen Budding Realm experts couldn't put up any resistance at all!"

Wang Xian moved his hands and weapons flew towards him. Among which, there were three pieces of Level 12 spiritual equipment.

He looked around him and a blue and red light flashed in his eyes.

"Spirit Array! They have sealed this region with spirit arrays. However..."

Ruthlessness flashed across Wang Xian's eyes. This spirit array was a far cry from the spirit array around Yong Chang world.

He could move out of the spirit array and see what was happening outside.

"It seems like I have encroached on the interests of various elixir pill shops and weapons shops. These must be the people they have sent to assassinate me!"

"Although I have affected your business, you sent assassins after me without even discussing the matter. How domineering!"

Wang Xian looked across the corpses. He had long expected his actions to offend the other elixir pill shops and weapons shops in Yong Chang City.

However, he had made another consideration. That was if they approached him after he offended them, he would raise a collaboration proposal.

He believed the other party would definitely be satisfied with the collaboration proposal.

However, the other parties had sent fifteen Budding Realm experts to assassinate him directly.

"All the forces behind the elixir pill shops and weapons shops in Yong Chang City are likely to be part of this. Since you guys wanted to take the tough road, I'll play along with you to the very end!"

A cold light flashed across Wang Xian's eyes. He looked at the group of people waiting outside before moving.

"It's about time. Our Elders should have killed that damn master by now!"

"He wouldn't have to die if he knew what was best for him. After offending all the families behind the elixir pill shops and weapons shops in Yong Chang City, his death was certain!"

Just as Wang Xian flew out of the spirit array, he could hear two people ridiculing him.

"Hehe! You guys are the ones who don't know what's best for you!"

Just as the two men were conversing casually, a cold voice resounded from above their heads.

"Who?"

The two of them were shocked and lifted their heads immediately.

Cough cough!

At that instant, their eyes widened and fear overwhelmed them.

Bam! Bam! Bam!

Sounds of bodies falling to the ground were incessant.

"Over fifty people!"

Wang Xian squinted his eyes and looked towards the yard. At that place, there were even wooden materials prepared to restore the structure.

Other than that, he also found four jadestone plates that were each the size of a human head around.

[Concealment Array: Level 1]

Spirit Array? Is this a spirit array? One that is prepared and made?

Wang Xian was shocked. Recalling that the Dragon Palace would require spirit arrays, he smiled and put them within his space ring!

The small shop was completely destroyed and has to be rebuilt!

Wang Xian frowned. He waved his arm, carried the materials and came back to the small shop.

Perhaps the assassins had taken special precautions. Only his small shop was destroyed.

Wang Xian waved his arm and streams of water supported the wooden materials. After half an hour, he had finally rebuilt the small shop.

As he retracted the water flow, everything was largely the same as before.

The rain was still falling. However, it was a lot lighter as compared to before.

There was only dim lighting around the area.

Wang Xian looked at those corpses and a cold smirk appeared on his face. He turned his attention towards a tall tower in the middle.

Yong Chang Tower was the tallest tower in Yong Chang City. It was also a tower for spectating the city view.

He waved his arm and the corpses were hung on the tower.

"I hope your assassination attempts don't stop. I'd still like to have some fun with you guys!"

# Chapter 603: Shocking Yong Chang City (2)

Yong Chang City was a big city that had a population of 10 million.

Yong Chang Tower was a five-hundred-meter-tall tower, situated in the middle of Yong Chang City.

As Yong Chang enjoyed its peaceful days, the entire city was prosperous with the vital economy controlled by various families that were established by the higher management members of Immortal Sects.

Yong Chang City was a safe city, as the Yong Chang Law Enforcement Team established by the three Immortal Sects upheld the security.

At dawn, when the first beam of sunlight shone, the entire city was fully boisterous.

The early birds were walking in the street, ready to do business or work.

"Ah!"

However, a horrifying shrill sound suddenly cut the silent dawn air.

Below the Yong Chang Tower, a woman was terrified upon seeing the corpses on the ground as she let out her screams.

"Look at the bodies, the bodies!"

The woman pointed at the tower as she frightfully exclaimed, drawing all the curious people over.

"What bodies? Why are there bodies? Who would dare to do it?"

A middle-aged man lifted his head in disbelief.

The three Immortal Sects had absolute control such that Yong Chang City was

very safe.

Of course, fights and bloodshed occur when people are around. Yong Chang City had its own dark side.

Someone could disappear for no reason.

But nobody dared to commit murder openly, and would only destroy the corpse quietly because no one dared to challenge the superiority of the three Immortal Sects.

However, the middle-aged man stiffened as he craned up his head and looked at the tower.

Bodies were hanging from the tower.

His eyes went blank with shock as he fixed his gaze on those two bodies.

"That is...? That is...?"

His body slightly quivered as he narrowed his eyes. "The two masters from Saint Forge Workshop! They are Budding Realm experts!"

"It's the elder from Ao Family, a Budding Realm expert too!"

"The elder from Da Hong Immortal Sect!"

"That old man is the attendant from Yong Chang!"

"This is madness. There are many Budding Realm experts here. Gosh, who did it? How did they die?"

At this time, shocking exclamations were heard from all over the place. Instantly, the surrounding atmosphere began to seethe.

More and more people were gathering at the bottom of the tower in the middle of Yong Chang City.

This is big news, big news!

It was appalling for everyone to realize the deaths of so many, and their bodies

hanging above the tower.

"Who dared to be insolent, hanging their bodies on the tower after killing them?"

"All the ones who are dead are big shots. There are even two elders from Immortal Sect. That's way too insolent!"

Each of them revealed a shocking expression.

The elders from Immortal Sect were the most important big shots in the entire Yong Chang!

Yet two of them were dead!

More than ten thousand people gathered below the tower before seven o'clock. They were pointing around, exchanging conversations in shock.

"Get out of the way!"

At this time, another exclamation was heard. One by one, the law enforcers rode on their swords and came directly to the bodies.

"This..."

The law enforcer in the middle was a middle-aged man, Half-Step to Budding Realm expert. When he swept his gaze across all the bodies, he froze.

"Budding Realm, fifteen Budding Realm experts!"

A group of law enforcers exchanged gazes as they revealed a stern look in their eyes.

Budding Realm experts were considered top-notch experts in the Yong Chang world with there being no more than a few hundred Budding Realm experts. Yet, fifteen bodies of Budding Realm experts were found over here.

The law enforcers gasped at the sight of it.

"Report to Immortal Sect immediately. This involved the elders, attendants of Immortal Sect, and it's not within our scope!"

"Who is it exactly? How dare he challenge the superiority of the three Immortal Sects? Who is courting their own doom?"

The morning in Yong Chang City was unusually seething.

Fifteen Budding Realm experts, including two masters of Saint Forge Workshop, elders, and attendants of Immortal Sect.

Those dead people hung at the top of the Yong Chang Tower. Such a brazen act shook the entire Yong Chang City.

This was a blatant provocation.

This incident struck fear into many people within Yong Chang City.

After all, fifteen Budding Realm experts, the top-notch existences, were dead.

What kind of person could kill so many experts?

This was probably the most incendiary event in the thousand years of Yong Chang City.

At this moment, sixty people were already gathered at the same courtyard as yesterday.

Ao Shuwen rushed over here with the members of the family, with both eyes filled with disbelief.

The atmosphere in the courtyard was rather tense as the elders of the family sat on the chairs in the hall, sweeping gazes around everyone.

"That little shop is still there, but our people..." an old man exclaimed in a low voice as he looked around with a sullen face.

"We had so many experts with us. How is it possible that they were all killed by the Dragon King? Is this even possible?"

Is it possible?

Everyone darkened their expressions. Was it possible that fifteen Budding Realm experts were killed by the Dragon King?

But who else could do it if it were not him?

All of them were well aware of the mission yesterday.

"It must have something to do with the Dragon King. Fifteen Budding Realm experts!"

The old man was shaking. They only had two Budding Realm experts in their family, and losing one was a heavy loss to them.

All the people around kept silent. The death of the fifteen Budding Realm experts was a huge blow to them, after which they all felt wary and fearful.

"What should we do now?" an old man took a deep breath and asked.

They had sent some men to kill the Dragon King. Yet, everyone was dead, and their bodies were hung at the Yong Chang Tower as though it was a provocative sign to them.

Fury and fear were felt by them at the same time.

"Can we make use of the power of Immortal Sect and punish him?" said an old man after less than a minute of silence.

"Immortal Sect? Now that he has been promoted to an elder of Da Hong Immortal Sect, how could we make use of the Immortal Sect? He's the alchemy and blacksmith master. Besides, we could not announce openly that this incident had something to do with him!"

Another old man shook his head straightaway with flickering eyes.

"Unless we can find his weakness, or else..."

An old man sighed. "Now that we have fallen out with each other, he will be a strong opponent since he has the means to kill fifteen Budding Realm experts in one go. I won't feel safe if we don't remove him!"

"This Dragon King just sprouted up recently. I went to check on him, but couldn't find out anything. His identity is somewhat mysterious. I think we should focus on digging up his past!" said Ao Shuwen as he furrowed his brows

while looking at the old men.

As one of the top three most outstanding of Da Hong Immortal Sect, this was the first time he felt a tinge of fear for someone of the same level.

"That's right. We should know our enemy. Let's dig up information on him, and cease our actions for the time being. But we also need to prevent him from striking at us!"

# Chapter 604: Immortal Slaying Sect, Roving Sword

The deaths of fifteen Budding Realm experts shocked the entire Yong Chang City. Soon after, news on this matter also reached the three Immortal Sects.

However, this matter ended without any results.

The forces behind the elixir pill shops and weapons shops of Yong Chang City had activated spirit arrays and artificial rain when they struck.

There weren't any traces of evidence left.

The Enforcers of Yong Chang City couldn't find any useful information.

Coupled with the fact that the families had intentionally wanted to hide the matter, no conclusive result was obtained on the matter.

Some members of the higher management of the three Immortal Sects found this to be a little dubious. However, this incident would have far-reaching consequences and few had the abilities to investigate.

Although the entire Yong Chang City was discussing the matter, there were no conclusive results.

"So they were from these families!"

Wang Xian stood by the door and heard the discussions of the surrounding crowd. A smirk appeared on his face.

He had an additional rationale for hanging the corpses of these people on the Yong Chang Tower. That was to find information on them.

Just as he had expected, he got the information about these people from the surrounding crowd.

Wang Xian smirked and returned to the second floor of his shop.

Huh?

However, he picked up a familiar feeling at this moment. Joy beamed in Wang Xian's eyes.

He moved to the door and looked to the East.

At the same time, several tens of kilometers away, a middle-aged man flying on his sword felt his heart skip a beat. Fervent excitement gleamed in his eyes.

The middle-aged man was expressionless and had a terrifying edge hidden within his body. It was as though he was a razor-sharp sword hidden within a scabbard.

Around him, there were several youths and middle-aged men. From time to time, this group of people would look at him with respect and fear.

"Wait for me here. I'm going to a place and will be back soon!"

The middle-aged man spoke to those around him. The next moment, he charged across the skies like a terrifying sword while disappearing from sight at an unbelievable speed.

"Mentor Ao..."

The group was taken aback when they saw the figure disappearing. They exchanged glances, stopped in their flight and waited on the spot.

"Dragon King!"

At the entrance of the small shop, Wang Xian saw the middle-aged man walking towards him.

"Come in!"

Wang Xian scrutinized Roving Sword from top to bottom while revealing a radiant smile.

"Roving Sword! Where did you come from? Were you injured when you got here?"

"Dragon King, I suffered terrifying attacks when I entered this world. I only managed to withstand them after returning to my original form. I landed in a lake by accident and joined the Immortal Slaying Sect after I recovered. Now, I'm a disciple of the Immortal Slaying Sect!"

Roving Sword followed Wang Xian into the shop and explained what had happened to him.

"Immortal Slaying Sect? It seems like you've had a chance encounter of your own!"

Wang Xian was slightly surprised. Feeling the edge from the body of Roving Sword, he was very satisfied.

As compared to when he was in the outside world, Roving Sword had grown a lot stronger.

"Dragon King, are we going back?" Roving Sword looked at Wang Xian and asked.

"We are definitely going back. However, now isn't the time!"

Wang Xian walked up to the second floor and continued, "Continue staying in the Immortal Slaying Sect for the near future and wait for me to summon you. Besides that, search for the place where the spirit array is the weakest in Yong Chang world!"

"Yes, Dragon King!"

Roving Sword nodded his head immediately.

Mmm! Wang Xian nodded his head, looked at Roving Sword and asked, "How far are you from reaching Level 13 now?"

"Dragon King, I'm still about thirty million points of dragon energy away!" answered Roving Sword.

Members of the Dragon Palace required slightly less dragon energy as compared to Wang Xian.

This was because they weren't authentic divine dragons at this moment and were required to form their own divine dragon bodies to reach the First Transformation of the Divine Dragon Transformation.

This process of metamorphosis required a large amount of dragon energy.

However, the advancement in levels for members of the Dragon Palace couldn't rely on devouring marine animals to extract dragon energy. Other divine dragons wouldn't be able to do so either.

This was a unique ability for the one with the divine dragon cultivation system.

In addition, the divine dragon cultivation system had another ability. That was that it allowed Wang Xian to inject dragon energy directly into Roving Sword's body.

It was similar to imparting abilities to another person. Within the universe, this was also a relatively difficult task to achieve.

To impart personal internal energy to others, the one imparting the energy would exhaust their personal energy. If the exhaustion was too great, the one receiving might explode from the infusion of energy.

However, this wouldn't be an issue for Wang Xian as he had the system in place.

"Over thirty million?"

Wang Xian squinted his eyes. If it was possible, he wanted to increase Roving Sword's strength to Level 13 or, in other words, the Immortal Realm.

In that case, the Dragon Sect would have an Immortal-class existence other than him and things would be more convenient.

"Take this and return to the Immortal Slaying Sect while waiting for my summons!"

Wang Xian retrieved a piece of metal from the space ring and handed it to Roving Sword.

This was the Positive-Negative Metal. The same words would appear on one

piece of metal when one wrote on the other. This was one unique way of communicating.

"Yes, Dragon King!"

Roving Sword nodded his head and left.

"Continue refining!"

Roving Sword being alive was a pleasant surprise for Wang Xian.

Looking at the metal materials around the room, he continued his refining.

Over the next few days, Wang Xian focused solely on refining spiritual equipment.

Perhaps killing fifteen Budding Realm experts the previous time had the effect of deterrence. Over the last few days, no one was sent to assassinate him.

Over this period, huge families and forces went to Wang Xian with requests to refine their elixir pills and spiritual equipment.

After refining for five days, the materials left in the shop had increased instead of decreasing.

However, Wang Xian accepted all requests. As long as people requested for him to refine elixir pills or spiritual equipment, he wouldn't reject them and gave a guarantee he would complete the orders within half a month.

"It's close to the arranged timing with the Elders. Time to head to Da Hong Immortal Sect!"

At the thought that Da Hong Immortal Sect still had various elixir pills and spiritual equipment for him to refine, Wang Xian's eyes beamed with anticipation.

Although the interest given by Da Hong Immortal Sect was even lower, the number of elixir pills and spiritual equipment that Da Hong Immortal Sect wanted to refine was astronomical.

The business of the shop can't stop either. It seems like I have to ask the Mu Family to run it for me!

Wang Xian closed the door and thought to himself. After which, he flew rapidly towards Da Hong Immortal Sect.

"Elder Wang is here!"

When Wang Xian arrived at the main peak, the five Elders, who had been waiting for him, stepped forward to receive him.

The Great Elder examined Wang Xian curiously and no one knew what he was thinking.

"Great Elder, Second Elder..."

Wang Xian nodded his head and greeted them. "Elders, where's the place for me to refine elixir pills and spiritual equipment. Let's start tonight!"

"Alright! Elder Wang is truly a fanatic at refining elixir pills and spiritual equipment. It's definitely not a fluke that you have become an alchemist master and blacksmith master!"

The Elders were also impressed with Wang Xian's attitude.

Based on the news they had gathered, this overly young alchemist master and blacksmith master had spent close to ninety-five percent of his time on refining.

Becoming a master was definitely not a fluke!

# Chapter 605: Immortal Realm

"Elder Wang, this will be the Exlir Mountain exclusive to you for refining your equipment and elixir pills from now on. On the left is a spiritual medicine garden, and material storage is on the right. There are five disciples in the mountain to do your bidding!"

Five elders brought Wang Xian to a mountain.

The mountain was hundreds of meters tall, and it was not that lofty. But the surrounding environment was not something Mt. Fengyu could compare to.

There was no waterfall, and the surrounding was hushed. On the mountain was planted dawn redwood that could refresh the mind.

This type of dawn redwood belonged to Level 2 Spiritual Trees. With Spiritual Trees spreading across the entire mountain, one could imagine how precious this mountain was.

"How is it, Elder Wang? This mountain is one of our best few peaks within Da Hong Immortal Sect!"

The Great Elder chuckled. "Here, follow us to check out your alchemy and blacksmith room!"

The room was located in the middle of the mountain. It was not a house or building but hollowed out from the mountain.

Upon entering, Wang Xian's attention was drawn to something in the middle.

Five Spiritual Liquid Balls were suspended in the air, emitting white radiance.

"These are Scarlet Liquid Balls which were once Immortal-class treasures of Da Hong Immortal Sect. When five Scarlet Liquid Balls gathered together, they could support Elder Wang refining Level 12 Spiritual Equipment and Level 7 elixir pills. Given your talent, you could become a Grand Master in no time!" said Great Elder to Wang Xian slowly.

"Five Level 12 Scarlet Liquid Balls!"

There was radiance flickering in Wang Xian's eyes.

Scarlet Liquid Balls could help to coagulate extreme high-temperature water, they were the best auxiliary Spiritual Equipment for the Art of Water Refining.

Five Scarlet Liquid Balls were connected by an array such that Wang Xian could make use of it to refine Level 12 Spiritual Equipment and Level 7 elixir pills.

"Over here is the place where you can rest. I heard that you like to drink spiritual tea, so I got the disciples to pluck some for you!" said Elder Mu to Wang Xian with a smile.

"Thank you, elders!"

Wang Xian was very pleased with the environment. This place was not something that small shop in Yong Chang City could compare to.

This place was absolutely the sacred grounds of refining equipment and elixir pills.

"Let the disciples help you with the carrying of the materials. Elder Wang, we shall leave you to your rest. If you need anything, you can just find any of the five of us!"

The Great Elder waved a dismissal hand to Wang Xian and left after finishing his words.

Wang Xian cupped his fists at them and studied the surroundings with a satisfying look.

"I'll advance to Level 9 within five days!"

Wang Xian took a deep breath with glistening eyes. With a soft yell, he said, "Men!"

"Yes, Elder Wang. Is there anything for us to do?"

Immediately, five disciples went to Wang Xian with respect and admiration in

their eyes.

"Bring the material over, and bring more. I'll begin to refine elixir pills!"

Wang Xian looked at the five Scarlet Liquid Balls as he instructed them.

"Yes, Elder!"

The five of them immediately went to retrieve the Spiritual Grass for refining the pills.

Om!

Wang Xian stood before the forging table and swung his arm while fixing his eyes on the five Scarlet Liquid Balls.

A hot Water Veil appeared while Wang Xian revealed a satisfied look.

"Elder Wang, here's the material!"

Five disciples brought hundreds of portions of materials over, leaving them by the side.

Wang Xian waved them off as he entered into the state of refining elixir pills.

...

"Elder Wang is really obsessed with pills and equipment. It's been almost five days, and I heard the disciples saying his refining period is not less than twenty-three hours per day!"

"Crazy speed in refining elixir pills. He could refine thousands of elixir pills in a day. That's madness. He alone could beat all the alchemists of Immortal Sects in terms of speed!"

"At this rate, all the Spiritual Grass of Da Hong Immortal Sect would not sustain his refinery for half a month!"

"I'd guess all the Spiritual Grass and the refining materials of Da Hong Immortal Sect could only last him for a month. But this should be good news for us. Good news!"

"That's right!"

On the mountain next to Wang Xian, the five elders wanted to pay him a visit. They revealed a shocked look on their faces after hearing the reports from the five disciples.

Seeing his frantic rate of refining elixir pills, the fact that Wang Xian was an alchemy and blacksmith master was no longer horrifying.

"It's almost time!"

After Wang Xian was done with refining four elixir pills, he squinted his eyes as he looked outside.

In the middle of the night, Wang Xian walked out of the cave and came to the summit.

The dawn redwood was exuding a sapphire glow that beautified the surrounding environment.

Wang Xian took out elixir pills one by one and popped them into his mouth while smiling.

[Ding! Taken Level 6 elixir pills, 111239 Dragon Energy extracted!]

[Ding! Taken Level 6 elixir pills, 112098 Dragon Energy extracted!]

.....

Wang Xian closed his eyes while the system notification continued to ring in his mind.

[Ding! 112045 Dragon Energy taken, level up to Level 9!]

Ka Ka Ka!

Wang Xian opened his eyes as a virtual shadow of a Divine Dragon flashed across his eyes.

His body let out a bone-cracking sound as he released a daunting aura from his body.

Roar!

A low bellow was heard with a five-colored divine dragon slowly circling around his body.

"Level 9 Divine Dragon!" Wang Xian gently said.

Name: Wang Xian

Race: Five Elements Divine Dragon (Able to transform into a human)

Level: Level 9

Dragon Energy: 100003421/1000000000

Superpower: Dominate the marine animals (Ability to rule any marine animals that are lower than existing level)

Devour any form of marine animals (For extraction of dragon energy)

Five Elements Control

Art of Cultivation: Divine Dragon Transformation

Art of Inferno Refining: Using Origin Source Flame for refining all things

Art of Water Refining: Using Art of Water Refining for refining.

Battle techniques: Water Clone (Low-class), Sword Edge Storm (Middle-class), Instant Shift (Low-class)

"The strength is multiple folds stronger than before. Is this the power of the Immortal Realm?"

Wang Xian's eyes were gleaming as he felt that he could sustain twenty minutes of Great Waterfall Water Shockwave after casting it.

On top of that, the area that Great Waterfall Water Shockwave could encompass hit a radius of ten kilometers.

A ten-kilometers radius was a rather scary range.

That was equivalent to brewing a storm on rivers and seas.

"Not even the modern heat weapons, including nuclear weapons, could injure me. Given my speed, I could travel to Yong Chang Immortal Sect from here within a minute. My speed is five times the speed of sound!"

Wang Xian looked up. With a thought, his figure instantly appeared ten thousand meters above in the air.

Wang Xian brought a smile to his face as he overlooked the entire Yong Chang world.

"This place could no longer bind me. I'm fearless against Immortals of this world!"

"Haha!"

Wang Xian chuckled loudly. With a shift, he landed on the mountain again instantly.

"Make me a cup of tea!"

Wang Xian drew his lips slightly as he shouted below.

"Hur? Yes, Elder!"

A disciple who was on vigil hurriedly nodded as he immediately made a cup of spiritual tea.

"Elder, it's done!"

"Mm!"

Wang Xian went back to his room, picked up the hot spiritual tea and sipped it.

"Elder, the three Immortal Sects are selecting ten disciples to enter Yong Chang cauldron tomorrow. Do you want to take a look?"

At this time, the disciple who was keeping watch at night asked Wang Xian with slight hesitation.

# Chapter 606: Grand Master

"Huh? The contest to select ten disciples to enter the Yong Chang Cauldron is starting tomorrow?"

Wang Xian was surprised when he overheard the conversation of the disciples by the side.

"Yeah. The selection will last for more than half a month!" that disciple answered respectfully.

"More than half a month? So long?"

Wang Xian raised an eyebrow and looked confused.

"The grand contest of disciples from the three Immortal Sects... Yong Chang world is about to descend to the real world. To ensure that disciples from all Immortal Sects can experience huge incremental growth, the three Immortal Sects have decided to host a grand contest for all their disciples. The top thirty will receive elixir pills and spiritual equipment as rewards. Besides that, the top ten will qualify to enter the Yong Chang Cauldron!" That disciple continued his explanation for Wang Xian.

"Oh? Is that right?"

Wang Xian nodded his head slightly and answered, "I'm not going. Get me another batch of spiritual medicine. I'm going to continue refining!"

"Yes!"

That disciple was impressed.

Despite becoming an alchemist master and blacksmith master at the young age of twenty, he was still as diligent. This made an ordinary disciple like him feel ashamed.

Wang Xian wasn't interested in the grand contest of disciples or entering the Yong Chang Cauldron.

At this point, Wang Xian wanted to prepare resources for Roving Sword, the dragonians, and others after reaching Level 9.

Continue with refining elixir pills!

For the subsequent period, Wang Xian was once again immersed in refining elixir pills.

After his level had increased, Wang Xian's speed in refining elixir pills had increased substantially.

Ten days later, after refining all spiritual medicine in Da Hong Immortal Sect into elixir pills, Wang Xian requested to refine Level 7 elixir pills.

The five Elders were shocked when they received the news.

Refining Level 7 elixir pills!

Level 7 elixir pills could substantially increase the strength of a Budding Realm expert.

Elite elixir pills like these had always been refined by an Immortal Realm expert in Da Hong Immortal Sect.

There were definitely not more than three alchemist grand masters in the entire Yong Chang City.

Two of them were Immortal Realm experts while the other was a Budding Realm alchemist grand master from Yong Chang Immortal Sect who had to rely on a Level 13 alchemy furnace.

The five Elders didn't reject Wang Xian's request and gave him ten sets of materials.

The five Elders had given him ten sets for Wang Xian to try out first. If he was successful with these sets, they would allow Wang Xian to continue.

It wasn't because the Elders were stingy but mainly because Da Hong Immortal Sect also didn't have lots of Level 7 spiritual medicine.

To refine a Level 7 elixir pill, one required forty-nine tufts of spiritual medicine. If it was unsuccessful, it would be a huge loss.

Moreover, Da Hong Immortal Sect didn't have a lot of Level 7 spiritual medicine.

Wang Xian readily accepted their conditions for the ten sets of materials. Using two days, he refined the ten sets into Level 7 elixir pills.

The time required to refine Level 7 elixir pills had exceeded Wang Xian's expectation completely.

Wang Xian gave the five Elders twelve pills. Once again, the five of them were dumbfounded.

Close to a thirty percent success rate! He was able to reach a thirty percent success rate!

Grand master! An alchemist grand master!

They looked at Wang Xian fervently as though they were staring at a peerless beauty.

Following which, they gave Wang Xian another twenty sets of materials for him to refine.

These twenty sets were also the remaining materials that they had the authority to use.

Wang Xian accepted readily. In total, Wang Xian gave the five elders thirty-six Level 7 elixir pills from thirty sets of materials.

The five Elders were exhilarated.

What they don't know is that my success rate is still a hundred percent. I have eighty-four Level 7 elixir pills with me and each one could give me more than a million units of dragon energy. With eighty-four pills, that's more than eighty million units of dragon energy!

Wang Xian stared at the elixir pills in his hands with excitement.

Although eighty million units of dragon energy was insignificant compared to the requirement of one billion to reach the First Transformation of the Divine Dragon Transformation, it was still sufficient to help Roving Sword reach Level 13.

Besides that, these elixir pills would also substantially strengthen the dragonians.

"Let me nurture these five spiritual liquid balls into a Water Dragon Ball first. Although merging five Level 12 spiritual liquid balls might not reach Level 13, it will still be pretty strong!"

When his level increased, Wang Xian wouldn't require them to refine Level 7 elixir pills. He placed them into his body instantly and started nurturing.

Wang Xian now had two thousand Level 5 elixir pills, four hundred Level 6 elixir pills and eighty-four Level 7 elixir pills!

Wang Xian looked at the elixir pills he had saved over the past half a month and smiled subconsciously.

Other than those he had obtained from Da Hong Immortal Sect, some of these elixir pills were from the customers he had accepted through his shop.

"These elixir pills would be more than sufficient to strengthen the dragonians and the Dragon Palace. At that time, I won't have to worry, even if the other eight cauldron worlds are appearing in the real world!"

Wang Xian's eyes beamed with excitement.

"Bring in the materials for spiritual equipment.

Refining of spiritual equipment. Refining of spiritual equipment in a frenzy.

In less than ten days, Wang Xian had refined over a thousand pieces of spiritual equipment.

He had also obtained three to four hundred pieces of spiritual equipment in the process.

Level 12 Spiritual equipment!

Wang Xian's eyes lit up and he got ready to refine Level 12 spiritual equipment.

This time, the five Elders didn't hesitate at all and gave all the materials to him.

When Wang Xian had been refining elixir pills and spiritual equipment, the Yong Chang world had been exceptionally lively over the past half a month.

The grand contest between disciples of three Immortal Sects was going on and the top ten would qualify to enter the Yong Chang Cauldron for cultivation.

When everyone heard about it, they were frenzied.

Yong Chang Cauldron was the most elite spiritual equipment and an Immortal Treasure. Entering it was an attractive option.

Moreover, based on historical records, all the Immortals had reached that stage within the Yong Chang Cauldron.

The spiritual energy in it was so dense that it could almost be considered liquid. Cultivating in it would be dozens of times more effective. It was the holy ground for countless experts.

Countless capable disciples would fight for the ten slots with all their might.

Other than these ten slots, the top thirty disciples would also receive immense rewards.

Level 11 spiritual equipment, a Level 6 elixir pill and five thousand spiritual stones!

The three Immortal Sects had expended huge resources in preparation of substantially improving the strength of their disciples.

The competition ground was in Yong Chang Immortal Sect. It was also the largest site of the three Immortal Sects.

Each arena spanned several miles and there were over twenty arenas. More than several hundreds of thousands of people could sit around these arenas.

"Soundless Sword!"

"Breathless Sword!"

"Dustless Sword!"

"Sorrowless Sword!"

At this very moment and in an arena of Yong Chang Immortal Sect, a middle-aged man held a longsword in his hand. As he waved the sword, sword energies penetrated a young man soundlessly, breathlessly, dustlessly, and sorrowlessly.

"What is this... Merciless Swordsmanship! What an incredible display of Merciless Swordsmanship!"

"Sss... Yonglin is defeated! The third-ranked disciple of Yong Chang Immortal Sect was defeated! That middle-aged man is too strong!"

"He was executed soundless, breathless, dustless and sorrowless in an instant! Where did this disciple from Immortal Slaying Sect come from? Why haven't I heard of him before?"

"His name is Roving Sword. Based on what I've gathered, he only joined the Immortal Slaying Sect a while back. He is incredibly strong and especially so in sword technique. He is widely regarded by many in Immortal Slaying Sect to be a once in a ten-thousand-year genius that has a high chance of reaching the Immortal Realm!"

# Chapter 607: Yong Chang's Supreme Talents

All the disciples of the three major Yong Chang Immortal Sects gathered around in the contest arena at this time.

As a rare once in millennium event, every disciple was present.

Even those average disciples who had not advanced to Inborn were looking for a spot to observe the battle between top-notch Yong Chang talents.

Hundreds of thousands of disciples from three major Immortal Sects looked at that middle-aged man in the middle of the stage. All of them were discussing in astonishment.

His name was Roving Sword, the scary genius of swordsmanship from Immortal Slaying Sect.

Roving Sword was categorized as middle aged in the real world, but a young man in Yong Chang.

Seeing that he defeated Yonglin, third-ranked in Yong Chang Immortal Sect, all the disciples were in disbelief.

Yong Chang Immortal Sect was the strongest sect among the three Immortal Sects. In terms of the numbers of Immortals and supreme talents, it was almost better than Da Hong and Immortal Slaying Sect.

The fact that Roving Sword of Immortal Slaying Sect could defeat Yonglin, the supreme talent of Yong Chang, surprised everyone.

"You lost!"

Roving Sword, on the stage, remained aloof without any expressions on his face. Despite defeating the supreme talent of Yong Chang world, he remained as calm as a millpond.

As a golden swordfish, he did not have much emotion except for that related to becoming stronger and pledging his loyalty to the Dragon King!

"I lost!"

Yonglin looked awful. He wiped his neck that was being brushed by sword radiance and flew to one corner with a sullen face.

Roving Sword turned around and flew to another place.

"Senior Brother Ao!"

As the disciples of Immortal Slaying Sect saw Roving Sword, they greeted him with awe.

"Mm!"

Roving Sword nodded coldly as though he was like a block of ice!

"I never expected Roving Sword to be so strong. Yonglin, didn't you say you could beat him? What a shame!"

In the other direction, Yonglin, with fiery-red hair, landed on a small hill nearby.

Over a dozen disciples sat on the mountain with tea on the side.

Compared to other disciples who were standing around, watching, the place where these disciples were sitting seemed more relaxing.

"Hmph, didn't he knock you off from the top candidate list of cultivating disciples?"

Yonglin returned a cold bellow as he grimaced at a young man who had a sharp chin.

"He's still no match for me!"

The young man with a sharp profile spoke without any emotion. His golden palms were like metal.

"His strength could be ranked in the top five or six!" Hong Tianda commented

impassively at the side.

"Five or six? I don't think so!"

As soon as Hong Tianda's voice trailed off, a Yong Chang Immortal Sect disciple curled his lips upwards and spoke with a smile.

"This guy is familiar, but he's too aloof. I don't like him!"

At this time, a female voice was heard as she observed with doubts.

However, her strength was only at the Inborn level. Since she was standing at a distance of six kilometers, she could not see clearly.

"Haha, Xiao Xiao, this fellow is even more aloof than Hong Tianda, ignoring everyone like a fool. He only has eyes for swordsmanship!"

A young man of Immortal Slaying Sect chuckled and replied to the girl.

"He's expressionless? Sounds familiar. Where have I seen this before?"

The girl murmured, with her eyes blinking non-stop. However, she could not recall anything. So she might as well cast this aside, and she tugged another girl by her arm with a smile. "This time, my sister will top the chart!"

"Senior brother Ge Wen is number one. Senior brother Hong is number two and Senior brother Bai is number three. I'm at most number four!"

The girl who was being hugged shook her head plainly.

"No, how can those guys fight with you? Unless they are not men!"

The girl laughed as she spoke.

The surrounding crowd chuckled. Even though the girl was of Inborn Level, she was the youngest daughter of an Immortal.

The little princess of the entire Yong Chang world who received more doting than her sister.

"When the last day is here, I'll teach that Roving Sword a lesson!"

A young man of Immortal Slaying Sect held his Level 12 spiritual sword with a face of coldness.

The sudden appearance of this guy not only stole his limelight in Immortal Slaying Sect, but also gave him the cold shoulder many times, which embarrassed him.

He was prepared to teach him a lesson.

"Haha, Jin Jian. If you can beat him, you will be ranked number five. By then, we won't have to compete with each other anymore!"

Upon hearing his words, a disciple of Yong Chang Immortal Sect smiled and commented.

"Heh, then I want the fifth position!"

Jin Jian smiled confidently.

"Among the disciples, you're only number six. I'll fight with Ge Wen for number two!"

At this time, Hong Tianda, sitting at the side, remarked once again.

"Hur?"

Everyone around him froze for a moment as they looked at Hong Tianda with disbelief.

"Senior brother Hong, don't tell me there's someone better than you and Senior brother Ge Wen?"

A young man was stunned and asked this with a smile.

"Yes!" Hong Tianda answered directly.

"Who? Who actually makes you feel inferior? All the supreme talents in Yong Chang are here. Who is our opponent?" asked Ge Wen to Hong Tianda with his eyes narrowed.

"You'll find out on the last day!"

Without much strength, he answered. Hong Tianda thought of a person who could easily defeat him in a single move.

He was not convinced of Ge Wen, but he had to succumb to defeat by that demon-like figure!

He touched the huge sword in his hand with self-understanding that he was still far from that demon-like figure.

"Oh? Then I will really want to take a look. At the same time, I will show you my strength!"

Ge Wen's lips curled up slightly with a pleasant look in his eyes.

Ao Shuwen, at the side, remained quiet with glistening eyes. His mind was not here as he was thinking of the Dragon King.

For half a month, over a dozen families searched the entire Yong Chang world. Still, none of them retrieved any information on the Dragon King.

This made them wonder.

Yong Chang world is not big. How can a person suddenly appear?

But all these forces were not willing to give up and continued to look up.

With that Dragon King around one day, the dozen forces would not have a day of peace. They must slay him!

Besides, they needed to find out how he had managed to kill fifteen Budding Realm experts.

Buzz!

At this time, Roving Sword was standing in front of the Immortal Slaying Sect disciples. A thing on his arm buzzed. He swung his arm and took out the Positive-Negative Metal.

Looking at the message on it, Roving Sword did not hesitate as he flitted towards Da Hong Immortal Sect.

Some of the elders and attendants from Immortal Slaying Sect furrowed their brows slightly when they saw the departing Roving Sword.

"This disciple is extremely talented. He's very suitable for Merciless Swordsmanship, but he was simply ruthless!"

"The Sect Leader said the Merciless Swordsmanship focused on attacks. But when one attains mastery of it, one can become truly merciless, disregarding and annihilating everything. Such a disciple might be hard to come across, but he was not easy to control. The Sect Leader also said he would be banned from entering Yong Chang cauldron this time!"

"It's better to prohibit his entry. If he could advance to the Immortal Realm with Merciless Swordsmanship, I don't think that even the Sect Leader could command him!"

# Chapter 608: Annihilate The Dragon Sect. Unification Of The Underworld

"Dragon King!"

Roving Sword approached and descended into Wang Xian's Mt. Refining. When Wang Xian saw Roving Sword, he revealed a smile.

"How many more days are left until the grand contest of Yong Chang world begins?" Wang Xian asked Roving Sword.

"We have about four more days!" answered Roving Sword.

"Four days? It's been approximately one and a half months since we arrived in this world. When the grand contest ends, we will return after entering the Yong Chang Cauldron!" Wang Xian hesitated for a moment before answering.

"Dragon King, I've found the region where we came in from previously. If we break the spirit array of that region, we will be able to get out. However, we will suffer the attacks of the spirit array!"

Roving Sword had not forgotten Wang Xian's instructions from before as he reported to Wang Xian.

"With our strength, it shouldn't be a problem for us to get out. How many more units of dragon energy are you still lacking?" Wang Xian stared at Roving Sword.

"Reporting, Dragon King. I'm still lacking approximately thirty-three million units of dragon energy. With my current cultivation pace, I would require roughly ten years. If I can enter that Yong Chang cauldron, I should be able to shorten the time required substantially!" answered Roving Sword.

"Let me increase your strength to Level 13 first!"

Wang Xian's eyes flickered, and he moved his arm and dense streams of dragon

energy entered Roving Sword's body directly.

"Thank you, Dragon King!"

Roving Sword sat on the floor right away to digest the dragon energy from Wang Xian.

Transferring dragon energy was an easy task for Wang Xian. Moreover, it was easy for Roving Sword to absorb.

Dang!

Weng!

At this moment, razor-sharp swords appeared around Roving Sword suddenly.

Eh?

Wang Xian looked with astonishment at the illusory longswords hovering around Roving Sword.

These longswords weren't made of metal. Instead, they were exceptionally unique longswords that seemed to possess a special characteristic.

Five longswords circled around him slowly. When Wang Xian sensed Roving Sword growing stronger rapidly, he felt more assured.

Looking at the Level 11 longsword in his hand, Wang Xian hesitated for some time and decided to refine a Level 12 spiritual sword for him.

At the same time, Wang Xian was prepared to refine some pieces of spiritual equipment for himself. At the very least, he would want a spiritual sword.

With sufficient materials and having leveled up to Level 9, refining Level 12 spiritual equipment was an easy task for Wang Xian.

Soon, two Level 12 spiritual swords were refined.

Looking at the two swords, Wang Xian's eyebrows knitted together.

Would it be possible to craft a dragon sword? To embed the dragon balls within

and refine a five-elemental spiritual sword?

Or perhaps I could refine the set of dragon balls into spiritual equipment?

Wang Xian thought about it.

With his current strength, he was only capable of refining Level 12 spiritual equipment. If he wished to refine Level 13 spiritual equipment, he would have to dabble in spirit arrays.

The Arts of Water Refining of Da Hong Immortal Sect had no records on Level 13 spiritual equipment.

When spiritual equipment reached Level 13, it could be called Immortal Treasure.

The truncheon that Adjaya had should be an Immortal Treasure-class weapon.

Previously, Adjaya had relied on her Immortal Treasure to stand her ground against Budding Realm experts despite not having any other Budding Realm experts.

The Dragon Balls were, in fact, spiritual equipment. Wang Xian was rather unique as he was a five elements divine dragon. He could create five different Dragon Balls.

If he could use five different Dragon Balls at the same time, embedding them onto spiritual equipment would be a great decision.

I can embed them into five different swords or make them into a crown!

Wang Xian raised an eyebrow. At the thought of the crown that Adjaya was wearing, a smile appeared on his face.

With a thought, he looked across through the materials kept within through space rings.

At this juncture, the amount of materials within the space ring was astronomical. Level 10 materials could be considered the most common!

There was quite a large amount of Level 12 material too.

Golden Crown Metal: Level 12

Yellowstone Water: Level 12

Frozen Wood: Level 12

Fire Key Stone: Level 12

Yellow Spiritual Earth: Level 12

Five types of materials of metal, wood, water, fire and earth attribute. It's enough to refine a crown. However, I only have Wood Dragon Ball, Water Dragon Ball and Fire Dragon Ball at this moment. I'm still missing Earth Dragon Ball and Metal Dragon Ball!

Wang Xian thought to himself. However, it didn't really matter. He just had to collect two other elemental dragon balls in the future.

The crown he was going to refine was just going to be in its preliminary form!

Just as Roving Sword was advancing to Level 13 and Wang Xian was refining spiritual equipment, ten figures stood in the air at one corner of Yong Chang world.

Two figures standing in the middle were blurry and had immense energy.

The two figures emitted fiery-red light that was of a different shade than ordinary fire. Their flames had a tinge of holiness.

Around then, a group of people stood behind the two figures deferentially.

"Remember what we have instructed you to do!"

A figure spoke to the crowd.

"Yes, Great Fire God. We assure you that we will build a powerful information network in preparation for Yong Chang world descending into the outside world!"

Two familiar figures reported respectfully to the two illusory figures.

Emperor Qi from Diabolism and Nie Wushuang, the Sect Leader of Dong Hua Sacred Sect.

The seemingly invincible duo in the Underworld was now standing deferentially behind the two illusory figures.

"Hmm. We will send four other guys with you. As long as it is regarding the establishment of an information network, they will listen to your instructions. Both of you have to establish an all-knowing information group in the shortest time!" one of the two illusory figures added.

"Yes, we will definitely complete it!" Emperor Qi and Nie Wushuang gave their guarantee instantly.

"Alright, we will send you guys out now!"

The two illusory figures nodded their heads and raised their palms.

Both of them wore red spiritual gloves and expanded instantly at this juncture.

The immense energy from the two pairs of huge five-meter palms shocked Emperor Qi and Nie Wushuang.

Ka ka ka!

A crack easily ripped apart the sky.

"Get out now!" the two illusory figures shouted.

Emperor Qi and Nie Wushuang didn't dare to hesitate a moment. They moved and headed towards the other piece of sky instantly.

Beside them, four old men followed closely.

Crack crack crack!

Explosions reverberated from the space as Emperor Qi and Nie Wushuang left the area. The sounds of these explosions sent chills down the spines of those who heard them.

The previous time, they had almost died from the attacks of the spirit array. If the immortals had not intervened, they would have been dead by now.

"We are back!"

The duo looked at the familiar sky and excitement beamed in their eyes.

Huashan was below them and they were ten thousand meters above in the sky.

The duo pondered for a long time before meeting the eyes of each other.

"The alliance of orthodox sects and Diabolism shall work together to build a powerful information network!" Nie Wushuang said solemnly.

"Alright!"

Emperor Qi nodded his head, looked before him and remarked, "I wonder if the Dragon King and the middle-aged man are dead?"

"They must be dead. Even if they are dead, the Dragon Sect still exists!"

"We can't keep the Dragon Sect!"

"In that case, let's annihilate the Dragon Sect first to unite the Underworld."

The duo was emotionless and flew away, leaving a trail of light.

Behind them, the four old men followed closely!

# Chapter 609: Dragon King?

Boom!

After a day of sitting beside Wang Xian with his legs crossed, Roving Sword opened his eyes as he sensed a daunting aura emanating out from his body.

With a swing, Wang Xian surrounded him with water energy as he fixed his eyes on Roving Sword.

Five illusory longswords were spinning around him at a domineering speed. Wang Xian looked to the side and was surprised to see the longswords at the side were shaking violently.

"Hur? He can even vibrate Level 12 spiritual swords? It looks like something is odd about Roving Sword's strength!"

Wang Xian narrowed his eyes in astonishment.

"Dragon King!"

At this time, Roving Sword greeted Wang Xian respectfully while he stood up and looked at Wang Xian.

"Mm, what kind of art are you practicing? The strength seemed odd when you attained your breakthrough!" Wang Xian said to Roving Sword, as he was taken aback.

"Merciless Swordsmanship. Dragon King, my Merciless Swordsmanship has advanced to Level 13, the lower-class Immortal realm."

"Lower-class Immortal? Are there different classes for Immortal Level too?"

An unexpected radiance flashed in his eyes.

"Yes. The beginning of the Immortal Realm after advancement is known as lower-class Immortal. After a full-mastery of high-class battle techniques, it is known as middle-class Immortal. After converting battle techniques to a

Superpower, it would be known as upper-class Immortal. Anything beyond this is not within my knowledge!" Roving Sword explained to Wang Xian.

"I didn't know that Immortal Realm was divided into three levels!" Wang Xian nodded his head slowly. "You may go back now. I'll also enter the Yong Chang cauldron a few days from now!"

"Yes, Dragon King. I'll come in as a champion in this grand contest!" said Roving Sword plainly to Wang Xian.

"Mm!"

Wang Xian nodded with a smile. Given Roving Sword's current strength, getting the champion in this grand contest was a piece of cake.

No one, except for the Immortals of Yong Chang, could be a match for him!

After Roving Sword left, Wang Xian continued to refine his Spiritual Equipment.

"Elder Wang!"

Five disciples called out to Wang Xian, who was refining equipment in the mountain three days later.

"What is it?" asked Wang Xian expressionlessly. He was ready to continue with his refinery.

"Elder Wang, today's the last day of the grand contest of the three Immortal Sects. It's also the day when the announcement will be made for the top thirty. At that time, they will be revealing the names of disciples who will be able to enter Yong Chang cauldron. The Great Elder wants us to inform you to make a trip over!" a disciple said respectfully to Wang Xian.

"Hur? Last day?"

Wang Xian nodded and stored his materials. "Fine, let's go then. Where is it? Lead the way, will you?"

"Yes, Elder Wang. I heard that Elder Wang will be able to enter Yong Chang

cauldron. Congratulations!"

That disciple spoke with envy.

Wang Xian nodded his head impassively as he followed behind and headed to Yong Chang Immortal Sect.

"Senior brother Ge Wen, go for it!"

"Senior brother Hong, go for it!"

"Senior brother Jin Jian, go for it!"

Wang Xian could hear cheering voices even when he was a thousand meters away from the grand contest arena.

Wang Xian swept his gaze across and spotted where Da Hong Immortal Sect was. He immediately hovered to the elders' side.

"Elder Wang is here!"

The elders of Da Hong Immortal Sect were sitting on a small hill beside the grand contest arena. Upon seeing Wang Xian's arrival, they immediately greeted him with broad smiles.

Today is the day where the top five would become known. This was the grand contest that involved all the disciples of Yong Chang Immortal Sect. At this time, none of the elders of Da Hong Immortal Sect would miss it.

"Greetings to Great Elder, Second Great Elder, and the elders!"

Wang Xian cupped his fists to each of the elders.

"Elder Wang, the grand contest of three major Immortal Sects will be over once the top five is out. At that time, you'll also need to go to the stage as one of the candidates who will be entering the Yong Chang cauldron. Let all the disciples of Yong Chang world know about you!" said the Great Elder to Wang Xian.

"Sure!"

Entering the Yong Chang cauldron was a great opportunity for everyone. Only

thirteen people in fifty years could do so.

After today's grand contest was over, they could enter the cauldron tomorrow.

Three default disciples would also enjoy the same glory as the top ten disciples.

"Who are the top five currently?"

Wang Xian looked at the arena with curiosity as he asked the Great Elder beside him.

"Hehe, the results will only be determined after the battle of Roving Sword and Jin Jian of Immortal Slaying Sect!"

The Great Elder chuckled as he pointed to the two people in the field.

"Hur?"

Wang Xian looked over. Sure enough, Roving Sword and another man who had a sharp profile were battling.

"Haha!"

Wang Xian chuckled as he looked to the fiery column at one side. On it was a ranking.

The first to sixth positions were not finalized yet, while the rest of the disciples had already become fixed.

"Hur?"

At this time, Wang Xian sensed a gaze looking at him, scrutinizing him from head to toe.

He raised his eyebrows and spun around, looking at one elder on the mountain.

When that elder looked over at Wang Xian, there was no concealment to his cold-looking eyes.

"I remember there was an elder from Da Hong Immortal Sect among those families who tried to assassinate me the other night. It looks like he's the one!"

A tinge of coldness flashed in Wang Xian's eyes.

"Roving Sword is going to win. This is totally unexpected. Jin Jian has always been the top disciple of Immortal Slaying Sect. No one expected that the disciple who just joined Immortal Slaying Sect could defeat him. The top five will be confirmed!"

At this time, an elder exclaimed from the side.

Wang Xian followed his gaze. True enough, the longsword of Roving Sword had slashed that young man, leaving a long wound on his body. After which he pointed the cold-looking sword at him.

Jin Jian was looking dreadful while the arm that was grabbing the longsword was trembling. "Where did you get your Level 12 Spiritual Equipment?" he bellowed in a low voice with a twisted expression.

Roving Sword ignored him entirely as he moved back to his position.

If he displayed his full strength, Jin Jian would have been defeated in one stroke!

"Fine!"

Seeing that Roving Sword was unconcerned with his questions, Jin Jian's face was as black as coal. He made a move and hovered to a small mountain.

"This is totally unexpected. Jin Jian, you actually lost to a disciple who just joined Immortal Slaying Sect. You're losing your title as the number one disciple in the sect!"

Just as Jin Jian arrived at that mountain, a young man's taunting voice rang in his ears.

"If not for the fact that he possesses a Level 12 spiritual sword, he would definitely not be my match!" said Jin Jian coldly with a gloomy look.

"Hehe, don't you have a Level 12 spiritual sword too?"

That young man chuckled, revealing a tinge of curiosity on his face. "Did you guys from Immortal Slaying Sect say you would stop him from entering the

Yong Chang cauldron? Besides, he doesn't have any friends. Where did he get his Level 12 spiritual sword from?"

"How would I know?"

Jin Jian's expression sank as he tightened his grip on his spiritual sword.

"I know it was the Dragon King. He was the one who refined it!"

At this time, Ao Shuwen's voice cut through the air.

He looked at the spiritual swords in Hong Tianda and Piao Lingxue's hands.  
"The swords in Senior brother Hong and Junior Sister Piao's hands were refined by Dragon King!"

"Dragon King?"

Yet, what Ao Shuwen said stunned the two people beside him.

Xiao Xiao and the Guild Leader of Sacred Followers Guild.

When they heard the name, there was a trace of doubt flashing across their eyes.

# Chapter 610: He Is The Dragon King

## (1)

"Dragon King?" Xiaoxiao mumbled to herself upon hearing Ao Shuwen.

She had a strong impression of this name.

That brat that could be considered demon-like even when compared with those of his age in Yong Chang world also had the name "Dragon King."

When she had first entered the real world, she had no regard for any forces in the Underworld, let alone any of the supreme talents of the Underworld.

Even Emperor Qi of Diabolism and the Sect Leader of Dong Hua Sacred Sect, Nie Wushuang, were average in her eyes.

However, that demon-like Dragon King had truly surprised and shocked her.

Upon hearing this name, she was a little doubtful.

The Sect Leader of the Sacred Followers Guild beside her was equally surprised and doubtful.

"That's right. It was refined by the Dragon King!"

Piao Lingxue nodded her head plainly before continuing, "However, he's just a blacksmith master. He probably couldn't refine Level 12 spiritual equipment!"

"Dragon King?"

Several supreme talents of Yong Chang Immortal Sect and Immortal Slaying Sect exclaimed with curiosity. Over the recent period, they had been focusing on preparing for the grand contest and had not paid attention to other matters.

"He can refine Level 12 spiritual equipment now! He's a blacksmith grand master!" said Ao Shuwen with a tinge of fear and respect.

That's a grandmaster!

Over the recent period, the dozen-odd forces had been monitoring the Dragon King through various methods.

The moment he could refine Level 7 elixir pills and Level 12 spiritual equipment, they knew about it.

The greater the strength the Dragon King displayed, the more horrified they were.

They also knew about Roving Sword visiting the Dragon King a few days ago.

"What? Grandmaster?"

The crowd of supreme talents were taken aback as they revealed expressions of shock.

Ao Shuwen nodded his head, looked at Jin Jian and said, "His spiritual sword was forged by the Dragon King!"

"Dragon King? Grandmaster?"

Jin Jian looked bitter and a tinge of ruthlessness flashed across his eyes.

Ao Shuwen was secretly exhilarated. He knew that Jin Jian was a petty person who would definitely deal with those who went against him. As long as he could give the Dragon King some issues, Ao Shuwen wouldn't let the opportunity slipped!

"Who would have expected that another grandmaster would appear in Yong Chang world?"

The handsome young man with long hair, Ge Wen, was surprised.

"Senior brother Hong probably referred to him when he talked about the one who would be first in the rankings of young disciples!" Ao Shuwen glanced at Ge Wen, smirked and added.

"Oh? Hong Tianda, is he the one you are talking about?" Before Hong Tianda

said a word, Ge Wen squinted his eyes and asked him.

"Yeah. You wouldn't be a match for him!" said Hong Tianda boldly and frankly.

"Hehe! Is that so? In that case. I would like to meet him if there's an opportunity!" replied Ge Wen coldly.

Hong Tianda didn't respond and simply sat there.

Seeing this, Ao Shuwen was pleasantly surprised.

"Junior sister Huo, it's our battle next. Do you still want to compete?"

"It's not necessary. I admit my defeat. Let's bring on the battle between Senior brother Hong and Roving Sword from Immortal Slaying Sect!"

"Haha! Hong Tianda, I'll defeat you easily in our upcoming battle. The title of the strongest disciple of the three Immortal Sects will definitely be mine!"

The contest continued.

After half an hour, the match between the strongest disciple of Da Hong Immortal Sect, Hong Tianda, and Roving Sword of Immortal Slaying Sect started.

Just as everyone thought that Hong Tianda would emerge victoriously, Roving Sword from Immortal Slaying Sect won once again.

This shocked everyone, including all the supreme talents.

"Senior brother Hong was defeated by Roving Sword! What a huge upset!"

"This is really shocking. Roving Sword defeated Senior brother Hong Tianda! It would seem that he has the strength to win it all!"

"He's the greatest dark horse for this contest. However, it would likely be impossible for him to defeat Senior brother Ge Wen!"

"Senior brother Ge Wen is a level stronger than Senior brother Hong. He should be able to defeat Roving Sword!"

Around the arena, several tens of thousands of disciples were discussing fervently. Roving sword making it to the finals had exceeded the expectation of all the disciples.

However, none of these disciples felt that Roving Sword would be able to defeat Ge Wen.

Ge Wen was the strongest disciple of Yong Chang Immortal Sect. He was incredibly strong and had Heavenly Flame, a set of spiritual equipment and strength that triumphed over his peers and other supreme talents.

"Roving Sword making it to the finals was indeed unexpected. However, he's still lacking the strength to defeat Ge Wen!"

An Elder on the mountain peak, where all Elders had gathered, commented plainly.

"Elder Wang, once their contest is over, head to the arena. At that time, the sect will announce the name list to enter Yong Chang Cauldron." the Great Elder looked at Wang Xian and remarked.

Mmm!

Wang Xian nodded his head. He looked around him and smirked. No one here could defeat Roving Sword!

At this very moment, on the small mountain peak where the Elders of Immortal Slaying Sect were standing, the Elders' eyebrows were knitted together and their eyes were fixed on Roving Sword.

"He defeated Hong Tianda! Do you guys think he will defeat Ge Wen?"

An old man frowned and asked this with a bitter face.

Although the Sect Leader had given his orders to disallow Roving Sword from entering the Yong Chang Cauldron, Roving Sword had now made it to the finals.

Based on the rules of the grand contest, the top ten would qualify to enter Yong Chang Cauldron.

On the rare chance that Roving Sword was to defeat Ge Wen, he would be the overall champion for this grand contest.

If they were to disallow the strongest disciple of the three Immortal Sects from entering Yong Chang Cauldron, they would find it hard to explain themselves.

Moreover, this wouldn't do any good to the reputation of Immortal Slaying Sect.

Trying to put down their most talented disciple?

What would the disciples of other Immortal Sects think?

"The current situation is having some implications for the reputation of our Immortal Slaying Sect. This... He most likely couldn't defeat Ge Wen from Yong Chang Immortal Sect!"

An Elder standing by the side spoke with a worried frown.

"What if? Why don't we let him give up the match? This would save us from any potential implications!" another Elder hesitated for a moment before suggesting.

"Mm. That will work. At the end of the day, he will definitely have issues with not being able to enter the Yong Chang Cauldron. In that case, let's just be more decisive!"

"What issues could this kid have? He's just liked a machine!"

The Elders of Immortal Slaying Sect made their decisions and informed the referee immediately that Roving Sword from Immortal Slaying Sect had admitted his defeat.

"Admitted defeat? Roving Sword from Immortal Slaying Sect has admitted his defeat? Sigh! I thought we would be getting a thrilling contest. Who would have expected him to admit defeat?"

"It seems like Roving Sword knows where he stands. He probably has chosen to admit his defeat after learning how strong Senior brother Ge Wen is!"

"Indeed, Senior brother Ge Wen is undoubtedly the strongest disciple in the younger generation!"

When the hundreds of thousands of disciples around heard the news of Roving Sword admitting his defeat, they frowned initially and soon broke out into raucous discussion.

When Wang Xian heard the news, he was astonished.

Roving Sword admitted his defeat?

Roving Sword had told him that he was going to take first place. Since Roving Sword had promised him, Roving Sword would definitely ensure that it came to fruition.

"Roving Sword, you won't have to fight the last match. We have admitted defeat on your behalf!"

Just as Roving Sword was frowning and feeling puzzled about the news, he heard the Great Elder of Immortal Slaying Sect.

He was taken aback. His expression turned solemn but he didn't say a word.

# Chapter 611: He Is The Dragon King

## (2)

"This ends our Grand Disciple Tournament of Yong Chang Immortal Sect. Disciples in the top thirty, please make your way up Talent Peak!"

"Default disciples within the three major Immortal Sects to enter the Yong Chang Cauldron, please make your way up Talent Peak!"

The voice of the referee echoed within an area with a radius of more than a dozen kilometers as he remained on the sparring stage, once all the placings had been finalized.

All the disciples heard the announcement loud and clear.

"Disciples in the top thirty...they are the thirty strongest disciples within all of Yong Chang. How I envy them!"

"It's all glory and achievement for these thirty most outstanding ones within the entire Yong Chang!"

"The top 10 are qualified to enter the Yong Chang Cauldron. This is a massive resource we're talking about. In addition, there're three default disciples appointed within the three Immortal Sects. I wonder who they are!"

"The default disciple within the Yong Chang Immortal Sect is Junior Sister Xiaoxiao, without a doubt. As for Immortal Slaying Sect, it should be Lu Qianfeng. At the mere age of twenty, he already possesses Dan Realm prowess. Such an incredible natural gift. Rumor has it that he's the default disciple!"

"While the one for Da Hong Immortal Sect remains unknown."

The discussion began to fire up amongst the crowd which was made up of hundreds of thousands of disciples. The entire area was sent into utter chaos.

"Let's go!"

"Congrats, Senior Brother Ge Wen. To think that Roving Sword still knows his limits. In knowing that he is no match for you, he chose to concede defeat immediately!"

"Haha, as I said, Senior Brother Ge Wen will definitely emerge as the top in this tournament as the Lead Disciple of the three major Immortal Sects!"

Several disciples congratulated Ge Wen as they stood atop the summit where all the outstanding young heroes had gathered.

"Haha, I intended to spar against that Roving Sword. Little did I expect him to throw in the towel. He sure knows his limits, haha!"

Ge Wen roared with laughter with his head held high. He was wearing gloves the color of crimson while holding onto the Flaming Spear.

There he was, as though he was the Flaming God of War.

With a face full of self-conceit, he scanned his surroundings while revealing a faint smile.

He would emerge as the Lead Disciple of the three major Immortal Sects after today, which was an unparalleled honor.

"Let's go, Grand Senior Brother!"

One of the disciples gestured with a smile. In one swift shuffle, he leaped onto a long sword and flew towards another summit which stood beside the current sparring stage.

"Let's go!"

The crowd of outstanding young heroes flew off. In an instant, their movement attracted the stares of the hundreds of thousands of disciples as they looked at the group with the utmost envy and respect.

"Be on your way now, Xiaoxiao!"

The Guild Leader of the Sacred Followers Guild laughed as he spoke when he saw that the former had yet to take her leave as they remained on the summit.

"Father, you said you had a set of Spiritual Equipment and armor refined for me. I'm going to put them on today, haha!"

Xiaoxiao grinned from ear to ear before flying in another direction.

"Elder Wang, please get going!" the Great Elder said to Wang Xian with a smile, as the duo stood atop the elders' summit that belonged to Da Hong Immortal Sect.

"Alright, Elders. I'll head over then!" Wang Xian replied pleasantly. With a change of stance, he took off in the direction of the mountain which stood at the center.

"Haha!"

Several elders from Da Hong Immortal Sect watched from behind Wang Xian with a tinge of envy.

That said, one of the elders frowned as he watched Wang Xian making his way over. He looked on with an even darker expression.

Whizz!

"Dragon King!"

As Wang Xian flew over to the centermost mountain, he was greeted by the voice of Roving Sword.

"Eh? Roving Sword, why did you concede defeat at the last minute?" Wang Xian asked in utter confusion as he looked at Roving Sword with furrowed brows.

"It's the several Elders from Immortal Slaying Sect. They threw in the towel directly, and only informed me after conceding defeat!" Roving Sword replied emotionlessly.

"They got you to concede defeat?"

Wang Xian was taken by surprise. To which, he continued, "It's alright, so long as you can make it into the Yong Chang Cauldron!"

"Yes, Dragon King!"

Roving Sword nodded in response.

As the two shifted, they arrived at the peak of the centermost mountain.

As they stood on the platform of the summit, they could see the hundreds of thousands of disciples at a glance. As the platform was relatively small, the crowd of disciples below could also make out the outline of those atop the platform.

"Congratulations, Senior Brother Ge Wen, for becoming the Lead Disciple of the three major Immortal Sects. The strongest contender amongst all current disciples!"

"Truly deserving of the title, Senior Brother Ge Wen!"

As they reached the stage, Wang Xian could see the crowd who had gathered to extend their best wishes to Ge Wen.

"Haha!"

At the sight, Wang Xian snorted in dismissal as he stood by the side.

"Junior Brother Hong, which is the Dragon King whom you were talking about? The one who made you think he was one we couldn't match up to? Show him to me!"

Just then, Ge Wen spoke in a standoffish tone.

Amongst the disciples of the three major Immortal Sects, one's position would not be based on age, but rather capabilities alone. The one to emerge as the strongest would ascend to become the Senior disciple.

Ge Wen had asked the question indifferently while surveying his surroundings where his gaze eventually landed on Roving Sword and Wang Xian.

"That's right, which of them is it? Is it that young chap beside Roving Sword? That's him? Dragon King of the Da Hong Immortal Sect?"

Another young man spoke with a faint smirk while standing beside Ge Wen as he turned over to look at Wang Xian as well.

The stage was relatively small, hence one could see everyone around with a brief glance.

Amongst which, Wang Xian stood out as the only stranger, one whom they had never met before.

"Ge Wen, you are no match for him!" Hong Tianda said to Ge Wen in a flat tone as he watched Ge Wen, locking his brows.

"Oh, is that so? I'll see for myself then. During the matches this time around, Junior Sister Huo conceded defeat at the last minute. While Roving Heavens, who defeated you, had to concede defeat towards me. How upsetting! If possible, I wouldn't mind having someone to practice with!"

Ge Wen rebutted with his head held high while he placed his spear on his back.

The title of the Lead Disciple of the three major Immortal Sects, along with the concession of defeat from Roving Sword, had built up his self-conceit and ego.

But then again, he had the means to.

He smirked as he looked at Wang Xian before making his way over with a smile. "Hi, Junior, I'm Ge Wen. Junior Brother Hong has been speaking highly of you, so I decided to come over and take a look!"

"Oh, hello there!"

Wang Xian nodded briefly as he looked at Ge Wen.

"He said that your prowess is above mine. So I've come to test it out myself and to help Junior Brother Hong correct his mistake," Ge Wen continued. "That I, Ge Wen, am actually the most powerful!"

Ge Wen enunciated every word of his last sentence with extra emphasis while looking at Wang Xian with the utmost dominance.

Meanwhile, the crowd of disciples looked upon the domineering Ge Wen, who

was surging with pride, in complete admiration.

"This should be the dominance expected from the Lead Disciple of the three major Immortal Sects!"

"That's right, Senior Brother Ge Wen's truly formidable. Just based on this thought of his, that he's unrivaled, it's already something which no one can compare to alone!"

"Truly admirable!"

The crowd of disciples from the three Immortal Sects heaved a sigh of envy and self-resignation.

During his last two matches in the Grand Disciple Tournament amongst the three Immortal Sects this time, the opponents proceeded to concede defeat without Senior Brother Ge Wen even having to lift a finger.

For they knew that they were not his match.

And yet, Hong Tianda was now saying that Senior Brother Ge Wen was no match for the Dragon King.

Hence, Ge Wen decided to challenge Wang Xian. Such was the dominance and aura from the strongest contender of the current times!

"If you say you're the most powerful, then so be it!"

Wang Xian replied to Ge Wen flatly. He had intended to leave right after entering the Yong Chang Cauldron this time and wanted no trouble.

He had even less interest in pitting himself against a chap who he could crush as easily as the pinching of his fingers!

"Huh?"

Upon seeing the attitude coming from Wang Xian, Ge Wen frowned. "I never admit to being the most powerful through words, but prove it through action. You can test it out yourself if you are unconvinced, junior!"

Thereafter, he continued indifferently. "And let us see for ourselves what prowess you possess, which gave you the right to be appointed as the default disciple by the Da Hong Immortal Sect to enter the Yong Chang Cauldron!"

The crowd laughed in jest as they watched the spectacle while eyeing Wang Xian with the utmost curiosity.

"Just you alone have no right to challenge the Dragon King!" Roving Sword retorted coldly upon seeing how snobbish Ge Wen was while speaking to his beloved Dragon King.

# Chapter 612: He Is The Dragon King

## (3)

"You? You aren't qualified to challenge the Dragon King!"

A cold and emotionless voice came from Roving Sword, shocking the crowd on the platform.

Ge Wen was stunned too. He squinted his eyes and turned to face Roving Sword emotionlessly.

"For a guy who didn't even have the guts to face me in battle, what right do you have to speak before me!?" Ge Wen stared at Roving Sword and chided him harshly.

"Roving Sword, watch your words! Qualified? Tsk! What qualifications are needed? The predetermined slots will only be given to young disciples who showed promise, but not so for an expert. An expert wouldn't require this predetermined slot!"

Just as Ge Wen completed his words, Jin Jian stared at Wang Xian and mocked harshly.

"Senior brother Jin is right. The predetermined slots wouldn't be for experts but for promising disciples."

Another supreme talent disciple seconded this. He looked at Roving Sword with contempt before continuing. "Moreover, a guy who didn't even dare to face Senior brother Ge Wen isn't qualified to say this! How ignorant!"

Seeing how the situation had developed, Piao Lingxue and Hong Tianda frowned slightly.

They had not expected Roving Sword to speak up for the Dragon King. Moreover, his words weren't rational at all.

On the other end, Ao Shuwen was pleasantly surprised and watched how things had developed with a smirk.

"Scram!"

However, to the astonishment of everyone, Roving Sword's cold and emotionless voice resounded once again.

His response of "scram" instantly dampened the atmosphere.

"Roving Sword, you better watch your words! For a guy who isn't even qualified to enter the Yong Chang Cauldron, how could you even be so arrogant!" Jin Jian, who bore a grudge against Roving Sword, remarked harshly.

"Huh? He isn't qualified?"

What Jin Jian had said aroused the suspicions of the supreme talents around.

"That's right! You guys will know in a while. A person who doesn't respect his mentors and doesn't know how to interact with others won't be qualified to enter Yong Chang Cauldron!" Jin Jian remarked with ridicule while smirking over the treatment of Roving Sword.

"The Immortal Slaying Sect is right with this decision!" Ge Wen stared plainly at Roving Sword while commenting.

"Not qualified?" Wang Xian frowned slightly.

Roving Sword isn't qualified to enter the Yong Chang Cauldron?

He is the runner-up for the grand contest. Why wouldn't he be qualified?

Admitting defeat on his behalf and barring him from entering Yong Chang Cauldron subsequently? It seems like the higher management of the Immortal Slaying Sect isn't pleased with Roving Sword!

Wang Xian raised an eyebrow and looked at Ge Wen with a sense of superiority. With an emotionless tone, he said, "Just scram when we ask you to scram!"

"You guys must be courting your own deaths!"

When Wang Xian asked him to scram again, anger flashed in the eyes of Ge Wen.

As the strongest disciple of the three Immortal Sects and the number one disciple for the grand contest, he had already become unhappy when Hong Tianda questioned the legitimacy of his status.

Now, he was offended consecutively. Anger welled up within him and he grabbed the long spear behind his back.

Wang Xian didn't say a word and only looked at Roving Sword simply.

"You are the one who's courting your own death, trash!"

Dang!

Roving Sword naturally understood what Wang Xian intended. The next instant, he drew the spiritual sword from his scabbard.

"Great, great... A piece of trash who didn't even have the guts to fight against me is challenging me now. In that case, I'll show you my real strength and send you rolling off the platform!"

Seeing Roving Sword draw his sword, Ge Wen was as cold as ice. Killing intent flashed across his eyes.

"Dustless Sword!"

Without batting an eye, Roving Sword attacked with the longsword in his hand with unbelievable speed.

Ge Wen was astonished at the speed of Roving Sword. Flames over a hundred meters in size were emitted from his body like a godly fire spear.

"Shit! Move back!"

The sudden attack of Roving Sword and the release of aura by Ge Wen shocked the group of supreme talents as they retreated to the side instantly.

"F\*ck! What's happening!"

"What's happening? Why are there sudden explosions of terrifying aura from the platform above the peak?"

"Shit! Roving Sword is fighting with Senior brother Ge Wen. Why did they start fighting so suddenly?"

"This... This... What's happening. Roving Sword didn't admit his defeat willingly? Why would he start a fight now if he felt that he isn't a match for Senior brother Ge Wen previously?"

The hundreds of thousands of disciples around were shocked to see a battle erupting on the platform above.

Why would there be a fight suddenly?

Even the Elders from the three Immortal Sects were astonished by what they were seeing.

"You alone aren't sufficient to be arrogant before the Dragon King!"

Roving Sword was unmoved in the face of Ge Wen, who was shrouded in flames that reached over a hundred meters.

He swung the long sword in his hand and terrifying metal attribute energy coalesced into a thousand-meter-long longsword which slashed ahead.

"What? How could he be capable of such a terrifying attack!?"

Ge Wen felt fear upon seeing the heart-wrenching energy within the strike which Roving Sword had launched casually.

"Flaming Cage Bell!" he shouted loudly. The next instant, the flames around him turned golden and formed a dazzling huge bell around him.

The huge bell around him looked extremely tough and thick.

Boom!

"What!"

However, the terrifying energy of the longsword instantly split the bell the

moment it collided with it!

"What gives you the guts to even be arrogant!"

Roving Sword moved and appeared before Ge Wen the next instant. Without holding back at all, he lunged forward with the longsword in his hand.

Boom!

Terrifying sword glow fell on Ge Wen as fear beamed in his eyes.

Boom!

From a height of a thousand meters, Ge Wen fell towards the ground at an astonishing speed. The moment he crashed into the ground, a terrifying explosion reverberated across.

"Cough, cough! NO... This isn't possible!"

Ge Wen spat out a huge mouthful of blood. Looking at the protecting spiritual gear on him, his eyes were filled with disbelief, fear and surprise!

"If the Elders had not admitted my defeat to the referee without informing me, do you think a piece of trash like you would be able to get the first ranking?"

At this moment, Roving Sword's emotionless voice reverberated throughout the crowd.

The entire fight had lasted for at most five seconds from the start to the end.

Before all the disciples around could react to it, Ge Wen was defeated!

Moreover, his defeat was sealed in two moves. Just two moves!

This made many people unable to believe what they were seeing.

Moreover, Senior brother Ge Wen had still been the champion of the grand contest moments ago. He was the strongest disciple of the three Immortal Sects and the entire younger generation.

Yet, he was defeated in such a short time without being able to put up any

resistance.

The contrast was simply too huge!

The group of supreme talents in the air stared at Senior brother Ge Wen with disbelief and shock.

"How can this be possible...? How could he be so strong?"

"Roving Sword said moments ago that it was the Elders from Immortal Slaying Sect that admitted his defeat. In other words, it wasn't his own decision!"

"Defeating Senior brother Ge Wen in two strikes! Has he reached the Half-step to Immortal Realm?"

The group of supreme talents were shaken and couldn't help but swallow their saliva in awe.

As for the hundreds of thousands of disciples from the three Immortal Sects, they felt as if their world was being thrown into disarray!

# Chapter 613: He Is The Dragon King

## (4)

"How's this possible? How could this be? How can he be that powerful!?"

"This is madness. It's insane. The stances weren't even this forceful during the spar between Roving Sword and Senior Brother Hong Tianda. Now how did it ..."

"Just earlier, Senior Brother Roving Sword had said that the Elder from Immortal Slaying Sect had been the one to concede defeat personally by gesturing to the referee. Why would he do that?"

"Two moves. All it took was two mere moves to defeat Senior Brother Ge Wen. It was really formidable!"

"The gap is too huge. To think that Senior Brother Ge Wen, the Invincible one of the Young Generation, has been defeated so easily. This... This..."

The surrounding hundreds of thousands of disciples uttered as they gulped in disbelief, watching Senior Brother Ge Wen. He was slowly picking himself up from the ground while recovering from a state of being a mess.

This was the number one Senior Brother Ge Wen, Champion of a Grand Tournament!

To think that he could not even withstand two moves!

Just how powerful was the prowess of Roving Sword?

"This fellow...!"

Meanwhile, the Elders from the Immortal Slaying Sect muttered as their group of more than a dozen watched from atop the summit they were at. They all looked on with darkened and awful expressions.

But while they were fuming in fury, they were also overwhelmed by shock and

trepidation at the same time.

"Don't tell me he... he made some breakthroughs in his swordsmanship?"

"How could this be. How long has it been? To think his prowess has developed this much. He's one wicked talent!"

"Given his Spiritual Equipment and armor, along with his prowess, Ge Wen is already considered to be at the apex of the Budding Realm. And yet, he's been defeated in two moves. Don't tell me Roving Sword's prowess has already ascended to Half-Step to Immortal Realm!"

"That's possible. It appears that he is very likely to reach the Immortal Realm, even if he doesn't enter the Yong Chang Cauldron!"

The group of Elders from the Immortal Slaying Sect spoke as they eyed Roving Sword with the utmost shock and caution.

After all, the prowess which the latter displayed had sent them into alarm and frenzy.

"Wow, if he still isn't allowed into the Yong Chang Cauldron given his current prowess, then..." the Elder from the Immortal Slaying Sect murmured with a contorted look. The Immortal Slaying Sect had really embarrassed themselves this time around.

The approach of Roving Sword was also no doubt a tight slap to the Immortal Slaying Sect.

"Dragon King!" Roving Sword called out. He was checking on Ge Wen, who was located beneath, before arriving by Wang Xian's side.

"Oh!"

Without saying a word, Wang Xian nodded in response as he stood atop the summit, expressionless.

To which, Roving Sword also remained silent as he stood behind Wang Xian on his diagonal right.

Wang Xian had his reasons for mobilizing Roving Sword and allowing him to defeat Ge Wen.

The Immortal Slaying Sect had forbidden Roving Sword from entering the Yong Chang Cauldron which was somewhat against the rules of the Grand Tournament. Yet, he had no means of intervention given that this was the decision made by the Immortal Slaying Sect.

In that case, he might as well allow Roving Sword to defeat Ge Wen. With even the champion of the Grand Tournament of the three major Immortal Sects being unable to make it into the Yong Chang Cauldron, it would no doubt place the Immortal Slaying Sect in a difficult position.

Perhaps then, through this method, the Immortal Slaying Sect would allow Roving Sword into the Yong Chang Cauldron.

"Tsk, Roving Sword seems to be on rather amicable terms with this Dragon King!"

Just then, the crowd of outstanding young heroes who had been suspended in mid-air took in one deep breath as they eyed Wang Xian and Roving Sword who were on stage with glistening eyes.

"This Roving Sword seems to be very obedient towards the Dragon King's words. Have you all noticed that he's been standing one step behind the Dragon King throughout these proceedings while paying him due respect!"

One of the outstanding young heroes looked on at the duo with utter shock, as they remained on stage.

As of now, the only ones remaining on the stage of the summit were Roving Sword and Wang Xian. As they stood, they gave off a special vibe to the rest who were watching.

It was an attitude as though they were invincible.

It was an attitude as though they had the world at their feet.

"His prowess?"

Jin Jian and Ao Shuwen questioned this with awful expressions as they eyed the duo that was on stage.

"Seems like Roving Sword is no match for the Dragon King which explains why he's so respectful towards him!"

Hong Tianda finally managed a comment after gasping in a deep breath. At the same time, the crowd of outstanding young heroes who were suspended in mid-air remained silent for a long while.

"What?"

All the outstanding young heroes were stunned by the sentence from Hong Tianda as they turned their heads in utter shock.

"How's that possible? I reckon, with Roving Sword's prowess, even the Elders from our Immortal Sects would be no match for him. How can that Dragon King be even stronger than Roving Sword then!?"

Ao Shuwen rebutted immediately while his face darkened.

"In my opinion, Roving Sword would be able to handle at least five to six Budding Realm experts single-handedly. So how can that Dragon King be even stronger than him!?"

"Don't tell me their prowess has reached Half-step to Immortality?" another young hero questioned with a low growl.

"He ever defeated me in one move!" Hong Tianda replied coolly as he watched Wang Xian with shifting eyes.

"What...defeated you, Senior Brother Hong, in one move!"

All the young heroes gasped once again. As they did, they spun their heads about and fixed their gazes upon Wang Xian.

"Roving Sword was able to defeat Senior Brother Ge Wen using two moves while the Dragon King was able to take Senior Brother Hong down in one. Hah, hah, they, they..." The young heroes had their tongues tied as they gazed at the duo on the stage.

The hundreds of thousands of disciples who remained beneath also had their eyes on the duo who remained on stage.

"Why aren't the other Seniors getting up on the summit stage?" some of the disciples muttered under their breath as they watched in confusion.

"Let's go!"

After another round of silence which lasted under a minute, Hong Tianda shifted his stance before leaping gently onto the summit stage. He stood to the side while sweeping his gaze across the duo.

Piao Lingxue looked at Wang Xian and still did not walk over to him after some brief contemplation.

She felt as though the other party and herself were beings from two different worlds!

"If what Hong Tianda says is true. Perhaps then, under some preemptive calculation, the Dragon King and Roving Sword pair are enough to kill fifteen experts of the Budding Realm!"

Ao Shuwen managed this with a burdened look while his eyes watered.

"Dear Outstanding Young Heroes, please stand along the aisle. Sect Leader Hong Yan will soon present you with your awards!"

Just then, the voice of an elder from the Yong Chang Immortal Sect could be heard.

The various disciples made their way to the fringe of the stage. After having just recovered from their excitement, their eyes were stirring with emotions.

To each and every one of the disciples, it was an immense honor to be able to have the Grand Immortal grace the event in person.

"Will the Immortal appear?" Wang Xian asked in mild surprise, but recovered his composure soon after.

For he feared no Immortal right now!

Shoom!

Just then, a commotion was stirring from beneath.

"Huh? It's Junior Sister Xiaoxiao!"

"It's Junior Sister Xiaoxiao. The attire on her though, looks so... so scary!"

"Such a powerful surge of flames from this attire. It's covered in Level 12 Spiritual Equipment from top to bottom!" the crowd of outstanding young heroes said as they looked down. Upon seeing Xiaoxiao, who was emitting Holy Flames while she flapped her Flaming Wings, the youths peered at her in envy.

Xiaoxiao was decked in Spiritual Equipment from head to toe, from her earrings, necklace, bangles, shoes, clothes, and wings.

"I reckon it's the Spiritual Equipment which His Excellency Huolong has made for Junior Sister Xiaoxiao!"

The crowd of youths muttered to themselves while green with envy.

"Dear Senior Brothers and Sisters, I'm here!" Xiaoxiao said in elation as she smiled while glancing over to the crowd who stood on the summit stage.

"Come over quick, Xiaoxiao!"

"Come on up, Junior Sister!"

The group of youths gestured to Xiaoxiao with big smiles.

Smiling, she nodded in response before flapping her wings in resemblance to a beautiful and adorable Flaming Angel.

Turning their heads to look up at her, the hundreds of thousands of disciples underneath looked on in complete awe.

Some of the male disciples even uttered to themselves, saying that the one who marries her would be able to have it easy for the rest of their life!

# Chapter 614: Wait While I Kill Them

## (1)

Hehe!

Feeling the gazes from hundreds of thousands of people, Xiaoxiao felt a little shy as she flapped her wings and moved towards the platform on the peak.

However, she was completely dumbfounded when she was approaching the platform and saw a familiar figure.

It's her? I had not expected her to be from Da Hong Immortal Sect!

However, Wang Xian frowned and clearly wasn't very excited upon seeing the young girl.

He had seen the young girl previously. She was a disciple of the Sect Leader of the Sacred Followers Guild.

"He... Why would it be him...? This...?"

Xiaoxiao was dumbfounded at this moment. She stared blankly at Wang Xian and mumbled, "Dragon King! Why is he...? It's really him...!"

"Xiaoxiao, come to my side!" At this moment, a girl on the platform signaled to her.

She flew mechanically towards the platform while her gaze was still locked tightly on Wang Xian.

"Xiaoxiao, what are you looking at?" When the girl on the platform saw the blank look on Xiaoxiao, she asked this curiously.

"Dragon King! He is the Dragon King! What a surprise! Really unexpected!" Xiaoxiao shouted abruptly.

Her eyes widened and stared at Wang Xian with disbelief.

Huh?

Her sudden actions drew the attention of the remaining supreme talents on the stage as they looked over inquisitively.

"What's the matter, Xiaoxiao?"

The girl placed her arms on Xiaoxiao's shoulders and asked.

"Mm. We meet again!"

Wang Xian turned around, looked at Xiaoxiao and revealed a faint smile.

Xiaoxiao's expression changed and she started observing Wang Xian from top to bottom while ignoring the girl beside her. With a surprised look, she remarked, "I had not expected you to be still alive!"

Wang Xian smiled and said with confidence, "Who could possibly kill me?"

"Xiaoxiao, do you know the Dragon King from Da Hong Immortal Sect?"

Seeing that Xiaoxiao was ignoring her, the girl beside Xiaoxiao frowned and asked again.

Around them, the supreme talents watched curiously.

"Dragon King from Da Hong Immortal Sect?"

Xiaoxiao stared at the Dragon King and said with her eyes shimmering, "He isn't the Dragon King from Da Hong Immortal Sect!"

Huh?

The other girl and the surrounding supreme talents were astonished.

Wang Xian looked plainly at her and didn't attempt to stop her. He knew that he wouldn't be able to do so.

"He's the Dragon King from the Dragon Sect. The Dragon King from Dragon Sect of the real world!" Xiaoxiao stared intensely at Wang Xian as she increased her volume.

"What?"

The surrounding supreme talents were stunned and surprised.

"In the real world, the Dragon King from the Underworld established the Dragon Sect at the age of twenty. With the forces of his Dragon Sect, he triumphed over the strongest expert of the alliance of the orthodox sects, Nie Wushuang, and Emperor Qi from Diabolism. In the battle at the peak of Huashan, he broke the defensive spirit array of Yong Chang world and entered our world. I thought he would be killed by the attacks of the spirit array but he survived unexpectedly." Xiaoxiao added this emotionally. Her face was flushed and a myriad of emotions filled her eyes.

She was shocked but also respected Wang Xian!

"What? Dragon King from the real world?" Ge Wen exclaimed with astonishment as he flew up.

The surrounding supreme talents were equally astonished. "Junior sister Xiaoxiao, you are saying he's from the real world? This... This... How did he get into our Yong Chang world!"

"It's definitely him. I'm certain that I didn't mistake him for someone else. It is him! Are you the Dragon King from the Dragon Sect?" Xiaoxiao pointed at Wang Xian and asked loudly.

The edge of Wang Xian's lips curved upwards as he replied, "I'm the Dragon King of Dragon Sect from the real world. Nice to meet everyone!"

I'm the Dragon King of Dragon Sect from the real world. Nice to meet everyone!

Upon hearing Wang Xian, the eyes of the surrounding supreme talents widened in disbelief.

All of them turned around and stared at Wang Xian vigilantly.

"He's from the real world? Who would have expected you to be from the real world!"

The supreme talents growled with astonishment while their eyes widened.

The outside world and an outsider!

"You are from the real world! What are you plotting? To infiltrate our Immortal Sects?"

Ao Shuwen's expression changed and he shouted loudly!

His voice reverberated across tens of kilometers. All the disciples around could hear him clearly.

"What's the situation? What's happening? An outsider from the real world?"

Seeing the sudden changes happening on the stage on the peak, the surrounding hundreds of thousands of disciples were dumbfounded.

Everyone stood up, while feeling a little confused, and stared fervently at the platform.

"I got to this place by accident and it's only natural for me to want to make a name for myself here!"

Wang Xian smiled faintly and turned to Xiaoxiao. "Hey girl, you have disrupted my plan!"

"A man from the real world! What are your intentions for joining our three Immortal Sects and entering the Yong Chang world?"

Ao Shuwen stared at Wang Xian while shouting again. His voice reverberated across the area with a radius of several tens of kilometers once again.

This time, everyone in the vicinity had their doubts confirmed.

"A man from the real world? Senior brother Ao Shuwen is saying that the Dragon King is from the real world!"

"Really? The Dragon King from Da Hong Immortal Sect is from the real world?"

Exclamations could be heard from below and the surrounding disciples were shocked.

The Elders from the three Immortal Sects flew towards the platform on the peak instantly.

"Elder Wang is from the real world?"

The Great Elder of Da Hong Immortal Sect instantly questioned this harshly.

Rumble!

Several Elders surrounded the platform in the peak completely. Their eyes were all fixed on Wang Xian!

Wang Xian looked at the fifty to sixty Budding Realm experts around him. Gradually, a smirk appeared on his face. He clasped his right fist with his left palm and said plainly, "Dragon King from the Dragon Sect of the Underworld. Nice to meet everyone!"

"He's really from the real world!"

Disbelief beamed in the eyes of the Great Elder of Da Hong Immortal Sect.

The Dragon King was actually from the real world! A genius like him... A demon-like talent like him was from the world that was experiencing the Age of Dharma Decline?

This was unbelievable for them.

How could such a demon-like talent exist in the real world?

"You definitely have ill intentions for joining our Da Hong Immortal Sect. Speak! What are your intentions?"

An Elder from Da Hong Immortal Sect questioned Wang Xian harshly.

"Regardless, his intentions wouldn't be kind. Let's just kill him! Kill him!"

Ao Shuwen seconded this loudly. Dense killing intent was beaming in his eyes.

"That's right. Cripple his cultivation and interrogate him about his sinister plot!"

Several Elders from Yong Chang Immortal Sect remarked harshly as

ruthlessness flashed across their eyes.

"Just kill him!" an Elder from Immortal Slaying Sect shouted.

With the crowd cheering for the killing of the Dragon King, the Elders from the three Immortal Sects felt compelled to take action but were hesitant as they stared at him.

"Feng Family, Ao Family, Dong Family, Liang Family... Hehe! It seems like the warning I sent out to you guys for trying to assassinate me wasn't sufficient!"

Wang Xian looked across the Elders that spoke and ruthlessness flashed in his eyes.

# Chapter 615: Wait While I Kill Them

## (2)

"Hur?"

Those elders who wanted to speak had a drastic change in their expressions upon hearing what Wang Xian said.

"It's you! It's indeed you! Elder Liang, Elder Tong, and Attendant Ao were killed by you!" an elder bellowed with a darkened expression as he stared at Wang Xian with murderous eyes.

"Hehe, since they dared to try to assassinate me, they should have been prepared to meet their doom!" Wang Xian said with his icy eyes.

"Hur?"

All the surrounding elders were startled as they focused their attention on the several elders who had spoken just now.

"Those fifteen Budding Realm experts of Yong Chang City half a month ago were killed by Dragon King?"

An elder with fiery-red hair in the center questioned Wang Xian with flickering radiance in his eyes.

"Half a month ago, fifteen people sieged the surrounding region near my shop with an array in an attempt to kill me. Of course, I wouldn't let them live. I guess I have infringed on some people's interests."

Wang Xian swept his gaze across several elders plainly with a faint smile on his face.

"We discovered something was wrong with you during our night investigation and got killed by you. Today, we'll avenge them!"

That elder of Da Hong Immortal Sect remained unwavering as he spoke, fixing

death stares on Wang Xian.

In the past, they did not dare to spill the beans openly. Knowing that the Dragon King was an outsider, it put them completely at ease now.

No matter how that outsider tried to explain himself, it would never win against their claims.

"After all, he came from the outside world. Let's just keep him under control now!" an elder said coldly.

"Yes, that goes without saying. We should capture him first!" an elder echoed.

The rest of the elders nodded in agreement. No matter what, they had to control him first since he was from the real world.

"Let's cripple him and his cultivation to prevent troubles!"

A glimmer of excitement flashed in Ao Shuwen's eyes with a ferocious look surfacing on his face.

With a swift move, he darted to Wang Xian for a strike.

"Cripple him!"

Just as Ao Shuwen struck, another four people lurched at Wang Xian immediately.

Upon witnessing the scene, Xiaoxiao was slightly stunned. Her expression sank while she kept her silence.

"Sigh, I came to this place quietly, and I wanted to leave quietly too. You guys wanted to court your doom!"

Seeing the quintet was prepared to cripple him, coldness twinkled in Wang Xian's eyes.

"Kill them!"

When Wang Xian's emotionless voice resounded, he had already charged toward the quintet who was approaching five meters away.

Wow!

A crisp sound was heard as a golden radiance flashed, revealing five malevolent people.

"Dragon King, hehe, go to hell!"

The excitement and malevolent expression filled the face of Ao Shuwen as he pointed the longsword at Wang Xian.

The other four wore cold faces. Not only had the Dragon King caused a massive loss to them, but he had also killed one top-notch expert from their clan.

This feud was implacable!

Now that they had this opportunity, they would not let him off!

"How is this possible!?"

At this point in time, a supreme talent behind the quintet suddenly showed fright in his eyes.

"What?"

When the quintet exploded their daunting aura, they were stunned when they heard a voice behind them. Subsequently, they felt their energy dissipating at a terrifying speed.

"Traceless Sword!"

Roving Sword stood before Wang Xian and withdrew his sword after spitting out the words.

"Ah, no!"

The five of them felt their energy dissipating within their bodies as they looked down in trepidation.

They felt panic as they let out despair shrieks.

Half of their bodies were slowly collapsing onto the ground.

One sword move had divided them into two.

Sensing their vitality diminishing at a rapid speed, the quintet lost all hope.

"It's him. He's the subordinate of Dragon King. I didn't expect it to be him. He's still alive!"

Xiaoxiao watched this scene and quickly spun around with a pale-looking face. She stared at Roving Sword and spoke at the top of her lungs.

"What? Roving Sword is the subordinate of Dragon King?"

"That's right, it's him. He's Dragon King's man, and he came from the real world too!" Xiaoxiao said with a loud voice.

"Go to hell, Roving Sword. You actually came from the real world. To think that Immortal Slaying Sect spent great efforts to cultivate you. You are so cruel. Die!"

"How dare you strike? Take him down. If he dares to resist, kill him!"

Seeing that Roving Sword actually killed four elders and one supreme talent in one go, the three Immortal Sects became nervous as they exclaimed loudly.

Sixty Budding Realm experts immediately erupted their domineering auras from their bodies, locking onto Wang Xian and Roving Sword completely.

"Surrender immediately!"

The Great Elder of Da Hong Immortal Sect stared at Wang Xian with a complicated look as he yelled in a low voice.

"Don't mess with me. Otherwise, I wouldn't mind a killing spree!"

Wang Xian swept his cold gaze across sixty-odd Budding Realm experts as he replied coldly.

"Kill them! How dare he kill the people from Yong Chang world!"

An elder let out a cold bellow directly.

"Strike! Kill!"

Some of the elders acted with no hesitation as they gathered their daunting energy and slashed at both Wang Xian and Roving Sword.

"Retreat!"

Some of the supreme talents on the stage were aghast as they ducked to one side with trepidation.

When all the elders of three Immortal Sects struck together, it brought about a devastating scene.

"Gosh, that Dragon King actually came from the real world, and so did Roving Sword!"

"Roving Sword is so strong that he can kill four elders in one move. Even Ao Shuwen too. He was directly slain. That's too fast!"

"Dragon King was the one who killed those fifteen Budding Realm experts on Yong Chang Tower half a month ago. This is simply insane!"

"They are from the real world, but isn't the real world experiencing the Age of Dharma Decline? How come Dragon King and Roving Sword are so strong? Why?"

Over hundreds of thousands of disciples were shouting with disbelief below.

They witnessed daunting oppression erupted from sixty-odd elders, shrouding the entire area over a span of more than ten kilometers.

"Kill the Dragon King!"

"Let's go and kill him. Damn!"

At this time, all the experts were glowering at Wang Xian with murderous intent from below.

They were the experts from a dozen families.

In a brief moment, more than a dozen Budding Realm experts rose to the sky and

lurched at Wang Xian with an immense amount of killing intent.

Boom!

Dozens of elders struck at the same time in the sky. Daunting inferno, water swords, and metallic swords were looming over Wang Xian.

Instantly, all the domineering energy landed on the stage at the peak.

The entire stage on the peak exploded under the domineering attack. The stage that was a thousand meters tall was utterly destroyed.

"He's dead. I bet he's dead since more than dozens experts struck at the same time. Their power would be sufficient to bring down the sky!"

Back at the bottom, those disciples commented with shocked looks. Their eyes widened when they witnessed such terrifying attacks.

"It was terrifying for the Dragon King, and Roving Sword from the real world, to become the elders of Da Hong Immortal Sect and the most invincible young generation of Yong Chang. A pity that they were too brazen to kill our people!"

"Even though we killed him, the strength of the Dragon King and Roving Sword were good enough to stun us. Their talents were beyond imagination!"

"Good that they're dead. They made our talents pale in comparison within a short period! What a great talent!"

# Chapter 616: Wait While I Kill Them

## (3)

Several hundreds of thousands of disciples mumbled to themselves while staring at the chaotic area.

"Dead! The two of them must be dead by now!"

The group of supreme talents hid themselves a thousand meters above the ground. At this moment, Ge Wen's expression softened a little.

He felt extremely embarrassed after being defeated by Roving Sword in two moves. However, fear gripped him when he saw Roving Sword killing four Elders and Ao Shuwen with a single strike.

He's too strong! What he just displayed was even stronger and more terrifying than when he fought with me!

"Will they die?"

Xiaoxiao stared intensely below her and mumbled, "The Dragon King is just like he was in the real world. Incomparably arrogant with no regard for anyone!"

"That's the real world and we are in Yong Chang World now. There's no need to fear the Dragon King. Even if he's a real dragon, we will subdue him here!"

Jin Jian stared below him and excitement flashed across his eyes.

"That's right! How dare they kill the people from Yong Chang world. They deserve death!"

Ge Wen grinned hideously. Once the Dragon King and Roving Sword were dead, he would still be the strongest supreme talent in Yong Chang world and the strongest disciple of the three Immortal Sects!

Boom!

However, a terrifying golden longsword slashed across from the center of the explosion.

The golden longsword turned darker and extended to a thousand meters as it slashed ahead.

"What? They aren't dead yet? Dodge! Dodge immediately!"

When the surrounding Elders from the three Immortal Sects saw the sudden appearance of the terrifying longsword, they shouted out loud.

"NO!"

However, the golden longsword slashed across in an instant. Next, several Elders fell towards the ground without even having the time to scream out in pain.

"What a terrifying attack. He is at least at the Half-step to Immortal Realm. Kill! Everyone attack him together!"

The Elders of the three Immortal Sects were astonished and shouted loudly.

"I had no intention to kill anyone initially. However, with things as such, let's kill to our hearts' content! Haha! Yong Chang world? So what?"

Wang Xian looked across the Elders who were charging towards him and broke into hysterical laughter.

"Kill!"

Roving Sword, who was standing beside him, moved.

"Dustless;

Soundless;

Breathless;

Shadowless;

Traceless;

Merciless!"

Voices without any emotion reverberated as Roving Sword's longsword slashed across and penetrated the various terrifying attacks approaching him.

That terrifying golden longsword pierced through the bodies of six Elders frighteningly.

"What?"

Without making a sound, the six Elders fell towards the ground.

"What? How can this be possible?"

An Elder shouted in fear as his eyes widened in disbelief.

Six strikes and six Elders had fallen.

"Merciless Swordsmanship! He has made huge improvements in his Merciless Swordsmanship once again!" the Great Elder of Immortal Slaying Sect shouted with a horrified expression.

"Attack them together!"

Within a short period of time, Roving Sword had killed ten Elders. This had instilled fear in the hearts of all the Elders of the three Immortal Sects.

If they allowed him to continue attacking, their group wouldn't be sufficient for Roving Sword to kill.

Moreover, what worried them the most was that the Dragon King hadn't made a move.

If it was just as Xiaoxiao had mentioned, Roving Sword was just a subordinate of the Dragon King.

"This... This..."

The supreme talents could feel their scalps go numb from fear after seeing Roving Sword killing four Elders with a single strike.

This was followed closely by killing another six Elders with six moves of Merciless Swordsmanship.

Moreover, the attacks from their Elders towards the Dragon King were easily stopped by the surrounding water energy.

The strength of the two of them had shaken them to their cores.

If they were to fight Wang Xian and Roving Sword, they would have been killed instantly.

The group of supreme talents couldn't help but retreat further.

"Grand Pyro Technique!"

"Sword Explosion!"

"Merciless Sword!"

Terrifying energies were released from the Elders of the three Immortal Sects. The next instant, terrifying battle techniques with catastrophic might were launched towards Wang Xian and Roving Sword.

One could tell how horrifying the attacks from over fifty Budding Realm experts were easily from how the colors of the sky had changed.

Even the surrounding atmosphere was exploding.

"Sword Alps!"

Seeing the attacks approaching him, Wang Xian smiled faintly and five longswords appeared around him.

Every sword was a piece of Level 12 spiritual equipment.

As the longswords rotated, the illusory image of Sword Alps appeared and shrouded Wang Xian within.

"Sword Break!"

Roving Sword was unmoved by the attacks as he swung the longsword in his

hand.

Several broken swords appeared around him and met the terrifying energy of the approaching attacks.

Boom!

Explosions reverberated across. However, what embarrassed the crowd was that the blinding blue and golden light were still shining dazzlingly.

"Return Sword!" Roving Sword shouted emotionlessly and longswords formed around him.

"Shit! They are too strong! Avoid his longswords!" the Great Elder of the Immortal Slaying Sect shouted!

The expressions on the surrounding Elders changed drastically.

"Two people went against more than sixty Elders and were able to kill eleven. Is this even possible?"

"Oh gosh! The Elders are on the losing end! How can the two of them be so strong?"

"How could two people from the world experiencing the Age of Dharma Decline be so strong?"

Hundreds of thousands of disciples were watching the terrifying battle in the air with shock and fear.

Based on the information gathered by the Yong Chang Immortal Sect, shouldn't the martial artists in the real world be trash?

However, what was happening before them seemed to suggest that the martial artists from the real world were all ferocious and mighty beasts!

"Shit!"

At this instant, they saw Roving Sword slash and attack several Elders with his longsword once again.

Merciless Swordsmanship was considered the strongest sword technique by the Immortal Slaying Sect. Once it was used, there would be experts dying!

"How dare you kill in my Yong Chang! Do you know your sins?"

Ka ka!

Suddenly, a loud and clear voice reverberated from afar.

A blinding ball of fire fell on those longswords directly, disintegrating them!

"Sect Leader Hong Yan!"

"Hong Yan Excellency!"

When the Elders of the three Immortal Sects heard this voice, excitement beamed in their eyes as they greeted respectfully.

Mmm!

A figure appeared before the eyes of everyone as though he had teleported in instantly.

The illusory figure materialized gradually into a middle-aged man wearing a full suit of red armor.

From him, one could sense a warming sensation. He was also emitting a faint glow and personified the holiness of a sun.

He stared at Wang Xian and Roving Sword nonchalantly with spiritual equipment that resembled a sun above his head.

Hong Yan! Immortal Realm expert!

"Sect Leader, these two outsiders killed over ten Elders. Half a month ago, they also killed fifteen Budding Realm experts!"

An Elder from Yong Chang Immortal Sect glowered at Wang Xian with hatred and reported this information.

"Hong Yan Excellency, this man joined our Immortal Slaying Sect with ill

intentions. Can we kindly ask for your help to cleanse the scourge from our Sect?" an Elder from Immortal Slaying Sect bowed immediately and asked.

"Hmm! For killing so many experts from our Yong Chang world, their sins warrant their deaths!"

Hong Yan nodded his head nonchalantly and raised a finger.

# Chapter 617: Wait While I Kill Them

## (4)

"Pyro Cell!"

The voice that seemed to have passed through the void sounded again as Hong Yan stretched out his finger and pointed at Wang Xian and Roving Sword.

Pyro Cell!

The moment his voice was heard, flames that shone like sunlight encircled Wang Xian and Roving Sword immediately.

The flames slowly blended together, forming a three-meter-tall flaming cage.

There were no flames rising from the entire flaming cage as the domineering red and gold fire had already coagulated into a real solid cage.

Pyro Cell!

Sss...

"This is the usual means of an Immortal!"

They saw the Immortal trapping the duo with a cage that suddenly appeared out of nowhere. All the surrounding elders revealed a surprised look.

Two tricky enemies were now easily trapped by the Immortal Excellency.

This was the mightiness of an Immortal, a daunting power!

"Hong Yan Excellency, I propose killing them right away. Since they killed so many of our men, we cannot let them off!"

"Yes, kill them all!"

One by one, the elders exclaimed. They glowered at Wang Xian and Roving

Sword with eyes full of killing intent.

"Someone from the Age of Dharma Decline has actually caused you people to be so passive. All of you should practice hard in the future because Yong Chang is going to descend into the real world!" said Hong Yan nonchalantly to them with a slight dissatisfying tone.

"Yes, Hong Yan Excellency is right!"

The elders hurriedly responded with respect.

"Mm!"

Hong Yan nodded impassively as he looked at Wang Xian and Roving Sword. Without any emotion in his voice, he said, "Great talents. You are the unparalleled talents even in Yong Chang world, but you should not kill people over here! Since you have killed someone over here, bear the consequences now!"

"Hong Yan Excellency is going to strike!"

"Phew, luckily our Sect Leader came here in time. Otherwise, who knows how many lives we were going to lose just to kill them off!"

"The two of them were too wickedly strong. However, our Sect Leader will surely kill them off easily if he strikes!"

Upon hearing the words from Hong Yan Excellency, all the elders were slightly relieved.

"Phew, finally the Dragon King is going to be killed!"

"No matter how demon-like the people from the real world are, they will get sanctioned for being insolent in Yong Chang world!"

"Hong Yan Excellency is simply too strong. A finger of his can kill the Dragon King and Roving Sword!"

Those disciples below who saw this also heaved a sigh of relief.

The scene of Roving Sword killing their elders was too horrifying!

As such, they let out a sigh of relief when the group of supreme talents saw that the Immortal expert was here.

Now, they had developed a fear for Dragon King and Roving Sword.

"Is that so?"

Wang Xian looked at the Hong Yan who overlooked them, ready to sentence them. Wang Xian curved his lips slightly. He was an Immortal, the first one that he had met.

His mouth quirked slightly as he stared at Hong Yan. "I would really like to find out the consequences!"

Wang Xian said as he looked at Roving Sword, "Stop him while I kill a few more people!"

"Yes, Dragon King!"

Roving Sword respectfully nodded.

"You're already the meat on the plate..."

When an elder heard what Wang Xian said, he replied with coldness and disdain.

However, his voice came to an abrupt halt.

In the eyes of many, the Pyro Cell around Wang Xian collapsed straightaway. The one that was trapping Roving Sword also crashed directly.

Blue water energy and a golden metal virtual image appeared around them.

Blue, the sacred color!

Gold, the noble color!

The colors that could compete with the sun slowly rose from their bodies.

"Feng, Ao, Dong, Liang Family. Well, before I go, I'll destroy you guys first!"

Wang Xian startled everyone with his nonchalant voice.

Upon seeing the collapsing Pyro Cell, solemnness swept across the calm-looking face of Hong Yan.

"Stop moving!"

Roving Sword held his longsword up and pointed it at Hong Yan.

It was just a simple action, but what shocked everyone the most was all the long metallic swords in all directions turned to Hong Yan.

Each of the swords contained fearsome energy.

"What's going on?"

An elder could not help but shiver as he stared at Wang Xian and Roving Sword in disbelief.

"Immortal Realm, I didn't expect that you two could advance to the Immortal Realm!"

As soon as Hong Yan spoke, he looked stern. He stole a few glances at the longswords around him, and the sword radiance struck a slight terror in him.

He looked at Wang Xian again, and the blue energy that was similar to sun rays glowing from behind him. The domineering power in it caused his expression to turn dreadful.

"Great Waterfall Water Shockwave!"

Before anyone could react, the horrifying energy burst out from Wang Xian's body immediately.

As a pivot in the center, the daunting water region spread out at a fascinating speed.

Om!

In an instant, the Great Waterfall Water Shockwave shrouded an area with a radius of ten kilometers.

All the people around, including the hundreds of thousands of disciples from the three Immortal Sects were encompassed by the Great Waterfall Water Shockwave!

"No!"

Yet, the one comment that Hong Yan made struck horror in all the elders and disciples from the three Immortal Sects.

As they watched the water region besieging them, fear welled up in their eyes.

"Great Waterfall Water Shockwave! The High-class battle techniques that only those in the Immortal class can release. He's an Immortal!"

"Roving Sword is also an Immortal. He has locked onto Hong Yan Excellency. This..."

Everyone felt like they were being thrown off into a fugue state.

Now that they were amid the water region, only Hong Yan Excellency was holding their ground. Yet, he was being locked onto by the surrounding longswords.

Even the Immortal-class Hong Yan Excellency was locked onto, and dared not act recklessly!

This struck fear into them.

"Great Waterfall Water Shockwave! We're actually within the attack range of an Immortal!"

"Gosh, both of them are Immortals. No wonder they could easily kill the elders."

"Since we're amid the water region of an Immortal, it would be just too easy for him to kill us all!"

When the hundreds of thousands of disciples realized they had entered the water region, their bodies trembled even though the water did not attack them.

But the oppression from an Immortal caused a sense of worship to surge from

within them. Their lives were completely in the hands of the Dragon King.

A Dragon King who had come from the real world was an Immortal-class existence.

Hong Yan peered around as he saw all the disciples from three major Immortal Sects were shrouded by Great Waterfall Water Shockwave. His face grimaced.

"Don't be reckless!" Hong Yan stared at Wang Xian with a sullen look.

"Otherwise, you'll not walk out of Yong Chang!"

"Don't worry. I'll leave after I kill some people. Does the Immortal of Yong Chang world agree with this?"

As Wang Xian scorned, the five longswords beside him began to spin.

He swept his gaze across everyone. "I'm the Dragon King of the Dragon Sect from the real world. Let me give you a piece of advice. When Yong Chang world descends into the real world, keep a low profile and don't offend me!"

"Feng Family, Ao Family, Dong Family, Liang Family... step forward to receive your judgment!"

# Chapter 618: Return (1)

"I'm the Dragon King of the Dragon Sect from the real world. Let me give you a piece of advice. When Yong Chang world descends into the real world, keep a low profile and don't offend me!"

"Feng Family, Ao Family, Dong Family, Liang Family... step forward to receive your judgement!"

Wang Xian's voice reverberated across a radius of ten kilometers as he stared coldly at the people before him.

Rumble!

At the same instant he spoke, a terrifying water shockwave appeared in the sky above the entire water region. That catastrophic energy sent chills down the spines of all disciples and Elders from the three Immortal Sects.

Hong Yan stared harshly at Wang Xian and Roving Sword. However, he was fearful of taking action.

There were several hundreds of thousands of disciples around and most of them had not even reached the Inborn Realm. If he had taken action, their attacks would have caused the deaths of these hundreds of thousands of disciples.

These disciples formed the foundation of Yong Chang world and he was fearful of wrecking it.

Around Wang Xian, everyone was extremely solemn and didn't dare to say a word. They stared at Wang Xian and Roving Sword with fear and trepidation.

"Feng Family, Ao Family, Dong Family, Liang Family... Step forward now!"

Wang Xian's emotionless voice sounded once again. He looked across the crowd and found that no one was responding.

Boom!

Wang Xian waved his arm and the terrifying water shockwave charged towards the Elders of the Immortal Slaying Sect.

"No...!"

The twenty-odd Elders of Immortal Slaying Sect were astonished and immediately fled with horror.

Bam! Bam!

Yet, that unmatched energy still fell on the bodies of five Elders.

Instant total annihilation!

While they were in the region of the terrifying Great Waterfall Water Shockwave, their bodies couldn't withstand terrifying attacks from an Immortal.

"If no one is stepping forward, I'll just have to kill everyone here!"

Wang Xian looked emotionlessly across the crowd and remarked coldly.

"No, no..."

Wang Xian's words had instilled greater fear into the crowd.

Immortal! They were now facing an Immortal!

Moreover, there were two of them! If the two of them wished to kill them, they would be able to do so with just a wave of their hands.

"Those from these families step forward right now. Don't implicate others!"

An Elder from Yong Chang Immortal Sect spoke bitterly and softly.

Looking at the circumstances, it was clear that the Dragon King would want to kill those from these families.

Since they had offended the Immortal, they had to pay the price!

"No... No... Don't kill us! Don't kill us!"

At this moment, those from the Feng Family, Ao Family and ten other forces could feel the gazes from the surrounding crowd. Instantly, desperation filled their faces.

They would have never expected that they would still be killed when Hong Yan Excellency was around.

The members from these ten-odd forces were filled with despair. They had offended an Immortal!

The terrifying Immortal!

Boom!

At this moment, the entire sky was dyed red. This created a stark contrast with the blue water region that spanned ten kilometers.

Above the water region, two figures stood like blinding suns in the air.

"Yao Yang, Eclipse!"

Hong Yan lifted his head and saw the two figures forming in the sky. He instantly shouted.

Two other Immortals from Yong Chang Immortal Sect had appeared.

"Yao Yang Excellency and Eclipse Excellency are here! Two more Immortals are here. We are saved. We are saved! We have three Immortals on our side. The Dragon King and Roving Sword would definitely dare not make a move now!"

"Three Immortals against two. Things are going to get tough for the Dragon King and his subordinate! With other Immortals from our Yong Chang world here, even the Dragon King and Roving Sword will die in this place!"

"The Dragon King and Roving Sword have to die!"

Seeing the appearance of the two Immortals, those from the ten-odd families were beaming with excitement.

The appearance of the two Excellencies would mean that they wouldn't have to

die!

Mmm!

The two of them stood in the sky and stared right at Wang Xian and Roving Sword with solemn expressions.

"Are you the Dragon King? Let's end this here and not push it too far!"

A figure stared at Wang Xian and commented coldly.

"Haha! I'll stop right after I kill those I want to kill!"

Seeing the arrival of the two Immortals, Wang Xian laughed out loud and waved his arm.

Within the Great Waterfall Water Shockwave, terrifying water shockwaves were launched towards various people.

A while ago, he could roughly verify who were from these ten-odd families through the eyes of the rest.

"What? No! No! Yao Yang Excellency! Eclipse Excellency! Save us! Save us....!"

The disciples from these ten-odd families were filled with despair and they cried for help in horror.

When the two figures saw the Dragon King continuing to attack, they frowned and were clearly discontented.

They couldn't stop and wouldn't be able to.

Around them, several hundreds of thousands of disciples watched the development with fear.

Despite the arrival of two other Immortals, the Dragon King still did what he wanted. This was undoubtedly equivalent to taunting their entire Yong Chang world.

"Haha! It's been close to two months since I came into Yong Chang. It's about

time for me to return. Let's meet again in the real world!"

After the water shockwave, Wang Xian laughed out loud and looked across the three Immortals.

"Let's go!"

He shouted at Roving Sword. The next instant, both of them turned illusory and flew towards the East at incredible speed.

"Remember my warning! When you enter the real world, keep a low profile!"

The Dragon King's voice reverberated through the sky.

The Great Waterfall Water Shockwave dissipated.

And the despondent atmosphere was gone.

"They have headed East!"

"The spirit array in that direction is the weakest. It would appear that they wanted to head out!"

"The attacks of the current spirit array would simply damage them severely and not kill them!"

The voices of the three Immortals sounded and the three of them stared bitterly in the direction where Wang Xian and Roving Sword had fled in.

"The spirit array has been broken and they have left!"

After ten seconds of silence, the fire sparks that were flickering in Hong Yan's eyes disappeared and he commented.

Yao Yang and Eclipse remained silent and looked across the disciples below them.

Swish swish swish!

At this moment, figure after figure arrived at incredible speed.

"What's the matter? Why were there Immortal-level attacks coming from here a while ago?"

"Hong Yan, what happened?"

The other three figures stood in the sky, frowning as they asked these questions.

"There were two Immortals from the outside world. One of them is called the Dragon King while the other was Roving Sword. They killed some of our people!" Hong Yan remarked as his eyes flickered. The next moment, he gestured to Xiaoxiao.

"Uncle Yan!"

Xiaoxiao flew over and greeted him softly.

"Immortals from the real world? There are still immortals from the real world?"

The other three men were shocked.

"Greetings, uncles. Those two have likely advanced to the Immortal Realm in our world!"

Xiaoxiao bowed at the group of Immortals and reported respectfully. Fear and respect filled her eyes.

"Huh? Advancing to the Immortal Realm in our world?"

The rest of the Immortals were taken aback and had their attention fixed on Xiaoxiao.

"Yep!"

Xiaoxiao nodded her head before continuing, "I saw him when I went to the real world. His name is Wang Xian and he should be twenty-one years old in the current year. He has risen in an exceptionally short period of time and established the Sacred Sect, Dragon Sect, in the real world!"

## Chapter 619: Return (2)

"Along with his Dragon Sect, he has struck fear into all the families and clans in the entire Underworld."

"The entire alliance of the orthodox sects and Diabolism did not dare to offend him. He even went up against the strongest sect in the Underworld, Donghua Sacred Sect, and killed dozens of their experts."

"According to what I know, his way of doing things is overbearing. He will not let anyone off for offending him. Moreover, his strength is powerful!"

"During the fighting between the orthodox sect and Diabolism, the Dragon King brought a troop that was almost on par with orthodox sects and Diabolism. He even fought with the supreme experts from the orthodox sects and Diabolism, and entered Yong Chang by chance!"

"The two middle-aged men that my father saved not long ago were the supreme experts from the orthodox sects and Diabolism!" said Xiaoxiao to the rest of Immortals. Recalling the Dragon King of Dragon Sect's doings in the Underworld, she was very shocked.

Especially the Immortal-class strength that he had displayed just now struck horror into her.

His talent was really unparalleled.

"Twenty-one!" an Immortal cried out as he widened his eyes with disbelief.

Twenty-one-year-old Immortal? What concept is this?

Most of them had lived for centuries before they stumbled on opportunities to advance to the Immortal Realm. Yet, the Dragon King was only twenty-one years old!

Such talent was beyond description.

"Yes, twenty-one years old. No one in the real world dared to offend him. Both

orthodox sects and Diabolism are wary and fearful of him!"

Xiaoxiao nodded her head with force.

"Greetings to Sect Leader and your Excellencies!"

At this time, the elders of three Immortal Sects flew over and bowed to him with respect.

"Sect Leader, that Dragon King was already promoted to blacksmith and alchemy Grand Master just a few days ago," the Great Elder of Da Hong Immortal Sect said to one of the Immortals in astonishment.

"Blacksmith and alchemy Grand Master!"

That Immortal's eyes gleamed and he exchanged a glance with an Immortal beside him with eyes filled with disbelief.

"I didn't think that there would be such a wicked existence in the real world...the Dragon King of Dragon Sect!" said Hong Yan slowly.

"No matter how stunning he is, they only had two Immortals. Given the strength of Yong Chang, they would have surely perished here if they had not fled!" said Eclipse with a darkened expression, recalling the overbearing nature and arrogance of Wang Xian.

"Forget it. Having two people from the real world who could advance to the Immortal Realm was already terrifying enough. It looks like we have to be careful when we meet Dragon Sect!"

"After Yong Chang descends into the real world, let's stay low profile. The moment all the Nine Cauldrons' Worlds descend into the real world, there will be conflicts and combat is inevitable!"

"Let's wait for Yong Chang to descend into the real world!"

The immortals remarked one by one as they looked down at the hundreds of thousands of disciples below. With a quick change of stance, they took turns and disappeared.

Upon hearing the conversations between the Immortals, the disciples of the three major Immortal Sects below were dumbfounded and horrified.

Twenty-one-year-old Immortal!

He set up a Sacred Sect in the real world to go up against the entire Underworld!

A Grand Master in blacksmith and alchemy!

On top of that, the terrifying Roving Sword was known as the rare swordsmanship genius in Immortal Slaying Sect for the last ten thousand years!

Everything added up to their disbelief.

Such a domineering figure actually existed in the Age of Dharma Decline, a world with trashy combat power.

For a moment, everyone darkened their expressions.

"It looks like even when Yong Chang descends to the real world, into the Age of Dharma Decline, we should not act overly brazen!"

Those disciples who were ready to enter the real world and make their names suddenly lost motivation.

The grand contest of three major Immortal Sects was still ongoing, but all the supreme talents were filled with bitterness.

"Cough, this injury will take at least a few days to recover!"

At this moment, Wang Xian could not help but spit out a mouthful of fresh blood. He wiped it off from his pale-looking face, tens of thousands of meters in the air.

Roving Sword, beside him, was also covered by injuries.

However, their injuries were not serious since they had prepared for it.

Upon tearing the array apart, Wang Xian turned into a Divine Dragon straightaway to block off the majority of the array damage.

"Finally, we're out! It's been almost two months!"

Sensing the sparse Spiritual Energy in the surroundings, Wang Xian felt a sense of belonging instead.

He looked down with a smile.

The concrete buildings in the city and the bustling roads.

Even though it was no different compared to Yong Chang world, it felt very familiar to him.

"I don't know where we are now, but it must be a city below. Let's go down, confirm our location, and get ready to go back!"

Wang Xian was beaming. With a quick movement, the two of them appeared on a road as if they had teleported.

The cars were passing by around them, and Wang Xian spotted a sign.

"Wen City is not that far from Donghua Sacred Sect. It's about an eight-hour journey, and it would be faster if we fly over!"

Wang Xian looked at the time, and it was noon.

"I wonder if Shuqing, Qingyue, Xiao Yu, and Adjaya missed me. After all, they might have been worried about me while I wasn't around!"

Wang Xian smiled.

Xiao Yu, Shuqing, and the rest might have been worried after he entered Yong Chang world, but they would not be too sad about it.

With the dragonians and Adjaya around, they would know that he was still alive. This could make them less worried.

"Let's buy a phone and take a flight back!" Wang Xian told Roving Sword and walked into a shop that collected gold.

They sold some gold left in the space ring and bought a phone.

"Let's give them a call!"

Wang Xian revealed a broad smile and dialed Xiao Yu on her phone.

"Hur? How come no one is answering?"

Wang Xian slightly frowned and called Guan Shuqing, then Lan Qingyue one after another. But no one was picking up their phones.

"What are they doing?"

Wang Xian was doubtful as he headed to a less populated street, ready to fly back to Rivertown.

"Haha, today, our Sect Leader and Emperor Qi of Diabolism will be leading the Sacred Sects to Rivertown. This time, Dragon Sect is going to be annihilated!"

"Yes, that's great. Remember the time when the Dragon King and his gang were so arrogant a month ago. Now that Dragon King is dead, and the Sect Leader is back. He is going to work with Emperor Qi to annihilate the Dragon Sect!"

"I wanted to go over today. Unfortunately, my cultivation level is too low, and we can only read the news on the Underworld forum."

"I heard that all the confidantes of the Dragon King are very beautiful. Tsk tsk. Diabolism has already said it. They want all the people who are related to the Dragon King to suffer big time. Haha, I guess the confidants of his will be tortured by the people of Diabolism!"

"Brother Liu, do you think they are more beautiful than me?"

"How can they be prettier than Nannan? Haha, don't bother comparing yourself with those people who are ruined!"

Just as Wang Xian arrived on a remote street, several young guys and girls were sitting in a convertible car, laughing and exchanging conversations.

They were gloating at the misfortune of others!

# Chapter 620: Return Of The Dragon King (1)

"Our Sect Leader and Emperor Qi have returned as rulers. Now that the alliance of orthodox sects and Diabolism have allied together, this Underworld will be our Underworld!"

"That's right! The Dragon Sect was just a fleeting existence after all!" Several young men were smoking while conversing joyously.

Bam!

At this moment, a pair of huge hands fell heavily on the car beside them suddenly.

"F\*ck!" The group got a scare and exclaimed, "Who the hell did this?"

The disciples from Dong Hua Sacred Sect turned their heads over and stared harshly.

"Nie Wushuang and Emperor Qi are back? They have gone to annihilate the Dragon Sect?"

Wang Xian's emotionless voice sounded beside their ears.

When they saw Wang Xian, they were taken aback and started observing him cautiously.

After close to two months, Wang Xian's hair had grown a little longer. As he had advanced to Level 9, his disposition had also changed. There was innate holiness and a majestic aura around him.

"F\*ck! Who are you? How dare you call our Sect Leader by his name. Are you too eager to die?"

"Damn! Do you know who owns the world currently?"

The young disciple couldn't recognize Wang Xian. They glowered at Wang Xian as they scolded him.

Weng!

"Speak!"

Wang Xian waved his arm at two young men and boiling water that was a scorching hot temperature surrounded the two young men.

He stared at the young man who had remained silent all this while, and questioned him.

"YOU..."

Just as that young man wanted to speak, he saw his other two companions turning into a pool of blood creepily.

His eyes widened and he stared at Wang Xian with fear. "You... You...!"

Argh!

At the other end, several girls shrieked in fear as they hid in the car.

"Speak!"

Killing intent welled up in Wang Xian gradually and shrouded towards the young man.

Feeling the grip around his throat from a devil that seemed to be from the abyss, that young man shivered violently. "Yes... Our Sect Leader returned a short while ago. Today... Today, they are bringing a group to Rivertown to annihilate the Dragon Sect. Big brother, don't kill me... Don't..."

"Who would have expected Nie Wushuang and Emperor Qi to still be alive! Furthermore, they allied together to annihilate my Dragon Sect. Great! Great!"

Wang Xian's face turned solemn and the killing intent leaking from his body even solidified the surrounding atmosphere.

That young man's expression turned as white as snow and a pool of liquid

dripped down from his pants.

"It seems like someone is courting his own death again!"

Wang Xian grumbled softly and frenzied killing intent flashed across his eyes.  
"If you guys dare to touch Xiao Yu and the rest, I'll send the entire Underworld to hell to accompany them!"

Boom!

A terrifying aura erupted and Wang Xian's figure disappeared towards the edges of the sky.

Roving Sword followed closely behind.

"He... He..."

The young man that survived the ordeal stared in shock at the two disappearing men. His eyes widened and were filled with fear.

"That back view is so familiar. He... Could it be... the Dragon King...? He must be! He definitely is!" the young man shouted loudly like a maniac.

He looked beside him. A while ago, he had two other Senior brothers. Now, he had no one with him.

Nothing was left of them.

That terrifying strength and that familiar back view had to be Dragon King's!

"Shit! Shit! He said if anything were to happen, he would send the entire Underworld to hell!"

Following this, the young man took out his phone immediately and entered the Underworld website.

Today, the Underworld was exceptionally lively.

The return of the Kings! Nie Wushuang together with Emperor Qi from Diabolism and several other Sacred Sects had reached an agreement to annihilate the Dragon Sect!

Today, the Dragon Sect would definitely be annihilated. All those who were related to the Dragon King would also definitely be killed!

Today was the first time the alliance of orthodox sects would work with Diabolism to eradicate the arrogant Dragon Sect.

Now that the Dragon King was dead, the Dragon Sect should definitely be annihilated.

[Kill! Kill everyone from the Dragon Sect. Kill the kin of the Dragon King! Haha! Spare no one!]

[The Dragon King from the Dragon Sect has killed countless experts from Diabolism. Today, we will let the Dragon Sect experience what is worse than death!]

Several threads were refreshed frantically on the Underworld website. All the martial artists in the Underworld were exhilarated.

A few days earlier, the Sect Leader of Dong Hua Sacred Sect and Emperor Qi of Diabolism had returned.

After their return, they announced instantly that the feud between the alliance of orthodox sects and Diabolism shall be forgiven. Dong Hua Sacred Sect and Devil Corpse Palace even announced that they would be merging into one Eternal Sacred Sect.

Countless incidents were shocking the entire Underworld.

Two months ago, the Dragon King from the Dragon Sect and a swordsman fought with Nie Wushuang and Emperor Qi.

In the end, the four of them broke the sky and seemed to have entered a different world.

A few days earlier, they returned officially to make shocking news.

The alliance of orthodox sects and Diabolism had put aside their feud, Dong Hua Sacred Sect merging with Devil Corpse Palace... Each of these incidents had shocked the entire Underworld.

This morning, they announced they would be annihilating the Dragon Sect.

This matter instantly electrified various forces. The strength of the Dragon Sect was too terrifying. It was to the point that they were fearful of the Dragon Sect.

Even when the Dragon King wasn't around, they were still frightened by the current Dragon Sect.

Annihilating the Dragon Sect was what various Sacred Sects would like to see.

[The Dragon King is dead! Dragon Sect will definitely be annihilated!]

The young man saw the hottest thread. There were also a large number of replies in this thread.

The thread clearly indicated that the Dragon King was dead and the Dragon Sect had lost the strength to retaliate. They would definitely be annihilated.

The one who had started the thread even made it clear that it was Sect Leader Nie Wushuang and Emperor Qi who personally claimed that the Dragon King was dead.

"F\*ck! The Dragon King isn't dead. He's not f\*cking dead at all. Moreover, he's even more terrifying than before. I definitely have to inform other members of my sect now!"

The young man's expression turned solemn and he felt like his world was spinning. He immediately called several numbers.

However, no one picked up the call.

"Could they be on their way to annihilate the Dragon Sect?"

The young man's face turned white and despair was creeping up on him. The Dragon King wasn't dead! If the Dragon Sect were to be annihilated, the Underworld would be finished!

"This won't do. I've got to spread the news on the Underworld and inform everyone that the Dragon King isn't dead!"

The young man started editing the thread before sending it to the Underworld website.

"The Dragon King has returned. He's not dead yet. Moreover, he's even more terrifying than before!"

Although he had started the thread, there wasn't any interest. Even if there were comments, most people wouldn't believe it.

[The death of the Dragon King was confirmed by Sect Leader Nie Wushuang and Emperor Qi.]

[Tsk! So what if he isn't dead? Even if the Dragon King were to show himself in Rivertown at this moment, he would have to die!]

At this moment, he was taken aback by a reply he saw.

It was a link to another thread.

[Live Streaming of the annihilation of the Dragon Sect!]

He clicked on the thread and browsed through quickly. When he saw the latest few replies, his face stiffened.

[The strongest experts that are leading the annihilation of the Dragon Sect aren't Sect Leader Nie Wushuang or Emperor Qi. They are four old men who are far stronger than Sect Leader Nie Wushuang and Emperor Qi. Even if the Dragon King is still alive, the Dragon Sect will definitely be annihilated this time. The Dragon King would also meet his end!]

"Four old men that are even more terrifying than Sect Leader? Those four old men!"

The young man was dumbfounded and frowned. He recalled the moment several days ago when he had caught a glimpse of the Sect Leader.

"Sect Leader only allied with Diabolism after he returned from that world. Could it be..."

"There are four other characters that are even stronger than our Sect Leader. In

other words, even if the Dragon King has the guts to return, he would also be killed!"

"Haha! This is great! Perfect! Dragon King! How dare you kill my Senior brothers. You shall die too!"

"Sending the entire Underworld to hell? You can head there yourself!"

Recalling the peaks and valleys of his life, the young man couldn't help but burst into laughter with a sinister grin!

# Chapter 621: Return Of The Dragon King (2)

"Nie Wushuang, Emperor Qi!"

Coldness filled the eyes of Wang Xian in the sky as he headed to Rivertown at a super rapid speed.

"Twenty minutes. Xiao Yu, Shuqing, Qingyue... wait for me for another twenty minutes!"

Chillness welled in Wang Xian's eyes as he murmured softly to himself.

At this time, Rivertown.

On this day, all the attention of the Underworld was on Rivertown where Sect Leader Nie Wushuang and Emperor Qi from Diabolism made a robust return.

In particular, the two supreme experts returned in an alliance instead of fighting with each other.

The moment they united, the lord of the entire Underworld was formed.

The Sacred Sect that they jointly formed was known as Eternal Sacred Sect.

Donghua Sacred Sect and Devil Corpse Palace did not merge completely as Eternal Sacred Sect, but Eternal Sacred Sect consisted of these two sects.

In other words, Donghua Sacred Sect and Devil Corpse Palace had become the sub ancestral sects of Eternal Sacred Sect.

Subsequently, Devil Spirits Temple and the rest of the factions in Diabolism had joined the Eternal Sacred Sect.

After that, Dongmen Clan, Dark Sect, Yuwen Sacred Clan, and Heavenly Sound Sect joined the Eternal Sacred Sect too.

With all the Sacred Sects joining hands, Eternal Sacred Sect was almost said to have unified the entire Underworld.

But none of the Martial Artist knew why Nie Wushuang and Emperor Qi had established the Eternal Sacred Sect.

They only knew that they were the future overlords of the Underworld.

This time, not only were the Sacred Sects within Eternal Sacred Sect here to annihilate the Dragon Sect, but there were various first-class forces from the Underworld here too.

Amongst which, the number of Inborn experts was over four hundred.

The rest that were below Inborn level hit six thousand people.

Nearly half of the forces of the entire Underworld were here.

"What a surprise. Two of the confidants of the Dragon King have advanced to Budding Realm!"

At this moment, the crowd was packed around the floating island of Bohai, Rivertown.

Nie Wushuang and Emperor Qi were staring at the two girls with a surprised look.

Adjaya and Lan Qingyue were pale as they spat out mouthfuls of fresh blood while staring daggers at Nie Wushuang and Emperor Qi!

"Qingyue, Adjaya!"

Guan Shuqing and Xiao Yu lost color in their faces as they hurriedly rushed to their sides, wiping the blood from their lips with a bitter look.

"Are you alright?"

Guan Shuqing was looking worried all over as she quickly spun around and cast a cold glance at Nie Wushuang and Emperor Qi. "Wait till Xiao Xian gets back. He will not let you off for sure!"

"Haha, the Dragon King? He's already dead. Did you think that he has a chance like our Sect Leader did?"

Standing beside Nie Wushuang and Emperor Qi was the insolent Nie Wuya, chuckling. He swept his cold gaze at all of them. "It's totally unexpected. Even two girls possessed such daunting strength. The Dragon King must have obtained a fearsome legacy. Tell us now, and we'll grant you a quick death. Otherwise...!"

"Otherwise, you'll wish you were dead. Hiak hiak!"

Beside Nie Wuya, a cold middle-aged man continued his words. He had a long tongue, which looked extremely horrifying.

"Who said my brother is dead? He's not. Wait till he's back, and none of you will be able to live!"

Xiao Yu stared furiously at the people in front of her as her cheeks became flushed with anger.

Among them, Xiao Yu, Sun Lingxiu, and Elder Fang could at most handle Dan Realm experts.

Guan Shuqing was slightly weaker. Only Adjaya and Lan Qingyue could match up to Budding Realm experts.

In fact, Lan Qingyue was only at Level 11. She could barely fight with a Budding Realm expert.

As for Adjaya, she had just obtained a legacy not long ago. As such, she could only combat the average Budding Realm experts.

On the other hand, Nie Wushuang and Emperor Qi had been advanced to the Budding Realm for quite a long time. After they were rescued by the Immortals and returned to the real world, they were given many elixir pills and a lot of Spiritual Equipment.

Given their current strength, they were almost twice as strong as their initial strength during that battle.

Adjaya and Lan Qingyue were trounced by these two people.

This plunged Xiao Yu, Guan Shuqing, and the rest into despair.

"Even if Dragon King is not dead, and he arrives today, he is bound to die for killing the experts of Donghua Sacred Sect. Today, the Dragon Sect must be annihilated," Nie Wuya shouted with full confidence.

"Kill the rest of the disciples from Dragon Sect. Leave the sister of the Dragon King and his confidantes to us. I'll make sure they spit out the truth!"

At this time, two elders in crimson robes were staring at Xiao Yu and the rest with one eye filled with Crimson Bugs.

They were the leader and vice leader of Crimson Bug!

Ever since the Dragon King had annihilated all their disciples, they had been trying to seek revenge frantically. Today was their chance!

They were going to pay back all the pain to the Dragon King's sister and confidants.

"I'll turn you people into the most miserable things in the Underworld, and make you suffer utterly!"

Both of them growled, their eyes bloodshot.

"Let the six girls live and kill the rest!"

Nie Wuya and Emperor Qi gave their commands as they held the weapons in their hands.

"Yes!"

Surrounding them were Donghua Sacred Sect, Devil Corpse Palace, Heavenly Sound Sect, Dongmen Clan, and the various first-class forces with more than four hundred Inborn Experts.

All of them were casting their icy stares at those dragonians and Golden Swordfish on the floating island.

Four hundred Inborn Experts against two hundred of them was utter overkill!

"Kill!"

Mo Qinglong swept his gaze at all the Sacred Sects, Sacred Clans, and the experts. With a bellow, he commanded them. "Kill them all. Even if we die, our Dragon King will avenge us!"

"Kill!"

Fifty Dragonians had no hesitation as domineering demonic aura surged around them.

One by one, the Golden swordfish emitted a dazzling radiance.

"Kill!"

The roaring of the killings soared in the sky while the war had completely broken out.

"The real battle has begun, and the Dragon King will be a piece of dead meat!"

"Four hundred Inborn experts against two hundred experts. They had double the numbers, and it would be a thrashing game!"

"I did not expect that the two confidants of the Dragon King were actually Budding Realm experts. This is scary. The Dragon King must have inherited some domineering legacy such that Nie Wushuang and Emperor Qi must lay their hands on it!"

"This time, those confidants are doomed. Look at Diabolism. All of them have cruel means. Perhaps they will turn them into corpses or even something worse than that."

"It's a good thing that we will annihilate the Dragon Sect. They are simply too powerful. I was scared when the two girls struck just now. They were daunting!"

Upon seeing the war break out, the surrounding disciples who were weak and not of any help in the battle were exchanging conversations with disbelief.

Soon, this war would end with the downfall of Dragon Sect, as Nie Wushuang and Emperor Qi were much stronger than before.

The fact that the Dragon King of Dragon Sect was dead also sealed the fate of Dragon Sect!

# Chapter 622: Return Of The Dragon King (3)

At this very moment, the news of Nie Wushuang, Emperor Qi and other forces going to exterminate the Dragon Sect was spreading and updating constantly on the Underworld website.

When the martial artists of the Underworld saw the terrifying strength of Adjaya and Lan Qingyue, they were astonished.

For two girls to have the strength of supreme experts, the visual and psychological impact on them was immense.

[The Dragon King definitely obtained some peerless legacy. Otherwise, the Dragon Sect wouldn't have risen so rapidly. His girls wouldn't possess such terrifying strength either!]

[This is really insane! If the Dragon King wasn't dead, the Underworld would be theirs in the future!]

[I believe the annihilation of the Dragon Sect will likely allow many other Sacred Sects to heave a sigh of relief!]

On the Underworld website, various martial artists exchanged their views. For those Sacred Sects and Clans that had not headed over to Rivertown, their attention was focused on the Underworld website as they waited for the news confirming the Dragon Sect being annihilated.

Argh!

"Shit! The members of the Dragon Sect are really strong! Be careful!"

"Be careful! Be careful!"

Just as the Inborn experts from Dong Hua Sacred Sect and Devil Corpse Palace clashed with the two hundred members of the Dragon Sect, terrifying Charging

Swords and Return Swords attacked constantly.

The group of golden swordfish killed over twenty Inborn experts with their incredible swordsmanship.

This stunned the Inborn experts from Dong Hua Sacred Sect and Devil Corpse Palace as they growled loudly.

"Kill!"

At this moment, the dragonians dragonified their arms into terrifying dragon claws to attack their enemies directly.

They were fearless in the face of death.

For the Dragon Sect and the Dragon King, they were willing to sacrifice their lives.

At the most critical moments for the Dragon Sect, all the dragonians unleashed aura that totally disregarded death.

Those fearless attacks together with resilient defensive capabilities sent chills down the spines of the four hundred Inborn experts from Dong Hua Sacred Sect and Devil Corpse Palace.

"Adjaya, Qingyue! Get behind and rest!"

Guan Shuqing stood up and took a deep breath. Xiao Yu and Elder Fang, who were beside her, were equally pale.

The Holy Goddess, Sun Lingxiu, resembled more of a Goddess of Frost at this very moment.

"Attack!"

Guan Shuqing gritted her teeth and waved the lotus truncheon in her hands. Bunches of fire lotus flowers shot towards the enemies before her.

Her attacks seemed limitless and the terrifying attacks continued incessantly. The destructive force of her attacks astounded the crowd that was watching from

afar.

"Judgement!"

A white light was emitted from Sun Lingxiu and shot across like rays of aurora beams.

Beside her, Miracle Doctor Blood Man stared ahead bitterly as he tried his best to protect her master.

Xiao Yu and Elder Fang didn't participate. They were more suited for close-range battles. At this juncture, they had chosen not to charge ahead and had their attention fixed on Emperor Qi and Nie Wushuang.

Around the six of them, two Level 11 golden swordfish were protecting them.

"If we encounter real danger later, I'll activate the defense array within my truncheon and we will escape together!"

Adjaya supported her own injured body and struggled to stand upright.

"Adjaya, we were wrong in the past. Let me apologize to you. If... If we can get past this calamity, we will be sisters!"

Lan Qingyue had also stood up by now and held Adjaya softly.

"In that case, you will have two more sisters!"

Adjaya laughed liberally as she looked at Sun Lingxiu beside her.

"Sister Lingxiu is great!" Lan Qingyue smiled faintly.

"She's better than all of you!" Adjaya was direct. She smiled before sighing. "If I knew about this, I wouldn't have followed him here!"

Lan Qingyue chuckled and knew that Adjaya was just saying that in a fit of displeasure.

That was entirely reasonable. A girl from a foreign country had followed him here. Yet, she didn't even get to see him for the subsequent period.

And she had to suffer their cold treatment. Ordinary girls wouldn't have taken such grievances, let alone the fact that she was a princess!

"I'm sorry!" Lan Qingyue said apologetically. She turned to stare at Nie Wushuang and Emperor Qi before saying, "Let's stop the two of them together. There is still hope!"

"That's right! Xiao Xian's subordinates are really strong!"

Adjaya looked across the entire battlefield and revealed a smile. The next instant, she turned and looked at Nie Wushuang and Emperor Qi coldly!

"Sss. How could the Dragon Sect be so strong?"

"Close to forty or fifty Inborn experts have died. However, it would seem that none from the Dragon Sect have died!"

"Are you sure? How could the members of the Dragon Sect be so terrifying? It feels like they aren't even on the same fighting level. Even though we have four hundred Inborn experts on our side, it is not certain that we will be able to defeat the two hundred members of the Dragon Sect!"

Scattered around the battlefield, the crowd was shocked while watching the battles unfolding before their eyes.

The battle between six hundred Inborn experts was truly horrifying and astounding.

Yet, after just a minute, they were horrified to see that the Inborn experts on their side were killed rapidly.

Even though they had twice the number of Inborn experts, they were still on the losing end.

If the battle continued as it was, the outcome wasn't certain yet.

"These disciples of Dragon Sect are really problematic!"

Seeing how the battle had developed, Emperor Qi remarked with a solemn face.

"Let's get into it and end the battle quickly!"

Ruthlessness flashed across the eyes of Nie Wushuang. He waved the spiritual longsword in his hand and terrifying golden sword energy was launched ahead.

"Kill!"

Emperor Qi moved at the same time and attacked a golden swordfish.

"Now!"

Seeing that Nie Wushuang and Emperor Qi had joined in the fight, Lan Qingyue and Adjaya gritted their teeth and headed towards both of them.

Xiao Yu and Elder Fang followed behind resolutely and the black skeletons on them started extending crazily.

"Both of you have just lost and yet you dare to face us again. It seems like I have to cripple both of you completely this time!"

Nie Wushuang remarked harshly when he saw Lan Qingyue and Adjaya charging towards him again.

"This time, we are here too!" Xiao Yu growled.

Without a tinge of fear, she lunged forward with the bone sword in her hand.

Tsk!

Emperor Qi and Nie Wushuang snorted and swung their spiritual equipment across!

Bam!

The spiritual equipment was stopped by Lan Qingyue and the other three girls but they were pushed back.

"The Dragon Sect is truly pretty strong!"

"They are able to reach the Budding Realm in this world that is experiencing the Age of Dharma Decline. Moreover, they are still so young. It would seem like

they have inherited some incredibly powerful legacies!"

"It would at least be Immortal-class legacy. Otherwise, they would never have been able to reach such a level!"

"Now that we have descended into the real world ahead of time, we might have a great chance encounter before us!"

The four old men stood by the side and silently watched the battle unfold. All of them had the vibes of being superior to others.

When they saw Lan Qingyue and Adjaya, they were pleasantly surprised.

"Oh gosh! That young girl wasn't injured at all despite being hit by Sect Leader Nie Wushuang!"

"Shit! Sect Leader Nie Wushuang and Emperor Qi have been held back by the four of them while the four hundred Inborn experts are being slaughtered rapidly by the two hundred members of the Dragon Sect. Could it be... The annihilation of the Dragon Sect will turn out to be..."

"It can't be. This isn't possible. How could the disciples of the Dragon Sect be so powerful? Look at the fire attacks from that girl. She hasn't flinched for a moment at all. Her destructive might is too insane!"

"If this goes on, the four hundred Inborn experts will be defeated. It can't be... How could it be possible that they can't annihilate the Dragon Sect with such a grand line-up considering that the Dragon King is already dead?"

"Dragon Sect... How could they be so terrifying..."

The surrounding crowd could feel their hearts palpitating violently as they watched the battle before them with disbelief.

Four hundred vs two hundred. Yet, they were being killed rapidly. This had exceeded everyone's expectations.

On the Underworld website, all the martial artists were astonished to witness what was on the livestream thread.

No one had expected this to happen.

"Could it be that the annihilation mission of the Dragon Sect will end up in failure this time?"

Everyone could feel their hearts skip a beat.

The Dragon Sect was too strong. Even when considering that the Dragon King had died, the two supreme experts of Sect Leader Nie Wushuang and Emperor Qi, together with four hundred Inborn experts, still couldn't eradicate the Dragon Sect! That was horrifying!

It was especially so for the swordsmen with golden longswords. Their attacks were so insane that the crowd could feel their scalps going numb from fear.

A Dan Realm swordsman could even go against two Dan Realm experts and still have the upper hand!

What was most shocking was that Emperor Qi and Sect Leader Nie were held back temporarily and couldn't join in the fight.

"Trash! It seems like we have to take action ourselves!"

At this moment, an old man, who had stood by the side with a sense of superiority, grumbled discontentedly.

"Alright. Let's end this quickly so we can interrogate those girls about their legacies!"

"In that case, let's end it!"

When the bald old man wearing a red suit finished his last word, the group of four old men flew ahead.

"This is the end!"

The four old men commented nonchalantly and the aura around them strengthened instantly.

Rumble!

Terrifying fire pillars rose and shot up over a thousand meters.

The four flaming pillars altered the entire sky.

The auras of the four old men were a lot stronger than Emperor Qi and Nie Wushuang.

"You guys are really trash! It's just a small Dragon Sect and yet you required us to step in!" an old man commented plainly. He waved his arm and a wave of terrifying attacks swept towards the dragonians and golden swordfish!

Boom!

"Oh gosh! How terrifying! How terrifying! They... They..."

Behind them, all the martial artists in the Underworld that witnessed this were completely dumbfounded.

These auras were too strong. Despite being a distance away, they felt suffocated.

"Those four old men... Sss... Dragon Sect is definitely going to be annihilated now! Even if the Dragon King were around, the outcome wouldn't change!"

The thousand-meter fire pillars were something that they thought would exist only at the end of the world.

Considering the terrifying might, annihilating a Dragon Sect would be a walk in the park.

In the opinions of these people, the annihilation of Dragon Sect would still be easy even if the Dragon King were around!

# Chapter 623: Return of the Dragon King (4)

High and mighty!

This was the first time the Martial Artists of the Underworld had seen such a terrifying scene. It was also the first time they saw such scary power from the Nine Cauldrons' Worlds.

The thousand-meter fire pillars, daunting oppression, and the devastating scene.

All the momentum and the oppression from it were not something Nie Wushuang and Emperor Qi could compare to.

The difference was huge!

"What? Oh no, they actually have such a formidable figure here!"

The gang, including Xiao Yu, Elder Fang, Lan Qingyue and Adjaya, who were desperately resisting, lost the color in their faces. Seeing such a domineering aura, a tinge of despair welled up in their eyes.

"Hmph!"

Both Nie Wushuang and Emperor Qi snorted as they swept their cold gazes across all the people in Dragon Sect before they walked back.

Boom!

The eyes of the four elders were like torches with sparks skipping in their eyes when they looked at the battlefield.

Two hundred Dragon Sect disciples against more than four hundred Inborn Experts from their side.

However, more than sixty Inborn Experts had perished within a short period of time, leaving the total number to be less than four hundred.

"Hmph!"

There was dissatisfaction in the eyes of an elder as he swung his arm, hurling a ball of fire toward the Dragon Sect disciples.

"Oh no, get out of the way now!"

Upon seeing the attack, Mo Qinglong's eyes were burning with fire.

The ball of fire that the old man hurled with ease struck a hundred meters away. A flaming waterfall-like ball of fire charged toward them directly.

All the members of Dragon Sect had a drastic change in their expressions.

"Block it down!"

They roared, raising golden sword defense and daunting dragon claws in front of them.

Bam, Bam, Bam!

But still, that fiery magma exploded like a waterfall in an instant, killing dozens of Golden Swordfish right at the front.

Painful looks crawled upon their faces while their bodies slowly changed from human to golden swordfish, burning under the intense flame as they turned a charcoal black.

A casual hit from that old man had brought down these forces of the Dragon Sect.

Seeing more than a dozen Dragon Sect members lose their lives instantly, Mo Qinglong was aghast as he spun his head around. Noticing the gray branch was still giving off radiance on the floating island, he heaved a sigh of relief.

"Go on! Dragon King will be back to avenge us!"

Mo Qinglong growled with a hideous look. At this point, none of them could escape.

Perhaps the Golden Swordfish clan could jump into the ocean for a way out, but

they would not run.

They were with the Dragon King of Dragon Sect!

"Kill!"

The Dragonians and Golden Swordfish clan went berserk.

Instantly, all their aura and vitality erupted completely, darting straight into the sky!

"Follow me. Charge!"

A Level 11 Dan Realm expert from the Golden Swordfish Clan remained expressionless. In the face of death, his eyes only held golden coldness.

Sorrowless, joyless, selfless, invincible.

"Golden Swordfish. Pierce!"

Piercing through with their bodies was their natural instinct as Golden Swordfish clan.

When they used to be fish, their most potent attack was to sprint.

Even though they had learned swordsmanship, their piercing move remained their most potent attack.

Piercing with their bodies!

Buzz!

One by one, the bodies of the Golden Swordfish suspended themselves in the air. As though they were in the ocean, they brought along their daunting radiance, charging at the three-hundred odd Inborn Experts right before them.

They knew that attacking the four elders was utterly useless. Hence, they could only attack those at the same level as them.

"Hmph, how dare you even try to strike before us!"

Seeing the Golden Swordfish clan readying their attacking stance, there was contempt in his eyes as he waved, calling, "Kharma Flame!"

Boom boom!

As soon as the old man's voice resounded, the ground below the Golden Swordfish exploded into cracks.

Scary flames sprouted out from underground, erupting into a blazing fire.

"This is crazy. Are they the legendary Gods? Just a simple wave, and they could bring destruction to the world."

"It's not too far-fetched to say that they are the legendary immortals. Just a wave and they brought destruction to Heaven and Earth. With a swing, they could annihilate anything. They are the legendary Immortals!"

"I have a strange feeling about those four people. Sect Leader Nie Wushuang and Emperor Qi have been respectful to them. The newly established Eternal Sacred Sect is also led by the four of them. All the Sect Leaders of Sacred Sects have been very respectful to them!"

"Could it be that they are from the other worlds? After Sect Leader Nie Wushuang and Emperor Qi entered into another world, the four of them suddenly showed up beside them."

All the surrounding crowd watched the four people with horror, as they discussed among themselves.

An arm swing could change the world, and that impact was so scary, as though it was from the legendary immortal.

In the face of these four elders, they felt as insignificant as ants.

"Ss, that bunch of Dragon Sect members is really fearless. They actually continued to charge forward."

"Gosh, the members of Dragon Sect have gone mad. But soon, they will be annihilated!"

All the people were horrified as they looked ahead in shock.

Over there, more than hundreds of Dragon Sect members exuded golden radiance with a blazing fire, charging ahead ferociously.

Their speed was so terrifying that even the experts of their same level were not able to resist.

"Oh no!"

Those Inborn Experts who felt relieved and were ready for a show were aghast upon seeing the dauntless Dragon Sect members.

"Take cover!" they yelled loudly.

However, the Golden Swordfish were bent on giving up their lives. Even when their bodies were shrouded with Karma Flame, their attacks did not stop.

"Hur?"

The four elders slightly grimaced when they saw the dauntless Golden Swordfish.

Argh!

All it took was one second for the Golden Swordfish to rush into the group of Inborn Experts.

Despairing shrieks were heard instantly.

"Courting your own doom!"

Upon seeing their men being killed, coldness took over the faces of Nie Wushuang and Emperor Qi as they wielded their longswords at the Golden Swordfish.

"Trying to attack?"

Adjaya saw the two of them launching their strikes as she raised her truncheon in her hand with an awful look. A vast lotus surfaced in front of her.

With a size of a few hundred meters, the lotus was hurled at Nie Wushuang and Emperor Qi.

"Tsk tsk, Level 13 Spiritual Equipment. Spiritual Equipment used by an Immortal!"

The four elders stared at her truncheon when Adjaya launched her attack. A glimmer of passion flashed across their eyes.

"A lass is ultimately a lass!" an elder scorned as he wielded the staff in his hand.

The lotus that Adjaya released shook violently in the air. Subsequently, it vanished just like a firework.

"What?"

Adjaya paled immediately. She staggered back while Xiao Yu quickly held onto her.

Bam, Bam, Bam!

In that instant, Nie Wushuang and Emperor Qi rushed into the Golden Swordfish.

The long killing blade and the icy fist came smashing through the bodies of the Golden Swordfish!

# Chapter 624: Return of the Dragon King (5)

"It's over. It's definitely over now!"

"The Dragon Sect is going to be annihilated now!"

"It's finally over. The Dragon Sect is too strong! Even with the four old men with Immortal-like strength, they still managed to kill over a hundred Inborn experts from our side. This is insane!"

"Tsk! The Dragon Sect would never have expected our side to have four Immortal-like existences! With the four old men on our side, the Underworld will be Eternal Sacred Sect's in the future!"

Around the battlefield, martial artists that were below the Inborn Realm were shocked and exhilarated to see members of the Dragon Sect being killed one after another.

After annihilating the Dragon Sect, they would be the rulers of the Underworld in the future.

The battle had also caused a huge ruckus on the Underworld website.

It was especially so for the terrifying strength of the four old men. The scenes of those thousand-meter-tall fire pillars and the destruction of the mountains with a wave of their arms had made everyone feel they were exceptionally minuscule in this world.

Even those from the Sacred Clans and Sacred Sects were astonished and fearful.

"Insane! Those four old men are too terrifying. Are they the Immortals recorded in history? It seems like the entire Underworld will be Eternal Sacred Sect's after today!"

"Haiz! They aren't something we could possibly resist. After this battle, let's

surrender to them!"

"Their strength is probably equivalent to those powerful forces internationally. This is insane. The Underworld is going to be unified!"

"Before the four old men, those so-called Sacred Sects are just ants that could be annihilated with a wave of their arms. It's not surprising that Sect Leader Nie Wushuang and Emperor Qi are willing to surrender and join the Eternal Sacred Sect!"

"After this major battle, let's surrender to them too!"

"Even if the Dragon King is still around, he's still going to be killed if he faces the four old men. There's nothing to change the current situation now. Just prepare to surrender!"

When all the forces of the Underworld witnessed what happened, they gasped in awe.

All the forces had decided and prepared to surrender after this battle.

This was because the strength displayed by the four old men wasn't something they could possibly hope to resist.

"I recall that some families in Rivertown are firm supporters of the Dragon Sect. In that case, let's annihilate those people to express our loyalty!"

Some first-class and second-class forces had made up their minds.

The annihilation of the Dragon Sect had been cast in stone. Similarly, the unification of the Underworld had also been cast in stone.

At this moment, what they should do was get on the good books of Eternal Sacred Sect. In fact, it would be even better if they could join and become a subsidiary sect.

"Go!"

Several families moved rapidly. They wanted to express their loyalty and sincerity as much as they could before the Dragon Sect was annihilated.

"Bring these girls back for interrogation!"

The Dragon Sect had suffered catastrophic losses. Only thirty to forty dragonians remained standing on the floating island.

An old man stood in the air and looked down on them with a sense of superiority. His eyes landed on Xiao Yu, Adjaya, Guan Shuqing, and the other three girls as he remarked with anticipation.

"Yes! Your Excellency. Leave them to us!"

The crowd from Diabolism revealed vile smiles as they stared at Xiao Yu and the other girls.

"Hehe! The girls of the Dragon King! I'm getting excited at just the thought of it!"

A middle-aged man with a long tongue licked his lips as he walked towards the girls with contempt.

"Be careful of those two girls!" an old man reminded.

"It's going to be fine. With Your Excellency here, we will be fine!" The middle-aged man smiled.

The two leaders from Crimson Bug grinned creepily as they stared at Xiao Yu and the girls.

"Capture us? Forget about it! You aren't going to capture us even if we die!"

Xiao Yu, Guan Shuqing and the other girls revealed determined looks.

"Get closer to me! Get ready!"

Adjaya held onto the truncheon in her hands tightly and spoke softly to Xiao Yu and the other girls.

Xiao Yu, Elder Fang, Guan Shuqing, Lan Qingyue, and Sun Lingxue moved slowly towards Adjaya.

"We are going to have some fun ourselves after capturing them! Hehe! The girls

of the Dragon King!"

The middle-aged man with the long tongue made a weird sound before charging ahead!

"Kill!"

When Mo Qinglong and the remaining dragonians saw them, they flapped their wings violently and charged towards them.

"Ants!"

Seeing that the dragonians were still resisting, the truncheon in the hands of the old man glowed dazzlingly. A huge cage appeared in the sky and swooped down.

Sss!

Mo Qinglong and the other dragonians lifted their heads and felt helpless.

"A futile struggle!"

When the surrounding crowd saw the flaming cage descending from the sky, they were deeply impressed and remarked excitedly.

"Let's go!"

Adjaya's hands shook when she saw the four old men attacking.

Gradually, fresh blood flowed out from her arm and towards the truncheon.

A ring of fire appeared and surrounded the six of them.

"Adjaya!"

Guan Shuqing, Lan Qingyue, and Sun Lingxiu were flustered to see fresh blood gushing out from Adjaya's arm.

"Don't leave the defensive circle!"

Adjaya remarked with a pale face. She pulled a long face and continued, "Go!"

The next instant, Adjaya spat a mouthful of fresh blood on the truncheon. The surrounding ring of fire started circulating at a terrifying speed.

"Huh? Escaping?"

When the four old men saw the actions of Adjaya, they smirked. "Will we let you escape?"

"Flaming Cell!"

An old man lifted his truncheon and pointed in the direction that Adjaya and the rest were escaping towards.

Weng!

A huge Flaming Cell appeared once again. Although it wasn't as powerful as the Pyro Cell, it still emitted heart-wrenching might.

"Move away!"

Guan Shuqing was infuriated. Her face was flushed as she raised the Fire God Lotus truncheon and released scorching hot fireballs.

However, the fireballs did not have much effect when they landed on the Flaming Cell.

"He won't be able to stop us!" Adjaya remarked anxiously. The ring of fire turned even more rapidly and flew towards the sky.

Bam! Bam! Bam!

When the ring of fire contacted the Flaming Cell, intense collisions gradually created cracks in the cell!

"If you could escape from the four of us, we would have lived our lives in vain!"

Ruthlessness flashed across the eyes of an old man when he saw the collapsing Flaming Cell.

"Heaven and Earth. Flaming Cell!"

"Heaven and Earth. Flaming Cell!"

...

Beside the old man, the other three old men shouted. Streams of fire shot across the sky and formed an even more terrifying Flaming Cell.

Adjaya was astonished to see the Flaming Cell from all directions. She spat another mouthful of fresh blood on her truncheon once again!

"Let me teach you all a lesson first!"

An old man waved his arm and a flaming long spear was thrown towards Adjaya at an incredible speed.

Adjaya who was manipulating the truncheon was caught by surprise.

"Let me stop it!"

Guan Shuqing moved to stand before Adjaya instantly when she saw the approaching flaming long spear.

"No! Sister-in-law, you are too weak now! My defense is stronger!"

Xiao Yu wanted to push Guan Shuqing away.

"Xiao Yu, you are already injured. Leave this to me! I have the essence blood of a Suzaku. Perhaps I can reach nirvana. Perhaps I can be reborn with even greater strength. Otherwise, it would be hard for us to escape this time!"

Guan Shuqing was resolute. Feeling the scorching hot attack, she grimaced and placed both arms before her.

"Futile attempt!"

Seeing Guan Shuqing trying to stop the attack, contempt flashed across the eyes of the four old men.

Pfft!

The red flaming long spear easily pierced through Guan Shuqing's defense and

penetrated her body.

The girls around Guan Shuqing were filled with despair. Sun Lingxiu instantly injected streams of Light Energy into her body.

"Please! Let me reach the state of nirvana!"

A teardrop flowed out of Guan Shuqing's eyes. Feeling the vitality leaving her body, she mumbled to herself.

"NO..."

At this moment, a frenzied roar reverberated across!

# Chapter 625: Massacre Of The Underworld (1)

"NO..."

A frenzied roar reverberated across, shaking the entire Earth.

A figure was charging towards Guan Shuqing and the rest at a terrifying speed.

"Shuqing!"

The incoming person was none other than Wang Xian. He had flown to Rivertown at an ultra-fast speed, but he was still late.

Fire shot out from his eyes as he stared at the chest of Guan Shuqing that had been pierced through. A cloud of terrifying killing intent surged in his heart as though a devil was going to break out of its shackles!

"Xiao Xian!"

"Xiao Xian!"

"Brother!"

"Dragon King!"

Upon seeing the sudden appearance of Wang Xian, Xiao Yu, Lan Qingyue, Adjaya, Sun Lingxiu, and Elder Fang, who had lost all hope, immediately cried out in happiness.

"Xiao Xian, save Shuqing now. Now!"

Lan Qingyue's tears rolled down her cheeks immediately. The moment Wang Xian appeared, she could finally let down her toughness and cried out sadly.

"Brother, check out sister-in-law Shuqing. Quick!"

Upon seeing Wang Xian, Xiao Yu finally had someone to rely on as she cried loudly.

"She will be alright. She will be alright!"

With bloodshot eyes, Wang Xian hugged Guan Shuqing as he mumbled.

Seeing the Guan Shuqing's chest had been pierced through, Wang Xian's dragon energy rushed frantically into her body.

With an arm swing, he popped some Level 7 Spiritual Medicine into her mouth. Panic filled his face as he stared at Guan Shuqing. "You'll be alright!"

Wang Xian was quivering slightly.

"Xiao Xian, you're back. That's great. I won't die. I can reach Nirvana and be reborn again!"

Seeing Wang Xian's return, Guan Shuqing squeezed out a smile as she whispered to him.

"No, rest assured. I will not let you die. Nobody can take you from me!"

Wang Xian touched the chest of Guan Shuqing, sensing her vitality vanishing within her body as she turned cold.

"Good to hear that. I don't want to leave you yet. I just want to rest. Rest..."

As Guan Shuqing said this, she closed her eyes.

Wang Xian slowly shut his eyes as he sensed her weakening heartbeat. Dragon Energy continued to stream into her body frantically.

But that could hardly maintain her faltering heartbeat.

This struck coldness into Wang Xian.

"Dragon King, it's the Dragon King. He's back. Gosh!"

Just then, the surrounding crowd began exclaiming in surprise.

The crowd, including those Inborn Experts, were full of astonishment, with fear in their eyes the moment they saw Wang Xian hover over.

Reputation was all that mattered!

The terror that the Dragon King brought along with him was carved in their bones. Hence, the sudden appearance of the Dragon King struck horror on everyone's faces.

Many Martial Artists involuntarily staggered back in trepidation.

"What's there to be afraid of? So what if the Dragon King arrived? Even if another Dragon King arrived, they would die today!"

At this time, the leader of the Crimson Bug of Diabolism yelled, staring coldly at Wang Xian, with eyes that surged with killing intent!

"That's right. So what if the Dragon King is here? He's here for his death!"

"He's just in time. Today we will witness the slaying of the dragon!"

All the Martial Artists had come to this realization after the leader of the Crimson Bug shouted.

They cast their gazes at the Dragon King, then back to the four elders.

With them around, so what if the Dragon King was here?

Even two Dragon Kings would die, let alone the one that was here.

On the Underworld forum, everyone was horrified to see the appearance of the Dragon King.

But soon, they relaxed again after seeing the oppressive four elders.

Given such a situation, even the Dragon King would not be able to turn the tables around. The four elders were simply too daunting.

"Dragon King, I did not expect you would be still alive!"

Upon seeing the sudden appearance of Wang Xian, Nie Wushuang and Emperor

Qi revealed a surprised look.

They thought the Dragon King was dead. But it turned out otherwise.

If not for that Immortal from Yong Chang world saving them, they might have perished.

They did not expect that the Dragon King was such a lucky person!

"The Dragon King is tough!"

Emperor Qi stared coldly at Wang Xian and revealed a faint smile.

"Oh? This is that Dragon King?"

The four elders studied Wang Xian with curiosity.

"Hehe, a famous figure in the real world. Dragon King, lucky you're not dead yet. Otherwise, we would be missing a talent in the real world. That would be a pity!"

Subsequently, the four elders chuckled and fixed their eyes on Wang Xian with ease. There was a taunting look in their eyes.

The unparalleled talent in the real world to them was just a slightly more powerful ant.

So what if his cultivation had advanced to Budding Realm? In terms of combat power, he was still far off.

"Not bad for a lad to reach this stage. Since he could also get his confidants to this stage, he must have obtained some scary legacy. Nice. Tell us about it, and we'll give you a quick death!"

An elder beamed at Wang Xian as he spoke.

In his view, it was a surprising joy to see Wang Xian.

"Ss, how domineering. Nobody dared to speak to the Dragon King in the Underworld for very long!"

"The ones who dared to do so are now dead men. However, I'm afraid it will not be the same again!"

"They totally disregarded the Dragon King. However, the four god-like elders are fit to do so!"

Everyone was astonished by how the four elders spoke to Wang Xian in an overbearing manner.

It used to be the Dragon King era. But now, it was coming to an end!

"It's great to have the Dragon King here, now that we can witness the dragon-slaying!"

Everyone switched into a different mood as they fixed their eyes fervently. It was the slaying of Dragon!

That arrogant yet invincible Dragon King!

Wang Xian overheard the conversation around him without any words. He lowered his head and wiped the blood from the corner of Guan Shuqing's lips.

He stood up gently, carrying her body, looking at his sister.

He turned and looked at Lan Qingyue, Sun Lingxiu, Adjaya, and Elder Fang.

Wang Xian stretched out his hands and wiped their tears off their cheeks.

"I'm late!"

Wang Xian stared at the pale-looking girls with heartache. He took out elixir pills and fed them to them.

"No, Xiao Xian. You're not late!"

Lan Qingyue's eyes were red as she could not help but cry again.

"Glad that you're here!"

Adjaya felt a load off her shoulders as she curved her lips, revealing a goddess-like smile.

"Over to you, Xiao Xian!"

Sun Lingxiu, as usual, believed in Wang Xian as she spoke to him.

Wang Xian smiled at them and spun around slowly. Instantly, his face became utterly cold!

As though the winter had come, with the devil descending upon Earth.

He swept his gaze across the bodies of the dragonians and Golden Swordfish with boiling murderous intent within him.

# Chapter 626: Massacre Of The Underworld (2)

Only two Level 11 swordfish remained from the golden swordfish race.

As for dragonians, thirty-one survived.

Catastrophic losses. Out of two hundred members of the Dragon Sect, less than one-fifth remained.

Wang Xian took a deep breath, looked across everyone and said emotionlessly, "I'm back!"

I'm back!

The four cold words entered the ears of the five to six thousand people present.

"You are just in time to be buried with your Dragon Sect and the rest!"

Nie Wushuang stared harshly at Wang Xian upon hearing him.

The Dragon King had killed over ten Inborn experts from his Dong Hua Sacred Sect and overwhelmed the Dong Hua Sacred Sect with strength. He had long wanted to kill him!

"Haha! Dragon King! You are just in time! Today, my Crimson Bug can finally have its revenge!"

"Let me tell you this. After your death, I will ruthlessly torture your girls. I'll let my bugs crawl into their bodies. I'll let them experience something worse than death! Hahaha!"

The two leaders of Crimson Bug laughed hysterically and their eyes were beaming with bloodlust.

"Haha! Dragon King, you have killed the Attendants and Elders of my Dong Hua Sacred Sect. Today will be the day you die!"

Nie Wuya also stared at Wang Xian with ecstasy. His face was contorted as he laughed hysterically.

"Slay the dragon!"

"Slay the dragon!"

"So what if you are back? Haha! We are going to slay the dragon!"

At this moment, the surrounding crowd of martial artists faced Wang Xian without fear.

At this moment, they were completely fearless towards the Dragon King that had once instilled complete fear in them.

They were unusually excited about torturing and killing a supreme expert.

"All of you will die. All those families and forces that participated today will never have another day of peace!"

Wang Xian looked at the crowd before him. Gradually, the anger in his eyes dissipated and was replaced with apathy. Cold and nonchalant apathy.

"Haha! The Dragon King still isn't aware of what the situation is!"

"He's still not aware of what kinds of existences he is facing!"

"That's right! If the Dragon King knew about the terrifying strength of the four old men, I wonder if he would dare to be so arrogant and brazen!"

"I would love to see how the Dragon King is crushed easily onto the ground!"

When the martial artists heard Wang Xian, their faces were filled with contempt.

"Brat, I really hate your arrogance!"

Among the four old men, the old man standing in the middle extended his arm.

"It's going to start. That terrifying old man is going to strike!"

When the surrounding crowd saw the actions of the old man, they were instantly

exhilarated.

"Fire Grip Strangulation!"

The old man lifted his arm and was wearing a fiery-red glove. The next instant, a palm that spanned a dozen-odd meters grabbed towards Wang Xian.

"You guys must be from Yong Chang Immortal Sect. If Shuqing is in any form of danger, I'll send your entire Yong Chang Immortal Sect to hell to accompany her!"

Wang Xian stared at the four old men and commented plainly as though he was saying something ordinary.

Huh?

The four old men were astonished to hear what Wang Xian said. Their faces turned solemn instantly as they remarked, "Arrogant brat! This old man here will slaughter you!"

The old man lowered his arm and that huge ten-meter palm, that was seemingly made of lava, pressed towards Wang Xian!

"Haha! When I, the Dragon King, slaughtered a hundred men in Yong Chang Immortal Sect, your Hong Yan Excellency didn't even dare to say a word. What are you guys?"

Bloodthirst gleamed in Wang Xian's eyes as he lifted his arm slightly.

Boom!

That giant flaming palm that was pressing down towards Wang Xian collapsed instantly into streams of water.

"I have made up my mind to massacre this Underworld!"

Wang Xian lifted both of his arms.

"What?"

When the four old men saw the flaming palm collapsing, their expressions

changed drastically.

Their hearts had already skipped a beat when they heard Wang Xian mentioning Hong Yan.

"How can this be possible? Brat, how dare you call our Sect Leader by his name and make such brazen claims...!"

An old man was infuriated and dense flames rose from his body.

At this moment, he was just like a terrifying volcano.

However, before he could finish his words, sounds of water flowing could be heard.

"What? Gosh! What is that?"

Suddenly, to the horror of the martial artists around, they noticed that the surrounding seawater was rising.

They were in the middle of the sea initially. At this moment, the surrounding seawater was raised.

It reached a height of over a thousand meters rapidly and surrounded everyone.

"From today onwards, my Dragon Sect will massacre the Underworld. Everyone and anyone who participated in this matter will never have another day of peace!"

Wang Xian looked plainly across the astonished five to six thousand people. Horrifying seawater swept towards them like a giant waterfall.

"What? No... No... How can this be possible...? This attack! How can this be possible!"

With Wang Xian at the center, the radius of several thousands of meters was surrounded by a wall of water that was several thousand meters tall. The terrifying scene was just like what an Immortal was capable of.

No... He's even stronger than Immortals. Just a while ago, they thought that the

might the four old men had displayed was sufficiently shocking.

At this moment, compared to the might the Dragon King displayed, it was like comparing a drizzle to a downpour.

The terrifying scene shrouded a radius of five to six kilometers.

What was the meaning of this?

"Shit. He... How could he have such terrifying destructive forces?"

The four old men were astonished and weren't showing any traces of the composure they had previously. Feeling the terrifying water energy around them, their minds and hearts were shaken to the core!

"This can't be real! What he said can't be real. This is impossible! An Immortal-level attack! This definitely cannot be possible!"

The four old men roared. They flexed their bodies and terrifying flames shot through the clouds.

Boom!

However, a terrifying stream of water smashed onto them directly.

Everyone was staring at the four old men anxiously and watching them resisting the streams of water. Their foreheads were filled with perspiration and eyes were filled with fear.

Dang!

The water streams coalesced into water swords that were over a thousand meters in size before falling from the sky.

They clashed with the flames, making sizzling sounds. However, the water energy in the atmosphere was too overwhelming. The flames were rapidly extinguished!

Boom!

"NO! NO!"

The four old men were flabbergasted as they struggled to keep the flames around them to resist the water swords.

"I won't let you guys die so easily!"

Wang Xian stared at them before looking across the crowd. His voice was that of a devil to the crowd.

When the surrounding martial artists saw the four old men incapable of withstanding a single strike from Wang Xian, the despair on their faces was magnified countless times.

The seemingly immortal-like four old men in their eyes couldn't even withstand a strike from the Dragon King!

Not even a single strike!

How great were the differences in strength?

Boom!

At this moment, they felt like they were shrouded in seawater instantly. They didn't even have the strength to put up any resistance.

The seawater had even shrouded Nie Wushuang and Emperor Qi.

Both of them widened their eyes which were filled with utter disbelief.

"Argh! The seawater is heating up! Argh! I can't take this!"

Screams of horrors resounded as the gate to hell was opened!

# Chapter 627: Massacre Of The Underworld (3)

"NO! We can't defend it. We have no resistance against it!"

Fear and despair!

"Argh, it's the boiling water. How can it hit such a daunting temperature?"

The world seemed to have come to an end when the surrounding crowd heard the shrieks from the four elders.

Their end had arrived.

Sensing their bodies being boiled over by the seething water, they knew that the Dragon King was turning this place into a living hell.

They would be tortured to death.

"No, I don't want to die. Dragon King, it's my fault. But it's all because of Donghua Sacred Sect and Devil Corpse Palace! They were the ones!"

Fear crawled upon the faces of several Martial Artists as they tried to struggle out but their efforts were in vain.

Argh!

Nie Wushuang let out a bellow as he exuded domineering golden radiance.

Yet, the golden radiance was unable to get him out of the water region.

The same went for Emperor Qi.

All of them, including the four elders, were in the same situation!

"Immortal Realm. You have advanced to the Immortal Realm! Ah, how is that possible!"

Sensing the pain coming from their bodies, the four elders shouted at Wang Xian in consternation.

Recalling what Wang Xian just said, they were certain about it.

Their expressions sank into despair.

"Enjoy the arrival of death!"

Looking nonchalant, Wang Xian swept his gaze across everyone before he turned and walked toward the dragonians.

"Dragon King!"

Upon seeing the arrival of Wang Xian, Mo Qinglong knelt down along with the rest of the dragonians.

"Mm, take it!"

Wang Xian gave a simple nod and tossed a Level 5 elixir pill to each of them. He looked around at the bodies on the ground.

"Dragon King, they should be able to be resurrected!" Mo Qinglong said respectfully when he saw Wang Xian scanning around.

Wang Xian remained quiet as he looked at him.

"Dragon King, this is the Soul Returning Branch that I got from the Dragon Palace!"

Mo Qinglong pointed to a greyish branch in the middle of the floating island as he spoke.

"Hur?"

As Wang Xian looked at the glowing branch, a hint of unexpected joy flashed in his eyes.

"When Nie Wushuang and Emperor Qi returned a few days ago, I was afraid they might be up to no good. Hence, I went back to the Dragon Palace. Initially, I wanted some of the members from the Dragon Palace to follow me back. But I

can't command them, and they ignored me. Prime Minister Turtle said the Dragon Palace needed guards, and none of them could leave without your orders. But he gave me a Soul Returning Branch and said this would help us tide ourselves over in resisting crisis when in danger!"

Mo Qinglong accounted to Wang Xian respectfully.

"Mm, it was a thoughtful idea from Prime Minister Turtle!"

Wang Xian looked satisfied with it. Mo Qinglong had wanted some of the members from Dragon Palace to be present here, but Prime Minister Turtle and the rest would definitely ignore Mo Qinglong as no one else could command them except himself.

But luckily, Prime Minister Turtle was being thoughtful by getting Mo Qinglong to bring forth a Soul Returning Branch. Otherwise, their loss would have been rather huge.

"Roving Sword!"

Wang Xian shouted to Roving Sword.

"Yes!"

Roving Sword walked over immediately as he lowered his head in respect.

"Old Mo, inform Omniscient Group. Those who were involved in attacking my family, our sect, kill them all. No matter how many forces have participated in this, no one stays alive!" said Wang Xian coldly. "Roving Sword, you'll follow them!"

"Yes, Dragon King!"

Frantic killing intent surged within the eyes of Mo Qinglong and the rest of the dragonians.

Even Roving Sword held his fist tight with golden radiance flickering in his eyes.

This time, there were only two of the Golden Swordfish clan left. As the leader

of the clan, he had to slay all the enemies!

"You guys provoked me first. Don't blame me for being cruel. This time, I'll massacre the entire Underworld!"

Wang Xian slowly turned around and surveyed his surroundings.

At this time, it had become a living hell.

Despairing screams and agonized shrieks were ringing in his ears nonstop.

"Dragon King, you'll die horribly!"

Nie Wushuang, Emperor Qi, and the rest of the experts from Sacred Sects and Sacred Clan growled ferociously with trepidation on their faces when they heard Wang Xian.

Dragon King is going to annihilate clans and sects!

This time, it's a complete wipeout!

This struck desperate rage and immense fear into all of them.

What awaited their loved ones and friends would be the insane revenge of Dragon Sect!

"You guys did the same thing to my Dragon Sect. I'm just paying you back!"

Upon hearing their despairing screams, Wang Xian let out a clap of cold laughter. "Go to hell and make your confession!"

Argh!

"No, please let my family go!"

"NO, NO. Dragon King, I was wrong. I beg you, please!"

All of them panicked and shivered in their boots.

However, Wang Xian remained unwavering. If he had not arrived today, all the people in Dragon Sect would have been killed.

They would not have let off his loved ones and friends.

So why should he let them off?

"Do it now!" Wang Xian commanded Mo Qinglong and Roving Sword coldly.

"Yes!"

Dragonians and Roving Sword responded loudly.

Roving Sword swung his arm and supported their bodies with a longsword. Then they disappeared at a daunting speed.

"Send the information of those forces and enemies who participated in besieging us. We are going to pay them back!"

After hovering out of the scary sea region, Mo Qinglong contacted a dragonian in the Omniscient Group right away.

As of now, the biggest intel group, Omniscient Group, was under the control of Dragon Sect. Obtaining information was a piece of cake.

"Yes!"

"Currently, there are three first-class forces and two Second-class forces in Rivertown. They posted that they will be off to kill those families that befriended the Dragon King!"

"The forces who participated in besieging us are Donghua Sacred Sect, Devil Corpse Palace, Devil Spirits Temple, Dongmen Clan, Dark Sect..."

"On the Underworld forum, those forces who supported in annihilating Dragon Sect are Qingtian Sect from Gu City, Hua and Han Family of Modu..."

Soon, Mo Qinglong got hold of all the information.

While Omniscient Group was running at full force, Roving Sword began the massacre with 31 Dragonians at a domineering speed.

However, the live update on the Underworld forum had not been updated for more than ten minutes.

Today, 99 percent of the Martial Artists who were not present in Rivertown were staring at the live update on the forum.

All the Martial Artists of the Underworld were surprised to see that the live update had stopped updating for more than ten minutes!

"What's going on? Update it now! Didn't Dragon King arrive? What is happening? Was the Dragon King killed?"

"Quick, show us the dead body of the Dragon King. It has been more than ten minutes, why aren't there any updates?"

"Tsk tsk, could it be that the Dragon King has been killed and now they are trying to clean up the scene? Why is the update so slow?"

"Update now. Otherwise, I'll curse you for being killed by the Dragon King!"

After more than ten minutes of silence, all the Martial Artists in the Underworld were anxious about it.

What's going on? Post the pictures of the Dragon King getting killed now!

# Chapter 628: Blood Flowing A Thousand Miles (1)

All the martial artists were staring anxiously at the Underworld website for updates from Rivertown. However, half an hour passed by quickly and there wasn't any news updated on the Underworld website.

"What's the matter? What's the situation now?"

"Even if the Dragon King has arrived, all the matters should have been settled by now. Why isn't the thread being updated? Could it be that the original poster was killed?"

Some martial artists stared at the Underworld website and felt that something wasn't right. A bad premonition started weighing over their minds.

As for the families and members of Dong Hua Sacred Sect, Devil Corpse Palace, Dark Sect and some other Sacred Clans and Sacred Sects, they hesitated for a moment before attempting to make calls. However, none of them got any responses.

This undoubtedly made them feel that something bad had happened.

However, they shook their heads violently soon.

It's impossible. It's cannot be. Sect Leader Nie Wushuang and Emperor Qi were so strong. More importantly, there were four other Immortal-like old men with them.

They had witnessed how terrifying these four old men were. Each action of theirs could bring forth catastrophic destruction. Existences like these weren't something that the Dragon King could handle.

Time passed by gradually.

At this very moment, Xue Family of Rivertown was one of the top Ancient

Martial Arts Families in Rivertown. Due to their relations with the Dragon King, no one in the Underworld would dare to offend the Xue Family.

Within the backyard of Xue Family's villa, Old Xue lay on the floor and was coughing out blood. Xue Jiahua and Xue Jing were also on the floor with pale faces.

The three generations glowered furiously at the group of people before the door and their eyes were filled with despair.

"Tsk! The Xue Family sure is weak and small. The only thing you could blame would be following the wrong master and forces. Since you are on great terms with the Dragon King, you guys can meet him in hell!"

In the middle of the courtyard, a group of twenty-plus martial artists stared harshly at the Xue Family. All of them had hideous and gruesome looks on them.

"Cough, cough! Our Xue Family is contented to have enjoyed the glory days!"

Old Xue smiled bitterly and had seemingly accepted his impending death.

The Dragon King was killed and the Dragon Sect was annihilated. To show their loyalty to the Eternal Sacred Sect, this group of people before them wanted to annihilate his Xue Family.

He looked at his son and grandson beside him. Although he was bitter, he heaved a long sigh.

"Grandpa, there's nothing to fear about death. After all, we have enjoyed the glory days. Hehe! It's been worthwhile!"

Xue Jing grinned at his grandpa before turning to stare coldly at the group of people before them. "If the Dragon King can make it past this disaster, he will definitely take revenge for us. All of you will suffer gruesome deaths!"

"Haha! Dragon King? He's dead by now! Before the four Immortal-like experts, he has probably been reduced to dust by now. You can show your loyalty in hell! Haha! In the future, there'll no longer be any Dragon Sect or Dragon King in the Underworld!"

An old man standing in the middle laughed hysterically at them. "Today, we will grant you a quick death. Go join your Dragon King in hell!"

Hahahaha!

Hysterical laughter resounded in the backyard of the Xue Family. Three middle-aged men smirked and walked towards the three generations of the Xue Family with their longswords.

"There's nothing to fear about death!"

Old Xue gritted his teeth, shut his mouth, and then shouted.

"Hehe! In that case, die!"

The three middle-aged men swung their swords towards them.

Bam! Bam! Bam!

The three generations of the Xue Family closed their eyes in despair as they waited for death to descend upon them.

However, all they heard were sounds of things falling to the ground. The pain, which they had expected, did not come.

This shocked the three generations of the Xue Family.

"The Dragon Sect would not let the friends of our Dragon King die!"

A faint voice reverberated and Old Xue jerked opened his eyes. He saw over thirty people in the air. After a brief moment of feeling lost, excitement beamed in his eyes.

"Old Mo, you guys..."

Old Xue's body shivered in agitation as his eyes beamed with fervor.

"Our Dragon King shall shine forever like the sun and moon. Those who offend the Dragon King or the Dragon Sect shall all die!"

Mo Qinglong nodded his head at Old Xue. Following which, he got back onto

the golden longsword and flew away.

"Dragon King... The Dragon King isn't dead!"

"The Dragon King isn't dead!"

Xue Jiahua and Xue Jiahua opened their eyes and saw the disappearing crowd of dragonians. When they saw the twenty-odd people who were still going on about killing them moments ago on the floor, exhilaration was written all over their eyes.

"If the Dragon King isn't dead, then...!"

Old Xue stood up gradually and his eyes beamed with fervor.

"Nie Wushuang from Dong Hua Sacred Sect, Emperor Qi of Diabolism and the four old men were finished. They definitely have been killed by the Dragon King!"

Xue Jing continued the sentence for his grandfather. His face was flushed red from excitement as he cheered, "Haha! Great! This is perfect!"

Xue Family, who had been in despair moments ago, were in ecstasy after surviving the ordeal.

"Let me check the information on the Underworld website!"

Xue Jing took out his phone immediately. "There isn't any news on the Underworld website yet and the livestream broadcast stopped after the Dragon King appeared. It seems like they were all killed!"

"Let's just wait for news from here onwards!"

Old Xue's eyes flickered. "From here onwards, they will be awaiting the anger of the Dragon King!"

The anger of the Dragon King!

Old Xue knew Wang Xian well. He was a friend who valued relationships.

If he was your enemy, he definitely wouldn't show mercy or compassion!

On the Underworld website, it had been an hour since the last update on the return of the Dragon King appeared on the livestream thread.

The more time that passed, the more flustered some people felt.

It was especially so when no one could contact the experts who had gone to annihilate the Dragon Sect. Unconsciously, everyone had a bad premonition about the incident.

"Shocking! Dong Hua Sacred Sect has been annihilated. Not a single disciple remains!"

One hour and five minutes later, a thread appeared on the Underworld website and sent shockwaves throughout the Underworld.

When everyone clicked into the thread, they were instantly dumbfounded.

Blood and destruction represented the current Dong Hua Sacred Sect.

Those pictures of corpses made everyone feel as if their scalps were going numb. Fear that originated from one's soul spread across their entire body!

The pictures on the thread were all pictures of the corpses of Dong Hua Sacred Sect's disciples. Moreover, these corpses could be found throughout the entire Dong Hua Sacred Sect.

The original poster was a friend of an Attendant of Dong Hua Sacred Sect. Ten minutes before, he had headed to Dong Hua Sacred Sect and witnessed a horrifying scene.

"Dong Hua Sacred Sect was annihilated. Gosh! What happened? Who did it?"

"Dong Hua Sacred Sect was annihilated! Everyone in the number one Sacred Sect of the Underworld has now been slaughtered. Gosh! Who's the one responsible?"

"What happened? Why would Dong Hua Sacred Sect be annihilated?"

Looking at the pictures on the thread, everyone shivered in fear. The largest Sacred Sect in the Underworld had been annihilated without a single person

surviving!

"Could it be the acts of the Dragon King and the Dragon Sect?"

Some people's eyes widened. At the thought that no news was coming from Rivertown, a terrifying thought surfaced in their minds!

# Chapter 629: Blood Flowing A Thousand Miles (2)

Donghua Sacred Sect was annihilated with no one left in the ancestral sect.

When the news got out, the entire Underworld was blown away.

Soon, some of them guessed that Donghua Sacred Sect had been annihilated by Dragon King and Dragon Sect.

That was because everyone lost touch with Rivertown after the Dragon King's return.

They made a bold speculation that those who tried to annihilate Dragon Sect had all been killed by Dragon King.

Boom!

"Gosh, gosh. Devil Corpse Palace is being annihilated!"

Just as everyone was still overwhelmed by the fact that Donghua Sacred Sect had been annihilated, another shocking piece of news came by.

Devil Corpse Palace, the strongest ancestral sect of Diabolism, was annihilated.

Sss...

When the news was out, everyone drew in a cold breath.

Devil Corpse Palace was not any weaker than Donghua Sacred Sect. Yet, it was exterminated too.

On the same post were various photos with the corpses of the Devil Corpse Palace disciples.

None of them were alive. The entire Devil Corpse Palace was quiet as hell.

"It must be the Dragon King. It must be him. He's the only one who could annihilate Donghua Sacred Sect and Devil Corpse Palace. The Dragon King is not dead. He's annihilating all those who besieged the Dragon Sect!"

"I had a bad feeling ever since that live update stopped updating. The Dragon King is not dead, and it looks like Dragon Sect has begun taking their revenge!"

"Within an hour, the strongest Sacred Sect of the orthodox sects and Diabolism were annihilated. This is too fast and furious! Scary!"

The downfall of Devil Corpse Palace had made everyone believe that the Dragon King was not dead, and that Dragon Sect had not been exterminated.

On the contrary, those who besieged Dragon Sect were all gone by now!

This shocked everyone.

"With the downfall of Donghua Sacred Sect and Devil Corpse Palace, the revenge of the Dragon King has begun. I'm afraid those forces that participated in the siege are finished!"

"The forces who participated account for sixty percent of the families and Sacred Sects from the orthodox sects and Diabolism in the Underworld. Can the Dragon King take revenge on them one by one?"

In less than twenty minutes, their speculation was answered.

Devil Spirits Temple of Diabolism was annihilated!

Half an hour later, Dark Sect was annihilated!

An hour later, Heavenly Sound Sect was annihilated!

An hour and a half later, Dongmen Clan was annihilated!

In just two hours, news of the various Sacred Sects and Clans being annihilated kept coming.

This time, no one in the sects lived.

The entire Underworld was plunged into silence when they saw the messages

uploaded onto the forum.

Soon after, some of the people became frightened as their families and ancestral sects had participated in the siege.

This struck an immense terror into them.

"Quick, disperse, everyone. All of you, find a place to hide. Those who can leave the country, leave now!"

Back in Han Family in Modu, all the family members revealed a frightful look when they read the news of the downfall of various Sacred Sects and clans.

It was to their ultimate surprise that the siege of Dragon Sect had actually failed.

They knew very well of the four elders' strength. If such domineering existences failed, Han Family was nothing to them.

Fear crept into them. Without any hesitation, the Family Head of Han Family ordered them to run as far as they could!

"Do you think you can escape?"

At this time, Roving Sword and members of Dragon Sect appeared in the air within the huge villa of the Han Family. They were glowering at the Han Family, who was freaking out!

"What? How did they make it here so fast?"

When the members of the Han Family heard Mo Qinglong, they craned up and yelled in quivering voices.

"No, please. Don't kill us. We surrender. Don't kill us!"

When the Family Head of Han Family saw the disciples of Dragon Sect in the air, he was utterly devastated as he fell to his knees, begging for mercy.

"Kill!"

The cold voice took away all the hopes of the Han Family as all of them fell into despair.

"Let's go!"

No one in the Han Family was alive three minutes later. Roving Sword led Mo Qinglong and the rest to their next destination.

Given Roving Sword's speed, it would at most take him one hour to fly from the farthest point east to the farthest point west in the country.

Due to their daunting speed, the families and ancestral sects were annihilated before they could even react.

No one left alive!

When the group of forces besieged the Dragon Sect, trying to kill the Xue Family, they did not intend to leave anyone alive.

Hence, Mo Qinglong and the gang would not go soft on them.

None of them could stay alive in this massacre!

Han Family was annihilated!

Liu Family was annihilated!

....

News of the ancestral sects and families quickly filled up the entire Underworld forum.

The entire Underworld went into complete silence while all the ancestral sects and families gasped.

At this moment, the world seemed to have quieted down.

All the Martial Artists grew numb with the messages that they read. They were just staring blankly with all the forces having been wiped out.

Once the Dragon King rages, blood flows for a thousand miles!

Almost sixty percent of the families and ancestral sects in the Underworld had participated in the siege of Dragon Sect.

Yet, these forces were reduced at a daunting speed.

Finally, someone on the forum confirmed that the one behind this was Dragon Sect at 8 PM.

Although the news did not create much of a ruckus in the form, everyone was still stunned by it.

How strong is the Dragon King?

And how strong is the Dragon Sect?

The four elders were already domineering, just like immortals. Yet, they were still killed by the Dragon King.

Tonight was a sleepless night for the Underworld.

Hours passed and dawn broke. The sun rose into the sky.

As time passed, the sun set and the moon was hanging in the sky.

Over thirty hours had passed!

[All the Martial Artists in the Underworld were reduced by sixty percent. None of those forces that participated in the siege survived!]

[No one escaped. Not even those families and ancestral sects who received news early.]

[Dragon Sect spent fifteen hours wiping out all the ancestral sects and families, and another ten-odd hours to round up those who tried to escape.]

[Gosh, the Underworld is down by sixty percent of its Martial Artists!]

[Once the Dragon King rages, blood flows for a thousand miles!]

[Everyone will pay respect to Dragon Sect. Anyone who offends them will die!]

New posts began to surface in the forum. But the Martial Artists could clearly sense the significant loss in the active members of the Underworld.

All in all, there were over hundreds of thousands of Martial Artists in the Underworld. But now, not even half were left.

The thought of the numbers terrified everyone.

"Dragon King signifies a taboo in the future!"

Some of the forces and families exclaimed to themselves.

Trepidation and fear.

From now on, no one in the Underworld would ever speak ill of the Dragon King.

The future of the Underworld would definitely settle down.

All the families and forces would pass down instructions to their children and disciples that they must address the Dragon King as the King!

# Chapter 630: Boundless Branch And Nirvana

Haiz!

In a luxurious villa of Gui Province, a girl heaved a sigh of relief. A zither lay before her. As she saw over thirty disciples of the Dragon Sect with terrifying aura leave, she felt lost.

"Daughter, it's great that you avoided this catastrophe. Luckily, you know the Dragon King!"

Beside her, the richest man in Gui Province, Tang Jiuchao, wiped away the cold sweat on his forehead as he spoke with a shaky voice.

"Heavenly Sound Sect has been annihilated!"

Tang Yinxuan looked at the zither in her hands with complicated feelings. Sorrows were written over her face.

"Survival of the fittest. Yinxuan, try to let this go!"

Tang Jiuchao paused for a moment before saying, "The Heavenly Sound Sect participated in the annihilation of the Dragon Sect. Now that the Dragon King is back, it's only natural that he administers the same treatment to his enemies. It's all about the survival of the fittest!"

"Luckily, you did not participate in it. They probably let you off because you weren't involved much in it and that middle-aged man knew you!"

Tang Yinxuan smiled bitterly. She shook her head slowly and played a sorrowful piece.

...

While Roving Sword led the dragonians to take revenge, Wang Xian brought Xiao Yu and the other girls, together with all the corpses, towards the Dragon

Palace on the yacht.

"Xiao Xian, how is Shuqing now?"

When they saw Wang Xian walk out of Guan Shuqing's room, the girls crowded over immediately and asked about her caringly.

"I'll definitely revive her!"

Wang Xian took a deep breath, forced out a smile and spoke to them.

Shuqing's injuries were more severe than he had expected.

The flaming long spear had penetrated her heart. If he had not arrived in time to preserve her heart with the powerful dragon energy, Shuqing might have been dead by now. Having the bloodline of the Suzaku definitely helped too.

However, her conditions weren't optimistic despite all that. Wang Xian found it extremely hard to fully resuscitate her.

Nonetheless, Wang Xian had the confidence that he would be able to do so given time.

"Brother, you've got to save sister-in-law!" Xiao Yu held Wang Xian's arms and said to him.

"Yeah. Rest assured!" Wang Xian caressed Xiao Yu head and said, "This time, I've failed to protect all of you!"

"We can't always be depending on you to protect us!" Lan Qingyue looked at Wang Xian and mumbled.

She had inherited the most elite bloodline in this universe and possessed the strongest Kun breeding ability in the universe. However, due to her lack of practice in cultivation, she was quite weak.

If she had cultivated diligently, she would have been able to handle a crisis like this alone.

"It's all my fault. If only I had cultivated diligently..."

"Qingyue, it is I who have failed to protect all of you!"

Wang Xian extended his arm over her waist and spoke softly. "This will never happen again!"

As he spoke, he looked to Sun Lingxiu and Adjaya and forced a smile.

"Xiao Xian, Sister Lingxiu and Sister Adjaya are really nice. It's all thanks to them that we survived this time and we have gotten along really well!"

Lan Qingyue collected her emotions, held Wang Xian's arms and spoke with a heartwarming voice.

It was only through hardship that relationships are built and strengthened.

For the six girls, they had only survived this incident by fighting with their lives on the line for one another.

Adjaya, who they had resisted all along, did not take a step back. Sun Lingxiu, who had been giving silently, did not take a step back. They had truly moved Lan Qingyue and Guan Shuqing through their actions.

It was a great thing to have sisters who they could go through hardships together with.

Therefore, when they fought with their lives together, Lan Qingyue and Guan Shuqing had put aside some obsessions they'd held.

Wang Xian was taken aback when he first heard Lan Qingyue. He smiled soon after, reached out both of his arms and held the two girls in his embrace.

Adjaya and Sun Lingxiu stiffened up but showed a smile soon after.

"Hehe! Great. When sister-in-law Shuqing recovers, everything will be perfect!"

Xiao Yu was happy to see this as she wrapped her arms around her master's.

"Xiao Xian, where are we going?" Adjaya stared at Wang Xian and asked curiously.

"You will know once we are there. Don't be surprised then!"

Adjaya turned to Wang Xian and smiled.

Whoosh!

At this moment, a water pillar that extended over a hundred meters into the sky appeared. A humongous creature was swimming towards them.

The creature in the water was roughly fifty meters in size and was swimming towards them at a terrifying speed.

"What's that monster?" Adjaya was astonished and stared vigilantly into the sea.

"Don't be afraid. That's Xiao Lan!"

Lan Qingyue came to the deck. The Kun, which Lan Qingyue had bred from a blue whale, surfaced from the water and revealed its humongous body.

Xiao Lan had now grown to over fifty meters. Soon, it would be able to advance to Level 12.

"Let's go. We will dive down!"

Wang Xian stopped the yacht, picked up Guan Shuqing and spoke to the girls.

Adjaya followed Wang Xian to the deck with curiosity and jumped into the sea soon after.

As she dived into the sea and saw the majestic dragon palace, her eyes widened and she clearly couldn't believe what she was seeing.

She acted just like how Xiao Yu, Lan Qingyue and the rest had when they came here for the very first time. Her eyes widened and her mouth was slightly opened.

Looking at the tall and slender Adjaya in heels and her red outfit, Wang Xian felt desire welling up inside him.

Following which, he turned his head over to look at Sun Lingxiu and Lan Qingyue.

He had been in Yong Chang world for close to two months and was already

finding the thirst hard to endure.

If Shuqing was fine, Wang Xian would have pulled them onto the incomparably huge dragon bed.

After discarding some of these thoughts, he entered the Dragon Palace. Wang Xian carried Guan Shuqing and walked towards where the Dragon Throne was.

At the Dragon Throne, the segment of the Soul Returning Branch flew out of the space ring with just a thought of Wang Xian towards the Progenitor Tree.

Countless miniature soul fruits had started growing on the Soul Returning Branch.

Wang Xian heaved a sigh of relief as he prepared to carry Guan Shuqing towards the Dragon Pool.

He wanted to see if the dragon blood within the Dragon Pool was sufficient to revive Shuqing.

Screech, screech, screech!

However, before Wang Xian started walking towards the Dragon Pool, the sound of rustling came from the Progenitor Tree. The next instant, a stream of fire shot towards him.

Huh?

Wang Xian was taken aback and turned his head instantly.

"This is... Boundless Branch!"

Wang Xian was taken aback and his attention was fixed fervently on the red branch of the Progenitor Tree.

The branch emitted a red light as though there were rubies moving on it.

That was the Boundless Branch, a treasure Wang Xian had obtained in the Fire God Palace. At that time, the branch had penetrated his body and arrived at the Dragon Palace instantly.

Wang Xian wasn't clear of the effects of the Progenitor Tree. However, the Soul Returning Tree could grow on it.

Considering the terrifying soul returning ability of the soul returning tree, Wang Xian knew that the Progenitor Tree definitely wasn't something ordinary. The Boundless Branch that could grow on the Progenitor Tree would definitely be something extremely precious.

The stream of fire shot towards him and landed on Guan Shuqing who was in his embrace.

The flames flowed towards the damaged area of her heart. The fiery-red energy flowed into her heart instantly as though it was her blood.

Wang Xian was surprised and watched in astonishment!

# Chapter 631: Level Up For Dragon Palace

Om!

Dong! Dong!

As the flame from the Boundless Branch entered her heart like a stream of fresh blood, Guan Shuqing's heart began to beat.

Wang Xian was frozen for a moment as he was taken aback. He carried Guan Shuqing to the throne and placed her on it.

"This is...? The Boundless Branch from the Fire God Palace. The Fire God's Secret Book mentioned that this Boundless Branch was obtained by the Fire God by chance. It's amazing because it can give off fire without any energy in it."

Looking at that half-meter Boundless Branch on the Progenitor Tree, Adjaya exclaimed in disbelief.

"This Boundless Branch is extraordinary!"

Wang Xian stared at it. The flame on the Boundless Branch never ceased even when the branch was dead.

But after appearing on the Progenitor Tree, this branch grew a little and became even more incredible.

As the flame from the Boundless Branch entered the heart of Guan Shuqing, her pale-looking face recovered slowly, and her heart beat violently.

With each beat, a fiery-red glow emitted at the heart location.

At the same time, a drop of fresh blood streamed towards the body.

"What's going on now? Is it Nirvana? Or?"

Wang Xian was shocked as he stared at Guan Shuqing.

"The vitality of Shuqing seems to be multiplying!"

Adjaya, Lan Qingyue, and the rest were elated as they sensed the vitality within Guan Shuqing.

"Mm!"

Wang Xian and the gang kept watch for more than ten minutes. After noticing that Guan Shuqing was alright, they heaved a sigh of relief.

"All of you take a rest. Shuqing might wake up in no time!"

As Wang Xian spoke, he walked towards the Dragon Pool.

With a movement from the space ring, the bodies of Golden Swordfish and the dragonians landed on the ground.

The corpses ablated into the ground at a super-fast speed.

Woosh!

Streams of blood flowed out from the nine dragon heads.

The pool of blood that was collected within the Dragon Pool slowly formed into an oval egg!

The Soul Returning Branch and the Dragon Pool could resurrect the members of Dragon Sect.

But this was limited to only within Dragon Sect and Dragon Palace as the members of Dragon Palace and Dragonians owned the blood of Wang Xian and carried the mark of Dragon Palace.

The Progenitor Tree and Dragon Palace already recognized Wang Xian as their owner. With his blood, anyone could be resurrected using the Dragon Pool and Soul Returning Branch.

However, nothing would work without Wang Xian's blood.

As such, only Xiao Yu, Elder Fang, and Sun Lingxiu among the six girls could be resurrected.

"Dragon King!"

At this time, Prime Minister Turtle, who had spotted Wang Xian earlier, swam over and greeted him when Wang Xian stopped for a rest.

"Hehe!"

Upon seeing Prime Minister Turtle, Wang Xian beamed.

The current Prime Minister Turtle was not a seven-meters colossal turtle. He was 1.7 meters tall, looked like someone in the sixties with a wisp of a beard, and had a shell behind his back.

He looked just like the Prime Minister Turtle from Journey to the West on television. After going through the resurrection, he reshaped his body, and he possessed two forms now.

Prime Minister Turtle has also advanced to the Budding Realm, which was one level up.

"Dragon King, do you want me to get the rest of the members here?" asked Prime Minister Turtle to Wang Xian.

"Nope. Continue with your cultivation!"

Wang Xian dismissed him with a wave as he headed back to his Dragon King Hall.

He activated the space ring, and Spiritual Stones fell on the ground. Subsequently, a heap of metals that could refine Spiritual Equipment piled up on the side.

All these Spiritual Stones and metals were obtained from the Yong Chang world while a myriad of metal could pile into a hill.

[Ding! One hundred thousand Spiritual Stones and a ton of spiritual grade material detected. Do you want to upgrade Dragon King Hall?]

"Upgrade!"

Upon hearing the prompt from the system, radiance flashed in Wang Xian's eyes as he answered immediately.

Upgrading Dragon King Hall to Level 2 required one hundred thousand Spiritual Stones and a ton of spiritual grade material.

After upgrading to Level 2, the cultivation speed would be enhanced by six times.

The Spiritual Energy within the Dragon Palace was already less dense than Yong Chang world. But with the six-times speed enhancement, the energy within Dragon Palace would be much thicker than Yong Chang world.

Sensing the instant boost of the surrounding energy, Wang Xian was elated.

He swung his arm, bringing out a thousand pieces of Spiritual Equipment, a ton of material with water properties, and two hundred thousands Spiritual Stones!

[Ding! One hundred thousand Spiritual Stones and a ton of water-attributed material detected. Do you want to upgrade Dragon Sect?]

[Ding! One thousand pieces of Spiritual Equipment detected. Do you want to upgrade Dragon Field?]

[Ding! One hundred thousand Spiritual Stones detected. Do you want to upgrade Dragon Cave?]

Wang Xian confirmed all the notifications that came in.

With every building upgraded in the Dragon Palace, the effect would be doubled.

Take Dragon Field for instance. The current Dragon Field was at Level 2, where members of Dragon Palace could practice and understand their attack techniques at twice the speed. This would significantly enhance their combat capacity!

All the more, the Dragon Cave could boost the cultivation speed of the members by a fold.

We're left with Dragon Array, Dinghai Divine Rod, and Dragon Pool not upgraded yet. Once we upgrade these three buildings, the Dragon Palace will be at Level 2, which is maneuverable!

Wang Xian pondered to himself. After upgrading the buildings, the material and Spiritual Equipment were almost depleted.

All that was left in his space ring were elixir pills.

"Next, I need to enhance the cultivation and levels of dragonians, and get some good rest in Dragon Palace!"

Wang Xian dived out of the water and notified Mo Qinglong and his men. Subsequently, he dragged his tired body back to the Royal Residence Hall.

Due to the stress from the fact that the Nine Cauldron Worlds were going to descend into the real world, Wang Xian basically did not rest in Yong Chang world.

Now, it was time to take a break.

Back in his room, he already saw the girls sleeping on the bed.

Perhaps they were too tired such that all of them were in a deep sleep.

Wang Xian smiled as he walked to the bed and collapsed.

When he woke up, he realized there was no one else except himself in the room.

Wang Xian walked out with a broad smile as he spotted the girls cultivating in the Dragon Field.

The incident had spurred them on, motivating them to cultivate themselves harder.

Wang Xian visited Guan Shuqing, and everything was normal for her. He then proceeded to Dragon Field and gathered all the members of Dragon Palace.

The current nine Level 12 venomous sea snakes were outstanding. One more level up, and they could evolve into serpents.

They remained in their original forms without changing into humans.

For the Yaksha clan, they were all burly-looking. Just as the Golden Swordfish clan had their weapons in their hands, the forks were carried in their muscular hands.

Apart from Roving Yaksha at Level 12 and fifteen of them at Level 11, the rest of the entire Patrolling Yaksha were at Level 10.

Devil Monkeys remained in monkey forms with no changes. Roving Heavens was at Level 12 while ten of them were at Level 11.

The rest had advanced to Level 10.

On top of that, Roving Lobster and Roving Girl had advanced to Level 11!

The current strength of the Dragon Palace was already compelling. However, Wang Xian was still dissatisfied, especially after witnessing the prowess of the Nine Cauldron Worlds!

# Chapter 632: Enhance Development

Establishing an underwater dynasty, and civilization!

Establishing a sea region under the jurisdiction of the Dragon Palace dynasty, and the Dragon Palace would be the Emperor Palace.

Wang Xian could never think of such a thing or even dare to think that way.

This was an establishment of a new Kingdom, proclaiming him to be a real King.

Even after Wang Xian obtained the system and set up a Dragon Palace, he had never thought of building an empire or a civilization as a modern person.

Yet, Prime Minister Turtle suggested he established one.

Wang Xian remained silent with a constant mixed expression. But the radiance in his eyes glowed brighter and brighter.

"Oceans occupy seventy percent of the Earth's surface with races existing in the underwater world. But, there isn't a real civilization in the sea just like the one on Earth!

"We can establish the first underwater civilization, the first empire. Those who defy our wish will be exterminated while the rest will become our subjects!

"Gather all the resources in the sea for the establishment of the civilization. We will take control of the myriad races in the sea. Even if we can only control a portion of them, we can still command them!

"The unlimited marine creatures will be our eyes, servicing us with the information that we need!

"Besides, we can set up our Dragon Gate. Whoever from the countless marine races that succeeds in leaping over the Dragon Gate will become our General of Dragon Sect. This could help us select and recruit talents!" said Prime Minister Turtle to Wang Xian with excitement.

"Carry on!"

Wang Xian closed his eyes as he sank in his Dragon Throne.

"Currently, we only have the Devil Division, Dragon Guard Division, and over two hundred Anomalocaris. During wars, there are various components such as formations, infantry, cavalry, archers. I think our members should be able to perform attacks, defense, close and remote attacks, air and land strikes and support." There was a beam of wisdom in Prime Minister Turtle's eyes. "Not only this, but we also need to complement the attributes of the members in Dragon Palace. In the event that we need to conquer or deal with more powerful enemies, our formations will greatly enhance our combat capacity!"

"Among the nine attributes of the Divine Dragon, Metal, Earth, Wind, Thunder, and Darkness are better in close-ranged fights whilst Wood, Water, Fire, and Light are good in remote fights. We can assign different roles accordingly to the members during battles!"

"Lastly, we need to have wise civil subjects. They can be weak, but they must have strong analytical abilities and see things in a macro way. This would greatly benefit us in terms of territory management and warfare!"

Prime Minister Turtle slowly spoke while Wang Xian heaved a heavy breath.

Establishing a real dynasty with its own territory and officials.

The benefits of establishing an underwater dynasty were huge.

As for wars, he also thought about the soldiers, ranged, support, and scouts.

However, it was only a vague idea that Wang Xian had in mind. Now, Prime Minister Turtle actually mentioned all these with a proper system.

"The establishment of an underwater dynasty is not an overnight event," Wang Xian murmured.

"Dragon King, we can make preparations first. At present, the Dragon Palace is the strongest within a radius of thousand miles. We can first unify the marine races, and cultivate generals from them. Every general of the marine races could rule those lower-levels beings of the same kind. Then we'll make them leap over

the Dragon Gate. Those who are able to enter Dragon Palace will be groomed as the soldiers of Dragon Palace. The best thing is, we can manage our territory better and get hold of the updates within it if we had them in control!" said Prime Minister Turtle to Wang Xian.

"Great, you'll handle this now. Get Roving Heavens, Roving Yaksha, nine Venomous Sea Snakes, Anomalocaris, Roving Lobster, and Roving Girl over here now!"

Wang Xian nodded his head and commanded Prime Minister Turtle.

"Yes, Dragon King. I'll bring them over now!"

Prime Minister Turtle nodded his head. With a whizz, all of them rushed over.

"Dragon King!"

A group of Level 12 members bowed to Wang Xian, who was sitting on the Dragon Throne.

"From now on, all of you shall listen to Prime Minister Turtle's commands when I'm not around. Cooperate with him as he's our majordomo from now on!" Wang Xian ordered.

"Yes, Dragon King!"

Roving Heavens and the rest immediately nodded respectfully.

"Thank you, Dragon King. From now on, I'll be preparing to set up a team of wise civil officials!" said Prime Minister Turtle, kneeling down.

"Sure. If you need any books, look for Mo Qinglong, and he'll get them for you!"

Wang Xian nodded.

"Yes, Dragon King!"

"Next, Prime Minister Turtle will make plans on how to expand our territory and get more resources. I'll leave this to you!"

"Yes, Dragon King!"

"The rest of you keep cultivating. Now, take your leave!"

"Yes!"

The so-called first court meeting ended with Prime Minister Turtle and the members taking their leave.

Wang Xian chuckled as he felt more and more competent as a Dragon King.

He had no worries about the development of Dragon Palace since Prime Minister Turtle was around to save him the troubles.

He could also leave all the things to the Dragon Sect members who were a hundred percent loyal to him.

For the next few days, Wang Xian stayed in the Dragon Palace, waiting for the awakening of Guan Shuqing.

There was no day and night at Dragon Palace. When Adjaya and the rest were tired from their cultivation, they would return to the Royal Residence Hall and rest.

Wang Xian would definitely not miss the chance for a round of love-making.

During these few days, he was leading a relaxing life.

"So beautiful!"

After the love session, Lan Qingyue came to the door of the Royal Residence Hall and cast her gaze outside. There was a look of surprise on her face.

"The sea regions within a radius of a thousand miles have been conquered by the Dragon Palace!"

Wang Xian saw that the densely-packed marine creatures around the Dragon Palace were looking over in their direction in awe.

The number of the surrounding marine creatures was in the billions.

If he could devour all these marine creatures, he could definitely gain an immense amount of Dragon Energy.

However, doing this, it was impossible for him to level up. Besides, these marine creatures were of great use.

Under the gaze of Wang Xian, these marine creatures began their challenge of Dragon Gate.

Their eyes were burning with fire as their natural instinct took over.

After leaping over the Dragon Gate, they would have a completely different life then.

Wang Xian smiled as he watched. He may not understand how to manage a country, but he knew that these marine creatures could increase the strength of the Dragon Palace by many folds.

Those who successfully leaped over the Dragon Gate were all domineering existences.

Even in the universe, they could be considered as wicked ones.

And that is if they continue to work hard!

"Dragon King, there are thirty marine creatures that leaped over the Dragon Gate this time."

More than ten hours later, Prime Minister Turtle came to report to Wang Xian after the Dragon Gate challenge was completed.

"Only thirty out of tens of billions, that's one out of ten billion!"

Wang Xian shook his head.

"Dragon King, we have more than these billions of marine creatures in the waters near us. Those who came today were only from one of the batches. After all the marine creatures complete the challenge, I believe our strength will grow by more than one hundred members!"

# Chapter 633: Attacking Cities and Occupying Land

"Dragon King, after days of investigation by the members of the Dragon Palace, we have decided to attack an area. However, through our investigation, this area isn't simple!"

After reporting on the matters of the marine races leaping through the dragon gate, Prime Minister Turtle continued with a solemn face.

"Where are we attacking?" Wang Xian looked at Prime Minister Turtle and asked curiously.

"Here!"

To Wang Xian's surprise, Prime Minister Turtle took out a map as he spoke.

The map had detailed records of the sea region in the vicinity. Prime Minister Turtle had also divided the map into several regions.

Wang Xian looked at the map and raised an eyebrow.

On the map, the white region represented the sea region with a radius of a thousand miles that the Dragon Palace was currently occupying.

Other than that, to the East of the Dragon Palace was a region marked out in black.

Other than the region demarcated in black, there were still regions demarcated in red, and blue. These three regions were clearly separated.

The black region marked out by Prime Minister Turtle seems to be the disordered region. The red region is the area near Japan and the blue area is around India.

Wang Xian looked at the map and thought to himself.

"Are we attacking the black region?" Wang Xian asked.

"Yes, Dragon King. After our investigation, the black region is a place with bountiful resources. Although it is currently occupied by a large number of marine species, we can definitely give it a try with the strength that the Dragon Palace possesses currently!"

"In this piece of sea region, we found a type of treasure called pure blood corals. Consuming these are highly beneficial for marine species!" Prime Minister Turtle explained to Wang Xian.

"Pure blood corals?"

Wang Xian raised an eyebrow. He had heard about the pure blood corals in the disordered region when he was in the sea previously.

Various forces and overseas wandering groups had gathered in that piece of sea region. Even a Sacred Sect had to be careful when entering the area.

"When are you planning to attack?" Wang Xian asked Prime Minister Turtle.

"Right away. I'm thinking of mobilizing three hundred Devil Monkeys and the Anomalocaris race. They will be led by Roving Heavens, the leader of the Anomalocaris race, Roving Girl, and Roving Lobster. Roving Sword will be stationed by the side!"

Prime Minister Turtle continued, "There might be powerful creatures or races in this piece of sea region. We might not be able to occupy it this time, making it mainly a scouting mission!"

"Powerful creatures? Could there be any creature that could match Roving Sword?"

Wang Xian raised an eyebrow.

"Dragon King, the region we are occupying is a region where marine resources are lacking. There aren't many marine species that have gathered here. The three regions that I have demarcated are regions where there are tremendous resources and races!"

"The black region has pure blood corals. Through our investigation, the red region has a deep grand canyon. There are some spiritual objects within it and various terrifying races!

"Strange seabed creatures are densely congregating in the blue region. There should be some mystical objects in that place!"

Prime Minister Turtle introduced each region to Wang Xian.

Mmm!

Wang Xian nodded his head silently. The sea was an incomparably mystical place with various races occupying different areas. "In that case, ask the dragonians to follow me over!"

"Yes, Dragon King!"

Prime Minister Turtle nodded his head.

"Qingyue, Lingxiu, Adjaya! Didn't you say that it's a little boring here? Let's go out for a trip!"

Wang Xian stepped into the Royal Residence Hall and spoke to the three girls.

"Go out? What about Shuqing? Are we leaving her behind alone?" Lan Qingyue looked at Wang Xian and asked.

"Shuqing has made it passed the critical stage. I'll get Prime Minister Turtle to take care of her. Let's go on a trip. It won't take long!" Wang Xian smiled and said to the girls. The girls immediately nodded their heads joyously.

They had been staying in the Dragon Palace for over twenty days. Other than the time they were on the bed making love, they had spent all their time cultivating.

This made them feel a little bored.

"I'll go inform Xiao Yu and Elder Fang!"

Wang Xian moved and arrived at the peak of a nearby mountain.

Xiao Yu and Elder Fang had dug out a cave abode. Although it wasn't as

luxurious as the Royal Residence Hall, it wasn't bad at all!

"It's a great idea to get some rest outside!" Xiao Yu chuckled and followed Wang Xian to the surface of the water.

When Wang Xian boarded the yacht on the surface of the sea, Roving Heavens, the leader of the Anomalocaris race, Roving Lobster, Roving Girl, and Roving Sword had already led the five hundred Dragon Palace members to wait for Wang Xian at the bottom of the sea.

At the same time, Mo Qinglong and the other dragonians would also be following them.

Mo Qinglong had now reached Half-step to Budding Realm while the rest of the dragonians were at the Dan Realm. Overall, they were still a respectable force!

"The Dragon Palace felt more comfortable than the outside world!"

Upon boarding the yacht, Adjaya took a deep breath and frowned instantly.

"That's to be expected. The spiritual energy in the Royal Residence Hall is several times that of the outside world!"

Wang Xian smiled and nodded his head. He took out a map and said, "We are heading to the disordered region. At the edge of the disordered region, there's a coral island. That's our destination and we will be playing there for a few days!"

Wang Xian pointed to an island on the map as he spoke.

"Glacier Coral Island? Great! That's a famous tourist island. I heard that there's a spring on the island. Taking a bath there would be great for the skin!" Xiao Yu remarked excitedly.

Wang Xian nodded his head with a smile. "Let's head towards there then. When we reach it, you girls can play on the island for several days while the members of the Dragon Palace will head towards the disordered region!"

"Alright, let's go!" the five girls replied with smiles.

Tourism was probably something that every girl was interested in. It was

especially so for Xiao Yu. She had not been to many places and was interested to know more about the outside world.

"Put on a clean set of clothes and have some tea!"

Xiao Yu skipped to the second floor of the yacht, changed to a set of clean clothes and poured herself a cup of tea.

Initially, she didn't have a love for tea. However, these tea leaves were brought back by Wang Xian from the Yong Chang world. Not only would one feel refreshed with just a sip, but they would also want to keep trying the tea.

It was the same for the other girls. After which, they took out their mobile phones.

After being disconnected from the world for a few days, they could finally have some fun.

Wang Xian chuckled while standing by the side. He could sense the Dragon Palace members and the dragonians below him while looking far ahead.

The disordered region spanned a radius of a thousand miles. That was a restricted region for navigation and fishing.

Some old fishermen had circulated that the place was filled with underwater sea monsters and countless ruthless pirates.

Death was almost certain for those who headed there for fishing.

The yacht moved rapidly. After five hours, an island appeared before their eyes.

"We have reached Glacier Coral Island, the island that is ranked in the top five most beautiful islands!"

Xiao Yu looked ahead with anticipation.

Glacier Coral Island was a huge island. The population of the island stood at approximately a million, and fifty percent of the population was made up of tourists.

Wang Xian looked ahead. Ten kilometers ahead of the Glacier Coral Island would be part of the disordered region.

Based on what Prime Minister Turtle said, if we can occupy this area, the Dragon Palace's strength will increase by two times.

Wang Xian's eyes flickered. The members of the Dragon Palace were here to occupy the region below the sea while the dragonians of the Dragon Sect were here to occupy the sea surface.

The sea would be the territory of the Dragon Palace in the future.

# Chapter 634: Fashion Show

"Xiao Yu, Qingyue, Lingxiu, you girls stay here while I settle some stuff in the disordered region!"

The yacht approached the island and parked under the guidance of the staff.

Wang Xian scanned the entire island, where it seemed to be overcrowded.

"You're going over now? It's almost evening!"

Lan Qingyue and the rest fixed their discontented eyes on Wang Xian. "I was hoping you could accompany us!"

Wang Xian shook his head and smiled. "After I settle the remaining stuff here, I can join all of you for a few days here!"

"Sir, aren't you here for the Victoria's Secret Fashion Show? Why are you leaving again?" asked the staff from the Glacier Coral Island in bewilderment when he overheard their conversation.

"Victoria's Secret Fashion Show?"

Xiao Yu, Lan Qingyue, and the rest froze for a moment with a surprised look surfacing on their faces.

"Didn't you know about it? The reason for the crowd on this island these few days is because of Victoria's Secret Fashion Show. So I thought you guys came to watch it too!"

The staff smiled and did not say anything further.

"Is it being held today?"

The five girls exchanged gazes as they asked with glistening eyes.

"Yes, it's tonight. This time it's a public show, but it will be crowded!"

The staff nodded. "Sir and Madam, do you want to book a hotel?"

"Yes, two presidential suites!"

Lan Qingyue nodded and stared at the rest of the girls fervently. "It's the Victoria's Secret Fashion Show. We must have a look and buy some clothes!"

"That's right. Hehe, but I wonder if there are any more front row seats!"

"All the angelic beauties from all over the world will be here. I feel like going too!"

Not only Lan Qingyue, but even Sun Lingxiu, who would have always been indifferent, was also full of interest now.

No woman disliked beauty.

"Xiao Xian, are you going? If not, we're going to have fun ourselves tonight!"

Lan Qingyue huddled over and smiled at him.

"Fine, I'll go with you girls!"

Wang Xian shrugged and spoke with a smile.

"Hey, are you sure you're not changing your mind because it's the Victoria's Secret Fashion Show? What a pervert!"

"Heh..."

The girls stared at Wang Xian, making him speechless.

"Am I that kind of person? I feel content with you girls around!"

Wang Xian shook his head immediately as he responded with a serious face.

"Who will believe you!?" Lan Qingyue rolled eyes at him. "Let's go. It's 3 PM now. The show starts at six. Let's go and get our tickets!"

"Hurry, there are probably no tickets by now!"

"Might have some scalper tickets? Let's see if we can get some!"

Although this was a public show. It had a seating area, and therefore tickets were required.

In the country, there was once a fashion show where tickets were resold for more than three hundred thousand. Even so, there were buyers around.

One could imagine how crazy that fashion show was.

Those who could enter the show were people who had a net worth of more than ten million.

Moreover. It was a lingerie show that featured the top-notch beauties from all around the world.

Wang Xian had heard of the Victoria's Secret Fashion Show too. He ordered the members of Dragon Palace to enter the disordered region first while Mo Qinglong and his gang waited for him someplace on the island.

"Brother, go and ask where to buy the tickets!"

Arm in arm, the five girls instructed Wang Xian.

"Fine!"

Adding to his loss for words, Wang Xian found a passerby and asked him.

"Follow me, but I'm not sure if there are any more tickets!"

Wang Xian headed to a vintage building along with the girls.

Glacier Coral Island, as a world-renowned tourist island, had a superb environment.

Clean land, warm sunshine, clear skies with distinct colors from the sea. Cool hunks and hotties were all around the island.

"You better get us the tickets no matter what!" Xiao Yu grumbled while Wang Xian chuckled and patted her head.

They came to the official ticket office, and sure enough, the tickets had been sold out since it was near to the opening time.

"I'll check if there are any scalper tickets!"

Wang Xian shrugged as he surveyed his surroundings.

"Hey buddy, want tickets?"

Just then, a young man approached Wang Xian with a hint of excitement in his eyes. He fished tickets out of his pockets.

"Hur? How many do you have?" asked Wang Xian immediately after pausing for a moment.

"How many do you want?" the young man asked instead.

"Six. Do you have them?"

Wang Xian raised his eyebrow.

"Yes, one for four hundred thousand. It's in the front row!"

The young man scrutinized him from head to toe before he said this right away.

"Give me six tickets!"

Four hundred thousand for a ticket was a sky-rocketed amount. Six would make 2.4 million.

"Are they authentic tickets?" Wang Xian asked impassively upon seeing the young man taking out his notebook, getting ready for the bank transfer.

"Don't worry. Look for me if you got fake tickets. There are bank transfer records."

The young man drew his lips and spoke with confidence.

"Great!"

Without any further words, Wang Xian transferred the money over.

"Done!"

Wang Xian waved the six tickets in his hands and looked toward the girls.

"Awesome. Let's find a place and take a short break!"

The five girls pointed at a place and walked over while Wang Xian followed behind with a broad smile.

"Haha, rich people are dumb. Such an idiot!"

That young man who had sold the scalper tickets was looking all excited as he stared at the disappearing figures.

"He didn't even bother to check. What a dumbass. Perhaps he's too silly such that he has five babes surrounding him. Hmph!"

The young man could not help but kiss his notebook. "So what if you find out about my account? I have joined the Yaofeng Wandering Group as my backing if you dare to seek trouble. With this money, I can buy some pure Blood Coral to enhance my cultivation level!"

The young man murmured as he walked to a building in the middle with a beaming face.

Wang Xian accompanied the five girls for afternoon tea while they were taking pictures without stopping.

"Let's go!"

Around five, Wang Xian brought the ladies to the Victoria's Secret Fashion Show.

The show was located in the middle of the island, and was set up outdoors with a luxurious catwalk stage and seating area.

Many people came to watch the show, including not only men but also babes.

Among these, there were renowned celebrities invited over from Asia.

Every year, the Victoria's Secret Fashion Show marked a grand feast that brought

together the top brands from the world and the most trendy lingerie.

Not only did it attract the men, but it also attracted the ladies.

Wang Xian had to say he'd decided to postpone his trip to the disordered region to tomorrow because of this.

When Wang Xian and the ladies arrived, the entrance was crowded with over thousands of people.

All of them were lined up to verify their tickets.

# Chapter 635: Wet Their Pants (1)

"Wow, there are so many people around!"

"Yeah, take a look ahead. Oh gosh! That's Ling Tianyue. The singing diva of Asia, Ling Tianyue!"

"That's the movie star, Liu Kongfei. There are so many stars here!"

"There are so many stars from our country! And there are several stars from Japan and Korea too!"

"Other than those elite stars, there are also a substantial number of famous businessmen and rich second-generations. There are so many people from our country!"

"Hehe! Let's see if there are any nice outfits here. We can buy some here!"

Xiao Yu, Lan Qingyue, Adjaya, and the two other girls discussed excitedly.

"I'll show you something great tonight. If there's anything nice, I'll get it for you!" Wang Xian interrupted upon hearing their conversation.

This was the second objective of Wang Xian for coming to this place. Buying some clothes for them.

Wearing various styles would be pleasing to the eyes.

"I know you wouldn't be so nice to us suddenly!"

Lan Qingyue rolled her eyes at him. She turned to hold Adjaya's arms and commented, "I feel that with sister Adjaya's height and figure, she would definitely be the center of attention in a fashion show!"

"Yeah! Sister-in-law Adjaya's figure is really great. If only I had a figure as great as you!"

"What are you looking at!?"

At this moment, a furious voice came from behind them. "No matter how great my figure is, I'm just a toy. Aren't I pretty?"

"Guys like you are creatures that will only think with your lower half!"

At this moment, the group could hear the voices of girls from behind their backs. Their voices were sharp and annoying.

Wang Xian frowned slightly and turned around.

There was a group of five behind them. Of which, three were girls while two were guys. Wang Xian could recognize one of the girls and one of the guys. They were some small stars within the country.

To put it bluntly, there were stars without significant works or capabilities that had only become stars through marketing gimmicks.

The other two girls were roughly twenty to thirty years old and were wearing branded clothes throughout. One was slightly plump while the other had the face of an internet celebrity.

The slightly plump girl was unhappy with the guy beside her, who was staring at her.

"I've just taken a glance! Not a second more!" the guy said apologetically to the girl.

"You are not allowed to take even a glance. If you dare to look at other vixens again, don't blame me for not being courteous!" [\[1\]](#)

The slightly plump girl stared at the guy and spoke with a domineering front.

"Alright, alright!"

The guy nodded his head profusely, seemingly a little afraid of that plump girl.

"Tsk! You are the ugly one and yet you still dare call others a vixen!"

Upon hearing the girl behind her, Xiao Yu looked over in contempt and blurted this out.

With her brother around, there was nothing she was afraid of. If someone was insulting them, Xiao Yu would naturally retort.

"What? Who are you calling ugly? Who are you talking about?"

When the slightly plump girl heard Xiao Yu, the excess flesh on her face constricted as she stared harshly at Xiao Yu.

"The ugly person would know. What are you getting so worked up for?" Xiao Yu smirked and replied plainly.

"Tsk! Some people might have a pretty face but their hearts are black. No one knows how many men they have slept with. Yuanyuan, don't be bothered by them!"

"That's right! Some girls might be pretty but no one knows how dirty their bodies are!"

The other two girls beside the plump girl stared coldly at Xiao Yu and the girls while ridiculing them.

"I have seen many pretty girls, especially in the entertainment circle. Those pretty girls will do anything to make their names known... Hehe!" the male star standing by the side said to the plump girl.

"They don't even have a branded piece on them and yet they dare to be here. They definitely are sugar babies. However, their sugar daddy is probably a poor f\*ck!"

The slightly plump lady looked at Xiao Yu and the girls and jealousy gleamed in her eyes as she remarked ruthlessly.

"You are..."

"Ticket check! Please take out your ticket!"

Just as Xiao Yu and the girls were about to retort, they heard the voice of the employee ahead.

They stopped and simply stared at the group.

"Watch your words and don't bring yourself unnecessary troubles. You guys wouldn't be able to take it!"

Wang Xian stared emotionlessly at the group of five as he issued his warning.

"Hehe! Who do you think we are? We wouldn't be able to take it?"

The guy who was standing by the side with his arms on his waist and earrings in his ears stared at Wang Xian with contempt upon hearing him.

"I'm sorry ladies, these tickets are fake!"

At this moment, the voice of the employee sounded.

"What?"

"What?"

Xiao Yu, Lan Qingyue and the girls were stunned and exclaimed in astonishment.

Wang Xian raised an eyebrow and a tinge of killing intent flashed across his eyes. He turned, ignoring the male star. He turned around and said, "We got these tickets from a reseller!"

"I'm sorry. These are indeed fake tickets. Since you bought them from non-official channels, we won't be able to take responsibility for it!"

The young employee apologized upon hearing Wang Xian.

"Haha! Fake tickets! How interesting! Could it be that you couldn't afford the real tickets and made some fake tickets with the hope of getting in?"

"That's a real possibility. Just take a look at the way they're dressed! It's within reason to think that they couldn't afford the tickets."

Ridicule from the guys and girls sounded from behind them, annoying Wang Xian.

The clothes on Xiao Yu, Lan Qingyue and the girls were all Level 12 spiritual equipment that he had refined. It was just that the style was similar to modern

clothing.

Without any labels, they were seen as cheap clothing in the eyes of others.

"How dare they lie to me. They must be tired of living!"

At the thought of the young man who had sold him the fake tickets, ruthlessness flashed across his eyes.

"Get out of the way! Why are you still standing there? Don't delay our entrance!"

Once again, the voices of the girls and guys behind them sounded.

"Huh? What happen?"

"What's the matter?"

The commotion at the entrance had instantly drawn the attention of the surrounding crowd.

The truth was some people had noticed this place when the quarrel started.

"I think they bought some fake tickets!"

"Fake tickets? Tickets can be verified directly. Why would there still be people falling for the fake tickets?"

The surrounding crowd discussed in shock.

"That guy... He looks familiar!"

"Huh? He... He... He is!"

"Gosh! It's him! It's really him! In that case, those girls with him..."

At this moment, some middle-aged and old men around him opened their eyes widely as astonishment was written all over their faces.

There was a person whose name was known throughout the world. It was especially so since a month ago.

In that catastrophe, all the families and sects in the country circulated a photo to warn all people not to court their own deaths. Otherwise, they wouldn't have to trouble the people in the photos to take action. Their families and sects would kill them personally.

Following which, news of this incident had also reached all the rich and wealthy businessmen in the country.

When this group of rich and wealthy businessmen heard the news, they almost wet their pants!

# Chapter 636: Wet Their Pants (2)

Having sixty percent of the entire Underworld wiped out was such a scary matter.

Those affluent families and tycoons knew something about the Underworld. Even though it might seem far to them, it was, in fact, not the case.

In the face of those compelling Martial Artists, they had always been in reverence of them, not to mention those powerful Ancient Martial Artist Families.

Yet, such a daunting Underworld had sixty percent of its strength massacred by one man.

Massacring sixty percent of the Martial Artists and the ancestral sects of the Underworld. What concept is this?

This was the massive modern massacre. In this peaceful era, killing one or two people was the most heinous criminal.

Then what about the one who dared to kill more than ten thousand people?

Killing one is a sin, but killing thousands is overbearing!

When those tycoons heard the news, they broke into a cold sweat and almost wet their pants.

They were exclaiming that the Underworld was such a scary place.

Hence, they tried to obtain this person's information through various ties and channels.

Dragon King of Dragon Sect!

Those who had the resources had already gotten a picture of Dragon King to check out his look.

They did it not out of curiosity but more for a precautionary measure.

They could not afford to offend such a domineering existence, not even for the richest man in the country.

No one could do anything even if he killed the top ten moguls in the country.

Not even the government could control such a person!

Those who had the photo kept the face in mind so that they could avoid him at all costs if they ever encountered him.

Yet, all of them present were not expecting they would meet Wang Xian in person on this very day.

Or even encounter such a drama.

The Dragon King actually bought fake tickets?

They could not help but pray for the fellow who had sold the tickets and secretly praise him for his boldness.

That fellow who dared to cheat this man was definitely seeking his own doom.

Apart from the ticket seller, they also took their hats off to several young people who had mocked the Dragon King and his girlfriends.

They were deeply impressed by their ways of seeking quick death.

Those who recognized Wang Xian had constant mixed expressions. One of the middle-aged men were looking even more dreadful.

He was the Director of Heavenly King Media, the famous bachelor and the boss of the largest media company in the country.

As he fixed his eyes on the five young people, especially the guy with the earrings and the pretty girl, he almost wanted to faint.

"Darn!"

He could not help but curse as he felt like crying out.

He remembered clearly the other time when a big shot from the Underworld had called him, saying that one of his artistes had offended the Dragon King.

Upon hearing the news, he almost jumped. Back then, the Dragon King was a colossus.

Compared to the past, the Dragon King had grown even scarier, driving people to the wall.

"Why are those who offended Dragon King all from Heavenly King Media? Darn!"

Director Wang of Heavenly King Media was shaking in his boots.

He was afraid that this brutal Dragon King would slaughter him straight away.

"Shit!"

With a mixed expression, Director Wang bit the bullet, dragging his stiff body over to Wang Xian.

"Dragon...King!"

When Wang Xian wanted to teach the group of young people a lesson after hearing what they said, a sudden cry came from behind.

"Hur?"

"Hur?"

Wang Xian frowned and turned around, fixing his cold eyes on that middle-aged man.

When both the celebrities saw the middle-aged man, they froze for a moment before standing up straight and calling out fervently, "Director Wang!"

Director Wang ignored the two ignorant celebrities and forced a dreadful-looking smile on his face. "Dragon King, I'm Xiao Wang from Heavenly King Media."

As Director Wang spoke, he wiped away the film of cold sweat on his forehead.

"Our damn celebrities have offended you. I'll give you a satisfactory answer to this. Just leave it to me, and I'll make sure you're happy with the outcome. Please do not mind those two useless beggars!"

"What?"

The words that came from Director Wang struck the two celebrities dumb. Unbelievable looks surfaced on their faces.

Their eyes widened when they saw their director lowering his body, humbling himself.

Director Wang was the CEO of a company with a market value worth billions. Now it turned out...

And he even said those kinds of words...

"Dragon King, I have three tickets over here. I hope you don't mind. Take them, and I'll get you another three!"

Seeing that Wang Xian did not utter any words, Director Wang hurriedly handed over his admission tickets.

"Hello, Dragon King!"

Just then, all the suited-up middle-aged men walked over with respect. Their voices were soft as they humbled themselves.

All of them held tickets in their hands.

"Dragon King, I have some admission tickets too. Go in with the ladies!"

"Dragon King, I have some too. Here's for you!"

"Leave those five fellows to me. I'll take care of them!"

"Yes, leave it to us. Cease your anger, Dragon King!"

After Director Wang of Heavenly King Media walked over, those middle-aged men hesitated before they gritted their teeth and headed over with their tickets.

They were not trying to befriend or curry favors, but rather, they did it out of awe and fear.

Instinctively, they walked over with the admission tickets.

They were not hoping Dragon King could remember them, or asking for any advantages from him. It was purely out of reverence.

At this time, the five young people behind Wang Xian were completely stunned.

The director of Heavenly King Media, the largest media group within the country.

The director of Donghao Group had a market value worth billions!

The Young Master of the Lin Foundation, whose family's assets were worth hundreds of billions!

The CEO of Mo Cube Technology Company in Modu with a net worth of over ten billion!

Each one of them was a renowned big shot, but now, they were all walking over to that young man respectfully.

All of them humbled themselves and handed over the tickets in their hands.

Every big shot had at least three to four tickets, acting like they were some minions.

What kind of people could strike reverence and fear into them?

However, what they said shook the five young people.

These several big shots said they were just some insignificant damn figures. Leave it to them!

Their eyes dimmed.

What kind of people did they offend or ridicule?

"I just need six tickets and that will do. Thank you!"

Wang Xian extended his hand and thanked them.

"Dragon King, take mine. I'll handle the five people!"

"Plus mine, Dragon King. Take mine!"

The other middle-aged man and Director Wang hastened to pass the tickets over.

"Well, thank you!"

Wang Xian nodded to the two middle-aged men.

Director Wang and that middle-aged were so happy as though they were some elementary students being praised by their teacher.

# Chapter 637: Plotting (1)

Puff puff!

"They are in. They are finally in!"

"Who would have expected us to meet the Dragon King in this place!?"

Seeing Wang Xian and the five girls enter, those middle-aged men standing outside wiped the cold sweat from their faces.

From the beginning to the end, Wang Xian didn't speak on the matter. Nonetheless, this still brought immense pressure to them.

The name of "Dragon King" had resounded throughout China after the incident a month ago.

He was definitely an existence that no one could afford to offend in all of China. Even if it was just criticism, no one dared to.

This was respect and fear built on violence!

Director Wang turned around to look at the group of five and his attention fell on the two artistes under his company.

At this very moment, the five of them stood in one corner, feeling horrified.

That's right! They were horrified! It was as though they had just witnessed something terrifying.

"Director Lin, leave the five of them to us!"

Director Wang looked at the few people around him, pulled a long face and remarked.

"Yeah, leave them to us. Make sure you handle this cleanly. We can't afford to draw the ire of that guy!"

"You don't have to kill them. Crippling them would be sufficient!"

Several other directors nodded their heads.

The group of five had turned as pale as snow and despair filled their faces.

"Director, we have learned our lesson. We have learned our lesson. Please let us go. Director, we are artistes under your company!"

When that male star heard the conversation of Director Wang, his face was incomparably pale as he begged for mercy from the middle-aged man.

"It isn't that I wouldn't want to let you off. It's that you guys have courted your own deaths. You have offended the only person that couldn't be offended in China. Yang Ze was a good example. Who would have thought that you guys would court your own deaths? Don't blame me for being merciless!"

Director Wang stared emotionlessly at them.

"What? Yang Ze?"

That male star was stunned and despair filled his face.

Yang Ze was also an artiste under Heavenly King Media. A few months ago, he was announced dead by the official channel of Heavenly King Media.

At that time, the entire company was shocked. Initially, everyone thought he had really passed away.

What they learned later was that he had offended some terrifying figure. The infuriated Director announced he was dead right away and hid away from the public. Nothing was heard about him since then.

Subsequently, they found out that Yang Ze's family had declared bankruptcy were now beggars.

"No, no..."

He staggered back unconsciously and his eyes were dead.

"Both of you have offended the same person. However, as compared to the

previous case... Forget it. Regardless, your future is over!"

Director Wang didn't explain further. He looked at the few people around him and started calling up more people.

"Xiao Xian, I had not expected your name to be able to command such fear and respect!"

When they entered the show, Lan Qingyue smiled radiantly as she spoke to Wang Xian.

She could recognize some of those middle-aged men. All of them were huge characters that could match her Lan Family.

"As long as the Nine Cauldron Worlds have not descended into the world, no force is a match for ours in the country. They are naturally fearful of me!"

Wang Xian chuckled. After experiencing the cleansing of the Underworld, he naturally knew his standing within the Underworld and all of China.

"I wonder what changes the people from those worlds will bring to the country. Will there be chaos and riots?" Sun Lingxiu pondered before asking.

"I don't know. However, each Cauldron World has approximately ten million people. All of them together will add at least a hundred million to the population. There will probably be huge changes to China," said Wang Xian.

Other than the huge population, almost everyone in the Nine Cauldrons Worlds practiced martial arts.

At that time, the setting of the Underworld would change completely.

In fact, even the lands of the country would experience major changes.

Besides that, the descent of the nine cauldrons to the real world would bring about a terrifying impact.

That was that the nine cauldrons would stabilize and ensure the stability of the country.

When the nine cauldrons stabilized all of China, spiritual energy would be greatly increased.

The land of China would gather spiritual Qi from the entire earth. At that time, the entire earth would be affected.

No one knew the changes this would bring to the other countries and regions.

The future was filled with uncertainties. There was a high probability that a world of ancient martial arts would slowly descend into the world.

Just as Wang Xian was thinking, the Victoria's Secret Fashion Show had started and beautiful models started their walk!

Xiao Yu, Lan Qingyue and the other girls pointed at the beautiful girls on stage while commenting.

They were commenting on their clothing and they were extremely excited about it.

Wang Xian chuckled and watched with excitement.

The faces of western girls can't be compared with Adjaya and the girls. Adjaya's figure is overwhelmingly better. In the aspect of facial features, Qingyue, Lingxiu and the rest are miles ahead!

After seeing a dozen-odd beautiful girls, Wang Xian's interest level declined.

Ordinary people can't be compared with martial artists. It is especially so for a powerful martial artist like Adjaya.

Fair and silky skin like a baby and the correct curves at the front and back. That feeling... Hehe!

"Leader, take a look around. Whoever catches your eyes, I'll send her to you tonight!"

At this moment, Wang Xian heard the voice of a middle-aged man from his side.

There was a fifty-odd-year-old man beside him. The old man was burly and felt

like he was brimming with strength.

Hehe!

The old man squinted his eyes and said, "Those on the stage are beautiful but those below the stage are even better!"

As the old man spoke, he turned his head around and faced Lan Qingyue and the girls.

"Oh?"

The middle-aged man raised an eyebrow, chuckled sheepishly and said, "Leader, leave this to me. I'll definitely send them all to you tonight!"

Mmm!

The old man nodded his head while playing with his little beard before turning around and leaving with a vile look.

With Qingyue, Lingxiu and Adjaya's figures and looks, they are indeed magnets for trouble wherever they go!

Wang Xian shook his head gradually. A blue and red light flashed across his eyes as he looked at the middle-aged and old men.

Huh? Dan Realm experts?

Wang Xian was taken aback. He squinted his eyes and sank into deep thought.

His intentions of putting these two guys to rest had also dissipated gradually.

Wang Xian didn't say a word and simply accompanied Xiao Yu, Lan Qingyue and the girls till the end of the show.

After the show, the five girls pulled Wang Xian along for supper energetically.

Supper on the yacht was a unique attraction of the Glacier Coral Island. Each yacht wasn't large and could fit seven to eight people. At the same time, each yacht had all kinds of delicacies.

The five girls wished to have supper out at sea. Thus, Wang Xian rented a small yacht and steered it towards the sea.

There were many other yachts around them. Each yacht had several lanterns hanging around, making the scenery of the water's surface extremely beautiful.

Wang Xian looked towards the shore and revealed a faint smile.

"You guys can have your dinner here in a while. I have something to handle!" Wang Xian said to the five girls.

"Huh? Brother, what's the matter?" Xiao Yu looked towards Wang Xian curiously.

"They must be from some forces of the disordered region. I need to settle some stuff!"

## Chapter 638: Plotting (2)

The night at Glacier Coral Island was beautiful.

Wang Xian and the five girls were sitting on the yacht, enjoying the sea breeze, and the delicacy. Life was relaxed for them.

"You girls go ahead. I'll be right back!"

At this time, Wang Xian stood up.

"Alright, come back soon!"

Given Xiao Yu and Lan Qingyue's strength, they also sensed that someone who was up to no good was lurking around them.

Wang Xian made a move and appeared on the beach.

"Dragon King, we have caught those people. They are from the Yaofeng Wandering Group, and their holed-up area is here!"

Mo Qinglong came to Wang Xian and reported to him under the dim light.

"Yaofeng Wandering Group? It looks like they must be the active Wandering Group in the disordered region!" Wang Xian revealed a smile. "Let's go to their base!"

"Yes, Dragon King!"

Mo Qinglong nodded and brought him to the center of the island.

Several Dragonians around him carried three Martial Artists.

Their eyes were wide open, filled with fear as they fixed their eyes on Wang Xian and Mo Qinglong.

"This is the place!"

Those three Martial Artists spoke in horror when they arrived at a luxurious manor on the island.

"Let's go in!"

Wang Xian did not hide. With a swift movement, they entered the manor directly.

In the manor, there were unknown trees, swimming pools, and lawns. Everything looked delicate and exquisite.

The entire estate was at least a size of hundred acres, which was incredibly huge.

He swept around with his blue and red radiance before he walked to the center.

"Who's there?"

"Who dares to barge in?"

Some of the Martial Artists cast their cold glances over at Wang Xian as soon as he walked into the manor.

Bam!

Before they could see any images, they were already attacked and collapsed on the ground.

"Too weak. Only those that are at least Half-Step to Dan Realm are useful. They will consume a lot of elixir pills to enhance their strength if they are too weak!"

Wang Xian raised his eyebrows and walked straight in. The group of people swaggered in boldly.

"Someone broke in!"

When he came to the central building, he heard a cold bellow.

Without Wang Xian making any move, the had dragonians already stunned them on the ground.

"Take control of the place!"

Mo Qinglong ordered the dragonians.

"Who are you guys?"

"Oh no, their strength is overpowering! Run!"

Ah!

When Wang Xian came in, all of the people inside had already fallen to the ground.

Wang Xian took a glance.

The middle-aged man and the burly old man who they'd met at the show that night had already fallen on their knees in fear.

Seeing Wang Xian's arrival, they were staring blankly at him.

"We met before, didn't we?"

Wang Xian looked at the two men with a smile on his face.

He sat on the sofa as though some member of the mafia in the movie as he looked at the middle-aged and the old man.

"You... You..."

Both of them recognized Wang Xian and were startled.

This was the young man who had sat beside them today. Never did they expect they'd be easily captured by him.

"Tell me more about the disordered region!" said Wang Xian, looking at the duo with a beaming face.

"Who are you?" the old man growled as he stared at Wang Xian in trepidation.

"Speak up!"

Wang Xian flicked his finger, and a water sword stabbed the arm of that old man!

Ah!

The old man let out a shriek in horror.

It was not only the physical pain that caused him to let out a scream, but it was also the terror that came from the strength of the young man.

The fact that he was also a Dan Realm expert, and yet, he could not even see his moves and was injured in an instant.

"I don't have much patience!"

Wang Xian stared at the old man without any expression.

"I will speak!"

The old man's forehead was covered in cold sweat as he spoke.

"A total of sixteen forces are active in the disordered region, and Yaofeng is one of them!

"The strongest one is the Devil Kid, an extremely strong faction in Asia. They have several Budding Realm experts, and the leader of the Devil Kid is known as the Lord of the disordered region.

"Next is Heavenly Spirits who came from Japan. Their strength is also compelling!"

The old man quivered as he introduced them to Wang Xian one by one.

"Lord of the disordered region? Does the disordered region have a master?"

Wang Xian raised his eyebrows and asked this of the old man with his curiosity piqued.

"No... there is an island in the middle of the disordered region where major various Wandering Groups trade. That area is controlled by Devil Kid, and they maintain the order over there. Hence, the leader of Devil Kid proclaimed himself the Lord of the disordered region, and no one dared to retort!"

The old man answered quickly.

"Is that so? How strong is the Devil Kid?" asked Wang Xian curiously.

"There are at least five Budding Realm experts, and we don't know about the rest!" the old man answered with cold sweat breaking out.

"How strong is Yaofeng then?" asked Wang Xian while staring at the old man.

"Not strong. In your eyes, we're probably ants to you. We have only two Dan Realm experts," said the old man with trepidation.

"Do you have a map of the disordered region, a detailed one?"

Wang Xian stared at him.

"Yes, as long as you let me live. I will..."

"You don't have the right to bargain. Stop testing my patience!"

Wang Xian stared at the old man impassively, swarming him with oppression.

"Yes, ahem, yes!" The old man felt like the sky had fallen as he nodded in consternation. "I'll get it for you!"

Wang Xian sank back in his chair, gazing at the red wine with some interest on his face.

"Oh, there is Spiritual Energy in it?"

Wang Xian poured a cup and was surprised by what he saw.

"This is the pure Blood Coral red wine. It's very precious!"

The middle-aged man answered his inquiry on the floor, looking fearful.

"Here, for you!"

Soon, the old man held a few sheets of paper and handed them over with respect.

Wang Xian took it with eyes glistening with radiance.

"Let's go!"

Wang Xian took the sheets of paper and headed outside. When he was at the door, he halted.

"I wanted to take you in as my subordinate. Unfortunately, you harbored thoughts that you shouldn't have!"

"What?"

The old man widened his eyes when he heard Wang Xian as an Illusory sword penetrated his body instantly.

"This... You..."

The old man's eyes were wide and round, filled with despair and disbelief.

We have too few Dragonians in Dragon Sect. Recruiting men from the disordered region and Wandering Group is not a bad choice!

Wang Xian recalled the records stated on the sheets of paper as he pondered.

He wanted to boost the strength of the Dragon Palace and Dragon Sect greatly in the shortest possible time so as to cope with the upcoming change in the world.

The Wandering Groups in the disordered region were just in line with his requirements!

# Chapter 639: Manta Ray And The Pure Blood Coral

"Are you done with your chores?"

When Wang Xian returned to the beach, Xiao Yu and the girls were still eating. Seeing Wang Xian approaching, they questioned him with smiles.

"Yeah. I have to head to the disordered region tomorrow. You girls can remain here and enjoy yourselves!" Wang Xian sat down and spoke to them with a smile.

"Alright, Xiao Xian. If there's anything you require our help with, you can just inform us. We aren't weak at all right now!" Lan Qingyue replied to Wang Xian with a smile.

"Alright, alright. But I really don't need your help at this moment!" Wang Xian chuckled.

The girls were indeed not weak at the moment. Xiao Yu, Elder Fang, and Sun Lingxiu would be able to reach the Budding Realm soon.

As for Lan Qingyue, she had reached the Budding Realm some time ago. The first Kun she bred, Xiao Lan, had also reached Level 12.

The Budding Realm Xiao Lan had reached a size of over seventy meters. On Earth, it was definitely a terrifyingly huge creature.

Moreover, based on what Lan Qingyue had told him, Xiao Lan would be able to reach Level 13 within half a year.

When Xiao Lan reached Level 13, its size could reach two hundred meters. Moreover, it would be able to fly in the sky. Its strength would definitely rank among the pinnacle among those in the same realm.

Wang Xian accompanied them till 12 AM before the group headed back to the

hotel.

On the next day, Wang Xian led the group of dragonians and steered towards the disordered region.

As compared to other areas, the disordered region looked a little gloomier.

It was especially so for the areas under the sea. Other areas might have seawater that was blue in color. However, the disordered region was much darker and had terrifying vibes being emitted from the bottom of the sea.

Roving Sword, Roving Heavens and the rest are a few hundred miles ahead of us!

Wang Xian stood on the yacht and sensed the surroundings. He retrieved the map and instructed, "Head towards the disordered island straight ahead!"

"Yes, Dragon King!"

Mo Qinglong nodded his head, steered the yacht and moved towards the central location.

Around them, several black mountain peaks extended out from the bottom of the sea. The peaks were rugged and looked extremely sharp.

The further he proceeded, the more peaks he noticed that were extending out of the waters.

One should note that the sea below them could reach a depth of over three thousand meters. In other words, these protruding peaks were at least three thousand meters tall.

The deeper he moved, the more peaks he saw.

In this place, it was impossible for large ships to move through. A mistake would result in the sinking of the entire ship.

The greyish mist made the day resemble the night.

The sun resembled the moon as it emitted dim light.

Bam!

"Be careful!"

Suddenly, Wang Xian felt a terrifying aura from the bottom of the sea. He was astonished and shouted to remind the group.

Boom!

At this moment, followed by a huge explosion, the front of the yacht exploded. A creepy creature extended its wings and charged towards them.

[Manta Ray: Level 10]

[Extractable Dragon Energy: 112,342]

"It's an Inborn-level marine creature!"

Seeing the Manta Ray charging towards him, Wang Xian was astonished.

This Level 10 Manta Ray was roughly six to seven meters in size. Its entire body was pitch-black and emitted dense devilish aura.

It resembled a bat and had two fluid wings. At the edge of each wing was a razor-sharp bone spike.

The Manta Ray had a horrifying mouthpart and teeth that resembled a fork that was protruding out of its mouth. It also had a black tail that was roughly three meters long.

The Manta Ray jumped out of the water surface and charged towards them at a terrifying speed by flying.

"You must be courting death!"

A cold light flashed in the eyes of Mo Qinglong. He pulled back his arm and transformed his arm into a terrifying dragon claw before swinging it towards the Manta Ray!

Ji ji ji ji ji!

The Manta Ray cried out pitifully as it was caught!

"Huh? What a strong skeletal structure."

Mo Qinglong was surprised. Flexing his arm, the Manta Ray was killed on the spot.

Swish swish swish!

At this moment, more than a dozen additional Manta Rays flew out of the sea. They extended both of their wings and used their razor-sharp mouthparts and tails to attack Wang Xian and the dragonians.

Wang Xian waved his arm and the Manta Rays flew towards him.

Bam! Bam! Bam!

The dozen-odd Manta Rays were killed right away and were put into Wang Xian's space ring.

"The disordered region is indeed something. While steering on the sea, we can even encounter terrifying marine creatures flying out from the sea. This area isn't a place where the weak could survive!"

Wang Xian's eyes flickered as he stared into the water below him.

Wherever there were strong marine creatures, they would likely have spiritual items around.

Wang Xian leaped into the sky and dove right into the water.

Huh? Level 11 Manta Ray!

Just as he dived into the water, Wang Xian saw a Level 11 Manta Ray right away. Its body was roughly ten meters long and was emitting terrifying vibes.

It flapped its wings while releasing streams of devilish aura.

At this juncture, that Manta Ray was staring in the direction directly below him.

It's not surprising now that the sea appears so dark. There are probably a large

number of Manta Rays within the disordered region!

Wang Xian reached forward and the water before him seemed to be held in his palms.

Rumble!

Water swords appeared out of thin air and shot towards the Level 11 Manta Ray.

With Wang Xian's current ability to manipulate water energy, killing creatures that were weaker than him was like a walk in the park.

After putting the corpse of the Manta Ray into his space ring, Wang Xian dived deeper in.

There was an underwater mountain below him. The mountain wasn't very tall and Wang Xian saw a tuft of spiritual grass that emitted a blood-red glow in the middle of the mountain.

Wang Xian squinted his eyes, dived down and appeared beside it in an instant.

Pure blood coral! This is a tuft of pure blood coral!

Wang Xian observed it in shock.

This wasn't an ordinary coral or ordinary spiritual grass.

The bottom of this pure blood coral was connected to various terrifying roots. There were countless mouthparts densely packed on these roots, making it look exceptionally grotesque. It had its own life.

The pure blood coral was located in the middle of its eleven roots' extension and was emitting vast energy.

"Is this the pure blood coral? It feeds on the fresh blood of living creatures to form the pure blood corals while the living creatures can also greatly enhance their strength by devouring it. Tempt and be tempted!"

Wang Xian mumbled to himself. He waved his hands and a stream of water grabbed towards the pure blood coral.

Swish swish swish!

Those roots' extensions with revolting mouthparts instantly surrounded the pure blood coral.

Wang Xian waved his arm and five spiritual swords appeared around his hand before slashing those roots' extensions.

Pfft pfft!

Wang Xian severed the roots' extension and plucked out the pure blood coral with his hand. Dense energy was emitted in the instant.

[Pure blood coral: Level 6]

[Extractable Dragon Energy: 18,621]

"It's still alive!"

Holding the pure blood coral in his hand, Wang Xian was astonished to find it still alive. Those roots extensions of the blood coral were still alive.

Gradually, it grew palm-size roots.

"This is...? If we don't remove the roots completely, it will continue to grow longer, hunt for living creatures to form new pure blood coral, and grow stronger!"

"This is truly magical!"

Wang Xian was slightly impressed. Given some time, it would be able to form another pure blood coral with immense energy.

"In that case, there will definitely be lots of pure blood corals in this place. This is indeed a treasure ground. The contests of marine animals are just like the contests between humans!"

# Chapter 640: People From Xia Cauldron World

Wow!

After he swam out from the bottom of the sea, Wang Xian noticed the yacht in ruin.

A hole was found at the head of the yacht, but no water seeped in. Sailing with it was still possible.

The ship from Century Ghost Group that we saw was made from Level 7 materials. When there's a chance, I shall look for some material to build my own!

Wang Xian pondered to himself as he looked ahead while the yacht continued to move on.

"Someone is here!"

After traveling for more than ten kilometers, a ship appeared in their sight.

The opposite ship was apparently traveling in the same direction as they were.

...

"This is interesting. I've realized this world is rather interesting. Haha!"

At this moment, fifteen men stood on the deck of that boat. They looked into the distance, exhibiting pride on their faces from the bottom of their hearts.

Out of the ten men, the eldest was in his forties while another five ladies looked like in their thirties.

They spoke Mandarin, wearing peculiar clothing with long hair regardless of gender. Beside them stood eight ladies looking frightful in their swimsuits.

These ten-odd people exuded a faint demonic aura, which made them look devilish.

"Tsk, look at this babe. Even though her look is average, the way that she is dressed is rather common in the real world. Such a beautiful world. For the past four hundred years, no one from the Xia Cauldron World entered the real world. Four hundred years! I was almost bored to death in that little world!"

A middle-aged man wet his lips as he looked ahead with an evil charm.

"We must enjoy ourselves in this world these next few days. Despite the air over here being filthy, it's more exciting and interesting!"

A young man reached out his hand and hugged a babe in his arm, caressing the girl all over with excitement!

"After our world descends into the real world, we can enjoy ourselves again. Sect Leader did not deplete so much of his energy just so that we could come out and have fun!" a middle-aged man who stood in the middle said to them plainly.

"Senior Brother, aren't we doing serious business now? Currently, our strength in that world was too weak since all the resources were exhausted!" a young man said with a smile.

"The Xia Cauldron World was, after all, too small. Even though this world is lacking in Spiritual Energy, there are many locations with hidden resources. Some of it was even better than our world!"

The middle-aged man in the center surveyed the surroundings as he spoke slowly.

"The ocean, indeed. Those creatures in the sea were already an incredible resource."

"We must get hold of more information on this world before other worlds descend into the real world. We should occupy some treasure grounds first!"

"This place is comparable to our resources in Xia World a few thousand years ago. If we can take control of the disordered region, this will mark a great achievement for the Immortal Sect!"

"Since the remaining worlds have not descended, it'll be a piece of cake to control this place!"

Everyone revealed strong confidence with their lips curled slightly. One of them looked behind and said, "Senior brother, there's a ship behind us. Should we take them down first?"

"Don't bother. Wait till it gets here and we'll take it down once and for all!"

The middle-aged man in the center swept a glance behind him and remarked coldly.

"You're right. We don't have to waste our time on this!"

A young man chuckled as he sat in a chair leisurely and beckoned to the babes beside him!

Wang Xian withdrew his gaze from that boat and looked ahead.

Over there, the island slowly came into sight.

It was like a ghost island within this pitch-black sea region.

The yacht was moving fast. When Wang Xian arrived, he saw the ship that was ahead of him just now had already docked at the shore.

More than a dozen ships surrounded that boat.

"Disordered island!"

Wang Xian looked ahead and spotted a gigantic boulder erected with a couple of letters on it.

Beside the boulder stood two ferocious-looking middle-aged men, baring their arms and staring at them with cold gazes.

"They must be the men from Devil Kid!"

Wang Xian jumped off from his boat while over thirty Dragonians and Mo Qinglong followed behind him.

"You may enter, but don't make trouble. Otherwise, we'll kill you for sure!"

Two middle-aged men from Devil Kid reminded the gang coldly at the entrance.

Wang Xian nodded nonchalantly as he stalked straight in.

The not-so-huge island spanned a radius of five kilometers with many places filled with rugged rocks.

There were no trees on the island which made it even bleaker.

Conversations were heard from the island.

Wang Xian walked along a road and saw luxurious houses at the end of the road.

There were five thousand people in the houses, and some of them were making trades.

Men from Devil Kid were constantly patrolling around the area.

Wang Xian went in with eyes flickering with blue and red radiance. He looked around the place where the trading was taking place.

"48 Half-Step to Dan Realm experts, 15 Dan Realm experts, and only 2 Budding Realm experts!"

"Not bad for the disordered region. There are many experts over here. Given such a strength, it's compelling for international standards!"

Wang Xian quirked his lips. Taking in this group of people would significantly enhance the strength of Dragon Sect.

"Hur?"

At this moment, Wang Xian squinted his eyes as he stared at a group of fifteen standing by the side.

Fifteen people were standing there, looking ahead without any concern. They were surveying every one with arrogance.

"Fifteen Budding Realm experts. Fifteen of them!"

Wang Xian was taken aback and surprised, as that strength was terrifying.

"All of them have long hair, even the guys. Their clothes look similar to those of Yong Chang world!"

Wang Xian's eyes were beaming with radiance. Ancient clothes with long hair...

"Could it be?"

A tinge of seriousness welled in Wang Xian's eyes. Could it be that one of the Nine Cauldron Worlds had descended into the real world?

What are they doing here?

Wang Xian furrowed his brows, but soon, he relaxed them. "Regardless of whether they have descended into the real world, I should subdue this place first. Control the entire disordered region and enhance the strength of Dragon Palace and Dragon Sect!"

Wang Xian drew his lips and walked forward, looking at each of the trading shops.

"Senior brother, there are only two Budding Realm experts here. When are we striking?" a young man asked the Senior brother in the center with a smile.

"Didn't a fellow say there will be several large wandering groups here for trading too? Let's wait until they are here. Be patient!"

"In the past, all the forces had to bow down to us wherever we were near the various Immortal Sects. Back then, only the experts from Europe could match up against us. Now it's time for them to succumb to us!"

The middle-aged man looked around and commented plainly.

"All of them shall bow down to us. Wait till our master's arrival!"

# Chapter 641: Merman

Everyone has to surrender!

Thinking back to the times when Huaxia was in its most glorious days, they had swept through vast lands easily. [\[1\]](#) What had they relied on to subdue the masses within the four seas? [\[2\]](#)

Peerless experts and the powerful and prosperous Immortal Sects and army!

When the nine cauldrons stabilized the nation's fortune, all the tribes and dynasties within Asia had to pay pilgrimage to them!

The Underworld in the past was incomparably powerful and prosperous. It was only when experts from various Immortal Sects privatized the nine cauldrons for their vested interests that the fortune of the nation started to dissipate, eventually leading to the decline of the nation!

Although the times had changed, the malicious and amoral Immortal Sects beyond the region would definitely be extinguished.

The fifteen disciples from Xia Cauldron looked across the group of people with contempt.

In their eyes, they were the only rulers.

"There's someone by the name of the Dragon King that has appeared in the Underworld. Rumor has it that he's a demon-like talent and that he vanquished countless experts of the Underworld. It's a shame that we aren't aware of his current location!"

A lady played with the mobile phone in her hands with great interest while speaking with a smile.

"If we happen to meet him, we can make him our subordinate and instruct him to do as we wish!" another young man standing by the side joked.

"This Dragon King is indeed a talent in the Underworld. At this moment, the

entire Underworld sees him as their ruler. If we could subdue him, he would be greatly useful to us!"

"That's completely pointless. Looking at the current Underworld, I could have slaughtered all the martial artists in the Underworld myself!"

"He's just an ordinary man who has been enshrined as a legendary person. If we really encounter him, he would at most be at the Budding Realm. He might not even be a match for me. We wouldn't have much use for him!"

The group was conversing and commenting on the current Underworld with a sense of superiority!

Wang Xian glanced across the people before him before entering the trading grounds ahead of him.

The entire trading grounds only had roughly fifty to sixty stalls. Besides these stalls, some people had laid their items on the ground for sale.

Wang Xian looked around him and saw weapons, spiritual grass, the flesh of the underwater Manta Rays, and many other things with prices indicated clearly.

These items would be really precious if brought to the Underworld. However, they weren't of high value to Wang Xian.

While Wang Xian led Mo Qinglong and the rest around each store, the surrounding people were also observing the group.

Some of them squinted their eyes and light flashed across their eyes. No one knew what they were thinking about.

"The Lord of the disordered region is here!"

"The people from Heavenly Spirits are here too!"

"The leaders and heads of various prominent Wandering Groups are here! I wonder what kinds of treasures there are this time?"

At this moment, raucous discussions could be heard from the surroundings.

Wang Xian turned around and looked to the entrance. Various martial artists emitting brutal and powerful aura were walking in his direction without any emotions on their faces.

The first group of roughly thirty people had a myriad of tattoos on their faces, making them look exceptionally hideous and frightening.

Among the group of thirty people, there were a dozen-odd Inborn level experts. They were led by an old man with a tattoo of a devil on his face.

Budding Realm expert!

Several emaciated dwarves followed closely behind. Although they were at most seventy to eighty centimeters tall, the aura emanating from them made it impossible for anyone to belittle them!

All of them were carrying black truncheons or black samurai swords.

Among them, two of them were carrying a cage covered in black cloth. No one could tell what was inside it.

Behind this group, various experts from various groups were also entering the trading grounds.

The groups of people could be easily differentiated. Judging from the auras they were emanating, none of them would be pushovers!

"Quite a number of people are here today!"

The old man with a devil tattoo on his face looked eerily across everyone around him. When he saw the foreign faces of Wang Xian and his group, he commented plainly.

"Get the trade started as soon as possible. I, your mother, still have things to handle."

Just as the old man finished his words, a rather plump lady with a pitch-black poisonous snake in her hands remarked impatiently.

The moment she completed her remarks, she waved her arm and the boxes in the

hands of the middle-aged men behind her opened directly.

"Pure blood corals, cubs of Manta Rays, the blood of Inborn experts... Is there anyone who wishes to make a trade? We are looking to exchange these for treasures and spiritual stones!"

"Hehe! Decisive! Buying pure blood corals and teeth of a Dan Realm Manta Ray with spiritual stones!"

"Devil's Blood Pill, three pieces of spiritual equipment..."

Various Wandering Groups took out their treasures and laid them out on the ground

Those who were around started moving towards the stall gradually with their eyes fixed fervently on various treasures.

"Although the items available for trade are great, they are similar to the past. Our Heavenly Spirits has brought something great today!"

An emaciated old dwarf looked across the crowd like a sinister snake. He smiled creepily before continuing, "Let's start the trade with what I have!"

Swish!

As he spoke, he waved his arm and sent the cage behind him onto a platform in the center.

"If it isn't something great, don't waste our time!"

The old man with a devil tattoo on his face remarked plainly.

"Hehe! You will know once you see it!"

The old dwarf moved his arm and the black cloth was flipped aside, revealing the contents of the cage.

Huh?

"This is...?"

The surrounding crowd was astonished and had their eyes locked intensely on the creature in the cage.

"Is this a merman?" an old man with a strange outfit exclaimed in surprise after seeing what was in the cage.

"That's right. This is a merman we caught alive by chance!" the dwarf answered with a smile.

"A merman? This isn't even a beautiful mermaid. What's the use of getting it?" a middle-aged man asked with contempt.

"Its skin is a great treasure. While wearing it, one can swim freely under the water. Why don't you tell us what use it would have? Hehehe!" the dwarf stared at the middle-aged man and answered in a creepy tone.

Huh?

The explanation from the old dwarf instantly aroused the interest of the crowd.

Even Level 10 spiritual equipment wouldn't allow them to swim freely under the water.

"What are you looking to exchange it for?" the plump lady who spoke at the beginning asked with her eyes beaming with excitement.

"Blood! The fresh blood of Manta Rays or Inborn experts!"

The old dwarf licked his lips as he spoke.

"Merman?"

Wang Xian, who had just been standing by the side as a spectator, was astonished to see the items being put up for trade in the center of the trading grounds.

A merman was a marine creature that had existed in the myths. He had not expected that he'd encounter one in this place today.

However, the surrounding crowd didn't seem to be as surprised. It would appear

that they had seen countless other strange and unique creatures from the sea.

"We are taking this merman!"

At this moment, a voice reverberated throughout the crowd.

A dozen-odd people entered the trading grounds. The surrounding crowd stared harshly at them as they squeezed past them forcefully.

However, members of various Wandering Groups paled upon sensing the terrifying auras being emitted by the two young men standing at the edge of the group. They instantly moved aside and opened up a path.

"What an unexpected encounter! I would have never expected myself to find a merman today. Moreover, it's a merman who has not awakened. This is really uncommon!"

The old man in the middle of this group stared fervently at the merman on the center stage with his eyes beaming with excitement.

# Chapter 642: Kneel Down And Surrender (1)

"Senior brother, this merman is like the leader of the peculiar marine creatures. After awakening, it might be a peerless talent mermaid that could control water current!"

"That's right. This foreign creature exists only in the vast ocean and was recorded as the Spiritual Beast. It's my first time seeing this. Haha, guess our luck is good!"

The middle-aged man stared fervently at the merman and chuckled, "If we gave it good training, it would be a huge support to us. Unfortunately, none of us practice water-attributed skills!"

"Hur?"

The surrounding crowd that overheard their conversations revealed a surprised look.

Upon hearing what they said, the old dwarf's eyes twinkled as he squinted and looked at them. "How much blood are you exchanging it for?"

"Idiot!" The plump lady beside swept at the group of fifteen. "You raise the price on your own. What a fool!"

"Bro, we, Raging Sea Wandering Group, practice water-attributed skills. This creature seems to have more affinity with us. I wonder what's so special about this merman?"

An old man holding onto a longsword asked with a beaming face while a water snake was coiling itself on his longsword.

The middle-aged man slowly cast his gaze on the plump lady. With a broad smile, he stared at the merman in the middle. "A merman is priceless to water practitioners. But I want it. How much blood do you want?" the middle-aged

man asked the old dwarf plainly.

"Dumbass!"

"What a fool to say this. Isn't this giving a chance to Heavenly Spirits for them to quote any high price they want?"

"Which wandering group does this bunch of people belong to? I have never seen them before?"

"Newcomers, perhaps. But given this intelligence, they can't live for long!"

Upon hearing what the middle-aged man said, everyone was watching with scornful looks.

"Such a creature is, of course, priceless. I want the fresh blood of fifty Inborn-level creatures, or five Dan Realm, or a Budding Realm expert. Haha!"

The old dwarf laughed out loud at the middle-aged man's words.

"Heavenly Spirits, you really dare to quote such a high price!"

The old person with the longsword spoke with a darkened expression when he heard what the old dwarf said.

"Haha, it's a divine creature. Of course, the value is relatively higher!"

The old dwarf looked at the middle-aged man and asked impassively, "If you can afford it, we can deal immediately!"

"No problem!"

The middle-aged man nodded with an unconcerned look.

His words brightened the mood of the old dwarf who was still slightly upset for quoting the low price.

Everyone just looked at the middle-aged man with astonishment.

"A Budding Realm expert is sufficient?" a young man beside the middle-aged man murmured.

As soon as his voice stopped, he vanished into thin air.

Ah!

Just then, a horrifying scream that lasted for one second was heard before it came to an abrupt end.

"Budding Realm blood. For you!"

While all the surrounding Martial Artists of the Wandering Groups were watching, that young man lifted the head of that plump woman and tossed it to the old dwarf.

"You..."

Bam, Bam, Bam!

All the people staggered back in trepidation as they fixed their eyes on the fifteen men with a mixed expression.

"Hey, what are you trying to do?"

The old dwarf glared at the gang with vigilance and fear.

"Who are you people? How dare you create trouble on the disordered island!"

The old man who had a tattooed face held out his weapon and stared at the middle-aged man with wariness.

All the surrounding experts of the Wandering Groups fixed their cold gazes at the group, exuding daunting aura from their bodies.

There was solemnness in their eyes. That plump lady who had spoken just now was a strong Budding Realm expert. Her strength was not weaker than the leader of Devil Kid. Yet she was beheaded in a split second!

There were eight Budding Realm experts on the spot!

"HA HA!"

The middle-aged man let out a clap of hysterical laughter. "What are we trying to

do? We are here to subdue all of you. Be honored that you can be recruited under Devil Sealing Immortal Sect!"

"Tsk, surrender to us now!"

The young man who just struck was looking thrilled. As he swept his gaze around all the people, domineering demonic aura rose from his body.

"Surrender!"

"Get down on your knees!"

Two young men exclaimed together with their demonic aura surging frantically.

Subsequently, the demonic aura rushed to the air, looming over the entire area with their demonic oppression.

The domineering oppression coagulated to form many Devil's Doors with one exceptionally huge one in the air.

On those Devil's Doors were huge malevolent demon patterns.

The area with a radius of a few kilometers was cordoned off by the demonic aura.

"What?"

In the face of such sudden change, all the wandering groups were shivering in their boots.

"What compelling strength! There are fifteen Budding Realm experts!"

The leader of Devil Kid, known as the Lord of the disordered region, was slightly trembling with the weapon in his hand.

When that young man beheaded the snake lady in an instant, he was already taken aback by surprise.

She was a Budding Realm expert. Killing her without a moment of pause despite it being a surprise strike already indicated the domineering skill of the young man.

However, the remaining fourteen were equally daunting.

Bang, bang, bang!

Those Martial Artists who were below the Dan Realm had a drastic change in their expressions. Their bodies seemed to be being suppressed by mountains. All of them gritted their teeth as they knelt down with eyes full of consternation.

"You have ten seconds. If you do not kneel and surrender, you'll suffer the same consequences as that plump lady. Of course, you guys can also challenge us!" said the middle-aged man with a broad smile as he walked to the center and lifted his chin to look at all the people.

Gulp!

All the wandering groups were aghast as they looked around with fear.

"Who are you people?" the leader of Devil Kid asked, quivering slightly.

"You have no right to ask me!"

The middle-aged man smiled as he stared at Devil Kid. "Five more seconds!"

As he spoke, he overlooked all the people.

Ka Ka Ka!

At this time, the Devil's Doors slowly opened with a ferocious demonic shadow coagulating into black spears.

"What kind of attack is this? How terrifying!"

The old dwarf from Heavenly Spirits was aghast as he sensed the ferocity in the air. His body trembled as he slowly went down on his knees!

Bam!

Upon seeing their leader kneeling down, the rest of the members from Heavenly Spirits followed suit.

The demonic oppression was unstoppable!

Bam, Bam, Bam!

Since the leader of Heavenly Spirits knelt down, the leader of Devil Kid went down on his knees, looking dreadful.

These fifteen daunting Budding Realm experts were not people who they could go against.

The remaining leaders of the wandering groups all fell on their knees with quivering bodies.

The demonic oppression was unstoppable!

"Hehe!"

Watching them falling on their knees, one by one, the middle-aged man revealed a faint smile. Eventually, he looked at the thirty-odd people who were standing by the side.

"There are really people who aren't afraid of death. This is great! I can use all of your blood to nurture the merman!"

# Chapter 643: Kneel Down And Surrender (2)

"There are really people who aren't afraid of death. This is great! I can use all of your blood to nurture the merman!" said the middle-aged man.

He wore a sinister smile, lifted his arm gradually and repositioned the terrifying black spears in the sky.

Wang Xian lifted his head and stared at the middle-aged man and the fourteen people that accompanied him. He asked in an emotionless tone, "Nine Cauldron Worlds? Which world are you guys from?"

The middle-aged man who was raising his arm stiffened. He stared at Wang Xian and surprise gleamed in his eyes.

"Who are you?"

The middle-aged man lowered his arm gradually while observing Wang Xian and the group of dragonians behind him.

"I'm the Dragon King from the Dragon Sect!"

Wang Xian answered the middle-aged man before questioning him again. "May I ask which world you guys are from?"

"How did you know about the Nine Cauldron Worlds?"

The middle-aged man didn't answer Wang Xian once again. Instead, he looked at Wang Xian with amusement and continued, "Dragon King? I heard about you some time ago. You are pretty good!"

Huh?

Seeing the middle-aged man wasn't answering him and acting haughtily, Wang Xian found it hilarious.

"So you are the Dragon King! You are indeed as young as the rumours claimed. You even have over thirty Dan Realm experts as subordinates. That isn't too shabby!"

Around him, the remaining dozen-odd experts of the Devil Sealing Immortal Sect were observing Wang Xian and were a little surprised by the strength he possessed.

"You are pretty strong. It would appear that I have underestimated you. Surrender to us and we won't be stingy with our rewards to you once our Devil sealing Immortal Sect of the Xia Cauldron descends into the real world!"

A middle-aged man looked at Wang Xian, nodded his head with satisfaction and commented.

"What kind of rewards?"

Wang Xian looked at them with interest while the corner of his lips curved up slightly.

"Since you know that the Nine Cauldron Worlds will be descending into the real world soon, you would have expected a major contest soon. Do you think you could rely on your own strength to gain a foothold in the near future? Only by surrendering to us would you gain the qualification to live on. Otherwise, you are just like a mudskipper in a small pond of mud in our eyes, let alone being called the Dragon King!"

The middle-aged man standing in the middle of the group stared at Wang Xian and continued his mockeries. "Become the subordinate of our Devil Sealing Immortal Sect and you will at least have a backing!"

"You guys are truly interesting!"

Upon hearing the middle-aged man, Wang Xian's face was filled with contempt. "Xia Cauldron world? Devil Sealing Immortal Sect? Ordering me to submit to you and be your subordinates? You guys are truly daring to dream!"

"Hehe, Senior brother. It seems like this brat is indignant to the suggestion. Let's just kill him directly!"

A young man was staring at Wang Xian and unhappy about how Wang Xian had reacted as he spoke up with discontent.

"If he has thirty Dan Realm experts as subordinates, he must at least be at the Budding Realm. Coupled with his status in the Underworld, he's a little more useful than the rest. Let's keep him alive!" a lady suggested in an emotionless tone.

"He doesn't know where he stands! Let me teach him an unforgettable lesson first!" a young man remarked with a smile as a dagger appeared in his hand suddenly.

He moved and a shadow flashed across instantly.

That incomparable and terrifying speed was on display once again. Moments ago, the young man had beheaded the plump lady with his astonishing speed.

One could easily tell how fast the group was!

The middle-aged man in the middle did not attempt to stop the young man despite seeing him striking. Instead, he simply remarked, "Just teach him a lesson and don't go too far!"

"Haha! Alright, Senior brother!"

The voices came from different directions. Looking at the young man who was charging towards him, deep contempt flashed across Wang Xian's eyes.

Bo!

Black light shot out from the young man's eyes and devilish shadows appeared all around Wang Xian.

Weapons from all directions were launched towards him.

However, the young man's body stiffened after seeing his dagger plunge into Wang Xian's body.

With the dagger still in Wang Xian's body, streams of water flowed out from the wound.

"All of you kneel down now and surrender!"

At this moment, Wang Xian's chilling voice reverberated across. Soon after, to the astonishment of everyone in Devil Sealing Immortal Sect, the head of the young man flew towards them.

Bam bam!

The human head fell beside the middle-aged man standing in the middle, rolled ahead and caused knocking sounds.

"Junior brother Mei!"

The middle-aged man was astonished and shouted loudly.

Rumble!

At this moment, fear-inducing sounds of water flowing resounded.

Weng weng!

Soon after, to the horror of the group, they noticed that the sky had completely changed.

The blue water streams were able to destroy the devilish auras that were surrounding them!

The gigantic and terrifying Devil's Doors started cracking and the entire sky was dyed blue.

Terrifying water swords formed in the sky, emitting spine-chilling penetrative force.

"We... What kind of terrifying existence have we encountered?"

At this moment, the crowd from the disordered region, who had gone down on their knees, were shivering in fear.

What kind of terrifying existence had they encountered?

They wouldn't be a match for any of the fifteen people.

And yet, there was someone even more terrifying here who suppressed the group of fifteen alone. Listening to their conversation, they felt that this world seemed to have changed.

The disordered region was a relatively more well known place in Asia. Even the denominations in the international stage wouldn't dare to interfere recklessly.

The truth was that those in the disordered region were all people who weren't concerned about life and death any more.

They were people who had offended the denominations, terrified groups, or found it hard to survive in other places.

Even Budding Realm experts, who were the leaders of these Wandering Groups, were no exceptions.

Otherwise, no one would willingly be in this terrifying sea region. Although they could get precious treasures, this place was the sea after all and belonged to the marine creatures in the sea.

Incidents where even Budding Realm experts died weren't completely an exception.

If these Budding Realm experts were to return to normal society, they would enjoy endless wealth. When placed in denominations, they would also be one of the most elite existences.

Considering the current environment, the formation of Wandering Groups by experts, who were more extreme, was generally fostered.

The Wandering Groups were referred to as Wandering Dogs by the denominations and other major forces worldwide to show how crazy they could be.

And now, the Wandering Groups of the disordered region, which were known throughout the world, were wanted by two groups of people to be their subordinates.

While undoubtedly feeling anger, they were more frightened.

The strength that these people had demonstrated was simply too strong!

Their strength had even instilled fear into these maniacs.

"What?"

The remaining fourteen experts were shocked to see their devilish auras and Devil's Doors shattered by the terrifying streams of water.

"I'll give you ten seconds to go on your knees or you will end up like him!"

Wang Xian took several steps forward and faced them with a gentle smile.

"YOU... Impossible! How can you possibly be so strong!? How can this be!?"

The group from Devil Sealing Immortal Sect was shivering in fear. They lifted their heads and saw a clear blue sky that was shrouded in water and the countless terrifying water swords. Their pupils constricted unconsciously.

"You have five more seconds!"

Wang Xian smiled faintly, creating a strong contrast with the exceptional bitter faces of the group from Devil Sealing Immortal Sect.

At the same time, they felt indescribable fear as they stared at Wang Xian.

It was just like moments ago when they'd put on the same front with the same might while ordering all the Wandering Groups to get on their knees.

It was just that they were now on the receiving end!

On their knees and surrendering!

# Chapter 644: Submission

The people from the Devil Sealing Immortal Sect had a drastic mixed expression as they fixed their eyes hard on Wang Xian.

He had asked them, the people from Xia Cauldron, to kneel.

The feeling and humiliation of asking them to kneel seemed like they were some beggars or slaves.

They had come to this real world, and they had been overlooking the people in this world, just like ants.

Now the ant who they had always regarded as such was asking them to kneel. Proudful as they were, they found it hard to accept it!

Sensing the frightful water energy around them, the middle-aged man in the center bellowed at Wang Xian with fear in his eyes, "You're half-step to Immortal, or..."

"Ants, your time is up!"

Wang Xian looked at the fourteen people who were altering their facial expressions. With coldness flashing in Wang Xian's eyes, he placed his palms together while the water swords in the air whizzed downward.

"How dare you. We're the disciples of Devil Sealing Immortal Sect. If you dare to kill us, our Immortal Sect will not let you off when the Xia Cauldron descends into the real world. The Immortal experts will be after you!"

Trepidation flashed in a young man's eyes as he exclaimed loudly in a harsh tone.

"Don't think too highly of yourself. You guys aren't Immortals!"

Wang Xian swept a cold gaze at that young man while the daunting water swords in the air exploded into endless streams of water swords sweeping into their faces.

"Kill!"

The middle-aged man was horrified as he let out a loud roar.

"I'll make you kneel today!"

A hint of contempt flashed in Wang Xian's eyes. With a thought, five Level 12 spiritual swords appeared around them, slashing at the group right away.

Given Wang Xian's current strength, killing a Budding Realm was effortless even in his humanoid state.

Five spiritual swords that were exuding immense water energy struck at them, along with those endless water swords besieging them.

"Ah, no!"

As the spiritual swords whizzed over, a middle-aged lowered his head in fear. Their legs were already separated from their bodies at this moment!

"No, I surrender. I will kneel!"

Sensing the pain from his left leg, the middle-aged man looked down with horror in his eyes as he fell to his knees.

His strength was unstoppable!

They didn't have the slightest ability to resist it.

This struck a deep sense of defeat and fear into them. How could there be such a domineering person in this real world?

Everyone was bitter when they thought of the evaluation they'd made of the Dragon King of the Underworld.

"I surrender!"

"I surrender!"

One by one, the experts from Devil Sealing Immortal Sect knelt in consternation as they shouted.

"That's right. What were you waiting for?"

Wang Xian scorned them nonchalantly before he looked over to the Wandering Groups. "How about you guys? Needless to say..."

"We surrender! We surrender!"

The leaders of the Wandering Groups hurriedly exclaimed at the top of their lungs.

They had already submitted themselves to the fifteen daunting experts just now. Why would they not surrender now?

"Get them to explain the situation in Xia Cauldron world. Also, the battle techniques they are cultivating and the application of the demonic aura. These will be of great use to you guys!"

Wang Xian spoke to Mo Qinglong behind him.

"Yes, Dragon King!"

Mo Qinglong nodded as he headed slowly to the experts of Devil Sealing Immortal Sect, staring at them over their heads.

As though God had descended to the world, they were shaking and were left with only despair when they saw Wang Xian.

"Speak up!" Mo Qinglong commanded them coldly.

Looking at Mo Qinglong, the group of people clenched their fists while the middle-aged man in the center began his account with a dreadful look.

Wang Xian peered over and walked toward the merman.

[Merman: Level 9]

"A merman at Level 9 is far too weak!"

Wang Xian sized up the merman. It was no different from human body size, and somewhat took the shape of a human. It was wrapped in a skin that was grim looking.

"What do you mean by the awakening of the merman!?"

Wang Xian asked this plainly while his voice was ringing in the ears of the people from Devil Sealing Immortal Sect.

They took a deep breath with a serious look.

"We're not sure of the specifics. But according to records, mermen are rather mystical creatures in the ocean. They are ugly and weak before they are awakened. After they awake, they possess striking appearances and great talents."

A middle-aged man explained it to Wang Xian with a sullen face.

"Oh? How do we wake them up?" asked Wang Xian curiously.

"Feed it Spiritual Grass and flesh. The more well-fed they are, the stronger they will become after awakening. In addition, they will have intelligence and their own inheritance!"

The middle-aged man continued to answer.

"I see."

Wang Xian nodded gently and turned to the Wandering Groups.

"Those who are Half-Step to Dan Realm and above, get over here!"

"Yes, Sir!"

The group of the Wandering Groups' experts quivered before they stood up and humbled themselves before Wang Xian.

"8 Budding Realm, 23 Dan Realm, and 50 Half-Step to Dan Realm experts. This is just right to boost the strength of Dragon Sect!"

Wang Xian exhibited a satisfied look. He waved his palm, and drops of Blood Essence appeared on it.

"Take this and do not resist. Otherwise, you're dead!"

As Wang Xian spoke emotionlessly, the drops of Blood Essence hovered over to them.

"Yes!"

Upon seeing the golden drops of Blood Essence, the experts of the Wandering Groups were having different thoughts. They knew that the outcome would be disastrous if they did not resist it.

However, if they did, they would die.

They might be maniacs, but none of them wanted to die.

"Back then, no other denominations could have me controlled!"

Radiance flickered in one of the leaders' eyes as he absorbed the Blood Essence.

Buzz!

When the Blood Essence entered their minds, a scary thought was formed inside them.

Their eyes were surging with a hysterical look, staring at Wang Xian passionately.

"Greetings to the Dragon King!"

They yelled with eighty-one Wandering Groups' experts kneeling uniformly before Wang Xian, like passionate believers.

"This..."

The group of Devil Sealing Immortal Sect disciples turned around in disbelief as they stared at the fanatic Wandering Groups.

"They are being controlled! What kind of means is this to control their minds?" the middle-aged man murmured with shock as he looked aghast.

"Are you going to control us too?"

The middle-aged man was shocked as he shuddered. They came to this world

only to become slaves to someone else in the end.

They were not even subordinates, but slaves with no minds of their own!

All the surrounding members were horrified by what they saw. They lowered their heads in trepidation.

"Dragon King, we got all the information!"

About ten minutes later, Mo Qinglong came to Wang Xian and reported.

"Okay, since we got what we wanted, then just..."

Wang Xian looked at those Devil Sealing Immortal Sect people.

"Are you going to control us too?"

The experts from Devil Sealing Immortal Sect were terrified.

"Just kill them all!" said Wang Xian indifferently.

# Chapter 645: Immortal Class

## Creatures

"In that case, you guys can die now!"

The instant Wang Xian completed his words, the surrounding seawater contracted at a terrifying speed.

"What?"

The group from the Devil Sealing Immortal Sect was stunned and fear could be seen on their faces.

"YOU... You went back on your word!"

The middle-aged man in the middle was furious and roared loudly.

Wang Xian stared at them but didn't say a word. The next instant, the surrounding seawater struck towards the group of fourteen.

"NO..."

They desperately thought of running but the seawater was like a swamp and emitted an insanely high temperature.

Argh!

Blood-curdling cries reverberated and Wang Xian stood by the side silently while watching them.

"Sigh. It looks like it will be an era of competition in the near future. Even if the era might not be chaotic, the world won't be as peaceful as before!"

Wang Xian looked at their corpses and heaved a long sigh.

High and mighty as though they were immortals looking down on the entire world.

This was the attitude that was displayed by the people from the Nine Cauldron Worlds and the exemplification of the pride and arrogance from their core.

In their worlds, they wouldn't have to follow laws and regulations. Everything was dictated by strength.

When facing people from other Nine Cauldron Worlds, these people might be a little more courteous. However, if they were facing people from the real world, they would definitely have a sense of superiority.

Take these dozen-odd people as an example. Despite facing experts of the same realm, they still acted haughtily.

It was as though they thought they were immortals from the heavens looking down on the mortals.

This mentality would definitely be a huge blow to all people living in the real world. In fact, for most people living in the real world, the descent of the Nine Cauldron Worlds might not be a great thing.

As he was the strongest expert and leader of the most powerful Dragon Sect in the Underworld, there might be people thinking of subduing him to display their might and strength when the Nine Cauldron Worlds descended.

Some might even kill him to lift their standing and reputation!

"If you dare to look down on me and take a high stand, I'll bury you three inches below ground!"

A light flickered across Wang Xian's eyes as he glanced across the corpses. He waved his arm and several screens of Water Veil surrounded these corpses.

In an instant, those corpses had turned into a ball of blood-red essence with immense energy.

However, such energy was incomparably violent and hard to digest.

Wang Xian threw it towards the merman. The merman lifted its head and stared at him without any traces of emotions. Those were eyes that belonged to a wild beast.

Wang Xian turned around and looked at the members from the various Wandering Groups.

Under his supervision, the surrounding four to five thousand members of the various Wandering Groups could feel perspiration covering their foreheads as fear gripped them tightly.

They were now awaiting Wang Xian's judgement.

"Kill them!"

Wang Xian wasn't going to be compassionate to them at all.

The hands of this group of people had all been tainted with fresh blood. Recalling his encounter with the Century Ghost previously, Wang Xian did not have the slightest good impression of them.

If he didn't require manpower, Wang Xian wouldn't have considered accepting Wandering Groups from the disordered region as his subordinates.

"Dragon King, I would suggest using them for breeding pure blood corals. With so many of them, we should be able to breed a large number of pure blood corals!" the leader of Devil Kid suggested to Wang Xian.

"Alright, deal with them as you suggest!"

Wang Xian nodded his head plainly and looked across the newly accepted dragonians,

Evildoers!

This group of people could be considered as those who had committed the most heinous crimes. After consuming the essence blood, they would follow his instructions to the fullest.

They would also see Wang Xian as the absolute ruler.

However, their initial beliefs and way of doing things wouldn't change.

Mo Qinglong and the dragonians previously weren't great people. However,

when compared to the group of people before him, Mo Qinglong and the dragonians previously were definitely kind.

"Using evildoers would be like using a cursed sword. I should be able to use them to slay other evildoers!"

Wang Xian chuckled and wasn't too concerned about their past actions.

With him around, this group of people wouldn't be able to come up with tricks.

"Leader! No... No... Don't...!"

Around them, the crowd of members from the various Wandering Groups begged for mercy from their leaders.

"Hehe! You guys should be grateful that your death will bring some value to the Dragon King! It's totally worth it!"

One of the leaders of the Wandering Groups grinned as bloodlust could be seen from his face.

Members of the Wandering Groups weren't bonded by blood whatsoever. Even without Wang Xian, they wouldn't feel any sorrow if their subordinates died.

"Old Mo, tell me about the situation of Xia Cauldron world. When I'm not around in the future, I'll leave this group of people under your supervision!"

Wang Xian looked across them before instructing Mo Qinglong.

"Yes, Dragon King!"

Mo Qinglong nodded his head and continued, "Dragon King, the Xia Cauldron is located at the Ping Chuan Mountain Range and spans approximately a thousand miles. There are two Immortal Sects in the Xia Cauldron World..."

Rumble!

Suddenly, the entire island shook violently. From several tens of kilometers away, a terrifying aura shrouded over.

Flashes of gold and black light appeared across the sky, making the entire

disordered region seem to be in the center of an apocalypse!

"Shit! Dragon King, the Manta Ray King of the disordered region is currently fighting with another terrifying existence!"

Seeing the terrifying scene from afar, the leader of Devil Kid was filled with horror as he spoke to Wang Xian.

"King?"

Wang Xian turned around instantly and his expression turned solemn as he looked into the distance.

"Manta Ray King is an Immortal-class creature. It is the strongest existence in the entire disordered region. In the past, I offended an Immortal and he chased me to this place. In the end, he incurred the fury of that terrifying Manta Ray King!"

"It has a body that is over thirty meters long. Its pitch-black body is covered in terrifying-looking scales. At that time, that Immortal escaped in a hurry after exchanging a dozen moves with the Manta Ray King.

"It can fly in the sky and swim underwater. When it emerges from the seas, the devilish aura masks the sky and no light can reach the area within a radius of several dozens of miles around it," old dwarf man explained to Wang Xian while looking flabbergasted.

"It is also because there is an Immortal-class creature in the disordered region that deterred many elite experts from various denominations from entering. If we had the choice, we wouldn't want to be here either!" an old man said, looking into the distance.

"The Manta Ray King is the true Lord of the disordered region!" the leader of Devil Kid explained.

"You guys shall stay here while I go take a look!"

Feeling the intensity of the battle in that direction, Wang Xian moved towards it at an incredible speed.

"Be careful, Dragon King!" the newly joined dragonians reminded.

"Just relax!" Mo Qinglong looked at them and commented plainly.

The one fighting with the Manta Ray King was Roving Sword. If there was an Immortal-class creature in this place, there should be many Budding Realm-class Manta Ray.

Roving Heavens and the remaining Dragon Palace members have likely run into some trouble!

Wang Xian squinted his eyes and a red and blue light flickered.

He dived into the water and executed Instant Shift immediately.

Boom!

At this moment, a terrifying figure emerged from the sea. It was entirely black and was over thirty meters long. It resembled the terrifying creatures that only existed in ancient times.

When it emerged from the seas, the color of the sky changed and the area within a radius of twenty to thirty miles was shrouded in the devilish aura.

This is what is truly meant by covering the skies with devilish aura!

Dang dang dang!

Suddenly, a blinding golden light emerged from the seas. The golden light transformed into a sword and split the devilish aura that covered the entire sky!

# Chapter 646: Immortal-class Terrifying Battle )

Ji ji ji, ji ji ji!

A scary buzz came from the sky.

A Manta Ray of more than thirty meters was flapping just like a bat flapping its wings in the air.

Its teeth were five meters long as though bones were piercing outward when the mouth was open.

Along with its cry, clouds of scary demonic aura coagulated into smaller Manta Ray images of four meters in size.

The demonic shadow struck at the sharp golden swords.

Boom boom!

The Manta Ray demonic phantoms collided with the golden sword shadows, giving off a huge explosion. Black and golden colors exploded like daunting fireworks.

Whoosh!

At this instance, rays of golden beams darted out from the sea as though some terrifying things were rising out from it while the seawater spread out on its own.

Roving Sword stood on the longsword that was glowing in golden radiance. He was staring at the Manta Ray King that was oozing with demonic aura in the air.

"Get out of our region!"

The Manta Ray King suspended itself in the air as it stared at Roving Sword with its pitch-black eyes, spewing rings of ripples.

The ripple waves were like a transmission on a spiritual level as the voice traveled out to a radius of over ten kilometers!

All the living creatures could understand, as though its words could enter into the mind of every living being.

"We came from the Dragon Palace. If you submit to us and join us, we can spare your life!"

Roving Sword stared at the Manta Ray King and spoke with a cold face.

"What Dragon Palace? Get out of this water region, or else, die!"

The Manta Ray King flapped its vast wings, shrouding Roving Sword with a domineering demonic aura.

At the same time, its body looked like a fighter plane, whizzing in at Roving Sword.

"Swords rule the world, I'm the supreme!"

Seeing Manta Ray King going for a strike, Roving Sword jerked himself back, releasing daunting metallic energy and blocking the shrouding demonic aura.

Millions of golden longswords appeared in the void, aiming straight at Manta Ray King.

Zi zi!

Manta Ray King suddenly retracted its wings while the sharp teeth in its gigantic head went for a bite of Roving Sword's head.

"Spaceless Blade!"

Seeing that no swords left any trace on its wings, Roving Sword raised his arm and brought it down!

All the golden radiance came together at rapid speed, forming a hundred-meter-long sword pointing at Manta Ray King.

Bang, bang, bang!

Behind Manta Ray King was a black tail that extended to a length of over ten meters like a devilish whip, sweeping in at Roving Sword.

"Sword Defense!"

There was a change in Roving Sword's expression. The surrounding golden swords were spinning at a rapid speed, forming a wall of sword defense.

Boom!

However, the compelling forces swept off Roving Sword, causing him to plummet into the sea at a terrifying speed.

Waves splashed up a hundred meters.

"Jiji, Devil Shadow!"

Manta Ray King watched the sea with trembling wings.

Another similar-sized demonic shadow headed into the sea.

Boom!

Another explosion was heard. All the seawater within the radius of one kilometer sank down, forming a scary whirlpool.

Roar!

At this moment, a beam of sword radiance darted out from the sea.

The golden longsword was twenty meters in size, directed at the Manta Ray King.

This was not a golden longsword, but a daunting metallic swordfish.

Golden swordfish, Roving Sword.

At this time, Roving Sword returned back to his original form with imposing aura. His entire body had turned into a ruthless sword.

Using the spine on his head as the tip of the sword, and his body as the edge of

the sword, his fishtail was the sword hilt!

Sword becomes one, I'm the sword!

Bam!

Roving Sword transformed into a sword and charged.

Boom!

Petrifying impact and a deafening clang resounded through Heaven and Earth.

Ji ji!

However, Manta Ray King went forward slow and steady with its hair-raising wings and tail.

Boom boom!

The battle between the Immortals was destructive.

Patches of gold and black filled the air while all the water in the sea tumbled.

The current sea was like a small boat rocking in a tsunami.

Bam, Bam, Bam!

At this moment, Manta Ray King's tail was emitting dazzling black demonic aura, looming over Roving Sword's body with its Devil's Whip.

The unparalleled domineering power caused the glow on Roving Sword's body to dim.

Bam!

Countless Devil's Whips suddenly got together and stuck forcefully at Roving Sword.

Roving Sword was thrown off, sinking into the deep blue sea.

"Oh no, what a terrifying Manta Ray King!"

Wang Xian, who flew over from the disordered island, was aghast.

"Jiji, go to hell!"

The tail of Manta Ray King suddenly grew long and stabbed into the sea.

"Sword Alps!"

Roar!

No hesitation at all. In that instance, Wang Xian swept in with majestic energy.

The seawater within a radius of ten kilometers tumbled, forming a daunting Sword Alps on the sea surface.

The Sword Alps of a few thousand meters stood before Manta Ray King, blocking off its tail.

At the same time, Wang Xian turned into a Marine Divine Dragon ten meters in size!

Ka Ka Ka!

The Manta Ray King's tail stabbed into the Sword Alps. The mountain-like Sword Alps cracked at a rapid speed.

"Crazy attacking power!"

Wang Xian's expression changed.

"You're courting your own doom!"

Manta Ray King's eyes slowly turned red. The appearance of Wang Xian infuriated him.

Wang Xian swayed his body while his tail rocked in the sea.

"Great Waterfall Water Shockwave!"

Instantly, the water from the sea shot up straight to the sky.

All the water up to two thousand meters deep rose into the sky in a split second.

As the seawater rose up, a black seabed emerged.

"Get out of my territory, or die!"

Manta Ray King spun around and fixed its eyes at Wang Xian. It flapped its scary wings, transforming into a devil shadow.

It charged through the water region that rose in the sky ten kilometers high ahead of it.

"Water Shockwave!"

Wang Xian stared at the domineering Manta Ray King and exhibited a stern look on his face.

His body exuded a dazzling azure glow.

Boom boom!

Streams of Water Shockwave rushed towards Manta Ray King within a radius of ten kilometers, with Water Shockwaves coming one after another.

Every Water Shockwave rose to a thousand meters just like the twine of Aquatic Ropes, gathering forces of supremacy!

Clang!

At this time, there was another clashing sound. A twenty-meter-long sword was charging toward Manta Ray King again.

Wang Xian had an idea. A hole tear in the Great Waterfall Water Shockwave such that Roving Sword could charge.

Ow!

Along with the Water Shockwave force, the Merciless Sword slashed across!

An agonized voice was heard while dark blood slowly flowed out from its body.

"Damn you!"

The Devil's Whip of Manta Ray King swept Roving Sword aside while his wings were flapping at a daunting frequency.

Om!

"What fast speed!"

Seeing Manta Ray King disappearing at his right-hand side immediately, Wang Xian was slightly horrified.

# Chapter 647: A Sweep

"Illusory Dragons Explosive Crunch!"

Wang Xian flexed his muscles and over a hundred Water Divine Dragons appeared around him.

Each and every Water Divine Dragon charged towards and attacked the Manta Ray King.

Bam! Bam! Bam!

The Manta Ray King stared intensely at the overwhelming number of Water Divine Dragons around him. Swinging its tail across, countless Devil's Whips appeared and slapped towards the Water Divine Dragons.

The illusory figures that were formed from water energy were destroyed instantly.

"This guy is too strong!"

Wang Xian's expression changed drastically.

"Edgeless Blade!"

At this moment, Wang Xian could hear Roving Sword's roar. A huge sword smashed towards the Manta Ray King directly.

"F\*ck! You guys deserve to die!"

The Manta Ray King growled furiously once again and was sent smashing downwards after being hit by the Edgeless Blade.

At this very moment, the vast sea that was below the Manta Ray King previously was now blasted to a patch of pitch-black sea bed. There were also countless fish that were tumbling on the seabed.

The majority of them were now dead!

"Surrender!"

Wang Xian pulled a long face as he spoke. The sea region that was in the air and which spanned ten kilometers changed drastically. A water sword that was over a hundred meters smashed towards the Manta Ray King at the bottom of the sea!

It was as though a terrifying rain of swords was falling down.

"Grr... Grr... Just you wait!"

The Manta Ray King extended its wings and revealed the countless wounds on it. It used its wings to shield its head, and its blood-red eyes were locked on Wang Xian. The next instant, it flew towards the faraway sea region.

Wang Xian's eyebrows knitted together instantly as the seawater in the sky smashed towards the ground.

Rumble!

Roving Sword turned back into his human form from his golden swordfish form and moved towards Wang Xian with a solemn look.

"Dragon King, that Manta Ray is really strong. I'm not a match for it. If we based it on the classification of Yong Chang world, it should be a middle-class Immortal!"

"It's really strong and highly intelligent!"

Wang Xian's eyebrows knit together. When fighting together with Roving Sword, they were barely able to suppress the Manta Ray King. If Roving Sword was to fight along, all he could do was flee.

"The creatures in the open sea are truly terrifying. If it flew to shore, it would be able to destroy an entire city easily!"

Wang Xian heaved a sigh while looking below him.

The seawater fell back into the sea and was tumbling constantly.

From a far distance away, Roving Heavens, Roving Lobster and the rest were

swimming towards Wang Xian rapidly.

"What's the situation here?" Wang Xian asked Roving Sword.

"Dragon King, this is truly a treasure ground. There are a large number of pure blood corals in this place. Other than that, there's a type of spiritual medicine known as Devil Cloud Bead. The Devil Cloud Bead would be greatly useful for devil attribute cultivators!"

Roving Sword gave Wang Xian an introduction. "For races in the sea, the largest race would be the Manta Ray. This species of fish is extremely violent and will attack any living creature. The Manta Ray King was acting as such a while ago. Once it saw us, it attacked us the next instant!"

"Other than the Manta Ray race, there's another small race. They were a type of mystical sea demons and exceptionally cunning!"

"Oh? Sea demons? There are other races in this region where there is an Immortal-class creature?"

Wang Xian felt a little curious.

"That group of sea demons is extremely cunning. They could even avoid my pursuit and the Manta Ray King might not be able to catch them either!" Roving Sword explained to Wang Xian.

"Is that right?"

Wang Xian nodded his head and his eyebrows soon knitted together. "It's getting a little troublesome now. If that Manta Ray King wishes to flee, we have no way of killing it at all. Moreover, with its intelligence, it is clear that it wouldn't surrender!"

"It would be a little difficult to occupy this place!" Roving Sword seconded.

Although Roving Sword had just entered the Immortal Realm, his strength, and especially his attacking prowess, wasn't something that lower-class Immortals could match.

It was the same for Wang Xian. After transforming into his divine dragon form,

his strength would also be a lot stronger than a lower-class Immortal.

They were barely able to suppress the Manta Ray King when they fought together. It would be impossible for them to kill it.

"If we can't occupy this place, let's sweep through this place!"

The edge of Wang Xian's lips curved upwards as he remarked, "Take all the treasures of this place along!"

"Dragon King!"

"Dragon King!"

Roving Heavens and the remaining members of the Dragon Palace arrived and greeted Wang Xian respectfully.

"Let's go! Follow me!"

Wang Xian saw many Devil Monkeys holding pure blood corals in their hands with many others holding black beads the size of a fist. The next instant, he flew towards the island in the disordered region!

"Yes!"

The group of Dragon Palace members followed closely behind.

"Those two darned fellows! How dare they barge into my territory! What the hell is the Dragon Palace? I hope they will leave as soon as possible!"

At this very moment, several tens of kilometers away, the Manta Ray King wiggled its Devil's Whip violently while letting out a creepy voice.

He was surrounded by approximately forty-five huge Manta Rays. Each one was at least fifteen to sixteen meters long with terrifying auras surrounding them.

All of them were Level 12 Budding Realm existences.

The Manta Ray King wiggled its body and entered a mountain peak on the seabed.

The remaining Manta Rays swam around it.

"Dragon King! Dragon King!"

On the disordered island, the dragonians called out respectfully as soon as they saw Wang Xian arriving.

"Lead me to the edge of the disordered region!" Wang Xian ordered the newly accepted dragonians.

"Dragon King, we will be closest to the edge if we head in that direction!"

The leader of Devil Kid pointed to his right while speaking.

"Alright!"

Wang Xian nodded his head, looked across them and said, "In the future, your name will be Dragon Kid, yours will be Dragon Spirit, yours will be Dragon Wolf..."

Wang Xian gave each dragonian who had reached the Budding Realm a name, making reference to the Wandering Groups they were once from.

"Thank you, Dragon King, for bestowing upon us new names!"

The newly accepted dragonians thanked Wang Xian respectfully.

"Let's go!"

Wang Xian led the way and the group moved ahead at a terrifying speed.

"From this place, start sweeping ahead and kill all creatures at the Inborn-level and above. Sweep away all the treasures within this region and put them in the space ring!"

Wang Xian instructed them and threw a space ring towards Mo Qinglong, Roving Lobster, Roving Heavens and the rest of the group.

These space rings were from the fifteen people from the Devil Sealing Immortal Sect from Xia Cauldron world. There was a total of ten space rings and each had a rather large storage space that allowed one to store a huge number of corpses

and treasures!

"Yes, Dragon King!"

The dragonians and members of the Dragon Palace caught the space rings and looked across the piece of sea region.

"Since we can't dominate this region, we can only take a step back and sweep this place."

Wang Xian dived into the sea and transformed into his divine dragon form while observing the surroundings. After which, he swam rapidly forward.

The best option for him would be to occupy this region. However, the shame was that there was a terrifying Immortal-class Manta Ray around this region.

Unless there are two more Immortal-class creatures from the Dragon Palace, it will be difficult to occupy this region!

Wang Xian thought deeply about it. For him to complete the First Transformation of the Divine Dragon, he would require a billion units of dragon energy.

A billion units of dragon energy was astronomical!

It would require him to devour several thousand Level 12 marine creatures for him to gather the necessary amount.

A billion units of dragon energy would also allow him to raise roughly twenty Immortal-class Dragon Palace subordinates.

I've got to raise two more Immortal-class Dragon Palace members as soon as possible!

# Chapter 648: Kraken

The Dragon Palace was still too weak.

Currently, only Roving Sword and he possessed supreme-class combat capacity, and there were a dozen or more Budding Realm experts.

As the Dragon King of Dragon Palace, it was not possible for him to suppress the entire sea region. Hence, he would need Roving Sword and the rest.

However, he alone was completely useless if they encountered a situation similar to Manta Ray King.

There must be two Level 13 Dragon Palace members here to suppress this place. On top of that, it was best to have an Immortal-class expert in suppressing this place too.

Hence, the best-case scenario was to have two Immortal-class members from Dragon Palace.

With high-end combat capacity, Dragon Palace could better develop themselves.

In order to establish the order in the sea, the prerequisite was to have a strong military force to suppress it.

During the battle with the Manta Ray King, it had high intelligence and knew when to retreat. Knowing that it could not beat them, the Manta Ray King ran away.

If there were more compelling members in Dragon Palace, they could totally take down the Manta Ray King.

Even though they could not kill it, they could at least stun it and eventually rein it in.

Even if Manta Ray King did not surrender and wanted to continue to stay there, it must be bound by the Dragon Palace.

Immortal-class Manta Ray King's intelligence was very high, but its subordinates were otherwise.

Dragon Palace could order their subordinates to go through the Dragon Gate test. If they passed the test, they would become the members of Dragon Palace.

With talents and the boost in cultivation, Dragon Palace would slowly turn stronger!

Fueling their combat capacity with warfare would enhance the speed of their cultivation too.

If they had sufficient Immortal-class experts in Dragon Palace, they could easily kill those Immortal-class creatures who failed to surrender. They could suppress one place and establish an invincible force centered around Dragon Palace, or even underwater civilization.

Let's hope we can comb through the resources from this disordered region to groom two Immortal-class members of the Dragon Palace. If that's the case, the territory of the Dragon Palace will expand to a thousand kilometers!

Wang Xian pondered to himself. He surveyed the surroundings. On his left and right, a few hundred Dragon Palace members and dragonians were scattered around a few kilometers away from him, combing the entire disordered region for treasures inch by inch.

Looking ahead, he could see mountains standing under the sea in darkness.

"There's a pure Blood Coral over there!"

Dragon Spirit dwarf stared at the middle of the mountain with excitement in his eyes.

They had dived to the bottom of the sea. In the past, the Wandering Groups could only dive no more than a hundred meters deep.

Diving a thousand meters in a big group was not what Budding Realm experts would dare to do as the Manta Ray in this water region were extremely scary.

Failing to seek it out, Wang Xian and Roving Sword could only survey the

surroundings with vigilance to prevent Manta Ray King from sneaking an attack.

"There are too many pure Blood Corals in this entire region. Besides, the pure Blood Corals will still grow if we cannot clear their roots completely!"

"The Manta Rays devour pure Blood Corals to gain their strength while the pure Blood Corals devour the Manta Rays and the other marine creatures to enhance their own strength. This is a perfect cycle. As long as there are marine creatures in this water, the pure Blood Coral will not go extinct!"

"Pure Blood Corals can give off a special scent to attract the marine creatures, feed on them, and grow. Even without Manta Rays in the disordered region, there is a large number of fishes around!"

Mo Qinglong, Dragon Kid, and Dragon Spirit were exchanging conversations.

"I guess the Devil Sealing Immortal Sect disciples also spotted this natural treasure ground. Thus, they wanted to take over this place!"

Wang Xian pondered as he listened to them.

The members of Dragon Palace and the dragonians discovered pure Blood Corals and Devil Cloud Bead Spiritual Grass from time to time.

Their advancing speed was fast. Even when there were occasional appearances of Manta Rays, Roving Sword took care of them easily.

As long as the Manta Ray King was not here, this place would not pose the slightest danger to them.

The entire disordered region spanned over a thousand miles, and it would take at least half a month to comb through the area thoroughly.

But they had all the time.

After reporting the situation to Xiao Yu, Lan Qingyue, and the rest, Wang Xian stayed put in the disordered region.

His space rings were filled with priceless pure Blood Corals and Devil Cloud Beads.

"Let's pluck those low-level Devil Cloud Beads and plant them in the Dragon Palace!" said Wang Xian to the members of the Dragon Palace and dragonians.

He was going to open up space for a medicine garden to grow all kinds of Spiritual Grass.

"Hur? Dragon King, there's something odd ahead!"

At this time, the Dragon Spirit sounded quizzical. He fixed his eyes ahead with vigilance.

"Hur?"

Wang Xian looked ahead when he heard the Dragon Spirit.

The Dragon Spirit was that old dwarf who was not even a meter tall. However, he possessed alertness that dragonians did not have.

They had combed through more than half of the disordered region for six days when they came across the region with mountains lined up ahead. Dozens of mountains were closely packed together thousands of meters away.

Wang Xian furrowed his brows with a puzzled look.

"What's strange about it?" asked Wang Xian, looking at Dragon Spirit.

"I don't know either. When I was chased by the Creepy Snake Group from Japan, I always had the same feeling. We are good at hiding, assassinating, deception... This place gave me a similar vibe!"

The small-built Dragon Spirit was looking around with all his wrinkled skin squeezing together. This made him look scary.

Clang-clang!

Roving Sword took out his sword and put it in front of him, giving off the clanging sound of metal.

A hint of doubt flashed on Wang Xian's face. His body slowly circled around.

Boom!

"Great Waterfall Water Shockwave!"

The blue energy instantly covered an area with a radius of ten kilometers, and the whole entire region was within the coverage.

"Hur, quite a good hidden means... Is this the Kraken that you were talking about?"

Wang Xian looked to Roving Sword with surprise.

"Yes, Dragon King. This must be the Kraken we encountered before. It's quite creepy, not very strong, but it can easily avoid my tracking!"

Roving Sword nodded as he looked at the surroundings.

Boom!

The water within a radius of ten kilometers vibrated immediately when Wang Xian swung his dragon claws.

Whoosh!

At this time, figures sharing similar colors with the sea seemed to have wriggled out from two dimensional space, striking at Wang Xian.

"What a great way to hide! They are actually just a hundred meters in front of us!"

Wang Xian was taken aback as he watched a claw that was as sharp as daggers coming at him.

The claw fell on the dragon head without leaving any trace.

Wang Xian jerked backward, and a blue glow appeared ahead instantly.

A Kraken of 1.5 meters, with two sharp claws that were bigger than its body, appeared before him.

But to his surprise, the Kraken showed up under the blue light for one second, and then vanished once again!

# Chapter 649: Subduing The Mysterious Demons

[Mysterious Demon: Level 11]

[Extractable Dragon Energy: 553,353]

When the information appeared in Wang Xian's mind, the figure before his eyes had completely disappeared.

Despite the region before him being part of the Great Waterfall Water Shockwave and a region controlled by Wang Xian's water energy, he still couldn't sense the Mysterious Demon at all.

Perfect concealment visually and energy-wise! This Mysterious Demon is truly terrifying and a natural-born assassin!

Wang Xian was a little shocked. It was not surprising to him now that such creatures would be able to survive within the territory of that Manta Ray King.

The Mysterious Demon was just like a chameleon. However, it was a lot more incredible than a chameleon!

Sss!

The disappearance of the Mysterious Demons before their eyes made the group of dragonians gasp and stare vigilantly at their surroundings.

Roving Sword was equally shocked. He waved his arm and blinding golden energy shrouded around him for several kilometers.

Under the illumination of his metal attribute energy, several figures appeared in his sight.

These figures were roughly 1.5 meters tall with emaciated bodies and razor-sharp arms.

Weng!

However, the moment these Mysterious Demons noticed they'd been discovered, their bodies shimmered and disappeared from sight a second later.

Dynamic talents!

A flash of light ran across Wang Xian's eyes. The blue water energy around him flickered and the range of the Great Waterfall Water Shockwave shrank rapidly.

Weng!

At his moment, he felt movement from a direction.

"Water Imprisonment!"

Wang Xian tightened his dragon claws and rods made of water streams formed a solid cage.

Bam!

At this moment, a figure surfaced. Razor-sharp claws extended into the Water Imprisonment. It was clear that a Mysterious Demon was trying to save its companions from the Water Imprisonment!

Wang Xian gripped his dragon claws once again and streams of water trapped the other Mysterious Demon.

Wang Xian could easily crush a Level 11 creature to death.

With two Mysterious Demons trapped within cages, the entire space quietened down. Not a single Mysterious Demon dared to show itself again.

The space of the Great Waterfall Water Shockwave shrank further as Wang Xian observed the region.

"Appear now and surrender. Otherwise, die!" Wang Xian shouted coldly. The water region controlled by him contracted rapidly. In just a dozen seconds, the area had contracted to a radius of a thousand meters.

Huh?

Wang Xian frowned and was clearly becoming impatient.

Whoosh!

The seawater started boiling and terrifying heat emitted from him.

Screech, screech, screech!

In an instant, figures appeared one after another. They had blue skin and relatively long ears.

There was a total of more than a hundred Mysterious Demons who were staring at Wang Xian and the group with deep grudges. White-colored energy emitted from their bodies as they resisted Wang Xian's boiling water attack.

Hehe!

"Are you guys going to surrender?"

Wang Xian stared at the hundred-odd Mysterious Demons and revealed a faint smile. At the same time, water ropes extended and wrapped around the Mysterious Demons.

"What are you trying to achieve? We have no feud with you!"

The water ropes wrapped around the necks of the Mysterious Demons. When they tried to break free, they were surprised to find out that their attempts were futile.

A relatively larger and bulkier Mysterious Demon stared at Wang Xian and questioned him.

"Surrender to me and my Dragon Palace!" Wang Xian said in a low voice as the water ropes around their necks tightened.

"What benefits would we get for surrendering to you?" that Mysterious Demon asked Wang Xian once again. It looked solemn and had eyes that seemed to be brimming with intelligence.

Wang Xian was pleasantly surprised and answered plainly, "You wouldn't have

to die!"

You wouldn't have to die!

In other words, if they did not surrender, they would die.

The group of Mysterious Demons exchanged glances and some of them were clearly bitter about it.

Wang Xian stared at them curiously. Looking at their expressions, his desire to subdue them grew even stronger.

The intelligence of this group of Mysterious Demons could almost match the Immortal-class Manta Ray King!

However, they were clearly a lot weaker than the Manta Ray King.

Intelligence was an exemplification of the strength of a race. Although this wasn't the only criteria, creatures with higher intelligence would find it easier to reach a higher level.

Nonetheless, this wasn't the main reason why Wang Xian had such interest in these Mysterious Demons.

The main reason was for their concealment abilities. Those were simply too insane!

"We are willing to accept your deployment!" the Mysterious Demon replied with a solemn face.

Hehe!

Seeing that they were feeling a little indignant, Wang Xian smiled faintly. Drops of essence blood hovered in the water.

"Absorb it and do not put up any resistance. Otherwise, you will die!"

Wang Xian waved his arm and drops of essence blood flew to them.

A total of a hundred and thirteen Mysterious Demons.

They looked at the essence blood before them before turning their attention to the Mysterious Demon that had spoken to Wang Xian.

That Mysterious Demon shook his head helplessly and absorbed the essence blood.

The surrounding group of Mysterious Demons observed the reactions of that Mysterious Demon silently.

"A race that is filled with intelligence and is peace-loving!"

Wang Xian stared on. That Mysterious Demon that had absorbed the essence blood beamed with excitement.

"Let the other Mysterious Demons absorb the essence blood!"

"Yes, Dragon King!"

That Mysterious Demon bowed respectfully and nodded his head at the surrounding Mysterious Demons.

The surrounding group of Mysterious Demons did not hesitate any further as they absorbed the essence blood.

"Fifteen Budding Realm and the remaining are all Level 11. The Mysterious Demon race is really strong and powerful. Moreover, their talents are really insane!"

Wang Xian's eyes beamed with excitement.

"Greetings, Dragon King!"

At this moment, the Mysterious Demons that had consumed the essence blood went down on a knee and bowed respectfully to Wang Xian.

"You must be their leader, right? Are the members of the Mysterious Demon clan all here?"

Wang Xian waved his hand at the Mysterious Demon that had spoken up previously.

"Yes, Dragon King!"

That Mysterious Demon nodded his head before saying, "All our members are here. This region is our nest!"

Mmm!

Wang Xian looked at the approaching Mysterious Demon and placed his dragon claw on his body.

"Indeed! Just as I expected. A really unique body composition!"

Wang Xian stared at the Mysterious Demon while mumbling to himself.

Unique body constitution and bloodline were both "bug"-like advantages for any cultivators.

Body constitution and bloodline could be differentiated into different tiers. Elite tier body constitution and bloodline could allow a creature to stand at the very peak of the entire universe.

Sun Lingxiu's holy light constitution, Wang Xian's divine dragon constitution, the bloodline of the Heavenly Hound and the body constitution of the Mysterious Demon were all unique.

The reason why Wang Xian was certain that the uniqueness of the Mysterious Demons lay in their body constitution and not their bloodline was because of their flesh and skin.

Their flesh and skin possessed a very unique form of energy.

This energy allowed them to conceal their figures.

Natural born killers and terrifying shadowless assassins!

They could blend into any environment within a second. This ability of theirs could no longer be described as concealment.

Assimilation. Perfect assimilation! Even if Wang Xian had released a region controlled by his water energy, they could still assimilate into the region rapidly,

making it impossible for Wang Xian to detect their location.

"I wonder what kind of constitution this is...? It's truly exceptionally powerful for assassination, sneak attacks, and making it hard for others to guard against an attack!"

Wang Xian heaved a sigh emotionally, feeling he had chanced upon a treasure this time.

The value of the Mysterious Demon race could even match the golden swordfish race!

# Chapter 650: A Rewarding Trip

At present, Wang Xian was more optimistic about the development of Golden Swordfish and Mysterious Demon race, given their potential and combat capabilities.

Golden Swordfish practicing swordsmanship after they turned into humans were extremely daunting.

Especially when Wang Xian saw the attacking means of Roving Sword today. Hence, he valued the future Golden Swordfish more.

He recalled that Roving Sword had returned to his original Golden Swordfish form and transformed into the terrifying Merciless Sword, confronting the enemy.

I'm the sword, slaying the void.

If Roving Sword and the Golden Swordfish clan decided to become immersed in swordsmanship, they might become the peerless swordsmen of the universe.

At that time, they could slash the starry sky with a golden longsword.

As for the Mysterious Demon race, their talent in metamorphosis into any environment would make them the top grade killers.

Wang Xian was two levels higher than Level 11 Mysterious Demon. Yet, they could remain hidden within his water energy region.

Not to mention, one of them was in the Immortal-class realm.

"If the Golden Swordfish Race could become supreme-class swordsmen that could slash the starry sky, then the Mysterious Demon race could become unparalleled killers that eliminate thousands of enemies."

Wang Xian stared at the Mysterious Demon with eyes full of surprise.

Wang Xian regarded these two races highly and was looking forward to their

growth.

On the contrary, Wang Xian had not discovered the advantage of the Anomalocaris and Devil Monkeys.

The potential that both races displayed was worse than the Yaksha race.

The speed of the Yaksha race, combined with their attacking skills, and compelling defense, made them the best guards for the Dragon Palace.

I will subdue races in terms of their potential in the future!

Wang Xian pondered to himself as he looked to the leader of the Mysterious Demon race. "Today, I'll bestow upon you the name 'Roving Demon.' You'll be responsible for any assassinations arranged by the Dragon Palace, known as the Dragon Assassinating Division. In the future, you'll be practicing Light Divine Dragon Transformation!"

"Thank you, Dragon King!" Roving Demon bowed down with respect.

Wang Xian nodded slowly. "Does your nest have any worldly treasures? Bring them up!"

"Dragon King, we have some pure Blood Corals!" Roving Demon answered.

"Okay, bring everything up!"

Mysterious Demon race's constitution was in favor of light. They could make use of light to alter their body colors and aura so as to camouflage themselves in the environment. Hence, Wang Xian could only teach them the Light Divine Dragon Transformation.

Practicing light-attributed skills would allow them to walk under the sun as assassins.

"Hur? You actually have so many pure Blood Corals in your lair?"

When Wang Xian followed them to one of the mountains, he was shocked to see the number of pure Blood Corals.

There were about a thousand tufts of them. Each of them was on par with Level 6 elixir pills.

"More than a thousand tufts of pure Blood Corals are much more than what we had searched for in half of the disordered region. They are very valuable. It looks like the Mysterious Demons have collected quite a number of treasures with their daunting concealment skills. No wonder all of them are at least Level 11, and not a single Inborn could be found!"

Wang Xian was thrilled. The number of pure Blood Corals was equivalent to over a hundred million points of Dragon Energy, which could help a Dragon Palace member to advance to the Immortal Realm!

"Prime Minister Turtle must advance to Immortal first. Then, the remaining materials should be able to cultivate another one!"

"Let's go!"

Wang Xian was elated as he raised his voice at the dragonians and members of the Dragon Palace. All of them continued to swim ahead.

Subsequently, Wang Xian and his gang killed all the Manta Ray they met along the way in the disordered region, reaping all the pure Blood Corals and Devil Cloud Beads.

Days passed, and the resources Wang Xian gained were increasing at a terrifying rate.

"Dragon King, the nest of the Manta Ray is straight ahead!"

When Wang Xian and the gang arrived at a massive mountain in the bottom of the sea four days later, Roving Demon appeared by his side to remind him.

"Is it here?"

Wang Xian looked at the mountain that was towering over the sea with radiance flickering in his eyes.

He looked ahead and spotted a pair of bloodshot pupils staring right in his direction.

"Let's take a detour!"

Wang Xian did not want to provoke this fellow and decided to make a detour out of the Manta Ray King's region.

Seeing them taking another route around it, the Manta Ray King went back to his nest.

He knew he was not a match for those two fellows. Since they did not provoke him, he would jolly well turn a blind eye.

He was not a fool.

Woosh!

Thirteen days later, Wang Xian surfaced out from the water and transformed back to his human form.

Behind him, dragonians followed and stood on the water.

"We're at the end of it!"

Wang Xian had a faint smile on his face. They had reached the end after combing through the entire disordered region, and almost all the treasures were ransacked from it.

"Let's go back. I wonder if Shuqing is awake. Xiao Yu, Qingyue, and the rest should be anxiously waiting for me!"

Wang Xian slowly walked ahead as he spoke with an indifferent tone.

Dragon Kid walked to Wang Xian and asked respectfully, "Dragon King, the Devil Kid has a luxurious yacht. Should I steer it over?"

"Go on!"

Wang Xian nodded.

In less than ten minutes, a yacht of a size more than a hundred meters long steered over. It was white in color, looking extravagant.

The yacht was divided into four stories.

"Dragon King, I got the shipping company to make this for me while I provided the materials. It can withstand up to a Level 8's full-blown attack. The interior is also decorated in the most high-class style!"

Dragon Kid walked over and spoke to Wang Xian with high esteem.

"Mm, let's go!"

Wang Xian looked at the yacht and laughed.

Even if this kind of yacht was made of average materials, it would be worth more than a billion dollars.

However, money was nothing but a worldly possession to Wang Xian.

He had seen at least a few hundred shipwrecks in the sea. There was gold, jewelry, porcelain, and other precious artifacts that could add up to hundreds of billions, if not trillions.

Wang Xian had been letting them lie around in the sea.

Now he needed Spiritual Stones the most. When the Nine Cauldron Worlds descended into the real world, Spiritual Stones would become the currency.

"Let's head to Glacier Coral Island!"

Wang Xian flew to the highest story of the yacht with a beaming face. He stood on the deck in front of the most luxurious lounge, staring ahead!

The rest of the Dragon Palace members followed behind at a farther distance!

"The treasures within the space ring will suffice for cultivating another two Immortal-class experts. One of them will be Prime Minister Turtle, but who should I choose next?"

Wang Xian touched his own space ring with a hesitant look.

"Roving Heavens, Roving Yaksha, Nine Venomous Snakes, Roving Anomalocaris, Roving Lobster, Roving Girl..."

"Perhaps, I can get them to spar. Whoever wins will be promoted to the Immortal Realm?"

Wang Xian raised his eyebrows. This was a feasible method, as he could also witness their strength.

# Chapter 651: The Anomaly of Mt. Taibai

"I heard something strange has happened to Mt. Taibai in China. The entire mountain range is just like an immortal region. White-colored spiritual energy shrouded the entire mountain range and the place is cordoned off right now!"

"Really? So magical?"

"I heard it from a friend of mine from China. He said something huge has happened there!"

"Although the entire region of China is behind the times, it had its glory days in the past and has many ancient ruins. Perhaps someone has discovered one of them. Should we head over to take a look?"

"I think we can forget about it. I heard that this incident has drawn the attention of various international forces in Asia. The Creepy Snake of Japan has already headed there."

Glacier Coral Island. Xiao Yu, Lan Qingyue and the other three girls sat in a restaurant by the sea. Several young men walked past them and were discussing softly.

"Ruins?"

Xiao Yu and the girls exchanged glances before turning to the group of young men with curiosity.

The four young men sat beside them with a tinge of arrogance and pride. They leaned back against their chairs and continued discussing casually.

"Hi, handsome! I overheard you saying that something strange has happened to Mt. Taibai of China. Could you elaborate in detail?"

Xiao Yu looked to one of the young men and asked this with a smile.

Huh?

When the four young men heard Xiao Yu, they were taken aback slightly. His eyes beamed with excitement the moment he turned around as he answered, "Oh? Hey, pretty, are you from China?"

"Yeah. Can you elaborate on the matter in detail?" Xiao Yu asked with a smile.

"You girls haven't heard about it? Dense spiritual energy has descended on Mt. Taibai of China. Do you girls know about spiritual energy? Are you girls martial artists?"

A handsome young man smiled and observed the girls as he replied with a smile.

"I don't know. What happened after that?" Xiao Yu asked curiously.

"Spiritual energy flowed down like water and into the mountain range. Several tens of kilometers around the mountain range now resemble an immortal region. If an ordinary person were to live in that area, that insane level of spiritual energy would allow one to become a martial artist easily!"

As the young man spoke, he gestured to the waitress by the side and said, "Please get these beautiful girls a glass of red wine each!"

"That's not necessary!"

Xiao Yu shook her head and thanked him.

"Sisters-in-law, do you all think that's because the Nine Cauldron Worlds are starting to descend into the real world?" Xiao Yu asked curiously.

"That's a possibility. When Xiao Xian gets back, let's tell him about it!"

The expressions on Lan Qingyue and the girls instantly turned serious.

They had heard from Wang Xian how exceptionally powerful the Nine Cauldron Worlds were. There were several Immortal Realm experts and over a hundred Budding Realm experts.

If the Nine Cauldron Worlds were to descend into the real world, the rules of the

Underworld would undergo huge changes.

"Yeah! We've got to increase our strength as soon as possible. Otherwise, we might be in real danger in the future. We can't be dragging Xiao Xian down again!" Sun Lingxiu chuckled.

"Sister-in-law Ling Xiu, the cultivation speed of you three is much faster than me and my master. Moreover, you look so much better than us. Our forms are simply too ugly!" Xiao Yu pouted.

Recalling her image as the Skeletal Dragon, she couldn't cheer herself up.

"Haha! Xiao Yu, are you thinking of getting a boyfriend now? Why are you so concerned about your appearance suddenly?"

"Sister-in-law, what are you saying!"

The girls joked around. Every action of theirs released a charm that made the four young men sitting beside them swallow their saliva.

"Hey, pretties, do you mind if we sit by you?"

A young man couldn't hold back and stood up. He held a glass of red wine in his hand and asked them softly.

"We mind. Sorry!"

Adjaya looked across them and answered plainly.

"Huh? Hey, pretties, aren't you going to show us some face?"

That young man's expression stiffened and he didn't stop walking over. With a gentle smile, he sat on a seat beside the girls.

Bam!

The moment he sat down, the chair fell back onto the ground. The young man was shocked. Just as he wanted to stand up, he suddenly felt a force weighing down on him.

His body was pressed into the ground directly. The huge commotion drew the

attention from the surrounding crowd.

"Hehe! We have already told you that we mind and yet you choose to walk over!"

Xiao Yu looked at him with mocking eyes while wearing a radiant smile.

"Xiao Xian is here. Let's go!"

At this moment, Lan Qingyue saw a message on her phone and said this to Xiao Yu and the girls.

"Let's go!"

Xiao Yu and the girls smiled and stood up.

"You girls must be too eager to die!"

Fires of fury were smoldering in the eyes of that young man as he stood up immediately.

Boom!

However, a terrifying aura swept across his body at this instant.

That young man was astonished as he slumped onto the floor in fear.

The other three young men were equally shocked by what they witnessed.

"Wow, what a huge luxury yacht!"

Xiao Yu and the girls walked towards the giant yacht, which stopped by the beach, with excitement. They exclaimed with ecstasy!

"It's just a yacht! Look at how happy you are!"

Xiao Xian smiled at Xiao Yu and continued, "How was it? Have you girls enjoyed yourselves over the last few days?"

"Pretty good!"

The five girls continued observing the huge luxurious yacht inquisitively.

The luxurious yacht was initially built for leisure. There were various kinds of entertainment on it and it had several luxurious rooms on the second level.

It was several dozen times better than the one that they had taken to this place.

"Let's head back and see if Shuqing has gotten better!" Wang Xian said to them.

"Oh yeah, Xiao Xian. We heard something a while ago. You can check it out on the Underworld website!"

Lan Qingyue told Wang Xian what they had heard about the incident.

Wang Xian's expression turned a little serious as he retrieved his phone and entered the Underworld website.

The current Underworld website was a lot quieter than in the past as the entire Underworld had become more peaceful.

At this moment, there was almost no longer any killings in the Underworld. Everyone was just growing silently.

However, Mt. Taibai had experienced some anomaly just a few days ago. Dense spiritual energy flowed down the sky and into the mountain range as though it was water.

This matter had instantly stirred up the entire Underworld. All the martial artists swarmed towards Mt. Taibai frantically.

"This is crazy! Too crazy! I have advanced two levels in a single day!"

"The spiritual energy around here is just like flowing water. Staying within it can cleanse one's meridians and channels. A while ago, a monkey even grew into a huge five-meter ape. This is too shocking!"

"Let me tell everyone a piece of bad news. There are martial artists from overseas who have headed there. These forces are likely beyond what we can handle!"

Wang Xian was astonished as he went through these threads.

"The Nine Cauldron Worlds have descended into the real world? However, this shouldn't be happening. The spiritual energy within the Nine Cauldron Worlds isn't even this horrifying. What's happening?"

Wang Xian immediately made a call to the dragonians responsible for the Omniscient Group and requested that they send him all the information on that place!

This is likely to be still related to the Nine Cauldron Worlds!

# Chapter 652: Another Two Immortals

"Anomaly of Mt. Taibai!"

The yacht was moving in the direction of the Dragon Palace at a fast speed.

Wang Xian was sitting in his chair, reading the information in his hand while Lan Qingyue and the rest of the girls crowded together with curiosity.

The anomaly of Mt. Taibai started five days ago. A sudden surge of Spiritual Energy in the air rushed to the mountain range like flowing water, causing a drastic change to places within a radius of less than twenty kilometers.

With the sweeping of the Spiritual Energy, all the ordinary beasts grew larger by three to four meters, turning them into powerful creatures.

Under the wash of the Spiritual Energy, Martial Artists greatly enhanced their cultivation. Within five days, dozens of Inborn Experts emerged.

Where did this Spiritual Energy come from? No one knew about it!

All the Martial Artists of the Underworld gathered at this place.

"It streams down from mid-air. Hence, it must come from the Nine Cauldron Worlds. I wonder what happened."

"But what makes it even weirder was that the Spiritual Energy did not dissipate in the air but streamed into the mountain!"

Wang Xian was full of curiosity as he read the data.

"With such an immense amount of Spiritual Energy entering the mountain, wouldn't that form a Spiritual Ore Mine?" asked Adjaya with slight surprise.

"Totally possible. I guess Mt. Taibai has become an immortal mountain now!" Wang Xian's eyes were gleaming. "This is a great chance. Let's return to China in a few days' time!"

"Mm, it's time to go back too!"

The girls nodded.

Back on Mt. Taibai, thick and dense Spiritual Energy poured down to the mountain range from mid-air just like a waterfall.

Martial Artists were sitting with their legs crossed at the foot of it, absorbing all the Spiritual Energy with excitement.

An area not far from them was divided into two different worlds by a compelling force.

On the other side of the world, five significant obscure figures were standing in the air, staring at the colossal cauldron above them.

The cauldron was enormous, containing an incomparably insane level of energy.

The energy was imposing and vast, just like the sea.

At the same time, the Spiritual Energy from Heaven and Earth was flowing out of the hundred-meter cauldron!

"Those long divided shall be united; those long united shall be divided: such is the way of the universe. The Nine Cauldrons are returning to Earth. What a surprise. The current real world was no longer our world, and the Nine Cauldrons are returning to their homes!"

A great figure murmured with a voice that sounded like a large bell, sending his voice across the sky.

"The Nine Cauldrons were refined by nine dragon veins with their great might. Now that they are returning to where they belong, there will be nine Immortal areas emerging in this world. Our array in the world is weakened. Hence, those Inborn and beyond will not have any danger to their lives if they get out now. At most, severe injuries!"

"Send some disciples out and began their cultivation at this immortal mountain range. When our world descends into the real world, we will divide the mountains again."

"Two more months before our Xia Cauldron world descends into the real world. At that time, how are we going to face it?"

"The world has changed and divided with different kings ruling it. Since we are entering the real world, we can only influence the world, but not change it. If we can't change it, we have to adapt to it. The most important thing is our resources!"

The figures took turns speaking. As the five Pinnacles of the Xia Cauldron, their words sealed the fate of millions of people.

...

"Greetings to the Dragon King!"

Back in the Dragon Palace, all the Dragon Palace members knelt in the Dragon King Hall, greeting Wang Xian with respect.

"I called you guys here to make an announcement. Today, there will be a sparring competition in the Dragon Palace. Apart from Prime Minister Turtle, I'll enhance the strength of the strongest person over here to the next level!"

"Apart from that, the remaining Devil Division, Dragon Guard Division, Dragon Assassinating Division, and Anomalocaris race will be divided into smaller teams based on the strength of the experts. We'll be doing training, formation changing, and choosing the team captains. From now on, every Head of Division and the team captains will gain extra cultivation resources," said Wang Xian to them slowly.

Establishing a set of complete rules was suggested by Prime Minister Turtle.

He had devised detailed rules for every division's training and development.

Amongst them, the selection of the leaders was the top priority.

The rules established by Prime Minister Turtle was a combination of ancient and modern systems, forming a set of a complete system.

This could better stimulate and enhance the strength of the Dragon Palace members.

The main reason accounting for the army becoming powerful was discipline.

According to Prime Minister Turtle's idea, not only must the members be restricted with military rules, but they must also cultivate themselves under a high degree of pressure.

Dragon Field was not a decoration. They must make use of it to spar and test their battle techniques.

In addition, there would be a promotion system based on strength. The stronger ones would get access to more resources.

Competitions would be held regularly in Dragon Palace. That was only one part of it. After Prime Minister Turtle groomed a team of wise and intelligent civil officials, all the Dragon Palace members could learn from them!

"Yes, Dragon King!"

The group of Dragon Palace members answered in sync.

At present, the members of the Dragon Palace might have had high intelligence. Still, they did not possess the mindsets of humans in society.

Commands and orders were the only things they understood.

This could be good and bad. But when their strength hit a certain level, they would think further.

This train of thought was a good thing, as this represented the birth of a true civilization.

"Fall in at the Dragon Field!"

With a swift movement, Wang Xian arrived at the Dragon Field.

Standing in front of the members, he said, "Among the leaders of Level 12, I'll enhance the strongest one to the next level. If you think you're the strongest, step forward for the challenge!"

"Roar, Dragon King. Let me do it!"

The first to step forward was Roving Heavens. He was seven meters tall with a body of dark fur. Under the fur was layers of scales. His burly muscles were even bulging out.

He was carrying a huge, seven-meter metallic rod on his shoulder.

"Who will challenge me, Roving Heavens!"

Roving Heavens let out a loud bellow as he placed his rod down, staring at Roving Yaksha and Nine Venomous Snakes with burning fighting spirit in his eyes.

Wang Xian looked at Roving Heavens with a smile on his face.

Wang Xian did not consider the strength of Roving Heavens to be the strongest. However, his insane combat capability and desire were above all the other members.

"Me!"

Roving Yaksha, looking on impassively, pointed at Roving Heavens with the fork in his hand.

"We fight! Roar!"

The first competition in the Dragon Palace had officially begun. Violent devilish aura surged from Roving Heavens.

The furious aura caused some of the weaker members to stagger back immediately.

"The Devil Monkey is violent. The more violent it gets, the more terrifying it becomes. Apart from Roving Sword, Roving Heavens should be ranked number one within the Dragon Palace."

At this time, Prime Minister Turtle's voice surprised Wang Xian.

"Hur? Roving Heavens is the strongest? Roving Yaksha, Roving Demon, and Nine Venomous Snakes should not be weaker than Roving Heavens, right?" asked Wang Xian with surprise.

"Dragon King, even I could not withstand the violent attacks from Roving Heavens when it comes to a life-and-death match. Dragon King, watch, and you'll find out!"

# Chapter 653: The Dragon King Preaching Dao (1)

Roar roar roar!

The violent roars, the terrifying devilish aura, and the blood-boiling battle.

"This is...?"

Wang Xian was shocked to see the battle in the Dragon Field as he turned to look around him.

Around him, various Dragon Palace members stared intensely at the battle between Roving Heavens and Roving Yaksha on the Dragon Field.

The Yaksha race, Anomalocaris race and Mysterious Demon race were frowning as they watched the battle.

However, the Devil Monkey race was completely different.

All the members of the Devil Monkey race could feel the strong battle desires from their leader. Their eyes were slightly red and their hairs stood up. The terrifying battle will was released without any intention of masking it.

Those with dark attributes favored battle from birth. The more they fought, the more excited they would get.

Fresh blood made their own blood boil.

The more they fought, the braver and stronger they would get.

Wang Xian looked into the field. When the battle started, Roving Heavens was constantly being knocked back by Roving Yaksha's water energy. However, as the battle went on...

Huge fangs appeared in Roving Heavens' mouth. His eyes were also starting to turn red.

All his hair stood up and the speed of the metal rod in his hand grew faster and faster with escalating strength.

Gradually, Roving Yaksha could only defend passively.

When it came to defending, Roving Yaksha was indeed better. He was adept in diverting the brunt of the attack as he manipulated water waves to re-direct powerful attacks.

However, passive defending would eventually lead to defeat.

After ten minutes, Roving Yaksha lost.

Roving Heavens didn't stop there. He continued the challenge and fought more and more bravely. One Venomous Sea Snake charged towards and attacked Roving Heavens.

The Venomous Sea Snake was exceptionally fast. Those who were weaker could only see a green shadow moving across.

When facing the Venomous Sea Snake in battle, Roving Heavens suffered several wounds within a short period of several tens of seconds.

However, when his violent body was completely covered in pitch-black dragon scale armor, the outcome of the battle soon became clear.

"When the Devil Monkeys rage, their blood boils and the divine dragon bloodline in them will be completely triggered!" Wang Xian mumbled to himself.

Looking at the illusory vision of a divine dragon on Roving Heavens, he was completely astounded.

When his bloodline was completely triggered, he could even challenge those that were stronger than him. He was even stronger when compared to the Venomous Sea Snake who possessed the Wind Divine Dragon bloodline!

"Let me give it a try!"

Roving Demon flexed and disappeared from everyone's vision without a trace.

[\[1\]](#)

Roving Heavens observed his surroundings in shock.

Assassination! The true assassination!

Wang Xian was slightly surprised. Even he couldn't sense where the traceless Roving Demon was. This was indeed frightening.

Roving Heavens was hit several times consecutively and wounds the size of a fist appeared across his chest.

However, when Roving Heavens closed his eyes, Wang Xian realized a unique talent of the Devil Monkey.

Ears. Their ears were shaking constantly.

Bam!

When Roving Demon attacked, Roving Heavens met him directly.

Roving Demon had to show itself when he attacked. When he saw Roving Heavens meet him directly, he was astonished and was knocked back several steps.

"According to the legends, the Dragon has nine sons with different talents. Those powerful descendants are not any weaker than their father. Now that we have inherited the essence blood from the Dragon King, we are unique sons of the dragon. As we cultivate, we will awaken different abilities!"

Beside Wang Xian, Prime Minister Turtle explained, "After Roving Sword broke through to Level 13, it triggered part of his divine dragon bloodline and he obtained the unique talent of Metal Edge Body. As for Roving Heavens, despite not reaching Level 13, he has triggered even more of his bloodline than Roving Sword!"

Wang Xian was enlightened. He looked into the field and said, "The talents of Roving Heavens are indeed a little unique. I wonder what kind of abilities he will be granted!"

Prime Minister Turtle also looked ahead curiously.

Defeat! Defeat!

Roving Heavens challenged Roving Yaksha, Venomous Sea Snake, and Roving Demon consecutively and defeated all of them.

This had completely exceeded Wang Xian's expectations.

Roving Lobster and Roving Girl had just reached Level 12. It wouldn't be necessary for them to participate in the battle as they wouldn't be a match either.

As for the following battle, the strength of the leader of the Anomalocaris race had also exceeded Wang Xian's expectation.

His fist was fast and furious and carried powerful electric powers. He was just as mighty and powerful as the Thunder God!

"It seems like lady luck is really shining on me. The Devil Monkey race and Anomalocaris race aren't as weak as I had expected.

Wang Xian was pleasantly surprised. In the Dragon Palace, Roving Heavens was the strongest, followed by the Nine Venomous Sea Snakes. Subsequently, it would be Roving Demon and the Budding Realm experts of the Mysterious Demon race, Roving Yaksha, and the newly advanced Roving Lobster and Roving Girl.

Roving Yaksha being relatively weaker was within Wang Xian's expectation. His strength lay in group attacks.

The Yakshas' talents were in teamwork. When working together with their race members, they could launch terrifying attacks that were far beyond what they could do individually.

Following this was the battles between Dragon Palace members below Level 12.

The entire grand contest lasted for two days and Wang Xian stood by the side all along while watching.

They would form the foundation of the Dragon Palace and he had rather high

expectations for them!

"Prime Minister Turtle and Roving Heavens, follow me!"

After the grand contest had ended, Wang Xian spoke to them in a solemn voice.

"Yes, Dragon King!"

Prime Minister Turtle and Roving Heavens followed Wang Xian to the Dragon King Hall, feeling a little excited.

"I'll raise both of your strength to Level 13!"

Wang Xian waved his arm and dense streams of dragon energy flowed into their bodies.

This dragon energy was extracted entirely from the pure blood corals and would be sufficient to raise two people to the Immortal Realm.

Grrrr, grrr!

Huge changes were happening on the bodies of Roving Heavens and Prime Minister Turtle.

Prime Minister Turtle reverted to his initial form. His huge ten-meter body gradually grew to fifteen meters and the pattern on his shell deepened and became clearer.

There were patterns of the sun, moon, and stars, and one would be able to tell that it was extraordinary with a single look.

As for Roving Heavens, he grew two additional ears. This greatly surprised Wang Xian.

"Thank you, Dragon King!"

Terrifying auras emanated from their bodies. They went down on their knees and shouted respectfully.

Roving Heavens, who had reached the Immortal Realm, would be able to grow to roughly two meters.

He manipulated the seven-meter metal rod in his hands and stuffed it within his ears directly.

Wang Xian was stunned to witness it.

Sun Wukong? [\[2\]](#)

However, there was a difference between Sun Wukong and Roving Heavens. For The Great Sage Equalling Heaven, Sun Wukong, he simply shrank his golden rod. For Roving Heavens, it was because of the powerful ability of his ears!

I might really be able to raise a Devil Monkey capable of destroying worlds in the future! Wang Xian thought to himself and couldn't help but smile.

"Dragon King, I believe there's one more thing we should do now!"

At this moment, Prime Minister Turtle wiggled his body. To Wang Xian's astonishment, Prime Minister Turtle shed his turtle shell, shrank it, and held it in his hand.

He caressed his turtle shell as he spoke to Wang Xian.

"Huh? What's the matter?"

Wang Xian looked at Prime Minister Turtle.

Wang Xian was completely convinced of Prime Minister Turtle's intelligence at this moment. Having an old and wise official proposing and executing plans for him was a great thing for him.

"Preaching Dao!" [\[3\]](#)

"Preaching Dao?"

Wang Xian was a little confused.

"That's right, it's about preaching Dao. In the legends of China, a Saint preaching Dao could enlighten thousands and thousands and grant intelligence to countless living creatures. All living creatures are capable of cultivation!"

"Dragon King, you could preach Dao in the Dragon Palace. The billions of

marine creatures within the region of the Dragon Palace could listen in. Through preaching Dao, their intelligence might be manifested. Even if they failed to do so, they would still be able to roughly understand the concept of cultivation!

"Perhaps there will be a day that they undergo a metamorphosis and their chances of leaping through the Dragon Gate will be higher!"

# Chapter 654: The Dragon King Preaching Dao (2)

"Preaching Dao!"

Upon hearing what Prime Minister Turtle said, Wang Xian was shaken once again.

Establishing an empire was shocking enough for him. Preaching Dao like the saints in the olden days? He never dared to have this thought.

"Preaching Dao is to educate the billions of marine creatures. Education is not so simple as you think!"

Prime Minister Turtle lowered his head and stared at the palm-sized shell in his hand.

"For marine creatures, it is difficult for them to activate their Spiritual Intelligence. They must have an Enlightenment. Most importantly, this is to lay a strong foundation for the Dragon Palace members!

"Of course, we wouldn't take that long to develop into a stage similar to human beings with the resources in the ocean!

"Human civilization development took thousands of years to reach where it is today. In fact, the cultivation of humans has occurred for over a thousand years!

"With the guidance of the Dragon Palace in the ocean and your preaching of Dao, billions of marine creatures will be able to transform into dragons within a century.

"Perhaps there will be Immortals all over the sea after a century. But of course, the prerequisite is to have sufficient resources!"

Prime Minister Turtle's eyes were beaming with wisdom. The turtle shell in his hand was glowing with mustard radiance.

Wang Xian was startled.

Just as Prime Minister Turtle said, humans took thousands of years to develop civilization on land, while there was none in the sea.

What could be the possible reason for this? Were the marine creatures too dumb?

If he could preach Dao and enlighten billions of marine creatures, then they could also form a civilization.

Oceans occupied seventy percent of Earth's surface. Thus, the resources were several times more than what could be found on land.

The time to establish a civilization might be shortened by ten times.

"Prime Minister Turtle, what's that turtle shell in your hand for?" asked Wang Xian with curiosity as he stared at the shell that was giving off a mustard glow.

"Changes on Earth bring the rise of civilization, and the planet is made up of everything on Earth. I sensed something mystical from this turtle shell of mine, just like it was describing the planet's changes!"

Prime Minister Turtle murmured, and he seemed unsure of what exactly his shell did.

"In that case, you'll organize the session, and I'll preach Dao!"

Wang Xian nodded and spoke to Prime Minister Turtle.

"Yes, Dragon King!"

Prime Minister Turtle nodded immediately and went off to settle it.

Wang Xian cast a glance at Roving Heavens, who looked like an evil monkey, ready to wreak havoc. He grinned and said, "The Devil Monkeys are rather weak now. You guys have to do more training!"

"Yes, Dragon King. The Devil Division will become the strongest unit in the Dragon Palace from now on!"

Roving Heavens answered with respect as he headed out with determination.

Wang Xian was very satisfied as he watched Roving Heavens.

"Xiao Xian, fights are going on in the Underworld. Sui Family and Xiao Family are seeking your assistance!"

At this time, Lan Qingyue and the other girls flitted over as soon as they saw him finishing his business.

"Hur? What happened?"

Wang Xian was puzzled as he looked at them.

"Now, the overseas factions have taken over Mt. Taibai. All the people from the Underworld have either been killed or expelled from there. They are now occupying that area with haughtiness!"

"Sui Huang and Xiao Quanshan would like you to strike as those foreign guys are simply too arrogant. They want you to chase them away!" said Lan Qingyue and Xiao Yu.

"Hur? Really?"

Wang Xian narrowed his eyes slightly. "If they are international forces, they must be from Asia!"

"Yes, from Japan, India, Korea, and other international forces!" Elder Fang nodded. "The news about Mt. Taibai has been going around. Given the Underworld strength, it's impossible for them to protect that place. Hence, it's been taken over by a group of overseas forces!"

"And those people were extremely cocky. They kept saying China has no talents and calling us names like Sick man of East Asia. Xiao Xian, should we go and teach them a lesson?"

Elder Fang was slightly infuriated as she spoke. The rest of the girls were also elated to fight it out with them.

"Sick man of East Asia? Haha!" Wang Xian revealed a faint smile as coldness flashed in his eyes. "Yes, we should go. But I need another two days to preach Dao to these billions of marine creatures here!"

"Preaching Dao? Awesome. Our Dragon King will definitely live a long life and enjoy a lifetime of prosperity!" Xiao Yu brightened up her eyes and giggled.

Wang Xian patted her head. "This concerns the future development of Dragon Palace. Reply to Sui Huang and Xiao Quanshan and tell them that I'll be back in two days!"

"Sure!"

Xiao Yu nodded. "I'll reply to them!"

"Mm!"

"Brother, when will sister-in-law Shuqing wake up?"

"I'm not sure. Shuqing is full of strong vitality now, as daunting power is hidden within her body. After she wakes up, she might be more powerful than me. But I'm not sure why she is still in her sleep. This is the first time that I've seen a Phoenix Nirvana!"

Wang Xian sighed as he looked at Guan Shuqing, who was lying quietly on his Dragon Throne.

She was shrouded in the flames of the Boundless Branch, but no one knew the reason why she was still sleeping.

"Shuqing is fine, and she'll wake up one day. You don't have to worry!"

Lan Qingyue and Adjaya consoled them.

"Mm!"

Wang Xian nodded. He was not that worried since they would find a way to wake her up as long as she was full of vitality.

"Let's go. We should get some rest now!"

Wang Xian, who had not rested for three days, took Lan Qingyue, Adjaya, and Sun Lingxiu back to his Royal Residence Hall.

Xiao Yu could not help but roll her eyes.

After a session of love-making, Wang Xian lay on his bed and rested.

"Dragon King, Prime Minister Turtle said the class is ready. You may begin your preaching!"

After a dozen hours, Roving Girl's voice was heard outside of the room.

Prime Minister Turtle had specially arranged for Roving Girl to provide morning call services similar to the role of a maidservant in Dragon Palace.

Wang Xian could not help but feel that Prime Minister Turtle would be a competent majordomo in the future.

"Great!"

As soon as Wang Xian's voice was heard, he walked out of his Royal Residence Hall.

But he was astonished when he came to the surroundings of the Dragon Palace.

Billions of marine creatures in myriad colors and forms were packed around him.

The number of marine creatures was ten times more than those that had been there when they did the leap at the Dragon Gate.

Eight-meter sharks, ten-meter killer whales, close to twenty-meter whales, and different forms of marine creatures were swimming around him.

Countless living creatures filled the space around him for more than ten kilometers.

It was extremely scary when one looked at it.

Xiao Lan, seventy meters in size, was slowly swimming above the Dragon Palace, exuding an imposing might.

All the marine creatures remained peaceful as they floated around with discipline.

"All of you are citizens of my Dragon Palace. To the countless living creatures,

I, the Dragon King, will be preaching Dao today to kickstart and enlighten your path towards cultivation!"

Wang Xian made a move and transformed into a Divine Dragon. He slowly landed on top of Xiao Lan, above the Dragon Palace. His mighty roar traveled through the four seas!

# Chapter 655: Get Out Of The Territory Of China (1)

"All of you are citizens of my Dragon Palace. To the countless living creatures, I, the Dragon King, will be preaching Dao today to kickstart and enlighten your path towards cultivation!"

A voice with a majestic aura entered the minds of every marine animal in the sea.

The divine dragon was the King of the marine races. He could understand any languages of marine animals. At the same time, his words could reach the minds of every single type of marine race.

This was the powerful talent of the divine dragon race.

This was also a terrifying ability of the ruler of the marine animals.

Around them, billions of marine animals shivered. They looked towards Wang Xian and felt respect and fear that originated from their very core.

Wang Xian rested his body against Xiao Lan. The huge seventy-meter Kun hovered in the water without moving an inch.

This scene made countless marine animals even more fearful and respectful towards the Dragon King.

"The cultivation path of marine animals starts with absorbing the spiritual energy within heaven and earth. Today, I'll impart all of you with the path of cultivation!"

Wang Xian's voice entered the minds of each and every marine animal.

This group of billions of marine animals couldn't understand what Wang Xian was preaching. Only a very vague concept lingered in their minds.

Wang Xian couldn't do anything about it at all. However, all he was trying was

to place a seed within the billions of marine animals.

This seed would gradually germinate as they grew stronger and eventually reaped the rewards.

For the cultivation arts of the marine animals, Wang Xian imparted upon them the simplest way of absorbing spiritual energy.

Absorbing spiritual energy from heaven and earth and digesting spiritual energy.

Wang Xian had only imparted these two methods. Despite wanting to achieve more, imparting too many methods might overwhelm these fishes which did not possess intelligence yet and wouldn't be able to memorize most of these methods.

He spoke really slowly. With just a thought, image after image appeared within the minds of various marine animals.

Billions of marine animals remained stationary and silent. Some marine animals even closed their eyes.

It was especially so for dolphins, tiger whales, and other marine animals who had relatively higher intelligence. They were trying to memorize and understand deeper.

"The preaching of Dao will end here for today. The next session will be announced by the Dragon Palace again. If you wish to become stronger and become a true ruler, cultivate diligently!"

Wang Xian said slowly, "My citizens, you are dismissed!"

Whoosh!

When Wang Xian finished his last sentence, the marine animals at the edges moved and swam away.

Sea turtles, sea snakes, fish, sea leopards, sea horses, and others left rapidly in an orderly manner!

"I wonder how many marine animals among the billions could cultivate, become

experts of the marine races and leap through the dragon gate!" Wang Xian mumbled to himself.

He moved and entered the Dragon Palace.

Now that the seed had been planted, they had to rely on their own encounters.,

Since he had started on his first session of preaching Dao, Wang Xian was prepared to host more sessions at regular intervals. At the same time, he could check on the progress of evolution for these marine animals.

"Xiao Xian, has it ended?" Seeing Wang Xian flying over, Lan Qingyue asked.

"Yeah. I'm done. Let's head back to China!" Wang Xian nodded his head and said to the girls.

"Alright!"

The five girls nodded their heads happily. Xiao Yu even clenched her fists excitedly and said, "I'm going to occupy an entire mountain for my Thistles and Thorns Sect."

"All hail the Queen of the Thistles and Thorns Sect!"

Lan Qingyue and the girls chuckled and flew away.

Roving Sword didn't follow this time. He was heading towards the disordered region with Roving Heavens to suppress the Manta Ray King.

The Dragon Palace wanted the entire disordered region to be under its control.

That would be a relatively more important piece of land for the Dragon Palace to obtain resources.

"Let's go!"

Xiao Yu and the rest stood at the top deck of the yacht. They extended their arms in excitement as the yacht steered towards Rivertown.

Mt. Taibai was the separation line for Northern and Southern China. It lay in the central region of China.

This was also the largest mountain range in China. As for Mt. Taibai, it was also one of the most well-known mountains in all of China.

Mt. Taibai was an exceptionally famous scenic spot.

At this moment, the entire Mt. Taibai was just like an immortal region.

From a long distance away, one could see spiritual energy flowing down like a waterfall. Below it, a dozen-odd mountain peaks were shrouded within the spiritual energy.

Among them, the tallest peak also had the densest concentration of spiritual energy. Spiritual energy entered the mountain range as though it was water.

Around the base of these mountains, countless martial artists sat on the ground and were absorbing spiritual energy frantically.

Spiritual energy could cleanse one's channels and meridians. When immersed in such terrifyingly dense spiritual energy, it wouldn't take more than five days for a Level 9 martial artist to reach the Inborn Realm.

As for Inborn experts, they would be able to reach the Dan Realm within one to two months under the cleansing of the terrifyingly dense spiritual energy.

Ordinary martial artists could cleanse the impurities within their bodies simply by being below it.

Chance encounter! A terrifyingly insane chance encounter.

For the majority of martial artists in the Underworld, this was definitely the greatest chance encounter they could possibly have.

Yet, at this very moment, over ten thousand people had gathered on a mountain beside Mt. Taibai.

All the martial artists in the entire Underworld had gathered. There were even some wealthy moguls who had come. The group looked extremely gloomy.

"Those groups of bastards occupied each mountain and didn't allow us to get close. For those who can't occupy a mountain, they still prohibited us from going

over. They should know that they are in the territory of China!"

"What should we do? Dear Laozus from various Sacred Clans and Sects, are we just going to watch them occupy this bountiful land and seize resources that belong to us?"

"They killed several dozens of my Qingfeng Sect just because of a dispute and humiliated our female disciples. Dear Laozus from various Sacred Clans and Sects, you've got to teach them a lesson for us!"

Beside the mountain, various martial artists of the Underworld remarked furiously and sorrowfully as they looked at the Laozus from their Sacred Clans and Sects.

"Haiz. The difference in strength between them and us is truly too huge. We aren't a match for them at all. They are simply too strong for us!"

An old man from Reeds Spirits of Diabolism pulled a long face and heaved a sigh.

Currently, there were only three remaining Sacred Clans in the Underworld: Sui Clan, Xiao Clan, and Gu Clan. Qiao Clan and Donghua Clan had been annihilated by the Dragon King.

As for Sacred Sects, it was even more pathetic. Only the Sacred Followers Guild, Imperial Beast Sect, Sacred Seas of Swords and Reeds Spirits of Diabolism still existed.

As for the remaining Sacred Sects and powerful sects under Diabolism, they were all annihilated by the Dragon Sect.

Reeds Spirits were the strongest among them with three Dan Realm experts. As for the rest, they only had one each.

However, Imperial Beast Sect and Sacred Seas of Swords weren't here and the Guild Leader of the Sacred Followers Guild wasn't here either.

There was only a total of five Dan Realm experts. This was because the Gu Clan was annihilated by a force from overseas two days before. The Dan Realm expert from Gu Clan was killed by a single strike.

When the Gu Clan was annihilated and the Dan Realm expert was killed, all the martial artists in the Underworld were shocked.

When various overseas forces looked down from above, all of them could only retreat from that place.

They didn't dare to make any retaliation. If they were to say a single "no," they would be killed on the spot.

Several overseas forces even mocked them as the sick man of Asia. Yet, all they could do was to endure the mockery!

# Chapter 656: Get Out Of The Territory Of China (2)

The current Underworld was too weak. Ever since the various Sacred Sects and clans were annihilated by Dragon Sect, their strength was weakened by more than half as compared to before.

At present, there were no orthodox sects or Diabolism, as the two leaders were dead.

The Underworld was back to their peaceful days. After the catastrophe of Dragon Sect annihilating most of the Underworld's clans and sects, the remaining Martial Artists lived in peace together.

Even in the face of international factions, they had come together to fend off their common enemies.

However, the difference between both parties was too huge. The international factions were totally overkilling!

However, all the local Martial Artists were unwilling to leave this place and give up this golden opportunity.

"Sui Huang, Old Xiao, did you two inform Dragon King? What's his reply?"

A Sect Leader from a first-class force could not help but ask Sui Huang and Xiao Quanshan in the middle.

As soon as he finished his question, the surroundings were plunged into silence.

Dragon King had become the unspeakable person of the entire Underworld after he annihilated so many people, dealing a massive blow to the Underworld.

They had reverence and fear for the Dragon King and Dragon Sect.

"I contacted him two days ago. He said he'll come as soon as possible!"

Sui Huang looked at the surrounding crowd and spoke in a low voice.

"I guess even the Dragon King is no match for them!"

An Inborn Expert sighed as he spoke with a complicated look.

The Dragon King was indeed compelling, and Dragon Sect was invincible in the Underworld.

But when they spun around and looked at the dozens of peaks at the side, they had only fear in their eyes.

More than a dozen mountains around them were shaved in half. They could not help but quiver at the sight of the horrifying scene.

That was what happened after experts from two international factions fought.

Back then, there were eight experts in combat. The sky was darkened. The whole world lost its color while the mountain peaks broke in half with a slash from the experts.

They used to think that the imposing aura displayed by the four elders in the pictures posted on the forum was stunning enough. However, that battle was even more ghastly to them.

Looking at the pictures and witnessing with their own eyes were two different things.

When they sensed the mightiness, they almost went down on their knees.

"Yes, those four elders were on par with them. However, there are about thirteen such people on their side. From what I heard, they aren't the most powerful ones in the group."

Another Inborn Expert nodded in agreement. This bunch of international factions who occupied their blessed ground by force was much stronger than they had imagined.

They were multiple times more powerful than the Underworld before the massacre.

"Those above Dan Realm are known as Budding Realm. The group of people who fought two days ago were all Budding Realm experts. The powerful experts that they mentioned are not here. They have been intercepted and stopped by the Guardian Divine Beasts of China," said Xiao Quanshan slowly.

The Underworld might be weak, but relics were often discovered at this place. To all the factions in Asia, the Underworld was an excellent treasure ground.

However, their entry to the Underworld was restricted by the presence of Guardian Divine Beasts all the while.

Without the Guardian Divine Beasts, the Underworld would belong to other factions of the world.

Even so, the top forces of Asia had not stopped sending their experts over!

Even though the most supreme-class experts were not here, the entire Underworld could still not put up a resistance.

"Does that mean that nothing can be done even if Dragon King were here?" a middle-aged man could not help but ask.

"Perhaps, we can claim back one mountain. But apparently, it has nothing to do with us!" a Dan Realm expert from Reeds Spirits replied in a stern voice.

Everyone was dejected by his words and their faces formed dreadful expressions.

In their opinion, Dragon Sect's strength was at most equivalent to six flaming elders.

Six of them were already terrifying!

But compared to those experts occupying the mountains here, it was still far off from them.

Boom!

At this time, a horrible-looking palm was coming their way.

The palm was a hundred meters in size, exuding a daunting yellow glow.

It swept directly in their location.

"Oh no, get out of the way now!"

Seeing the incoming palm, Sui Huang was aghast as he hurriedly screamed.

Thousands of people had a change in their expressions as they quickly dodged to the side.

Ah!

However, there were hundreds of people who did not manage to escape from the gigantic palm and were smashed into flat meat.

"Haha, I advanced! I advanced! Awesome!"

At this time, an old man from Mt. Taibai let out hysterical laughter as he exclaimed. His voice traveled over ten kilometers.

"He actually..."

The group of Martial Artists from the Underworld grimaced upon hearing his untamed laughter. Their eyes were filled with trepidation when they saw the hundred-meter palm mark and the blood on the ground.

Just a casual swing and a palm of a hundred meters landed beside them. From their perspective, this daunting strength was like the work of an immortal!

"Trashy Martial Artists from China, get lost now!"

The arrogant voice from the old man was heard again while another hundred-meter palm came sweeping in from two thousand meters away.

"Run!" Sui Huang shouted out as he ran to the foot of the mountain swiftly.

"Haha, poor doggies. Useless bunch of sickening dogs, stay out of our way. Otherwise, we'll kill you anytime!"

Seeing them scampering off, the old man on the mountain let out a burst of

arrogant laughter.

His excitement could not be contained after he leveled up in his cultivation.

"They actually drove us out!"

Having been chased out from their own land, the bunch of Martial Artists in the Underworld were extremely embarrassed.

"Let's go over there!"

Suddenly, hundreds of members from the first-class force in the Underworld stopped. They exchanged a look before they headed to one of the mountains.

"Song Qingtian, what are you guys doing?"

"Song Family, have you all become the lackeys of the overseas factions?"

Just then, the hundred people heard raging voices yelling at them.

"We just want the Song Family to grow stronger. What's wrong with that? If we can cultivate under the Spiritual Energy for a while, it's possible for all of us to become Inborn Experts!"

An old man turned his head and spoke with a stern look.

"So, this is the reason for being a lackey?"

An Inborn Expert returned a dreadful look.

"The entire Underworld has fallen into such a state. What more do you want?"

The old man scoffed at the remaining crowd and walked off.

Becoming a lackey of Asia's factions would earn the right to cultivate at the foot of the mountains.

That was the condition of the overseas factions.

China had too many relics, and the Immortals would not dare to set foot here because of the Guardian Divine Beasts.

However, the international factions were setting the Chinese up. They intended to recruit some Chinese Martial Artists as their subordinates to gain better control of the Underworld.

It seemed like the strategy was working!

# Chapter 657: Get Out Of The Territory Of China (3)

At the foot of Mt. Taibai, the group of martial artists of the Underworld stared bitterly at the Song Family. All of them felt exceptionally embarrassed.

"The Song Family of China wishes to join the Nether Flame. We hope that the various experts from the Nether Flame will accept us!"

The family head of the Song Family, Song Qingtian, shouted towards the elite force in Asia, Nether Flame, who had occupied a mountain.

"Hehe! Song Family of China? What's the strength level of your family like?"

There was a total of thirteen mountains that were shrouded within the waterfall-like spiritual energy around Mt. Taibai. Five forces occupied these mountains.

Among which, Creepy Snake and Gautama were the strongest two forces and they occupied a total of six mountains.

Nether Flame occupied two mountains and had a Budding Realm expert stationed in this place.

An old man with a rather dark skin tone stood at the mountain peak, looked down on the Song Family and spoke with contempt.

"Our Song Family is a first-class force in the Underworld with three Inborn experts!" Song Qingtian lowered his head and said respectfully.

"Three Inborn experts? You guys are really trashy! However, your entire Underworld is trashy! I guess the Song Family isn't that bad in comparison. Come over!"

The old man felt a little contempt as he spoke to Song Qingtian.

"Yes, your Excellency. Our Song Family will see Nether Flame denomination as our leader from here onwards!"

Agitation flashed across the eyes of Song Qingtian as he answered in a hurry.

"Great, great!"

The old man revealed a satisfied look.

The group of people from the Song Family approached the old man with ecstasy and lowered their stance once again.

"In the future, you guys can't go against any of the orders from our Nether Flame. Otherwise, don't blame us for being ruthless. If there are any secret lands or treasures in China, you have to report it to us immediately!"

"Yes, yes. Our Song Family wouldn't dare to defy your Excellency. We will take instructions from the Nether Flame denomination from today onwards!" the family head of the Song Family answered immediately.

"Come over!"

"Yes, yes!"

The group of people from Song Family was exhilarated and immediately started cultivating at the foot of the mountain.

Under the cleansing of the spiritual energy, all the people in the family would be able to reach the Inborn Realm within a month.

So what if they had to become the subordinates of the Nether Flame?

When the various forces of the Underworld saw the Song Family sit below the spiritual energy waterfall, their expressions changed and they started hesitating.

"Our Qingfeng Sect is willing to join the Gautama denomination. We hope that the Gautama denomination will accept us!"

At this moment, the Sect Leader of Qingfeng exchanged glances with the members of the higher management of the sect before walking ahead emotionlessly. They shouted respectfully at the international force that had occupied three mountains.

"Come over. You guys will see our Gautama denominations as your ruler from today onwards. In the near future, all of you will be the subordinates of our Gautama denominations and shall not betray us as long as you live!"

An old man with an angry look turned towards where the Qingfeng Sect was and instructed solemnly.

"Yes, yes!"

The group of people from Qingfeng Sect hurried over immediately.

"Our Xuan Sect is willing to join the Creepy Snake Group!"

"Our Ivory Lotus Sect is willing to join Graceful Massacre Denomination!"

With someone taking the lead, several forces shouted respectfully towards various overseas forces, surrendering and becoming their subordinates.

As for those overseas forces, they were happy to witness this development. There were countless treasures and secret lands within China. With eyes within China, they would only be advantages to their denominations without any disadvantages.

Moreover, they wouldn't have to give up anything to recruit them for their use. Therefore, they were more than willing to accept these forces.

Within a short period of a few minutes, half of all the forces in the Underworld had chosen to join the five forces from overseas. This made all the other forces of the Underworld feel extremely embarrassed and bitter.

"Haiz. As a Sacred Clan of China, how could I possibly contemplate joining overseas forces? Tsk!"

Witnessing the developments, Sui Huang stormed off furiously.

Xiao Quanshan also shook his head as he led his fellow clan member away helplessly.

"We are devils at our cores and would never be willing to become slaves of others!"

An old man from Reeds Spirits turned around emotionlessly. "Our Diabolism will only accept others who listen to us. There's no way we would take instructions from others!"

After the experts from Sacred Clan and Sects had left, the group from Thistles and Thorns Sect also left.

The remaining martial artists of the Underworld hesitated for some time and eventually heaved a long sigh.

"We can't cultivate here and yet they are allowed to. In no time, the entire Underworld will be under the control of overseas forces!"

An old man shook his head with melancholy as he headed for the exit.

Some people were willing to become traitors but there were also some who weren't willing.

As those prideful experts left, the remaining cultivators were in a dilemma.

Cultivating under the spiritual energy waterfall would not just greatly enhance their cultivation realm. The greater effects would be cleansing their physical bodies. Their future cultivation would be smoother and their foundation would be more solid.

Although those forces and martial artists of the Underworld had become the dogs of the overseas forces, the rewards they would be reaping would be even more terrifying.

In a month at the most, those forces who had chosen to become traitors for the overseas forces would leave those who had chosen to leave today far behind.

Although there weren't any Sacred Clans or Sects who joined the overseas forces, it wouldn't take long for those who had to overtake the Sacred Clans and Sects.

Tragic. The tragedy of the Underworld and China.

"Everyone! Can our Black Wind denomination get a mountain?"

At this moment, several hundred people flew over at neck-breaking speed. Two terrifying experts stood in the air and their domineering voices reverberated across the sky.

Another powerful foreign force had arrived!

...

Is this Mt. Taibai?

At this moment, at the entrance to the tourist attraction, Mt. Taibai, Xiao Yu looked inquisitively at the snow-white curtain that extended into the sky.

The thousand-meter-long white curtain that started from the sky was exceptionally majestic and beautiful.

"Yeah!"

Wang Xian nodded his head. A red and blue light flashed across his eyes as he stared at the sky.

He could vaguely see another world.

A large cauldron that seemed to have existed since ancient times hovered in the air and seemed to be suppressing an entire world.

"Let me ask the Thistles and Thorns Sect..."

Xiao Yu and Elder Fang were about to make a call to the Sect Leader of the Thistles and Thorns Sect. However, before they had even taken out their phones, they saw dejected martial artists of the Underworld walking out.

"Eh? That's Sui Huang and the Xiao Clan!"

Lan Qingyue looked at the crowd and remarked doubtfully.

Wang Xian looked across the group of martial artists of the Underworld. Leading them were the Sui Clan, Xiao Clan, and Reeds Spirits.

Over a thousand people followed behind them and each had a gloomy face.

"Sui Huang, Old Xiao!"

Wang Xian walked ahead with a smile after seeing them,

Huh?

Wang Xian's voice took Sui Huang and Old Xiao by surprise. The remaining martial artists also lifted their heads with shock.

When they saw Wang Xian, they were stunned and speechless.

"Master!" Xiao Rang greeted with ecstasy when he saw Wang Xian.

"What's the matter?"

Wang Xian nodded his head and walked over with a gentle smile.

Sss!

Seeing Wang Xian approaching them, some martial artists took several steps back instinctively.

Even the Dan Realm experts from the Reeds Spirits also took a step back in fear.

The one before them was the terrifying existence that had annihilated half the Underworld!

# Chapter 658: If You Aren't Leaving, I'll Bury You Here (1)

"Wang Xian!"

Sui Huang and Old Xiao were ebullient to see Wang Xian as they hurriedly headed in his direction.

"Xiao Yu, Elder Fang!"

Sect Leader Tang and Vice Sect Leader Lei from Thistles and Thorns Sect walked towards Xiao Yu and Elder Fang with broad smiles.

The arrival of Wang Xian and the gang immediately became a supporting pillar for them.

Five thousand Martial Artists behind them remained silent, watching them.

"What's the matter? The Spiritual Energy is like a waterfall over here. Cultivating under it is a great chance for any Martial Artists. Just a month of cultivation and the Underworld will regain its peak period!"

Wang Xian chuckled as he spoke, looking into their eyes.

"Wang Xian, we were chased out of the mountains. Those strong overseas forces won't allow us to practice around this area unless we become their lackeys or subordinates!"

Sui Huang shook his head bitterly, revealing a dreadful look.

"Those that are behind us did not agree to join those overseas groups. Now, we only have these Martial Artists from the Underworld left. The rest have become the lackeys of the overseas forces!"

Xiao Quanshan darkened his expression.

The Underworld was bound together for good. Now that the Underworld had

come to such a state, none of their facial expressions looked good.

"Oh? They are in our territory, and they are asking the Martial Artists of the Underworld to get lost?"

There was a flash of cold radiance in Wang Xian's eyes.

As he spoke, he headed inside. "Ask them to get out of China's territory!"

Sui Huang and Xiao Quanshan were stunned as they quickly continued, "Wang Xian, those overseas forces are very compelling!"

Wang Xian gestured a dismissive sign. "We shall see!"

Hiak hiak!

A clap of grisly laughter came from behind.

Sui Huang, Xiao Quanshan, and the rest were shocked as they looked behind Wang Xian immediately.

More than thirty people led by a middle-aged man, Mo Qinglong, whom they were familiar with, were walking behind Wang Xian.

But they had not seen the rest.

There were eight elders whose heights were less than one meter, holding daggers in their hands.

The one who chuckled was an old man, exhibiting a sinister smile on his face. Everyone felt their hearts skip a beat.

Apart from the eight elders, there were other middle-aged men and elders with heavily-tattooed faces. The killing and murderous aura being exuded were rather apparent.

None of these middle-aged men and elders looked normal. Their demeanor made everyone uncomfortable.

Those Martial Artists that were rather weak were even more aghast.

Sui Huang and Xiao Quanshan exchanged a look as they followed behind Wang Xian.

"Dragon King!"

Upon seeing Wang Xian walking over, the three Dan Realm experts from Reeds Spirits quickly gave way to him while humbling themselves with a bow.

"Mm, follow me. We cannot let some outsiders flaunt their prowess before us in our territory!"

Wang Xian nodded gently and spoke softly.

"Yes!"

The three Dan Realm experts of Reeds Spirits slightly paused for a moment before they nodded their heads with radiance flashing in their eyes.

Over five thousand Martial Artists around him were taken aback. They took the initiative to give way to him and followed him. All of them were wondering about the group of peculiar experts following behind Dragon King.

"I wonder which world is at Mt. Taibai!"

Wang Xian looked toward Mt. Taibai in the distance as he walked towards it. He whispered something that none of them could understand.

"Wang Xian, there are six overseas forces, including the one that just arrived, at Mt. Taibai. Among which, there are over ten Budding Realm experts and close to forty Dan Realm experts!"

Sui Huang and Xiao Quanshan dropped reminders to Wang Xian by the side.

"Mm!"

Wang Xian nodded as he craned his head slightly, looking at the mountains that were being cleansed by the Spiritual Energy.

On the peaks of the mountains sat various Martial Artists. Some of them were exuding imposing aura from within.

Bang, bang, bang!

Wang Xian led the group of Martial Artists slowly to the middle of the mountain range.

"Hur? The trash from the Underworld is here to submit to us? Become our subordinate, and you'll have a chance to cultivate. Haha, you guys had better submit to us now!"

Seeing over five thousand Martial Artists return again, the elder who had struck just now shouted at them with arrogance from one of the mountains.

His face was filled with arrogance since he had just made a breakthrough in his cultivation level.

What he said darkened all the expressions of the Martial Artists.

"Hehe!"

Hearing his voice, a tinge of coldness welled up in his eyes as he swept his gaze across the peaks. "Do you know where we are?"

"Do you know where we are?"

A thunderous voice exploded within a radius of ten kilometers, instantly alerting all the Martial Artists who were cultivating.

"Who is here for his doom?"

A grumpy old man stood up straight away as he hovered in the air.

"Those who interrupt our cultivation shall die!"

A middle-aged man swung his arm, and a long blade emerged in his hand.

On the highest peak, the experts from Creepy Snake Group narrowed their eyes. At the same time, their samurai swords were giving off a cold radiance.

"Get out of China!"

Wang Xian looked at the experts hovering in the air without any expression.

His voice traveled over a distance of ten kilometers once again.

Upon hearing the thunderous voice, all the Martial Artists behind him were shaken as they looked at Wang Xian with reverence.

"Haha, get out of China? Can you guys chase us out? What a surprise to see a Budding Realm expert in such a trashy place!"

An old man chuckled hysterically at Wang Xian from a peak.

"Ss, that is...the Dragon King!"

"It's the Dragon King. He's here. His arrival is unexpected!"

"Dragon King is here!"

At this moment, those Martial Artists of the Underworld who had given themselves up to the overseas forces were shocked when they saw Wang Xian.

They drew in a cold breath and spoke in horror with twisted expressions.

"Hur?"

Upon hearing what they said, those overseas forces were puzzled.

"Who is the Dragon King?" asked the experts from the forces in low voices.

"He's the most terrifying existence in the Underworld. We used to have a couple of Budding Realm experts too. But they were all killed by the Dragon King. Also, the Underworld is not as weak as what you are seeing now. Just a month ago, the Dragon Sect established by the Dragon King annihilated half the clans and sects in the Underworld!" said these Martial Artists with trepidation.

Those two days marked the darkest days in the Underworld a month ago. All of them were afraid of the Dragon Sect experts showing up on their doorsteps.

"Dragon King?"

All the experts of the overseas forces spun around and stared daggers at Wang Xian.

"So I see. The most powerful force in China, Dragon King. Hehe. But so what? You want us to leave here? Fat chance!"

"Today, I'm announcing that this will be the territory of the Creepy Snake Group. Any martial artist from the Underworld who isn't willing to surrender will die if you take a step in!"

# Chapter 659: If You Aren't Leaving, I'll Bury You Here (2)

"Today, I'm announcing that this will be the territory of the Creepy Snake Group. Any martial artist from the Underworld who isn't willing to surrender will die if you take a step in!"

Above the main peak where the spiritual energy waterfall originated, five old men stood at the tallest point while staring down at Wang Xian. Their cold voices reverberated across the entire area.

Dragon King from the Dragon Sect?

So what if he had annihilated half the Underworld?

Known throughout the Underworld?

So what? In this small Underworld, there was indeed nothing that their Creepy Snake Group had to fear.

What was there to fear about the ruler of the Underworld that was as big as a small pond?

"So there are still Budding Realm experts in this Underworld. This is really unexpected. Show us your strength. If you have the strength, you can get a mountain!"

An old man with a metal skull truncheon from Gautama denomination shouted in a low voice, "Keep your arrogance in check. Otherwise, your outcome will be catastrophic!"

"Kid, show us your strength. If you are weak, just get lost. There's no such thing as territory of the Underworld. If my fist were larger, this would be our territory! Haha!"

An old man kept his hands behind his back while standing on a mountain peak

and shouting arrogantly.

When facing the Dragon King of the Dragon Sect, not a single overseas force was afraid or willing to back off.

"Although the Dragon King and the Dragon Sect are exceptionally terrifying, it would just be their wishful thinking to demand all other forces to get lost!"

"No matter how strong the Dragon Sect might be, they would at most be at a level similar to the Creepy Snake Group. It might be possible to occupy one or two mountains. The Dragon King still doesn't have the strength to demand all of them to get lost from this place!"

"That's right! There's nothing wrong with our decision. Even if the Dragon King can occupy one or two mountains, only those from the Sui Clan, Xiao Clan, and Thistles and Thorns Sect would be allowed to cultivate on these mountains. There's no way we will get a chance!"

On various mountains, those martial artists that had joined the overseas forces looked down and commented gloomily.

They had no regrets over their decisions at all!

"Brother Wang Xian, they are too strong. Why don't we occupy one or two mountains first?"

Looking at the terrifying old men on various mountains, they suggested solemnly.

Wang Xian shook his head, looked around him and said, "Since you guys aren't leaving, this will be your burial site. This is a rather good resting place after all!"

Huh?

Wang Xian's response stunned everyone around him.

"Hehe. Creepy Snake Group! Your Creepy Snake Excellency almost killed me in the past. I'm going to collect some interest today!"

"Killing is the most enjoyable thing in this world!"

At this moment, Dragon Spirit, Dragon Kid and the other dragonians that had been following Wang Xian finally stepped out.

Eerie voices came from them before they charged towards the thirteen mountains.

Mo Qinglong was equally focused as he charged towards the mountain directly ahead of him.

Rumble!

In an instant, nine Budding Realm experts released their auras explosively from their bodies. The terrifying might instantly shook the spiritual energy waterfall.

"Hehehehe! Time to kill!"

The dragonians Wang Xian had brought along this time were from the Wandering Groups of the disordered region. Every member of these Wandering Groups had a lingering pungent blood scent on them.

Brutality and massacres.

Despite becoming dragonians, their cores remained the same. Therefore, Wang Xian had brought Mo Qinglong along.

With his orders and Mo Qinglong to restrict them, these people wouldn't commit acts that were over the top.

"What?"

The thirty-odd experts from the six forces that occupied the mountains were shocked to see these experts charging towards them with frightening auras.

"It's you! Old Spirits! Why are you here!? Aren't you supposed to be in the disordered region? Since when did you become the dog of someone else?"

The five old men from Creepy Snake Group growled as they saw the old dwarf approaching. Their expressions had also turned bitter and gloomy.

"I, your father, will bury you here today!"

Dragon Spirit gave a creepy smile and the dagger in his hand glowed with a faint green light. A black light shimmered in his eyes.

"You must be courting your own death to dare to attack all of us at once!"

"Kill them! These arrogant bastards are courting their own deaths!"

The experts from these six forces were furious to see Wang Xian instructing his men to attack directly.

None of them had any regard for the Underworld of China. Yet, they were belittled by Wang Xian who ordered his men to attack them recklessly.

Moreover, what surprised them was that there were nine Budding Realm experts among the experts who charged towards them.

The experts from these six forces pulled a long face and met the attacks with raging killing intent.

The battle exploded without any prior signs.

"Gulp. The Dragon King is still as domineering as before! Attacking six overseas forces at once!"

"Is this the entirety of Dragon Sect's strength? They are too strong! They actually have nine Budding Realm experts! It's not surprising that the Dragon Sect would be able to annihilate Nie Wushuang, Emperor Qi, and the four old men previously!"

The crowd of martial artists from the Underworld couldn't help but gasp as they felt their hearts palpitating violently while watching.

"This... Nine Budding Realm experts! Is this the strength of the Dragon Sect? So... So strong!"

At this moment, those martial artists that had turned themselves to the overseas forces were completely shaken to their cores.

They exchanged glances and could see a bad premonition from the looks in one another's eyes.

Nine Budding Realm experts and thirty-odd Dan Realm experts from the Dragon Sect against the fifteen Budding Realm experts and forty to fifty Dan Realm experts from the six forces.

There was a huge difference in terms of the numbers of experts between both parties. The Dragon Sect would definitely not be a match for the six overseas forces.

However, the Dragon King had not made a move.

Furthermore, the Dragon King had shown the same dominance as before.

Based on their prior experiences, they weren't certain who would emerge victorious in the end.

"How dare you even think of taunting us with just nine Budding Realm experts! None of you shall even dream of escaping today!"

The old man from Creepy Snake Group was brimming with dense killing intent. His samurai sword was wrapped in black devilish aura and opened up a devilish mark that extended over a thousand meters.

Rumble!

An explosion reverberated across the sky and the spiritual energy waterfall as spiritual energy scattered down like rain.

Hehe!

Dragon Spirit, Dragon Kid, and other Budding Realm experts were fearless despite the other party having an overwhelming advantage in numbers.

All of them were experts that had survived a bloodbath. Now that they possessed the bloodline of the divine dragon, their strength was enhanced once again.

All of them were holding Level 12 spiritual equipment.

These were specially crafted by Wang Xian.

With the materials on hand, Wang Xian was able to refine twenty pieces of Level

12 spiritual equipment. As for Level 11 spiritual equipment, he had sufficient materials for over a hundred pieces.

"Die!"

Creepy, ruthless and violent attacks were launched by the dragonians. Their strength was a lot higher than Mo Qinglong who had just reached the Budding Realm.

"Shit! Why would your attack be...?"

An old man who stood opposite the Dragon Kid was astounded. He stared at his weapons that were now covered in cracks and fear started welling up inside him.

Grrr!

Dragon Kid, who had a hideous expression, shouted loudly. The next instant, a huge devil dragon illusion appeared behind him and the hideous face on it trembled.

"The killings start now!"

Wang Xian looked at the battle in the sky and revealed a satisfied smile.

He wouldn't have to say much to these overseas forces.

All he had to do was kill them all!

# Chapter 660: If You Aren't Leaving, I'll Bury You Here (3)

Wang Xian was neither interested in replying nor listening to their rattles.

Since they were not leaving, then they could stay here for good.

With Level 9 dragonians, their strength, coupled with the Spiritual Equipment, was just barely enough to fight against fifteen enemies of equivalent levels.

However, with him around, he could instantly end all the fights.

Wang Xian decided to support them by making a strike. He wanted to observe the strength of the dragonians and give them some training.

When five Level 12 spiritual swords appeared in his hand, he hurled them into the air at a daunting speed.

However, the five spiritual swords stayed put and suspended themselves quietly in the air as they exuded domineering energy, striking fear into everyone.

"Is the Dragon King going to strike?"

"Gosh, nine Budding Realm experts can actually go against fifteen Budding Realm experts. Five spiritual swords from the Dragon King are also ready to strike!"

"This group of overseas forces is doomed. The Dragon King is still, indeed, the Dragon King!"

Those Martial Artists of the Underworld behind Wang Xian were elated to see this.

At first, they thought the Dragon King could at most occupy one or two mountains. Little did they expect Dragon Sect's strength to have grown to such a domineering level.

The Dragon King was going to chase away all the overseas forces!

Even better, kill them all!

"Since the Dragon King did not ask us to leave, does that mean that he is allowing us to practice under that spiritual energy waterfall?" one of the Inborn Experts asked with a slight thrill.

Several people beside him nodded slowly. "I wonder what conditions the Dragon King has!"

"So what? It's fine to even become a subsidiary sect of Dragon Sect since the entire Underworld belongs to him now!"

"That's right. Given their current strength, unifying the entire Underworld is a piece of cake!"

Some Martial Artists commented softly. Several Inborn Experts even nodded their heads in agreement.

Even if Wang Xian requested all the Martial Artists in the Underworld to join Dragon Sect, none of them would have any objections.

The three Dan Realm experts of Reeds Spirits nodded in silence after exchanging looks.

Whoosh!

At this time, five spiritual swords in the air were stabbing one of the Nether Flame Budding Realm Experts.

Boom!

The Budding Realm expert from Nether Flame was horrified. "Dragon King, are you bent on making enemies with the Nether Flame? When Nether Flame God arrives here, you'll die a horrible death!"

"Hehe, this is your burial place. If you want to leave, you can only do so by killing the Dragon Sect's men. Otherwise, stay in China!"

Wang Xian cast an indifferent gaze at the overseas forces with a taunting look on his face.

"Brother, use your spiritual swords to stab that old man in mustard clothing. Just now, he killed one of the Thistles and Thorns Sect's disciples!" said Xiao Yu, tugging on Wang Xian's arm

"Okay!"

Wang Xian nodded with a smile. He cast his gaze at the old man in mustard clothing who was besieging a dragonian with another Budding Realm expert.

That dragonian kept staggering back, as he was completely under suppression.

Wang Xian waved his arm, and five spiritual swords darted out instantly.

"Damn it!"

The elder who was attacking the dragonian was horrified as he staggered back hastily. He swung his palm, and a mustard palm of a dozen meters slammed onto the five spiritual swords.

Swish!

However, the five spiritual swords pierced through the palm right away. Under the horrifying gaze of that old man, the swords penetrated his limbs, crushing his entire body with domineering energy!

Ah!

A shriek was heard as fear flashed in the eyes of that old man, looking at the five scary spiritual swords in horror.

"So strong!"

"Attack that fellow and stop him from controlling the spiritual swords!" one of the Budding Realm experts from Creepy Snake Group exclaimed while a black figure charged at Wang Xian immediately.

Whoosh!

However, the five spiritual swords split into millions of swords instantly, looming over the incoming figure.

"Baka!" [1]

That black figure grimaced and let out a raging roar.

Ah!

When millions of swords penetrated him, the black figure let out a terrifying cry. His four limbs were, too, pierced through by the spiritual swords, and exploded!

"This is...? This is toying around?"

"Playing with them?"

The group of Martial Artists of the Underworld widened their eyes as they saw the Dragon King grinning from ear to ear. They quivered as stunning looks welled up in their eyes.

"This is the consequence for playing punk in China?" a Martial Artist of the Underworld asked blankly.

The four Budding Realm experts from Gautama Denomination could not help but narrow their eyes upon seeing the annihilation of one Budding Realm expert.

Not that Wang Xian could not kill that expert, but he crippled him just like he was a toy. This struck fear into them.

Four experts exchanged glances with dreadful expressions.

"The Gautama Denomination does not want to fight with the Dragon King. We'll leave China now!"

One of the experts from Gautama Denomination darkened his expression and bellowed in a low voice.

"Too late. The Chinese are hospitable people. You can be buried here!"

Wang Xian chuckled as his eyes became filled with disdain.

"Thinking of leaving? How could it be that easy? How dare you say we're the Sick man of East Asia? Trashy Underworld?"

Xiao Yu snorted coldly as she stared with a beaming face.

Upon hearing what they said, the experts from the overseas forces felt their hearts sink.

In this instance, the spiritual sword in Wang Xian's hand whipped up another attack.

The water swords that were shrouding five thousand meters of the area penetrated the four Budding Realm experts, and they were crippled right away.

"Okay, now we're one-on-one. This is much fairer. Those who defeated my subordinates can leave. Other than that, don't ever think of escaping!"

Wang Xian's indifferent voice reverberated across more than ten kilometers, causing embarrassment for all the supreme-class experts from the overseas forces.

From the combat just now, they were shocked to realize that this expert who exuded murderous aura was far stronger and more fearsome than they had thought!

They would never be a match for him one-on-one. At the same time, they could not escape. In other words, they would be killed by their opponent!

He's toying with us!

Such a thought suddenly popped into their heads. They had arrived here with pride and self-esteem, and they stuck their heads in the clouds, thinking that they were here to teach the uncivilized people some lessons. Now, they had fallen down from their clouds!

Embarrassment, rage, fear, and a tinge of despair were all they felt!

"They...They are the overseas forces that we surrendered ourselves to!"

Back at the bottom of the mountain, those Martial Artists of the Underworld who

had surrendered themselves were completely frozen.

Their masters were being toyed with by the most powerful expert from their Underworld.

"Dragon King of Dragon Sect!"

They trembled, unsure of whether it was out of fear or hatred!

All the six ultimate overseas forces and over ten Budding Realm experts had met their doom on this land that, in their opinions, bred the Sick men of East Asia.

They had met their doom in the Underworld which they regarded as a piece of trash!

"Keep one alive from each of the forces. Let them go back and spread the word. They need to consider the consequences before they enter China in the future!"

# Chapter 661: Dragon Vein

Argh!

Blood-curdling screams resounded in the skies constantly. Over a thousand people from the six forces had come to this place.

Among the thousand people, those below Dan Realm would be equivalent to cannon fodder in a battle of this level.

They couldn't escape at all.

Budding Realm experts were dying under the attacks from the dragonians.

In the sky, the battle between a dozen-odd Budding Realm experts gave the martial artists of the Underworld the feeling that the apocalypse was happening right before their eyes.

A casual strike would bring with it terrifying auras that extended over several hundred to several thousand meters. Each attack seemed capable of splitting the space and sky.

As compared to the four-way battles between the Dragon King, Emperor Qi, middle-aged swordsman, and Nie Wushuang, the battle that was happening before their eyes at this moment made them feel even more fear.

The martial artists from the six overseas forces were horrified. For the very first time, they regretted their decision to step into the territory of China.

"When the Nine Cauldron Worlds descend into the real world, you guys will then know what the real Underworld is!"

Wang Xian recalled the group of people he had encountered from the Xia Cauldron world while looking at the overseas forces being annihilated rapidly.

They had said that all of Asia would be ruled by the Underworld of China. Various forces in Asia would have to pay pilgrimage to them.

If the Nine Cauldron Worlds were to truly descend into the real world and ally together, they could easily crush all other forces in Asia.

Bam!

As expert after expert from the overseas forces died, those forces and martial artists from the Underworld that had sought refuge with the overseas forces were incomparably bitter and embarrassed. They had complicated feelings and felt a little fear deep down in them.

Would the Dragon King kill them?

There was a high possibility that he might!

"Let's go up the mountain!" Wang Xian said to Xiao Yu, Lan Qingyue, and the girls who were beside them before walking towards the mountain shrouded under the spiritual energy waterfall.

Sui Huang and Xiao Quanshan followed closely behind him.

The remaining martial artists of the Underworld hesitated for a moment before following and walking towards the mountain under the spiritual energy waterfall.

"What a dense concentration of spiritual energy. Cultivating here would shorten the time required by over ten times!"

When they reached the peak of a mountain, Lan Qingyue and the girls exclaimed in surprise.

Even for Dan Realm or Budding Realm experts, cultivating under the spiritual energy waterfall would be several tens to several hundreds times more effective.

For martial artists at the Inborn Realm and lower, the effects would be even more insane.

"Cultivating here will be just like immersing yourself in spiritual liquid!"

Wang Xian was slightly surprised too when he sensed the spiritual energy that was falling on him.

Even if he were to cultivate here for a day, he would be able to gain several tens of thousands of dragon energy.

"Dragon King, we have left six alive and kept the rest here!"

At this moment, Mo Qinglong walked over and reported.

Mmm!

Wang Xian nodded his head and looked towards the group of martial artists that had sought refuge with the overseas forces.

Sensing Wang Xian's gaze, all the martial artists were shivering anxiously.

"Ask them to get out of this place! As for the rest, find a place and cultivate!" Wang Xian announced plainly.

"Yes!"

Mo Qinglong nodded his head and his terrifying aura swept towards those martial artists that had joined the overseas forces.

Those martial artists paled and were exceptionally bitter when they heard Wang Xian.

Their expressions changed drastically and intense hatred welled up in their hearts.

All of them left while feeling despair.

They would have never expected that the seemingly invincible overseas forces they had joined would be toyed with and killed by the Dragon King and the Dragon Sect.

Those seemingly invincible experts were all killed!

"Dragon King!"

Some martial artists gritted their teeth. Their eyes were filled with horror and a tinge of anger.

However, they could only hide this little tinge of fury away as they dared not to offend the Dragon King.

The current Dragon King was an immortal-like existence in the Underworld.

"Thank you, Dragon King!"

As for the martial artists that were following behind Wang Xian, they bowed down instantly to express their gratitude.

Every single one of them was shaking with excitement.

They had initially thought they had lost even the slightest hope.

To their astonishment, the Dragon King had returned to kill all the overseas forces and allowed them to cultivate in this place.

As for those martial artists that had joined the overseas forces previously, they were chased out of this place directly.

In the future, with the Dragon King stationed at the place where they were cultivating, they could cultivate in peace.

Wang Xian waved his arm, lifted his head and stared at the sky. A huge cauldron appeared in his sight.

"The spiritual energy of this place will likely disappear within a month or two. After its disappearance, terrifying forces will descend into this world. At that time, watch your own actions!"

Wang Xian reminded the crowd of martial artists from the Underworld.

The descent of the Nine Cauldron Worlds would be a huge blow to the martial artists of the real world.

If it wasn't for the spiritual energy waterfall, the martial artists of the Underworld would be in a terrible state.

The appearance of the spiritual energy waterfall would give them some strength to hold their ground!

Huh?

The surrounding people looked at Wang Xian with confused looks. However, none of them raised any questions.

"Let's cultivate here too!" Wang Xian said to Xiao Yu, Lan Qingyue and the girls.

Mmm!

The group of girls nodded their heads. They wouldn't want to let this great chance encounter slip either.

The six of them flew to the peak of the main mountain. Xiao Yu and the other four girls sat on it and started absorbing the endless spiritual energy.

Around them, all the martial artists weren't willing to let a single second go to waste as they sat down right away and started cultivating.

Wang Xian stood below the spiritual energy waterfall while staring at his body, which was immersed in the white spiritual energy. He looked down the mountain.

The spiritual energy is so dense that it doesn't dissipate as it enters the mountain vein. This is truly strange!

A red and blue light flashed across and Wang Xian looked below him.

Huh?

No spiritual ore mine is formed after the spiritual energy enters the mountain vein. There isn't any spiritual stone either. Instead, the spiritual energy seems to be modifying the mountain vein. How queer! It feels a little like a spirit array!

Wang Xian's eyes lit up.

As the spiritual energy entered the mountain vein, it seemed to have undergone a unique change. It felt a little like dragon energy. Wang Xian started absorbing the spiritual energy and converting it into dragon energy.

The spiritual energy that entered the mountain vein was converted into another form of energy. Vaguely, Wang Xian felt that it was similar to his dragon energy.

With a change in thought, a stream of dragon energy was injected into the mountain.

"This is...?"

Wang Xian was stunned and astonished.

The spiritual energy seems to be transforming into dragon energy... It's really dragon energy!

Wang Xian's eyes beamed with excitement.

Dragon Energy is a middle to high tier energy in the universe. Its greatest effect would be modification.

If a place has dragon energy, it would be modified to become a place where talents and great wealth would emerge. Generally, the place would change positively.

This spiritual energy that entered the mountains is being converted into dragon energy automatically!

Spiritual energy is converted into dragon energy and the dragon energy is completely locked within the mountain vein. It seems like something is forming!

If my guess is correct, a dragon vein will be formed as dragon energy enters the mountain vein.

Legend has it that those who occupy the dragon vein will claim the throne to the entire world. This is because the dragon vein has dragon energy deep within it. The dragon energy will enlighten the people and nourish the land. It's easier for talents and experts to be raised in this place!

That's the reasoning behind those who occupy the dragon vein often claiming the throne to the entire world!

Wang Xian's eyes flickered as he stared below him with fervor.

Dragon vein... Earth is the flesh of the dragon, stones are the bones of the dragon, plants are the hairs of the dragon and water is the blood of the dragon. As for the dragon vein...the only thing that would be lacking is a soul.

# Chapter 662: Steal The Dragon Vein

The dragon vein ran through all the dynasties of China!

All the Emperors in the olden days would choose their capitals, and build their palaces on the dragon vein.

Wang Xian did not understand the relationship between the Nine Cauldrons and the dragon vein. But he was sure that the Spiritual Energy from the Nine Cauldrons had flowed into the mountain range, coagulating into a dragon vein.

"If this is a well-formed dragon vein, the Dragon Energy from within can keep a dragon sealed. But if the Dragon Energy is exhausted, the dragon vein will be lost forever!"

But now that the dragon vein is undergoing coagulation. Can I...

Wang Xian had a bold idea.

Steal the dragon vein!

The dragon vein was dead. But if he could bring it to life, that would mean he could use it for himself!

To bring the dragon vein to life might be difficult for others, but it was not as difficult as imagined for Wang Xian.

As he moved his finger, a drop of blood slowly descended to the peak.

Under Wang Xian's control, it flowed toward the interior of the mountain range after the blood dropped onto the peak.

Om!

Once the blood landed on the dragon vein, invisible ripples seemed to rise out from it.

"A Mighty Divine Dragon can be resurrected by a drop of blood because the

blood contains domineering energy...Dragon Energy!

"With the Dragon Energy and the soul in the blood, the Divine Dragon could be resurrected. With my blood and the Dragon Energy from the dragon vein, a Divine Dragon will be born!

"Even if a Divine Dragon cannot be born, the dragon vein will come to life and be under my control!"

Wang Xian was looking thrilled in his eyes. The incessant Spiritual Energy condensed into Dragon Energy, and in turn, formed the dragon vein, which contained incomparable mightiness.

Be it a Divine Dragon being born or a dragon vein that came to life, this was a huge opportunity for Wang Xian once the dragon vein was completed.

"When the dragon vein takes shape, the dragon will roar through the sky from here! Haha!"

Wang Xian could not help but let out a burst of laughter while all the Martial Artists of the Underworld looked over with astonishment.

He looked around, sat cross-legged on the mountain, and began his cultivation.

Such cultivation took half a month.

Within this half a month, Wang Xian accumulated a million points of Dragon Energy. However, it was not a lot to him.

But to the rest of the Martial Artists and the five ladies, including Xiao Yu, they benefited a lot from it.

Xiao Yu and Elder Fang were Half-Step to Budding Realms in the first place. Naturally, they advanced to the Budding Realm. On the other hand, Lan Qingyue, Adjaya, and Sun Lingxiu took one step further in the Budding Realm!

The spiritual energy waterfall was a huge opportunity, but the effect was mild for Dan Realm and Budding Realm experts.

However, this was like a free lunch to those who were Inborn and below.

Half a month ago, Level 5 and 6 were the most common levels. There were even Level 3 and Level 4 Martial Artists. But now, it had become Level 8 and Level 9, and almost four hundred had advanced to Inborn level.

The number of Inborn Experts was almost on par with the Underworld before the massacre.

"Dragon King, something big happened in the Underworld again!"

At this time, Mo Qinglong walked over and whispered in his ear.

"What's the matter?" asked Wang Xian as he stood up slowly.

"Another spiritual energy waterfall emerged in the Guta Mountain Range!" Mo Qinglong reported to Wang Xian.

"Another spiritual energy waterfall?"

Wang Xian was slightly stunned, but a tinge of pleasant surprise flashed in his eyes soon after. "Where is the Guta Mountain Range?"

"The Guta Mountain Range is located not far from the intersection of China and India's border. The spiritual energy waterfall appeared one day ago, and those Martial Artists who surrendered themselves to the overseas forces previously are rushing over there now!" said Mo Qinglong to Wang Xian.

"Is that so?"

Wang Xian narrowed his eyes. "It looks like the Nine Cauldron Worlds will be descending into the real world one by one from now on. Let's get there now!"

The appearance of the spiritual energy waterfall also represented the coagulation of another dragon vein. Wang Xian saw that as something more valuable.

In the future, the dragon veins might become powers that surpassed the Immortal class.

"Yes, Dragon King!" Mo Qinglong nodded.

"Xiao Yu, Qingyue, Adjaya, Lingxiu..." Wang Xian called out to the girls beside

him.

"Hur?"

They opened their eyes and stared at him, puzzled.

"Another similar place has appeared in the Underworld. I'm heading there now while you girls can practice here!" said Wang Xian to them.

"Sure, Xiao Xian!" The girls nodded.

"If the Spiritual Energy becomes exhausted over here, all of you must leave this place immediately. Remember, all of you **MUST** leave!" Wang Xian reminded them.

"Mm! Got it. Don't worry, Xiao Xian!" The girls nodded.

"Continue with your cultivation. I'm off now!"

Wang Xian nodded his head and gestured to Mo Qinglong, Dragon Kid, Dragon Spirit, and the rest of the dragonians.

"Let's go!"

"Yes, Dragon King!"

A group of dragonians followed behind him, flitting towards Guta Mountain Range at a rapid speed.

Guta Mountain Range was a small mountain range without any fame.

There were hundreds of mountains with the highest peak at about a thousand meters with barren surroundings.

Within the mountains, the wild pheasants and boars would let out cries of excitement from time to time, as though they had evolved into demons.

The cries of wild boars and pheasants caused the surrounding peaks to be even more chaotic.

At this time, blossoming white clouds descended from the sky.

An immense amount of Spiritual Energy gushed down like a waterfall!

"Haha, Spiritual Energy from Heaven. Spiritual Energy from Heaven! Heaven has blessed us!"

"Yes, it's the Spiritual Energy similar to Mt. Taibai. Finally, we have a chance to become experts!"

At this moment, all the loud and thrilling exclamations had replaced all the howls and roars of the wild pheasants and boars.

All the Martial Artists of the Underworld raced toward the peaks that were shrouded by Spiritual Energy in exhilaration.

None of them could hide the excitement on their faces.

The number of Martial Artists had reached more than two thousand people.

"Hahaha, Dragon King. Even though you didn't allow us to cultivate over there, we have our own place now!" an elder involuntarily exclaimed with a malevolent look!

"Yes, what have we done wrong? We just want to be stronger. Dragon King, you're too overbearing. One day..."

Fighting spirit and anger filled that young man's eyes. He opened his arms with elation and eagerness. "Without such a huge opportunity, how could you, Dragon King, get this far?"

"Now the chance belongs to us. One day, I'll surpass you and become the most powerful existence in the Underworld!"

All the Martial Artists cried out in happiness. Ever since they'd been chased out by the Dragon King half a month ago, they were filled with anger and unwillingness.

When they heard daily news that some Martial Artists had attained a breakthrough in their levels, their hearts wrenched. Why had they been banned from cultivating over there?

Didn't they join the overseas forces just to become stronger?

# Chapter 663: We Are The Kings!

## Overseas Races Surrender (1)

They hated the Dragon King for depriving them of the rights to become stronger. They were furious and wanted revenge.

However, what they felt was just a sense of helplessness.

The crowd of martial artists from the Underworld at Mt. Taibai had left them far behind. In the future, they would be forgotten by the Underworld and demoted to the lowest level of the Underworld.

However, just a day ago, they'd gotten the news of spiritual energy falling off the sky above Guta Mountain Range. This had ignited their hopes once again.

Several martial artists of the Underworld extended their arms out in excitement while enjoying the spiritual energy waterfall!

There would be a day when they would become a strong existence in the Underworld!

That day would be here sooner than later!

"Haha! The Underworld of China is truly a bountiful land. Spiritual energy descending from the sky? Moreover, it is so close to our Gautama denomination!"

"Your Excellency, it is also a great encounter for us that the spiritual energy waterfall is so close to us!"

"That's right! This is a great encounter for all cultivators from India!"

"Half a month ago, no one would have expected a dragon to be hidden within the Underworld of China. He killed all the experts from six elite forces in Asia. Our Immortal Realm Excellency didn't dare to step into the territory of China and we were forced to give up that wonderful chance encounter. Who would have

expected the spiritual energy waterfall to appear here half a month later! This is destined to be ours! We will kill whoever dares to challenge us for this encounter!"

Suddenly, a peal of hysterical laughter that resembled thunder roaring reverberated. The martial artists from the Underworld that were standing on the mountain peak stiffened immediately.

Their excitement faded away as their expressions turned incomparably stiff. Fear gleamed in their eyes.

"NO! NO!"

"They... They are Gautama from India and some other forces!"

Those martial artists from the Underworld turned their heads around slowly. When they saw the approaching group of people, they felt extremely bitter.

"Huh? There seem to be people on the mountain peak!"

At this moment, the fast-approaching group of forces from India saw the group of people on the mountain peak. Instantly, they upped their vigilance.

If it was in the past, they would definitely not be so vigilant when they encountered forces from the Underworld in China.

However, the news that they received half a month ago spread fear throughout all the forces in Asia.

The Dragon King of the Dragon Sect in China had led his group of experts from the Dragon Sect and killed fifteen Budding Realm experts.

It was especially so for the strength displayed by the Dragon King. Based on the illustration of the disciples that had escaped, the Dragon King manipulated five swords and was able to kill Budding Realm experts from several thousand meters away easily.

Based on their conjecture, the Dragon King had probably reached the pinnacle of the Budding Realm or even the Half-step to Immortal Realm.

If their Immortal Realm experts weren't heading over, it would probably be difficult for them to suppress the Dragon King and the Dragon Sect.

Due to the presence of the Dragon King from China, those six elite forces in Asia, which had suffered huge losses, didn't dare to act recklessly.

When they saw there were people on the mountain peak, they were truly afraid that the Dragon King would be there.

"They are just a pile of trash. There's nothing for us to worry about!"

At this moment, the old man with a double-headed truncheon looked across the group of martial artists from the Underworld. He gave a smile and spoke with a low voice.

"Haha! As long as the Dragon King from China isn't around, we can act as we wish!"

Upon hearing the old man, the surrounding forces from India cheered loudly.

Upon hearing the voices that came from afar, the martial artists from the Underworld paled instantly. They felt they had suffered grave grievances.

They had turned to join the overseas forces but these overseas forces were in turn annihilated by the Dragon King.

The Dragon King had chased them away. Now that they found another great opportunity, other strong overseas forces came.

The group of martial artists couldn't help but be furious and feel sorry for themselves. Their expressions were contorted.

"There are quite a few of them!"

The experts from the Gautama denomination stood in the air and stared fervently at the spiritual energy waterfall that fell from the sky. Following which, their gazes shifted to the martial artists below.

"Kill all of them to save us the trouble!"

An old man, who was wearing a mask, looked coldly at the martial artists below him and instructed them emotionlessly.

"Alright, kill all of them!"

Around them, the crowd of cultivators from India revealed brutal and fearsome expressions as they drew their weapons.

There were tridents, wooden rods, and truncheons.

When compared with the weapons used in China, there were huge differences.

"Don't!"

Seeing that the other party wanted to kill them directly, the martial artists on the mountain were horrified.

"Please don't kill us. We surrender! We surrender!" an Inborn expert from the Song Family shouted bitterly.

After surrendering for the first time, they felt no emotional barriers against doing so again.

"That's right. We surrender. We are willing to listen to all your instructions!"

All the other martial artists of the Underworld chimed in. The only thing they didn't do was to go on their knees.

"They are truly a pile of trash without any backbone!"

Seeing how they had reacted, the experts from the Gautama denominations were full of contempt.

"Hehe! We don't need a group of weak dogs!"

An old man by the side looked down at the crowd of martial artists and mocked them coldly.

"Kill these useless creatures!"

A voice that was brimming with killing intent resounded again, making the

martial artists on the mountain peak feel despair again.

"Why? I'm not convinced! Why! Why did things turn out this way!?"

The Inborn expert from the Song Family growled loudly with a contorted face.

Having encountered such events consecutively had distorted his mindset.

"Trash will always be just trash!"

Disdain filled the eyes of the experts from Gautama denomination and other forces from India. They waved their arms and sent attacks towards the crowd of martial artists from the Underworld.

Ka ka ka!

However, at the moment they wanted to attack, the void space started cracking.

In the sky, the entire space seemed to be just like a piece of a mirror, as terrifying green ripped it apart.

A voice that could numb one's skull rang throughout the sky.

The terrifying scene stunned the experts from the Gautama denominations and forces from India as they stared at the cracked space with astonishment.

Argh!

On the mountain peak, several dozens of martial artists cried out loud upon being hit with terrifying attacks from the experts of the Gautama denominations.

The experts from the Gautama denominations didn't pay attention to them at all. Their eyes were fixed intensely on the sky.

"Is this the real world?"

A voice came from the cracks of the space, making everyone tense their bodies instantly.

At this moment, an old man with long hair and a green outfit walked out of the cracks.

The old man stood in the air and was observing his surroundings inquisitively.

Soon after, several old men walked out from the cracks behind him.

They were all wearing green outfits and the guys all had long hair. They had a similar style to those in the history of ancient China!

"Yes, Elder Hua. This is the real world."

In the end, a voice reverberated from the cracks of the space and five young men with short hair emerged from the cracks.

The cracks recovered slowly and peace returned to the crushed space.

Approximately fifty to sixty people stood in the air.

They looked around and were pleasantly surprised when they saw the spiritual energy waterfall below them.

Their gazes swept across the crowd of martial artists from the Underworld before landing on the experts from the Gautama denomination and other forces from India.

"People from other nations? What are they here for? Surrendering to us?"

An old man looked down from above. He was expressionless and it was as if he was simply stating a fact!

# Chapter 664: We Are The Kings!

## Overseas Races Surrender (2)

"People from other nations? What are they here for? Surrendering to us?"

The nonchalant voice was filled with gentleness.

About sixty people stood in the air while the old man in the middle did not flare. He continued to overlook the group of cultivators from Gautama Denomination and India without any expression.

The experts within Gautama Denomination and the Indian cultivators revealed slight embarrassment on their faces when they heard the old man's otherworldly words.

All of them stared at the group of people who walked from a space crack in the sky with vigilance. None of them dared to speak.

The Martial Artists of the Underworld below fixed their eyes on the Immortals that stalked out of the Immortal Realm in the air with astonishment.

The old man who was known as Elder Hua did not mind their silence. Slowly, he looked down and spotted the group of Martial Artists of the Underworld standing on one of the peaks.

He swept his gaze at the dozen bodies who were attacked and asked softly, "This is the Underworld of China? How weak they are!"

Elder Hua murmured softly. A few short-haired young and middle-aged men approached that old man from behind and bowed. With respect, they answered, "Elder Hua, those are the Martial Artists of the Underworld below. As for the rest, they should be the other forces from overseas!"

A middle-aged man with short hair looked around. Apparently, he had good knowledge about those Martial Artists of the Underworld.

"Hur?"

Over two thousand Martial Artists of the Underworld craned their necks and looked up with bewilderment, staring at the middle-aged man who spoke.

"Attendant...Attendant Hua!"

Suddenly, the Sect Leader of Qingfeng Sect burst out a shocking cry. He was taken aback as he fixed his eyes on the middle-aged man with short hair!

"Mm!"

Upon hearing his voice, the middle-aged man with short hair cast his sight over and nodded plainly.

"After the Nine Cauldron Worlds went into seclusion, the entire Underworld slipped into decline. All of you are worse than kids, getting bullied by extraterritorial races. A bunch of useless things!"

As Elder Hua slowly chided them, he was already striding toward the mountain below.

A group of about sixty experts followed behind him to the mountain below.

"Elder Hua, the Immortal Sects have remained in seclusion while Diabolism rose. The Underworld is getting worse generation by generation!"

The middle-aged man with short hair spoke with a sigh.

Whoo!

Sixty of them stood at the peak summit while the rest of the Martial Artists of the Underworld did not dare to take in deep breaths. All of them were standing there like cats on hot bricks.

"They may be useless, but they are still Chinese Martial Artists. When did the Chinese get bullied by anyone? We are the Kings while the extraterritorial races have to surrender to us!"

Elder Hua was expressionless when he cast his gaze at the experts from Gautama

Denomination and India. "Pay us back ten times for killing dozens of our men!"

"Elder, leave this to us!"

The three middle-aged men behind him stared coldly at the few hundred people from Gautama Denomination and India. "How dare you kill the Chinese Martial Artists. Pay us back ten times now!"

Before the three men could finish their words, greenish energy darted out without any warning.

"Gentlemen, let's talk this out!"

Upon seeing the greenish energy charging toward them, the old man who was leading the Gautama Denomination was aghast. He tapped his truncheon, and a dazzling golden shield manifested itself before them!

"Kill before talk!"

There was a flash of contempt in their eyes when the three middle-aged men saw the defense put up by the Budding Realm experts from Gautama Denomination.

"Thistles and Thorns Burial!" three of them called out. To everyone's surprise, the greenish energy landed on the tree branches on the mountain.

Woosh!

For a moment, all the trees seemed to be transformed into some tree demons with branches extending themselves frantically. Even the roots were wriggling violently.

A few hundred tree branches grew to a thousand meters long, hurling themselves at the Gautama Denomination disciples and the Indian cultivators.

"What?"

The old man who had a double-headed truncheon in his hand suddenly changed his expression. The elder beside him was horrified as well.

The golden radiance vibrated and was penetrated by those three branches right

away.

Ah!

Frightening shrieks suddenly rang out while a tree branch that was less than a hundred meters long sprang out from the ground out of the blue. His body was trapped by it immediately as he spat out a mouthful of fresh blood!

"Watch out!" an Indian expert shouted in trepidation.

Ah!

However, all the trees in the surroundings were uplifted from the ground, sweeping in from the air and the land!

All the experts from Gautama Denomination and the Indian cultivators were aghast.

Their screams lasted for only ten seconds before they came to an abrupt end.

Hundreds of corpses were lying everywhere on the ground.

"140. Nice!"

A middle-aged man swept his gaze across and commented plainly.

This sentence struck chills into all the cultivators of Gautama Denomination and India instantly. All they could do was stare at them with consternation.

As soon as they sensed danger, they were ready to flee.

"Mm!"

Elder Hua nodded his head without any emotion. He looked up impassively at the cultivators from Gautama Denomination and India and said, "Since the king has returned, the rest of you can surrender or die!"

Whew!

All the experts from Gautama Denomination and India were horrified by what Elder Hua had said. Everyone was infuriated.

"Elder, the Gautama Denomination is in the top nine supreme-class forces within Asia. We've got Immortals controlling a region!"

The old man with a double-headed truncheon replied in a low voice with a sullen face.

"Gautama Denomination? Haha, I've never heard of it. I only heard of Shahuang Denomination which was annihilated by us. It looks like none of you are going to surrender to us!"

Upon hearing them, the elder remained composed as he overlooked them!

"What...You!"

The old man with the double-headed truncheon widened his eyes with horror.

The rest of the disciples of Gautama Denomination and Indian cultivators were equally shocked.

Shahuang Denomination was their ancient denomination in India. It used to be the largest denomination in their country.

However, the entire denomination had been annihilated three hundred years ago. Some of the disciples who managed to escape from it established the Gautama Denomination that existed today!

"Immortal Sect? All of you are from Immortal Sects? It was said that all the Chinese Immortal Sects entered another world, right?"

The old man with the double-headed truncheon asked this with eyes full of disbelief. His eyebrows were twitching without stopping.

"Extraterritorial races, kneel before us and surrender to us!"

Without any further talking, an emerald truncheon suddenly emerged in Elder Hua's hand. The truncheon was one meter long and the tip was embedded with an emerald bead.

"You... you people..."

All the Gautama Denomination and Indian people exhibited humiliating looks on their faces.

Asking us to surrender?

Want us to get on our knees?

How could this be possible?

Why are domineering experts sprouting up in China out of the blue? Why are the legendary Immortal Sects descending into this world?

Why do we keep running into them?

"If you do not surrender, death is the only way out!"

Seeing them in a long silence, the old man spoke in an overbearing voice.

"Let us do it!"

Five middle-aged and old men instantly struck from behind.

All the trees within the thousands of meters around turned into tree demons, launching their attacks.

The two elders lifted their fiery-red truncheons up slowly over their heads!

"Wood Fire Burial!"

# Chapter 665: Get On Your Knees And Prepare To Be Killed

"Wood Fire Burial!"

The group of five middle-aged and old men shouted. The next instant, the densely packed tree demons in the surroundings trapped and cornered a hundred disciples from the Gautama denominations and over two hundred cultivators from other forces in India.

Just as the tree demons trapped the cultivators, huge fireballs were hurled onto the tree demons.

Boom!

In an instant, the densely packed tree demons that had covered over three to four kilometers were set ablaze at a rapid speed.

Terrifying waves of fire swept across, killing over a hundred weaker martial artists directly.

"This... How terrifying! How terrifying!"

The remaining martial artists from the Underworld stared at the terrifying sea of flames.

The fire burned the wood and wood spurred the growth of the fire!

Wood Fire Burial!

Argh!

At this moment, blood-curdling screams sounded from the middle of the Wood Fire Burial. Suddenly, two figures shot towards the sky.

They were surrounded by blinding golden rays and were escaping into the sky at an incredible speed.

"Will you be able to escape?"

Elder Hua stared at the two Budding Realm experts who had escaped as he placed the truncheon in his hands on the ground.

Weng!

What the surrounding crowd could see was bright green light being injected into the ground.

Swish swish swish!

At this moment, two gruesome vines shot out from the ground and wrapped themselves around the two experts from Gautama denomination.

The vines emitted blinding green light and pulled them towards the Wood Fire Burial!

"Argh! NO... Our denomination will take revenge for us!"

Two spine-chilling screams reverberated across the sky. Soon, there was no longer any signs of life.

"This... This..."

The crowd of martial artists from the Underworld was completely dumbfounded.

The shock they got today was in no way any lower than that of half a month ago!

Half a month ago, the experts from the Dragon Sect had dominated the crowd of elite forces from Asia. The Dragon King easily killed five Budding Realm experts with five flying swords.

And today, the group of five middle-aged and old men destroyed several hundreds of powerful opponents with two moves. One of the old men was even able to trap two Budding Realm experts with a single move.

Since when was the Underworld so horrifying?

They felt as though they were no longer living in the Underworld. Instead, they were living in a world that only existed in legends.

"We have two matters to handle now!"

Elder Hua shifted his vision from the Wood Fire Burial. His expression was unmoved as he turned to face the group behind him.

"First, we have to get our hands on the information of the real world. Second, we have to take revenge for our clansmates in the real world!"

"Yes, Elder!"

The group behind him nodded their heads.

"Elder Hua, we should be able to get some information from those around here!"

At this moment, the middle-aged man with short hair lowered his stance before Elder Hua before looking across to the martial artists from the Underworld.

Mmm!

Elder Hua closed his eyes.

Seeing that the Elder had signalled to him, the middle-aged man with short hair turned around instantly to face the crowd of martial artists from the Underworld.

Huff!

When the martial artists from the Underworld saw the ex-Attendant of the Medical Saint Sect, they took a deep breath.

"We are from the Medical Saint Immortal Sect of the Yao Cauldron world. Disciples of our Medical Saint Immortal Sect stood at the pinnacle of all Immortal Sects at one point in time. Soon, our Yao Cauldron world will descend into this world. All martial artists have to surrender!"

The middle-aged man with short hair lifted his hair slightly, looked down at the group of people, and spoke with a low and serious tone.

"Surr... Surrender... We Surrender!"

The moment the middle-aged man with short hair finished his sentence, the group of martial artists from the Underworld answered instantly.

"On your knees!" an old man shouted suddenly.

"Yes, yes! We will kneel right away!"

Upon hearing the shouts from the old man, the group of martial artists from the Underworld felt extremely bitter. However, they took a deep breath to contain their indignance and went on their knees.

Mmm!

Elder Hua looked satisfactorily at the kneeling martial artists from the Underworld. A strong sense of superiority was written all over his cold face.

"Sect Leader Wan, get your guys to collect all the information on the real world for us!"

The middle-aged man with short hair looked at the group who was kneeling before him and spoke slowly with the same sense of superiority.

"Yes, Hua Atten... Yes, Your Excellency. We will definitely complete what you have instructed. Leave the information gathering to us!" Sect Leader Wan answered respectfully in a hurry.

"There's another matter!"

The middle-aged man with short hair lowered his head, stared at the Sect Leader of Qingfeng Sect and said with a hideous expression, "Find the location of the Dragon King. The Dragon King has annihilated our Medical Saint Sect. We will rip him into a million pieces!"

"Yes, yes!"

Sect Leader Wan nodded his head instantly. He was a little overwhelmed by the expression shown by the middle-aged man with short hair.

"Since he dared to kill our clansmate, we will kill every single person who is related to the Dragon King of the Dragon Sect!" Elder Hua, who was standing at one side, added coldly.

Sss!

Upon hearing him, the surrounding martial artists from the Underworld gasped.

Killing every single person related to the offender was the most brutal and gruesome punishment in ancient times.

What it meant would be Wang Xian's kin would all be killed.

Could this be what they referred to when saying that the authority of an Immortal Sect couldn't be tainted?

However, the group of martial artists soon recalled the strength displayed by the Dragon King. Their eyebrows knitted together.

"Your Excellency, we know where the Dragon King of the Dragon Sect is!"

A cold light flashed across the eyes of Sect Leader Wan of Qingfeng Sect as he shouted loudly with deference.

"Huh? You guys know about his whereabouts?"

The middle-aged man with short hair was taken aback and followed up with a question.

"Yes, various Excellencies! We know the whereabouts of this despot!"

Sect Leader Wan answered loudly once again.

"Despot?"

The experts from the Yao Cauldron looked on, feeling a little baffled.

The group of martial artists from the Underworld was also surprised by what Sect Leader Wan had said. They lowered their heads and a glow flashed across their eyes.

Half a month ago, the Dragon King had chased them out of Mt. Taibai. Hatred for the Dragon King had long been taking root in their hearts.

Now that someone wanted to kill the Dragon King, this was something they were happy to see.

"That's right! He's a despot! After the Dragon King of the Dragon Sect annihilated the Medical Saint Sect, they annihilated several other Sacred Sects and Clans thereafter!

"What's crueller was that half a month ago, he annihilated half the clans and sects in the entire Underworld. There wasn't a day of peace for the Underworld!

"He's a devil that has committed all sorts of sins and is extremely brutal!"

Sect Leader Wan spoke as his eyes turned red.

"Damn it!"

Dense killing intent emanated from the eyes of the middle-aged man with short hair.

"However, this despot is exceptionally powerful with terrifying subordinates. The strength he has displayed was like those of an immortal that's incomparably powerful."

Sect Leader Wan continued his elaboration.

"Immortal?"

Contempt flashed across the face of Elder Hua as he snided, "How strong could he be!?"

"Half a month ago, the Dragon King led nine Budding Realm experts and easily killed fifteen other Budding Realm experts. Moreover, the Dragon King displayed immense strength. He was able to kill five Budding Realm experts with five flying swords. He's unparalleled in this world!"

Sect Leader Wan exaggerated a little in his illustration.

"That's right. Just as Sect Leader Wan has said, the Dragon King is a powerful despot. We hope Your Excellency will remove this scourge for the better of all."

The clan leader of the Song Family seconded the idea.

"Nine Budding Realm experts? Easily killed Budding Realm experts?"

Unparalleled in this world?"

Elder Hua was a little surprised. However, the edge of his lips curved up soon after.

"Nine Budding Realm experts? That Dragon King would at most be at the Half-step to Immortal Realm. We do need to be a little more serious when going against this force!"

"It seems like I have to be involved in the killing!"

# Chapter 666: Get On Your Knees And Prepare To Be Killed (2)

"Elder Hua, you don't have to do it personally just to slaughter a force from the real world. Just leave it to us!"

An old man beside Elder Hua said in a low voice, "The Martial Artists in the real world have incomplete battle techniques. Even with the strength of the Budding Realm, one is still far from us. A Half-step to Immortal? I don't think there's one in the real world!"

The old man spoke with radiance flickering in his eyes. "A force that possesses nine Budding Realm experts was invincible in the real world. But to us... Haha!"

His face was full of contempt.

"That's right, Elder Hua. We have 25 Budding Realm experts with us this time. Just send any ten of them, and they could just kill them off!"

The middle-aged man spoke with a beaming face.

Having nine Budding Realm experts was indeed quite impressive. But to the people from Yao Cauldron World, annihilating them would be easy-peasy.

Moreover, this time they had brought twenty-five Budding Realm experts with them.

As for that Dragon King, who was known as a Half-step to Immortal expert, they did not really believe it. His strength was at most at Pinnacle Budding Realm.

"25... 25 Budding Realm experts? How could it be possible?"

At this time, however, the group of Martial Artists of the Underworld was horrified when they overheard their conversation.

Twenty-five Budding Realm experts? What kind of concept is this?

If twenty-five of them strike together, they could level the entire Guta Mountain Range in less than twenty minutes.

If they rage, wouldn't they be able to massacre half the country?

"I beg to ask a question, Your Excellencies. How many such terrifying people exist in your world?"

Sect Leader Wan asked this in shock as he involuntarily wiped the beads of cold sweat from his forehead and swallowed his saliva.

The middle-aged man with short hair peered at Sect Leader Wan and replied in a monotone voice. "The mightiness of Yao Cauldron World is beyond what you can imagine!

"Inborn Experts are merely average disciples while we have a few hundred Budding Realm Experts. Even better, we have Immortals who could truly whip up massive destruction to the world!"

The voice of that middle-aged man was ringing in the ears of many Martial Artists of the Underworld as they revealed horrified expressions.

Few hundred Budding Realm experts!

Immortals who could genuinely whip up massive destruction to the world!

Gosh!

"There are nine such worlds, and all of them are descending into the real world. By then, all of you will just be small fries!" the middle-aged man with short hair said with slight contempt.

"Nine!"

All the Martial Artists of the Underworld were aghast as their bodies stiffened up.

"The Nine Cauldrons have transformed into dragon veins. This will be a good opportunity for all of you. Under the cleansing of the spiritual energy waterfall, you can greatly enhance your potential and strength. If you can advance to

Inborn Realm, you may join our Medical Saint Immortal Sect and Remedy Saint Immortal Sect!" said Elder Hua to the surrounding Martial Artists impassively.

"Really? Thank you, Your Excellency. We'll work hard and contribute our efforts to the Immortal Sects!"

The group of Martial Artists hurriedly flattered him at the top of their lungs.

"Your Excellencies, the Dragon King is at Mt. Taibai because there's one similar spiritual energy waterfall over there. You can head over, and the Dragon King will be easily at your mercy!"

"That's right, Your Excellency. Shall we lead the way to retrieve the head of the Dragon King? We can deal with those who are related to the Dragon King!"

All the Inborn Experts of the Underworld pledged their loyalty immediately.

Mighty Yao Cauldron World of the mighty Nine Cauldron Worlds.

All these powerful worlds were going to descend into the real world. They needed to choose the correct side to stand on. Otherwise, their lives would be worse than that of a dog.

After witnessing the power of the Nine Cauldron Worlds, the Dragon King was simply nothing.

These sixty people from Yao Cauldron World could quickly annihilate the Dragon King, not to mention those real experts from the Nine Cauldron Worlds.

In the future world, the Dragon King was just a pond loach and one that was waiting to be slaughtered.

What they needed to do now was to follow these people before them!

"Oh? Such a spiritual energy waterfall has already appeared?" Elder Hua asked puzzledly.

"Yes, Your Excellency. This spiritual energy waterfall appeared at Mt. Taibai around twenty days ago!"

All the Martial Artists quickly responded to his question.

"Twenty days? Mt. Taibai? It looks like Huang Cauldron world will be the first to descend into the real world!"

With beaming eyes, Elder Hua looked to an elder beside him. "Elder Bian, you'll take twenty Budding Realm experts with you to kill that Dragon King while I stay put and guard this place!"

"Sure. Leave that Dragon King to me. Elder Hua, you can make plans for the real world!"

Elder Bian smiled and nodded.

"Mm, Elder Bian, don't be careless. What if that Dragon King is really a Half-step to Immortal Realm expert?"

"If he really is, we'll join hands. That should suffice!"

"Yes, Elder Bian. Come back soon!"

"I'll take at most a day!"

The two of them were very relaxed, talking away.

To them, they were not heading off to kill a strong enemy, but rather, an ant.

"Lead the way!" said Elder Bian in a low voice as he swept his gaze across the Martial Artists of the Underworld below.

"Your Excellency, let me take you guys there!" said a disciple beside Sect Leader Wan after he gestured to him.

"Great!"

"Hur? Someone is heading this way!"

All of a sudden, an old man spun around and looked ahead.

Close to forty figures were flying in their direction at a rapid speed.

"Hur? There are people on Guta Mountain Range. It seems like we're not the first to arrive!"

While the group of people looked over, Wang Xian had already led a team of Dragon Sect members over.

When he saw the thousands of people below the spiritual energy waterfall, Wang Xian revealed a faint smile on his face.

Time to work on the second dragon vein.

"They are those Martial Artists of the Underworld who I chased away!"

Wang Xian looked over and chuckled without any concern.

He was not interested in who was in the mountains, practicing there.

Even if those people were the Martial Artists of the Underworld who he had chased away half a month ago, it was none of his concern as usual.

Those Martial Artists of the Underworld were nothing but ants to him.

In the near future, his real opponent would be those from the Nine Cauldron Worlds.

"Yes, Dragon King!"

"It's him, the Dragon King of Dragon Sect!"

However, those Martial Artists let out exclamations as soon as Wang Xian and the Dragon Sect members approached.

"He's the Dragon King of Dragon Sect?"

Elder Hua was slightly surprised.

"Yes, that's him, the Dragon King and the experts from Dragon Sect!"

Sect Leader Wan was staring at Wang Xian and his gang with a pair of blazing eyes.

This was the first time that he dared to glare at Dragon King directly with eyes burning with fire. At the same time, it was the first time he was becoming thrilled.

He was gloating at the misfortune of others while a tinge of a sneer flashed in his eyes.

All the Martial Artists of the Underworld were excited and elated.

"Well, we don't have to search high and low for him now. He's sending himself over here to claim his own death!"

Elder Hua revealed a grin on his face.

"For those who are approaching here, come over, get on your knees, and prepare to die!"

# Chapter 667: Arrogantly Superior And Disdainful

"For those who are approaching here! Come over, get on your knees and prepare to die!"

Just as Wang Xian led the group of dragonians towards Guta Mountain Range, a domineering command surprised him a little.

Get on my knees and prepare to die?

A flash of light flickered in Wang Xian's eyes. He looked towards the mountain peak below the spiritual energy waterfall and squinted his eyes.

"Dragon King! Come here now and receive your death!"

An angry roar reverberated across from the middle-aged man with short hair who was staring at Wang Xian with blood-red eyes.

The enmity for killing his father had ensured that it was impossible for them both to live under the same sky.

People from the Nine Cauldron Worlds?

Looking at the outfit of the group of people standing at the peak of the mountain, Wang Xian felt a sense of familiarity. The image of a sect surfaced in his mind.

Medical Saint Sect!

When the experts from the Medical Saint Sect were annihilated, some of them claimed that there would be people going after me and taking revenge for them. What a surprise! Medical Saint Sect is actually related to the Nine Cauldron Worlds!

While Wang Xian was slightly surprised, a cold look appeared on his face the next instant.

No matter which world they were from, as long as they dared to go against him, he would play along with them to the very end.

Even if he was facing the Nine Cauldron Worlds, he wasn't afraid at all as he had the Dragon Palace!

It wasn't like his Dragon Sect did not have an Immortal Realm expert!

Wang Xian did not decelerate but instead landed on a mountain peak opposite the group. He smiled radiantly while observing the experts from one of the Nine Cauldron Worlds before him.

Elder Hua and the rest of the group scrutinized Wang Xian with chilling looks. They were a little shocked by the one standing before him.

He was too young! Outrageously young!

"Dragon King! You better get down on your knees to welcome the Excellencies from the Yao Cauldron world!"

"Haha! Dragon King, come over right now and get on your knees. Our Excellencies might just grant you a swift death!"

Elder Wan from Qingfeng Sect and the group of experts from the Song Family smirked as some of them chided Wang Xian.

They lifted their heads proudly, looked fearlessly at Wang Xian and were a little excited.

Hearing their snide remarks, ruthlessness gleamed in his eyes as he looked across the martial artists from the Underworld.

"Tsk! What are you looking at!? You are just someone who is going to die soon!"

When the group of martial artists from the Underworld met Wang Xian's gaze, they ridiculed him coldly.

"Dragon King! Do you know your sins!?"

The middle-aged man with short hair roared at Wang Xian with a solemn

expression.

Hehe!

Wang Xian chuckled nonchalantly as he looked across the group and asked, "Which cauldron world are you guys from?"

"Huh? It seems like you know about the Nine Cauldron Worlds too!"

Elder Hua stared at Wang Xian and continued, "What a shame for your talents! If you had not committed unforgivable sins, we would have taken you in as a disciple of our Immortal Sect. What a shame! You can't blame others for the sins you have committed!"

"Dragon King! You killed my father and all the experts from our Medical Saint Sect! Today will be the day of your death!"

"If we had not escaped in time before, our entire branch of the Medical Saint Sect would have been slaughtered by you. Rest assured! When you die, I won't let any of your kin get away. You won't have to worry about being lonely in hell, as your kin won't be able to escape!"

The middle-aged man with short hair growled while brimming with killing intent.

The arrogantly superior old man, the middle-aged man with short hair who had announced that he would kill all his kin, and a group of martial artists from the Underworld who was having fun while waiting for his impending miseries...

Wang Xian's eyes gradually turned as cold as ice. "Do you guys know that you are courting your own demise!?"

"Dragon King! How dare you speak to the Excellencies from the Yao Cauldron world in such a manner! You must be too eager to meet your end! Today will be your last day alive! For your arrogance, death can be your only outcome!"

A young man shouted at Wang Xian with a face contorted from anger.

"Kill him as revenge for our clansmate!"

Seeing how Wang Xian was still daring to make brazen comments, Elder Hua wasn't interested in talking further to a person who was going to die. He immediately instructed his people.

"Nine Budding Realm experts? Let's hope that they will give us a good warm-up!"

At the back, the group of old men revealed faint smiles as they lifted the truncheons in their hands.

Fiery-red truncheons and jade-green truncheons glowed with blinding rays as though they were holy staffs!

"Die!" the group shouted.

On the peak where Wang Xian and the dragonians were, the trees were growing at a tremendous speed.

With over ten Budding Realm experts striking at the same time, powerful Wood attribute energy caused several thousand trees to grow to a few hundred meters instantly.

Their branches wrapped towards Wang Xian and the dragonians.

It was the same attack.

Wood Fire Burial!

"Wood Fire Burial!"

After that shout, a five to six-meter-long fireball appeared in the air and smashed towards the tree demons on the mountain peak.

Rumble!

This time, it wasn't an attack from five Budding Realm experts. Instead, it was an attack launched by over ten Budding Realm experts at the same time.

Terrifying tree demons had locked down the entire mountain peak, blocking out any light. Branches moved towards Wang Xian and the group like a nest of

snakes as the terrifying fireball landed on it and exploded!

Rumble!

The entire mountain peak was completely covered. Before the terrifying might, the entire peak was set ablaze before the eyes of the martial artists from the Underworld.

"Sss! They are dead?"

"I don't think they would die from that. The Dragon King is really strong. I feel that the Dragon King wouldn't die from just one attack!"

Some martial artists mumbled among themselves.

"All signs of life have dissipated!"

An old man, who was holding a jade-green truncheon, smiled faintly and remarked, "They are really trashy. When I heard about them, I still thought the Dragon King was reasonably strong. He couldn't even withstand an attack from us!"

"Hehe! We have fifteen people attacking him at the same time. Moreover, the Wood Fire Burial is a frightening combination battle technique. Even if they had twice the number of people, they would very likely have been annihilated by us directly, let alone just nine Budding Realm experts!"

A middle-aged man with a fiery-red truncheon lifted his head proudly and spoke.

"Sss! Are they really dead?"

"Killing them in a single strike! I still thought it would take at least two to three strikes! Your Excellencies are truly too powerful!"

"Haha! The Dragon King is finally dead! That arrogant brat is finally dead! When I find his corpse, I'm going to whip it!"

"Under such terrifying attacks, his corpse has likely been reduced to ashes!"

The group of experts commented while deriving joy from the tragedy.

"I'm a little disappointed!"

Elder Hua shook his head lightly. He felt a little bored in seeing the Dragon King being killed so easily.

He had still been a little wary initially!

The real world was the real world after all. The real world couldn't be compared to them at all as the rest were just ants!

Pa!

At this moment, the sound of water dripping could be heard.

"Be careful!"

Suddenly, horrified screams from the martial artists of the Underworld resounded.

"People from the Underworld! Get your ego in check and don't be haughty. It is especially so before me!"

A voice erupted from behind Elder Hua and the group.

Suddenly, everyone could feel a chill running down their spine!

Poof poof poof!

Soon after, chilling cracking of bones could be heard.

"How can this be? How did they appear here?"

Elder Hua's eyes widened in disbelief as his hands, which held the truncheon, trembled. He looked with incredulity at his chest.

A longsword had pierced through where his heart was.

"I'm a little disappointed. You guys are from one of the Nine Cauldron Worlds? You guys couldn't even survive a strike from me?"

# Chapter 668: Six Feet Under

A sarcastic voice came from Wang Xian, ringing in the ears of everyone around him.

Wang Xian slowly moved the spiritual sword in his hand.

The weapons that belonged to the Dragon Sect disciples around him had penetrated every single one of the Yao Cauldron World experts.

All twenty-five Budding Realm experts were hit with fatal strikes.

"Elder Hua..."

"Oh no!"

The other twenty-odd Dan Realm experts, who were not being attacked, quickly spun around. They were shocked to see the Immortal Sect level experts being struck in their vital points.

"This...this cannot be! It is impossible!"

"I don't believe this! How did they suddenly appear behind all of us? This is unbelievable."

The group of martial artists of the Underworld was completely devastated after witnessing what had just happened.

They could not accept what had just unfolded in front of their very eyes.

Twenty-five Budding Realm experts from the strongest Immortal Sects who were their future rulers of the world.

And Elder Hua, who could always easily put up a tough fight against the strongest opponents...

All of them were killed in an instant!

As they watched the sharp weapons penetrating the bodies of the experts, the surrounding group of martial artists of the Underworld was frightened out of their wits.

Especially Sect Leader Wan from Qingfeng Sect, the people from the Song Clan and all the other experts who had just mocked Wang Xian moments ago.

They felt tremendous fear.

Even those who had not spoken a word just now were also secretly gloating over the misfortune of Wang Xian and his men.

And now, their supporting pillars were gone!

What awaited them was the consequences of their actions.

"Tsk tsk, these are all very fine spiritual weapons. And this, a Level 13 spiritual weapon fit for use by the immortals!" Wang Xian said, marveling as he held Elder Hua's emerald truncheon in his hand.

Most of the Budding Realm experts were wealthy enough to arm themselves with Level 12 spiritual weapons.

Inlaid on top of Elder Hua's emerald truncheon was the most precious Wood Spiritual Bead that Wang Xian had ever seen.

A Level 13 Wood Spiritual Bead!

The other Level 12 spiritual weapons were also embedded with all kinds of rare Wood and Fire Spiritual Beads. Wang Xian beamed at the sight of them.

These precious spiritual beads were perfect resources that he needed to cultivate two Level 13 Inferno and Wood Dragon Balls!

"You...urgh..."

Looking down blankly at the spiritual sword that was on his chest, Elder Hua was barely opening his mouth to speak. Instead of words, he coughed out a mouthful of blood.

However, the experts from the Budding Realm had astonishing vitality. Even as their hearts were being punctured, they were still able to hold on very long to their last breath.

But right now, what Elder Hua felt was not pain, but terror.

"You are not from the Budding Realm, or the Half-step immortal... You are an Immortal!" he said as he turned his stiff neck to face Wang Xian, still coughing up blood uncontrollably.

"It is too late to know how strong your opponent is now, don't you think?"

Wang Xian looked at him mockingly.

Sss!

Upon hearing Wang Xian admitting his status as an Immortal, the remaining Yao Cauldron experts gasped with terror in their eyes.

In particular, the middle-aged man with short hair. He was still in a state of shock and disbelief.

The Dragon King is an Immortal!

To think that they were still plotting to kill an Immortal and eliminate his bloodline!

"Heh Heh... There are also many Immortal experts in our Yao Cauldron world. By killing us today, they will not let you off, even if you are an Immortal!" Elder Hua said as he stared at Wang Xian with slackened eyes. His voice had started to croak.

"Don't worry. Nobody from your Yao Cauldron World can kill me. Rest in peace; the rest of these people will accompany you shortly!"

Wang Xian smiled as he slowly pulled out his spiritual sword.

"To think that I, Hua Qiudao, a high and mighty elder in the Yao Cauldron world, would end this way in this small Underworld!" said Elder Hua, refusing to resign to his demise.

It was his misfortune and ill fate to make enemies with the Immortal Dragon King.

"What I detest most is beings like you who think you are above everyone else. Displaying such an attitude in front of me will only make me bury you six feet under!"

Wang Xian's words rung in Elder Hua's ears as he stared coldly in return.

"You are ultimately not a God. You do not overlook our life and death!"

Wang Xian unsheathed his spiritual sword. The dragonians around him had drawn their spiritual weapons as well.

Bam! Bam! Bam!

One by one, the experts fell to the ground. Wang Xian did not bother looking at them and instead flew to a mountain peak beneath the spiritual energy waterfall.

"The second dragon vein!"

Wang Xian looked down at the peak with excitement.

"Heh heh... Such arrogance from the Nine Cauldron Worlds. You are not the first person from those worlds to be killed by our Dragon King, and most likely won't be the last either!"

Dragon Kid spoke with an ear-piercing voice. He surveyed the surroundings with his bloodshot eyes, smacked his tongue, and gradually raised his spiritual blade.

Mo Qinglong did not stop the dragonians.

Anyone who tried to deal with the Dragon King and harm him deserved to die!

"Argh!"

The shrill cries of death made the hearts of the Martial Artists of the Underworld pound rapidly.

Fear was looming in their hearts.

The Dragon King was an Immortal!

Elder Hua, who they had regarded as invincible, had mentioned an Immortal expert and this was it. A true Immortal expert before them.

They did not know how incredibly powerful an Immortal was. But they had an idea of how strong the twenty-five Budding Realm experts were.

And now, none of those experts from the Budding Realm and Yao Cauldron World were spared from death!

"Ah, the taste of blood is so delicious. What a waste that it could not be used to irrigate the pure blood corals. Oh well. Kill!"

One of the dragonians talked to himself as he licked the blood off his spiritual sword. With a turn of his body, he attacked the group of onlooking Martial Artists of the Underworld

"No...they are going to kill us..."

The massacre party was just getting started!

Wang Xian's face lit up with a smile as he heard the wails of the dying masses, seeing the blood essence flowing into the dragon vein.

"Done! Now we wait for the birth of the dragon vein!"

"It's time to return home!"

"Let's go!"

Wang Xian left without looking at the dead silent aftermath of the bloodshed. His memories brought him back to the time when the Dragon Palace had been established and the killings that took place.

The scenes of countless lives being lost resurfaced in front of him.

For many rulers, the path to victory was paved by endless corpses.

Those who win get to have their noses up in the air, while those who lose will have their bodies buried six feet under.

"Haha, I found the spiritual energy waterfall!"

In less than half an hour, another group of martial artists was seen approaching the spiritual energy waterfall. As they looked at the waterfall, far-off in mid-air, their eyes became filled with anticipation.

They quickened their pace and moved swiftly towards the waterfall.

When they finally reached the foot of the mountain, their faces turned pale.

They stared at the horrifying scene and broke out in a cold sweat as terror struck them.

The place was filled with lifeless corpses!

At the same time, another group of menacing-looking experts was spotted in the air.

There were about thirty of them, each emitting an aura of terror and might.

They had no intention of hiding that they were a bunch of bashful and overbearing beings.

"Up ahead is the Yao Cauldron World. I wonder if any of the experts have arrived early."

"Start occupying the spiritual energy waterfall and move according to plan!"

As the booming voices sounded in the skies, another Nine Cauldron World's experts appeared.

The heyday of the Nine Cauldron Worlds was about to begin!

# Chapter 669: Join?

A flourishing age was about to begin!

Ka ka ka!

When Wang Xian was flying towards Mt. Taibai, a terrifying event was happening in the sky above Mt. Taibai.

Sounds of space cracking resounded, alerting all the martial artists who were cultivating.

It had been half a month since the battle on Mt. Taibai. At this moment, several hundreds of thousands of people were scattered densely across the mountain.

Among these hundreds of thousands of people, there was a large number of wealthy people and members of some clans that had just entered the Ancient Martial Arts world.

With several hundreds of thousands of people occupying this space, there were lots of people becoming martial artists or powerful Inborn experts each day!

Practicing martial arts could also strengthen one's body.

Once, many people didn't know how. With the spiritual energy waterfall falling on their bodies now, everyone could become a powerful martial artist!

"What's happening?"

The cracking sounds in the air stunned everyone below the spiritual energy waterfall. All of them lifted their heads while staring into the sky.

"Oh gosh!"

"What's happening? The sky is breaking up!"

"This... The space has been ripped apart!"

"What's the situation? What's happening!"

When the martial artists below the spiritual energy waterfall saw a crack that appeared across the sky suddenly, all of them were astonished. Some martial artists retreated in fear immediately.

In the blink of an eye, the entire region became chaotic.

Huh?

Xiao Xian, Lan Qingyue and the other three lifted their heads and squinted their eyes. Based on what Xiao Xian had said, the people from the Nine Cauldron Worlds must have arrived before the estimated date!

"Be careful!"

The five girls stared at the sky vigilantly.

Ka ka ka!

Before the astonished eyes of the crowd, a large crack was ripped open in the space above them.

The entire crack reached an astounding range of a hundred meters.

"Another sky. There's another sky on the other end!"

At this moment, an Inborn expert exclaimed loudly in shock.

From the crack in the space that was ripped open, they could see another world! This terrified a large number of people.

"What's really happening? Could it be that aliens are invading our world?" a young man mumbled while watching in astonishment.

"Is this one of the Nine Cauldron Worlds that Brother Wang Xian mentioned previously?"

Sui Huang and Xiao Quanshan exchanged glances before turning their attention to the crack.

"Someone has come out from the crack..."

Another exclamation reverberated as everyone's eyes couldn't help but constrict.

From the other world, another human had appeared.

"There are lots of them!"

A light flickered in Xiao Yu's eyes as he stared intensely at the people from one of the Nine Cauldron Worlds.

Haha!

After a peal of laughter, a man emerged from the crack on a sword. The spiritual sword made an arc in the air as he laughed loudly. "The new world! I'm finally here!"

"Flying on a sword? Is that an Immortal?"

Seeing the figure that flew out from the crack on a sword, many martial artists were astounded.

Swish swish swish!

At this moment, experts wearing green and white outfits flew out from the crack on their swords one after another.

Soon, there were close to four to five hundred people.

"The crack is healing. There are so many of them! Roughly five hundred!"

When Xiao Xian saw the martial artists that had arrived on their swords resembling immortals, she was astounded.

"They are finally here! I wonder what changes they will bring to the real world. No one could really know what this group of people will do!"

"Luckily, there aren't any Immortal Realm experts!"

Sun Lingxiu's eyes flickered as she looked at the group of people standing in the air.

Five hundred-odd people wasn't a small number.

Their green and white outfits fluttered in the wind and each of them stood proudly in the air.

"There are quite a number of people here! Are these the martial artists of the current Underworld?"

The first person who emerged from the crack made a circle while observing the new world with interest.

Below him, all the martial artists were silent as they stared blankly at him.

The five-hundred odd experts who were standing on their swords in the air looked around them. This was also their first time in this world.

"We are from the Huang Cauldron world. Get someone who can make a decision to speak to us!"

An old man looked down while standing on his spiritual sword and questioning in a solemn tone.

All the martial artists were taken aback and turned their attention to where Xiao Yu, Lan Qingyue, and the girls were at.

Everyone in the Underworld knew who they were and their status. They were the sister and women of the Dragon King.

They were also the strongest among them.

Feeling the gazes from the crowd of martial artists, Xiao Yu and the girls frowned slightly.

"We welcome everyone from the Nine Cauldron Worlds!"

Lan Qingyue took a step forward, clasped her right fist with her left palm and spoke with great composure.

"Eh? You know we are from the Nine Cauldrons Worlds?"

The young man who was flying on his sword steered his sword towards Lan

Qingyue, stopped roughly ten meters away, and asked curiously, "Are there people from the other Nine Cauldron Worlds that have appeared in this world?"

"They have not truly shown themselves. I believe you guys are the first batch that has come in such a big group to this world!" Lan Qingyue replied to the young man.

"You are the leader of them? Their ruler?"

The old man in the air moved and appeared beside the young man.

The surrounding martial artists around them that were on their swords looked around curiously while feeling a little overwhelmed.

In the end, all their attention fell on Lan Qingyue, Xiao Yu and the girls.

"We are from the Dragon Sect of the Underworld!" Lan Qingyue said to the old man while also observing the group of people before them.

There were roughly twenty people with strength that was equivalent to hers. As for the rest, they were all Dan Realm experts.

The old man, who was the only one in a golden outfit, made them feel a little wary.

His strength was well hidden and would at least be at the Half-step to Immortal Realm.

What made them feel a little more assured was that this group of people didn't seem to have come with a vengeance. In addition, none of them were acting as though they were high and mighty kings.

"Dragon Sect? It must be a powerful sect in the Underworld."

The old man looked across them before looking over to the surrounding crowd of martial artists. He was slightly surprised and commented, "We are from the Yellow Sky Immortal Sect of the Huang Cauldron world."

Ka ka ka!

Just as the old man finished his words, in the sky a short distance away, sounds of the space breaking could be heard again.

The old man frowned slightly. Those that had come with him were also frowning while their eyes turned as cold as ice.

"It must be those brats from the Primeval Chaos Immortal Sect!"

The young man beside the old man smirked and commented coldly.

The surrounding martial artists of the Underworld were taken aback as they revealed astounded expressions.

There were more people from the Huang Cauldron world that were arriving.

Ka ka!

A golden light appeared across the sky as figure after figure walked out from the crack. All of them lifted their heads arrogantly and were staring at the old man and the group that had arrived moments ago.

"Feng Jinqing, you guys sure are early!"

The golden ray faded gradually and a few hundred figures appeared in the air. They smiled at that old man and remarked plainly.

"You guys aren't too slow either!" the old man in the golden outfit replied emotionlessly.

"There's quite a number of people around!"

# Chapter 670: Xiao Yu's Battle (1)

Dressed in golden armor like a Heavenly General, the old man looked around with a smiling face.

Behind him were a few hundred people in golden armor too.

"Second Grandpa, according to the news we got, the current Underworld has completely gone downhill. But now, it doesn't seem to be that bad since there are a few hundred Inborn Experts!" said the young man beside the armored elder who was staring at the Martial Artists of the Underworld with eyes full of golden radiance.

"That's due to the spiritual energy waterfall. Half a month is good enough to undergo a complete change!"

The old armored man was also beaming with golden radiance in his eyes. He swept a gaze at the Martial Artists below. "Not bad. After cleansing, there will be many potential cultivators!"

"Who's in charge over here?"

The old armored man slightly lifted his head up, and his voice reverberated through the air.

"Guys, we're from Dragon Sect, and we call the shots here!"

Lan Qingyue cupped her fist once again to those experts that came out from the Huang Cauldron world.

"Hur? The in-charges are a few pretty girls. Dragon Sect? From now on, the Dragon Sect will join Primeval Chaos Immortal Sect and become our disciples," the old armored man said to Lan Qingyue in a domineering way.

"Jin Kunming, they belong to Yellow Sky Immortal Sect. You're too late! " the old man in golden clothing said to the old armored man coldly.

"Hur?"

Upon hearing the words, the old armored man darkened his expression. "Did you just say we're too late?"

"That's right!"

The old man in golden clothing nodded gently with a beaming face as he exchanged a glance with the other old man.

"We, the Dragon Sect, will not join any Immortal Sects!"

At this time, Xiao Yu lifted her eyebrows and answered upon hearing their conversation.

"Haha, Feng Jinqing. Did you hear that? They disagree with joining Yellow Sky Immortal Sect!"

Hearing what Xiao Yu said, the old armored man who was sulking burst out a clap of laughter.

"Stupid girl!"

The young man beside Feng Jinqing glared at Xiao Yu angrily.

"You're the stupid one! So dumb. Who says we're joining the Yellow Sky Immortal Sect?"

Xiao Yu returned that young man a death stare immediately.

"You need some teaching!"

Seeing Xiao Yu glaring at him, the young man pointed at her with slight embarrassment.

"You deserve a beating!"

Xiao Yu beckoned with her fingers without showing any feebleness. On top of that, her face was full of contempt.

"Haha, interesting. The wicked prince of the Huang Cauldron world is challenged by a lass from the real world. How embarrassing!"

At this time, the young man beside the old armored man, Jin Kunming, trolled the other young man.

"Jin Huiao, shut up, will you? If you're not convinced, you can spar with me!"

Upon hearing what Jin Huiao said, that young man was infuriated.

"Haha, I was not the one who said you deserve a beating!"

Jin Huiao raised an eyebrow and trolled him.

"Lass, don't assume that because you're a girl, I won't bully you. Wait till I teach you a lesson!"

That young man jumped, and his green robe and white shirt billowed without any wind. His long hair gave him the classic look of a handsome boy.

However, he was slightly furious.

"Idiot. Just a slight provocation and you're losing your cool!"

Seeing that the young man was staring daggers at her, Xiao Yu snorted.

Lan Qingyue, Sun Lingxiu, and the rest laughed but said nothing.

None of the people before them were Immortal-class. With the few of them around, they had nothing to be afraid of. Moreover, Xiao Xian would be back in no time.

They could still run!

"You...you..."

The young man was raging while Jin Huiao and some of the young men beside him were sneering at him.

"Lass, I'll make you kneel before me and beg for my mercy!"

"Just you alone?"

Xiao Yu rolled her eyes at him.

"Fine, prepare to receive my strike!"

The young man was boiling with anger. He had just arrived in the real world and was being ridiculed by a lass. To think he was the famous wicked prince in the Huang Cauldron world. Since when had anyone rolled their eyes at him?

With a swift movement, green radiance flashed, and the spiritual sword in his hand struck at a daunting speed.

"You really deserve a beating. Come and lick my shoes!"

Seeing that the young man struck at her, Xiao Yu pouted and went for it.

"This...The sister of the Dragon King and that young man are fighting it out!"

"The group of people standing in the air is too formidable. One might be in danger if they engage in a conflict!"

"Danger? Who knows how strong the Dragon King is? Besides, Princess Xiao Yu apparently knew about the Nine Cauldron Worlds. In my opinion, the Dragon King might not be scared of them!"

"That's right. There is no boundary to the Dragon King's strength. If they ever hurt Princess Xiao Yu, it'll be hard to know who the unlucky one is!"

The group of Martial Artists commented as they watched Xiao Yu dueling with the young man from the Huang Cauldron world.

The Dragon King had always made their jaws drop by killing all the different experts. Many of them were worshipping the Dragon King blindly.

So what if those people came from the space crack?

In the past, during the fight between the Dragon King, Nie Wushuang, and Emperor Qi, they also broke through the space.

"Tsk, what princess? She's not even fit to be a maidservant!"

Upon hearing the comments from below, the young man spoke scornfully, sending the sword in his hand towards Xiao Yu at a daunting speed.

"Someone with fair and tender skin like you could be a prince? You are the eunuch of the palace, right?"

There was a tinge of surprise flashing in Xiao Yu's eyes as soon as she saw the incoming spiritual sword. She quickly dodged to one side.

Bam!

The sword brushed across the black armor of Xiao Yu at a fast speed, leaving a faint white mark on it.

"Hur?"

"Hur?"

Xiao Yu was surprised by the speed of the spiritual sword, while the young man was taken aback by the body defense of Xiao Yu.

"Lass, how dare you say I'm a eunuch. It seems that I'll have to teach you a proper lesson today!"

A furious flame darted out from the eyes of that young man. He could imagine the sneering looks from those scumbags of Primeval Chaos Immortal Sect after the lass said he was a eunuch.

Feng Jinqing remained quiet as he watched the battle continuing between that young man and that girl.

Revealing that young man's strength to deter the Martial Artists of the real world was not a bad choice either.

"Wind leaves no trace, but a sword leaves a shadow!"

"Sword Shadow!"

The young man fixed his eyes on Xiao Yu, wielding the spiritual sword in his hand. Instantly, gusts of wind energy gathered around the spiritual sword.

Thousands of swords enveloped Xiao Yu.

"Sword Slash!"

Xiao Yu was looking stern as she swung her left arm, bringing out a colossal ivory shield. The other hand stuck the young man with a black sword!

Bam, Bam, Bam!

Thousands of swords left only faint marks on Xiao Yu's ivory shield despite them being Level 12 spiritual swords. Only mere white dots were left on the shield.

"What?"

There was a slight change in the young man's expression. He was stunned as his spiritual swords were unable to break through that ivory shield's defense. Seeing Xiao Yu sweeping in for an attack, he exclaimed loudly.

"Wind Blast!"

## Chapter 671: Xiao Yu's battle (2)

"Wind Blast"

The young man waved his arm and a strong gust of wind that covered over a thousand meters swept towards Xiao Yu!

The Wind Blast swept across like a tornado. Xiao Yu snorted and a pair of bone wings appeared behind her in the next instant.

The bone wings emitted a black glow as she flapped them lightly.

Xiao Yu was unmoved as she charged through the approaching Wind Blast and directly towards the young man.

"What? This witch is really strong!" the young man exclaimed in surprise once again. Shifting his palm, sword after sword flew out from his space ring.

Each sword emitted a dense green glow with layers of wind blade circling it.

Weapon set!

A set of spiritual equipment made up of nine separate swords! Moreover, every single sword was a powerful Level 12 spiritual sword!

"Ten pieces of Level 12 spiritual equipment! He's darned rich! The spiritual equipment on him definitely played a part in Feng Lingtian being the most demon-like talent in our Huang Cauldron world!"

"That girl isn't simple at all. From her looks, she's probably as old as Feng Lingtian. Yet, her strength is truly terrifying!"

"That girl has the strength of a Budding Realm expert and the spiritual equipment on her isn't simple either. That's a little beyond our expectation!"

"How can this be possible? Lingtian is the most outstanding talent in our Huang Cauldron world! Yet, he is on the losing end against another girl!"

Surrounding the battle, the crowd of people from the Huang Cauldron world looked on in shock at the battle between the young man and Xiao Yu.

The young man was the most demon-like talent in the entire Huang Cauldron world and the youngest son of their Immortal Sects. He had inherited the bloodline of his father.

He had reached the Budding Realm in his twenties and was undoubtedly the strongest among those at his age.

He was also considered by the disciples of Immortal Sects in Huang Cauldron world to be the most demon-like prince.

However, the most elite talent of their Huang Cauldron world was being pushed back by a girl in the real world where they had all believed the people were extremely weak.

To make things worse, the girl was roughly the age of Feng Lingtian!

Everyone was astonished, including Feng Jinqing, whose eyes were flickering.

"With your level of strength, what gives you the guts and confidence to call yourself young master and act arrogantly to me, your mom!?"

At this moment, Xiao Yu easily defended against the attacks from Feng Lingtian.

The bone wings behind her black flapped steadily and she held a bone sword in one hand and a shield with the other! Her defensive strength was insanely high.

Feng Lingtian's attack couldn't injure her in any way.

"YOU... This is what you are asking for! Saber Hurricane!"

Feng Lingtian was clearly embarrassed. He extended both of his arms and manipulated the ten pieces of Level 12 spiritual equipment to circulate around him.

"The body as the blade, slash!"

Boom!

Resembling a scale 10 hurricane, terrifying daggers of green-colored energy were forming rapidly around Feng Lingtian.

Green-colored energy gathered and formed into swords around him.

Spiritual swords and green wind blades that extended over a hundred meters surrounded the young man and rotated at an immense speed.

Wind attribute was easily one of the fastest among all elements.

Boom!

Following a series of bone-chilling whistles, the swords were launched towards Xiao Yu.

"I'll show you my true strength!"

Xiao Yu had gotten serious. She shook the longsword in her arms and the bone sword extended.

In an instant, the bone sword had turned into a black ivory whip that was several dozens of meters long.

Terrifying spikes that curved backwards were distributed throughout the ivory whip, making it look extremely gruesome.

Xiao Yu swung her arm down and the ivory whip was flicked towards the young man like an attacking viper!

The bone wings, bone shield, and even the ivory whip were part of Xiao Yu's body. Controlling them was extremely easy.

The ivory whip penetrated through the Saber Hurricane and wrapped towards Feng Lingtian.

"F\*ck!"

Feng Lingtian's face darkened upon seeing the attacking ivory whip. The next instant, he directed the Level 12 spiritual swords around him towards the whip.

Pa!

However, the ivory whip wrapped itself around each long sword and eventually around Feng Lingtian before he could even react to it.

"Tsk! Let's see if you still dare to fight with your mom!"

Xiao Yu pulled her arm back as she shouted. Feng Lingtian was extremely bitter. Just as he attempted to break free, the ivory whip extended even longer and had him completely subdued. His body flew towards Xiao Yu at a terrifying speed.

"Hey girl... Stop!"

Feng Jinqing was flabbergasted when he saw Feng Lingtian being trapped. He waved his arm and a wind blade slashed towards Xiao Yu.

Bam!

"It's just sparring!"

Sun Lingxiu swung his arms and a ray of light met the wind blade, neutralizing it.

Bam!

Having retracted her ivory whip, Xiao Yu stepped on Feng Lingtian's face as she asked, "Do you admit your defeat now!"

"YOU..."

A burning sensation cruised through his body as his face turned as dark as coal. He felt as though he had just been forced to eat shit.

Pa!

Xiao Yu waved her ivory whip which landed on his buttocks directly. At that moment, Feng Lingtian felt as though his flesh was split. Looking down at Feng Lingtian who was below her feet, Xiao Yu smirked and asked again, "Are you going to admit your defeat!?"

"Argh... YOU...!"

Feng Lingtian's expression changed drastically. He felt that his pants had

definitely split and there was definitely blood on his buttocks.

Moreover, he felt his face was completely swollen. This filled him with humiliation.

"Stop!"

Seeing that Sun Lingxiu stopped his attack, Feng Jinqing was slightly surprised.

When he witnessed Feng Lingtian being humiliated, the vibes around him changed and a terrifying explosion of aura erupted from him.

At that very moment, the color of the sky changed and the surrounding space seemed to have stopped.

There wasn't a single gust of wind and everything was silent!

Tsk!

Xiao Yu was shocked by the aura from the old man. She pulled back the ivory whip in her hands and mocked Feng Lingtian. "Coward! I look down on you. What kind of man are you if you are asking the elder in your family to stand up for you after losing to me!"

"You, you, you..."

Feng Lingtian was extremely bitter and stared at Xiao Yu. His eyes were full of indignance and anger.

"What are you looking at! If you've got the guts, let's go for a one-on-one battle again!"

Xiao Yu gave him a thumbs down with disdain.

"You have gone too far!"

Feng Lingtian almost threw up blood upon seeing Xiao Yu's expression. He was the demon-like prince of the Huang Cauldron world and yet he had not lost in the hands of a little brat in the real world.

Moreover, his face had been stepped on and his buttocks whipped by her. This...

His pride as a man was completely shattered!

Around them, members of the higher management of the Yellow Sky Immortal Sect were dumbfounded at the words of their prince. Their expressions were a great scene to witness.

However, while they were astonished, they were also shocked by Xiao Yu's strength.

Terrifying!

He wasn't called the most demon-like prince in the Huang Cauldron world for nothing. He was also the strongest disciple among the younger generation of the three Immortal Sects.

"I bully you and you are getting your elders?"

Xiao Yu lifted her head with contempt, making Feng Lingtian almost throw up blood from anger. He rubbed his face and still threw up after failing to keep it in.

"Haha! Great! Who would have expected this! Who would have expected these girls to possess such strength in the Underworld and to have established such a powerful Dragon Sect!"

At this moment, Jin Kunming's eyes lit up. He stared at Xiao Yu and said, "I represent the Immortal Realm Excellencies of our Primeval Chaos Immortal Sect. Join our Primeval Chaos Immortal Sect and I'll grant you girls three Elders' positions and a large amount of spiritual equipment and elixir pills.

"I'm sorry. We have said that we aren't going to join any Immortal Sect!"

Lan Qingyue looked across and shook her head at them.

"The Nine Cauldron Worlds will descend into the real world soon. The Immortal Sects will rule the world. There are things you can't control while being in the Underworld. Even if you don't wish to, you still have to accept it!"

Jin Kunming squinted his eyes as he looked at Lan Qingyue and the girls.

# Chapter 672: You Can't Have Your Will When You're In The Underworld

"There are things you can't control while being in the Underworld!"

After Jin Kunming finished, Jin Huiao beside him drew his lips. He sized those people up, including Xiao Yu and Lan Qingyue, with an unknown glimmer in his eyes.

"How many Budding Realm experts are there in Dragon Sect? Regardless of the number of Budding Realm experts you have, do you have any Immortals?"

"If you don't have Immortal experts, any non-Immortal Sects will be just ants after the Nine Cauldron worlds descend into the real world. Any Immortal Sect could annihilate you guys with just a lift of a finger!"

"Hence, your best choice is to join Primeval Chaos Immortal Sect!"

As he spoke, he swept his gaze across those Martial Artists of the Underworld.

"Those who have advanced to Inborn Realm are qualified to join Primeval Chaos Immortal Sect. Those who are not can become menial disciples."

"That's right, this is not an invitation, but..."

Jin Kunming opened his mouth while his hand took out a little golden bell. The bell slowly grew larger in size in his palm.

Boom!

The sound of the bell echoed, just like a clap of thunder.

"It's the Emperor's Bell!"

Feng Jinqing, at one side, revealed a shocked expression while he let out an

exclamation involuntarily.

"Emperor's Bell. Little did I expect them to bring the Emperor's Bell of Primeval Chaos Immortal Sect here."

"The Emperor's Bell is a compelling Spiritual Weapon of Immortal-class level. It can grow in size and emit golden radiance for a complete wipeout. Be it besieging or killing people, its strength is extremely daunting."

The disciples of Yellow Sky Immortal Sect were looking all stern as they stared at the golden bell with a surprised look!

Om!

The Emperor's Bell rose to the air, and grew to a size of a hundred meters, exuding domineering mightiness.

"From today onwards, the Dragon Sect members will join our Primeval Chaos Immortal Sect. Any objections?"

"You, Martial Artists of the Underworld, will join Primeval Chaos Immortal Sect. Any objections?"

The bright and clear voice reverberated across over a radius of ten kilometers, striking terror into every Martial Artist.

All of them had the impulse to worship the Emperor's Bell in the air.

"What a mighty power!"

"They are not even the strongest among the Immortal Sects. How scary could the Immortals they mentioned be such that we are ants if we don't join the Immortal Sect?"

"Is that the strength of an Immortal Sect? Can Dragon Sect resist it? This golden bell is too domineering. What a mighty power!"

The group of Martial Artists of the Underworld was aghast as they lifted their heads with difficulties. Their legs were even trembling.

Even an Inborn Expert could not directly gaze at that golden bell.

You can't have your will when you're in the Underworld!

All the experts of the Underworld had mixed expressions. If the nine powerful worlds were going to descend into the real world, they were only left with joining the Immortal Sect.

Staying out was impossible, as this was the Underworld!

"This is our first time being forced to join the Immortal Sect."

Lan Qingyue cast a gaze at the Emperor's Bell in the air before she turned to look at Jin Kunming with a slightly stern look.

"We have no choice!" Jin Kunming revealed a faint smile. "Before all the Immortal Sects arrive in the real world, we came out in advance to set our ground. Controlling some of the Underworld forces in the real world is our best choice!

"You can't have your will when you're in the Underworld, not even for the Immortal Sects. Thus, surrender to our Immortal Sect!"

After Jin Kunming finished his overbearing speech, all the experts from Primeval Chaos Immortal Sect moved under the Emperor's Bell.

Close to thirty domineering Budding Realms were shrouded under the dazzling golden radiance of the Emperor's Bell. As they exuded their god-like mightiness, they looked as though they were the golden guards and generals from Heaven.

Under the Emperor's Bell, their strength received a significant boost.

"We're too late!"

Feng Jinqing was looking dreadful at one side.

Their most wicked disciple in the Immortal Sect had lost to a girl, undermining the reputation of the Yellow Sky Immortal Sect.

And now, the Primeval Chaos Immortal Sect had established an invincible

prestige with the help of the mighty Emperor's Bell.

The Dragon Sect might just join the Primeval Chaos Immortal Sect too!

"Lass, join the Yellow Sky Immortal Sect, and you'll get enough benefits!"

Feng Lingtian darkened his expression once he realized the problem. Thus, he growled at Xiao Yu with a low voice.

"Join a loser like you?"

Xiao Yu slightly lifted her head and sneered at Feng Lingtian.

"You..."

Seeing her expression, Feng Lingtian almost wanted to vomit blood!

"It's true that you can't have your will in the Underworld. But dragons can roar through the sky in the Underworld!" said Lan Qingyue as she stared at the old man with a broad smile.

"Hur? So you're saying you want to rule the world?"

Jin Kunming narrowed his eyes as he stared at Lan Qingyue.

Those Budding Realm experts from Primeval Chaos Immortal Sect on the top glared at Lan Qingyue. A domineering god-like mightiness enveloped her immediately.

With a change in her expression, grey energy rose from Lan Qingyue.

"I'll give you one last chance!"

Jin Kunming continued to fix his expressionless eyes on Lan Qingyue.

If the Dragon Sect agreed to join, that would be the best. Otherwise, it did not matter. They wanted to build their prestige and god-like reputation.

It was not a bad idea to use them as an example to forewarn the rest.

Sss...

All the experts below revealed stern looks.

All of them could tell what Jin Kunming was trying to do. Their expressions were extremely complicated.

"I don't think Dragon King could beat the mightiness exuded by the huge golden bell in the air!"

"Plus thirty domineering Budding Realm experts. I guess the Dragon Sect is in trouble this time..."

At this time, all the Martial Artists of the Underworld had cold feet.

These people before them were invincible!

Lan Qingyue, Sun Lingxiu, Adjaya, Xiao Yu, and Elder Fang were looking dreadful.

Without the presence of that terrifying Emperor's Bell, they would have had the confidence of breaking through the siege. But that Emperor's Bell of Level 13 was much scarier than the Level 13 truncheon in Adjaya's hand.

"Hur?"

At this time, Xiao Yu sensed something. She quickly gazed off and exhibited a smile, "Brother is back!"

"Hur?"

Lan Qingyue and the rest were slightly stunned as they spun around and heaved a sigh of relief. Smiles surfaced on their faces.

"Oh really? More and more people came from the Nine Cauldron Worlds!"

Wang Xian had rushed over here from Guta Mountain Range. Seeing the Emperor's Bell that was emitting god-like mightiness above Mt. Taibai, he let out a sigh. Cold radiance flashed in his eyes.

"I have never provoked anyone from the Nine Cauldrons' Worlds. But if people from these worlds provoke me, don't blame me for it!"

Wang Xian's eyes were getting colder as he hovered to Lan Qingyue and Xiao Yu at a rapid speed.

"Who are you?" Jin Kunming shouted coldly when he saw Wang Xian and a group of dragonians flying over. He narrowed his eyes slightly.

Wang Xian took a glance at him and ignored him. Seeing that Lan Qingyue was shrouded within the mightiness of the golden bell, murderous intent flashed in his eyes.

"A really good saying you've got. You can't have your will when you're in the Underworld. I don't wish to kill, but people just want to dig their own graves!

"I'm killing you guys!"

Wang Xian's cold voice echoed!

# Chapter 673: Peerless In The World

"I'm killing you guys!"

When Wang Xian's voice reverberated across, the hundreds of thousands of martial artists from the Underworld gasped.

They looked to the sky instantly. When they saw that familiar figure, their eyes lit up.

"The Dragon King is still the Dragon King! He's still as domineering and fearless in the face of strong enemies!"

The crowd of martial artists from the Underworld couldn't help but be impressed.

"A guy courting his own death!"

Upon hearing Wang Xian, killing intent flashed across Jin Kunming's eyes as he stared harshly at Wang Xian.

"This is...?"

The group of experts from the Yellow Sky Immortal Sect stared at Wang Xian in astonishment.

Who is he? What gives him the guts to be so arrogant?

Wang Xian's cold gaze swept across the surrounding crowd and eventually landed on Lan Qingyue, Xiao Yu and the girls. He asked, "What's the matter?"

"Brother, they are forcing our Dragon Sect to join the Primeval Chaos Immortal Sect. If we don't agree, they are going to annihilate us!"

Xiao Yu pointed at Jin Kunming and the group while speaking with anger.

"Nine Budding Realm experts and a group of Dan Realm experts. It's not surprising that you are so arrogant and haughty!"

Jin Huiao stared harshly at Wang Xian and remarked, "It seems like you guys aren't willing to join our Primeval Chaos Immortal Sect!"

Wang Xian turned around gradually and his gaze fell on the group from the Primeval Chaos Immortal Sect. He said, "I'll give you guys two options too right now. Get down on your knees now or die!"

Hahahaha!

Upon hearing Wang Xian, Jin Huiao couldn't help but burst into laughter. "Brat, what the hell are you saying?"

"What am I saying?"

Wang Xian's eyes flickered while staring at Jin Huiao. He waved his arm and a water rope appeared around his neck all of a sudden.

Jin Huiao was astonished. Even Jin Kunming, who was standing by the side, was taken aback as his pupils constricted unconsciously.

"Slash!"

Jin Kunming lifted his palm and slashed down on the water rope.

Wang Xian wasn't bothered at all. The water rope glowed in brilliant blue light. Wang Xian gave it a tug and Jin Huiao was pulled towards him directly.

"What?"

Jin Huiao was flabbergasted as he released dense golden rays from his body!

Bam!

However, at this instant, a short figure flashed across everyone's eyes.

The skull exploded and fresh blood splattered everywhere!

"Darned piece of shit! You won't have to know what our Dragon King is saying ever again!"

Dragon Spirit held a dagger in his hand and his emotionless voice resounded.

Boom!

When Jin Huiao was killed directly, the group from the Primeval Chaos Immortal Sect was instantly roused.

"How dare you kill the people from our Primeval Chaos Immortal Sect? You guys are definitely going to die!"

Jin Kunming's expression was a little contorted from anger as he growled.

His angry roar reverberated throughout the surrounding ten kilometers!

"It seems like you guys are choosing the second option. In that case, just die!"

Wang Xian lifted his arm and five flying swords flew out of his space ring instantly.

"Haha! Kill!"

Behind him, the group of dragonians moved and charged towards the experts from the Primeval Chaos Immortal Sect directly.

"Kill them!"

Witnessing Wang Xian and the group's overbearing actions, Jin Kunming shouted angrily.

He lifted both of his hands and the Emperor's Bell glowed dazzlingly under his control.

"Asking my Dragon Sect to join your Immortal Sect? Is your Primeval Chaos Immortal Sect qualified?"

Wang Xian stared at Jin Yuankun. Moving his hand slightly, five Level 12 spiritual swords attacked suddenly.

Layers of ripples were formed over the five spiritual swords.

This was the Tier Blade technique. Under the frightening control ability of Wang Xian, the Tier Blade technique could reach several tens of tiers.

In other words, a single attack would damage one several tens of times.

Boom!

At this instant, the golden light in the sky illuminated the entire space. Terrifying sounds carried immense golden-colored energy and swept towards Wang Xian.

"Level 13 spiritual equipment! How well could you utilize the strength in it!"

Contempt filled Wang Xian's eyes. He flexed his body and a ball of water energy instantly surrounded the Emperor's Bell.

The water energy was pumped under the impact of the golden-colored energy.

However, the golden rays weren't able to penetrate the water energy.

"This isn't possible! This is spiritual equipment used by an Immortal!"

Jin Kunming was at a loss of words when he saw Wang Xian instantly stopping the attack of the Emperor's Bell. With a horrified expression, he stared at Wang Xian.

"You are... You are an Immort..."

Swish swish swish!

However, at this instant, five spiritual swords landed on the golden defensive outfit on him. The spiritual swords penetrated through his body easily.

"...al..."

Jin Kunming's eyes widened with disbelief and indignance as his jaw dropped!

Unable to put up any resistance! He was killed instantly without even being able to put up any forms of resistance!

"Sword Explosion!"

Wang Xian turned around, manipulated the five spiritual swords to stick together and surrounded them with the blue-colored ball of light.

Boom!

A thousand-meter longsword slashed across the experts from the Primeval Chaos Immortal Sect.

"Shit! Stop it! Stop it!"

Thirty Budding Realm experts from the Primeval Chaos Immortal Sect were completely scared out of their wits as some of them screamed.

Layer after layer of golden doors appeared before them.

"Explode!" Wang Xian shouted. Several thousand-meter longswords exploded, transforming into countless water swords that were only a meter long and launched towards the group of Budding Realm experts.

The five pieces of spiritual equipment were the fiercest weapons! As they slashed across, they severed the head of Budding Realm expert after Budding Realm expert.

Argh!

Thirty Budding Realm experts were dying at a frightening speed.

Experts were like dogs and easily slaughtered!

Around them, the dragonians emitted a pungent smell of blood as they charged ahead for the kill.

Gulp!

"Immortal..."

Feng Jinqing's eyes widened, and he stood on the spot and stared at Wang Xian in horror. His body was shivering a little from fear.

Everything was like an ant before an Immortal. Only an Immortal would be an extraordinary existence!

However, they would have never expected this young man to be an Immortal.

To their astonishment, the leader of the Dragon Sect was an Immortal!

There is an Immortal Realm existence in the real world?

The other people from the Yellow Sky Immortal Sect around him could also feel their scalps going numb.

Budding Realm experts were dying with just a wave of his hand. If he wasn't at the Immortal Realm, who would be?

"The Dragon King is invincible..."

"The Dragon King is awesome..."

The crowd of martial artists from the Underworld below the battle was completely stunned. Their eyes widened and were filled with admiration and shock.

Once again, the Dragon King had easily annihilated experts whom they had thought were invincible.

Some martial artists even wanted to go on their knees and pray to Wang Xian. Too strong! He's truly peerless in the world!

"The brother of that brat is an Immortal Realm existence just like my father!"

Feng Lingtian's expression darkened and his legs went soft. He felt extremely bitter and embarrassed.

Weng!

Wang Xian waved his arm again and the Emperor's Bell shrank gradually under his control. In the end, the Emperor's Bell landed in Wang Xian's hand.

Wang Xian turned it in his hand before looking to the remaining group of people from the Yellow Sky Immortal Sect.

"Were they involved in this previously?"

Sss!

Upon hearing Wang Xian, everyone in the Yellow Sky Immortal Sect couldn't help but take a step back in fear.

Feng Jinqing's lips trembled as he said, "Your Excellency, we..."

"Brother, that brat was fighting with me a while ago but called upon his elder when he couldn't win. Help me watch out for the rest while I spar with him again!"

Before Feng Jinqing could finish his words, Xiao Yu pointed at Feng Lingtian and was eager to fight again.

# Chapter 674: Opportunity For Marine Creatures

When Feng Lingtian heard what Xiao Yu said, he flared!

His facial expression switched from fiery redness to a pale-looking color.

He stared at Xiao Yu, gritted his teeth, and could not help but rage.

"Let me tell you, lass! I'm ready to fight!"

Feng Lingtian raised the spiritual sword in his hand and bellowed angrily.

"Fine!"

Xiao Yu narrowed her eyes and cracked her ivory whip before she observed Feng Lingtian with ill-intentions.

"I tell you, don't...", Feng Lingtian said with mixed expression. "Don't attack my face and butt!"

"Hehe, isn't this the wicked prince from Huang Cauldron world? Why is he acting like a coward now?"

Xiao Yu made a swift move and flicked her ivory whip at him.

Feng Lingtian was aghast as he hurriedly lifted his spiritual sword to block the incoming attack.

Pak!

However, whips were not weapons that could be countered by usual weapons.

Whips focused on twining and whipping. The spiritual sword was totally ineffective when it came to defending against whips.

"Wind Swords Circulating Shield!"

Seeing that his weapon got wrapped around by the whip, Feng Lingtian released his sword while another nine spiritual swords surfaced beside him.

When the nine spiritual swords spun in his surroundings at rapid speed, it formed a wind shield for defense!

"Hmph, do you think you can defend against it?"

Xiao Yu snorted, and the tip of the ivory whip wriggled like a poisonous snake, darting straight at the spiritual swords.

Xiao Yu's bones were far more compelling than any Level 12 Spiritual Weapon, which were overkill for her opponents of the same level regardless of defense or attack.

"Damn!"

The ivory whip wriggled through the wind shields and attempted to wrap around Feng Lingtian's body.

He could not help but let out a scream as he staggered back to dodge it.

Pak!

However, at this time, the ivory whip transformed into devilish shadows, aiming for his butt area.

"I said, don't hit that place!" Feng Lingtian growled furiously.

"Hmph!"

Without a change in her expression, Xiao Yu flicked her whip again, aiming for his back.

"Darn!"

Feng Lingtian was in an embarrassing state. With a stagger, he immediately ran away and hid.

"Do you think you can run away from me?" Xiao Yu asked sarcastically.

"Try chasing me!"

Feng Lingtian gritted his teeth. As he moved, wind-like shadows surrounded him as he flitted away,

Xiao Yu remained unwavering. She swung her arm and swept out her ivory whip.

"Trying to catch up with me? That's impossible!"

Feng Lingtian ground his teeth with more and more shadows appearing around him. Instantly, a few hundred shadows were all over the place!

"Hur?"

Xiao Yu was slightly stunned as she swept her whip at one of the shadows.

The figure could not dodge it in time, and vanished under her whip!

"Shadow Drift is a battle technique developed by my father for fleeing. It's impossible to catch up with me!" Feng Lingtian called out as he drifted again with figures covering more than ten kilometers.

"Oh really?"

Xiao Yu did not believe his words. She moved her hand, and her whip flicked even harder at those figures.

After she struck down more than ten figures, he was still nowhere to be seen.

Seeing Xiao Yu getting anxious, Feng Lingtian was even more proud than ever. "Haha, I told you so. I am formidable. You'll never be able to catch up with me!"

"You..." Xiao Yu was agitated. "Brother, do you have any item to track this fellow down?"

Wang Xian slightly paused when he heard Xiao Yu. With a smile on his face, he swung his arms and tossed a Level 12 Water Dragon Ball to her.

"Brother? How do I use this?" asked Xiao Yu inquisitively.

Roar!

At this time, a roar was heard from the Dragon Ball.

The Dragon Ball transformed into a ten-meter Marine Divine Dragon while he roared into the sky.

Dark clouds gathered instantly in the sky as rain began to fall.

"Hur?"

Xiao Yu was slightly stunned as she saw the rainwater passing through all of Feng Lingtian's virtual shadows, which were wind-attributed. A cold smile surfaced on her face.

"Now, let's see where you can hide!"

"You cheat! You called upon your guardian!"

Upon seeing such a situation, Feng Lingtian was horrified as he exclaimed.

"We took turns. Now it's fair!"

There was slyness in Xiao Yu's eyes as she waved her ivory whip around. Each flick of her whip landed on Feng Lingtian.

"This..."

The people from Yellow Sky Immortal Sect below the mountain twitched their lips. All of them were dumbfounded.

The wicked prince of the Huang Cauldron world was getting whipped by a girl in the real world!

And he had no means to resist it.

His entire body swelled by two times, losing all its previous chic.

He was the son of an Immortal, a supreme talent of Huang Cauldron!

"This might turn out to be a good thing!"

Feng Jinqing threw a glance at Wang Xian and heaved a sigh of relief instead. A smile surfaced on his face.

The beating that Feng Lingtian took might help them to avoid a crisis.

Upon hearing the shrieks from the surroundings, Wang Xian shook his head with a grin.

Since when did Xiao Yu have such a hobby? This was the first time he'd seen this.

The rest of the girls, including Lan Qingyue, were smiling from ear to ear.

"Dragon King, we got a message from the dragonians. There is another spiritual energy waterfall from the sky not far away from our Dragon Palace!"

At this time, Mo Qinglong appeared beside Wang Xian and reported to him.

"There's a spiritual energy waterfall in the sea?"

Wang Xian froze for a moment before radiance flashed in his eyes.

"Yes!" Mo Qinglong nodded.

"Great!"

There was a tinge of excitement in Wang Xian's eyes. With a spiritual energy waterfall in the ocean, this might be an excellent resource for the entire Dragon Palace and marine race!

"Qingyue, Lingxiu, Adjaya, Elder Fang, we'll be leaving soon!"

"Are you guys going back?"

Wang Xian nodded with force as he swept his glance at those people from Yellow Sky Immortal Sect. He drew his lips slightly. "Another spiritual energy waterfall emerged from the sea. This could be a great advantage for the marine creatures. We will need to start planning for the Dragon Palace too!"

"Xiao Yu, we're heading back!"

Wang Xian shouted to Xiao Yu, who was in the air, whipping Feng Lingtian with excitement.

"Yes, brother!"

Xiao Yu nodded and snorted coldly. "I'll bash you up whenever I see you next time so you can remember my prowess!"

Feng Lingtian gritted his teeth as he trembled. Seeing his swollen body, tears welled up in his eyes!

For the first time, he'd been beaten so badly!

"Just you wait! I'll take revenge!"

Feng Lingtian lowered his head with determination as he clenched his fist.

"Hehe!"

Xiao Yu chuckled with contempt. She flitted to Wang Xian and grinned.

"The Nine Cauldron Worlds will soon descend. In the future, the Immortal Sects will dominate the entire Underworld. Since the Underworld forces are weak, you can join any Immortal Sects for protection. Practice hard from now on!"

Wang Xian looked around at the Martial Artists of the Underworld and reminded them!

As soon as he finished his words, he nodded to Sui Clan and Xiao Clan before he hovered away.

Behind him, Xiao Yu, Lan Qingyue, and the rest of the Dragon Sect members followed.

Wang Xian had to make full use of this opportunity for the marine creatures!

# Chapter 675: The Dolphin Princess

## (1)

The sea was vast and boundaryless with ample resources.

In the legends, there were various immortal islands where the immortals would live.

Since ancient times, the sea was always filled with mysteries and attractions.

On this very day, a pink yacht was steering on the sea without any particular destination.

Melodious musical notes sounded and lingered in the surroundings, creating a perfect symphony with the sounds of the waves.

At the edge of the pink yacht, a young girl in a white dull dress was standing on the deck on the second floor.

Before her, a beautiful zither was placed.

As melodious music sounded from her zither, she looked at the surroundings of the yacht with radiant smiles.

Around her, several hundreds of dolphins were following the yacht. From time to time, dolphins would leap out from the water and look in the direction where the girl was.

"Since our missy rescued this pod of dolphins from the herd of tiger whales, they have been following our missy. Furthermore, the pod of dolphins has grown to over a few hundred!"

"Look! There are pink and white dolphins! They are simply too cute and beautiful!"

"Those are pink bottlenose dolphins while the white dolphins are the Indo-Pacific humpback dolphins. Both species are relatively rare dolphins!"

"These dolphins know about gratitude and have been following our missy. Moreover, they will jump out of the water from time to time to see our missy from a distance. They are really cute!"

On the lower deck, a group of four to five girls stood looking exhilaratingly at these dolphins.

Swoosh~

At this moment, a pink dolphin jumped out of the sea beside the yacht.

The two-meter dolphin jumped over a height of a dozen meters towards the girl on the second level.

Ding ding

The notes from the zither stopped suddenly as the girl was surprised to see the pink bottlenose dolphin.

It had jumped over a dozen meters to come to the side of that girl.

The girl flicked the zither lightly and a ball of seawater surrounded the dolphin and suspended before her.

Weng weng!

The pink bottlenose dolphin opened its mouth and a unique voice came from it.

"Huh? What did you say? You are bringing me to a place?"

The girl looked at the pink bottlenose dolphin with surprise as she extended her hand over to touch its head.

Weng weng!

Dolphins communicated through soundwaves. However, at this very moment, it seemed capable of expressing something. It was extremely amazing.

The girl was also taken aback. A dolphin jumping over a dozen meters high and even talking to her? That was truly strange.

"Follow you?"

Hearing the voice, the girl was shocked.

The dolphin nodded its head brightly and wiggled its pectoral fins, signaling its desire to land.

The girl nodded, flicked her fingers lightly on the zither and sent the dolphin into the sea.

Weng weng!

Several pink bottlenose dolphins and Indo-Pacific humpback dolphins in the sea looked towards her before swimming in a direction next to the yacht.

Several hundreds of dolphins were leading at the front.

"Follow the pod of dolphins!"

The melodious voice of the girl was conveyed to the lower deck.

"Yes, missy!"

On the lower deck, the female servants responded immediately. They steered the yacht and followed behind the pod of dolphins.

How are these dolphins so smart? How did I understand a little about the soundwaves they emitted? Moreover, what's their purpose of asking me to follow them?

The girl in the white dress was astounded. If Wang Xian were here, he would definitely recognize her.

Tang Yinxuan from the Heavenly Sound Sect.

However, since the Heavenly Sound Sect had been annihilated, Tang Yinxuan had returned home and kept herself distanced from the matters of the Underworld.

Even when the spiritual energy waterfall appeared in the Underworld, she didn't think about exploiting this opportunity.

As she was feeling bored about her dry life, she brought a few female servants with her to the sea to relax.

Several days ago, she had saved a pod of dolphins from a herd of tiger whales. After curing them of their injuries, this pod of dolphins had been following her.

Moreover, what truly shocked her was that this pod of dolphins was extremely intelligent. In fact, one could even say that they were rather strong.

To be able to jump a dozen-odd meters in a single leap! That was not any weaker than a Level 4 or 5 martial artist!

"These dolphins know about gratitude and are pure and cute. I can spend some time in the sea with them!"

Tang Yinxuan showed a faint smile, placed both of her hands on the zither and started playing. Melodious musical notes could be heard once again.

Weng weng!

At this moment, the dolphins in the sea seemed to be responding. This cheered Tang Yinxuan up.

However, what she didn't notice was that when the group of dolphins made their sounds, the surrounding water was changing and moving in the opposite direction of before.

Dolphins were the smartest creatures in the sea. The dolphins in the vicinity of the Dragon Palace had learnt about cultivation after being through a session of Dao preaching.

In fact, some unique dolphins with great chance encounters had already become rather strong.

The entire sea had started to change a little after the Dragon King preached Dao to the marine creatures.

Eh?

At this moment, Tang Yinxuan suddenly felt a gush of spiritual energy. She lifted

her head slightly, looked ahead and was filled with surprise.

In the air some distance away, white-colored spiritual energy fell from the sky. Snow-white energy was falling on an island.

The entire sea island was completely shrouded in the spiritual energy waterfall. In fact, in some areas, the water shrouded in the spiritual energy waterfall was a few thousand meters away from the island.

The entire region was just like an immortal region on the sea or the immortal islands in the legends.

"This... This is a spiritual energy waterfall! There's a spiritual energy waterfall here!"

Tang Yinxuan's jaw dropped slightly as she revealed an exquisite look of shock!

Weng weng!

At this moment, she could hear the voices of several dolphins. Several pink bottlenose dolphins had turned around and were facing her.

"I'll be heading over now!"

Tang Yinxuan hesitated for a few seconds before grabbing her zither, jumping off and diving towards the sea.

Weng weng!

A dolphin exposed its back and the intention was clear.

Tang Yinxuan chuckled, landed on it and said, "Thank you, cutie!"

Weng weng!

A joyous voice came from the dolphin below her. Several hundred dolphins led Tang Yinxuan towards the spiritual energy waterfall.

Once they entered the region shrouded in the spiritual energy waterfall, the pod of dolphins was in ecstasy.

Weng weng!

At this moment, Tang Yinxuan realized that there were several hundred additional dolphins around this region.

Several pink bottlenose dolphins and the Indo-Pacific humpback dolphin seemed to see her as their leader as they surrounded her.

Weng weng!

"You are asking me to dive down with you?"

Weng weng!

"Alright, lead me down then!"

Gulp!

Two pink dolphins swam to the sides of Tang Yinxuan. Suddenly, they released a bubble from their mouths that surrounded Tang Yinxuan's head.

"I'm good. Let me do it myself!"

Tang Yinxuan chuckled upon witnessing it. She had practiced water attribute cultivation arts after all. She would be fine even if she dived into the sea for several days.

Seeing the cute dolphins surrounding her, Tang Yinxuan felt extremely light-hearted.

Spending time with simple creatures like them could help her forget any worries or displeasure!!

# Chapter 676: The Dolphin Princess

## (2)

"There are actually mountain ranges under the sea, and the spiritual energy waterfall is pouring into them!"

"Many underwater creatures are gathered around here too!"

Tang Yinxuan came to the bottom of the sea as she surveyed the surroundings with a face of surprise. There were all kinds of marine creatures rushing toward the spiritual energy waterfall.

The marine creatures, after Enlightenment, came close to the spiritual energy waterfall out of instinct.

Buzz!

More than four hundred dolphins swam around and gathered at a mountain in the sea.

These dolphins surrounded her in the center. To Tang Yinxuan's surprise, these dolphins began to cultivate.

That's right. Cultivate!

She could sense the dolphins guiding the Spiritual Energy into their bodies. Most surprising of all, all the dolphins gathered and released an ultrasonic wave that contained a unique kind of energy.

This energy guided Spiritual Energy into their bodies.

Instantly, a vast amount of energy entered their bodies.

Tang Yinxuan was dumbfounded as she quickly looked to another side.

She noticed many marine creatures were cultivating, absorbing the Spiritual Energy.

This was shocking to her. Did the living creatures in the sea know anything about the Art of Cultivation?

Sensing Spiritual Energy was circulating around her, Tang Yinxuan set aside her curiosity and sat beside the dolphins.

All the dolphins were packed together while she sat on top, just like a Dolphin Princess.

She sat cross-legged and began her cultivation.

The spiritual energy waterfall was an ultimate chance encounter.

Ding ding!

Suddenly, the zither beside her let out a crisp and clear sound. She opened her eyes, feeling stunned. She sensed ultrasonic waves rippling above her, forming a special kind of control power.

Sound had power too. Even though it was not part of the nine attributes, sound could kill.

Heavenly Sound Sect only knew a little about the use of sound. The rest was dependant on attributes.

Take Tang Yinxuan, for instance. She was water-attributed, combining water energy with sound as a means of combat. But the true combat capability still came from water energy.

The sound only played the role of interference.

However, the sound that the dolphins gave off could affect physical items, albeit small.

She seemed to have some understanding as she placed her hands on the zither, playing special music that merged with the sonic waves of the dolphins.

Instantly, Tang Yinxuan and the dolphins' speed of absorbing Spiritual Energy sharply increased.

Bouts of Spiritual Energy swamped their bodies.

Their cultivation levels were boosted at a frenzied speed.

After some time, she sensed a fierce aura around her as ferocious sharks swam over to her.

The pod of dolphins panicked while Tang Yinxuan remained unwavering. She closed her eyes and placed both hands on the zither, striking the incoming sharks with water ripples.

Growl!

The pod of sharks scattered in horror.

The dolphins let out a thrilling sound as they looked up at Tang Yinxuan before they continued their cultivation.

Boom boom!

Not knowing how much time had passed, one could hear battling coming from above while a terrifying aura spread out, striking fear into some marine creatures.

Tang Yinxuan sensed the domineering aura and had a slight change in her expression. "Luckily I got them to leave first, or else..."

She let out a sigh of relief and continued her practice.

At this time, a few thousand people were gathering around the middle of the spiritual energy waterfall.

Fifty-odd middle-aged and old men in peculiar clothes stood at the center of an island while white-colored Spiritual Energy fell upon them.

Hiak hiak!

Right in the middle was an elder with a grey poisonous snake coiling around his neck.

The viper stuck out its bloody-red tongue that was half-meter long while the old

man revealed a sinister smile as he stuck out his tongue too. His tongue was also of equal length as the viper and looked horrible.

The old man then licked the tongue of the viper with his tongue. The scene looked extremely creepy.

Beside him, more than hundreds of corpses were lying around on the floor. He craned up and stared at the spiritual energy waterfall, rolling his tongue. "This chance encounter belongs to the Creepy Snake Group. Don't think you can occupy it!"

"Da She, you had your chance encounter in China earlier on. Now? Haha, you don't even dare to set foot there!" An old man who was wearing a red metallic mask, with a red coat, spoke with a sarcastic voice. "This is not solely your chance encounter!"

"Hiak, Alieyan, you can go to China and have a taste yourself!"

"Both of you stop it! The three forces will divide this place equally. Any objections?"

At this time, a sharp woman's voice came from opposite the old man with a metallic mask.

This woman was wearing extremely revealing clothes, exposing her baby skin. She looked extremely bewitching.

The frightening things were her heads. She had two, one of which was extremely ugly, and the other one was gorgeous!

"Dual-Head Yan Mei, you need to ask Da She if he has any objections!" said the old man with the red mask.

"I want the spot at the bottom of the sea. Who dares to fight with me for it shall die!"

Da She twisted his body like a snake as he rose into the air.

"My people, grab this opportunity and begin your cultivation!"

He let out a sharp voice.

Whoo!

As soon as he finished his sentence, the sea snakes suddenly sprang out of the sea.

Each of them was about three meters long, with shirtless people sitting on them.

There were mixed genders, and their bodies were wound by snakes.

Almost five hundred people filled the entire region!

"Five hundred Creepy Snake palace guards trying to take over the marine region? Wouldn't that be a waste?"

A flame rose from the head of that red-masked elder. The flame formed a human figure, staring at Da She with a pair of blazing eyes.

"Not at all. Hiak. You can also get your guys to cultivate with my men in the water too. It doesn't matter!"

Da She wetted his lips. With a swift movement, he came to the sea right beside the island. With his triangular eyes, he stared at the red-masked elder and dual-headed woman. "I welcome you to join me down here!"

"Hehe!"

A flick of flame flashed on Alieyan's mask as he turned to the dual-headed woman. "Let's take the center as the dividing line, and we'll each occupy half!"

"Fine!"

Once the three domineering forces finished their negotiations, they sat cross-legged and began their cultivation immediately.

"They didn't fight!"

"Not so fast. We just made a huge commotion. Someone will be here soon. Even if there's no one, we can surely attract those Immortal-class beings in the sea!"

"Haha, I hope they fight. How wonderful to have Immortal-class corpses!"

The group of people did not realize two pairs of bloodshot eyes were staring at them from above.

Their eyes were filled with blood and appeared maniacal.

The spiritual energy waterfall was an ultimate chance encounter to the cultivators in the real world. Similarly, it was an excellent chance encounter for the Yu Cauldron world too.

However, it was a terrible catastrophe to Tang Yinxuan and the marine creatures in the ocean!

# Chapter 677: The Premature Deaths Of Marine Race

Whoosh!

At this moment, savage aura diffused into the sea below the spiritual energy waterfall and alerted the marine creatures in the surroundings who were cultivating.

More than five hundred members of the Creepy Snake Group rode on sea snakes into the sea.

Their eyes were locked on the densely populated sea creatures in the surroundings but they did not make a move.

"Master!"

At this moment, the crowd of Creepy Snake Group members greeted respectfully as Da She entered into the sea while flicking his long tongue.

Despite being in the sea, their voices weren't affected.

"Hehe! There are so many marine creatures around!" Da She commented plainly.

The eyes of the grey poison snake lit up a red light. It moved and charged towards the marine creatures around to devour them.

When it opened its mouth, the seemingly average-size mouth could surprisingly extend to two to three meters. Its mouth looked just like a bottomless pit.

"Hehe! They have absorbed some spiritual energy. My baby is going to get a sumptuous meal!"

Da She was pleasantly surprised as he looked across the densely packed marine creatures around him.

"Yes, master!"

Members of the Creepy Snake Group made creepy smiles and patted the bodies of the sea snakes below them.

The next moment, these snakes charged towards the surrounding marine creatures and started devouring them.

They were terrifyingly quick. Not a single sea snake out of the hundreds was weaker than the Inborn Realm.

And the martial artists that were on the sea snakes were similarly not any weaker than the Inborn Realm.

Swish swish swish!

The sea snakes attacked various marine creatures at a frenzied pace. This resulted in all the creatures in the region fleeing away in fear.

Huh?

At this very moment, Tang Yinxuan, who was cultivating, was alarmed. She opened her eyes right away and looked in shock in the direction before her.

"Shit!"

Seeing countless marine creatures fleeing frantically, her expression changed drastically!

"Get out of here! Quick!"

She stood up and shouted at the surrounding dolphins right away.

The pod of dolphins had also picked up the scent of blood as they wiggled their bodies frantically.

"Run!"

Tang Yinxuan moved her fingers across the zither to make a rushed note that was transmitted to the dolphins.

Each dolphin turned around immediately and fled in the opposite direction.

Grrr!

However, she suddenly heard a scream and a sea snake appeared before them.

A naked middle-aged man was sitting on the sea snake.

"Oh! There's a beautiful lady here too! Hehe! Who would have expected a beautiful lady to be cultivating here!"

"This pod of dolphins seems to be under your control! Haha! It's been a long time since I've met a beautiful lady. Moreover, it's a dolphin princess!"

Lust gleamed in the eyes of the middle-aged man. He extended his hand to touch the black liquid at the edge of the sea snake's mouth, licked his fingers and said, "Hey, pretty. Come here!"

"Shit! What is this!?"

Seeing the middle-aged man riding the sea snake, Tang Yinxuan was flabbergasted.

She moved her arm, placed both of her hands on her zither and started playing. A water arrow shot towards the middle-aged man instantly.

"Don't even think of escaping!"

The middle-aged man showed his perverse excitement. Pulling both of his hands back, a snake-skin-like object covered his entire body. At the same time, two poisonous fangs appeared in his hand.

The sea snake below him charged towards Tang Yinxuan at a terrifying speed.

Weng weng!

Argh!

At this moment, the dolphins around Tang Yinxuan made a unified piercing sound which reverberated towards the middle-aged man and the sea snake as an attack.

The next instant, a blood-curdling scream came from the middle-aged man. That

sea snake was also shivering and remained stationary on its spot!

"What's happening?"

A nonchalant voice sounded and Tang Yinxuan could sense seven to eight powerful existences charging towards her!

"Run! We've got to run quickly!"

Tang Yinxuan was astonished. She turned around, placed her hands on the zither, and started playing and launching water waves to the eight middle-aged and old men sitting on the sea snakes behind them.

"There's a beautiful girl on the dolphins! Catch them!"

Haha!

When the members of the Creepy Snake Group saw Tang Yinxuan, they charged rapidly ahead as though they were sharks that had picked up the scent of blood.

Inborn level sea snakes were exceptionally fast and the dolphins couldn't be compared to them at all.

Ji ji!

The next instant, five to six dolphins at the back were attacked by the sea snakes. Their bodies were bitten through in an instant as they fell to the sea bed, vitality slipping out of their bodies.

"Scumbags!"

When Tang Yinxuan saw a few dolphins being killed, she was infuriated. Water arrow after water arrow was launched towards them.

However, the attacks from Tang Yinxuan, who was just at the Inborn Realm, were easily avoided.

"Hey, pretty! Don't run anymore!"

A middle-aged man lowered his stance suddenly as he made a straight dash towards Tang Yinxuan.

Tang Yinxuan was taken aback. Shifting her arm, she drew the longsword kept within the Zither of Hao Zhong and slashed towards the middle-aged man.

Bam!

"I got you, pretty!"

The middle-aged man withstood her attack with the two exceptional large poison fangs in his hands and revealed a sly smile.

Tang Yinxuan instantly felt pain from her belly. Lowering her head, she saw that the fangs of the sea snake had sunk into her. The next instant, she felt her whole body going numb.

Screech, screech, screech!

"What?"

Suddenly, the middle-aged man with a sly smile instantly felt as though ten thousand needles were penetrating his ears as his body went stiff.

Bam!

A pink dolphin that had stayed aside previously had now crashed heavily into his abdomen.

Tang Yinxuan took the opportunity to stab the spiritual sword in her hand into the body of that middle-aged man. After completing her action, she felt her whole body go numb as she slouched onto the dolphin below her.

Weng weng!

That pink bottlenose dolphin let out a shrill cry. Instantly, several dozen dolphins stopped and attacked the seven members from the Creepy Snake Group frantically.

"Kill! Kill all these dolphins!"

A middle-aged man growled in fury.

Swish swish swish!

A short distance away, other members of the Creepy Snake Group rushed over immediately after picking up on the commotion.

"The marine creatures here seem to understand cultivation arts. Don't let even a single one escape. They would be greatly beneficial for our sea snakes!"

A deafening roar sounded in the sea. The crowd of Creepy Snake Group members licked their lips and bloodthirst was evident on their faces.

"These dolphins are so intelligent! Die now!"

An old man swung the poison fang in his hand and easily killed two dolphins.

"Run now!"

Tang Yinxuan struggled to grip her zither as she played a note!

Screech, screech, screech!

When a pink bottlenose dolphin saw its fellow dolphins being killed easily one after another, it turned around, opened its large mouth and let out a bone-chilling screech.

"Go! Little pink nose!"

When Tang Yinxuan saw it stopping, she was flabbergasted as she struggled to scream.

Wu wu!

That pink bottlenose dolphin turned around and shook its head slightly at Tang Yinxuan before opening its mouth slightly.

Around it, over a hundred other dolphins had stopped. The next moment, they charged towards the Creepy Snake Group members as though they had lost their minds.

Screech, screech, screech!

Ear-piercing screeches reverberated as fresh red blood oozed out of their bodies.

The fresh blood instantly dyed the water around them red.

Tang Yinxuan slouched on a dolphin with tears of blood flowing out from her eyes.

# Chapter 678: Assistance

Tang Yinxuan was infuriated as she glared at the back.

Hundreds of dolphins had depleted their energy when they released a daunting sonic attack.

Their bodies collapsed right away.

The dolphins had just started their cultivation, and they were not well-versed in using their energy yet. Exploding domineering power like this was a suicide move.

"Darn, how did these dolphins turn into such wicked demons?"

An infuriated roar came from the back as the members of Creepy Snake Group suffered massive injuries under the dolphins' attack. The sea snakes floated around motionlessly in the seas, as their brains were dead after being struck by the sonic waves.

"Kill those dolphins and seize that girl. Check out what secret she's hiding!" an elder exclaimed as he gave chase immediately.

Seeing the group of people on her heels, Tang Yinxuan paled. She forced herself to sit up and strum chords. The sea waves helped to push the dolphins.

Buzz!

Beside her were Indo-Pacific humpback dolphins with glimmering eyes. They were propelling themselves as they emitted buzzing ripples.

The surrounding dolphins used the skills which they had just cultivated and doubled their speed.

"Hur? What amazing dolphins. But it's wishful thinking, trying to escape!"

Four members of Creepy Snake Group sat on the sea snake a thousand meters behind and exuded icy cold aura like poisonous snakes, giving chase from

behind.

Tang Yinxuan had a slight change in her expression. As she strummed her zither, the Spiritual Energy in her body was quickly depleting.

The toxin in her chest took over her body with numbness. Suddenly, she felt heat embracing her, and her vision was blurred.

She could no longer hold herself as she collapsed on the dolphin. Her zither fell off, sinking slowly to the bottom of the sea.

"To think a pod of marine creatures tried to escape from our pursuit!"

A member of Creepy Snake Group sped up as soon as he spotted the pod of dolphins and sneered.

"Trying to escape, huh!"

The four members of Creepy Snake Group sat on the sea snake as it wavered its tail. A stream of water current gathered, and they sped up by three to four times.

"Hiak hiak, these dolphins are amazing. Their intelligence is so high that they learned how to cultivate by themselves!"

Four members of Creepy Snake Group immediately popped up before the dolphins. As they rode on the sea snake, they swept their cold gazes at them.

"A bunch of animals. How dare you kill two of our members. Go to hell!"

An old man from Creepy Snake Group hopped down from the sea snake and raised the poison fangs in his hand.

A terrifying vortex was formed, exploding all his Dan Realm strength.

The pod of dolphins exhibited a frightful look as they let out a despairing shriek.

"Die!"

The vortex in the hand of that elder grew to a size of a dozen meters before he hurled it far ahead.

Pak!

"All creatures with wisdom are the citizens of Dragon Palace. Whoever kills them shall die!"

Suddenly, an enormous mustard palm descended, wiping out the vortex of a dozen meters.

Prime Minister Turtle clenched his fist, and that Dan Realm expert was crushed into dust.

"What?" The remaining three members of Creepy Snake Group changed their expressions drastically as a huge shadow emerged before them.

The trio quickly spun around only to see a face that struck terror into them.

Behind them, a horrifying monster of eighty meters encompassed them from above.

The monster gave off grey energy that seemed to contain incomparable might around him.

On that monster stood some people. Amongst which was an eccentric old man with a turtle shell on his back.

The three of them went into a trance with their minds going crazy.

A scary monster of eighty meters and a turtle man with a shell?

This...

Boom!

At this time, however, Prime Minister Turtle swung his arm again, and the enormous mustard palm slammed at the trio.

The trio of Creepy Snake Group was killed immediately since they did not have any means to resist it.

Buzz! Buzz!

When the pod of dolphins saw Wang Xian and his gang, they sensed their aura and emitted sound waves.

"All of them developed intelligence, and contain Spiritual Energy within their bodies."

Wang Xian looked downward with radiance flashing in his eyes.

"Dragon King, these dolphins already developed intelligence, and have proceeded to cultivate themselves," Prime Minister Turtle, at the side, said as he stared at the pod of dolphins.

Buzz!

Several pink bottlenose dolphins let out a shriek again, and a pod of dolphins swam over.

The dolphin, which was carrying Tang Yinxuan, also swam towards Wang Xian.

"Dragon King, save her. Save her!"

A weak voice was transmitted to Wang Xian.

"Such a cute dolphin!"

Xiao Yu watched the dolphins with interest on her face. "Hey, brother. There's someone on it!"

"Mm!"

Wang Xian nodded his head and waved his arm. The girl that was on the back of the dolphin slowly floated towards him.

After Wang Xian took Xiao Yu, Lan Qingyue, and the rest back to the Dragon Palace, he ordered all the members of the Dragon Palace to rush over here.

Who knew they would meet someone hunting down a pod of dolphins on their way.

"It's a girl!"

Lan Qingyue and the girls looked over with puzzled looks.

"Hur?"

When Wang Xian saw her face, he was stunned as he revealed a quizzical expression.

Tang Yinxuan. It turned out to be Tang Yinxuan.

"What, Xiao Xian? Do you know her?"

Seeing his surprised look, Lan Qingyue asked this with curiosity.

"Yes, I do!"

Wang Xian nodded his head and swung his arm to hold her body.

"She's beautiful!"

Elder Fang was stunned as she took a glance at Wang Xian.

The rest of the girls, including Lan Qingyue, also looked at him with suggestive looks.

"Ahem, we just met a few times!"

Wang Xian's expression remained unchanged as he placed his hand on her.

"The Saintess of Heavenly Sound Sect did not meet you just a few times. I remember you gifted her a zither too!"

Lan Qingyue stared at Tang Yinxuan with glistening eyes, and no one was sure how Lan Qingyue had gotten her news.

"She got some snake and erotic venom in her!" Sun Lingxiu commented plainly after some light from Sun Lingxiu fell upon Tang Yinxuan.

"If we were not here, Xiao Xian would probably contribute his body as an antidote to this beauty!" Adjaya said with a faint smile.

"What are they talking about!"

Wang Xian instilled Dragon Energy into her body, clearing all the toxins in her body rapidly.

Cough!

Tang Yinxuan opened her eyes and felt nothing wrong with her body. Even her Spiritual Energy was restored. She was slightly stunned before she turned her head around.

For a moment, Tang Yinxuan was stupefied as she looked at Wang Xian with surprise.

She regained consciousness and asked, "Why are you here?"

Upon hearing what Tang Yinxuan had said, Wang Xian felt several sharp gazes looking at him from the surroundings.

Cough!

Wang Xian cleared his throat and forced a smile onto his face. "Yes, it's me. What a coincidence. I never expected to meet you here!"

"Hur?"

Tang Yinxuan looked around with doubt and noticed Xiao Yu, Yinxuan, Sun Lingxiu, Adjaya, and Elder Fang.

When she looked farther, she froze.

An old man was carrying a turtle shell, and a two-meter Devil Monkey was exuding daunting aura.

There was even a clam girl with a huge clamshell?

A huge prawn that could stand?

And tons of odd-looking, scary-looking marine creatures!

# Chapter 679: The Might Of The Dragon Palace

"This... This is...!"

Tang Yinxuan immediately took a look below her feet. That terrifying creature that was over seventy meters huge seemed to be swimming slowly ahead. However, it covered several thousand meters each second.

On the back of this monster, there was a group of terrifying creatures.

From her perspective, the weakest would be the group of dragonians whom she knew a little better!

"They are members of my Dragon Palace!"

Wang Xian turned to Tang Yinxuan and remarked plainly, with no intention to hide it at all.

The Nine Cauldron Worlds were about to descend upon the real world. When the timing was right, he would also reveal the Dragon Palace to the public by announcing their existence.

"Dragon Palace?"

Tang Yinxuan was a little lost as she looked around her in disbelief.

Wu wu!

At this moment, she could hear the screeches of dolphins. She turned around, caressed the dolphin who had been carrying her and asked with a gentle voice, "Are you guys alright?"

Wu wu!

A pink bottlenose dolphin rubbed its face against Tang Yinxuan, shook its head and let out two screeches.

"You are saying they killed over a hundred of your companions?"

When Wang Xian heard the pink bottlenose dolphin, his face darkened as he asked the dolphin this.

Wu wu!

The pink bottlenose dolphin nodded its head and said, "Dragon King, those people are so cruel. Not only did they kill our companions, but they also slaughtered all the marine races around them!"

"I'll take revenge for you!"

A light flickered in Wang Xian eyes as ruthlessness flashed across his eyes.

"You can understand them?"

Tang Yinxuan was astonished as she stood by the side and saw Wang Xian conversing with the pink bottlenose dolphin.

"You could say that they are my citizens!" Wang Xian looked towards the dolphin and smiled.

The pink bottlenose dolphin poked Tang Yinxuan with its nose as it tried to talk to her.

"On stricter terms, these dolphins are the first batch of intelligent creatures within the region of our Dragon Palace. Moreover, from the soundwaves that it emitted previously, they seem to have entered a rather unique path of cultivation!"

Prime Minister Turtle was observing the pod of dolphins while pondering about them.

"If there are intelligent species, we will impart knowledge to them. Even if they can't make it past the Dragon Gate eventually, we still have to guide and restrict them to some extent!"

"Yes, Dragon King!"

Prime Minister Turtle nodded its head. Since the Dragon Palace would be establishing its dynasty within the sea, it would naturally have its citizens.

Ordinary marine creatures wouldn't be considered as their citizens. Only when marine races had their intelligence manifested would they be considered citizens.

For marine races that had no intelligence, their deaths wouldn't be significant.

However, for marine races that had intelligence, the Dragon Palace would have to step in if they were slaughtered rampantly.

In the plans that Wang Xian and Prime Minister Turtle had, the Dragon Palace would only care about the dominance of the seas in the future. Marine creatures wouldn't step onto land and would be restricted from attacking humans.

This would result in an isolated sea civilization.

Just as the marine races were evolving rapidly, the spiritual energy waterfall would be the greatest encounter for them.

However, the marine races were being slaughtered rampantly by humans currently. The Dragon Palace couldn't just ignore it. Not only would the Dragon Palace want to be involved, but they also wanted revenge for the marine races that had been slaughtered!

Wang Xian looked ahead and asked Tang Yinxuan, "Are there many martial artists under the spiritual energy waterfall?"

"I don't know. When we are cultivating under the sea surface, a group of foreign martial artists dived into the water directly and started slaughtering the marine creatures around them."

Tang Yinxuan shook her head and sorrow filled her eyes. The deaths of over a hundred dolphins had truly caused her heart to break.

From her perspective, these dolphins were even more loyal than humans.

"In that case, let's just head there directly!"

Wang Xian didn't question it further. He stood upright while staring coldly

towards his twelve o'clock.

While standing on the Kun, his eyes flickered. In less than two minutes, the pungent scent of blood assailed his nostrils.

"Lots of marine races are dead. At least a billion of them! Although these marine races had no intelligence, they were rather gifted considering that they had arrived under the spiritual energy waterfall in advance!"

Prime Minister Turtle's face darkened upon picking up the scent of blood from the water.

"It seems like they are pretty strong!"

Wang Xian squinted his eyes. A blue and red light flashed in his eyes as he observed his twelve o'clock vigilantly.

Balls of energy appeared in his vision. Among them, Wang Xian saw an existence with an image resembling the vast sea within his body.

That figure was seated and was absorbing the spiritual energy that had fallen into the sea at a frenzied pace.

"Immortal! There's an Immortal Realm existence right ahead!"

Wang Xian lifted his head and looked towards the mountain peak. "It's not just one. There are a total of three of them!"

"Dragon King, no matter how many Immortals they have, we have to take revenge for the hundred citizens of ours that were killed!" Prime Minister Turtle remarked coldly.

"Naturally!"

A faint sense of killing intent emanated from Wang Xian's body.

Roving Heavens and Roving Sword stepped forward and stopped behind Wang Xian.

On a huge Kun, Wang Xian and the other three Immortal-class Dragon Palace

members stood at the very front. Behind them was a group of powerful Dragon Palace members.

The thousand-strong group of Dragon Palace members was starting to exhibit their dominance.

The might of the Dragon Palace was now vaguely visible.

A terrifying aura shrouded forward.

Below the spiritual energy waterfall, countless sea snakes and a middle-aged man sat on the peak of the underwater mountain.

The founder of the Creepy Snake Group sat on the peak of the center mountain and had a greyish poisonous snake wrapped around his neck.

The poison snake rested its head on the old man's head while absorbing the spiritual energy that was falling from the sky.

Weng!

"What horrifying aura!"

At this moment, Da She jerked open his eyes abruptly. A blood-red light flashed across his eyes as he looked ahead.

"What terrifying aura!"

"What's the situation? Could there be other Immortal Realm existences heading here?"

Around him, the crowd of Creepy Snake Group members opened their eyes instantly as they looked ahead in shock.

Boom!

The moment they opened their eyes, they stood up immediately.

Even Da She got on his feet as he stared intensely at the ginormous creature approaching him.

His gaze fell on the group of figures on the ginormous creature and was instantly astonished.

However, the next moment, he flicked his tongue out gradually and licked his lips. His eyes were filled with bloodlust!

Over seventy meters! That's definitely the largest living creature on earth.

"They are the ones!"

Tang Yinxuan, who was standing by the side, was infuriated upon seeing the Creepy Snake Group members.

The pod of dolphins also screeched in anger.

"Rest assured. None of them is getting away today!"

"Dragon King, leave this to my Devil Division!"

Roving Heavens patted his ear and a golden rod appeared in his hand. He lifted the golden rod up with a strong desire for battle as he remarked.

"Alright!"

Wang Xian nodded his head. He turned around to face Roving Sword and Prime Minister Turtle. "Don't let them get away!"

"Rest assured, Dragon King. After killing so many of our citizens, we would never let them escape from this place!"

"Today, we will have the blood of an Immortal for the memorial ceremony of our dead citizens of the Dragon Palace!"

The blood of an Immortal for the memorial ceremony!
